Semester	IV	Specialization	NA
Course Code	402	Type	Generic Core
Course Title	Dissertation		

Course Objectives:	
1	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, and perceptions along with the experience needed to constitute a professional identity.
2	To provide means to immerse students in actual supervised professional experiences
3	To gain deeper understanding in specific areas.

Dissertation:

In Semester IV the student shall work under the supervision of the Faculty and carry out a dissertation and submit a structured report in TWO hard copies & one soft copy (CD). In the interest of environmental considerations, students are encouraged to print their dissertation reports on both faces of the paper.

The student is required to conduct advanced research on a topic related to one (or more) of contemporary issues in management. The topic is chosen in consultation with the student's supervisor.

The student will prepare and present a detailed research proposal prior to starting the work. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic before commencing the dissertation work. A dissertation outlining the entire problem, including a survey of literature and the various results obtained along with their solutions is expected to be produced. The student must submit the completed dissertation and make an oral presentation of the same. Through the dissertation, the student is expected to furnish evidence of competence in understanding varied aspects of the theme/topic selected and a deep understanding of the specialty area. The completion of the dissertation / project shall be certified by the Faculty Guide & approved by the Director of the Institute.

There will be concurrent evaluation for 50 marks and external evaluation of 50 marks.

The student can undergo desk research or field research and can follow the guidelines mentioned in the SIP for preparation of their final hard copy.

The Panel shall comprise of 2 Faculty members (One who has guided the student and the other appointed by SPPU).

MBA SYLLABUS: SEMESTER IV
MARKETING MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	Marketing

Course Title	Financial Modeling using Excel		

Course Objectives:

1	To develop the ability to utilize the core functionality of excel in decision framework to solve managerial problems in the finance functions of the business.
2	To master modeling techniques to eliminate the substantial risk of poor spreadsheet coding.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Modeling Practice And Principles: Making decisions based on numbers, Features of MS Excel to its maximum advantage to calculate and communicate decision information. Understanding The Make-Up Of Analytical Decision Calculus, How problems in business are framed, Construction of integrated financial statement, Developing the decision matrix, Case Studies. Excel 2010 Logic And Tool Sets - How Excel is structured – the Toolsets, The Excel Ribbon Interface, Understanding Excel Objects, The limitations of Excel, Working With Functions - Utilizing the existing Excel formulae functions: Financial, Logical, Date and Time, Lookup and Reference, Statistical, Strategy for developing nested formulae functions, Good Excel coding techniques. Consolidation: Linking principles in excel, Consolidation function, Outlining function, Linking to external data sources.	5 + 1
2	Exploring The Visualization Power Of Excel: Specific functions of Excel, Advanced Chars, Understanding the Excel for Charts, What are the appropriate graphs to assist in analytics? Examining the different types of graphs, Advanced graphing formatting techniques, Creating interactive graphs. Advanced Formatting Techniques - Formatting strategies in Excel – how we develop rich reports, Examining the Conditional Formatting functionality, Inserting Objects into Excel. Developing A Dashboard - What is a dashboard and good design principles, Utilizing Indirect, Lookup and Match functions, Using SLICERS, Case Study – Producing world class Monthly Management Accounts.	5 + 1
3	Data And Statistical Analysis of Large Tables: Data Management In Excel, Examining the concept of data and how excel deals with them, Creating data input tables , Data cleaning functions, Creating tables, Filtering functions, Special functions using tables, Case study – analyzing a large marketing customer. Analyzing Data with Excel Pivot - Understanding what is OLAP, Importing from external Databases (SQL and Access), Performing calculations in PIVOT TABLE, Creating graphs in PIVOT CHART, Case Study – analyzing a large Sales Database. Data Analysis: Data Summation and Graphing using the Data Analysis Pack, Introduction to Inference Capabilities, Working with advanced statistical functions, Forecasting, Multiple Regression, Other Advanced Functions - Linear Programming, Data mining Toolset from SQL 2008.	5 + 1
4	Developing The Interactive Model: The Modeling Methodology, Designing the Model Structure , Developing the Input Screen and assumption	5 + 1

	interface, Incorporating exogenous and macroeconomic dimensions, Structuring the Calculation Sheets, Developing The Calculation Modules - Investment size and timing, Capacity Modeling, Revenue Modeling with major emphasis on pricing elasticity and demand drivers, Cost modeling and the impact of inflation. Funding Considerations - Structuring the Funding Model, Determining the Weighted Average Cost of Capital, Developing the Debt Funding Repayment Schedules, Integrating the modules, Developing the Working Capital requirements - Linking the CAPEX, Income Statement and Working Capital to Cash Flow Statement, Integrating the Cash flow Statement to the Balance Sheet, Developing the Free Cash Flow Model for NPV , Summarizing the results. Auditing The Model - Spreadsheet Audit, Stress testing the model to determine logic, Documentation.	
5	Modeling Analytics: Developing The Output Screens And Report, Developing an Investment Dashboard, Preparing the report outputs, Report presentation dynamics, Examining The Output, “What If” functionality of Excel to analyze the sensitivity of the numbers, Preparing the DATA TABLES to determine the impact of key variables, Utilizing the SCENARIO MANAGER to determine profitability, Utilizing the GOAL SEEK function, Preparing The Investment Report To Management- Preparation of Investment Report that complies with disclosure requirement, Dealing with risk and the limitations of the assessment, Assessing the Cash Flow of a “no-invest” option, Writing up the investment report utilizing the rich features of Word 2010. Presenting the Report - Using PowerPoint 2010, Web enable your report, Good presentation technique.	5 + 1

Note:

1	Depending upon the data available regarding research projects available with the institute, small assignments can be created to develop the models using Excel. Selecting different sectors and using their cost structure develop models for financial analysis and decision making. Risk measurement and portfolio management tools also can be incorporated in the same.

Semester	IV	Specialization	Finance
Course Code	407 FIN	Type	Subject – Elective
Course Title	Financial Risk Management		

Course Objectives:

1	To understand what is risk and the basic concepts of modeling its application for measuring and managing financial risks
2	To measure volatility in market prices, highlight Risk Management issues in investments.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Risks: Financial Risk: An Overview, Evolution, and the Environment, Risks definition (market, credit, liquidity, operational), more specifically on the identification of different forms of risk (currency, interest rate, equity, commodity). Market Data Analysis, Probability and distributions of asset prices, measuring return and risk, Modeling Risk Factors, Using implied volatility in Value-at-Risk measures.	5 + 1
2	Risk and volatility Measurement : Risk and volatility Measurement, the issue of time aggregation, different measures of volatility such as EWMA, ARCH & GARCH processes, volatility clusters and the issue of time varying volatility . Measuring risk using Value-at-Risk, concept and computation of VAR using variance-covariance approach, Calculating portfolio risk of more than one Assets. Historical simulation & multifactor Var, marginal and relative var, expected shortfalls, treasury applications Stress testing and back-testing, Forecasting correlation & Volatility during market crash, Extreme Value Theory - Basic Principles, Extreme Value Theory methods in measuring financial risk, Monte Carlo simulation, issues in generating price process (Brownian Motion, Ito Process), Cholesky decomposition in computing multi-asset VaR. Risk & Forecasting issues in asset prices (exchange rates & interest rates), modeling interest rates such as Cox-Ingersoll-Ross Models, ARMA processes in generating currency forecasts and using in decision making.	5 + 1
3	Currency risk analysis: Currency risk analysis in global investing, interest rate parity (covered and uncovered), yen-carry trade syndrome, risk environment in Indian Forex markets, forwards and non- deliverable forwards, cross-currency risk analysis. Value at risk for fixed income portfolio, cash flows mapping in fixed income portfolios, relation of Var measures with duration, comparing with yield v/s price volatility, etc.	5 + 1
4	Credit Risk Basics: Probability of Default, Credit ratings & Transition Matrix analysis, Contingent claim approach and the KMV Model, Credit Risk Management and Credit VaR. Indian environment in VaR applications (NSE, BSE, NCDEX, CCIL), RBI guidelines for credit & market risk management, VaR based margining.	5 + 1
5	Integrated Risk Management framework: Operational, An integrated approach to risk management considering issues such as operational, supervisory, legal, Accounting, Issue of Governance ratings and risk in institutions, the role of risk management offices (front, middle and back	5 + 1

	offices), Risk reporting, Risk Budgeting and Setting Risk Limits, limits using notional, stop loss and Var based limits, establishing trading limits.	
--	---	--

Note:

1	In addition to suggested case discussion, live cases can be built and studied using Excel, live price movements on stock exchanges along with statistical tools. Valuation and risk modeling with the link to Financial statement analysis can be used to create live assignments.

Semester	III	Specialization	Finance
Course Code	408 FIN	Type	Subject – Elective
Course Title	Online Trading of Financial Assets		

Course Objectives:

1	To understand how to do the trading of financial assets online.
2	To know practically the prerequisites of trading.
3	To analyze the securities using the MIS reports available online.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of Capital Markets: Overview of Indian Capital Market and Global Capital Market, Stock exchanges in India: Vision, Mission and Functions, Products & Participants, Key indicators of securities market, market segments & their products, options available with investors for trading online.	3 + 1
2	Products in Capital Markets: Capital Market(Equity, Indices, MFs, ETFs, IPOs, Offer for sale, IPP, SLBs) Derivatives (Equity derivatives, Currency Derivative, Interest rate derivatives, Global indices) Debt (Retail debt market, Wholesale debt market, Corporate bonds) Investors' rights and obligations	6 + 1
3	Trading Online: Pre requirements and documentation, Online trading and mobile applications, Verifying trades, contract notes, bills, demands Verifying margin requirements and balance in trading account	6 + 1
4	Analysis using online information: Using online reports and charts for analysis and decision making (daily, monthly)...creating data base for your portfolio, Understanding Trading, Clearing & settlement and Risk Management related to each product in Capital Market	6 + 1
5	Profit Management: Managing online 3 portfolios and related customized market watch (e.g. My NSE) along with related detailed MIS in excel	4 + 1

Semester	III	Specialization	Finance
Course Code	410 FIN	Type	Subject – Elective
Course Title	Wealth and Portfolio Management		

Course Objectives:

1	To understand the concept of Wealth Management.
2	To understand the concept of Portfolio Management.
3	To understand various tools and methods of evaluating the portfolio.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: objectives of investment decisions, types of investors, goal of investors, investment opportunities (debt instruments, equity instruments, derivatives and others), Investment and risk management : equity, debt, alternate assets, Investment products and services.	5 + 1
2	Wealth Management: Concept, measuring investment returns in wealth management, investment vehicles of wealth management, managing investment risk in wealth management, Indian Tax Laws & Taxation of investment products, wealth management planning / financial planning, Financial planning process, systematic approach to investing.	4 + 1
3	Portfolio Management - Active v/s Passive Portfolio Management, Costs of Management – Entry / Exit load and fees, Net Asset Value, Classification of funds, Phases of portfolio management, evolution of portfolio management, role of portfolio management, Portfolio building process – benchmark portfolios, market index portfolios, approaches for building portfolios - building bond portfolios, equity portfolios, mixed portfolio, Rebalancing Portfolios, Cost benefit analysis of Portfolio Rebalancing, Portfolio Management Plans, Portfolio Management plans under different market scenarios.	6 + 1
4	Portfolio analysis & Selection: Expected return of portfolio, risk of a portfolio, Diversification - a tool for reducing risk, portfolio having more than two securities Portfolio Revision: Need for revision, Meaning of portfolio revision Constraints, strategies, plans for revision Portfolio Evaluation: Need, meaning, Differential return, Decomposition of performance, Sharpe's Portfolio Performance Measure, Treynor's Portfolio Performance Measure, Jensen's Portfolio Performance Measure. Forecasting Portfolio Performance & Hedging Portfolio Risk.	4 + 1
5	Portfolio Theory - Efficient Market Theory, Capital Asset Pricing Model (CAPM), Random Walk theory, Markowitz Model, Sharpe's single index portfolio selection method, Arbitrage Pricing Theory.	6 + 1

Learning Resources:

Semester	IV	Specialization	Finance
Course code	411 FIN	Type	Elective Courses
Course Title	Fixed Income Securities & Technical Analysis		

Course Objectives:

1. To analyze the fixed income securities markets and its implications for investments.
2. To explain the market characteristics, instruments, selling techniques, pricing and valuation issues with money market instruments.
3. To explain the specific features of the Indian Fixed Income Securities Markets.

Syllabus:

Unit Number	Contents	
Unit – 1	<p>Introduction: Fixed Income Markets, Institutional Arrangements, Market Participants and Instruments, Investors Perspectives, & Market Conventions, features of government securities market, Understanding market linkages, bonds and money market instruments, MIFOR Curve. Risk Identification in Bonds: Duration, Convexity, and Immunization. Risk measurement in fixed income securities using value at risk, STRIPS, Theories of Term Structure of Interest Rates, Term structure and the economy, Treasury Securities Auction, Market Implications, When-Issued markets, Government securities auction & Bidding, Uniform v/s discriminatory auction, bidding behavior, winners curse analysis.</p> <p>Bond Valuation: Time Value of Money, Price and Yield Conventions, Bond Valuation under flat term structure, Yield & return & horizon return, Valuation of other Bonds, Floating Rate securities, index bonds, illiquid bonds, Corporate Debt Valuation, valuation of convertibles, Bond Indexing, methodology for constructing a bond index, index return comparison.</p>	6 + 1
Unit – 2	<p>Yield Curve Analysis: Par Value, Zero, Spot Curve, Bootstrapping, spot & forward rates, (Nelson-Seigel model of the Indian NSE) Auction Game: Portfolio construction, setting portfolio objectives, interpreting portfolio parameters, Passive v/s Active portfolio management strategies, bullet v/s barbell, other strategies. Global Bond Markets, foreign currency bonds, dual currency bonds, analysis of global bond spread behavior in recent times. Fixed Income Derivative Markets: FRAs, Interest rate Swaps, swap pricing and swap curve, Interest rate futures, Interest Rate Options, Caps & Floors pricing.</p>	5 + 1
Unit – 3	<p>Advanced Term Structure Modeling (Cox-Ingersoll-Ross, Vasicek), Black- Derman-Toy (BDT) model representing binomial tree model of valuation of bonds with embedded options, Markets for Asset Backed Securities, Prime and Subprime Mortgage-Backed Securities. Fixed Income Investing: An Analysis</p> <p>& Strategies, Summary of learning experience. Technical Analysis :Technical analysis – definition and concept, Price discounts everything , Price movements are not totally random , Technical Analysis: the basic assumptions, Strengths and weakness of technical analysis, Importance of technical analysis, Constructing and Interpreting Charts and the significance of volume while using patterns, chart patterns (bar chart, line chart, point & figure chart & candle stick chart), Understanding the psychology behind a pattern and its</p>	6 + 1

	formation, Evolving a Trading strategy based on patterns, Candlestick analysis	
Unit – 4	<p>What to look for on charts – Trends, Support & Resistance levels, Moving Average, P Gaps, Volume, Comparative Relative Strength, Head and shoulders top reversal, Inverted head and shoulders, Head and shoulders bottom, Double top and double bottom, Rounded top and bottom, Gap theory, Common gaps, Breakaway gaps, Runaway/continuation gap, Exhaustion gap, Island cluster. Indicators and Oscillators: Indicators - Covering the set of classical as well as unconventional indicators and focus on their application towards investments / positions / day trading, Moving Averages: An in-depth study of Moving Averages and the role it plays in determining a trade, multiple uses of Moving Averages for different time horizons of trades, Oscillators, Relative strength index , What is momentum?</p> <p>Applications of RSI , Overbought and oversold , Divergence , Stochastic , William %R, Real life problems in use of RSI, Advanced concepts – Moving average convergence/divergence(MACD) , calculations for MACD , MACD benefits , uses , Money Flow Index, Bollinger Bands, Using multiple indicators for trading signals, Price sensitive technique, Volume sensitive techniques , Composite methods, How to use tool kit of trading techniques? Trading market tool kit applications, Bull market tool kit applications, Bear market tool kit applications, Trading market changing to bull market tool kit application , Trading market changing to bear market tool kit application, Bull market changing to trading market tool kit application , Bear market changing to trading market tool kit application.</p>	6 + 1
Unit – 5	<p>Trading Strategies: Day trading, Advantages of day trading, Risks associated with risk day trading, Strategies for day trading, Momentum trading strategies. Technical Theories: Dow Theory and Elliot Wave Theory - Introduction , Principles of Dow Theory , Significance of Dow Theory , Problems with Dow Theory , Elliot Wave - Introduction , Fundamental Concept , After Elliott Trading Psychology & Risk Management: Introduction , Risk Management , Components of risk management, Stop loss, Analyze reward risk ratio, Trail stop loss, Booking Profit, Uses of stop loss , Qualities of successful trader , Golden rules of traders , Do's and don'ts in trading , Rules to stop losing money Choosing the right market to trade, Importance of discipline in trading.</p>	5 + 1

Learning Resources:

Semester	III	Specialization	Finance
Course Code	412 FIN	Type	Subject – Elective
Course Title	Commodity Markets		

Course Objectives:

1	To equip young managers with the knowledge of emerging commodities derivatives trading practices in India.
2	To explain the regulatory framework of these markets and domestic and international historical developments in commodities market.
3	To highlight the importance of hedgers, speculators and arbitragers.
4	To highlight the importance of Commodity indices as an investment class.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Historical changes and growth of global and domestic Commodities derivatives markets, FCR Act 1952 and Regulatory structure of Commodities Derivatives Markets in India, Commodities as a New Asset Class, International commodity indices and as an investment tool for investors, Internationally traded Commodities based ETFs, Difference between commodity and financial derivatives, Evolution of Commodity Exchange, NCDEX Platform - Structure of NCDEX, exchange membership, capital requirements, commodities traded on NCDEX platform, instruments available for trading, pricing of commodity futures, trading, clearing, settlement and risk management, use of commodity futures in hedging, speculation and arbitrage.	5 + 1
2	Product Design: Issues Related to Product Design and contract specifications, Issues related to Spot price and present practices of commodities exchanges, Basis Risk and its importance in pricing, Commodity Options on Futures and its mechanism	5 + 1
3	Market Mechanism: Clearing House operations and Risk Management Procedures, Delivery Related Issues like delivery centers, deliverable varieties, assaying, Issues related to monitoring and surveillance by Exchanges and Regulator, Role of intermediaries in Commodities Markets	5 + 1
4	Agricultural Commodities Markets & Non- Agricultural Commodities Markets: Issues in Agricultural Commodities Markets, Agricultural Commodity Futures trading pattern in Exchange – Case study , Issues in Non-Agricultural Commodities Markets, Commodities Derivative Exchanges and design of the markets, Non- Agricultural Commodity Futures trading pattern in Exchange – Case study	5 + 1
5	Regulation Framework & Taxation Aspects: Essential Commodities Act and role of state governments, Intermediaries, Investor Grievances and arbitration, Implications of Sales Tax, Warehousing Act Bill and its implications. Commodity Research: Introduction to Fundamental and technical analysis of commodity.	5 + 1

Learning Resources:

Semester	IV	Specialization	Finance
Course Code	413 FIN	Type	Elective
Course Title	Financing Rural Development		

Course Objectives:	
1	To understand the need and importance of financing rural development.
2	To know the schemes floated by the Government of India and its scope.
3	To analyze the needs of rural businesses and its viability.

Syllabus:

Unit Number	Content	Sessions
1	Rural Financial Services: Introduction, rural indebtedness – causes – Magnitude and legislation – rural financial markets formal/informal Need and Nature of financial services, Rural credit needs, estimate of credit requirements. Financial services paradigm shift-supply vs. demand led financial services – selling vs. marketing – design and delivery of financial services understanding rural clientele, Area approach and Credit Planning: Lead Bank scheme – priority sector lending –Innovation in rural lending.	5+1
2	Assessment of Credit Needs: Production credit – crop loan requirements–rescheduling in case of crop failure and recovery through sale of crops by tie up arrangements with marketing societies. Financing of Trade and Business: Appraisal of rural non- farm sector schemes – concepts of rural non- farm sector – importance in employment generation – Khadi and village industries, village and cottage industries, tiny industries, Draft rural industrialization policy of Govt. of India Entrepreneurship development programs, composite loan scheme.	5+1
3	Investment credit: Project approach and appraisal of investment – technical, financial, commercial, social and economic feasibility – cost benefit analysis and return on investment – determining bank loan, repayment schedule with built in monitoring and evaluation mechanism.	5+1
4	Government Initiatives involving Bank Credit: Poverty alleviation Programs/employment programs/ production oriented programs – rationale and philosophy, progress and impact, problems and deficiencies. IRDP, DWACRA, TRYSEM.SCAP/STAP, MNPA, JRY – Mehta Committee Report on IRDP.	5+1
5	Problems and Prospects in Rural Financing: Problems and prospects in rural	5+1

	financing – sustainability and outreach – overdue – Examples of Rural Banking.

Semester	IV	Specialization	Finance
Course Code	414 FIN	Type	Elective
Course Title	Principles of Insurance		

Course Objectives:	
1	To understand the various operations involved in managing insurance.
2	To understand the pricing, financing and risk diversification strategies of insurance companies

Syllabus:

Unit Number	Content	Sessions
1	Fundamentals: Functions and Organization of Insurance -Types of Organization– Organization Structure-Function of Insurers	4+1
2	Underwriting, Claims, Intermediaries: Underwriting - Objectives and Principles- Underwriting in Life Insurance - Underwriting in Non- Life Insurance. Claims Management – Principles - Claim Settlement in Life Insurance - Claim Settlement in General Insurance - Repudiation of Claims. Insurance Intermediaries - Distribution of Insurance products - Role of Intermediaries - Surveyors and Loss Assessors - Third Party Administrators – Agents – Brokers - Corporate Agents- Banc assurance — Ombudsman – Lok-Adalats	5+1
3	Pricing And Finance: Insurance Pricing - Pricing Objectives - Types of Rating - Rating Considerations - Rating in Life Insurance - Rate Making Entities – Rate Making in General Insurance – De tariffing and its impact in India. Financial Aspects of Insurance Companies - Balance Sheet, Profit and Loss Account of Insurance Companies - Ratio Analysis in Insurance Companies - Risk Return Trade off -Measuring Financial Performance	6+1
4	Marketing of Insurance Products: Marketing of Insurance Products – Marketing Practices - Critical success Factors for Insurance Marketers – Distribution Channels - e-Commerce in Insurance Industry - Case studies of Indian Companies	5+1
5	Risk Management: Reinsurance - Principles, Role, Nature and Techniques of Reinsurance - Reinsurance in Indian Perspective - Global Reinsurance Market - Reinsurance Trading. Risk Management in Insurance Companies - Evaluation of Risk in Insurance Services - Risk Management Systems - Management of Systematic Risk - IRDA Framework for Risk Management – Catastrophe (CAT)Bonds	5+1

Learning Sources:

MBA SYLLABUS: SEMESTER IV
INFORMATION TECHNOLOGY MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	Information Technology
Course Code	403IT	Type	Subject Core
Course Title	Software Project Management		

Course Objectives:

1	To understand different aspects of Software Project Management as an important field of practice under IT Management
2	To learn tools and techniques of Software Project Management
3	To understand importance of, and learning techniques to ensure, software quality
4	To learn to use a Software Package for Software Project Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Software Project Management – Software Projects Vs. Other Projects – Contract Management and Technical Project Management – Activities under technical project management – Plans, Methods and Methodology – Stakeholders – Business Case.	7 + 1
2	Project Planning, Evaluation and Program Management – Steps in Project Planning and Project Evaluation – Strategic Assessment – Technical Assessment – Cost Benefit Analysis –Cash Flow Forecasting – Process Models – Prototyping – Dynamic Systems Development – Extreme Programming – Managing Iterative Processes.	7 + 2
3	Software Effort Estimation – Estimation Techniques – Expert Judgment – Analogy – Function Point Analysis – Object Points – Procedural Codes – COCOMO Model Activity Planning – Project Schedules – Sequencing and Scheduling – Network Planning – Using PERT and CPM for activity planning – Forward Pass – Backward Pass – Activity-on-arrow networks Managing Contracts – Types of contracts – Stages in contract placement – Contract Management and Acceptance Software Quality Management – Defining Software Quality – Requisite ISO Standards – Product Vs. Process Quality – Enhancing Software Quality – Quality Planning	9+2
4	Risk Management in Software Projects – Nature and Types of risk – Managing risks – Risk Analysis, Planning and Control – Strategies for risk reduction – PERT as a tool of Risk Management Resource Monitoring and Control–Creating Control Framework – Reporting for	7+2

	Control – Visualizing Progress – Cost Monitoring – Change Control	
5	Using Project Management Software – Introduction to either of Microsoft Project 2010, Prince2 and Primavera and learning to use any one of these products	5+3

Learning Resources:

1	Text Books	Software Project Management, 5 th Edition, Hughes, Cotterel, Rajib Mall, Tata McGraw Hill
2	Reference Books	Software Project management in practice by Pankaj Jalote Software project management by Rajendra Mishra
3	Supplementary Reading Material	
4	Websites	www.projectbubble.com www.sei.cmu.edu
5	Journals	International Journal of Software Project management

Semester	IV	Specialization	Information Technology
Course Code	404IT	Type	Subject Core

Course Title	Enterprise Resource Planning
--------------	------------------------------

Course Objectives:

1	To acquire in-depth knowledge of ERP as a prime Application Software product
2	To learn operational aspects of ERP implementation and support
3	To know features of important ERP modules
4	To learn, through case studies, practical aspects of ERP in various industries

Syllabus:

Unit Number	Contents	Number of Sessions
1	Enterprise Resource Planning What is ERP? - Features of ERP (Basic and Advanced) – ERP Architecture – ERP Need Analysis – Return on Investment for ERP	7+2
2	ERP Implementation and Support ERP Life Cycle, Methodologies and Strategy – Vendor and Software Selection –Business Process Re-engineering related to ERP - Implementation Process – Change Management – Post Implementation Support, Maintenance, Security	5+2
3	ERP Functional Modules Human Resource Management Accounting and Finance Procurement, Inventory Control Production Planning, Operations Sales, Customer Relationship Management e-Commerce	9+2
4	ERP Technology Areas, Enterprise Applications Portal and Content Management, Data Warehousing and Data Mining, Business Intelligence and Analytics - Emerging Trends in ERP Applications	7+2
5	ERP Case Studies Case Studies of ERP Implementation in Manufacturing and Service Sectors	7+2

Learning Resources:		
1	Text Books	Enterprise Resource Planning, Ray, Tata McGraw Hill
2	Reference Books	ERP Demystified, Alexis Leon, Tata McGraw Hill Enterprise Resource Planning, A Managerial Perspective, Goyal, Tata McGraw Hill
3	Supplementary Reading Material	Enterprise Resource Planning (ERP): A review of the literature by Young B. Moon, International Journal of Management and Enterprise Development, Vol. 4, No. 3
4	Websites	www.sap.com erp.iitkgp.ernet.in
5	Journals	Journal of Enterprise Resource Planning Studies

Semester	IV	Specialization	Information Technology
Course Code	4051T	Type	Subject - Elective
Course Title	Web Designing & Multimedia Applications		

Course Objectives:

1	To acquire technical competence in Web Designing and Multimedia Applications
2	To learn to use HTML, VB Script and Java script
3	To integrate Web and Multimedia with business objectives of the organization

Syllabus:

Unit Number	Contents	Number of Sessions
1	Multimedia and hypermedia, world wide web, overview of multimedia software tools. Graphics and image data representation graphics/image data types, file formats, Color in image and video: color science, color models in images, color models in video.	5+1
2	Fundamental concepts in video and digital audio Types of video signals, analog video, digital video, digitization of sound, MIDI, quantization and transmission of audio.	5+1
3	HTML - tags, lists, tables, Frames, layers , using images in web pages and DHTML	5+1
4	Introduction in VB Script - Data types, operators, control structures, functions and strings.	5+1
5	Introduction to java script - Operators, identifiers, control structures, functions arrays and error handling.	5+1

Learning Resources:

1	Text Books	Mastering HTML- CYBEX Publication
2	Reference Books	Complete Reference VB Script and Java Script – Tata McGraw Hill Dynamic HTML- O'Reilly Media Internet & Web Technologies- Tata McGraw-Hill Education
3	Supplementary Reading Material	
4	Websites	www.3school.com
5	Journals	International Journal of Web & Semantic Technology

		Web Technology Journal
--	--	------------------------

Semester	IV	Specialization	Information Technology
Course Code	406IT	Type	Subject - Elective
Course Title	Network Technologies& Security		

Course Objectives:

1	To acquire an overview of (but not technical proficiency in) various computer networks, technologies behind networks and application protocols, e-mail and communication protocols
2	To develop awareness of managing networks well so as to offer high quality service to the users

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Networking:Hardware Architecture, Topologies, Media, Devices. Transmission Technique , Twisted Pair, Coaxial Cable, Fiber optics, Wireless Transmission Switching, Circuit Switching, Message Switching, Packet Switching</p> <p>Common Network Architecture:Connection oriented Networks, Connectionless Networks Example of Networks -P2P, X.25, ATM, Ethernet Wireless LANs - 802.11, 802.11x, Gigabit</p>	5+1
2	<p>The OSI Reference Model:Protocol Layering, TCP/IP Model, OSI vs. TCP/IP</p> <p>Local Area Networks:Components & Technology, Access Technique, Transmission Protocol & Media</p> <p>Broad Band Networks:Integrated Service Digital Networks (ISDN), Broad Band ISDN, ATM, ATM Traffic Management. Introduction to Very Small Aperture Terminal(VSAT)</p>	5+1
3	<p>IP Addressing & Routing:IP addresses – Network Part and Host Part, Network Masks, Network addresses and Broadcast addresses, Address Classes, Loop Back Address, IP routing Concepts, Routing</p> <p>Tables, Stream & Packets. What IP does? What TCP does? Sliding Windows, TCP – a reliable pipe, TCP connection – Multiple conversations, Port Numbers, Multiple Connection from many hosts and one host. IPV6: The next generation Protocol</p> <p>Domain Network Services (DNS): Domain Names, Authoritative Hosts, Delegating Authority, Resource Records, SOA records, DNS protocol, DHCP & Scope Resolution</p> <p>SNMP:An IP Management Protocol Network Management protocols SNMP the Simple Network Management Protocol, Agents & Managers, SNMP Organization, Object Identifiers, Problem withSNMP</p>	5+1
4	Network Applications: (HTTP, Email, etc.)Hyper Text Transfer Protocol (HTTP)	5+1

	<p>HTTP communications - HTTP request, Request Headers, Responses, Status Code, Error Status.</p> <p>Code Email- Sending & Receiving Emails, Email Addressing, Message Structure MIME–Multipurpose Internet Mail Extensions SMTP–Simple Mail Transfer Protocol with examples Mail Exchangers – Delivering a message, Mail Boxes. POP – Post Office Protocol. IMAP – Internet Message Access Protocol. FTP – File Transfer Protocol. Telnet – Remote Communication Protocol. Proxy Server, Proxy Web Servers.</p>	
5	<p>Network Security: Threats, Packet-filtering firewalls, Firewall policies and rules, Common Problem with Packet Filtering, SSL – Secure Socket Layer, Internet Protocol Security (IPSEC) , Virtual Private Networks, Symmetric Key Signatures, Public key Signatures, The Birthday Attack</p>	5+1

Learning Resources:		
1	Text Books	Computer Networks Andrew S. Tanenbaum 4e
2	Reference Books	<p>Network Essential Notes GSW MCSE Study Notes</p> <p>Internetworking Technology Handbook CISCO System</p> <p>Introduction to Networking and Data Communications Eugene Blanchard</p>
3	Supplementary Reading Material	Computer Networks and Internets with Internet Applications Douglas E. Comer
4	Websites	www.cert.org
5	Journals	<p>International Journals of Internet Security & Its Applications</p> <p>International Journal of Wireless Networks and Broadband Technologies</p>

Semester	IV	Specialization	Information Technology
Course Code	4071T	Type	Subject - Elective
Course Title	Database Administration		

Course Objectives:

1	To know duties and responsibilities of a Data Base Administrator
2	To learn DBA skills through select tasks

Syllabus:

Unit Number	Contents	Number of Sessions
1	Job Specifications of Data Base Administration. Overview of Memory structure, process structure and storage structure of Oracle , Installation of Oracle using Oracle Universal Installer	6
2	Create database using DBCA, startup and shutdown of oracle using log and trace files and data dictionary	6
3	Configure and manage oracle network, create and manage tablespaces	6
4	Create and manage database user accounts, privileges, role and profiles	6
5	Monitor and resolve locking conflicts, manage undo.	6

Learning Resources:

1	Text Books	Oracle 9i, 10g or 11g Manuals
2	Reference Books	Database Administration: The Complete Guide to Practices and Procedures by Craig Mullins DBA Survivor Expert Oracle Database Administration by Sam Alapati, Dreamtech Press
3	Supplementary Reading Material	
4	Websites	www.databasejournals.com www.dbametrics.com
5	Journals	Database Journals: The knowledge center for database professionals

Semester	IV	Specialization	Information Technology
Course Code	408IT	Type	Subject - Elective
Course Title	Software Testing Methods		

Course Objectives:	
1	To understand scope of Software Testing Activity
2	To learn tools and techniques of Software Testing
3	To develop skill to design suitable test procedure in a given software development environment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Software Testing Principles: Basic concepts - Need of testing , errors, faults, defects Defects – Process defects, design defects, data defects Reducing the frequency of defects in software development Factors affecting software testing Testing constraints Life cycle testing Tester's workbench	5+1
2	Levels of Testing: Verification and Validation Functional and Structural Testing Static and Dynamic Testing V Concept of Testing with Testing Stages Types of Testing: Unit Testing, Integration Testing, System Testing- Performance, Load, Stress, Volume Testing, Regression Testing, Alpha, Beta and Acceptance Testing , Functional Testing, Performance Testing, Recovery Testing, White Box Testing, Black Box Testing, Gray Box Testing Security testing- Types of Security Testing:	5+1

	<p>Network Scanning, Vulnerability Scanning, Password Cracking, Log Reviews, File Integrity Checkers, Virus Detectors, Penetration Testing</p> <p>Usability Testing</p> <p>Manual versus Automated Testing</p> <p>Static versus Dynamic Testing</p> <p>Compliance Testing</p>	
3	<p>Test Management:</p> <p>Testing Life Cycle – Roles and activities,</p> <p>Test Planning – forming a test team, develop test plan reviews, structured walkthroughs</p> <p>Test Cases design strategies</p> <p>Test Execution: build test data, life cycle of defect, defect tracking, defect detection stages, defect detection stages, defect types, defect severity, defect analysis and prevention.</p>	5+1
4	<p>Functional Testing(black box): random testing, equivalence class partitioning and boundary value analysis, Cause effect graphing, Syntax testing</p> <p>Structural Testing(white box): test adequacy criteria, coverage</p> <p>(Branch and decision coverage, path coverage) and control flow graphs, paths, loop testing, mutation testing.</p> <p>Black Box testing versus White Box Testing</p>	5+1
5	Overview of testing tools including open source tools for software testing	5+1

Learning Resources:

1	Text Books	Effective Methods for Software Testing, William E Perry, 2nd Edition, Wiley Publication
2	Reference Books	<p>Practical Software Testing, Ilen Burnstein, Springer Publication, 2003</p> <p>Software Testing and continuous Quality improvement, William E Lewis, CRC Press, 2009</p> <p>Software Engineering , Pressman, Fifth Edition</p>
3	Supplementary Reading Material	

4	Websites	www.onestoptesting.com
5	Journals	Software Testing, Verification and Reliability, Wiley Automated Software Engineering, MetaPress

Semester	IV	Specialization	Information Technology
Course Code	409IT	Type	Subject - Elective
Course Title	Information Security & Audit		

Course Objectives:

1	To understand perspectives of Information Security risks
2	To appreciate security audit as a preventive system
3	To know other techniques / approaches of risk prevention

Syllabus:

Unit Number	Contents	Number of Sessions
1	Information Security Risk Analysis Fundamentals. Importance of Physical Security and Biometric Controls for Protecting Information Systems Assets.	5+1
2	Overview of Network Security Perspectives, Networking and Digital Communications, Security of Wireless Networks.	5+1
3	Cryptographic Techniques and Encryption. Intrusion Detection Systems and Firewalls. Security of Virtual Private Networks.	5+1
4	Auditing concepts - Information Security Audit - Need, Concept, Standards, Performance, Steps, Techniques, Methodologies, around and through computer	5+1
5	Controls – Concept, Objectives, Types, Risk, Exposure	5+1

Learning Resources:

1	Text Books	Information Security and Auditing in the Digital Age by: Amjad Umar
2	Reference Books	Computer Security, Art and Science by Matt Bishop, Pearson Management Information Systems by Laudon, Laudon, Dass, Pearson
3	Supplementary Reading Material	-
4	Websites	-
5	Journals	-

Semester	IV	Specialization	Information Technology
Course Code	410IT	Type	Subject - Elective
Course Title	Data Warehousing & Data Mining		

Course Objectives:	
1	To learn operational aspects of Data Warehousing and Data Mining
2	To know applications of Data Warehousing / Data Mining in business

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to data mining (DM) Kind of data, DM Functionalities, Classification of DM Systems, Issues in DM. What is Data warehousing (DW)? Multidimensional data model: Data cubes, Stars, snowflakes and fact constellations Defining schemas, concept hierarchies, OLAP	5+1
2	Data Warehouse Architecture Steps for design and construction, Three-tier Data Warehouse architecture, Types of OLAP servers: ROLAP versus MOLAP versus HOLAP	5+1
3	Data Warehouse Implementation: Efficient computation of Data cubes Indexing OLAP Data and efficient processing of OLAP queries Back-end tools and utilities	5+1
4	Data Preprocessing Why to preprocess data?, Data cleaning: Missing Values, Noisy Data, Data Integration and transformation, Data Reduction: Data cube aggregation, Dimensionality reduction. Data Compression, Numerosity Reduction Discretization and Concept Hierarchy Generation	5+1
5	Data Mining Primitives, Languages and System Architectures:	5+1

	<p>Task relevant data, Kind of Knowledge to be mined, DM Query languages: Syntax, Designing GUI, Architectures of DM Systems</p> <p>Concept of Cluster Analysis.</p> <p>Application and trends in Data mining</p> <p>Data Mining for Financial data analysis, Data Mining for retail industry, Data mining for telecommunication industry</p>	
--	---	--

Learning Resources:		
1	Text Books	Data Mining Concepts and Techniques, J. Han, M. Kamber, Morgan Kaufmann Publishers, 2001.
2	Reference Books	<p>Data mining: Concepts, Models, Methods and Algorithms, M. Kantardzic, John Wiley & Sons Inc., 2003.</p> <p>Data Mining: Introductory and Advanced Topics, M. Dunham, Pearson</p> <p>Data mining: Practical machine learning tools and techniques, H. Witten, E. Frank, 2nd ed., Morgan Kaufmann Publishers, 2005.</p> <p>Data mining: A tutorial-based primer, R. J. Roiger, M. W. Geatz, Pearson Education, 2003.</p> <p>UCI Repository of Machine Learning, C. L. Blake, C. J. Merz. 19 July 2002.</p>
3	Supplementary Reading Material	
4	Websites	<p>http://www.cs.waikato.ac.nz/ml/weka</p> <p>http://www.infoacumen.com</p> <p>ftp://axon.cs.byu.edu/pub/randy/ml/drop/</p> <p>http://www.crisp-dm.org.</p> <p>http://www.dmg.org</p>
5	Journals	<p>International Journal of Data Warehousing and Mining (IJDWM)</p> <p>International Journal of Data Mining, Modeling and Management</p>

Semester	IV	Specialization	Information Technology
Course Code	411IT	Type	Subject - Elective
Course Title	Geographical Information System & its Applications		

Course Objectives:

1	To explore and understand concept of Geographical Information Systems
2	To know tools and techniques of G. I. S.
3	To develop skills to implement G. I. S. in appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	Conceptual Framework of GIS , GIS Structure & Function Coordinate Systems, GIS Data, Database Design & Development	5+1
2	Function and Structure of Maps, Overview of Public Data Sources	5+1
3	Basic GIS Operations, Fundamentals of Data Visualization, Advanced Querying	5+1
4	Linear Operations on Spatial Data, Spatial Modeling and Analysis Data Visualization and Presentation for GIS, GIS Modeling , Spatial Interpolation Error Evaluation and Management	5+1
5	GIS for Decision Making, GIS Organization and Management GIS Applications	5+1

Learning Resources:

1	Text Books	Concepts and Techniques of Geographic Information Systems , Lo, C.P. and Yeung, A.K.W. (2002).. Prentice Hall.
2	Reference Books	Fundamentals of Geographic Information Systems. DeMers, M.N. (1999) 2nd Ed., Wiley Press.
3	Supplementary Reading Material	Principles of Geographical Information Systems Burrough, P.A. and R.A. McDonald (1998), Oxford University Press.
4	Websites	www.esri.com
5	Journals	-

Semester	IV	Specialization	Information Technology
Course Code	412IT	Type	Subject - Elective
Course Title	MS-Projects Lab		

Course Objectives:

1	To learn operational aspects of MS-Projects
2	To know tools and techniques of MS-Projects
3	To acquire / develop skills of implementing MS-Projects in appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Introduction to MS Project 2007 : Understanding Projects, Managing Projects & Project Management Software, Taking a first look at Project – Starting Project, Entering Information, Changing Views, What's new in Project 2007	2
2	2.1 Creating a New Project: Gathering Information, Opening a Project file, Establishing Basic Project Information, Looking at Project Calendars, Entering tasks, Adding subtasks, Saving Project files, Working with Project Outline – Adjusting tasks in an outline, Copying tasks	3 + 2
3	3.1 Building Tasks: Establishing Timing for Tasks, Assigning Task Timing, Using Recurring Tasks, Establishing Constraints and Deadline Dates, Manipulating Gantt Chart to View Timing, Entering Task Notes, Establishing Dependencies Among Tasks, Viewing Dependencies	4 + 2
4	4.1 Creating Resources & Assigning Costs: Understanding Resources, Creating Resource List, Modifying Resource Information, Using Resources and Tasks, Handling Unusual Cost Situations 4.2 Understanding Basics of Views: What is a View?, Examining Indicators, Admiring Views – Calendars, Detail Gantt, Gantt Chart, Leveling Gantt, Tracking Gantt, Multiple baselines Gantt. Resource Allocation , Resource Form, Resource Graph, Resource Name Form, Resource Sheet, Resource Usage, Roll up Views, Task Details Form, Task Entry, Task Form, Task Name Form, Task Sheet, Task Usage, Printing Project	5 + 3
5	5.1 Tracking Project Progress I: Understanding the Principles of Tracking, Using Baseline, Changing the Baseline, Viewing Progress with the Tracking Gantt Chart View – Interpretation, Task Variance Table, Task Cost Table, Task Work Table, Understanding Tracking Strategies 5.2 Tracking Project Progress II: Recording Actuals – Organizing the Updating Process, Understanding Calculation Options, Updating Tasks to Reflect Actual Information, Using Actuals and Costs, Techniques and Tips for	6 + 3

	Updating, Reviewing Progress.	
--	-------------------------------	--

Learning Resources:		
1	Text Books	Microsoft Office Project 2007 Bible by Elaine Marmel, Wiley Publishing Inc, 2007
2	Reference Books	-
3	Supplementary Reading Material	PMBOK Guide by PMI
4	Websites	www.pmi.org.in http://www.project-blog.com/
5	Journals	Project Management by Koehler, Brandon. OfficePro. Mar/Apr2012, Vol. 72 Issue 2, p36-37

Semester	IV	Specialization	Information Technology
Course Code	413IT	Type	Subject - Elective
Course Title	Internet Marketing & Internet of Things (IOT)		

Course Objectives:

1	To understand, various approaches to Internet Marketing
2	To learn advantages and disadvantages of approaches to Internet Marketing
3	To develop skills to implement Internet Marketing under appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction:</p> <p>What is internet marketing? Significance of internet marketing, benefits of internet to the marketer, how internet marketing differs from traditional marketing</p> <p>Marketplace, customers, online buyer behavior, competitors, suppliers, intermediaries</p> <p>Websites:</p> <p>People behind websites- owners, venture capitalists, creative directors, account and project managers, programmers, graphic designers, copy writers, marketers</p> <p>Types of websites- web portals, B2B, B2C, C2C, B2E(Business to employee), social networking, informational, entertainment</p>	5+1
2	<p>Social Media and social networking sites:</p> <p>An overview of social media and networking sites,</p> <p>The rise and dominance of social networking- Social media optimization, social media marketing</p> <p>Who is using social media and how?</p> <p>Social networking sites- types of audiences, generalist social networking, Niche market social networking, social bookmarking</p> <p>Blogging as a marketing strategy:</p> <p>Blogging basics- What is blogging? Types of blogs, who blogs, who reads them, how and why.</p> <p>Blogging as a marketing strategy- Benefits of blogging, pitfalls of blogging, the requirements for a successful marketing blog</p>	5+1

3	<p>Web based video:</p> <p>Who is watching what, video as a social media tool, web based video as a marketing tool</p> <p>Wikis , RSS, Mashups , virtual worlds and marketing</p> <p>Web and brand building - Brand – brand promise, brand personality, unique selling proposition,</p> <p>The web's place in brand building</p>	5+1
4	<p>E- commerce sites:</p> <p>sources of revenue - direct sales, indirect sales, paid memberships and Subscriptions, advertising</p> <p>Shopping on the social web- store layout, the shopping cart and check out process, intuitive and personal content provision, Feedback and reviews</p>	5+1
5	<p>Online promotion techniques:</p> <p>Search engine marketing, online PR, Online partnerships, interactive advertising, e-mail marketing, viral marketing</p>	5+1

Learning Resources:

1	Text Books	Principles of Internet Marketing- new tools and methods for web developers by Jason I. Miletsky, Course Technology, Cengage Learning, 2009
2	Reference Books	<p>Internet marketing- strategy, implementation and Practice- David Chaffey, Fiona Ellis- Chadwick, Richard Meyer, Kevin Johnston, Pearson Education Limited, 2006</p> <p>The ultimate Web- Marketing Guide- Michael Miller, Pearson Education(QUE) , 2011</p>
3	Supplementary Reading Material	Search Engine optimization your visual blueprint for effective internet marketing- Kristopher B. Jones, Wiley Publishing
4	Websites	www.interdigitalmarketing.com/
5	Journals	Internet Marketing Research & Theory

Semester	IV	Specialization	Information Technology
Course Code	414IT	Type	Subject - Elective
Course Title	Microsoft Office 2010Lab		

Course Objectives:

1	To enable students working in Microsoft office 2010 organize work more efficiently & develop a fully unified office with Microsoft suite.
2	To provide an opportunity to learn advanced and uncommon features of office – 2010 as an aid to career growth

Syllabus:

Unit Number	Contents	Number of Sessions
1	Microsoft Word : Tabs Tablets & sorting, Working with Graphics, Templates, wizards & sample documents, writers tools, Macros, custom toolbars , key board shortcuts & menus, Introduction to mail merge	5
2	Microsoft Excel : Excel Formatting Tips, & techniques, organizing large projects, introduction to functions, excel chart features, working with graphics in excel, vlookup, conditional formatting, command macros, IF function, Pivot Table, Excel 2010 keyboard shortcuts	8
3	Presenting With PowerPoint:Creating Presentations, use photos in PowerPoint, Working with Graphics & Multimedia in PowerPoint, Presenters Mode	5
4	Microsoft Access: Introduction to access, Creating database & tables, Forms, Entering & Editing Data, Relational Database, Expressions, Macros & other automation, graphics in Database , Troubleshooting, Maintaining & protecting database	6
5	Microsoft Outlook: Managing address book& distribution lists, organizing, filtering& using automatic response, Managing your contacts, scheduling appointments, meetings, Using Templates, Use e-mail signature in outlook, use e-business cards in outlook, manage the mails with conditional formatting	6

Learning Resources:

1	Text Books	Excel 2010 Bible [With CDROM] by John Walkenbach John Wiley & Sons Word 2010 Bible by Herb Tyson John Wiley & Sons MOS 2010 Study Guide for Microsoft Word, Excel, PowerPoint, and Outlook by
---	------------	---

		<p>Joan Lambert III and Joyce Cox (Apr 8, 2011)</p> <p>Microsoft Word 2010 Step by Step by Joyce Cox and Joan Lambert III</p> <p>PowerPoint 2010 Bible [Paperback] by Faithe Wempen</p>
2	Reference Books	<p><u>Microsoft Word 2010 in Depth</u>by <u>Faithe Wempen</u></p> <p><u>Microsoft Word 2010 Plain & Simple</u>by <u>Katherine Murray</u></p> <p>Beyond Bullet Points: Using Microsoft PowerPoint to Create Presentations That Inform, Motivate, and Inspire [Paperback] BPG</p> <p><u>Microsoft PowerPoint 2010 Plain & Simple</u> by <u>Nancy Muir</u></p> <p>Office 2010 Bible by <u>John Walkenbach</u>, <u>Herb Tyson</u>, <u>Michael R. Groh</u>, <u>Faithe Wempen</u>, <u>Lisa A. Bucki</u></p>
3	Supplementary Reading Material	<p>Business Analysis with MS Excel by Conard Carlberg, Pearson Education</p>
4	Websites	<p>www.microsoft .com</p> <p>www.office.microsoft.com</p>

MBA SYLLABUS: SEMESTER IV
OPERATIONS MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	Operations Management
Course Code	403OPE	Type	Subject Core
Course Title	Operations Strategy and Research		

Course Objectives:

1	To emphasize the key role of operations in bringing about the growth and profitability of organizations.
2	To impart ideas, concepts and principles in operations strategy.
3	To understand use of quantitative tools in solving typical Operations Domain Problems

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction: Importance and Linkage with Corporate strategy, Strategies and values, Competing through operations. Operation strategy in global economy- Strategic alliances and production sharing, fluctuations of international financial conditions and international companies. Changing nature of world business.</p> <p>Quality, Customer service and cost challenges and social responsibility, Current perspective-Strategic fit</p>	7 + 2
2	<p>Methodology for Developing Operations Strategy: Value as business concept – strategic issues in manufacturing – Value Chain concept Focus, core competence and distinctive capabilities – stake holders & strategy, Checking markets, Outcome of Market debate – Linking manufacturing to Markets – strategic integration – why products sell in the markets – Order Winners, Order Qualifiers. Lean systems-Eliminating waste.</p>	7 + 2
3	<p>Operation Strategy Implementation: Technology strategy Issues in New Product development Time to market – strategic nature of process– Business implication of Process choice – Hybrid Process. Change management and Sustainability Procedure – company or plant based profiles – decisions for product reallocation – downsizing – Capacity decisions Progression & Regression. Evaluating various</p> <p>tradeoffs alternatives – Focused manufacturing – Product or process focus – Make or Buy – merits /demerits – value chain approach – just in time – lean manufacturing.</p>	7 + 2
4	<p>Linear Programming: Formulation of LPP, Simplex method, Duality, Sensitivity Analysis, Goal Programming, (Numerical is expected on simplex method)</p>	7 + 2

5	Decision trees: Concept of decision making & decision trees; Application of decision trees in making manufacturing decisions like expansion of present plant, build new plant or sub-contract. (Numerical is expected on decision tree)	7 + 2
---	--	-------

Learning Resources:		
1	Text Books	<ul style="list-style-type: none"> • Operations Research- by Nita Shah, Ravi Gor, Hardik Soni- Prentice Hall India • Operations Management by Terry Hill, Palgrave, 2nd Edition. • Operations Now by Byron Finch, TMGH, 3rd Edition. • Operations Management by Norman Gaither, Greg Frazier, Cengage Learning, India Ed. • Operations Research- Hari Prakash et.al.- Scitech Publications
2	Reference Books	<ul style="list-style-type: none"> • Managerial Decision Modeling with Spreadsheets by Nagraj Balakrishnan, Barry Render, Ralph M. Stair Jr.- Pearson • Introduction to Operations Research-by Billey E. Gillett- Tata Mc Graw Hill • Operations Management – An Integrated Approach by Samson and Singh, Cambridge. • Operations Management for Competitive Advantage by Chase, Jacobs, Aquilano and Agarwal, TMGH, 11th Edition.
3	Supplementary Reading Material	<ul style="list-style-type: none"> • Operations Research- Hamdy A. Taha- Pearson Publication • Strategic Operations Management by Brown, Lamming, Bessant and Jones, Butterworth Heinemann, 2nd Edition.
4	Journals	<ul style="list-style-type: none"> • International Journal of Operations and Quantitative Management • International Journals of Operations Research and Management Science

Semester	IV	Specialization	Operations Management
Course Code	404OPE	Type	Subject Core
Course Title	Total Quality Management		

Course Objectives:

1	To give various perspectives on Quality and various contributors to Quality.
2	To provide an in-depth understanding of the various QC tools.
3	To introduce the frameworks of Global Quality Awards.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Quality Concepts :Defined, Quality Cost perspective ,Cost of Quality</p> <p>Quality Function, Spiral of Progress in quality, Little q and Big Q, Juran Trilogy, Internal and external quality perspective. Goods and service quality. Cost of poor quality, internal failure cost and external failure cost, appraisal cost, Prevention cost, Analysis of quality cost, hidden quality cost, Discovering the optimum, economic models of quality of conformance-Zone of improvement, zone of high appraisal, zone of indifference.</p> <p>Strategic Quality management: Companywide quality culture, Organizational vision, Mission and quality policy, formulation of quality goals, competitive benchmarking, Steps in implementing Total quality-Decide, Prepare, Start, Expand and Integrate. Quality Circle</p>	7 + 2
2	<p>Quality Gurus: Demings' 14 point philosophy, Juran, Crosby philosophy, Ishikawa, Taguchi, Feigenbaum. Comparison of quality philosophy.</p>	7 + 2
3	<p>QC Tools: Problem Solving Methodology - Check list, Flow Chart, Tally charts and Histograms, Graphs, Pareto Analysis ,Cause and Effect Diagram, Brainstorming, Scatter diagram and regression analysis. Quality Function Deployment - Introduction, Customer needs, Customer priorities and competitive comparisons and planned improvements, Design features or requirements, Central relationship matrix-What's versus the How's , relative weights of importance. Design features interactions, target values, Technical comparison ,service information and special requirements-Difficulties associated with QFD, Implementation of QFD</p>	7 + 2
4	<p>Statistical Quality Control: Necessity and Importance of SQC, Process capability, Six Sigma quality, Process control, Process control for attributes, p charts and c charts, Process control for variables, X bar R chart, acceptance sampling, OC curves, Average Outgoing Quality Limit (AOQL),Sampling plans</p>	7 + 2

5	Quality Management Awards and frameworks: Malcolm Baldrige National quality award, Deming prize, ISO 9000-2000, CII, Ramakrishna Bajaj Awards, Tata Business Excellence Model (TBEM)	7 + 2
---	---	-------

Learning Resources:		
1	Text Books	<p>Operations Management: Theory and Practice by B Mahadevan, Pearson, 2nd Edition</p> <p>Production and Operations Management by RB Khanna, PHI</p> <p>Managing Quality by Dale, Blackwell Publication.</p> <p>Quality Management by Howard Gitlow, Alan Oppenheim, Rosa Oppenheim and David Levine, TMGH, 3rd Edition.</p> <p>Total Quality Management - Senthil Arasu et.al. 2nd Edn Sci-tech Publications</p>
2	Reference Books	Operations Management: An Integrated Approach by Danny Samson and Prakash Singh, Cambridge University Press.
3	Supplementary Reading Material	Managing Quality Edited by Barrie G Dale, Ton van der Wiele and Jos van Iwaarden, Blackwell Publishing, 5 th Edition.
4	Websites	<p>http://managementhelp.org/quality/total-quality-management.htm</p> <p>www.isixsigma.com</p> <p>www.asq.org</p>
5	Journals	<p>Journal of Operations Management</p> <p>Total Quality Management & Business Excellence</p> <p>Quality Assurance</p> <p>International Journal of Reliability, Quality & Safety Engineering</p> <p>Journal of Quality Management</p>

Semester	IV	Specialization	Operations Management
Course Code	405OPE	Type	Subject - Elective
Course Title	Quality Management Standards		

Course Objectives:

1	To introduce various management system standards.
2	To explain the implementation and role of MR for IMS.
3	To help the students understand the implementation of IMS through cases in services and manufacturing .

Syllabus:

Unit Number	Contents	Number of Sessions
1	Over view of IMS – QMS, EMS, OHSAS, TS: Introduction to core tools and TS 16949, Introduction to CMMI, Introduction to EFQM, Implementation requirements for certification	5 + 1
2	QMS Standards: Key clauses - 4.1 Process & documentation, 5.0 Top management , Organization and Role of MR, 6.0 Resource management, 7.0 Process control from Contract review to Calibration, 8 Monitoring measurement and improvement	5 + 1
3	EMS Standards: Key clauses -4.1General requirement, 4.2 Policy, 4.3 Planning – registers , objectives & programs, 4.4 Implementation and operation, 4.5 Checking	5 + 1
4	OHSAS 18001:2007 Standards: Key clauses -4.1 General requirement, 4.2 Policy, 4.3 Planning – registers , objectives & programs, 4.4 Implementation and operation, 4.5 Checking	5 + 1
5	Study of Apex manual & Procedural manual for QMS: Service and Manufacturing set up, Study of Apex manual and procedural manual for EOHS, Study of core tools implementation requirement, Study of ERP, Legal register, Risk register and Impact registers and various programs & monitoring programs and SOPs & their inter relation	5 + 1

Semester	IV	Specialization	Operations Management
Course Code	406OPE	Type	Subject - Elective
Course Title	World Class Manufacturing		

Course Objectives:	
1	To bring out the relevance and basics of World Class Manufacturing.
2	To highlight the current state of Indian Manufacturing
3	To provide a road map for World Class Manufacturing

Syllabus:

Unit Number	Contents	Number of Sessions
1	World Class Manufacturing and the Information Age: The emergence of the Information Age, Competing in the Information Age, Business challenges of the Information Age, Operating Environment of the Information Age, India's global Competitiveness and Manufacturing Excellence, World Class Manufacturing and the Information Age Competition, Manufacturing Challenges of the Information Age – Time based competition, Managing knowledge, Problems in the Manufacturing Industry – Coordination, Need for Control, Fragmented Information Infrastructure, Insufficient processability of available information.	5 + 1
2	Gaining Competitive Advantage through World Class Manufacturing: Manufacturing Excellence and Competitiveness, What is World Class Manufacturing? Hall's Framework of Value-added Engineering, Schonberger's framework of World Class Manufacturing, Gunn's model of World Class Manufacturing, Maskell's model of World Class Manufacturing, America's best plants model of World Class Manufacturing, Malcolm Baldrige National Quality Award, The Philosophy of World Class Manufacturing, The Evolution of World Class Manufacturing, The first principles of World Class Manufacturing, The Practices of World Class Manufacturing, Quality in World Class Manufacturing.	5 + 1
3	Systems and Tools for World Class Manufacturing: The integration imperative, Overview of systems and tools, Making sense of the manufacturing alphabet soup, Information management tools, Material processing and handling tools. Information management tools – Product and Process Design Tools, Bar Code Systems, Kanban, SQC, Business Integration and Decision Support Tools. Material processing and handling tools – Flexible Manufacturing Systems, Rapid Prototyping, Lean production tools, Poka Yoke, SMED. An assessment of Manufacturing systems and tools.	5 + 1
4	World Class Manufacturing – The Indian Scenario: Competitiveness of Indian Manufacturing, Manufacturing Performance and planned strategies of Indian Manufacturing firms, Manufacturing readiness of Indian Firms, Manufacturing Objectives and strategy, Usage of management tools and technologies, Manufacturing Management Practices, The Manufacturing Strategic Intent Framework, Strategic use of IT in Indian Manufacturing,	5 + 1

	Classification by breadth of IT infrastructure and depth of manufacturing applications, Classification by breadth and integration of IT infrastructure, Manufacturing Strategy – World class Status and IT Use: Is India Ready for World Class Manufacturing?	
5	Leading India towards World Class Manufacturing: Business Strategy and Global Competitiveness, Generic Manufacturing Strategies for the Information Age, Developing strategic thinking in manufacturing, Issues in Strategic planning for World Class Manufacturing, Barriers to using IT strategically, Strategic Planning Methodology for World Class Manufacturing, Implementing the World Class Manufacturing Plan, Need for performance measurement – The PO-P System, The TOPP System, The AMBITE System, Quality Performance, Cycle Time, Delivery Performance and Customer Service, Financial Performance Measures, The Balanced Score Card, Human Resource Dimensions in World Class Manufacturing – Morale and Teamwork.	5 + 1

Learning Resources:

1	Text Books	World Class Manufacturing – A Strategic Perspective by B S Sahay, K B C Saxena, Ashish Kumar, Macmillan Publishers India Ltd., 1 st Ed. World Class Manufacturing by K. Sridhara Bhat, Himalaya Publishing, 1 st Ed.
2	Reference Books	Making Common Sense Common Practice – Models for Manufacturing Excellence by Ron Moore, Elsevier Pub., 3 rd Ed. Competitive Manufacturing Management by John Nicholas, TMGH, 2 nd Edition.
3	Supplementary Reading Material	The Japanese Manufacturing Techniques by Richard Schonberger, The Free Press Just in Time Manufacturing by M. G. Korgaonker, Macmillan Publishers India Ltd., 1 st Ed.
4	Websites	http://www.enotes.com/world-class-manufacturer-reference/world-class-manufacturer
5	Journals	International Journal of Operations & Production Management- Journal of Manufacturing Systems International Journal of Manufacturing Technology & Management Journal of Operations Management Manufacturing & Service Operations Management

Semester	IV	Specialization	Operations Management
Course Code	407OPE	Type	Subject - Elective
Course Title	Business Process Reengineering		

Course Objectives:

1	To explain how organizational performance in terms of efficiency and effectiveness can be improved through BPR.
2	To introduce BPR as a change management tool.
3	To explore and master the fundamental principles of BPR.
4	To provide a practical framework and management techniques needed for implementation of BPR.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to business processes: Definition of business process, Dimension of business process, Common business processes in an organization, Definition of business process redesign, Definitions of various management related terms, Overview of business process reengineering, Business processes improvement.</p> <p>Introduction to Business Process Reengineering (BPR): History of BPR, Basics of BPR, Definition of BPR, Emergence of BPR, The need for reengineering, Benefits of BPR, Role of leader & manager, Breakthrough reengineering model, BPR guiding principles, Business process reengineering & performance improvement, Key targets of BPR, Myths about BPR, What reengineering Isn't, Difference between BPR and TQM, BPR and Process Simplification, BPR and Continuous Improvement.</p>	6 + 1
2	BPR in Manufacturing Industry: Introduction, Enablers of BPR in manufacturing – Agile Manufacturing, Lean Manufacturing, JIT, Collaborative Manufacturing, Intelligent Manufacturing, Production Planning, Product design & development.	4 + 1
3	BPR & Information Technology: Introduction, Relationship between BPR & Information Technology, Role of Information Technology in reengineering, Role of IT in BPR (with practical examples), Criticality of IT in business process, BPR tools & techniques, Enablers of process reengineering, Tools to support BPR, Future role of IT in reengineering.	4 + 1
4	BPR implementation methodology: Reasons of implementation of BPR, Necessary attributes, BPR team characteristics, Key concepts of BPR, BPR methodology, Different phases of BPR, BPR model, BPR methodology selection guidelines, Common steps to be taken for BPR implementation, Different business process reengineering methodologies, Comparison of various business process reengineering methodologies, Consolidated BPR	6 + 1

	implementation methodologies, Steps of process reengineering, Organizational redesign using BPR, Impact of BPR on organizational performance, Performance measures of BPR, Business process reengineering project management, Reengineering recommendations, Threads of BPR in various phases	
5	<p>Success factors of BPR: Reengineering success factors, Critical success factors of BPR, Reasons for BPR project failure & success, Reengineering drives cause many changes</p> <p>Managing barriers to business process reengineering success: Potential project implementation success, Risks associated with business process reengineering projects, Business process reengineering implementation barriers, Areas generating barriers to business process reengineering, Root cause to Information Technology barriers, Some root causes of internal individual resistance, A framework for barrier management</p>	5 + 1

Learning Resources:

1	Text Books	<p>Business Process Reengineering by Radhakrishnan, Balasubramanian, PHI, Eastern Economy Edition, 2008.</p> <p>Business Process Reengineering by Jayaraman, Ganesh Natrajan and Rangaramanujan, TMGH.</p>
2	Reference Books	Business Process Reengineering and Change Management by Dey, Biztantra.
3	Supplementary Reading Material	Practical Business re-engineering by Obolensky, Kogan Page.
4	Websites	http://www.youtube.com/watch?v=2j2lcDWQk7A
5	Journals	<p>Productivity and Performance Effects of BusinessProcessReengineering: A Firm-Level Analysis, Altinkemer, Kemal; Ozcelik, Yasin; Ozdemir, Zafer D. Journal of Management Information Systems, Spring2011, Vol. 27 Issue 4</p> <p>BusinessProcessReengineering in the Public Sector: The Case of the Housing Development Board in Singapore, Thong, James Y. L.; Yap, Chee-Sing; Seah, Kin-Lee. Journal of Management Information Systems, Summer2000, Vol. 17 Issue 1</p> <p>BusinessProcessReengineeringManagement Services, Spring 2010, Vol. 54 Issue 1</p> <p>A Wider View of BusinessProcessReengineering, Grant, Delvin. Communications of the ACM, Feb2002, Vol. 45 Issue 2</p>

Semester	IV	Specialization	Operations Management
Course Code	408OPE	Type	Subject – Elective
Course Title	Enterprise Resource Planning		

Course Objectives:

1	To understand how a business works and how information systems fit into business operations.
2	To understand the cross functional integration aspects of a business.
3	To understand better managerial decision making through real time data integration and sharing.
4	To understand the host of underlying technological tools of ERP.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Understanding Enterprise Resource Planning: Concept of Enterprise , Overview of Business Functions and Business Processes, Integrated Management Information, Business Modeling, Evolution of ERP; ERP and related technologies; Myths about ERP; Importance of ERP; Value creation in organizations through ERP; Benefits of ERP; Risk of ERP - People Issues, Process Risks, Technological Risks, Implementation Issues, Operation & Maintenance Issues; Managing risk in ERP projects.	5 + 1
2	ERP & Related Technologies: Business Process Reengineering, Data Warehousing, Data Mining, OLAP, PLM, SCM, CRM, GIS, ERP Functional Modules , Integration of ERP, Supply Chain, CRM.	5 + 1
3	ERP Implementation: Technological, Operational, Business Reasons for ERP implementation , ERP implementation Life Cycle – Objectives - Phases - Reasons for failure; Implementation challenges; ERP transition strategies - Big Bang Strategy, Phased Implementation, Parallel Implementation, Process Line Transition Strategy, Hybrid Transition Strategy, Strategy Choice; Success and failure factors of an ERP implementation; ERP implementation costs; Organization and working of ERP implementation team.	5 + 1
4	ERP Operations and Future Trends: Operation and maintenance of the ERP system; Maximizing the ERP system; ERP and e-business; Integration of ERP, internet and www; Future of ERP.	5 + 1
5	ERP Systems Processes and Management Control: Sales and Marketing; Accounting and Finance; Production and Material Management; Human Resource Management, Overview of an ERP product.	5 + 1

Learning Resources:

1	Text Books	Enterprise Resource Planning by Leon, Alexis , TMH Publication, 2 nd Edition Enterprise Resource Planning by Koul, Saroj, Galgotia Publishing, 2001. ERP Concepts and Practice by Garg, V. K. and Venket Krishna N. K., PHI Publication, 1997. ERP In Practice by Vaman Jagan, TMGH
2	Reference Books	Enterprise Resource Planning by Sumner, Mary, Pearson Education, 2006. Enterprise Resource Planning by Jaiswal and Vanapalli, Macmillan Books.
3	Supplementary Reading Material	ERP Demystified by Leon, Alexis, TMH Publication, 2nd Edition, 2004.
4	Websites	https://www.sap.com
5	Journals	EnterpriseResource Planning (ERP) Systems and the Manufacturing-Marketing Interface: An Information-processing Theory View by Gattiker, T. F., International Journal of Production Research, 7/1/2007, Vol. 45 Issue 13 Critical Elements for a Successful Enterprise Resource Planning Implementation in Small-and Medium-sized Enterprises by Loh, T. C.; Koh, S. C. L., International Journal of Production Research, 9/1/2004, Vol. 42 Issue 17

Semester	IV	Specialization	Operations Management
Course Code	409OPE	Type	Subject – Elective
Course Title	Financial Perspectives in Operations Management		

Course Objectives:

1	To highlight the importance of cost management as a key to profitability and the key to successful Operations Management
2	To underline the role of cost management from a strategic perspective.
3	To teach the identification of key cost drivers and defined process of managing operational costs.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Cost Management: Cost management tools-life cycle costing, target costing, kaizen costing, JIT & theory of constraints, BPR and bench marking. Working Capital Management –Concept, Components, Scope, Practical applicability.	4 + 1
2	Activity Based Costing: Concept and basic knowledge, applicability, Limitations, Simple Numericals. Cost Concepts, behavior, type, allocation, apportionment and absorption along with nature, applicability and limitations of Job & Process Costing	4 + 1
3	Budgeting: Budgeting – nature, administration and effectiveness; budgeting cycle; activity-based budgeting; kaizen approach; ZBB; performance budgeting; human aspects of budgeting.	5 + 1
4	Capital Budgeting : The Capital Budgeting Concept & Process - An Overview, Generating Investment Project Proposals, Estimating Project, After Tax Incremental Operating Cash Flows, Capital Budgeting Techniques, Project Evaluation and Selection - Alternative Methods, Potential Difficulties ,Project Monitoring – Progress Reviews and Post - Completion Audits, Problem of Project Risk, Total Project Risk, Capital Rationing , Decision Tree.	7 + 1
5	Project Cost Estimate and Risk Analysis: Cost of project, Components of capital cost of a project, Project Risk Analysis, Project Organization. Project Evaluation and Audit: Sources of financing, Role of Financial Institutions in project financing, Data required for calculation of NPV, PI, IRR, BCR, NBCR, Project cost overruns and cost control, Phases of post audit, Type of post audit, Project closure.	5 + 1

Learning Resources:

1	Text Books	Financial Management by I.M. Pandey, Vikas Publications, 10 th Edition Financial Management by M.Y.Khan & P.K.Jain, TMGH., 5 th Edition Project Management by K. Nagarajan, New Age Publications, 2 nd Edition
2	Reference Books	Financial Management by Rajiv Shrivastava & Anil Mishra, Oxford Publication, 2 nd Edition Corporate Financial Management by Arnold Glen, Pearson Publication
3	Supplementary Reading Material	The Chartered Accountant Management Accountant
4	Websites	www.icai.org www.icwai.org www.moneycontrol.com
5	Journals	Production & Inventory Management Journal of Operations Management International Journal of Operation and Quantitative Management Indian Journal of Advanced Operations Management International Journal of Operations & Production Management Manufacturing & Service Operations Management

Semester	IV	Specialization	Operations Management
Course Code	410OPE	Type	Subject - Elective
Course Title	Service Operations Management		

Course Objectives:

1	To provide students with the concepts and tools necessary to effectively manage a service operation.
2	To discuss best practices of World-Class Service.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Services: Characteristics of Services, Importance of Service Sector, Classification framework, Service Delivery System – Process Flow Diagrams, Process Simulation,	4 + 1
2	Site Selection for Services: Types of Service Firms – Demand Sensitive Services, Delivered Services, Quasi-manufacturing Services, Site Selection for Demand Sensitive Services – Factor Rating, Regression, GIS, Gravity Model of Demand, Site Selection for Delivered Services – Expected Results, Mathematical Solution Methods for delivered services, Site Selection for Quasi-Manufacturing Services – Mixed Linear / Integer Programming for Location Selection	5 + 1
3	Yield Management: Capacity Strategies, Yield Management, Overbooking, Allocating Capacity – Static Methods, Nested Static Methods, Dynamic Methods. Pricing, Implementation issues – Alienating Customers, Customer Class Cheating, Employee Empowerment, Cost and Implementation Time.	5 + 1
4	Inventory Management in Services: Services versus Manufacturing Inventory, Set Up and Ordering Costs, Number of Products, Limited Shelf Space, Lost Sales versus Back Orders, Product Substitution, Demand Variance, Information Accuracy, The Newsvendor Model, Multiple Products and Shelf Space Limitations, Inventory Inaccuracy – Revenue Sharing, Markdown Money, Phantom Stockouts, Inventory Inaccuracy, Shrinkage.	6 + 1
5	Offshoring and Outsourcing: Outsourcing – Contract risk, Outsource Firm Risk and Pricing Risk, Competitive Advantage and Information Privacy Risk, Firm Specific Risks, Offshoring, Quantifying Offshoring, Offshoring and Competitive Capabilities – Cost, Non-cost Issues.	5 + 1

Learning Resources:

1	Text Books	Successful Service Operations Management by Metters, King-Metters, Pulliman
---	------------	---

		and Walton, Cengage India Edition, 2 nd Edition.
2	Reference Books	Service Operations Management - Improving Service delivery by Robert Johnston Graham Clark, Prentice Hall
3	Supplementary Reading Material	Service Operation –Itil, Version 3 ,David Cannon, David Wheeldon
4	Websites	http://www.referenceforbusiness.com/management/Sc-Str/Service-Operations.html
5	Journals	A perspective on service delivery by McManus, John; Howitt, Michael. Management Services, Winter2009, Vol. 53 Issue 4 Journal of Software Project Management and & Quality Assurance

Semester	IV	Specialization	Operations Management
Course Code	411OPE	Type	Subject - Elective
Course Title	Business Process Management		

Course Objectives:	
1	Students will be able to model processes for subsequent implementation in Business Process Management Systems.
2	Students will be able to discern between technologies for human-centric process automation and system-centric process automation.
3	Students will understand the difference between Business Processes and Business Rules, and be able to select an appropriate information system.
4	Students will know the different phases of the process management lifecycle, supporting technologies, and how to transition between the phases of the lifecycle
5	Students will understand the technical capabilities of Business Process Management Systems, how they relate to concepts such as SOA and EAI
6	Students will be able to develop an implementation and integration strategy for processes that leverages organizational and technical capabilities of an enterprise

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Overview of the Process Management Lifecycle, Review of Process Modeling techniques. Process Design for Implementation: Analytical process model, Implementable process model – concept and comparison, Graphical models and their translation to XML, Components of Workflow Models From BPMN to XPD.	5 + 1
2	Implementing Process Designs: Change Management - Process Implementation Alternatives: Manual Implementation, CSCW Systems, ERP Systems, Workflow & Business Process Management Systems, Process Outsourcing.	5 + 1
3	Automating Processes: Supporting processes with IS, components of a process-aware application, BPMS and Workflow, Systems Components and Architecture. Rules vs. Processes: Capturing decision-making activities, dealing with unstructured work, BPMS and BRMS, Integrating ECA rules with processes, Capturing Unstructured Processes. Managing the Run-Time: Ensuring efficient processes, Process Metrics, Business Activity Monitoring, Business Intelligence, Process Dashboards	5 + 1
4	Task and Resource Allocation: Organization models, Task allocation strategies, Mobile performers, External Participants. Standards for	5 + 1

	Business Process Management: WfMC Reference Model, Process design standards: BPMN, IDEF, Interchange standards: XPD, BP, Integration standards: Wf-XML, WSDL	
5	Post-Execution Evaluation: How Business Intelligence based on Process Data, Process Mining. Business Process Management Maturity: BPM Maturity Models, BPM Centers of Excellence, Organization Structure of BPM Efforts. Process Simulation and Data Mining: Predictive Process Simulation, Data Mining based on Process Data, Integration of Process information into Strategy Maps.	5 + 1

Learning Resources:

1	Text Books	<p>Harmon, Paul: Business Process Change. A Guide for Business Managers and BPM and Six Sigma Professionals. 2nd Edition, Morgan Kaufmann, San Francisco.</p> <p>Managing Business Process Flows, 2nd edition, by Ravi Anupindi, et al., ISBN 0-13-067546-6, Pearson Prentice-Hall, 2006.</p>
2	Reference Books	<p>Hammer, Michael: The Process Audit. Harvard Business Review, April 2007, pp. 111-123.</p> <p>Khoshafian, S. Service-oriented Enterprises. Auerbach Publications, Taylor & Francis Group, Boca Raton, FL, 2007, pp. xxv, 438 p.</p> <p>Scheer, A.-W. Semester	IV	Specialization	Operations Management
Course Code	412OPE	Type	Subject - Elective
Course Title	Challenges and Opportunities in Operations Management		

Course Objectives:

1	To make the student understand the ways of managing risk in Operations Management
2	To introduce various Environmental , Ethical and Technological issues in Operations Management
3	To introduce Global Reporting Initiatives, SA 8001, CSR, CDM, CT concept

Syllabus:

Unit Number	Contents	Number of Sessions
1	Managing Risk in Operations: Concepts and framework of Risk Management, COSO enterprise risk management, Risk standard AS/NZ 4360, M-o-R: Management of Risk Framework, Risk in the key decision areas of operations: Inventory management, Information technology, Process Technology, Operating planning and capacity management, Maintenance and servicing, Risk in service operations, Occupational Health and Safety, Environmental risk, Operations and corporate risk	5 + 1
2	Overview of Technological, Ethical and Environmental issues: Global challenges , Defining Technological options for the achieving Goals to combat the risks based on SWOT, Concept of Business ethics & CSR , Environmental – Introduction to GHG trading , Defining control against budgeting for identified impacts & risks for Quality, environment, safety, & global trading	5 + 1
3	Global Reporting: Business advantage with global reporting , Guidelines G 3 for sustainability, Study of any published report like Siemens, Social accountability aspect in Business across the borders , Case study in Indian industry for CSR Kyoto Protocol: Basic Features, Why Kyoto Protocol Failed , Limitations and aspect of Kyoto Protocol, Introduction to Clean Technology, Clean development mechanism, Government & statutory authorities and their role in promoting Sustainability	5 + 1
4	Sustainability in Operations: What is sustainability? Development of the concept of sustainability, Accepted definitions, What make sustainable practices successful, What is a sustainable practice, Quality and Excellence, Strategic connection , Business Case for sustainability, Building sustainability – the role of operations function, New capabilities of operations management to support sustainability,	5 + 1
5	Social Accountability: SA 8001, Considerations in identifying & mitigating child labour, Considerations in investigating un fair wages	5 + 1

	complaint, Considerations in investigating Discrimination related complaints , Consideration for recording and monitoring home workers and/ time logging for piece rate.	
--	--	--

Learning Resources:

1	Text Books	Operations Management: An Integrated Approach by Danny Samson and Prakash Singh, Cambridge University Press. Ethics and Corporate Social Responsibility: Why Giants Fall by Ronald R. Sims
2	Reference Books	The Kyoto Protocol: International Climate Policy for the 21st Century by Sebastian Oberthür and Hermann E. Ott The Clean Tech Revolution: Discover the Top Trends, Technologies, and Companies to Watch by Ron Pernick and Clint Wilder
3	Supplementary Reading Material	Standard SA 8001:2002 & Interpretation Guidelines SA 8002 Power to the People: How the Coming Energy Revolution Will Transform an Industry, Change Our Lives, and Maybe Even Save the Planet by Vijay V. Vaitheeswaran
4	Websites	https://www.globalreporting.org/resourcelibrary/G3-Guidelines-Incl-Technical-Protocol.pdf http://www.siemens.com/sustainability/report/09/en/indices/global_reporting_initiative.htm
5	Journals	Should Sustainability Reporting Be Integrated? By Verschoor, Curtis C., Strategic Finance, Dec2011, Vol. 93 Issue 6 Go Green, Save Green by Mc Collum, T., Internal Auditor, Aug2009, Vol. 66 Issue 4

Semester	IV	Specialization	Operations Management
Course Code	413OPE	Type	Subject - Elective
Course Title	Lean Manufacturing		

Course Objectives:

1	To provide the concepts of Lean Manufacturing.
2	To give a hands on – How To – series of steps in Lean Manufacturing Implementation.
3	To highlight the role of company culture in transformation to Lean.

Syllabus:

Unit Number	Contents	Number of Sessions
1	History and Modern Applications of Lean Manufacturing: Popularity of MRP systems and their impact on organizations, Pre-computer Inventory Management tools, Rethinking the MRP Model, The search for Holy Grail of Manufacturing, Lean Manufacturing Model, Kanban Methodology, Sequencing production one piece at a time on the Lean Line, The benefits of embracing lean methodologies for manufacturing, Lean Manufacturing Challenges to the MRP paradigm, The continuous evolution to Lean Manufacturing, The Internet and E-commerce technologies.	5 + 1
2	Understanding Products, Processes and Demand: Determining the scope of initial Lean Manufacturing Implementation Area, Selecting parent parts for the lean line, Establishing the capacity to meet the demand volume of lean implementation area, Sources for determining demand, Documenting the Process flow and establishing mixed product families, Factors impacting throughput volume, Identifying process Demand Levels and Establishing Takt, Numerators and Denominators of Takt time, Documenting process Work elements and quality criteria, Nonvalue added activity and quality considerations, summing the total time of the process.	5 + 1
3	Line Layout and Work Station Identification with Process Linking and Balancing: The consequences of imbalance, The Lean approach to Achieving Balance, Calculating resource requirements, Defining Resources, The physical layout of resources, Assigning tasks for each workstation, the in-process Kanban Signalling methodology, Discipline for maintaining workstation balance, Designing 5S into the line design.	5 + 1
4	Kanban Strategies: The in-process Kanban, The Single Card Kanban System, The Multiple Card Kanban System, Managing inventory with the Kanban System: The advantages & disadvantages of Kanban System, Kanban manager job responsibilities.	5 + 1
5	Lean Implementation Mile Stones: Software requirements for Lean manufacturing methodologies, Commitment to change, Transformation process	5 + 1

	<p>to Lean manufacturing, Initialization and Project Start-up, Understanding Products, Processes and Materials, Final Check, Line Start-up, Internalize. Organizational impact of Lean Manufacturing,</p> <p>Managing the Lean Manufacturing Line: Managing Line Output to Match Customer Demand, Establishing Customer Response policy, Suboptimizing the Lean line to meet daily rate of demand, flexible operators, Rewarding for Flexibility, Rewarding for Linear Performance, Resistance to change.</p>	
--	--	--

Learning Resources:		
1	Text Books	<p>Lean Manufacturing Implementation by Dennis P Hobbs, Cengage Learning Co-published with APICS.</p> <p>Simplified Lean Manufacture – Elements, Rules & Implementation by N Gopalkrishnan, PHI.</p>
2	Reference Books	Lean Manufacturing That Works by Bill Carreira, PHI, Eastern Economy Edition.
3	Supplementary Reading Material	<p>Global Management Solutions Demystified by Dinesh Sheth and Subhash Rastogi, Cengage Learning Asia</p> <p>Lean Management – Concepts and Industry Perspectives by Mrudulla, ICFAI Books.</p>
4	Websites	http://www.lean.org/
5	Journals	<p>Evaluation of Value Stream Mapping in manufacturing system redesign by Serrano, Ibon; Ochoa, Carlos; Castro, Rodolfo De., International Journal of Production Research, Aug2008, Vol. 46 Issue 16</p> <p>ERP Enabled Lean Six Sigma: A Holistic Approach for Competitive Manufacturing by Nauhria, Yugal; Wadhwa, S.; Pandey, Sunil., Global Journal of Flexible Systems Management, Jul-Sep2009, Vol. 10 Issue 3</p> <p>Effect of buffer capacity and sequencing rules on single-card kanban system performance by Berkley, B.J., International Journal of Production Research, Dec1993, Vol. 31 Issue 12</p> <p>Empowering Kanban through TPS - principles - An empirical analysis of the Toyota Production System by Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre., International Journal of Production Research, Dec2010, Vol. 48 Issue 23</p>

MBA SYLLABUS: SEMESTER IV
HUMAN RESOURCE MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	HRM
Course Code	403HR	Type	Subject Core
Course Title	Employment Relations		

Course Objectives:

1	Give students insight into the IR scenario in India
2	Make students understand important laws governing IR
3	Create understanding about role of Govt., society and trade union in IR

Syllabus:

Unit Number	Contents	Number of Sessions
1	Conceptual Framework of ER : Concept, Philosophy, Approaches of ER - The Dunlop's Approach , The Social Action Approach, The Human Relations Approach, The Gandhian Approach, Evaluation of ER Constitutional & Legal framework of Industrial Relations	6 + 2
2	Industrial Relations Laws : 2.1 The Industrial Disputes Act 1947: Sections # 2to 19 Provisions under Chapter V, VA, VC and chapter VI, VII. 2.2 Industrial Employment (Standing Orders) Act 1946: Section # 2,3,5,6,7,9,10,11, 12,13,14 2.3 The Contract Labour (Regulation and Abolition) Act 1970 Section# 2 and all provisions under Chapter III,IV,V,VI,and VII	6 + 2
3	Trade Union Act 1926 : Section # 2,Chapter II,III and chapter V, The Maharashtra Recognition of Trade Unions and prevention of unfair labour practices Act 71, Section# 3 and the provisions under chapter II, III, IV, V, VI, VII, VIII, X	8 + 2
4	Employee Relations Initiatives : 4.1 Worker's Participation in Management, Concept, evolution, implementation, Challenges. 4.2 Collective Bargaining, Concept, evolution and implementation. Study of best practices in IR: The students and faculty to identify organizations in the area and study their IR practices.	6 + 2
5	Trends in Employment Relations :	9 + 2

	5.1 Strategic Employee Relations – Emerging Trends	
	5.2 Cultural Aspects of Employee Relations	

Learning Resources:		
1	Text Books	Employee Relations Management by P.N. Singh, Neeraj Kumar, Pearson Publication
2	Reference Books	Industrial Relations, Trade Unions & Labour Legislation by P.R.N.Sinha, Indu Bala Sinha, Pearson Publication IR- Emerging Paradigms by B.D.Singh, Excel Books IR in India Shifting Paradigms by Ratna Sen, Macmillan India
3	Supplementary Reading Material	Industrial Relations by Arun Monappa Tata McGraw Hill Edition Personnel Management and Industrial Relations by R.S.Davar Vikas Publishing Industrial Relations by A.M.Sarma Himalaya Publishing House APS Labour Digest

Course Title	International Diversity Management		

Course Objectives:

1	To equip students with the knowledge and importance of culture and help them to manage International Diversity.
---	---

Syllabus:

Unit Number	Contents	Number of Sessions
1	Broad concept and definition of diversity. Historical perspective of diversity management in changing demographics	5 + 1
2	Understanding cultures, influence of behavior. Explanation of the dimension of race, ethnicity, gender, caste, sexual orientation. Socio-economic status, age, physical abilities, religious beliefs, political ideologies.	5 + 1
3	Formulations of international equal opportunity and non-discrimination policies. Limitations of Affirmative action welcoming ex-parte evaluation and other legal policies.	5 + 1
4	Recruitment, development and retention strategies in diverse organizations and Workplaces. Diversity management training programs for all employees and continuous monitoring of results, Diversity Audit.	5 + 1
5	Analysis of any two Organization's culture,	5 + 1

Learning Resources:

1	Text Books	International Business, S Shajahan, Macmillan India Limited, Delhi, 2006. International Business: An Introduction, Geert Hofstede, Palgrave, New York, 2001. International Human Resource Management by Hilary Harris, Chris Brewster and Paul Sparrow, VMP Publishers and Distributors International Human Resource Management by K Aswathappa and Sadhna Dash , TMGH
2	Reference Books	International Human Resource Management by Peter j Dowling, Device E Welch, 4 th Edition
3	Supplementary	International HRM- A cross cultural approach, Terence Jackson, SAGE

	Reading Material	publication.
4	Websites	-
5	Journals	<p>Colorful window dressing: A critical review on workplace diversity in three major American corporations by Marques, Joan F. Human Resource Development Quarterly. Winter2010, Vol. 21 Issue 4, p435-446.</p> <p>Managing Diversity: Using an Equal Opportunities Audit to Maximize Career Potential and Opportunities in a UK Bank by Sutherland, Valerie J.; Davidson, Marilyn J. Jul/Aug2012, Vol. 51 Issue 4, p549-573.</p> <p>International Journal of Human Resource Management</p> <p>Human Resource Management Journal</p> <p>Human Resource Management</p>

Semester	IV	Specialization	International Business Management
Course Code	415IB	Type	Subject - Elective
Course Title	Foreign Language for International Business - II		

Course Objectives:

1	To equip the students with a foreign language skill at least to that extent that is required for conducting international business.
2	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
3	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introducing a company: Introducing a company, its organization, its activities, its market, its trade policy, its financial and trade positions as well as its result and experience all these quantitatively and indicate also their evolution and make comparisons, interpret and comment on tables and graphs.	5 + 1
2	Speaking about the Professional environment: Talking about the framework of professional environment, its working conditions, the posts, the timings, Salaries leave, holidays and language learner's relationship with other colleagues.	5 + 1
3	Explaining the details: Understanding and explaining the manufacturing process and understand the directions for use. Asking and giving information on a product and on a service. Obtaining and providing information on the price, the modes and conditions of payment. Noting down and convey requests and claims of the clients. Placing orders.	5 + 1
4	Managing Visitors: Welcoming visitors and clients and to provide them with necessary information, orient them, scan the visitors and also to be able to make them wait.	5 + 1
5	Organizing: Organizing meetings and participate in meetings. Organizing different events, for example, an appointment, a meeting, a seminar, a fair or an exhibition and also be able to fix up, confirm, postpone or cancel an appointment or a programme.	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/

GERMAN/ JAPANESE / CHINESE

Learning Resources:		
---------------------	--	--

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

MBA SYLLABUS: SEMESTER IV
SUPPLY CHAIN MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	Supply Chain Management
Course Code	403SCM	Type	Subject Core
Course Title	Strategic Supply Chain Management		

Course Objectives:

1	To understand the role and objectives of Strategic Supply Chain Management
2	To recognize the role and importance of strategic partnerships and alliances in Supply Chain Management
3	To appreciate the increasing scope of Supply Chain Management and its future challenges

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chain Strategy: Strategic objectives of SCM - customer focus, product development, market development, diversification, learning & organizational capability, sustainable competitive advantage through SC	7 + 2
2	Managing SC for Strategic Fit: concept of strategic fit, steps in achieving strategic fit, impact of customer needs, impact of uncertainty, multiple products & customer segments, PLC, globalization & competitive changes over time	7 + 2
3	Expanding Strategic Scope: Minimize local cost perspective, Minimize functional Cost perspective, Maximize Company Profit perspective, Maximize SC Surplus perspective, Agile intercompany inter functional scope	7 + 2
4	Strategic Partnerships & Alliances: Collaborative Advantages, Framework for Strategic Alliances, Core Competence – 3PL, 4PL & Outsourcing: Advantages & Disadvantages, Prerequisites, Implementation Issues	7 + 2
5	Supply Chain Challenges – Strategies for the future: Mass customization, Globalization, Greening, Ethical SC, Intelligent System, Implications for managers, organizations & policy makers	7 + 2

Learning Resources:

1	Text Books	Supply Chain Management: Strategy Planning & Operation by Sunil Chopra, Peter Meindl, Kalra, Pearson, 3 rd Edition. Supply Chain Strategies – Customer Driven & Customer Focused by Tony Hines, Elsevier, 1 st Edition
2	Reference Books	Managing the SC- A Strategic Perspective by Gattorna Walters, Palgrave Macmillan, 1 st Edition

		<p>New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007</p> <p>Extending the Supply Chain by Boyer, Forhlich and Hult, PHI, 3rd Indian Reprint, 2009</p>
3	Supplementary Reading Material	<p>Designing & Managing the SC – Concepts, Strategies & Case studies – by Levi, Kaminsky et. al., TMGH, 3rd Edition</p> <p>Manufacturing Operations and Supply Chain Management: The Lean Approach by Taylor and Brunt, Cengage Learning.</p> <p>Supply Chain Management by Mentzer, Response Books, 2007</p>
4	Websites	<p>http://csmp.org/</p> <p>www.supplychain.org</p>
5	Journals	<p>An adaptive framework for aligning (re)planning decisions on supply chain strategy, design, tactics, and operations by Ivanov, Dmitry., International Journal of Production Research, Jul2010, Vol. 48 Issue 13</p> <p>The Impact of Competitive Strategy and Supply Chain Strategy on Business Performance: The Role of Environmental Uncertainty by Yinan Qi; Xiande Zhao; Chwen Sheu., Decision Sciences, May2011, Vol. 42 Issue 2</p> <p>An Exploration of Fisher's Framework for the Alignment of Supply Chain Strategy With Product Characteristics by Harris, Gregory A.; Compton, Paul J.; Farrington, Phillip A., Engineering Management Journal, Dec2010, Vol. 22 Issue 4</p> <p>Alignment of Supply Chain Strategy with Business Strategy by Mitra, Amarnath; Bhardwaj, Sunil., IUP Journal of Supply Chain Management, Sep2010, Vol. 7 Issue 3</p> <p>What's the buzz about moving from 'lean' to 'agile' integrated supplychains? A fuzzy intelligent agent-based approach by Jain, Vipul; Benyoucef, Lyes; Deshmukh, S. G., International Journal of Production Research, Dec2008, Vol. 46 Issue 23</p> <p>Improving supply-chain collaboration by linking intelligent agents to CPFR by Caridi, M.; Cigolini, R.; De Marco, D., International Journal of Production Research, 2005, Vol. 43 Issue 20</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	404SCM	Type	Subject Core
Course Title	Knowledge Management in Supply Chains		

Course Objectives:	
1	To know Supply Chain Systems Classification
2	To understand the role of IT as an enabler of Supply Chain Management for today's businesses

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chain IT Framework: Supplier Relationship Management, Internal Supply Chain Management, Customer Relationship Management, Transaction Management Foundation	7 + 2
2	Supply Chain Information Systems: SC Information System classification, Requirement Analysis for Information Systems in SC, Information for Strategic SC decisions, Risks & Challenges in implementing SC Information Systems, Benefits of SC Information Systems	7 + 2
3	Digital Markets & Efficient Supply Chains: Web enabled Supply Chains, Technological impact of SC disintermediation, Reconfiguration of SC, Pure technology applications in SC, Process Improvements - technology adoption	7 + 2
4	E-Supply Chain Opportunities: E business & SCM – Upstream Perspective, B-2-B Perspective, E supply chain opportunities - e procurement, e fulfillment, auctions & reverse auctions, collaborative demand planning, intranets, extranets & VPN, Benefits to SMEs & MSMEs	7 + 2
5	Technology Standards: Overview of Information Technology infrastructure – interface devices, system architecture, e-commerce. Service oriented architecture – Introduction to ERP. Applications of Bar coding & scanning, RFID, EPOS, Global data synchronization, Image Processing, GPRS	7 + 2

Learning Resources:		
1	Text Books	<p>Supply Chain & Logistics Management by Bowersox, Closs & Cooper, TMGH, 2nd Edition.</p> <p>Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3rd Edition</p> <p>Supply Chain Management Process, System & Practice by N.Chadraseskaran, Oxford, 1st Edition</p>

		Supply Chain Strategies: Customer Driven and Customer Focused by Tony Hines, Elsevier, 2008
2	Reference Books	Designing & Managing the SC – Concepts, Strategies & Case studies by Levi, Kaminsky et. al., TMGH, 3 rd Edition.
3	Supplementary Reading Material	New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007
4	Websites	www.supplychainmanagement.in
5	Journals	<p>Explicating the Mediating Role of Integrative Supply Management Practices in Strategic Outsourcing: A case study analysis by Narasimhan, Ram; Narayanan, Sriram; Srinivasan, Ravi., International Journal of Production Research, Jan2010, Vol. 48 Issue 2</p> <p>Intra-Organizational Perspectives On IT-Enabled Supply Chains by Singh, Nitin; Kee-hung Lai; Chen, T. C. E.. Communications of the ACM, Jan2007, Vol. 50 Issue 1</p> <p>E-Enabled Closed-Loop Supply Chains by van Nunen, Jo A. E. E.; Zuidwijk, Rob A. California Management Review, Winter2004, Vol. 46 Issue 2</p> <p>The Role of Trust and Collaboration in the Internet-enabled Supply Chain by Grossman, Martin., Journal of American Academy of Business, Cambridge, Sep 2004, Vol. 5 Issue 1/2</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	405SCM	Type	Subject - Elective
Course Title	Green Logistics and Supply Chains		

Course Objectives:

1	To sensitize the students to external costs of logistics and supply chains (climate change costs).
2	To analyze the environmental costs of logistics and how to deal with them effectively.
3	To highlight how different types of environmentally sustainable practices should be adopted at different stages of supply chains.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Environmental Sustainability & Green Logistics: Concept of Green Logistics, Green Logistics – Rhetoric & reality, Key drivers for greening of Logistics & Supply Chains, Benefits of Green Supply Chains	4 + 1
2	Environmental Costs of Logistics: Arguments for and against internalizing environmental costs of logistics, Monetary calculation of environmental costs , Concept of Carbon Credits, Guidelines for carbon foot printing, Carbon foot printing process, success factors in carbon foot printing, Carbon Auditing of Supply Chains	5 + 2
3	Reverse Logistics for Waste Management: Waste Management in the context of reverse logistics, Waste Treatment Legislation, Reuse & refurbishment markets and take back business models, Managing waste as a part of sustainable reverse process.	5 + 1
4	Public Policy and Green Supply Chains: Role of Government, Policy Measures, Energy Efficiency, Cutting Emissions.	5 + 1
5	Green Supply Chains: Case Studies on Green Initiatives by Manufacturers, Green Initiatives by Government & Non-Profit Organizations, Green Initiatives by Retailers, Green Initiatives by Consumers.	5 + 1

Learning Resources:

1	Text Books	Green Logistics – Improving the Sustainability of Logistics, Edited by McKinnon, Cullinane, Brown & Whiteing, Published by Chartered Institute of Logistics & Transports, UK.
2	Reference Books	Total Supply Chain Management by Basu & Wright, Elsevier, 1 st Ed.
3	Supplementary Reading Material	Greening the Supply Chain- A guide for Asian Managers by Purba Halady Rao, Response Books, 1 st Edition.

4	Websites	www.greenlogistics.org www.greenlogisticsforum.com
5	Journals	<p>Why business needs to green the supply chain by Hoskin, Paul., University of Auckland Business Review, Autumn2011, Vol. 13 Issue 1</p> <p>How Green Are Your Supply Chains? By Crandall, Richard E., Industrial Management, May/Jun2006, Vol. 48 Issue 3.</p> <p>Greening The Supply Chain: A New Initiative In India With Special Reference To Chhattisgarh by Ashraf, Gazala Yasmin; Raichoudhary, Arpita; Mukherjee, P. N.; Srivastava, R. K. Pranjana., The Journal of Management Awareness, Jan-Jun2009, Vol. 12 Issue 1</p> <p>The Economic Value of a Sustainable Supply Chain by Mefford, Robert N., Business & Society Review (00453609), Spring2011, Vol. 116 Issue 1</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	406SCM	Type	Subject - Elective
Course Title	Enterprise Resource Planning		

Course Objectives:

1	To help the student understand how a business works and how information systems fit into business operations.
2	To emphasize the cross functional integration aspects of a business.
3	To enable better managerial decision making through real time data integration and sharing.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Understanding Enterprise Resource Planning: Concept of Enterprise , Overview of Business Functions and Business Processes, Integrated Management Information, Business Modeling, Evolution of ERP; ERP and related technologies; Myths about ERP; Importance of ERP; Value creation in organizations through ERP; Benefits of ERP; Risk of ERP - People Issues, Process Risks, Technological Risks, Implementation Issues, Operation & Maintenance Issues; Managing risk in ERP projects.	5 + 1
2	ERP & Related Technologies: Business Process Reengineering, Data Warehousing, Data Mining, OLAP, PLM, SCM, CRM, GIS, ERP Functional Modules , Integration of ERP, Supply Chain, CRM.	5 + 1
3	ERP Implementation: Technological, Operational, Business Reasons for ERP implementation , ERP implementation Life Cycle – Objectives - Phases - Reasons for failure; Implementation challenges; ERP transition strategies - Big Bang Strategy, Phased Implementation, Parallel Implementation, Process Line Transition Strategy, Hybrid Transition Strategy, Strategy Choice; Success and failure factors of an ERP implementation; ERP implementation costs; Organization and working of ERP implementation team.	5 + 1
4	ERP Operations and Future Trends: Operation and maintenance of the ERP system; Maximizing the ERP system; ERP and e-business; Integration of ERP, internet and www; Future of ERP.	5 + 1
5	ERP Systems Processes and Management Control: Sales and Marketing; Accounting and Finance; Production and Material Management; Human Resource Management, Overview of an ERP product.	5 + 1

Learning Resources:

1	Text Books	Enterprise Resource Planning by Leon, Alexis, TMH Publication, 2 nd Edition, 2008. Enterprise Resource Planning by Koul, Saroj, Galgotia Publishing, 2001. ERP Concepts and Practice by Garg, V. K. and Venkat Krishna N. K., PHI Publication, 1997.
2	Reference Books	Enterprise Resource Planning by Sumner, Mary, Pearson Education, 2006.
3	Supplementary Reading Material	ERP In Practice by Vaman Jagan, TMGH
4	Websites	www.oracle.com/ERP www.sap.com/ www.openerp.com/
5	Journals	Measuring System Performance of an ERP-based Supply Chain by Ho, Chrwan-Jyh., International Journal of Production Research, 2007, Vol. 45 Issue 6 Supply Chain Transformation byERPfor Enhancing Performance: An Empirical Investigation by Zong Dai., Advances in Competitiveness Research, 2008, Vol. 16 Issue 1 Coordination Strategies in an SaaS Supply Chain by Demirkan, Haluk; Cheng, Hsing Kenneth; Bandyopadhyay, Subhajyoti., Journal of Management Information Systems, Spring2010, Vol. 26 Issue 4

Semester	IV	Specialization	Supply Chain Management
Course Code	407SCM	Type	Subject - Elective
Course Title	Purchasing & Supplier Relationship Management - II		

Course Objectives:

1	To provide an in-depth understanding of the fundamentals surrounding purchasing in different contexts.
2	To make the students aware of the different demands placed on the purchasing and supply chain managers by business stakeholders.
3	To help the students understand the impact of purchasing on competitive success and profitability of modern day organizations.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Purchasing for Institutions & Government Organizations: Similarities and dissimilarities with industrial purchasing. Purchasing procedure, roles of purchasing. Products & services purchased, functions performed, Purchase Cycle, Establishing sources of supply, Contracts Administration, Internal & External Environmental factors	5 + 1
2	Purchasing of Services: Hidden Opportunities, Planning the statement of work, Writing the statement of work, Selecting service contractors, Compensating Service suppliers, Professional services, Technical services, Operating services, Contract administration, Develop a sound Procedure for Evaluation	5+ 1
3	Purchasing of Capital Equipment: Differences in the procurement of capital equipment - Nonrecurring purchases, Nature and size of Expenditure. Considerations in Source Selection –Operating Characteristics of equipment, Engineering features of equipment, Total economic analysis, Various qualitative considerations, Life cycle cost analysis, Role of Purchasing, Used / Second hand equipment Purchasing, Leased equipment– factors favouring leasing	5 + 1
4	Worldwide Sourcing - Creating a world class supply base: An overview of Worldwide Sourcing, Why source worldwide? Barriers to worldwide sourcing, Information about Worldwide sources, Supplier selection issues, Cultural understanding, Language and communication differences, Legal issues, Logistical issues, Organizational issues, Costs associated with Worldwide Sourcing, Managing international currency risk, Hedging – Spot & Forward Contracts, Progressing from International Purchasing to Global Sourcing, Differentiating factors between successful and less successful Global Sourcing Efforts, Benefits of global sourcing, Future Global Sourcing Trends	5 + 1
5	Performance Measurement & Evaluation: Why Measure Performance, Problems with Purchasing Measurement and Evaluation, Purchasing	5 + 1

	Measurement Categories – Price Performance Measures, Cost-Effectiveness Measures, Quality, Time related Measures, Technology Innovation Measures, Physical Environment and Safety, Asset Management and Integrated SC Measures, Administration and Efficiency Measures, Developing a Performance Measurement and Evaluation System - Determining which Performance Categories to Measure, Developing Specific Performance Measures, Establish Performance Objectives for each Measure, Finalize system Details, Implement and Review	
--	--	--

Learning Resources:		
1	Text Books	<p>Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Cengage South Western, 3rd Edition.</p> <p>Purchasing & Supply Chain Management by Lysons and Farrington, Pearson Education, 2010.</p>
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition.
3	Supplementary Reading Material	Organizational Buying Behaviour by Webster and Wind, Prentice Hall, 1972
4	Websites	<p>www.cips.org</p> <p>www.eipm.org</p>
5	Journals	<p>e Global Sourcing and Logistics Exercise: A Group Exercise to Demonstrate Basic Global Supply Chain Principles by Ashenbaum, Bryan., Decision Sciences Journal of Innovative Education, Sep2008, Vol. 6 Issue 2</p> <p>Strategic Alliance-Based Global Sourcing Strategy for Competitive Advantage: A Conceptual Framework and Research Propositions by Murray, Janet Y., Journal of International Marketing, 2001, Vol. 9 Issue 4</p> <p>Global sourcing in the auto industry by Bergmann, Markus; Mangaleswaran, Ramesh; Mercer, Glenn A., McKinsey Quarterly, 2004 Special Edition</p> <p>Pursuing competitive advantage through integrated global sourcing by Trent, Robert J.; Monczka, Robert M., Academy of Management Executive, May2002, Vol. 16 Issue 2</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	408SCM	Type	Subject - Elective
Course Title	Supply Chain Risk Management		

Course Objectives:

1	To help the students understand the pressures on managing the supply chain and their impact on supply chain's vulnerability to disruptions.
2	To introduce the principles of supply chain risk management.
3	To provide an understanding of the basics of identifying, defining and analyzing risks.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basics of Risk Management: Risk & Management, Growth of risk Management, defining Risk, Features of Risk. Decisions & Risk, Decisions with certainty, uncertainty, risk, ignorance, Managing Risk	4 + 1
2	Risk in Supply Chain: Risks arising out of Trends affecting SC – Integration, Cost Reduction, Agile Logistics, E-Business, Globalization, Outsourcing, SC Risk Management – Aims, Steps & Principles	5 + 1
3	Identifying & Analyzing Risks: Types of Risks, Identifying Risks, Tools for analyzing past events, collecting opinions, analyzing operations, Measuring Risk, Likelihood of a risky event, Consequences of risk, Responding to risks, Alternative responses, defining the options & choosing the best response, Network View of Risk - Shared risks	5 + 2
4	Creating resilient SC: Design of a resilient SC, Principles of designing resilient SC, Physical features of a resilient SC, relationship within a resilient SC, Risk compensation & Business Continuity	5 + 1
5	Business Continuity Management: Emergencies & Crisis, Views of BCM & Steps in BCM	5 + 1

Learning Resources:

1	Text Books	Supply Chain Risk Management by Donald Walters, Kogan Page, 1 st Edition.
2	Reference Books	The New Supply Chain Challenge: Risk Management in a Global Economy by Bosman R, FM Global, Johnston RI, 2006.
3	Supplementary Reading Material	Risk management for executives by Kendall R, FT Prentice Hall London, 1998.

4	Websites	www.disasterplan.com www.globalcontinuity.com www.riskinfo.com
5	Journals	<p>Reconciling Supply Chain Vulnerability, Risk And Supply Chain Management by Peck, H., International Journal of Logistics: Research & Applications, Jun2006, Vol. 9 Issue 2</p> <p>Sources of Supply Chain Disruptions, Factors That Breed Vulnerability, and Mitigating Strategies by Steckel, Kathryn E.; Kumar, Sanjay., Journal of Marketing Channels, Jul-Sep2009, Vol. 16 Issue 3</p> <p>Drivers Of Supply Chain Vulnerability: An Integrated Framework by Peck, Helen., International Journal of Physical Distribution & Logistics Management, 2005, Vol. 35 Issue 4</p> <p>A Conceptual Framework For The Analysis Of Vulnerability In Supply Chains by Göran Svensson., International Journal of Physical Distribution & Logistics Management, 2000, Vol. 30 Issue 9</p> <p>Key Areas, Causes And Contingency Planning Of Corporate Vulnerability In Supply Chains: A Qualitative Approach by Svensson, Göran., International Journal of Physical Distribution & Logistics Management, 2004, Vol. 34 Issue 9</p> <p>Managing Uncertainty - An Empirical Analysis Of Supply Chain Risk Management In Small And Medium-Sized Enterprises by Thun, Jorn-Henrik; Druke, Martin; Hoenig, Daniel., International Journal of Production Research, Sep2011, Vol. 49 Issue 18</p> <p>Analyzing Risks In Supply Networks To Facilitate Outsourcing Decisions by Lockamy, Archie; McCormack, Kevin., International Journal of Production Research, Jan2010, Vol. 48 Issue 2</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	409SCM	Type	Subject - Elective
Course Title	Project Management		

Course Objectives:

1	To make the students understand the complex issues in Project Management
2	To increase the understanding of project management tools and techniques
3	To teach the students the concepts and skills that are used by managers to plan projects, secure resources, budget, lead project teams to successful completion of projects.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Project Management: Definition, functions, evolution of Project Management, classification of projects, Project management in different environments.</p> <p>The Project Management Systems, Methodologies & Systems Development Cycle: Systems approach, systems analysis, systems development, project feasibility, Project life cycle, project appraisal, project contracting, the phases of system development life cycle.</p>	5 + 1
2	<p>Project Feasibility Study: Developing a project plan, market and technical analysis, financial analysis evaluation of project proposals, risk analysis, sensitivity analysis, and social cost benefit analysis.</p> <p>Project Planning: Planning fundamentals, project master plan, work breakdown structure & other tools of project planning, work packages project organization structures & responsibilities, responsibility matrix.</p>	6 + 1
3	<p>PERT, CPM, Resource allocation: Tools & techniques for scheduling development, crashing of networks, time-cost relationship, and resource leveling multiple project scheduling.</p> <p>Cost Estimating Budgeting : Cost estimating process elements of budgeting, project cost accounting & management information systems, cost schedules & forecasts.</p>	5 + 1
4	<p>Managing Risks in Projects: Risk concept & identification, risk assessment, risk priority, risk response planning, risk management methods.</p> <p>Project Control: Information monitoring, internal & external project control, cost accounting systems for project control, control process, performance analysis, variance limits, and issues in project control.</p>	5 + 1
5	Project Management Information System: Computer based tools, features of	4 + 1

	PMIS, using project management software, (MS Projects)	
	Project Evaluation, Reporting & Termination: Project reviews & reporting, closing the contract.	

Learning Resources:		
1	Text Books	<p>Effective Project Management by Clements and Gido, Cengage India Edition, 2007.</p> <p>Project Management : The Managerial Process by Gray and Larson, MGH, Special Indian Edition, 3rd Edition</p> <p>Project Management for Business and Technology: Principles and Practice by John Nicholas, PHI – Eastern Economy Edition, 2nd Edition.</p>
2	Reference Books	Project Management – Core Text by Mantel, Meredith, Shafer, Sutton and Gopalan, 1 st Indian Edition
3	Supplementary Reading Material	<p>Project Management: A Managerial Approach by Meredith, Mantel Wiley India, 6th Edition.</p> <p>The Practice of Project Management by Freigenti and Comninios, Kogan Page</p>
4	Websites	www.pmi.org.in/
5	Journals	<p>Risk Analysis of Infrastructure Projects: A Case Study on Build-Operate-Transfer Projects in India by Maniar, Hiren., IUP Journal of Financial Risk Management, Dec2010, Vol. 7 Issue 4</p> <p>Enercon India: Project Planning by Mukherjee, Saral; Raghuram, G., Vikalpa: The Journal for Decision Makers, Jan-Mar2007, Vol. 32 Issue 1</p> <p>Critical Factors Affecting Schedule Performance: Evidence from Indian Construction Projects by Iyer, K. C.; Jha, K. N., Journal of Construction Engineering & Management, Aug2006, Vol. 132, Issue 8</p> <p>What attributes should a project coordinator possess? by Jha, Kumar Neeraj; Iyer, Chandrashekhar K., Construction Management & Economics, Sep2006, Vol. 24 Issue 9</p> <p>A Study of Critical Project Success Parameters in Different Organizational Conditions by Piyush, Mishra; Dangayach, G. S.; Mittal, M. L., Advances in Management, Aug2011, Vol. 4 Issue 8</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	410SCM	Type	Subject - Elective
Course Title	Supply Chain Performance Measurement		

Course Objectives:

1	To understand various types of traditional performance measures of supply chain , their use and drawbacks
2	To introduce a select world class performance measures of Supply Chain
3	To understand the right metrics for a Supply Chain

Syllabus:

Unit Number	Contents	Number of Sessions
1	Performance Measurement along the Supply Chain: Relationship between Company Strategy & Supply Chain Metrics, Functional classification of Decision areas in SCM – Procurement, Manufacturing, Distribution, Logistics, Global	5 + 1
2	Traditional Approaches to Performance Measurement: Productivity Measures, Quality Measures, Customer Service Measures, Cost Measures, Drawbacks of Traditional Measures	5 + 1
3	World Class Performance Measures for Supply Chains: Balanced Scorecard, Activity Based Management & Costing, EVA (In depth discussion & analysis expected)	5 + 1
4	Process Driven Metrics: SCOR framework, EFQM (In depth discussion & analysis expected)	5 + 1
5	Building & Leveraging Metrics to drive Supply Chain Performance: All metrics are not equal, Establishing the right Metrics, Linking Metrics to overall strategic objectives, Insights through cause & effect guided analysis, Quantifying financial impacts of SC Metrics, Identifying corrective actions	5 + 1

Learning Resources:

1	Text Books	Supply Chain Management Process, System & Practice by N. Chadrasedkaran, Oxford, 1 st Edition Supply Chain Performance Measurement & Improvement Edited by Venkata Nimeesha Posa, ICFAI Press, 1 st Edition
2	Reference Books	New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007 Supply Chain Management by Mentzer, Response Books, 2007
3	Supplementary Reading Material	Principles of Supply Chain Management : A Balanced Approach by Joel Wisner, Keong Leong, Keah-ChoonTan, Cengage Learning.
4	Websites	http://www.supplychainmetric.com/
5	Journals	Supply Chain Performance Measurement: A Literature Review by ArzuAkyuz, Goknur; Erman Erkan, Turan., International Journal of Production Research, Sep2010, Vol. 48 Issue 17 On Measuring Company Performance within A Supply Chain by Martin, P. Richard; Patterson, J. Wayne., International Journal of Production Research, May2009, Vol. 47 Issue 9 Aligning Business Process Reengineering in Implementing Global Supply Chain Systems by the SCOR model by Wang, William Y. C.; Chan, H. K.; Pauleen, David J., International Journal of Production Research, Oct2010, Vol. 48 Issue 19

Semester	IV	Specialization	Supply Chain Management
Course Code	411SCM	Type	Subject - Elective
Course Title	Supply Chain Management - Financial Perspectives		

Course Objectives:

1	To highlight the importance of cost management as a key to profitability and the key to successful supply chain networks.
2	To underline the role of cost management from a strategic perspective.
3	To teach the identification of key cost drivers and defined process of managing supply chain costs.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Pricing & Revenue Management in Supply Chain: Role of Pricing & Revenue Management in SC, Pricing and Revenue Management for - Multiple Customer Segments, Perishable Assets, Seasonal Demand, Bulk and Spot Contracts, Role of IT in Pricing & Revenue Management, Using Pricing and Revenue Management in Practice	5 + 1
2	Identifying Critical Costs in the SC: Concept of cost, Process Mapping, SC Cost flow, Selecting critical costs to be managed, Obtaining cost data – supplier provided data, internal data, Measuring Secondary & Tertiary Costs – Overview of Allocation based costing system, Management Based costing system	5 + 1
3	Defining Key cost Drivers & developing Strategic Options: Review of current cost drivers, selection of key cost drivers, Weighted value of cost drivers, Potential for improvement, Developing strategic options for selected cost drivers	5 + 1
4	Reducing, Eliminating or Changing activities that cause cost: Risk return model for choosing strategic options – Market driven, Standard, Critical & Danger Quadrants, Identifying constraints, Evaluating risks & benefits in SC cost management from stakeholders perspectives, prioritizing strategies for implementation	5 + 1
5	Implementation & Control for Cost Management In SC: Creating a Implementation Plan, Addressing Implementation Risks, Developing Contingency Plans, Selling the Plan to Stakeholders, Monitoring Performance, Documenting Savings, Qualitative Benefits, Sharing the learning process, Eternally improving & leveraging the process	5 + 1

Learning Resources:

1	Text Books	Supply Chain Cost Management – Strategy, Planning & Operation by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3 rd Edition.

Semester	IV	Specialization	Supply Chain Management
Course Code	412SCM	Type	Subject - Elective
Course Title	Global Logistics		

Course Objectives:

1	To get acquainted with global dimensions of logistics management
2	To introduce basic operational aspects i.e. procedure, documentations & related legal aspects of global logistics
3	To sensitize students to basics of shipping line industry

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Introduction to Global Logistics :International Logistics Development, International Trade Logistics Chain, Shipper's Logistics Requirements in trade, 7R's of Logistics Management, 5 P's of Logistics, International Commercial Terms – Use of Incoterms in a Contract, Incoterms Laws.</p> <p>1.2 Logistics and Documentation: Consular Invoice, Commercial Invoice, Certificate of Origin, certificate of Value, Bill of Lading, Cargo Manifest or Packing List, Health Certificate, Import license, Insurance Certificate, Export Declaration Forms.</p> <p>1.3 Transportation: Modes of transportation, Transport and Communication, Transport activities and Land Use, Transport, Energy and the Environment.</p> <p>1.4 Air Cargo: Transportation of goods through Air, Transportation Infrastructure, World Air Cargo growth, Benefits of Airfreight, Airport classification, International Airports of India, Types of Aircraft, Unit loading devices, Airport Charges, International Country Codes.</p>	5 + 1
2	<p>2.1 Carriage of Goods by Land: Motor Vehicles Act, 1988, Central Motor Vehicles Rules, 1989, Carriers Act, 1865 – Definition of common carrier, Scheduled and Non Scheduled Goods, Railways Act, 1989 – Railway's liability, Merits and Demerits of Railway Transportation, Railway Freight rates.</p> <p>2.2 Carriage of Goods by Sea & Ocean Freight & Freight Calculations: Ocean Shipping Methods, Ocean Freight or Tariff rates, Freight rates terminology used in international shipments, Freight surcharges, Freight Rebates, Conference Discounts, Contract Shippers, Weight or Measure in the Freight Cost Calculation, Freight Adjustments – Currency Adjustment Factor (CAF), Bunker Adjustment Factor (BAF).</p> <p>2.3 Types of Ships: Mail and Supply Ships, Expedition Ships, Coasters, Bulk Carriers, Tankers, Refrigerated Vessels and Reefers, Livestock carriers, LNG Carriers, Car Carriers, Container Ships, Heavy lift Vessels, Tugs, Ro-Ro</p>	5 + 1

	Vessels.	
3	<p>3.1 Shipping Formalities: Booking Shipping Space, Conference Shipping, Non-conference Shipping, Charter Shipping, Charter Party, Shipping Storage, Ocean Shipping procedure.</p> <p>3.2 Shipping Intermediaries: Function and Roles of Custom Brokers, Freight Forwarders and Consolidators, Shipping Agents, Stevedores.</p> <p>3.3 The Major Port Trusts Act, 1963.</p> <p>3.4 Shipping Corporation of India: Products and Services, STS Lighterage Operations</p>	5 + 1
4	<p>4.1 Major Ports in India: Present Policy, Privatization Policy, Indian Port Policy Reform, Major Ports in India – Chennai, Cochin, Ennore, JNPT, Kandla, Mormugao, Mumbai, Paradip, NMPT, Pipavav, Tuticorin, Visakapatnam.</p> <p>4.2 Important Sea Routes: Northern Sea route, North Atlantic Route, Mediterranean Route, Panama Route, Baltic Sea Route, Indian Ocean route, Cape Route, South Atlantic Route, North Pacific Route.</p> <p>4.3 International Chamber of Shipping</p> <p>4.4 World's Major Ports: Major Ports and Port codes, Seaports of the world.</p>	5 + 1
5	<p>5.1 Containerization: Origin of containerization, Origin of TEU, Container sizes - dimensions and capacity, Container Flavours, Swap Bodies, Other considerations, Registration, Container Classification numbers, Lift/Stacking fittings, Movement of containers, Recent Developments – Coltainer, Cargosprinter, Safety of container ships, Container Classification – General Cargo service, Specific cargo service, Unit Load Device, Rating – Tare Mass and Pay load of Containers, Marking and Identification of Containers. Benefits of containerization.</p> <p>5.2 Inland Container Depots & Container Freight Stations: Functions, Benefits, Requirements for successful ICD/CFS, Designs and Layout, Equipping the ICD/CFS, Procedures for approval and implementation. Concor – The Multimodal Logistics Professionals.</p>	5 + 1

Learning Resources:

Fall2003, Vol. 34 Issue 4, p456-472. 17p Logistics Industry Profile: Global , Logistics Industry Profile: Global. Dec2008, p1 –30

Semester	IV	Specialization	Supply Chain Management
Course Code	413SCM	Type	Subject - Elective
Course Title	Supply Chain Practices - II		

Course Objectives:

1	To give a practical understanding of the practice of supply chain management in various sectors.
2	To give a practical understanding of the peculiarities of supply chain management practices in various sectors.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chains for Projects – Construction (Housing, Infrastructure), Power Plants, New Factories, etc.	NA
2	Supply Chains for Disaster Management.	NA
3	Virtual Supply Chains for Books, Electronic Goods, Music, Apparel, Tourism, etc.	NA
4	Supply Chains for SMEs and MSMEs.	NA
5	Global Supply Chains - PCs, Desktops, Luxury Cars, Toys, etc.	NA

* Field/Self Study under Faculty guidance.

Students should work in groups of two each on any two Companies from the Sectors listed above. The Sectors should be from different groups.

Students shall study various aspects of the SCM principles and practices as followed in these sectors. They should identify the peculiarities of the sector, map the supply chain in detail (identify the parties involved and their role in the supply chain), compare the top two players in each of these sectors and identify best practices, Prepare a summary evaluation of each sector studied.

Students shall submit a structured detailed report based on the above parameters.

The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty. The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	409RABM	Type	Subject – Elective
Course Title	Agricultural Finance and Project Management		

Course Objectives:

1	To impart knowledge on issues related to lending to priority sector credit management and financial risk management.
2	To acquaint the learner with course would bring in the various appraisal techniques in project - investment of agricultural projects.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Role and Importance of Agricultural Finance: Agricultural Finance- meaning, Financial Institutions and credit flow to rural/priority sector. Agricultural lending – Direct and Indirect Financing - Development of Rural Institutional Lending - Branch expansion, demand and supply of institutional agricultural credit and Over dues and Loan waiving.</p> <p>Role of Cooperatives: Financing through Co-operatives, NABARD and Commercial Banks and RRBs. Lead Bank Scheme District Credit Plan and lending to agriculture/priority sector. Micro-Financing and Role of MFI's - NGO's, and SHG's.</p>	5 + 1
2	Lending to farmers: Lending to farmers, Estimation of Technical feasibility, Economic viability and repaying capacity of borrowers and appraisal of credit proposals.	5 + 1
3	Project Approach: Project Approach in financing agriculture. Financial, economic and environmental appraisal of investment projects. Identification, preparation, appraisal, financing and implementation of projects.	5 + 1
4	Project Appraisal Techniques: Project Appraisal techniques – Undiscounted measures. Time value of money – Use of discounted measures - B-C ratio, NPV and IRR. Agreements, supervision, monitoring and evaluation phases in appraising agricultural investment projects.	5 + 1
5	<p>Risks in financing agriculture: Risk management strategies and coping mechanism. Crop Insurance programmes – review of different crop insurance schemes – yield loss and weather based insurance and their applications.</p> <p>Case Study Analysis of an Agricultural project, Financial Risk and risk management strategies – crop insurance schemes, Financial instruments and methods – E banking, Kisan Cards and core banking.</p>	5 + 1

Semester	IV	Specialization	Family Business Management
Course Code	408FBM	Type	Subject – Elective
Course Title	Managing, Growing and Exiting The New Venture		

Course Objectives:	
1	To empower student with nuances of stages of venture and entrepreneurial conduct
2	To prepare student with the understanding of resources and external sources
3	To prepare student of separation and exit strategies

Syllabus:

Unit Number	Contents	Number of Sessions
1	Entrepreneurial Strategy: Generating And Exploiting New Entries: New Entry, Generation of a New Entry Opportunity - Resources as a Source of Competitive Advantage, Creating a Resource Bundle That is Valuable, Rare, and Inimitable. Assessing the Attractiveness of a New Entry Opportunity - Information of New Entry, Comfort with Making a Decision under Uncertainty, Decision to Exploit or Not to Exploit the New Entry. Entry Strategy for New Entry Exploitation - Environmental Instability and First Mover (Dis) Advantages, Customer Uncertainty and First Mover (Dis) Advantages, Lead Time and First Mover (Dis) Advantages. Risk Reduction Strategies for New Entry Exploitation - Market Scope Strategy, Imitation Strategies, Managing Newness.	5 + 2
2	Strategies For Growth And Managing The Implications of Growth: Growth Strategies: Where to Look for Growth Opportunities - Penetration Strategies, Market Development Strategies, Product Development Strategies, Diversification Strategies, Example of Growth Strategies. Economic Implications of Growth. Implications of Growth for the Firm - Pressures on Existing Financial Resources, Pressures on Human Resources, Pressures on Management of Employees, Pressures on Entrepreneur's Time. Overcoming Pressures on Existing Financial Resources. Financial Control - Managing Cash Flow, Managing Inventory, Managing Fixed Assets, Managing Costs and Profits, Taxes, Record Keeping. Overcoming Pressures on Existing Human Resources, Overcoming Pressures on the Management of Employees, Overcoming Pressures on Entrepreneur's Time - Basic Principles of Time Management. Implications of Firm Growth to the Entrepreneur - A Categorization of Entrepreneurs and Their Firms' Growth.	5 + 2
3	Accessing Resources For Growth From External Sources: Using External Parties to Help Grow a Business, Franchising - Advantages of Franchising- to the Franchisee, Advantages of Franchising- to the Franchiser, Disadvantages of Franchising, Types of Franchising, Investing in Franchising. Joint Ventures - Types of Joint Ventures, Factors in Joint Ventures. Acquisition	5 + 2

	- Advantages of Acquisition, Disadvantages of Acquisition, Synergy, Structuring the Deal, Locating Acquisition Candidates. Mergers, Leveraged Buyouts, Overcoming Constraints by Negotiating for More Resources.	
4	Going Public: Advantages and Disadvantages of Going Public – Advantages, Disadvantages. The Alternatives to Going public, Timing of Going Public and Underwriter selection – Timing, Underwriter Selection. Registration Statement and Timetable - The Prospectus, Part II, Procedure. Legal issues. After Going public - Aftermarket Support, Relationship with the Financial Community, Reporting Requirements, Myths concerning Going Public.	5 + 2
5	Ending The Venture: Bankruptcy- An overview, Reorganization - Surviving Bankruptcy, Prepackaged Bankruptcy, Extended Time Payment Plans, Liquidation, Strategy during Reorganization, Keeping the Venture Going, Warning Signs of Bankruptcy, Starting Over, The Reality of Failure, Business Turnarounds, Exit Strategy. Succession of Business - Transfer to Family Members, Transfer to Non-Family Members. Harvesting Strategy - Direct Sale, Employee Stock Option Plan, Management Buyout.	5 + 2

Semester	IV	Specialization	Family Business Management
Course Code	412 FBM	Type	Subject – Elective
Course Title	Business Incubation		

Course Objectives:	
1	To develop a basic understanding of their own business model
2	Learn basics of startup formation
3	Receive mentoring from successful, articulate, and committed entrepreneurs.

Syllabus::

Students shall work in groups of not more than 3, identify a business idea and come up with the following in the context of their identified business idea:

1. Competitive Analysis
2. Marketing Plan
3. Operational Plan
4. Financials
5. Market research
6. Advertising
7. Advisory board development
8. Legal issues (company structure, legal agreements, intellectual property)
9. Insurance issues
10. Other revenue
11. Marketing
12. Technology
13. Operations/costs
14. Funding
15. Institutional / Government Support to the venture.
16. Relationships
17. Team-building
18. Ethical issues
19. One-Page Business Summary

The students shall present their work to the faculty and fellow students. To the extent possible an entrepreneur should be involved in the evaluation process.

The following questions shall form the basis of evaluation of the work:

1. Is the idea well-conceived?
2. Is the plan well researched?
3. Has the team identified and addressed key questions and challenges and, as an entrepreneur, adjusted nimbly?
4. Did the team present the plan well?

Weightage to the work shall be as follows:

1. Initial competitive analysis
2. Preliminary marketing plan
3. Operational plan
4. Financials

5. One-page business summary
6. Written Work

MBA Syllabus: Semester IV
Technology Management

Semester	IV	Specialization	Technology Management
Course Code	403TM	Type	Subject – Core
Course Title	Technology Competition and Strategy		

Course Objectives:

1	To highlight the role of technology and innovation as value drivers.
2	To emphasize the open systems view and underscore the role of environment in Technology strategy.
3	To highlight linkages between technology and business strategy

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology & Competition: Competitive Domains, Competitive Consequences of Technological Change – Creation of New Products, Changes in the Value Chain, Changes in the Value Constellation, Competitive Rivalry. Technological Characteristics of Competitive Domains – Technological Opportunity, Appropriability, Resource Requirements, Collateral Assets, Institutional Milieu, Speed. Dynamics of Change in the Competitive Domain – Technology Emergence Phase, Incremental Change Phase. Framework for Analysis of Technology Emergence, Influence of Environmental trends on competition. Technology as critical to Business Outcomes – Technology Strategy and Technology Leadership.	7 + 2
2	Technology Intelligence: Signals of New Technology, What is Technology Intelligence, Importance of Technology Intelligence, Levels of Technology Intelligence, External versus Internal Technology Intelligence. Mapping the Technology Environment – Steps in Mapping, Mapping the Macro-level and Industry Level Environment. Mechanisms for Data Collection – Challenges, Organizational Arrangements and Key Principles for Data Collection. Contemporary Challenges in Mapping the Technology Environment.	7 + 2
3	Business Strategy and Technology Strategy: Business Strategy , Strategic Analysis and Decision Making using Product Evaluation Matrix, Market-Growth-Market-Share Analysis Matrix, X-Y Coordinating Method, M-by-N Matrix, SWOT Matrix, Formulation of Technology Strategy, Core Competencies, Exploitation of Core Competencies, Integration, Linking Technology & Business Strategies, Creating the Product-Technology-Business Connection. Technology's Interface with – Market, Customers and Suppliers. Customer-Supplier and Product-User relationships.	7 + 2
4	Technology Strategy Choice: Technology – Business Connection, Domains of Technology Choice, Linkages between Technology Choice and Competitive Advantage, Technology Strategy Definition, Role of Chief Technology Officer, Key principles underlying Technology Strategy – Objectives, Drivers, Decision criteria. Technology Strategy Types – Appropriateness of the Technology Strategy Types, Diversified Firms, A Framework for formulating Technology	7 + 2

	Strategy – Strategic Diagnosis, Formulation of Technology Strategy, Crafting and Implementation Approach, Execution. Technology Strategy – Superior Performance Characteristics. Accountability to Shareholders, Government and Other Stakeholders/ Performance Measurement.	
5	Technology Strategy – Collaborative Mode: Collaborative Arrangements – Definitions, Trends, R&D Alliances, Marketing Alliances, Outsourcing Alliances, Collaboration between small and large firms, Strategic and Operational Reasons for Collaborative Arrangements. Collaborative Arrangements in the domain of Technology Strategy – Appropriation of technology, Deployment of technology in New Products, Deployment of technology in the Value Chain, Marketing of technology. Risks of Collaborative Activity – Intellectual Property Right Risk, Competitive Risk, Organizational Risk. Cases on R & D Collaborations, Global Technology Alliances. The form of Collaborative Arrangement.	7 + 2

Semester	IV	Elective	Technology Management
Course Code	404TM	Type	Subject –Core
Course Title	Managing Innovation – II		

Course Objectives:

1	To provide exposure to an integrative framework for innovation.
2	To highlight global and emerging market context of globalization
3	To describe government's role in innovation
4	To describe innovations in service sector context.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Globalization for Innovation: Technological Uncertainty, Market Uncertainty, Endogeneity, Generic Strategies for World Wide Innovation, Strategic Choice – Balancing Cost & Innovation, Role of Complimentary technologies, Protecting Entrepreneurial Rents – Team Up , Block, Run. Methods of Globalization – Acquisitions and Mergers, Strategic Alliances, Licensing, Internal Development.	7 + 2
2	Innovation for Emerging Economies: Value Stock, Techno-economic Factors – Economic Differences, Product Specificity. Entry Strategies – Reach for later stage of the Product Life Cycle, Reach Deeper into the Value Stock, Options Approach.. Implementation – Technology Transfer, Commercialization, Establishing Co-opetitors.	7 + 2
3	Role of National Governments in Innovation: Why a Government Role? – Public Nature of Knowledge, Uncertainty, Public Complementary Assets, Network Externalities, Politics. Government Actions – Financing R & D, Lead User, Provider of Public Complementary Assets. Regulator, Macro-Economic Fundamentals, Baby-Sitter and Godfather, Educator, Information Centre and Provider of Political stability.	7 + 2
4	Innovation in Services: Service Organizations do Innovate, The Concept of Innovation in Services, Type of Innovation in services, The CI-3 Framework – Customer Intelligence, Customer Intimacy, Customer Innovation. Brand Asset Monitoring, Customer Satisfaction & Loyalty Measurement, Touch Points Data Management. Customer Blending, Customer Mind Mapping, Customer Ecosystem Mapping. Innovation Process, Magnet team. Product Forums. Benefits of the CI – 3 Framework.	7 + 2
5	Cases on Innovation: Business / Process innovations, Social Innovations, Organizational innovations. Overview of National Innovation Systems – Brazil Denmark, Singapore, USA, Japan.	7 + 2

Semester	IV	Specialization	Technology Management
Course Code	405TM	Type	Subject – Elective
Course Title	Innovation, Product Development and Commercialization		

Course Objectives:

1	To offer a holistic framework for new product development and commercialization especially in the context of high technology products.
2	To highlight critical role of leadership in management of new product development & commercialization.
3	To illustrate how to integrate business, market, technology and resource strategies for optimal product development decisions and global commercialization success.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Product Platform and Knowledge Integration: Product Development Goals, Knowledge - Generation, Retention, Reuse and Integration. Dimensions of Knowledge integration, Knowledge integration across the value chain and virtual teams, Time Value of Knowledge and Short time to Market, Types of Products and Product Development Projects, Product and Process Platforms – Definitions, Defining a Product platform. Modularity in System Design, Strategic Outsourcing and Product Architecture, Product Life Cycle, Continuous Improvement of a Product, Baseline and Derivative products.	5 + 1
2	Product Development Process: Product Development framework, product Development process at leading corporations, New Product Development and Commercialization Process, Scaling the process and dynamic nature of Product Development, Knowledge generation and Integration in the PDCP, Flexibility in Product Development, Market Requirement Specifications, Phases of the PDCP, Product Launch, Cross-functional responsibilities and deliverables in the Product Development. Process Development Methodology, Software Product Development, Product Release and Post release Management, Product Change Management.	5 + 1
3	Excellence in Design and Product Reliability: Product Design , Design for Excellence – Design for Manufacturability, Serviceability, Maintainability, Safety, Environment Sustainability. Design for Reliability, Predictability and Robustness. Reliability profile over the Life Cycle, Reliability Assurance beyond the design phase, Reliability design and reliability modeling, Fault Tree Analysis, Failure Modes, Effects and Criticality Analysis, Design of Experiments, Passive Data Collection, Accelerated Testing and Screening, Weibull Analysis, Duane Growth Model, Terminology in Product Design and Development, Product Documentation, Prototyping, Product Characterization Testing, Customer Participation in Product Development, Quality.	5 + 1
4	Commercialization of High Tech Products: Challenges in the development and commercialization of high tech products, Strategies for flawless execution, process orientation, Kaizen in PDCP, Managing critical interfaces, Systems	5 + 1

	analysis, Systems Engineering and Life Cycle Thinking, Product Development – A Systems Analysis Perspective, A Global Perspective. Managing Constraints. Common innovation problems in large companies, Engineering Excellence and Team Productivity, Lean Product Development, Virtual teams through strategic alliances and sourcing to external and internal suppliers, core competency, core activities, leveraging resources.	
5	<p>Managing New Product Development Teams: Overview, Constructing New Product Development teams, Team Size and Composition, Structure of the New Product Development team, Functional teams, Lightweight teams, Heavyweight teams, Autonomous teams. Team Leadership, Team Administration. Managing Virtual teams.</p> <p>Managing Product and Technology Portfolios for Shareholder Value: Factors affecting long term growth of shareholder value – RoA, RoE, RoI models, Product and Technology Portfolio Planning, A framework for Product Portfolio Planning, Steps in Product Portfolio Planning, Resource Distribution, Assessing Market and Business Opportunities.</p>	5 + 1

Learning Resources:

1	Text Books	Innovation, Product Development and Commercialization – Case Studies and Key Practices for Market Leadership, Dariush Rafinejad, Cengage Learning, India Edition. Strategic Management of Technological Innovation, Melissa A Schilling, TMGH, Special Indian Edition, 2nd Edition.

Semester	IV	Elective	Technology Management
Course Code	406TM	Type	Subject – Elective
Course Title	Strategies for Information Goods and Network Economies – II		

Course Objectives:

1	To describe alternative strategies for pricing in the context of information goods.
2	To describe role of platform based strategies in the context of network economy.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Strategies for Internet and Telecommunication Services: Price discrimination via multi-part tariffs, Pricing of future consumption.	5 + 1
2	Enterprise Technology Strategies: Subscription vs. per-use pricing, Technology Licensing, site licensing vs. employee pricing, software sharing , Timing of release and upgrades, product launch and versioning, damaged goods, managing buyer disbelief about product quality. Managing switching costs and lock-in.	5 + 1
3	Strategies for platform and network goods: Compatibility, product complements and network effects: Compatibility within own network, one-way and two-way compatibility, compatibility under competition and direct network effects. Product complementarities and compatibility.	5 + 1
4	Platform Competition, Control, Alliances: Network compatibility and alignment, Why Dominant Designs are Selected – Learning Effects, Network Externalities, Government Regulation, Winner-take-all markets. Are Winner-take-all markets good for consumers?	5 + 1
5	Standards: Standards Wars - Battle for standards, openness, control, Managing and analyzing alliances.	5 + 1

Learning Resources:

1	Text Books	Carl Shapiro and Hal R. Varian. Information rules: a strategic guide to the network economy. Boston, MA, USA: Harvard Business School Press, 1998 Economics of Information Technology: An Introduction , Hal R. Varian, Joseph Farrell, and Carl Shapiro. Cambridge University Press, 2005.
2	Reference Books	Competition, Regulation and Strategy: The Information Technology Industry, Morris Game Theory and Business Strategy , Oberholzer-Gee and Yao Hirshleifer, J. and J. Riley (1992). The Analytics of Uncertainty and Information

		(Cambridge Univ. Press).
3	Supplementary Reading Material	<p>The Economics of Network Industries. Oz Shy , Cambridge University Press, 2002.</p> <p>“Freeing the Source: The Story of Mozilla” by Jim Hamerly and Tom Paquin with Susan Walton, in: Open Sources: Voices from the Open Source Revolution, O'Reilly, 1999</p>

5	Journals	<p>Katz, M. L. and Shapiro, C. (1994). Systems Competition and Network Effects. Journal of Economic Perspectives. 8(2): 93-115.</p> <p>Liebowitz, S. J. and Margolis, S. E. (1994). Network Externality: An Uncommon Tragedy. Journal of Economic Perspectives. 8(2): 133-150.</p>

Semester	IV	Elective	Technology Management
Course Code	407TM	Type	Subject – Elective
Course Title	Technology Use and Assessment		

Course Objectives:

1	To describe linkages among society, environment, and technology.
2	To describe a framework for technology assessment.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology Assessment: Definitions and Purpose of Technology Assessment: Policy, Decision-making (Organizational and personal). Assessment Criteria - Stakeholder Interests, Authority, Sustainability: Social, Economic, & Environmental, Efficiency, Ethical Considerations, Costs, Benefits, and Tradeoffs. Scope of Technology Assessment - Personal and Organizational, Formal and Informal, Small- and Global-Scale.	5 + 1
2	Technology and its Influence: Technology and its influence on Society, Government & Politics, Energy, Health, Environment, Education.	5 + 1
3	Selected Technology Assessment Techniques: Risk and Impact Assessment, Environmental Impact Assessment, Health Technology Assessment, Critical Incident, Suturing, Brainstorming, Interpretive structural modeling, Trend extrapolation, Opinion measurement , Scenarios, Checklists, Relevance trees, Cross-effect matrices, Simulation models, Sensitivity analysis, Probabilistic techniques, Benefit-cost analysis, Export base models, Decision analysis - Decision Trees, Policy capture, Life cycle analysis, Force field analysis .	5 + 1
4	Technology Use: Definitions and Purpose of the study of Use. Usability: System & Product Acceptability Criteria, Usability Defined, Usability Attributes (e.g., learnability, efficiency, and satisfaction), Usability Engineering Lifecycle - Goal Setting & Design Criteria, User-centered design, Ergonomics and anthropometrics, Trade-Offs. Usability Research Methods - Observation, Usability Tests, User Surveys, Task Analysis.	5 + 1
5	Conducting Research on Technology Use: Planning - Human subjects protection, Standards for verifiability, validity, and reliability. Gathering data - Analyzing and Interpreting data, Reporting.	5 + 1

Learning Resources:

1	Text Books	Porter, A. L., Rossinni, F., Carpenter, S. R, Roper, A. T., Larson, R. W., and Tiller, J. S. (1980). A guidebook for technology assessment and impact

Semester	IV	Elective	Technology Management
Course Code	408TM	Type	Subject – Elective
Course Title	Product Strategy for High Technology Companies – II		

Course Objectives:

1	To propose vectors of differentiation as a framework for sustainable competitive advantage
2	To describe alternative product-market strategies for high technology product companies
3	To provide a fundamental understanding of global product strategies and framework for opportunities and risk assessment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Achieving Sustained Differentiation through Vectors of Differentiation: Effects of Differentiation. Benefits of Vectors of Differentiation. Differentiation Strategies – Using Unique Features, Measurable Customer Benefits, Ease of Use, Improved Productivity, Protecting the Customer's Investment, Lower Cost of Product Failure, Higher-Performance products, Unique Fundamental Capabilities, Through Design, Based on Standards, Total Solutions, Total Cost of Ownership, Brand Name, Convenience. Risks of Differentiation, Sustainable Differentiation – Maintaining Technological Advantage, Using Patent Protection, Rapidly Advancing the Vector.	5 + 1
2	Product Pricing Strategy: Effects of Pricing Strategy, Offensive Pricing Strategies - Price Leadership, Penetration Pricing, Experience Curve Pricing, Price / Performance, Promotional Discounting. Defensive Pricing Strategies – Adapt prices to maintain Highest Competitive Price, Use Price to Segment the Market, Use Skim Pricing to Maximise Profit, Redirect Product line Sales by Bait-and-Switch Pricing. Internet Pricing Strategies, Risks of Offensive Pricing Strategies. Sources of Cost Advantage.	5 + 1
3	First-to-Market and Fast-Follower Strategies: Advantages of Being First to Market, Advantages of being the fastest, First-to-Market Strategies – First to Upgrade Products with New Technology, Respond Rapidly to Market Changes, Introduce Continual Product Innovation, Be a First to Create a New Market. Fast Follower Strategies – Wait Until a New Market is Clarified, Reverse Engineer Successful Competitor Brands. Risks of Timing Strategies – Entering the Market prematurely, Compressing Product Life cycles, Relying on Inferior Product Development Process.	5 + 1
4	Thinking Globally about Product Strategy: International Differences in Products – Certification Requirements, Standards, Language Differences, Differences in use, Demographic Differences, National Preferences and Protectionism, National Laws. Global Product Strategy Integration with Other Global Strategies – Global Market Strategy, Global Manufacturing Strategy, Global Product Development Process. Global product Strategies – Design and	5 + 1

	Develop Products Uniquely for Country Markets, Leverage a Country Specific Product through Reengineering, Customize a Global Product Platform to Meet the Needs of Different Regions, Develop a Universal Global Product. Risks of Global Strategies.	
5	Opportunities and Risks of Cannibalization: Causes of Unfavourable Cannibalization, Offensive Cannibalization Strategies – Cannibalize the Market to Attach the Market Leader, Introduce New Technology First. Defensive Cannibalization Strategies – Cannibalize yourself before Competitors do it, Introduce Cannibalization to Continue as the Technology Leader, Manage the Rate of Cannibalization through Pricing, Restrict Cannibalization to Specific Market Segments. Risks of Cannibalization Strategies, Analytical Framework for Cannibalization.	5 + 1

Learning Resources:

1	Text Books	Product Strategy for High Technology Companies, Michael McGrath, MGH, 2nd Edition. Butje, M.: Product Marketing for Technology Companies, Butterworth-Heinemann, Burlington, 2005 Cooper, R.G.: Product Leadership – Creating and Launching Superior New Products, Perseus Books, Cambridge, 2000
2	Reference Books	Marketing of High-Technology Products and Innovations by Jakki Mohr, SanjitSengupta, Stanley Slater, 2nd Edition Gorchels, L.: The Product Manager's Handbook: The Complete Product Management Resource, 3 rd edition, McGraw Hill, New York, 2005
3	Supplementary Reading Material	Marketing High Technology by William H. Davidow Product Marketing for Technology Companies by Mark Butje, Elsevier
4	Websites	http://www.ifm.eng.cam.ac.uk/research/ctm/ http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/
5	Journals	Moore, J.F.: Predators and Prey: A New Ecology of Competition, Harvard Business Review May 1993

Semester	IV	Elective	Technology Management
Course Code	409TM	Course Type	Subject - Elective
Course Title	Systems & Technologies for Knowledge Management		

Course Objectives:

1	To familiarize the participants with systems & technologies used for knowledge capture, discovery, sharing & application.
2	To highlight role of artificial intelligence, knowledge based systems & data mining in knowledge Management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Artificial Intelligence</p> <p>1.1 Artificial Intelligence – Meaning, Knowledge Vs. Intelligence, Concept of Expertise, state space search methods comprising early AI Work,</p> <p>1.2 Modern knowledge-based systems (KBS), Heuristic Search, Kinds of Knowledge in Knowledge Based Systems, Expert Systems, Advantages & Disadvantages of KBS</p> <p>1.3 AI Based Reasoning - Model-based reasoning, Constraint-based reasoning, Diagramatic Reasoning, Fuzzy logic, Evolutionary algorithms</p>	5 + 1
2	<p>Knowledge Based Systems (KBS)</p> <p>2.1 User's & Developer's Views of KBS, Components of KBS - Inference engine, The knowledge base The user interface, The fact base</p> <p>2.2 Means of Representing Knowledge – Rules & Frames, Inference Chains, Attributes, Inheritance</p> <p>2.3 Rule based reasoning, Frame based reasoning, Forward & Backward Chaining, Weaknesses of Rule based reasoning, Knowledge Engineering, Tools available for KBS</p> <p>2.4 Case Based Reasoning (CBR), CBR Systems, Using CB Libraries, Advantages & Disadvantages</p>	4 + 1
3	<p>Knowledge Elicitation & Capture</p> <p>3.1 Repertory Grid as Knowledge Elicitation Tool, Techniques to automate knowledge acquisition,</p> <p>3.2 Knowledge Capture System –Techniques for Using &OrganisingOrganisational Stories,</p> <p>3.3 Concept Maps, Cmap Tools, Context Based Reasoning</p>	4 + 1

4	<p>Data Mining</p> <p>4.1 Concept of Data Mining, Objectives of Data Mining, Data Mining Techniques – Predictive & Descriptive</p> <p>3.3 Statistical pattern Recognition, Statistical Clustering,</p> <p>3.4 Decision Trees, Induction Trees</p> <p>3.5 Artificial Neural Networks, Basic feed forward neural networks with supervised learning, Unsupervised learning, Clustering techniques and the Kohonennetworks.CRISP DM Methodology</p>	6 + 1
5	<p>Knowledge Sharing & Application Systems</p> <p>5.1 Organizational Memory</p> <p>5.2 Requirements & barriers to Knowledge Sharing Systems</p> <p>5.3 Types of Knowledge Sharing Systems, Repositories, Incident report databases, Alert systems, Best practices databases, Lessons-learned systems, Expertise locator systems</p> <p>5.4 Knowledge Application Systems, Design Considerations, Case Method Cycle, Technologies</p> <p>5.5 Types of Systems- Expert systems, decision support, advisor systems, fault diagnosis (troubleshooting) systems, help desk systems</p>	6 + 1

Learning Resources:

Semester	IV	Elective	Technology Management
Course Code	410TM	Course Type	Subject - Elective
Course Title	Strategic Management of Intellectual Property Rights		

Course Objectives:

1	To expose the participants to the concept of intellectual property & intellectual property rights
2	To describe procedures & agencies involved in issues related to IPR
3	To highlight strategic issues related to IPR & its management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction 1.1 Meaning of Intellectual Property & Intellectual Property Rights, Historical perspectives and need for the introduction of Intellectual Property Right regime, Ethical & Social Issues 1.2 Types of IPRs - patents, copyrights, trademarks, trade secrets and traditional knowledge, industrial design, integrated circuits, plant protection and geographical indications, domain names 1.3 Benefits of securing IPRs, Strategic Relevance of IPR, 1.4 International conventions and treaties on IP, TRIPs and various provisions in TRIPs Agreement 1.5 IP issues on the internet	6+1
2	Filing Patent Applications 2.1 Indian Legislations for the protection of various types of Intellectual Properties 2.2 Patent Filing procedure, Claim drafting, agencies involved, what can be patented & what can not be, Strategic Issues relating to the content of the application 2.3 Traditional Knowledge & Geographical Indications 2.4 Introduction to Global IP & Different form of IPRs, Global IP and Litigation, US Patent Statutes and Filing procedure 2.5 Key strategic and policy issues.	5+1
3	IPRs and their strategic relevance 3.1 Patents in various industries such as Pharmaceutical & Biotech, Agriculture , Engineering, Information Technology Industry etc., ownership and period of protection; 3.2 Trademarks- Boundaries between trade-mark, trade-dress and industrial design 3.4 Copyright: Strategic Issues Relating to Software and Artistic Works 3.5 Securing and Commercializing IPRs	4+1
4	IPRs Licensing & Strategic Alliances	5+1

	<p>4.1 IP appraisal, IP Valuation</p> <p>4.2 Technology transfer through licensing, strategic alliances and other types of contractual arrangements.</p> <p>4.3 Licensing of technologies, Material Transfer Agreements, Research Collaboration Agreement</p> <p>4.4 IPRs and Licensing Strategies – Strategic impact on licensors & licensees of technology,</p> <p>4.5 Key issues involved in the licensing process.</p>	
5	<p>Management of IPR : Inter & Intra Firm Alliances</p> <p>5.1 Role of Inter-firm Networks and Strategic Alliances</p> <p>5.2 Organizational Incentive Mechanisms & Intra-organizational arrangements ,</p> <p>5.3 Internal Assessment of Technology and Intellectual Property& strategies to protect it., search for similar or related innovations/inventions, Exploring databases</p> <p>5.4 Issues Relating to Commercialization of IPRs, Evaluating the commercial viability of IPRs</p> <p>5.5 Overseas IP Operations</p>	5+1

Learning Resources:

1	Text Books	<p>Ganguli, P., 2001. intellectual Property Rights: Understanding Knowledge Economy. McGraw-Hill.</p> <p>David J. Teece, 2000. Managing Intellectual Capital: Organizational, Strategic, and Policy Dimensions, Oxford University Press</p>

Semester	IV	Elective	Technology Management
Course Code	411TM	Type	Subject – Elective
Course Title	Change , Creativity & Innovation		

Course Objectives:

1	To emphasize the key aspects of managing change and the drivers of innovation and creativity in organizations.
2	To deconstruct and demystify the processes of change, creativity and innovation in organizational context.

Syllabus:

Unit Number	Contents	Number of Sessions
1	The Process of Change, Creativity & Innovation: Organizational Change – Definition & Key Dimensions, Factors that Promote Change, Creativity & Innovation, Theories of Innovation, Levels & Types of Innovation, The age of Creativity, Creativity & National prosperity, Creative Industries & potential for growth.	5 + 1
2	The Individual – Promoting Critical Thinking: Cognitive factors - Implications for HRM, Personality Traits - Implications for HRM, Knowledge – Explicit & Implicit, Informal and Tacit, Knowledge for creativity - Implications for HRM, Motivation – Types of Motivation. The Group – Nurturing Team Work: Difference between groups and teams, Why do people join teams? Team Development process, Why do teams fail? Blind conformity, Group Think, Social loafing. Team Inputs - size, longevity, task, Knowledge, Skills and Abilities (KSAs), Resourcing of the team, Team composition. Team processes – Action processes. Brainstorming. Electronic Brainstorming. Nominal Group Technique (NGT). Trust – Conflict – Team cohesiveness. Moderators of Team Performance – Task Type, Task Leadership. Team outcomes.	5 + 1
3	The Leader – Promoting New Ideas at Work: Defining Leadership, Difference between Managers and Leaders, Ingredients of Leadership, Trait approaches to Leadership, Behavioural approaches to Leadership, Managerial Grid, Contingency theories – Fiedler model, Hersey Blanchard situational theory, Leader participation model, Push-Goal Theory. Transformational and transactional leadership. Charismatic and Visionary Leadership. Leading change, creativity & Innovation – Leadership and change, Ingredients of leadership for creativity & Innovation. Challenges in leading for creativity & Innovation.	5 + 1
4	The Internal Environment – Orchestrating Structure, Systems and Resources; The Balanced Score Card – Value Creation and Performance management. Organizational Structure – work specifications, departmentalization, chain of command, span of control, centralization and	5 + 1

	decentralization, Formalization. Situational factors – Corporate Strategy, Organizational Size, Environmental uncertainty. Structural forms – Traditional and contemporary forms. Organizing for change, creativity and innovation - Goal Setting and reward Systems. Evaluation. Resources – Sufficient resourcing. Systems of Communication.	
5	<p>Culture – Enabling & Constraining Creative Processes at Work: Organizational culture, Different Perspectives of Organizational culture, Can we manage Organizational culture? Culture as an important ingredient of Organizational Creativity. Norms that promote Creativity and Innovation, Norms that promote Implementation. Principles of creativity and innovation. Do strong, cohesive cultures hinder innovation?</p> <p>The Organization – Managing Process of Change: Change and Organizations, Change Drivers, People and Change, The problem of resistance, Organizational Development approach to change, Situational Approach to Change Management, Political process approach to change management, Processual perspective for understanding change. Studying change over time.</p>	5 + 1

Learning Resources:

1	Text Books	Managing Change, Creativity & Innovation, Constantine Andriopoulos and Patrick Dawson. Sage Publications.

Semester	IV	Elective	Technology Management
Course Code	412TM	Type	Subject – Elective
Course Title	Seminar on Managing Emerging Technologies		

Course Objectives:	
1	To define the concept and scope of emerging technologies
2	To catalog and describe emerging technologies
3	To enable students to develop a systematic framework for analyzing emerging technologies
4	To discuss the possible managerial applications of these technologies

Students will work in groups of 2 or 3 each. They shall identify emerging technologies and explore applications of emerging technologies and document the same. The participants will determine the issues, questions, and areas that they would like to examine. The choice of technologies shall be shaped by the interests of the group participants as well as the relevance of specific technologies to managerial aspects in specific contexts.

Each group will prepare two presentations for class. Before, between, and after the presentations the group will post relevant articles, etc. for the rest of the class on the class website.

The idea is that each group will be working on their topic each week, but only present twice. However, the intervening work will be on the site for others to examine and discuss. This work on the site is each group's opportunity to try out ideas. It is also the opportunity for the other groups to pose questions that will help direct the group's research.

Towards the end the group will present their "findings" providing hard copies for every class member. As a class, students will brainstorm/explore the potential applications of the information, possibly around a theme.

The purpose is to examine critically the thinking and direction of other groups.

Semester	IV	Specialization	Digital Media and Communication Marketing
Course Code	405 DMCM	Type	Subject – Elective
Course Title	Mass Communication Media and Culture - II		

Course Objectives:

1	To understand the media environments and media ecology
2	To distinguish between cultural studies and media studies
3	To understand the drivers behind media consumption

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Media Ecology: Media environments – how people interact with media and how those interactions shape our culture and our daily experiences, how changes in technology alter the symbolic environment—the socially constructed, sensory world of meanings - perceptions, experiences, attitudes, and behavior. Message and medium – separate or "the medium is the message" - content doesn't exist outside of the way it's mediated</p> <p>The challenge of media ecology - way media work as environments, Invisibility of environments, Complexity of environments, A media analysis of human history - the tribal age, the age of literacy, the print age, the electronic age, the rise of the global village, the digital age - rewiring the global village.</p>	4+2
2	<p>Semiotics: the goal of semiotics, verbal and nonverbal signs, the cultural meaning of visual signs, dominant social values, ideological or connotative meanings, the ideological baggage that signs carry wherever they go, semiology, sign as a combination of its signifier and signified, sign as a part of a system, semiological systems - mythic or connotative systems. The making of myth, unmasking the myth of a homogeneous society, The semiotics of mass communication, Advertisements on television & layers of connotation, reaffirming the status quo</p>	4+2
3	<p>Cultural Studies: Cultural studies versus media studies - ideological differences, media functions to maintain the dominance of the powerful and to exploit the poor and powerless, Cultural studies as closely related to critical theory, emphasizing resistance than rationality. Corporate control of mass communication. Cultural factors that affect the selection of news. Extreme makeover: The ideological work of reality TV. Obstinate audience.</p>	4+2
4	<p>Media Uses and Gratifications: People consume different types of media, People use media for their own particular purposes, People seek to gratify needs, Media competes for attention and time, Media affects different people differently, People can accurately report their media use and motivation, Typology of media uses and gratifications, Rubin's typology of eight motivations, Parasocial Relationships.</p>	4+2
5	<p>Cultural Context - Intercultural Communication: Communication Accommodation Theory, Communication accommodation strategies, Convergence, Divergence, Different motivations for convergence and divergence, Cultural Context - Gender and Communication, Genderlect Styles, male-female communication as cross-cultural, Miscommunication between men and women, Women's desire for connection versus men's desire for status, Rapport talk versus report talk, Public speaking versus private speaking, Telling a story, Listening, Asking questions, Conflict, Nonverbal communication, Men and women grow up in different speech communities.</p>	4+2

Learning Resources:

Semester	IV	Specialization	Digital Media and Communication Marketing
Course Code	408 DMCM	Type	Subject – Elective
Course Title	Communications Theory - II		

Course Objectives:

1	To learn to think about and analyze communication in a systematic way.
2	To compare the field of communication studies with other social sciences and understand its varied contributions to the knowledge/practice of human interaction.
3	To analyze communication phenomenon from different perspectives.
4	To recognize and explain major communication theories.
5	To apply knowledge of communication theories to “real world” issues.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Social Information Processing: How people form relationships across the communication technologies, differences between computer-mediated communication (CMC) and face-to-face communication, Social presence theory, lack of social context cues in online communication, information we receive depends on the communication medium we're using. Verbal cues of affinity replace nonverbal cues, Extended time - the crucial variable in CMC. Four types of media effects because of CMC users not being proximal - Sender: Selective self-presentation, Receiver: Overattribution of similarity, Channel: Communicating on your own time, Feedback: Self-fulfilling prophecy. The warranting value of information: What to trust?	4+2
2	Social Judgment Theory: Three latitudes: Acceptance, rejection, and noncommitment. Ego-involvement - How much do you care? Judging the message - Contrast and assimilation errors, Discrepancy and attitude change, Practical advice for the persuader, Attitudes on sleep, booze, and money.	4+2
3	Elaboration Likelihood Model: The central route and the peripheral routes to persuasion, Recipients rely on a variety of cues to make quick decisions - Robert Cialdini's six cues – Reciprocation, Consistency, Social proof, Liking, Authority, Scarcity. The central route and the peripheral route and cognitive processing continuum and degree of mental effort a person exerts when evaluating a message. Motivation for elaboration - Is it worth the effort? Ability for elaboration - Can they do it? Types of elaboration: Objective vs. biased thinking. Elaborated messages - Strong, weak, and neutral. Positive shifts in attitude, negative boomerang effects. Peripheral cues - An alternative route of influence, attitude changes without issue-relevant thinking, tangible rewards as cues, Source credibility, Pushing the limits of peripheral power - Celebrity endorsements. Choosing a route - Practical advice for the persuader.	4+2
4	Cognitive Dissonance Theory: Dissonance - Discord between behavior and belief, basic need to avoid dissonance and establish consistency, tension of dissonance as a motivator, Reducing dissonance between attitudes and actions, Post decision dissonance and the need for reassurance, Minimal justification for action and a shift in attitude. Three state-of-the-art revisions: The cause and effect of dissonance, Self-consistency: the rationalizing animal, Personal responsibility for bad outcomes, Self-affirmation to dissipate dissonance. Theory into practice - Persuasion through dissonance, attitude change as a product of dissonance.	4+2
5	Symbolic Convergence Theory: Central explanatory principle of SCT - sharing group fantasies creates symbolic convergence. Dramatizing messages - Creative interpretations of there-and-then, Fantasy chain reactions - Unpredictable symbolic explosions, Fantasy themes - Content, motives, cues, types, Symbolic convergence - Group consciousness and cohesiveness, Symbolic convergence results from sharing group fantasies, Symbolic convergence and heightened group cohesiveness.	4+2

Course Title	Data Mining for Marketing Insights		

Course Objectives:

1	To understand the concepts and use of data mining
2	To master the statistical tools relevant to data mining
3	To understand data mining in practice

Syllabus:

Unit Number	Contents	Number of Sessions
1	Data, Data mining and the knowledge discovery process: Data types and formats. Data pre-processing and data transformations, Exploratory data analysis and data understanding. Data Visualization - hierarchies, networks, maps, time series, spatio-temporal data, text. Overview of data mining and machine learning techniques. Applications - clustering, classification and pattern mining.	4+2
2	Data mining statistical approaches: Clustering: Measures of Proximity; Cluster Analysis: K-means and Agglomeration clustering; Density based clustering methods; Customer segmentation, Practical applications. Classification and prediction models. Model learning and model validation. Explanation vs. prediction. Rule-based classifiers and decision trees, a) Decision Trees induction; b) Neural Network; c) Ensemble Methods (Random Forest); Support Vector Machines for classification; Evaluating classification results, Practical applications. Pattern mining and association rules. Apriori principle. Mining high-frequency patterns and high-confidence rules. Interestingness measures for patterns and rules. Practical applications. Slicing and Dicing Marketing data: Pivot tables, Discovering relationships among marketing variables, Generating marketing scenarios of competing/substitute products, Predicting future demand for a product under uncertain conditions, Developing Marketing and Sales models through simulating external environment.	4+2
3	Big data and social sensing: Big data acquisition. Web scraping, crawling, crowdsourcing, crowdsensing. Big data technologies and platforms, NOsql and map-reduce paradigm, Listening social media sources. Monitoring social trends. Basics of opinion mining and sentiment analysis. Community concepts and community discovery methods (top-down and bottom-up). Validation of discovered communities. Discovery of diffusion patterns over social networks.	4+2
4	Consumer Relationship Management: Introduction and CRM's value proposition, CRM Framework, Closed Loop Marketing, Customer Profitability, CRM in Customer Service and Customer Experience, Customerization, Customer Value, Consumer Relationship, Life Time Value Management - Customer Satisfaction Index, Customer Acquisition, Customer Loyalty, Customer Retention, Customer Retention Modeling, RFM Analysis and Optimizing Direct Mail Campaigns, Customer as Co-producer, Analytical CRM and Functionalities, CRM Implementation Roadmap.	4+2
5	Data Mining in Practice: Developing a consumption estimate model for a consumable product; Factors related to sales of a product, developing their interrelationship and predicting sales; Interpreting pricing structures; Forecasting periodic product sales and demand over time; predict and identify innovators and early adopters to predict success of innovations, identifying target customer segments for a marketing campaign, mining supermarket consumers and product data, analysis of team data to characterize team performance and predict success, Catalog data mining - expenses and sales analysis,	4+2

Learning Resources:

1	Text Books	Big Data – A revolution that will transform how we live, work and think, Viktor Mayer_Schonberger and Kenneth Cukier, Hachette India. Big Data at work – Thomas Davenport, Harvard Publishing
2	Reference Books	The Data Warehouse Toolkit, Ralph Kimball, Margy Ross, Wiley
3	Supplementary Reading Material	
4	Websites	
5	Journals	

Semester	IV	Specialization	Digital Media and Communication Marketing
Course Code	412 DMCM	Type	Subject – Elective
Course Title	Affiliate Marketing		

Course Objectives:

1	To understand the principles of affiliate marketing
2	To understand affiliate marketing in practice

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Affiliate Marketing: What is affiliate marketing? Origins of affiliate marketing, Implications for advertisers. Who are affiliates? Understanding the different types - Niche content and personal interest websites, Loyalty and reward websites, PPC and search affiliates, Email marketers, Co-registration affiliates, Affiliate networks. Making money and the importance of tracking. When to use affiliate marketing?	4+2
2	Know Your Audience: Creating compelling content and effective landing pages, Incorporating video, blogs, email and social media, Applying and getting approved for affiliate programs, Affiliates and brand, Brand control, Programme terms & conditions, Merchant approval, Brand benefits of an affiliate programme, Integrating affiliate marketing into the marketing mix. The role of search engine optimization (SEO) in affiliate marketing Connections and Communications: Building trust, influence and engagement with customers, Effective ways to engage the audience, Generating revenue through a membership site or list building, Blending online and offline campaigns, Monitoring the site, Top tools for optimizing the site.	4+2
3	Affiliate Marketing strategy for merchants : When does affiliate marketing work? setting affiliate marketing goals, Affiliate network selection, integrating affiliate marketing in the annual media and marketing plans, structuring commissions, Setting up accounts on affiliate marketing network, Finding a niche and selecting the right networks, Adding paid sponsorship, Google AdSense and links, determining costs and creating a business plan, Obtaining and placing tracking code, recruiting affiliates to the programme, going live, supporting the affiliate marketing programme, Making affiliate marketing a sustainable channel for sales and marketing - In-house v. affiliate network? Bringing advertisers and publishers together.	4+2
4	Role of Affiliate programme Manager: A day in the life of a programme, Introduction, Daily checks, Data-feed, Affiliate recruitment / applications, Affiliate enquiry, PPC Arrangements, Newsletter feature, Reporting , Voucher code. Maximizing Affiliate Marketing Effects: Measuring the effectiveness of affiliate campaigns, Driving traffic through natural and paid search, Negotiating a better deal and higher commissions, Maximizing profits and multiple income streams, Leveraging affiliate channel in other areas of your business, Making a business case for affiliate marketing.	4+2
5	Legal and Ethical Considerations: Legal best practices and ethical considerations, Trademark bidding and affiliate terms of service, Collecting data and protecting customers' privacy, Assessing potential risks and challenges Case Studies: Successful affiliate marketing campaigns, Affiliate marketing through email marketing, Online publisher perspective, Capitalizing on coupons and deals	4+2

Learning Resources:

4	Websites	
5	Journals	

Semester IV
Tourism & Hospitality Management (THM)

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	403THM	Type	Specialization - Core
Course Title	Strategic Hospitality Management		

Course Objectives	
1	To understand the concept and process of strategic management to be adopted in the hospitality and tourism industry
2	Knowledge about the strategies that a firm has to possess to be competitive

Syllabus:

Unit Number	Contents	Number of Sessions
1	INTRODUCTION TO STRATEGIC HOSPITALITY MANAGEMENT- Strategic Management–Origin, Concept, Scope and Process; Strategic Thinking; Global competitiveness; Key Players in Indian Hospitality and Tourism Industry.	7+2
2	MICRO AND MACRO STRATEGIC ENVIRONMENT- The Environment and External Stakeholders - Assessment of the Broad Environment, Analysis of External Stakeholders and the Operating Environment, Managing the Operating Environment; Organizational Resources and Competitive Advantage - Internal Analysis and Competitive Advantage.	7+2
3	STRATEGIC DIRECTION & FORMULATING BASIC STRATIGES- Strategic Direction-Creating a Strategic Direction, Mission Statements, Organizational Vision, Organizational Values; Strategy Formulation at the Business-Unit Level-Generic Business Strategies, Competitive Dynamics, Strategic Group Mapping; Corporate-Level Strategy and Restructuring.	7+2

4	IMPLEMENTING STRATEGIES AND ESTABLISH CONTROL SYSTEMS- Inter organizational Relationships and the Tourism Cluster; Functional-Level Resource Management; Organizational Design and Control- Organizational Structures design, Organizational Control, power and politics.	7+2
5	STRATEGIES FOR HOSPITALITY ENTREPRENEURSHIP- Strategies for Entrepreneurship and Innovation -Entrepreneurial Start-ups, Innovation and Corporate Entrepreneurship; Global Strategic Management and the Future- Global Strategies, International Market Selection, Global Stakeholders, Emerging Trends.	7+2

Learning Resources:		
1	Text Books	1. Enz, C. A. (2009). Hospitality Strategic Management: Concepts and Cases (2nd ed.). Wiley.
2	Reference Books	1. David, F. R. (2010). Strategic Management (13th ed.). Prentice Hall. 2. Okumus, F., Altinay, L., & Chathoth, P. (2010). Strategic Management for Hospitality and Tourism (1st ed.). Butterworth-Heinemann.

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	404THM	Type	Specialization - Core
Course Title	Tourism Planning and Development		

Course Objectives	
1	To understand the components and mechanism of tourism
2	To acquire Knowledge in the planning and development of tourist attractions

Syllabus:

Unit Number	Contents	Number of Sessions
1	TOURISM COMPONENTS AND SUPPLY- Supply Components; Natural Resources; Built Environment; Operating Sectors; Hospitality and Cultural Resources; Matching Supply with Demand; Measuring and Forecasting Demand; Economic Impact	7+2
2	TOURISM POLICY - STRUCTURE, CONTENT, AND PROCESS- Tourism Policy – Definition; Policy focusing competitive Destination; Major Parameters of Tourism Destination Management; Process of Tourism Policy Formulation; Translating Policy into Reality; Formulating Policy to Deal with Crises	7+2
3	TOURISM PLANNING, DEVELOPMENT, AND SOCIAL CONSIDERATIONS- Tourism Destination Planning, Environmental Analysis, Resource Analysis, Regional Environmental analysis, Planning for Sustainable Tourism Development, Contingency Planning, economic impact, social impact, cultural impact, environmental impact, and supply match, sustainable development and planning approaches and indicators, design and innovations.	7+2

4	TOURISM AND THE ENVIRONMENT- Environmental Issues in Tourism Planning –Conceptual Model, Destination factors, Exogenous factors, Global factors and WTTC Position; Sustainable Development and Tourism; Ecotourism; Current Tourism Industry Practices for Environmental sustainability; Tourism as Capitalism.	7+2
5	TOURISM PROSPECTS- Nature of Future Growth in Tourism; Leisure, Recreational and Society; Forces Impacting the future of Tourism – Economic, Branding, Terrorism, Conflicts between countries, Technology; Tourist characteristics – Knowledge-Based Society and workforce, Demographic Shift; Changing Nature of Tourism Products.	7+2

Learning Resources:		
1	Text Books	Var, T., & Gunn, C. (2002). Tourism Planning: Basics, Concepts, Cases (4th ed.). Routledge
2	Reference Books	Godfrey, K., & Clarke, J. (2000). Tourism Development Handbook: A Practical Approach to Planning And Marketing. Cengage Learning EMEA. Okumus, F., Altinay, L., & Chathoth, P. (2010). Strategic Management for Hospitality and Tourism (1st ed.). Butterworth-Heinemann.

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	405THM	Type	Specialization - Elective
Course Title	Hotel Administration Management		

Course Objectives	
1	To study the flow of activities and functions in today's lodging operation. To establish the importance of Front office and House Keeping and its role in the hospitality industry.
2	Understand the best practice in Front Office and Housekeeping operations methodology by the practical application of theoretical knowledge.

Syllabus:

Unit Number	Contents	Number of Sessions
1	INTRODUCTION Hotel industry – Classification of Hotels and other types of Lodging – Hotel Tariff plans – Types of guest rooms and annex – Major departments of a hotel – Organization structure – Duties and responsibilities of Front office personnel – Inter department coordination.	6
2	FRONT OFFICE OPERATIONS Sections and Layout– Room tariffs and calculation of rates - reservation – registration – Guest services – Check out and settlement – Front office accounting – Night auditing – safety and security.	6
3	FRONT OFFICE MANAGEMENT Evaluating Hotel performance –Revenue per available room – Market share index – Evaluation of hotels by guests; - Yield management – forecasting – Room availability – Sales techniques – Budgetary control.	6

4	HOUSEKEEPING OPERATIONS Importance of Housekeeping – Organizational structure – Layout – Coordination with other departments - Duties and responsibilities – Hotel guestrooms – contents and cleaning; – public areas – Housekeeping control desk	6
5	HOUSEKEEPING MANAGEMENT Housekeeping expenses – controlling expenses – use of textiles – Linen and uniform room – Laundry – Equipment, agents and process; – Sewing room – ergonomics in housekeeping - pest control and waste disposal – changing trends in hospitality	6

Learning Resources:		
1	Text Books	Jatashankar R. Tewari. Hotel Front Office Operations and Management. Oxford 2009 2. G.Raghubalan and Smritee Raghubalan. Hotel Housekeeping Operations and Managemen. Second Edition. Oxford 2007
2	Reference Books	Anutosh Bhakta. Professional Hotel Front Office Management. Tata McGraw Hill 2012 2.. Front Office Operations and Management. Cengage Learning. 2008
3	Supplementary Reading Material	Casado, M. Housekeeping Management. John Wiley and Sons, Inc. 2000 3. Ahmed Ismail

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	406THM	Type	Specialization - Elective
Course Title	Data Analysis Lab		

Course Objectives	
1	To have hands- on experience on data analysis
2	To develop problem-solving skills

Syllabus:

Unit Number	Contents	Number of Sessions
1	Descriptive Statistics: Mean, Median, Mode; Correlation, Regression, Forecasting	6
2	Parametric test- Test of Mean, Test of Proportion, ANOVA, Goodness of Fit, Non parametric Test-Test of Randomness	6
3	Linear Programming, Transportation, Assignment, Network Models, Inventory Models	6
4	Forecasting, Inventory Models & Networking Models	6
5	Business models studied in theory to be practiced using Spreadsheet / Analysis Software	6

Learning Resources:		
1	Text Books	1. David M. Levine et al, "Statistics for Managers using MS Excel' (6th Edition) Pearson, 2010
2	Reference Books	1.Wayne L. Winston, Microsoft Excel 2010: Data Analysis & Business Modeling, 3rd edition,Microsoft Press, 2011. 2. David R. Anderson, et al, 'An Introduction to Management Sciences: Quantitative approachesto Decision Making, (13th edition) South-Western College Pub, 2011.
3	Supplementary Reading Material	Kiran Pandya and Smriti Bulsari, SPSS in simple steps, Dreamtech, 2011

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	407THM	Type	Subject - Elective
Course Title	Economic Analysis for Services		

Course Objectives	
1	To introduce the concepts of scarcity and efficiency
2	To explain principles of micro economics relevant to managing hospitality organization
3	To understand economic environment of business

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Service Economy: Introduction to service economy – The nature and scope of service economy ,The role of service economy to national and global economic development, Service economy, Microeconomic perspectives ,Market for service, Competitive Vs non-competitive markets, Market price, The role of theories and models, Positive and normative economic analysis, The role of government in the service economy.	6
2	Market Demand: Market forces, Market demand and Market supply ,Individual demand and supply, Determinants of market forces, Market Equilibrium, Changes in market equilibrium, Elasticity of demand and supply , short-run and long-run elasticity, Determinants of elasticity , Estimation of demand, Consumer behaviour, Utility and choice, Consumer surplus	6
3	Production Function: Production function, Short-run and long-run production, Production with one or more than one variable input, Diminishing marginal returns, Input substitution, Returns to scale, Economies and diseconomies of scale, Economies of scope.	6

4	<p>Cost of Production: Cost of production – Different types of cost, Short-run and long-run cost of production, Marginal and average cost concepts, Relationship between average and marginal costs,</p> <p>Determinants of cost of production, Cost minimizing input choices, Expansion path of firm, Dynamic changes in costs, the learning curve.</p>	6
5	<p>Market Systems: Analysis of market Perfect versus imperfect markets, Features of different market systems, Producer's behaviour, Profit maximization and choosing output, short-run and long-run analysis of different markets, Pricing of product ,Competition versus cost based pricing methods.</p>	6

Learning Resources:

Semester	III	Specialization	Tourism and Hospitality Management
Course Code	408THM	Type	Subject - Elective
Course Title	Event Management		

Course Objectives	
1	To acquaint students with fundamentals of event management
2	To enhance professional skills related to event management
3	To boost the career prospects in the area of event management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Event Management Fundamentals : Concept of Event, Types of events – MICE – Types of Meeting, Trade Shows, Conventions, Exhibitions- Structure of event industry – Event Management as a profession – Code of Ethics.	3+2
2	Event Planning and related statutory compliances: Event Conceptualizing – Host, Sponsor, Media, Guest, Crew, Participants , Spectators, Concept Designing – Theme, Event Objective and content development Pre Event Preparation: Budgeting, Event design , Event Related Documentations : Timing, Contracts and Agreements, Insurance, Regulation, License and Permits	3+2
3	Publicity & Marketing of Event : Pricing, Marketing Communication Methods & budget , Element Marketing Communication, Managing Marketing Communication, Modes of Publicity, Role of Internet in event publicity, Event Sponsorship, Managing Sponsorship, Measuring and evaluating sponsorship.	3+2

4	Conduct of Event: Venue selection: Indoor & Outdoor, Stage Audio Visual lighting, Performers, Decors, Caterer, Photography & Videography, Guest Demography and list, Handling children at event safety perspective, Invitation, media, food and beverage, entertainment, Event logistics management, Sanitary Facilities	3+2
5	Safety and Event Evaluation: Risk assessment, Provision of Safety Officer and Medical officer at venue, Structural Safety, Occupational Safety and Food Safety, Fire Prevention, Vehicle traffic, Waste Management, Event Evaluation Process: Event Impact, Service Quality, Customer Satisfaction Note: Students are expected to be divided in Group and at least one event to be planned and executed by students.	5+5

Learning Resources:		
1	Text Books	Events, 4th Edition, Pearson Publications, 2014. G.A.J. Bowdin, Events Management , Elseiver Butterworth Judy Allen, Event Planning 2nd Edition, Wiley & Sons, Canada, 2014.
2	Reference Books	Allison ,The Event Marketing Handbook: Beyond Logistics & Planning. Julia Rutherford Silvers, Professional Event Coordination, The Wiley Event Management Series. Allison ,The Event Marketing Handbook: Beyond Logistics & Planning John Beech, Sebastian Kaiser & Robert Kaspar, The Business of Events Management, Pearson Publication, 2014.
3	Supplementary Reading Material	A systematic Review of Knowledge Management Research in the Hospitality & Tourism Industry
4	Websites	www.ijemr.org www.cognizantcommunication.com www.emeraldinsight.com

5	Journals	International Journal of Event Management & Research International Journal of Event Management and Research
---	----------	--

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	409	Type	Subject – Elective
Course Title	Logistics and Supply Chain Management		

Course Objectives	
1	To understand the importance of Supply Chain Management.
2	To know the various aspects of Supply Chain Management.
3	To study the current trends in SCM.

Syllabus:

Unit Number	Contents	Number of Sessions
1	INTRODUCTION TO SUPPLY CHAIN MANAGEMENT. Evaluation of Supply Chain management, meaning and objectives, Characteristics of global supply chains, Generalized Supply Chain Model, Order processing – Material Handling – Transportation – Warehousing – Inventory Management – Reverse Logistics 3PL, 4PL.	6
2	Logistics - Objectives, Components, Significance. Supply Chain Management –Objectives, Components, Significance, Trade off Customer Service & Cost. PROCUREMENT LOGISTICS. Centralized and Decentralized purchasing, Warehousing, Inventory Management-Concepts, various costs associated with inventory, Lead time reduction, re-order point/reorder level fixation.	6
3	SUPPLY CHAIN MANAGEMENT The importance of SCM in modern Business, understanding the importance of supply chain, it's functions and supply chain in Retail & marketing business, Supply Chain Management, Centralized and Decentralized supply chains, Supply chain strategies and Key issues in supply chain Strategies.	6

4	DISTRIBUTION MANAGEMENT Distribution channels: structure and operation, Distribution cost components, Pipe line inventory and response considerations, Hub and Spoke Model, Cross docking, Carrier selection, Vendor Consolidation.	6
5	RECENT ISSUES IN SCM Role of IT/Computer in SCM, CRM Vs SCM, Benchmarking –concept, Features and Implementations, Outsourcing-basic concept, Value addition in SCM-concept of demand chain Management.	6

Learning Resources:

1	Text Books	Chopra Sunil & Peter Meindl- Supply Chain Management. Raghuram G. –Logistics & Supply Chain Management. Agarwal D.K.- Logistics & Supply Chain Management
2	Reference Books	Christopher Martin - Supplychain Management K Shirdhar Bhat – Logistics and Supplychain Management, HPH Sahah - Supplychain Management : Pearson
3	Journals	Journal for Retail & Distribution Management. ICFAI Journal of Sales Management.

Semester	III	Specialization	Tourism and Hospitality Management
Course Code	410THM	Type	Subject - Elective
Course Title	Food and Beverage Management		

Course Objectives	
1	To understand the nature and scope of Food and Beverage Management
2	To study the empirical foundations and develop a professional orientation toward the practice of food and beverage management as it applies to business, culinary arts and hospitality
3	To understand the process of purchase, receiving and storing of Food and Beverages.

Syllabus:

Unit Number	Contents	Number of Sessions
1	KITCHEN MANAGEMENT - Job description – Hierarchy, Attitude and behavior; - Food premises - Kitchen planning – Basic Preparation and operations – Basic principles of food production - Equipments – Fuels -coordination with other departments.	3+2
2	FOOD QUALITY -Food standards - need for food laws; - Food adulteration & Additives - Detection of food adulterants, Prevention of food adulteration act standards; - Fruit product order standards - Agmark standards - Indian standards institution - International – Codex Alimentarius, ISO, Regulatory agencies; - HACCP.	3+2
3	FOOD SAFETY -Introduction - Food Hazards – Risks – Contaminants - Food Hygiene - Food preservation, Physical agents, Chemical agents, Use of low temperature in food preservation, Preservation by drying, Preservation of meat, fish & egg using different methods.	3+2

4	PROCUREMENT, PRODUCTION AND SERVICE CONTROL - Food & Beverage Control - Need- Objectives .Aids to Purchasing - Purchasing of F&B- Specifications- Selection of a Supplier, Rating- EOQ ,Analysis. Receiving of F&B- Quantity, Quality & Inspection- Storing and Issuing of F&B -Transfer Notes, Breakages and Damaged Goods .	3+2
5	CATERING MANAGEMENT -Types of catering – fast-food and popular catering – hotels and quality restaurants – industrial catering, hospital catering – basic policies – financial marketing and catering – control and performance management	5+5

Learning Resources:		
1	Text Books	Jacob M. Safe Food Handling:A Training Guide for Managers of Food Service Establishments
2	Reference Books	James M. Jay, Martin J. Loessner, David A. Golden. (2005). Modern Food Microbiology. Jatashankar R. Tewari. Hotel Front Office Operations and Management. Oxford 2009

Semester	IV	Specialization	Professional Skill Development Lab
Course Code	411THM	Type	Subject - Elective
Course Title	Professional Skills Development Lab		

Course Objectives	
1	To enable learners to speak fluently and flawlessly in all kinds of communicative Contexts with speakers of all nationalities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	UNIT 1 PERSONAL COMMUNICATION Day-to-day conversation with family members, neighbours, relatives, friends on various topics, context specific – agreeing/disagreeing, wishing, consoling, advising, persuading, expressing opinions, arguing.	6
2	UNIT II SOCIAL COMMUNICATION Telephone calls (official), colleagues at workplace, discussing issues (social, political, cultural) clubs (any social gathering), answering questions, talking about films, books, news items, T.V. programmes.	5
3	UNIT III GROUP/MASS COMMUNICATION Group discussion (brainstorming), debate, panel discussion, anchoring/master of ceremony, welcome address, proposing vote of thanks, introducing speakers, conducting meetings, making announcements, conducting quiz, negotiations, oral reports.	5
4	UNIT IV INTEGRATED SPEAKING AND PRESENTATION SKILLS Listening to speak (any radio programme/lecture), reading to speak, writing to speak, watching to speak, (any interesting programme on TV) Reading aloud any text/speech, lecturing, power-Point presentation, impromptu, Interviews of different kinds (one to one, many to one, stress interview, telephonic interview)	5
5	UNIT V EMPLOYABILITY AND CORPORATE SKILLS Interview skills – Types of interview, preparation for interview, mock interview. Group Discussion – Communication skills in Group Discussion, Structure of GD, GD process, successful GD techniques, skills sought out in GD – leadership and co-ordination. Time management and effective planning – identifying barriers to effective time management, prudent time management techniques, relationship between time management and stress management. Stress management – causes and effect, coping strategies – simple physical exercises, simple Yoga and Meditation techniques, Relaxation techniques, stress and faith healing, positive forces of nature, relaxation by silence and music. Decision making and Negotiation skills, People skills, Team work, development of leadership qualities	9

Note

Students will undergo the entire programme similar to a Seminar. It is an activity based course. Student individually or as a group can organize event(s), present term papers, assignments etc. This will be evaluated by the faculty member(s) handling the course and the consolidated marks can be taken as the final mark. No end semester examination is required for this course

Semester	IV	Specialization	Tourism and Hospitality Management
Course Code	412THM	Type	Subject - Elective
Course Title	Statistics for Hospitality and Tourism		

Course Objectives	
1	To learn the applications of statistics in business decision making in service sector.
2	To develop problem-solving skills

Syllabus:

Unit Number	Contents	Number of Sessions
1	INTRODUCTION OF DESCRIPTIVE STATISTICS: Statistics Definition, Data, Population, Sample, Data Presentation: Graphical, Diagrammatic, Measures of Central Tendency: Mean, Median, Mode. Measures of Dispersion: Variance, Skewness, Kurtosis	8
2	TESTING OF HYPOTHESIS - PARAMETRIC TESTS Hypothesis testing: one sample and two sample tests for means and proportions of large samples (z-test), one sample and two sample tests for means of small samples (t-test), F-test for two sample standard deviations. ANOVA one and two way.	
3	NON-PARAMETRIC TESTS Chi-square test for single sample standard deviation. Chi-square tests for independence of attributes and goodness of fit. Sign test for paired data. One sample run test, rank correlation.	
4	SAMPLING DISTRIBUTION AND ESTIMATION Introduction to sampling distributions, sampling distribution of mean and proportion, application of central limit theorem, sampling techniques. Estimation: Point and Interval estimates for population parameters of large sample and small samples, determining the sample size.	
5	Hypothesis, Testing of Hypothesis Parametric: Z-test, t-Test, F-test, Chi-Square Test	

Learning Resources:

Semester		IV	Specialization	DFM
Course Code		408 DFM	Type	Generic - Elective
Course Title		Defence –Enterprise Resource Planning		
Course Objective				
1	To give various perspectives on Quality and various contributors to Quality.			
2	To provide an in-depth understanding of the various QC tools.			
3	To introduce the frameworks of Global Quality Awards.			
Syllabus				
Unit No	Contents			Number of Sessions
1	Quality Concepts :Defined, Quality Cost perspective ,Cost of QualityQuality Function, Spiral of Progress in quality, Little q and Big Q, JuranTrilogy,Internal and external quality perspective. Goods and service quality. Cost of poorquality, internal failure cost and external failure cost, appraisal cost, Preventioncost, Analysis of quality cost, hidden quality cost, Discovering the optimum,economic models of quality of conformance-Zone of improvement, zone of highappraisal, zone of indifference.Strategic Quality management: Companywide quality culture, Organizationalvision.			5 + 1
2	Quality Gurus: Demings' 14 point philosophy, Juran, Crosby philosophy, Ishikawa, Taguchi, Feigenbaum. Comparison of quality philosophy.			5 + 1
3	QC Tools: Problem Solving Methodology - Check list, Flow Chart, Tally chartsandHistograms, Graphs, Pareto Analysis ,Cause and Effect Diagram,Brainstorming, Scatter diagram and regression analysis. Quality FunctionDeployment - Introduction, Customer needs, Customer priorities and competitivecomparisons and planned improvements, Design features or requirements,Central relationship matrix-What's versus the How's , relative weights of importance. Design features interactions, target values, Technical comparison ,service information and special requirements-Difficulties associated with QFD, Implementation of QFD			5 + 1
4	Statistical Quality Control: Necessity and Importance of SQC, Process capability, Six Sigma quality, Process control, Process control for attributes, p charts and c charts, Process control for variables, X bar R chart, acceptance sampling, OC curves, Average Outgoing Quality Limit (AOQL),Sampling plans			5 + 1
5	Quality Management Awards and frameworks: Malcolm Baldrige National quality award, Deming prize, ISO 9000-2000,CII, Ramakrishna Bajaj Awards, Tata Business Excellence Model (TBEM)			5 + 1
Learning &Resources

Master of Business Administration (MBA) – Revised Syllabus 2019

**2 year, 4 Semester Full time Programme
Choice Based Credit System (CBCS) and Grading System
Outcome Based Education Pattern**

MBA I effective from AY 2019-20

MBA II effective from AY 2020-21

1.0 Preamble: The revised MBA Curriculum 2019 builds on the implementation of the Choice Based Credit System (CBCS) and Grading System initiated in the AY 2013. The curriculum takes the MBA programme to the next level in terms of implementing Outcome Based Education along with the Choice Based Credit System (CBCS) and Grading System.

2.0 Definitions:

2.1 Outcome Based Education:

2.1.1 Outcome Based Education (OBE) Approach: Outcomes are about performance, and this implies:

- a) There must be a performer – the student (learner), not only the teacher
- b) There must be something performable (thus demonstrable or assessable) to perform
- c) The focus is on the performance, not the activity or task to be performed

2.1.2 Programme Educational Objectives (PEOs): Programme Educational Objectives are a set of **broad future-focused student performance outcomes** that explicitly identify what students will be **able to do with what they have learned**, and **what they will be like** after they leave school and are **living full and productive lives**. Thus PEOs are what the programme is preparing graduates for in their **career and professional life** (to attain within a **few years** after graduation¹).

2.1.3 Graduate Attributes (GAs): Graduate Attributes (GAs) are the **qualities, knowledge and capabilities** that students are encouraged to take responsibility for developing throughout their studies and are the **defining characteristics** of the students passing out of the MBA program. These attributes include, but go **beyond, the disciplinary expertise or technical knowledge**.

2.1.4 Programme Outcomes (POs): Programme Outcomes are a set of **narrow statements** that describes what students (learners) **of the programme** are expected to know and be able to perform or attain **by the time of graduation**.

2.1.5 Programme Specific Outcomes (PSOs): Programme Outcomes are a set of **narrow statements** that describes what students (learners) **of a particular specialization of the programme** are expected to know and be able to perform or attain **by the time of graduation**. PSOs are also a function of the various course combinations offered by the Institute.

2.1.6 Learning Outcomes: A learning outcome is what a student **CAN DO** as a result of a learning experience. It describes a **specific task** that he/she is able to perform at a **given level of competence under a certain situation**. The three broad types of learning outcomes are:

- a) Disciplinary knowledge and skills
- b) Generic skills
- c) Attitudes and values

2.1.7 Course Outcomes (COs): A set of specific statements that describes the **complex performances** a student should be capable of as a result of **learning experiences within a course**.

2.1.8 Teaching and Learning Activities (TLAs): The set of **pedagogical tools and techniques** or the teaching and learning activities that aim to **help students to attain** the intended learning outcomes and engage them in these learning activities through the teaching process.

2.1.9 Outcome Based Assessment (OBA): An assessment system that asks course teachers to first identify what it is that we expect students to be able to do once they have completed a course or program. It then asks course teachers to provide evidence that they are able to do so. In other words, how will each learning outcome be assessed? What **evidence of student learning** is most **relevant for each learning outcome** and **what standard or criteria** will be used to evaluate that evidence? Assessment is therefore a key part of outcome-based education and used to determine whether or not a qualification has been achieved.

2.2 Credit: *In terms of credits, for a period of one semester of 15 weeks:*

¹ Graduation refers to passing out of the MBA programme. Graduation does NOT refer to 10+2+3/4 degree e.g. BA, BE, etc.

- a) every ONE hour session per week of L amounts to 1 credit per semester
- b) a minimum of TWO hours per week of T amounts to 1 credit per semester,
- c) a minimum of TWO hours per week of P amounts to 1 credit per semester,

Each credit is a combination of 3 components viz. Lecture (L) + Tutorials (T) + Practice (Practical / Project Work / Self Study) (P) i.e. LTP Pattern. Indicative LTP, for each course, is documented in the syllabus.

The course teacher may modify the LTP of the course in view of the course requirements, nature of the course, the level of learners and the type of pedagogy and assessment tools proposed. The modified LTP shall have to be approved by the Director / Head of the Department / Designated academic authority of the Institute.

- 2.3 Session:** Each teaching-learning, evaluation session shall be of 60 minutes. However, institutes shall have the flexibility to define their time slots in a manner as to use their faculty and infrastructure resources in the best possible way and ensure effective learning.
- 2.4 Course Announcement:** The institute shall announce the elective courses and specializations it proposes to offer the students out of the wider course basket. It is not mandatory to offer all the specializations and all the electives. The decision of the Director shall be final in this case. However, in the spirit of Choice Based Credit System, institutes should offer choices to the students for the elective courses and not offer only the minimum number of electives.
- 2.5 Course Registration:** It is mandatory for every student, to register every semester, for the courses opted for that semester. Each student, on admission shall be assigned to a Faculty Advisor who shall advise her/him about the academic programs and counsel on the choice of courses considering the student's profile, career goals and courses taken in the earlier semesters. With the advice and consent of the Faculty Advisor, the student shall register for a set of courses he/she plans to take up for the Semester. Students shall have to register for the courses for the semester within first week of Semester I and immediately after conclusion of the preceding term for subsequent Semesters II, III and IV.

3.0 MBA Programme Focus:

3.1 Programme Educational Objectives (PEOs):

1. **PEO1:** Graduates of the MBA program will *successfully integrate core, cross-functional and inter-disciplinary aspects of management theories, models and frameworks with the real world practices and the sector specific nuances to provide solutions to real world business, policy and social issues in a dynamic and complex world.*
2. **PEO2:** Graduates of the MBA program will possess excellent *communication skills*, excel in *cross-functional, multi-disciplinary, multi-cultural teams*, and have an appreciation for *local, domestic and global contexts* so as to manage *continuity, change, risk, ambiguity and complexity.*
3. **PEO3:** Graduates of the MBA program will be appreciative of the significance of *Indian ethos and values in managerial decision making* and exhibit *value centered leadership.*
4. **PEO4:** Graduates of the MBA program will be ready to *engage in successful career pursuits* covering a broad spectrum of areas in *corporate, non-profit organizations, public policy, entrepreneurial ventures* and engage in *life-long learning.*
5. **PEO5:** Graduates of the MBA program will be recognized in their chosen fields for their *managerial competence, creativity & innovation, integrity & sensitivity* to local and global issues of social relevance and earn the *trust & respect* of others as *inspiring, effective and ethical leaders, managers, entrepreneurs, intrapreneurs* and change agents.

3.2 Programme Outcomes (POs): At the end of the MBA programme the learner will possess the

1. **Generic and Domain Knowledge** - Ability to articulate, illustrate, analyze, synthesize and apply the knowledge of principles and frameworks of management and allied domains to the solutions of real-world complex business issues
2. **Problem Solving & Innovation** - Ability to Identify, formulate and provide innovative solution frameworks to real world complex business and social problems by systematically applying modern quantitative and qualitative problem solving tools and techniques.

3. **Critical Thinking** - Ability to conduct investigation of multidimensional business problems using research based knowledge and research methods to arrive at data driven decisions
4. **Effective Communication** - Ability to effectively communicate in cross-cultural settings, in technology mediated environments, especially in the business context and with society at large
5. **Leadership and Team Work** - Ability to collaborate in an organizational context and across organizational boundaries and lead themselves and others in the achievement of organizational goals and optimize outcomes for all stakeholders.
6. **Global Orientation and Cross-Cultural Appreciation:** Ability to approach any relevant business issues from a global perspective and exhibit an appreciation of Cross Cultural aspects of business and management.
7. **Entrepreneurship** - Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing startups as well as professionalizing and growing family businesses.
8. **Environment and Sustainability** - Ability to demonstrate knowledge of and need for sustainable development and assess the impact of managerial decisions and business priorities on the societal, economic and environmental aspects.
9. **Social Responsiveness and Ethics** - Ability to exhibit a broad appreciation of the ethical and value underpinnings of managerial choices in a political, cross-cultural, globalized, digitized, socio-economic environment and distinguish between ethical and unethical behaviors & act with integrity.
10. **LifeLong Learning** – Ability to operate independently in new environment, acquire new knowledge and skills and assimilate them into the internalized knowledge and skills.

3.3 Programme Specific Outcomes (PSOs): It is expected that **Institutes define the PSOs for each specialization / major-minor combination.** PSOs shall also vary based upon the **customized combination** of Generic Core, Generic Elective, Subject Core, Subject Elective, Foundation, Enrichment & Alternative Study Credit Courses that they offer.

3.4 Graduate Attributes (GAs): At the end of the MBA programme the learner shall exhibit:

GA1: Managerial competence

GA2: Proficiency in Communication, Collaboration, Teamwork and Leadership

GA3: Competence in Creativity & Innovation

GA4: Research Aptitude, Scholarship & Enquiry

GA5: Global Orientation

GA6: Proficiency in ICT & Digital Literacy

GA7: Entrepreneurship & Intrapreneurship Orientation

GA8: Cross-functional & Inter-disciplinary Orientation

GA9: Results Orientation

GA10: Professionalism, Ethical, Values Oriented & Socially Responsible behaviour

GA11: Life-Long Learning Orientation

4.0 MBA Programme Course Types & Evaluation Pattern:

Sr.No.	Course Type	Credits	Nature	Comprehensive Concurrent Evaluation (CCE)	End Semester Evaluation (ESE) Marks	Total Marks
BASIC COURSE TYPES						
1	Generic Core (GC)	3	Compulsory	50	50	100
2	Subject Core (SC)	3	Compulsory (Specialization specific)	50	50	100
3	Generic Elective (GE - UL)	2	Elective	0	50	50
4	Generic Elective (GE - IL)	2	Elective	50	0	50
5	Subject Elective (SE - IL)	2	Elective (Specialization specific)	50	0	50
6	Summer Internship Project (SIP)	6	Project (Compulsory)	50	50	100
ADDITIONAL COURSE TYPES						
1	Enrichment Courses (ENR)	1	Elective	25	0	25
2	Foundation Courses	1	Elective	25	0	25

	(FOU)					
3	Alternative Study Credit Courses (ASCC)	2	Elective	50	0	50
4	Open Electives (OE)	3 or 2	Subject Core / Subject Elective	As per Subject Core / Subject Elective Pattern		

4.1 Course Types

- 4.1.1 **Foundation Course:** These courses focus on developing the basic abilities that support the understanding of other courses.
- 4.1.2 **Core courses** are the compulsory courses for all the students. Core courses are of two types: Generic Core & Subject Core.
- 4.1.3 **Generic Core:** This is the course which should compulsorily be studied by a candidate as a core requirement to complete the requirement of a degree in a said discipline of study. Therefore, Generic Core courses are mandatory and fundamental in nature. These courses cannot be substituted by any other courses. Such courses are also known as Hard Core Courses.
- 4.1.4 **Subject Core:** A Core course may be a Subject Core if there is a choice or an option for the candidate to choose from a broad category (grouping) of subjects (specializations / electives). These are also known as Soft Core Courses.
- 4.1.5 **Elective Course:** Elective course is a course which can be chosen from a pool of courses. It may be:
- Very Specialized or advanced course focusing on a specific aspect
 - Supportive to the discipline of study
 - Providing an extended scope
 - Enabling an exposure to some other discipline/domain
 - Nurturing candidate's proficiency/skills.
- 4.1.6 **Generic Elective:** An elective course which is common across disciplines / subjects is called a generic elective. 'Generic Elective' courses develop generic proficiencies amongst the students.
- 4.1.7 **Generic Elective – University Level:** These elective courses are supportive to the discipline of study and focus on the knowledge aspect of competence building. The course outcomes for such courses can be better assessed through traditional End Semester Evaluation.
- 4.1.8 **Generic Elective – Institute Level:** These elective courses are aimed to develop inter-personal, technical and other skills aspect of competence building. The course outcomes for such courses can be better assessed through Comprehensive Concurrent Evaluation.
- 4.1.9 **Subject Elective:** A 'Discipline (specialization) centric' elective is called 'Subject Elective.' Subject Elective courses, in the Semester II, III and IV are focused on a specialization.
- 4.1.10 **Open Elective:** A subject elective course chosen generally from another Discipline / specialization / subject, with an intention to seek cross-functional exposure is called an Open Elective. A Subject Elective offered in one specialization area may be treated as an Open Elective by another specialization area and vice-a-versa.
- 4.1.11 **Enrichment Course:** This is a course generally offered to bright learners / fast learners for advanced inputs beyond the curriculum. Enrichment / Add-on Course shall be a 1 Credit Course. The course is of the nature of Course of Independent Study (CIS) and is designed for learners who have the ability and inclination to work independently with limited guidance, supervision and interaction with the faculty member(s).
- 4.1.12 **Alternative Study Credit Courses:** These courses prepare the learners for a VUCA (Volatile Uncertain, Complex and Ambiguous) world by going beyond the boundaries of their campus. Apart from core and elective courses, these courses engage students in discussion, debate and solution of real world challenges.
- 4.1.13 **Massive Open Online Courses (MOOCs)²:** Massive Open Online Courses (MOOCs) are such online courses which are developed as per the pedagogy stated in the AICTE regulation (2016) or equivalent; following the four quadrant approach and made available on the SWAYAM platform of Government of India.

² AICTE (Credit Framework for online learning course through SWAYAM) Regulations, 2016

4.2 MBA Programme Structure: The Basic Programme Structure shall be as depicted below

	Course#	Semester I		Semester II		Semester III		Semester IV		Credits	CCE Marks	ESE Marks
COMPULSORY CORE COURSES (GENERIC (GC) + SUBJECT (SC) + Summer Internship Project SIP)												
A	1	GC - 1	1	GC - 7	1	GC - 11	1	GC - 14		66 Credits		
	2	GC - 2	2	GC - 8	2	GC - 12	2	GC - 15				
	3	GC - 3	3	GC - 9	3	GC -13 (SIP)	3	SC - 5				
	4	GC - 4	4	GC - 10	4	SC - 3	4	SC - 6				
	5	GC - 5	5	SC - 1	5	SC - 4					1050	1050
	6	GC- 6	6	SC - 2							2100	
GENERIC ELECTIVE COURSES (UNIVERSITY LEVEL) – GE - UL												
B	7	GE UL - 1	7	GE UL - 4	6	GE UL – 7	5	GE UL - 10		22 Credits		
	8	GE UL - 2	8	GE UL - 5	7	GE UL – 8	6	GE UL - 11			0	550
	9	GE UL - 3	9	GE UL - 6	8	GE UL – 9					550

C	10	GE IL - 1	10	GE IL - 4	9	SE IL -3	7	SE IL -6		22 Credits		
	11	GE IL - 2	11	SE IL -1	10	SE IL -4	8	SE IL -7			550	0
	12	GE IL - 3	12	SE IL -2	11	SE IL -5					550	
12		12		11		8		43		110 Credits	1600 CCE	1600 ESE
FOUNDATION COURSES (OPTIONAL)												
D	FOUNDATION 1		FOUNDATION 7						0 to 10 Credits			
	FOUNDATION 2		FOUNDATION 8									
	FOUNDATION 3		FOUNDATION 9									
	FOUNDATION 4		FOUNDATION 10									
	FOUNDATION 5											
	FOUNDATION 6											
ENRICHMENT COURSES (OPTIONAL)												
E	ENRICHMENT 1		ENRICHMENT 7		ENRICHMENT 11		ENRICHMENT 13		0 to 14 Credits			
	ENRICHMENT 2		ENRICHMENT 8		ENRICHMENT 12		ENRICHMENT 14					
	ENRICHMENT 3		ENRICHMENT 9									
	ENRICHMENT 4		ENRICHMENT 10									
	ENRICHMENT 5											
	ENRICHMENT 6											
ALTERNATIVE STUDY CREDIT COURSES (OPTIONAL)												
F	ASCC 1		ASCC 4		ASCC 7		ASCC 10		0 to 22 Credits			
	ASCC 2		ASCC 5		ASCC 8		ASCC 11					
	ASCC 3		ASCC 6		ASCC 9							

Note:

- The basic programme structure comprises of Block A, B & C above.
- Variations to the basic programme structure shall be defined at the institute level using any permissible combination of A,B,C,D,E and F blocks depicted above, taking into consideration institutional vision-mission-focus areas, industry demand, student learning capabilities, faculty competencies, availability of learning resources, etc. PSOs shall be appropriately defined by the institute.

LEGEND:

#	Block	CIE - ESE (Credits per course)	Course Type	Credits	Courses	Nature
1.1	A1	50-50 (3 Credits)	GENERIC CORE (GC)	42	14	COMPULSORY
1.2	A2	50-50 (3 Credits)	SUBJECT CORE (SC)	18	6	COMPULSORY

4.2	E	25 - 0 (1 Credit)	ENRICHMENT COURSES	0 - 14	0 - 14	ELECTIVES
4.3	F	50 - 0 (2 Credits)	ALTERNATIVE STUDY CREDIT COURSES	0 - 22	0 - 11	ELECTIVES

5.0 Specializations offered: The following specializations shall be offered as MAJOR / MINOR:

1. Marketing Management (MKT)
2. Financial Management (FIN)
3. Human Resources Management (HRM)
4. Operations & Supply Chain Management (OSCM)
5. Business Analytics (BA)

The following specializations shall be offered ONLY as MINOR Specializations:

1. Rural & Agribusiness Management (RABM)
2. Pharma & Healthcare Management (PHM)
3. Tourism & Hospitality Management (THM)

Note:

1. Institutes may offer ONLY SELECT specializations based on industry needs, faculty strength & competencies, student demands, employability potential, etc.
2. Institutes MAY NOT offer a specialization if a **minimum of 20% of students** are not registered for that specialization.
3. The Institute MAY NOT offer an elective course if a **minimum of 20% of students** are not registered for that elective course.

5.1 Open Elective(s):

1. Learners who intend to learn specific courses from other specialization(s) can opt for Subject Elective (SE - IL) courses from other specializations in lieu of the Subject Elective (SE - IL) courses from their native specialization.
2. These open electives MAY BE from two different specializations.
3. Open Electives can be opted for only in Sem III and Sem IV.
4. Students can opt for maximum 1 Subject Elective (SE - IL) course in Sem III and Sem IV each. i.e. Students can opt for maximum 2 Open Electives (total 4 credits).

5.2 Major Specialization + Minor Specialization Combination:

1. For a **Major + Minor Specialization combination** the learner shall **complete**
 - a) Major Specialization – Courses: Total 9 (4 Subject Core courses and 5 Subject Elective courses)
 - b) Minor Specialization – Courses: Total 4 (2 Subject Core courses and 2 Subject Elective courses)
2. For a **Major + Minor Specialization combination** the learner shall **earn**
 - a) Major Specialization – Credits: Total 22 (12 Credits from Subject Core + Minimum 10 Credits from Subject Electives)

- b) Minor Specialization – Credits: Total 10 (6 Credits from Subject Core + Minimum 4 Credits from Subject Electives)
3. The 10 credits of the MINOR specialization shall be from a single specialization, out of which 6 credits shall be mandatorily earned through the Subject Core Courses.
4. The Major + Minor specialization combination is OPTIONAL.
5. Students shall be permitted to opt for **ANY Major + ANY Minor** specialization combination, subject to institutional norms and guidelines, issued from time to time.
6. A student opting for Major + Minor specialization combination shall opt for Foundation Courses / Enrichment Courses / Alternative Study Credit Courses **ONLY in lieu of Generic Elective (GE - IL) Courses**.
7. Institutes may stipulate additional criteria of minimum SGPA / CGPA, number of backlogs, expectations about specific graduation discipline for students who wish to take up a specific specialization / specific major minor combination. Such criteria may also involve the potential employability criteria for a particular specialization / Major + Minor specialization combination.

5.3 Options & Guidelines for Choice of Specialization:

1. Students can opt for a single specialization (i.e. Major Only – 5 choices)
2. Students can opt for a two specializations (i.e. Major + Minor Combination – 1(Major) + 7(Minor) choices)
3. Specializations which are offered ONLY as MINOR shall be offered in SECOND YEAR ONLY. (3 choices)
4. Courses for the Minor specialization shall be taken up in the second year ONLY (in either Sem III or Sem IV or in a combination of Sem III and IV).
5. The Major specialization of a student shall be determined by the Subject Core (SC) courses and the Subject Elective (SE - IL) courses chosen in Sem II.
6. All courses (Subject Core (SC) courses and the Subject Elective (SE - IL) courses) chosen in Sem II shall belong to the same specialization.
7. The learners shall generally complete 6 Subject Core courses (2 each in semester II, III, IV) and 7 Subject Elective courses (2, 3, 2 each in semester II, III, IV respectively). In this case he /she shall be awarded MBA (Functional Area Specialization) degree, e.g. MBA (Marketing), MBA (Finance), etc.
8. The learners shall complete 4 Subject Core courses and 5 Subject Elective courses of Major specialization and 2 Subject Core courses and 2 Subject Elective courses of Minor specialization. In this case he /she shall be awarded MBA (Functional Area Specialization Major + Functional Area Specialization Minor) degree, e.g. MBA (Marketing + Finance), etc.

5.4 Foundation Courses:

1. All the Foundation Courses shall be of 1 credit each.
2. Maximum credits for Foundation Courses **shall not exceed 10 (Ten) Credits**.
3. Foundation Courses can be opted for ONLY IN LIEU of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses.³
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum four credits) ONLY.
5. Foundation Courses CANNOT be opted for in Sem III and in Sem IV.
6. It is NOT MANDATORY for a learner to opt for Foundation Courses. However, Faculty members may advise a student to enroll for Foundation Course(s) after a methodical assessment of the relevant competencies of the student.
7. Foundation Courses shall be offered ONLY to those students who lack the basic competencies in the specific course. The institute shall conduct a methodical assessment of the relevant competencies of the student. to identify the learners who need to take up foundation courses. Records of the evaluation shall be preserved.
8. Institutes may stipulate additional criteria for students desirous to take up Foundation Courses.
9. Foundation Courses shall be taught by the course teacher in workshop mode / project mode.
10. The course teacher shall oversee the progress of the learner as well as evaluate the learner for 25 marks / 1 credit.
11. Pre- and post-test: A test or other assessment activity shall be administered to the students both at the beginning of the foundation course and at the end of the foundation course, with the intention of demonstrating improved skills upon completion. The tests shall be essentially SKILL based.

³ Except for a learner who opts for Major + Minor Specialization combination

12. Best of the two assessments shall be treated as the final evaluation.
13. The list of Foundation Courses is mentioned in Annexure I.

5.5 Enrichment Courses:

1. All the Enrichment Courses shall be of 1 credit each.
2. Maximum credits for Enrichment Courses **shall not exceed 14 (Fourteen) Credits**.
3. Enrichment Courses can be opted for, ONLY IN LIEU of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses⁴.
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum four credits) or Semester III (minimum zero Credits – maximum two credits) or Semester IV (minimum zero Credits – maximum two credits).
5. It is NOT MANDATORY for a learner to opt for Enrichment Courses. However, Faculty members may advise a student to enroll for Enrichment Course(s) after a methodical assessment of the relevant competencies of the student.
6. Institutes may stipulate additional criteria for students desirous to take up Enrichment Courses.
7. Enrichment Courses shall be executed as **Course of Independent Study (CIS)** in guided self study mode.
8. A faculty guide shall be assigned for such courses. The learner shall select the Enrichment Course that he/she desires to opt for and submit an outline of the proposed study relevant to the course. The faculty guide shall approve the proposal after considering the nature of the work, learning effort required, desired outcomes and comprehensive coverage of the topic.
9. Since enrichment course is a guided self study course, 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 25 marks / 1 credit.
10. The learners shall document and submit details such as questionnaires, interview schedules, interview transcripts, observation sheets, photographs, testimonials from the organizations / persons interacted with, permission letters, acceptance letters, field work sampling plans, etc.
11. Enrichment Courses can be carried out in the campus library / in the campus IT lab / in a local community setting / in a start-up / in a government undertaking / in a NGO / in a cooperative / in a corporate entity.
12. The Enrichment Courses are organized in different Proficiency Tracks. Learners shall normally opt for enrichment courses from **NOT MORE THAN 3 Proficiency Tracks**.
13. **Enrichment Courses are of the following types:**
 - a) **Seminar** - Involves Desk Research of distributed learning material and information resources and submission and presentation of an analytical report. Maximum credits for Enrichment Courses of Seminar type shall not exceed 10 (Ten) Credits.
 - b) **Review** – Involves Desk Research of a small set of specific published reports/ databases and submission and presentation of an analytical report. Maximum credits for **Enrichment Courses of Seminar type** shall not exceed 10 (Ten) Credits.
 - c) **Case Study Development and Presentation** – Involves desk research and field work leading to the development, presenting and publishing of a case study. Maximum credits for **Enrichment Courses of Case Study Development and Presentation type** shall not exceed 10 (Ten) Credits.
 - d) **Project** – Involves field work leading to presentation of a comprehensive report based on the experiential learning. Maximum credits for **Enrichment Courses of Project type** shall not exceed 10 (Ten) Credits.
 - e) **Lab / Workshop** - Involves experiential learning through focused skill building activity. Maximum credits for **Enrichment Courses of Lab / Workshop type** shall not exceed 10 (Ten) Credits.
 - f) **Clinic / Fest** – Involves experiential learning through organizing an event / campaign. Maximum credits for **Enrichment Courses of Clinic / Fest type** shall not exceed 4 (Four) Credits.
 - g) **Personal Interest Course** - Involves experiential learning through club activities at the Institute Level. Maximum credits for **Enrichment Courses of Personal Interest Course type** shall not exceed 4 (Four) Credits.
14. A well documented and comprehensive spiral bound report / publication, with appropriate referencing, is essential for all the enrichment courses. Relevant Audio, Video Material, should be included as a part of the report.
15. The Evaluation for the Enrichment Courses shall be as follows –
 - a) Proposal and Scope of Work – 5 Marks
 - b) Report – 10 Marks

⁴ Except for a learner who opts for Major + Minor Specialization combination

- c) Presentation – 5 Marks
- d) Viva Voce – 5 Marks
- 16. The presentation shall be similar to an open defence. The Viva Voce shall be carried out by minimum two faculty members including the guide.
- 17. The sum total of the number of Foundation Courses and the number of Enrichment Courses opted by a student in a particular semester should generally be an even number.
- 18. The list of Enrichment Courses is provided in Annexure I.

5.6 Alternative Study Credit Courses:

1. All the ASCC shall be of 2 credits each.
2. Maximum credits for ASCC **shall not exceed 22 (Twenty two) Credits.**
3. Alternative Study Credit Courses (ASCC) can be opted for, ONLY IN LIEU of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses⁵.
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum six credits) or Semester III (minimum zero Credits – maximum six credits) or Semester IV (minimum zero Credits – maximum four credits). i.e. a learner may skip Generic Elective (GE - IL) courses all together and earn the required 22 credits entirely through ASCC.
5. It is NOT MANDATORY for a learner to opt for Alternative Study Credit Courses. However, Faculty members may advise a student to enroll for Alternative Study Credit Course(s) after a methodical assessment of the relevant competencies of the student.
6. Institutes may stipulate additional criteria for students desirous to take up Alternative Study Credit Courses.
7. **A MINIMUM of 60% of the total credits earned by a learner through ASCC shall either be from MOOCs or from Professional Certification Programmes.**
8. Thus a learner may skip all Generic Elective (GE - IL) courses and skip all Subject Elective (SE - IL) courses and earn the required 22 credits entirely through ASCC.
9. The same TYPE of ASCC can be opted for multiple number of times. Norms for the same are prescribed in the relevant section later in this syllabus document. For e.g. A student may undertake 11 “Professional Certification Programs” and earn 22 credits or complete 11 MOOCs and earn 22 Credits.
10. ASCC shall be executed in online study mode / field work or project mode / certification mode.
11. A faculty guide shall be assigned for such courses. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
12. The learner shall select the ASCC that he/she desires to opt for and submit an outline of the proposed study relevant to the course. The faculty guide shall approve the proposal after considering the nature of the work, learning effort required, desired outcomes and comprehensive coverage of the topic.
13. There is no defined syllabus for the ASCC courses. Institutes shall define the syllabus and announce the same on the website.
14. Since ASCC is a guided self study course 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
15. The start date of the ASCC such as Professional Certifications shall be after the admission date for the MBA programme and the end date of the ASCC shall be within 6 months of the start date of the ASCC, but before the completion of Sem IV.
16. The list of ASCC is provided in Annexure I.

5.7 Combination of Options: A learner may opt for any combination of earning the 22 credits assigned to Generic Elective (GE - IL) courses and Subject Elective (SE - IL) courses through

- e) Generic Elective (GE - IL) courses
- f) Subject Elective (SE - IL) courses
- g) Open Elective Courses
- h) Major + Minor specialization combination
- i) Foundation Courses
- j) Enrichment Courses
- k) Alternative Study Credit Courses

⁵ Except for a learner who opts for Major + Minor Specialization combination

SUBJECT TO THE minimum and maximum limits of credits prescribed and, subject to institutional norms and guidelines, issued from time to time.

6.0 Summer Internship Project: At the end of Second Semester each student shall undertake a Summer Internship Project (SIP) for a **minimum of 8 weeks**. For SIP, 1 credit is equivalent to minimum 40-45 hours of effective work. SIP shall have 6 credits. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP.

The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. **Ideally the SIP should exhibit a cross-functional orientation.** SIP can be carried out in a Corporate Entity / NGO / SME / Government Undertaking / Cooperative Sector. SIP may be a research project – based on primary / secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace.

Each student shall maintain a SIP Progress Diary detailing the work carried out and the progress achieved on a daily basis. The student shall submit a written structured SIP report based on work done during this period. The student shall submit the SIP Progress Diary along with the SIP Report.

Students shall also seek a formal evaluation of their SIP from the company guide. The formal evaluation by the company guide shall comment on the nature and quantum of work undertaken by the student, the effectiveness and overall professionalism. The learning outcomes of the SIP and utility of the SIP to the host organization must be specifically highlighted in the formal evaluation by the company guide. The SIP evaluation sheet duly signed and stamped by the industry guide shall be included in the final SIP report.

The SIP report must reflect 8 weeks of work and justify the same. The SIP report should be well documented and supported by –

1. Institute's Certificate
2. Certificate by the Company
3. Formal feedback from the company guide
4. Executive Summary
5. Organization profile
6. Outline of the problem/task undertaken
7. Research methodology & data analysis (in case of research projects only)
8. Relevant activity charts, tables, graphs, diagrams, AV material, etc.
9. Learning of the student through the project
10. Contribution to the host organization
11. References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)

The completion of the SIP shall be certified by the respective Faculty Guide & approved by the Director of the Institute. The external organization (Corporate / NGO/ SME/ Government Entity/ Cooperative/ etc.) shall also certify the SIP work.

The students shall submit a spiral bound copy of the SIP report by 15th September. The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks between 15th September to 30th September. The Panel shall comprise of two evaluators appointed by the Director of the Institute / Head of Department (for MBA departments in engineering colleges). Institutes are encouraged to involve senior alumni, industry experts, recruiters to conduct the internal viva-voce. The internal viva-voce panel shall provide a detailed assessment of the SIP report and suggest changes required, if any.

After the internal viva-voce, the student shall finalize the SIP report by incorporating all the suggestions and recommendations of the internal viva-voce panel. The internal guide shall then issue the Institute's Certificate to the student.

The student shall submit TWO hard copies & one soft copy (CD) of the project report before 30th October in Sem III. One hard copy of the SIP report is to be returned to the student by the Institute after the External Viva-Voce. In the interest

of environmental considerations, students are encouraged to print their project reports on both faces of the paper. Spiral bound copies may be accepted.

There shall be an external viva-voce for the SIP for 50 marks. The external viva-voce shall be conducted after the theory exam of Semester III.

The Internal & the External viva-voce shall evaluate the SIP based on:

1. Adequacy of work undertaken by the student
2. Application of concepts learned in Sem I and II
3. Understanding of the organization and business environment
4. Analytical capabilities
5. Technical Writing & Documentation Skills
6. Outcome of the project – sense of purpose
7. Utility of the project to the organization
8. Variety and relevance of learning experience

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

7.0 Comprehensive Concurrent Evaluation (CCE) / Concurrent Internal Evaluation (CIE):

1. The course teacher shall prepare the scheme of Comprehensive Concurrent Evaluation (Formative Assessment) before commencement of the term. The scheme of Comprehensive Concurrent Evaluation shall explicitly state the linkages of each CCE with the Course Outcomes and define the targeted attainment levels for each CO.
2. The Director / Head of the Department / designated academic authority shall approve the scheme of Comprehensive Concurrent Evaluation with or without modifications.
3. The course teacher shall display, on the notice board, the approved CCE scheme of the course and the same shall also be hosted on the website, not later than the first week of the term.
4. Each CCE item shall be of minimum 25 marks.
5. For a 3 Credit Course there shall be a MINIMUM of three CCE items. The final scores shall be converted to 50, using an average or best two out of three formula.
6. For 2 Credit Course there shall be a MINIMUM of two CCE items. The final scores shall be converted to 50.
7. For a 1 Credit Course there shall be a MINIMUM of one CCE item.
8. CCE shall be spread through the duration of course and shall be conceptualized, executed, assessed and documented by the course teacher along with student-wise and class-wise attainment levels of the COs and the attainment levels of the course.
9. The assessment outcome of each CCE shall be duly signed by the course teacher, programme coordinator / academic head and the Director / Head of the Department / designated academic authority of the Institute.
10. A copy of the duly signed CCE *outcome* shall be displayed on the notice boards, within a week of the assessment and course teachers shall guide the students on a need basis.
11. Institute may conduct additional make up / remedial CCE items at its discretion.
12. At the end of the term aggregate CCE scores / grades shall be calculated and the CO attainment levels shall be calculated by the course teacher. The same shall be displayed on the notice board

7.1 Comprehensive Concurrent Evaluation Methods: Course teachers shall opt for a combination of one of more CCE methods listed below.

Group A (Individual Assessment) – Not more than 1 per course

1. Class Test
2. Open Book Test
3. Written Home Assignment
4. In-depth Viva-Voce

Group B (Individual Assessment) – Atleast 1 per course

5. Case Study
6. Caselet
7. Situation Analysis

8. Presentations

Group C (Group Assessment) – Not more than 1 per course

9. Field Visit / Study tour and report of the same
10. Small Group Project & Internal Viva-Voce
11. Model Development
12. Role Play
13. Story Telling
14. Fish Bowls

Group D (Creative - Individual Assessment) – Not more than 1 per course

15. Learning Diary
16. Scrap Book / Story of the week / Story of the month
17. Creating a Quiz
18. Designing comic strips
19. Creating Brochures / Bumper Stickers / Fliers
20. Creating Crossword Puzzles
21. Creating and Presenting Posters
22. Writing an Advice Column
23. Library Magazines based assessment
24. Peer assessment
25. Autobiography/Biography
26. Writing a Memo
27. Work Portfolio

Group E (Use of Literature / Research Publications- Individual Assessment) – Not more than 1 per course

28. Book Review
29. Drafting a Policy Brief
30. Drafting an Executive Summary
31. Literature Review
32. Term Paper
33. Thematic Presentation
34. Publishing a Research Paper
35. Annotated Bibliography
36. Creating Taxonomy
37. Creating Concept maps

Group F (Use of Technology - Individual Assessment) – Not more than 1 per course

38. Online Exam
39. Simulation Exercises
40. Gamification Exercises
41. Presentation based on Google Alerts
42. Webinar based assessment
43. Creating Webpage / Website / Blog
44. Creating infographics / infomercial
45. Creating podcasts / Newscast
46. Discussion Boards

Rubrics: The course teacher shall design Rubrics for each CCE. Rubrics are scoring tools that define performance expectations for learners. The course teacher shall seek approval for the rubrics from the Director / Head of the Department / other designated competent academic authority of the institute. The course teacher shall share the approved Rubrics with the students at the start of the course. The rubric shall detail the following:

1. Linkages of the CCE to COs.
2. A description of the assessment - brief concept note
3. Criteria that will be assessed - the expected learning outcomes.

4. Descriptions of what is expected for each assessment component - the expectations from the student.
5. Substantive description of the expected performance levels indicating mastering of various components - the assessment criteria.
6. The team composition, if applicable.
7. The format and mode of submission, submission timelines
8. Any other relevant details.

7.3 Safeguards for Credibility of CCE: The following practices are encouraged to enhance transparency and authenticity of concurrent evaluation:

1. Involving faculty members from other management institutes.
2. Setting multiple question paper sets and choosing the final question paper in a random manner.
3. One of the internal faculty members (other than the course teacher) acting as jury during activity based evaluations.
4. Involvement of Industry personnel in evaluating projects / field based assignments.
5. Involvement of alumni in evaluating presentations, role plays, etc.
6. 100% moderation of answer sheets, in exceptional cases.

7.4 Retention of CCE Documents: Records of CCE shall be retained for 3 years from the completion of the Academic Year. i.e. **Current Academic Year (CAY) + 3 years**. Likewise records of assessments to decide the learning needs of students for opting for **Foundation Courses / capabilities for Enrichment Courses/ ASCC/ start-up option** etc. shall be retained for 3 years from the completion of the Academic Year.

8.0 End Semester Evaluation (ESE):

1. The End Semester Evaluation (Summative Evaluation) for the Generic Core (GC), Subject Core (SC) and the Generic Elective (GE - UL) course shall be conducted by the Savitribai Phule Pune University.
2. The ESE shall have 5 questions each of 10 marks.
3. All questions shall be compulsory with internal choice within the questions.
4. The broad structure of the ESE question paper shall be as follows:

Question Number	COGNITIVE ABILITIES EVALUATED	Nature
Q.1	REMEMBERING	Answer any 5 out of 8 (2 marks each)
Q.2	UNDERSTANDING	Answer any 2 out of 3 (5 marks each)
Q.3	APPLYING	Answer 3 (a) or 3 (b) (10 marks)
Q.4	ANALYSING	Answer 4 (a) or 4 (b) (10 marks)
Q.5	EVALUATING	Answer 5 (a) or 5 (b) (10 marks)
	CREATING	

9.0 Programme Flexibility:

9.1 Average Credits per semester, Fast & Slow Learners:

1. It is expected that a student registers for 30 credits in Semester I, II, III each and balance 20 credits in Semester IV.
2. **Fast learners** (under accelerated plan), may be permitted to register for upto 6 additional credits per semester, subject to fulfilling the pre-requisites defined for a course, if any. However the degree shall be awarded not earlier than the end of the 2 academic years since the first admission to the MBA programme.
3. **Slow learners**, may be permitted to register for less than the normal credits defined for a semester but shall have to complete the programme within the stipulated maximum duration of 4 academic years since the first admission to the MBA programme.

9.2 Dropping an Elective Course:

1. Students who opt for an elective course and fail to earn the credits for the elective course (generic / subject / open) are permitted to opt for another elective course (generic / subject / open) in case they feel to do so.
2. In such a case they shall be said to have dropped the original course and opted for a new one.
3. Generic Core (GC), Subject Core (SC) CANNOT be dropped.

4. Generic Elective (GE - UL), Generic Elective (GE - IL) & Subject Elective (SE - IL) can be dropped and replaced with equivalent alternative courses
5. Not more than four courses can be dropped and replaced with equivalent alternative courses during the entire MBA programme.

9.3 Horizontal or Lateral Credit Transfer:

1. When a learner successfully completes the courses included in an academic program at a certain level, he/she is allowed to transfer his/her credits in some of these courses to another same-level academic program having these courses in common. This is referred to as 'Horizontal or Lateral Credit Transfer'.
2. Horizontal or Lateral Credit Transfer shall be permitted **between the MBA and the MCA programme of SPPU** for the equivalent number of credits provided the courses are related to the MBA programme's PEOs and POs and are opted by the students during the period of his enrolment for the MBA programme.
3. The list of such courses eligible for Horizontal or Lateral Credit Transfer **between the MBA and the MCA programme of SPPU** shall be announced by the BOS/Faculty.
4. The upper limit for Horizontal or Lateral Credit Transfer shall be 6 credits.
5. Such transfer shall be permitted for Generic Elective (GE - IL) & Subject Elective (SE - IL) only.

9.4 Block Credit Transfer:

1. Block credit transfer refers to a group of courses, such as a completed certificate or diploma program that are accepted for transfer of credit into a degree program.
2. Block credit transfer shall be permitted for all **national and international professional certifications** achieved by the learner provided the **courses learning outcomes (CLOs)** are related to the **MBA programme's PEOs and POs** and are opted by the students **during the period of his enrolment for the MBA programme**. The institute shall verify the linkages between the CLOs and the MBA PEOs and POs.
3. Such transfer shall be permitted for Generic Elective (GE - IL) & Subject Elective (SE - IL) courses ONLY.

9.5 Credit Transfer for MOOCs:

1. Learners are encouraged to opt for MOOCs (Massive Online Open Courses) through **SWAYAM, NPTEL, EdX, Coursera, Udemy** as a part of ASCC.
2. Priority shall be given to the SWAYAM platform. If a course is not available of SWAYAM, other online platforms may be used.
3. Not more than 20% of the total credits (22 Credits) shall be earned through the MOOCs.
4. Not more than 20% of the credits per semester (6 credits) per semester shall be earned through the MOOCs.
5. Since MOOC is a guided self study course 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
6. Students shall apply to the Director / Head of the Department / other designated competent academic authority of the institute in advance and seek permission for seeking credit transfer for the proposed MOOCs, he/she wishes to pursue.
7. Online courses of SWAYAM or equivalent platform shall be allowed if:
 - a) There is non-availability of suitable teaching staff for running a course in the Institution or
 - b) The facilities for offering the elective papers (courses), sought for by the students are not on offer in the Institution, but are available on the SWAYAM or equivalent platform.
8. Evaluation of MOOCs through SWAYAM:
 - 8.1 In case of SWAYAM, the students shall be evaluated as a part of the MOOC itself by the host institution (i.e. institution who has launched the MOOC through SWAYAM).
 - 8.2 The evaluation should be based on predefined norms and parameter and shall be based on a concurrent comprehensive evaluation throughout the length and breadth of course based on specified instruments like discussions, forms, quizzes, assignments, sessional examinations and final examination.
 - 8.3 After conduct of the examination and completion of the evaluation, the host institution shall award marks/grade as per the evaluation scheme announced and communicate the marks/grade to the students as well the parent institution of the student, within 4 weeks from the date of completion of the final examination.
 - 8.4 The parent institution shall, incorporate the marks/grade obtained by the student, as communicated by the Host Institution of the SWAYAM course in the marks sheet of the student that counts for final award of the degree/diploma by the University with the proviso that the programs in which Lab/Practical Component is

involved, the parent institution will evaluate the students for the practical/Lab component and accordingly incorporate these marks/grade in the overall marks/grade.

- 8.5 A certificate regarding successful completion of the MOOCs course shall be signed by the PI and issued through the Host Institution and sent to the Parent Institution.
9. Evaluation of MOOCs through EdX, Coursera, Udemy:
- 9.1 The concurrent comprehensive evaluation conducted by EdX, Coursera, Udemy may be adopted by the institute and the institute may accordingly incorporate these marks/grade in the overall marks/grade for the course.
- 9.2 Alternatively, the institute may carry out a concurrent comprehensive evaluation of such students who undertake MOOCs through the EdX, Coursera, Udemy platform.

9.6 Professional Certification Programmes:

1. Learners may opt for Professional Certification Programmes as a part of ASCC. These Professional Certification Programmes shall be offered by National, International organizations, Apex bodies, Chambers of Commerce, Professional certifying bodies, E-learning companies of repute.
2. Not more than 20% of the total credits (22 Credits) shall be earned through the Professional Certification Programmes.
3. Not more than 20% of the credits per semester (6 credits) per semester shall be earned through the Professional Certification Programmes.
4. Students shall apply to the Director / Head of the Department / other designated competent academic authority of the institute in advance and seek permission for seeking credit transfer for the proposed Professional Certification Programmes, he/she wishes to pursue.
5. For Professional Certification Programmes, 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
6. A valid certificate regarding successful completion of the Professional Certification Programmes shall be submitted by the learner to the institute for claiming the 2 credits.
7. Indicative list is provided below -
 - i. Business English Certificate (Cambridge) / IELTS / TOEFL Certification
 - ii. Foreign Language Certification Equivalent to A1/A2 or above
 - iii. Google / MicroSoft / Oracle / Sun Certification
 - iv. NSE / BSE / NISM Certification
 - v. SAP Financial Accounting (FI) / Controlling (CO) / Sales and Distribution (SD) / Production Planning (PP) / Materials Management (MM) / Quality Management (QM) / Human Capital Management (HCM) / CRM Certification
 - vi. Six Sigma Certification
 - vii. ISO Certification (as an auditor)
 - viii. Tally ERP Certification
 - ix. NLP Certification

9.7 Start-up: Launching and Sustaining' program⁶: AICTE has launched the 'Start-up: Launching and Sustaining' program to promote entrepreneurship.

Learners opting for the 'Start-up: Launching and Sustaining' program shall earn the credits for the Generic Core (GC), Subject Core (SC) & Generic Elective (GE - UL); with the minimum desired CGPA.

However, these learners shall skip the Generic Elective (GE - IL) & Subject Elective (SE - IL) courses and instead opt for the Milestone based concurrent comprehensive evaluation for 'Start-up: Launching and Sustaining' Programme as per the AICTE Policy laid down in this regard.

Such students shall have to fulfill two out of the five measurable outcomes as below:

- a) **Funding:** Student Start-up should acquire at least 1-5 Lakhs INR of start-up funding as capital/convertible equity or other similar equity instruments used in start-up investments.

⁶ As per AICTE Policy approved by the Executive Committee in its 100th meeting held on June 28, 2016

- b) **Employment Created:** At least 5 additional jobs, (other than student founders) with a minimum of 15,000 CTC/employee/per month, paid for one full year, should be created by the student start-up.
- c) **Revenues Generated:** At least 5 Lakhs INR of Cumulative revenues should be generated by the student start-up as per Audited Profit and Loss Statements.
- d) **Surplus Generated:** At least 5 Lakhs INR of Cumulative surpluses should be generated by the student start-up as per Audited Profit and Loss Statements.
- e) **Patent Application or Granted:** The student start-up should have applied for registration of One Indian or International Patent OR such patent should be granted to the start-up

Other modalities and guidelines as per the AICTE policy shall be adhered to.

Students opting for the 'Start-up: Launching and Sustaining' program have the flexibility to create 'graduation outcomes' within 4 years of registering under the 'Start-up: Launching and Sustaining' program.

It would be mentioned in the Academic Transcript that the student has graduated through the 'Start-up: Launching and Sustaining' Graduation Programme.

Students who join only the 'Start-up: Launching and Sustaining' stream and are either unable to meet the requisite graduation outcomes or unable to continue for any reason can opt to fall back into the academic stream through the regular registration of the University Semesters.

SPPU may suitably verify the details of fulfilment of the two out of the five measurable outcomes listed above.

9.8 Additional Specialization:

- 1. A student who has earned the MBA with a MAJOR Specialization may enroll for additional specialization after passing out the regular MBA programme.
- 2. Additional specialization can be pursued in the MAJOR Specialization ONLY. i.e. Additional specialization cannot be pursued in the Specializations which are listed as MINOR ONLY.
- 3. Such students will be exempted from appearing for all the generic core and generic elective courses.
- 4. Such students shall have to appear for the subject core and subject elective courses of the additional specialization that they have opted for.
- 5. Students opting for MAJOR + MINOR specialization combination are NOT eligible to enroll for additional specialization.

10.0 Passing Standards:

- 1. A student shall be said to have earned the credits for a course if he/she earns minimum 40% marks.
- 2. Formative Evaluation and Summative Evaluation shall be separate heads of passing.

10.1 Grading System: The Indirect and Absolute Grading System shall be used, i.e. the assessment of individual Courses in the concerned examinations will be on the basis of marks. However the marks shall later be converted into Grades by a defined mechanism wherein the overall performance of the learners can be reflected after considering the Credit Points for any given course. The overall evaluation shall be designated in terms of Grade. The 10 point standard scale mandated by UGC shall be used.

The performance of a student will be evaluated in terms of two indices, viz.

- (a) Semester Grade Point Average (SGPA) which is the Grade Point Average for a semester
- (b) Cumulative Grade Point Average (CGPA) which is the Grade Point Average for all the completed semesters at any point in time

10.2 Scaling Down of CCE Scores: The marks obtained by the student for the CCE shall be scaled down, to the required extent, if percentage of the marks of CCE exceeds the percentage of marks scored in the ESE (End Semester University Examination) by 25% for the respective course.

10.3 Degree Requirements: The degree requirements for the MBA programme are completion of minimum 110 credits.

10.4 Maximum Attempts per Course:

1. A student shall earn the credits for a given course in maximum FOUR attempts.
2. Dropping a course and opting for another equivalent course can be done **ONLY** in the case of Generic Elective (GE - UL) , Generic Elective (GE - IL) and Subject Elective (SE - IL).
3. If a student drops a course and opts for another course in lieu of the dropped course the attempts utilized for the dropped course shall be included in the maximum 4 attempts available to earn the credits for a course.
4. The facility of dropping a course and opting for a new course in lieu of the dropped course shall be availed by the student only once per course during these four attempts available to him.
5. A student may drop at the most 4 courses (GE – UL / GE – IL / SE – IL).

10.5 Maximum Duration for completion of the Programme: The candidates shall complete the MBA Programme **within 4 years** from the date of admission.

10.6 Grade Improvement:

1. A Candidate who has secured any grade other than F (i.e. passed the MBA programme) and desires to avail the Grade Improvement option, may apply under Grade Improvement Scheme within five years from passing that Examination.
2. He/she can avail not more than three attempts, according to the syllabus in existence, for grade improvement.
3. He /she shall appear for University Evaluation of **at least 1/3rd** of the Generic Core / Subject Core Courses (except SIP) for the purpose of Grade Improvement.
4. Generic Elective (GE - UL), Generic Elective (GE - IL) & Subject Elective (SE - IL) cannot be selected for Grade Improvement.

11. Miscellaneous

11.1 Attendance: The student must meet the requirement of **75% attendance per semester per course** for grant of the term. The institute may condone the shortage in attendance in exceptional circumstances, up to a maximum of 10%. The institute shall have the right to withhold the student from appearing for examination of a specific course if the above requirement is not fulfilled.

11.2 Medium of Instruction: The medium of Instruction & Evaluation shall be English.

11.3 LTP indicated in the syllabus is indicative.

11.4 Numbers indicated against each unit indicate L+T. These are indicative in nature. Course teachers may modify based on teaching & assessment, evaluation methods adopted.

11.5 Text Books and Reference Books refer to latest edition.

12. Detailed Course List for each category of courses is provided in Annexure I.

13. Detailed syllabus of each course is provided in Annexure II.

ANNEXURE I

GENERIC CORE (GC) COURSES – 3 Credits Each			
50 Marks CCE, 50 Marks ESE			
Course No.	Course Code	Course	Semester
101	GC – 01	Managerial Accounting	I
102	GC – 02	Organizational Behaviour	I
103	GC – 03	Economic Analysis for Business Decisions	I
104	GC – 04	Business Research Methods	I
105	GC – 05	Basics of Marketing	I
106	GC – 06	Digital Business	I
201	GC – 07	Marketing Management	II
202	GC – 08	Financial Management	II
203	GC – 09	Human Resources Management	II
204	GC – 10	Operations & Supply Chain Management	II
301	GC – 11	Strategic Management	III
302	GC – 12	Decision Science	III
303	GC – 13	Summer Internship Project*	III
401	GC – 14	Enterprise Performance Management	IV
402	GC – 15	Indian Ethos & Business Ethics	IV

* Six Credits

GENERIC ELECTIVES UNIVERSITY LEVEL (GE – UL) COURSES – 2 Credits Each			
00 Marks CCE , 50 Marks ESE			
Course #	Course Code	Course	Semester
Any 3 courses to be selected from the following list in Semester I			
107	GE - UL - 01	Management Fundamentals	I
108	GE - UL - 02	Indian Economy	I
109	GE - UL - 03	Entrepreneurship Development	I
110	GE - UL - 04	Essentials of Psychology for Managers	I
111	GE - UL - 05	Legal Aspects of Business	I
112	GE - UL - 06	Demand Analysis & Forecasting	I
Any 3 courses to be selected from the following list in Semester II			
207	GE - UL - 07	Contemporary Frameworks in Management	II

1	SC – RABM – 01	Agriculture and Indian Economy	III
2	SC – RABM – 02	Rural Marketing	IV
Any 2 ELECTIVE courses to be selected from the following list – either in Semester III or Semester IV			
1	SE – RABM – 03	Rural Credit and Finance	III
2	SE – RABM – 04	Rural Marketing II	III
3	SE – RABM – 05	ICT for Agriculture Management	IV
4	SE – RABM – 06	Agri – Entrepreneurship	IV
Specialization – Pharma & Health Care Management (PHCM)			
Course No.	Course Code	Course	Semester
2 CORE courses as per the following list – in Semester III or Semester IV			
1	SC – PHCM- 01	Fundamentals of Pharma and Healthcare Management	III
2	SC – PHCM- 02	Pharma and healthcare regulatory environment in India	IV
Any 2 ELECTIVE courses to be selected from the following list – either in Semester III or Semester IV			
1	SE – PHCM- 03	Strategic Planning & Healthcare Management	III
2	SE – PHCM- 04	Information Technology in Pharma and Healthcare	III
3	SE – PHCM- 05	Pharmaceutical Import and Export	IV
4	SE – PHCM- 06	Entrepreneurship in Pharma and Healthcare	IV
Specialization – Tourism & Hospitality Management (THM)			
Course No.	Course Code	Course	Semester
2 CORE courses as per the following list – in Semester III & Semester IV			
1	SC – THM – 01	Fundamental of Hospitality Management	III
2	SC – THM - 02	Tourism & Travel Management	IV
Any 2 ELECTIVE courses to be selected from the following list – either in Semester III or Semester IV			
1	SE – THM - 03	Event Management	III
2	SE – THM - 04	Tourism Planning & Development	III
3	SE – THM - 05	Strategic Hospitality Management	IV
4	SE – THM - 06	Revenue Management	IV

ANNEXURE II – COURSE WISE DETAILED SYLLABUS

Generic Core Courses (Compulsory) – Semester I & II		
Semester I		101 – Managerial Accounting
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO101.1	REMEMBERING	DESCRIBE the basic concepts related to Accounting, Financial Statements, Cost Accounting, Marginal Costing, Budgetary Control and Standard Costing
CO101.2	UNDERSTANDING	EXPLAIN in detail, all the theoretical concepts taught through the syllabus.
CO101.3	APPLYING	PERFORM all the necessary calculations through the relevant numerical problems.
CO101.4	ANALYSING	ANALYSE the situation and decide the key financial as well as non-financial elements involved in the situation.
CO101.5	EVALUATING	EVALUATE the financial impact of the decision.

- 1. Basic Concepts:** Forms of Business Organization. Meaning and Importance of Accounting in Business Organization, Basic concepts and terms used in accounting, Capital & Revenue Expenditure, Capital & Revenue Receipts, Users of Accounting Information. Accounting Concepts and Conventions, Fundamental Accounting Equation, Journal, Ledger and Trial Balance. **(4+2)**
- 2. Financial Statements:** Meaning of Financial Statements, Importance and Objectives of Financial Statements. Preparation of Final Accounts of sole proprietary firm. **(7 + 2)**
- 3. Cost Accounting:** Basic Concepts of Cost Accounting, Objectives, Importance and Advantages of Cost Accounting, Cost Centre, Cost Unit, Elements of Cost, Classification and Analysis of Costs, Relevant and Irrelevant Costs, Differential Costs, Sunk Cost, Opportunity Cost, Preparation of Cost Sheet. **(8 + 2)**
- 4. Short Term Business Decision Techniques – Marginal Costing:** Meaning, Principles, Advantages and Limitations, Contribution, P/V Ratio, Break-Even Point (BEP), Cost Volume Profit (CVP) Analysis, Short Term Business Decisions–Product Mix Decisions, Make or Buy (Outsourcing) Decisions, Accept or Reject Special Order Decisions, Shutting Down Decisions. **(8 + 2)**
- 5. Exercising Control – Budgetary Control & Standard Costing:** **Budgetary Control:** Meaning of Budget and Budgeting, Importance, Advantages and Disadvantages, Functional Budgets–Raw Material Purchase & Procurement Budget, Cash Budget and Flexible Budget. **Standard Costing:** Meaning, Importance, Advantages and Disadvantages, Cost Variance Analysis. Material Variances– Material Cost Variance, Material Rate Variance, Material Usage Variance, Material Mix Variance and Material Yield Variance. Labour Variances –Labour Cost Variance, Labour Rate Variance, Labour Efficiency Variance, Labour Mix Variance, Labour Idle Time Variance and Labour Yield Variance. **(8 + 2)**

Note: Numerical Problems will be asked on the following –

1. Final Accounts of Sole Proprietary Firm
2. Preparation of Cost Sheet
3. Marginal Costing and Short-Term Business Decisions
4. Raw Material Purchase & Procurement Budget, Cash Budget, Flexible Budget
5. Material Variances and Labour Variances

Suggested Text Books:

1. Management Accounting, Khan and Jain, Tata McGraw Hill
2. Fundamentals of Management Accounting, H. V.Jhamb
3. Managerial Accounting, Dr. Mahesh Abale and Dr. Shriprakash Soni
4. Management Accounting, Dr. Mahesh Kulkarni

Suggested Reference Books:

1. Financial Cost and Management Accounting, P.Periasamy
2. Financial Accounting for Management, Shankarnarayanan Ramanath, CENGAGE Learning
3. Accounting For Management, S. N. Maheshwari
4. Management Accounting, MadhuVij

5. Fundamentals of Management Accounting, H. V.Jhamb
6. Cost and Management Accounting, M. N. Arora
7. Financial Accounting for Managers, Sanjay Dhmiya, Pearson Publications
8. Management Accounting, Mr. Anthony Atkinson, Robert Kaplan, Pearson
9. Accounting For Management, Jawarhar Lal
10. Accounting, Shukla Grewal
11. Management Accounting, Ravi Kishore
12. Accounting for Managers, Dearden and Bhattacharya

Semester I		102 - Organizational Behaviour
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO102.1	REMEMBERING	DESCRIBE the major theories, concepts, terms, models, frameworks and research findings in the field of organizational behavior.
CO102.2	UNDERSTANDING	EXPLAIN the implications of organizational behavior from the perspectives of employees, managers, leaders and the organization.
CO102.3	APPLYING	MAKE USE OF the Theories, Models, Principles and Frameworks of organizational behavior in specific organizational settings.
CO102.4	ANALYSING	DECONSTRUCT the role of individual, groups, managers and leaders in influencing how people behave and in influencing organizational culture at large.
CO102.5	EVALUATING	FORMULATE approaches to reorient individual, team, managerial and leadership behaviour in order to achieve organizational goals.
CO102.6	CREATING	ELABORATE UPON the challenges in shaping organizational behavior, organizational culture and organizational change.

1. **Fundamentals of OB:** Evolution of management thought , five functions of management, Definition, scope and importance of OB, Relationship between OB and the individual, Evolution of OB, Models of OB (Autocratic, Custodial, Supportive, Collegial & SOBC), Limitations of OB. **Values, Attitudes and Emotions:** Introduction, Values, Attitudes, Definition and Concept of Emotions, Emotional Intelligence - Fundamentals of Emotional Intelligence, The Emotional Competence Framework, Benefits of Emotional Intelligence , difference between EQ and IQ. **Personality & Attitude:** Definition Personality, importance of personality in Performance, The Myers-Briggs Type Indicator and The Big Five personality model, Johari Window , Transaction Analysis , Definition Attitude Importance of attitude in an organization, Right Attitude, Components of attitude, Relationship between behavior and attitude. **(7+2)**
2. **Perception:** Meaning and concept of perception, Factors influencing perception, Selective perception, Attribution theory, Perceptual process, Social perception (stereotyping and halo effect). **Motivation:** Definition & Concept of Motive & Motivation, The Content Theories of Motivation (Maslow's Need Hierarchy & Herzberg's Two Factor model Theory), The Process Theories (Vroom's expectancy Theory & Porter Lawler model), Contemporary Theories- Equity Theory of Work Motivation. **(8+2)**
3. **Group and Team Dynamics :** The Meaning of Group & Group behavior & Group Dynamics, Types of Groups, The Five -Stage Model of Group Development Team Effectiveness & Team Building. **Leadership:** Introduction, Managers V/s Leaders. Overview of Leadership- Traits and Types, Theories of Leadership.- Trait and Behavioral Theories. **(8+2)**
4. **Conflict Management** – Definition and Meaning, Sources of Conflict, Types of Conflict, Conflict Management Approaches. **Organizational Culture:** Meaning and Nature of Organization Culture - Origin of Organization Culture, Functions of Organization Culture, Types of Culture, Creating and Maintaining Organization Culture, Managing Cultural Diversity. **(7+2)**
5. **Stress at workplace:** Work Stressors – Prevention and Management of stress – Balancing work and Life, workplace spirituality. **Organizational Change:** Meaning, definition & Nature of Organizational Change, Types of Organizational change, Forces that acts as stimulants to change. Kurt Lewin's- Three step model, How to overcome the Resistance to Change, Methods of Implementing Organizational Change, Developing a Learning Organization. **(5+2)**

Note: Evolution of Management thought to OB and functions of management to be covered in brief as a background interface to the subject only

Suggested Text Books:

1. Organizational Behaviour, Robins
2. Organizational Behaviour, Nelson & Quick
3. Organizational Behaviour, Fred Luthans
4. Organizational Behaviour, Stephen Robins, Timothy Judge, Neharika Vohra
5. Organizational Behaviour, M N Mishra
6. Organizational Behaviour, K Ashwathappa

Suggested Reference Books

1. Understanding OB, Uday Pareek
2. Change & Knowledge Management, Janakiram, Ravindra and Shubha Murlidhar
3. Human Resource Management, Nkomo, CENGAGE Learning

Semester I		103 – Economic Analysis for Business Decisions
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO103.1	REMEMBERING	DEFINE the key terms in micro-economics.
CO103.2	UNDERSTANDING	EXPLAIN the key terms in micro-economics, from a managerial perspective.
CO103.3	APPLYING	IDENTIFY the various issues in an economics context and DEMONSTRATE their significance from the perspective of business decision making.
CO103.4	ANALYSING	EXAMINE the inter-relationships between various facets of micro-economics from the perspective of a consumer, firm, industry, market, competition and business cycles.
CO103.5	EVALUATING	DEVELOP critical thinking based on principles of micro-economics for informed business decision making.
CO103.6	CREATING	ANTICIPATE how other firms in an industry and consumers will respond to economic decisions made by a business, and how to incorporate these responses into their own decisions.

1. **Managerial Economics:** Concept of Economy, Economics, Microeconomics, Macroeconomics. Nature and Scope of Managerial Economics, Managerial Economics and decision-making. Concept of Firm, Market, Objectives of Firm: Profit Maximization Model, Economist Theory of the Firm, Cyert and March's Behavior Theory, Marris' Growth Maximisation Model, Baumol's Static and Dynamic Models, Williamson's Managerial Discretionary Theory. **(6+1)**
2. **Utility & Demand Analysis:** Utility – Meaning, Utility analysis, Measurement of utility, Law of diminishing marginal utility, Indifference curve, Consumer's equilibrium - Budget line and Consumer surplus. Demand - Concept of Demand, Types of Demand, Determinants of Demand, Law of Demand, Elasticity of Demand, Exceptions to Law of Demand. Uses of the concept of elasticity. Forecasting: Introduction, Meaning and Forecasting, Level of Demand Forecasting, Criteria for Good Demand Forecasting, Methods of Demand Forecasting, Survey Methods, Statistical Methods, Qualitative Methods, Demand Forecasting for a New Products. (Demand Forecasting methods - Conceptual treatment only numericals not expected) **(8+1)**
3. **Supply & Market Equilibrium:** Introduction, Meaning of Supply and Law of Supply, Exceptions to the Law of Supply, Changes or Shifts in Supply. Elasticity of supply, Factors Determining Elasticity of Supply, Practical Importance, Market Equilibrium and Changes in Market Equilibrium. Production Analysis: Introduction, Meaning of Production and Production Function, Cost of Production. Cost Analysis: Private costs and Social Costs, Accounting Costs and Economic costs, Short run and Long Run costs, Economies of scale, Cost-Output Relationship - Cost Function, Cost-Output Relationships in the Short Run, and Cost-Output Relationships in the Long Run. **(8+1)**
4. **Revenue Analysis and Pricing Policies:** Introduction, Revenue: Meaning and Types, Relationship between Revenues and Price Elasticity of Demand, Pricing Policies, Objectives of Pricing Policies, Cost plus pricing. Marginal cost pricing. Cyclical pricing. Penetration Pricing. Price Leadership, Price Skimming. Transfer pricing. Price Determination

under Perfect Competition- Introduction, Market and Market Structure, Perfect Competition, Price-Output Determination under Perfect Competition, Short-run Industry Equilibrium under Perfect Competition, Short-run Firm Equilibrium under Perfect Competition, Long-run Industry Equilibrium under Perfect Competition, Long-run Firm Equilibrium under Perfect Competition. Pricing Under Imperfect Competition- Introduction, Monopoly, Price Discrimination under Monopoly, Bilateral Monopoly, Monopolistic Competition, Oligopoly, Collusive Oligopoly and Price Leadership, Pricing Power, Duopoly, Industry Analysis. Profit Policy: Break Even analysis. Profit Forecasting. Need for Government Intervention in Markets. Price Controls. Support Price. Preventions and Control of Monopolies. System of Dual Price. **(11+1)**

5. **Consumption Function and Investment Function:** Introduction, Consumption Function, Investment Function, Marginal efficiency of capital and business expectations, Multiplier, Accelerator. Business Cycle: Introduction, Meaning and Features, Theories of Business Cycles, Measures to Control Business Cycles, Business Cycles and Business Decisions. **(7+1)**

Suggested Text Books:

1. Managerial Economics, Peterson, Lewis, Sudhir Jain, Pearson, Prentice Hall
2. Managerial Economics, D. Salvatore, McGraw Hill, New Delhi.
3. Managerial Economics, Pearson and Lewis, Prentice Hall, New Delhi
4. Managerial Economics, G.S. Gupta, T M H, New Delhi.
5. Managerial Economics, Mote, Paul and Gupta, T M H, New Delhi.

Suggested Reference Books:

1. Managerial Economics, Homas and Maurice, Tata McGraw Hill
2. Managerial Economics - Analysis, Problems and Cases, P.L. Mehta, Sultan Chand Sons, New Delhi.
3. Managerial Economics, Varshney and Maheshwari, Sultan Chand and Sons, New Delhi.
4. Managerial Economics, D.M. Mithani
5. Managerial Economics, Joel Dean, Prentice Hall, USA.
6. Managerial Economics by H L Ahuja, S Chand & Co. New Delhi.

Semester I		104 - Business Research Methods
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO104.1	REMEMBERING	DEFINE various concepts & terms associated with scientific business research.
CO104.2	UNDERSTANDING	EXPLAIN the terms and concepts used in all aspects of scientific business research.
CO104.3	APPLYING	MAKE USE OF scientific principles of research to SOLVE contemporary business research problems.
CO104.4	ANALYSING	EXAMINE the various facets of a research problem and ILLUSTRATE the relevant aspects of the research process from a data driven decision perspective.
CO104.5	EVALUATING	JUDGE the suitability of alternative research designs, sampling designs, data collection instruments and data analysis options in the context of a given real-life business research problem from a data driven decision perspective.
CO104.6	CREATING	FORMULATE alternative research designs, sampling designs, data collection instruments, testable hypotheses, data analysis strategies and research reports to address real-life business research problems.

1. Foundations of Research: Definition of Research, Need of business research, Characteristics of scientific research method, Typical Research applications in business and management. **Questions in Research:** Formulation of Research Problem – Management Question – Research Question – Investigation Question. **The process of business research:** Literature review - Concepts and theories - Research questions - Sampling - Data collection - Data analysis - Writing up - The iterative nature of business research process, Elements of a Research Proposal. **Practical considerations:** Values – researcher & organization. Ethical principles - Harm to participants, Lack of informed consent, Invasion of privacy,

Deception, Reciprocity and trust, Affiliation and conflicts of interest. Legal considerations - Data management, Copyright. **(6+1)**

2. Research Design: Concept, Features of a robust research design. Exploratory, Descriptive, Quasi Experimental, Experimental research designs, Concept of Cause and Effect, Difference between Correlation and causation. Types of Variables – Independent, Dependent, concomitant, mediating, moderating, extraneous variables, Basic knowledge of Treatment & Control group, Case study design. Cross-sectional and Longitudinal designs, Qualitative and Quantitative research approaches, Pros and Cons of various designs, choice of a research design. **Hypothesis:** Definition, research Hypothesis, Statistical hypothesis, Null hypothesis, Alternative Hypothesis, Directional Hypothesis, Non-directional hypothesis. Qualities of a good Hypothesis, Framing Null Hypothesis & Alternative Hypothesis. Concept of Hypothesis Testing - Logic & Importance. **(7+1)**

3. Data & Measurement: Meaning of data, Need for data. **Secondary Data:** Definition, Sources, Characteristics, Advantages and disadvantages over primary data, Quality of secondary data - Sufficiency, adequacy, reliability and consistency. **Primary Data:** Definition, Advantages and disadvantages over secondary data. **Measurement:** Concept of measurement, What is measured? Problems in measurement in management research - Validity and Reliability, Levels of measurement - Nominal, Ordinal, Interval, Ratio. **Attitude Scaling Techniques:** Concept of Scale – Rating Scales viz. Likert Scales, Semantic Differential Scales, Constant Sum Scales, Graphic Rating Scales – Ranking Scales – Paired Comparison & Forced Ranking - Concept and Application. **Questionnaire:** Questionnaire Construction - Personal Interviews, Telephonic survey Interviewing, Online questionnaire tools. **(8+1)**

4. Sampling: Basic Concepts: Defining the Universe, Concepts of Statistical Population, Sample, Characteristics of a good sample. Sampling Frame, determining the sample frame, Sampling errors, Non Sampling errors, Methods to reduce the errors, Sample Size constraints, Non Response. **Probability Sample:** Simple Random Sample, Systematic Sample, Stratified Random Sample, Area Sampling & Cluster Sampling. **Non Probability Sample:** Judgment Sampling, Convenience Sampling, Purposive Sampling, Quota Sampling & Snowballing Sampling methods. **Determining size of the sample:** Practical considerations in sampling and sample size, (sample size determination formulae and numericals not expected) **(9+1)**

5. Data Analysis & Report Writing: Data Analysis: Cleaning of Data, Editing, Coding, Tabular representation of data, frequency tables, Univariate analysis - Interpretation of Mean, Median Mode; Standard deviation, Coefficient of Variation. **Graphical Representation of Data:** Appropriate Usage of Bar charts, Pie charts, Line charts, Histograms. **Bivariate Analysis:** Cross tabulations, Bivariate Correlation Analysis - meaning & types of correlation, Karl Person's coefficient of correlation and spearman's rank correlation. Chi-square test including testing hypothesis of association, association of attributes. **Linear Regression Analysis:** Meaning of regression, Purpose and use, Linear regression; Interpretation of regression co-efficient, Applications in business scenarios. **Test of Significance:** Small sample tests: t (Mean, proportion) and F tests, Z test. Non-parametric tests: Binomial test of proportion, Randomness test. Analysis of Variance: One way and two-way Classifications. **Research Reports:** Structure of Research report, Report writing and Presentation. **(10+1)**

Note:

1. It is desirable to use MS Excel / SPSS / Systat for delivery of unit 5.
2. For unit 5, Formulae and calculations are not expected. Interpretation of the given data/test outcomes is expected for appropriate managerial decisions / inferences.

Suggested Text Books:

1. Business Research Methods, Donald Cooper & Pamela Schindler, TMGH.
2. Business Research Methods, Alan Bryman & Emma Bell, Oxford University Press
3. Research Methods for Social Work, Allen, Earl R. Babbie, Cengage
4. Research Methods in Business Studies: A Practical Guide, Pervez Ghauri, Dr Kjell Gronhaug, FT Prentice Hall

Suggested Reference Books:

1. Business Research Methods, William G. Zikmund, Barry J. Babin, Jon C. Carr, Mitch Griffin, Cengage Learning
2. Approaches to social research, Royce Singleton, Bruce C. Straits, Margaret Miller Straits, Oxford University Press
3. Research Methods: The Basics, Nicholas S. R. Walliman, Nicholas Walliman, Routledge,
4. Research Methodology In Management, Dr.V.P.Michael

Semester I		105 – Basics of Marketing
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO105.1	REMEMBERING	RECALL and REPRODUCE the various concepts, principles, frameworks and terms related to the function and role of marketing.
CO105.2	UNDERSTANDING	DEMONSTRATE the relevance of marketing management concepts and frameworks to a new or existing business across wide variety of sectors and ILLUSTRATE the role that marketing plays in the 'tool kit' of every organizational leader and manager.
CO105.3	APPLYING	APPLY marketing principles and theories to the demands of marketing function and practice in contemporary real world scenarios.
CO105.4	ANALYSING	EXAMINE and LIST marketing issues pertaining to segmentation, targeting and positioning, marketing environmental forces, consumer buying behavior, marketing mix and Product Life Cycle in the context of real world marketing offering (commodities, goods, services, e-products/ e-services).
CO105.5	EVALUATING	EXPLAIN the interrelationships between segmentation, targeting and positioning, marketing environment, consumer buying behavior, marketing mix and Product Life Cycle with real world examples.
CO105.6	CREATING	DISCUSS alternative approaches to segmentation, targeting and positioning, the marketing environment, consumer buying behavior, marketing mix and Product Life Cycle in the context of real world marketing offering (commodities, goods, services, e-products/ e-services.).

1. Introduction to Marketing: Definition & Functions of Marketing- Scope of Marketing, **Evolution of Marketing**, Core concepts of marketing – Need, Want, Demand, Customer Value, Exchange, Customer Satisfaction, Customer Delight, Customer loyalty, Concepts of Markets, Marketing V/S Market Competition, Key customer markets, market places, market spaces, Meta-markets, Digital Markets, Brick & Click Model. Impact of Globalization, Technology and Social Responsibility on Marketing. New Consumer Capabilities, New Company Capabilities. Functions of Marketing Manager. Linkage of Marketing functions with all functions in the organization. Company orientation towards market place: Product – Production - Sales – Marketing –Societal – Relational, Holistic Marketing Orientation. Selling versus marketing. Concept of Marketing Myopia. **Marketing Process, Understanding Marketing as Creating, Communicating, and Delivering Value (5+2)**

2. Marketing Environment: Concept of Environment, Macro Environment & Micro Environment – Components and characteristics, Needs & Trends, Major forces impacting the Macro Environment & Micro Environment, Need for analyzing the Marketing Environment. Analyzing the Political, Economic, Socio-cultural, Technical and Legal Environment. Demographics. **(5+2)**

3. Segmentation, Target Marketing & Positioning: Segmentation - Concept, Need & Benefits. Geographic, Demographic, Psychographic, Behavioural bases of segmentation for consumer goods and services. Bases for segmentation for business markets. Levels of segmentation, Criteria for effective segmentation. **Market Potential & Market Share**. Target Market - Concept of Target Markets and criteria for selection. Segment Marketing, Niche & Local Marketing, Mass marketing, Long Tail Marketing. Positioning - Concept of differentiation & positioning, Value Proposition & Unique Selling Proposition. **(8+2)**

4. Consumer Behavior: Meaning & importance of consumer behavior, Comparison between Organizational Buying behavior and consumer buying behavior, Buying roles, Five steps consumer buyer decision process – Problem Recognition, Information Search, Evaluation of Alternatives, Purchase Decision, Post Purchase behavior. Moment of Truth, Zero Moment of Truth, ZMOT, Moderating effects on consumer behavior. **(7+2)**

5. Marketing Mix: Origin & Concept of Marketing Mix, 7P's - Product, Price, Place, Promotion, People, Process, Physical evidence. **Product Life Cycle:** Concept & characteristics of Product Life Cycle (PLC), Relevance of PLC, Types of PLC and Strategies across stages of the PLC. **(10+2)**

Note: Real world examples / cases are expected to be analyzed in the class as well as included in the examination.

Suggested Text Books:

1. Marketing Management, Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, Pearson
2. Marketing Management, Rajan Saxena, TMGH

3. Marketing, Lamb Hair Sharma, Mc Daniel, Cengage Learning

Suggested Reference Books:

1. Principles of Marketing, Philip Kotler, Gary Armstrong, Prafulla Agnihotri, Ehasan Haque, Pearson
2. Marketing Management- Text and Cases, Tapan K Panda, Excel Books
3. Marketing Management, Ramaswamy & Namakumari, Macmillan.
4. Marketing Whitebook

Semester I		106 – Digital Business
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO106.1	REMEMBERING	DESCRIBE the conceptual framework of e commerce, mobile commerce and social commerce.
CO106.2	UNDERSTANDING	SUMMARIZE the impact of information, mobile, social, digital, IOT and related technologies on society, markets & commerce.
CO106.3	APPLYING	ILLUSTRATE value creation & competitive advantage in a digital Business environment.
CO106.4	ANALYSING	EXAMINE the changing role of intermediaries, changing nature of supply chain and payment systems in the online and offline world.
CO106.5	EVALUATING	ELABORATE upon the various types of digital business models and OUTLINE their benefits and limitations.
CO106.6	CREATING	DISCUSS the various applications of Digital Business in the present day world.

1. **Electronic Commerce:** The Digital Revolution and Society, The Digital and Social Worlds - The Digital Economy, The Digital Enterprise, Virtual Communities, Online Communities, Defining Electronic Commerce, Emerging E-Commerce Platforms. E-Business, Electronic Markets and Networks; The Content and Framework of E-Commerce, Classification of E-Commerce by the Nature of the Transactions and the Relationships Among Participants, E-Commerce Business Models, Integrating the Marketplace with the Marketspace, Web 2.0. Drivers, Benefits and Limitations of E-Commerce, Impact of E-Commerce on business, government, customers, citizens and society. **(7+2)**

2. **Mobile Commerce, Social Commerce and IoT:** Mobile Commerce, Attributes Applications and Benefits of M-Commerce, Mobile Marketing - Shopping and Advertising. **Social Commerce:** Social Commerce, Social Business (Enterprise), Social Business Networks and Social Enterprise, Social Media, Platforms for Social Networking; Social Media Marketing, Enterprise 2.0, Improved Business Models. Entrepreneur Networks, Enterprise Social Networks, The Benefits and Limitations of Social Commerce, Benefits to Customers, Retailers, Employees, players in the ecosystem. Social Collaboration (Collaboration 2.0) - Essentials of Social Collaboration, Consumer-to-Consumer Electronic Commerce (C2C), Person-to-Person models. **Internet of Things:** Concept of IoT, Smart Homes and Appliances, Smart Cities, Smart Cars, Wearable Computing and Smart Gadgets. **(7+2)**

3. **Digital Business Ecosystem:** Electronic Commerce Mechanisms, Online Purchasing Process, E-Marketplaces - Types, Components and Participants, Disintermediation and Reintermediation; Customer Shopping Mechanisms - Webstores, Malls, and Portals, Webstores, Electronic Malls, Web (Information) Portals. **Intermediaries:** Roles of Intermediaries in E-Marketplaces, Merchant Solutions: Electronic Catalogs, Search Engines, and Shopping Carts, Electronic Catalogs, E-Commerce Search Activities, Auctions - Traditional Auctions Versus E-Auctions, Dynamic Pricing. **Changing Supply Chains:** Structure of the Supply Chain, EC Order Fulfillment Process, Speeding Up Deliveries, Partnering Efforts and Outsourcing Logistics, Order Fulfillment in Make-to- Order (MTO) and Mass Customization. **Digital Payments:** Smart Cards, Stored-Value Cards, EC Micropayments, Payment Gateways, Mobile Payments, Digital and Virtual Currencies, Security, Ethical, Legal, Privacy, and Technology Issues. **(7+2)**

4. **Digital Business Applications - I: Electronic Retailing:** B2C Electronic Retailing, Characteristics, Advantages, Limitations, E-Tailing Business Models, Classification of Models by Distribution Channel, Referring Directories, Malls with Shared Services. Social Shopping – Concept, Benefits and Drivers, Social Shopping Aids – Recommendations, Reviews, Ratings, and Marketplaces, Real-Time Online Shopping. The Online Versus Off-Line Competition, Click-and-Brick models,

Product and Service Customization and Personalization. **Fintech:** E-Banking, Mobile Banking, Pure Virtual Banks, Insurance, and Stock Trading, Other Mobile Finance Applications. **Digital Government:** Government-to-Citizens, Government-to-Business, Government-to-Government, Government-to-Employees Models, Internal Efficiency and Effectiveness, E-Government and Social Networking, M-Government. **E-Learning, E-Training, and E-Books:** Basics of E-Learning, Characteristics, Advantages, Limitations, Distance Learning and Online Universities, Online Corporate Training, Social Networks and E-Learning, E-Learning Management Systems, Electronic Books. **(7+2)**

5. **Digital Business Applications - II: Online Travel and Tourism Services:** Characteristics of Online Travel, Benefits, Limitations, and Competition in Online Travel Services. **E-Employment:** Online Job Market, Social Networks Based Job Markets, Social Recruiting, Virtual Job Fairs and Recruiting Events, Benefits and Limitations of the Electronic Job Market. **E-Health:** Definition, Electronic Medical Record Systems (EMR), Doctors' System, Patients Services, Medical Devices and Patients Surveillance. **Entertainment, Media & Gaming:** Service Industry Consumer Applications. Digital Products, Internet TV and Internet Radio, Social Television (TV) Mobile Entertainment, Mobile Marketing, Mobile Streaming Music and Video Providers, Entertainment in Cars; Gaming - Mobile Games, Social Games and Gamification, Business of Social Games, Educational Social Games; Mobile Gambling, Mobility and Sports; Social Entertainment. **(7+2)**

Note: The focus of the entire course should be on business issues and not merely on technology.

Suggested Text Books:

1. Introduction to E Commerce & Social Commerce, Turban E , Whiteside J , King D, Outland J Springer
2. E-Business and E-Commerce Management- Strategy, Implementation and Practice, Dave Chaffey, Pearson Education.
3. Electronic Commerce – A Managerial Perspective, Efraim Turban, David King, Dennis Viehland, Jae Lee, Pearson Education.

Semester II		201 – Marketing Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO201.1	REMEMBERING	DESCRIBE the key terms associated with the 4 Ps of marketing.
CO201.2	UNDERSTANDING	COMPARE and CONTRAST various approaches to pricing for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO201.3	APPLYING	DEMONSTRATE an understanding of various channel options for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO201.4	ANALYSING	EXAMINE the product line of a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO201.5	EVALUATING	EXPLAIN the role of various communication mix elements for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO201.6	CREATING	DESIGN a marketing plan for a real world marketing offering (commodities, goods, services, e-products/ e-services.)

1. **Product:** Meaning, The Role of Product as a market offering, Goods & Services Continuum, Classification of consumer products- convenience, shopping, shopping, unsought goods. Classification of industrial products- materials and parts, capital items, supplies and services. The Product Hierarchy, Product Systems and Mixes, Product Line Analysis, Product Line Length, The Customer Value Hierarchy. New Product Development - Need, Booz Allen & Hamilton Classification Scheme for New Products, New Product Development Process - Idea Generation to commercialization. Branding: Concept, Definition, Commodity Vs. Brand, Product Vs Brand, Concept of Brand equity. **(7 + 2)**

2. **Pricing:** Meaning, The Role of Pricing, Importance and Factors influencing pricing decisions. Setting the Price: Setting pricing objectives, Determining demand, Estimating costs, Analyzing competitors' pricing, Selecting pricing method, selecting final price. Adapting the Price: Geographical pricing, Price discounts & allowances, Promotional pricing, Differentiated pricing, concept of transfer pricing, Dynamic pricing (surge pricing, auction pricing), Pricing in online marketing (free, premium, freemium). Price Change: Initiating & responding to price changes. **(7 + 2)**

3. **Place:** Meaning, The Role of Marketing Channels, Channel functions & flows, Channel Levels, Channel Design Decisions - Analyzing customers' desired service output levels, establishing objectives & constraints, Identifying &

evaluating major channel alternatives. Channel Options - Introduction to Wholesaling, Retailing, Franchising, Direct marketing, Introduction to Omni channel & hybrid channel options. Market Logistics Decisions - Order processing, Warehousing, Inventory, and Logistics. **(7 + 2)**

4. Promotion: Meaning, The role of marketing communications in marketing effort. Communication Mix Elements - Introduction to Advertising, Sales Promotion, Personal Selling, Public Relations, Direct Marketing. Concept of Integrated Marketing Communications (IMC), Developing Effective Communication - Communication Process, Steps in Developing effective marketing communication - identifying target audience, determining communication objectives, designing a message, Choosing media, Selecting message source, Collecting feedback. Shaping the overall promotion mix: promotional mix strategy, push-pull strategies. **(7 + 2)**

5. Product Level Planning: Preparation & evaluation of a product level marketing plan, Nature & contents of Marketing Plans - Executive Summary, Situation Analysis, Marketing Strategy, Financials, Control. Marketing Evaluation & Control - Concept, Process & types of control - Annual Plan Control, Profitability Control, Efficiency Control, Strategic Control, Marketing audit. **(7 + 2)**

Note: Real world examples / cases are expected to be analyzed in the class as well as included in the examination.

Suggested Text Books:

1. Marketing Management, Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, Pearson
2. Marketing Management, Rajan Saxena, TMGH
3. Marketing, Lamb Hair Sharma, Mc Daniel, Cengage Learning

Suggested Reference Books:

1. Principles of Marketing, Philip Kotler, Gary Armstrong, Prafulla Agnihotri, Ehasan Haque, Pearson
2. Marketing Management- Text and Cases, Tapan K Panda, Excel Books
3. Marketing Management, Ramaswamy & Namakumari, Macmillan.
4. Marketing Whitebook

Semester II		202 – Financial Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO202.1	REMEMBERING	DESCRIBE the basic concepts related to Financial Management, Various techniques of Financial Statement Analysis, Working Capital, Capital Structure, Leverages and Capital Budgeting.
CO202.2	UNDERSTANDING	EXPLAIN in detail all theoretical concepts throughout the syllabus
CO202.3	APPLYING	PERFORM all the required calculations through relevant numerical problems.
CO202.4	ANALYSING	ANALYZE the situation and <ul style="list-style-type: none"> • comment on financial position of the firm • estimate working capital required • decide ideal capital structure • evaluate various project proposals
CO202.5	EVALUATING	EVALUATE impact of business decisions on Financial Statements, Working Capital, Capital Structure and Capital Budgeting of the firm

1. Business Finance: Introduction to Business Finance, Meaning and Definition of Financial Management, Objectives of Financial Management- (Profit Maximization and Wealth Maximization), Modern Approach to Financial Management- (Investment Decision, Financing Decision, Dividend Policy Decision), Finance and its relation with other disciplines, Functions of Finance Manager **(3+2)**

2. Techniques of Financial Statement Analysis: Introduction, Objectives of financial statement analysis, various techniques of analysis viz Common Size Statements, Comparative Statements, Trend Analysis, Ratio Analysis, Funds Flow Statement & Cash Flow Statement **(10 + 2)**

3. Working Capital Management: Meaning of Working Capital, its components & types, Operating Cycle, Factors affecting working capital, Estimation of working capital requirement. (Total Cost Method & Cash Cost Method) **(8 + 2)**

4. Capital Structure: Meaning and Factors affecting Capital Structure, Different sources of finance. Concept and measurement of Cost of Capital (measurement of Specific Cost and WACC), Trading on Equity, Concept of Leverages and its types. **(6 + 2)**

5. Capital Budgeting: Meaning, Definition of Capital Budgeting, Time value of money. Tools of evaluation of the project based on traditional techniques and modern techniques - ARR, Payback Period, Discounted Payback Period, NPV, PI & IRR **(6+2)**

Note: Numerical Problems will be asked on following topics only—

1. Common Size Statements
2. Comparative Statements
3. Trend Analysis
4. Ratio Analysis (Calculation of ratios plus its interpretation)
5. Estimation of working capital requirement (Total Cost Method & Cash Cost Method)
6. Operating Cycle
7. Measurement of Specific Cost (Cost of Equity, Preference, Retained Earnings and Debt) and WACC
8. Capital Structure
9. Leverages
10. Capital Budgeting (ARR, Payback Period, Discounted Payback Period, NPV, PI & IRR)

Suggested Text Books:

1. Financial Management, Shashi K. Gupta and R.K. Sharma (Kalyani Publication)
2. Basics of Financial Management, V.K. Saxena and C.D. Vashist (Sultan Chand & Sons)
3. Financial Management, A Contemporary Approach, Rajesh Kothari (SAGE)
4. Financial Management, Dr. Mahesh Abale & Dr. Shriprakash Soni (Himalaya Publishing House Pvt. Ltd.)
5. Working Capital Management, Theory and Practice, Dr. P. Periasamy (Himalaya Publishing House)
6. Financial Management, I M Pandey (Vikas Publishing House Pvt. Ltd)
7. Fundamentals of Financial Management, A.P. Rao (Everest Publishing House)
8. Advanced Financial management, N.M. Vechalekar

Suggested Reference Books:

1. Financial Management, Rajiv Srivastava and Anil Misra (OXFORD University Press)
2. Financial Management, Ravi Kishore (Taxmann)
3. Financial management, V.K. Bhalla (S. Chand)
4. Financial Management, Jonathan Berk, Peter DeMarzo and Ashok Thampy (Pearson Publication)

Semester II		203 – Human Resource Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO203.1	REMEMBERING	DESCRIBE the role of Human Resource Function in an Organization.
CO203.2	REMEMBERING	ENUMERATE the emerging trends and practices in HRM.
CO203.3	UNDERSTANDING	ILLUSTRATE the different methods of HR Acquisition and retention.
CO203.4	APPLYING	DEMONSTRATE the use of different appraisal and training methods in an Organization.
CO203.5	ANALYSING	OUTLINE the compensation strategies of an organization
CO203.6	EVALUATING	INTERPRET the sample job descriptions and job specifications for contemporary entry level roles in real world organizations.

1. Human Resource Management: Concept and Challenges - Introduction, Objectives, Scope, Features of HRM, Role of HRM, Importance of HRM, Policies and Practices of HRM, Functions of HRM, Challenges of HRM. Introduction to SHRM: Define SHRM, importance and nature. HRM Models: Harvard Model, SHRM "matching model". **(5+2)**

2. HR Acquisition & Retention: Human Resource Planning: Definition, Objective, Need and Importance, HRP Process, Barriers to HRP. Job Analysis Process – Contents of Job Description & Job Specification, Job description Vs job

specification, Job design, Factors affecting Job design, Job enrichment Vs job enlargement. Recruitment Introduction & Sources of Recruitment, Difference between recruitment and selection-Recruitment, Selection Process, Induction and Orientation. Career Planning-Process of career planning and development Succession Planning Process, Transfer and Promotion. Retention of Employees: Importance of retention, strategies of retention. **(8+2)**

3. **Managing Employee Performance and Training:** Performance Appraisal & Performance Management – Definition, Objective, Importance, Appraisal Process and Appraisal Methods. Why to measure performance and its purpose. Performance Appraisal Vs Performance Management, Potential Management. Training and Development - Definition – Scope – Conceptual framework of Training and development of Employees, Role of Training in Organizations, Objectives, The Training and Development Process, Training Need Assessment, Types of training, Difference between training and development, E-Learning. Benefits of training, Evaluation of Training Effectiveness: Kirkpatrick model. **(8+2)**

4. **Compensation Management:** Concept, Objectives, Importance of Compensation Management, Process, Current Trends in Compensation. Factors in compensation plan. Wage/ Salary differentials, Components of salary. Incentives and Benefits – Financial & Nonfinancial Incentive, Fringe Benefits. Employees Separation - Retirement, Termination, VRS, Golden Handshake, Suspension, Concepts & Methods, Grievance Procedure in Indian Industry. **(8+2)**

5. **Emerging Trends in HRM:** HRIS- Need, Advantages & Uses of HRIS. HR Accounting- Concepts, Objective, Advantage, Limitation & Method. HR Audit- Concept, Objective, Scope & Process. HR Shared Services- Concept, Objective, Benefits, Issues creating HR Shared Services. **(6+2)**

Suggested Text Books:

1. Human Resource Management, Dr. S.S. Khanka, Sultan Chanda , Delhi
2. Human Resource Management, Deepak Bhattacharya, Sage Publishing Ltd.
3. Human Resource Management, Arun Monappa , Tata McGraw Hill Publishing Company
4. Human Resource Management, Mirza & Zaiyaddin
5. Human Resource Management, Dr. P.C.Pardeshi , Niramli Publication
6. Human Resource Management, R.S.Dwiwedi , Vikas Publishing House.
7. Human Resource Management, C.B.Mamoria , Himalaya Publishing House
8. Human Resource Management, Gary Dessler Dorling Kindersley Pvt Ltd.
9. Human Resource Management: Text and Cases, K Aswathappa , Tata McGraw Hill Publishing Company.
10. Performance Appraisal and Management, Himalaya Publishing House.

Suggested Reference Books:

1. Human Resource Management in Organizations, Izabela Robinson, Jaico Publishing House.
2. Armstrong's Essential Human Resource Management Practice - A guide to people management, Michael Armstrong, Koganpage.
3. Applied Psychology in Human Resource Management, Cascio & Aguins, PHI.

Semester II		204 – Operations & Supply Chain Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO204.1	REMEMBERING	DEFINE basic terms and concepts related to Production, Operations, Services, Supply Chain and Quality Management.
CO204.2	UNDERSTANDING	EXPLAIN the process characteristics and their linkages with process-product matrix in a real world context.
CO204.3	UNDERSTANDING	DESCRIBE the various dimensions of production planning and control and their inter-linkages with forecasting.
CO204.4	APPLYING	CALCULATE inventory levels and order quantities and MAKE USE OF various inventory classification methods.
CO204.5	ANALYSING	OUTLINE a typical Supply Chain Model for a product / service and ILLUSTRATE the linkages with Customer Issues, Logistic and Business Issues in a real world context.

- 1. Introduction to Operations and Supply Chain Management:** Definition, Concept, Significance and Functions of Operations and SCM. Evolution from manufacturing to operations management, Physical distribution to Logistics to SCM, Physical Goods and Services Perspectives. **Quality:** Definitions from various Perspectives, Customers view and Manufacturer's view, Concept of Internal Customer, Overview of TQM and LEAN Management, Impact of Global Competition, Technological Change, Ethical and Environmental Issues on Operations and Supply Chain functions. **(7+2)**
- 2. Operations Processes: Process Characteristics in Operations:** Volume Variety and Flow. Types of Processes and Operations Systems - Continuous Flow system and intermittent flow systems. **Process Product Matrix:** Job Production, Batch Production, Assembly line and Continuous Flow, Process and Product Layout. **Service System Design Matrix:** Design of Service Systems, Service Blueprinting. **(6+2)**
- 3. Production Planning & Control (PPC):** Role and Functions of PPC **Demand Forecasting:** Forecasting as a Planning Tool, Forecasting Time Horizon, Sources of Data for forecasting, Accuracy of Forecast, Capacity Planning. **Production Planning:** Aggregate production Planning, Alternatives for Managing Demand and Supply, Master Production Schedule, Capacity Planning - Overview of MRP, CRP, DRP, MRP II. **Production Control:** Scheduling, Loading, Scheduling of Job Shops and Floor Shops, Gantt Charts. **(8+2)**
- 4. Inventory Planning and Control:** Continuous and intermittent demand system, concept of inventory, need for inventory, types of inventory - seasonal, decoupling, cyclic, pipeline, safety - Implications for Inventory Control Methods. Inventory Costs - Concept and behavior of ordering cost, carrying cost, shortage cost. **EOQ** – definition, basic EOQ Model, EOQ with discounts. Inventory control - Classification of material - ABC Analysis -VED, HML, FSN, GOLF, SOS. (Numericals expected on Basic EOQ, EOQ with discounts & ABC), Inventory turns ratios, Fixed Order quantity Model - Periodic Review and Re-order Point. **(8+2)**
- 5. Supply Chain Management:** Supply chain concept, Generalized Supply Chain Management Model - Key Issues in SCM – Collaboration, Enterprise Extension, responsiveness, Cash to Cash Conversion. **Customer Service:** Supply Chain Management and customer service linkages, Availability service reliability perfect order, customer satisfaction. Enablers of SCM - Facilities, Inventory, Transportation, Information, sourcing, Pricing. **(6+2)**

Suggested Text Books:

1. Operations Management Theory & Practice, B.Mahadevan, Pearson.
2. Operations Now - Supply Chain Profitability & Performance, Byron J. Finch, McGraw Hill.
3. Production and Operations Management, R B Khanna, PHI, New Delhi..
4. Production & Operations Management, S N Chary, McGraw Hill.
5. Supply Chain Management - Strategy, Planning & Operation, Sunil Chopra, Peter Meindl, D. V. Kalra, Pearson Education.

Suggested Reference Books:

1. Supply Chain Logistics Management, Donald Bowersox, David Closs, M Bixby Cooper, Tata McGraw Hill.
2. Operations Management, William J. Stevenson, TMGH.
3. Operations Management, Lee Krajewski, Larry Ritzman, Manoj Malhotra, Pearson Education.
4. Introduction to Materials Management, J.R. Tony Arnold, Stephen Chapman, Ramakrishnan, Pearson.

Generic Courses (Electives) – University Level – Semester I & II

Semester I		107 – Management Fundamentals
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO107.1	REMEMBERING	ENUMERATE various managerial competencies and approaches to management.
CO107.2	UNDERSTANDING	EXPLAIN the role and need of Planning, Organizing, Decision Making and Controlling.
CO107.3	APPLYING	MAKE USE OF the principles of goal setting and planning for simple as well as complex tasks and small projects.
CO107.4	ANALYSING	COMPARE and CONTRAST various organizational structures of variety of business and not-for-profit entities in a real world context.

CO107.5	EVALUATING	BUILD a list of the decision making criteria used by practicing managers, leaders and entrepreneurs in routine and non-routine decision making situations and EVALUATE and EXPLAIN the same.
CO107.6	CREATING	FORMULATE and DISCUSS a basic controlling model in a real life business, start-up and not-for-profit organizational context.

1. **Basic Concepts:** Manager, Managing, Workplace, Organization, Management Functions, Mintzberg's Managerial Roles, The Universality of Management, Approaches to Management - Early Management, Classical Approach, Behavioral Approach, Quantitative Approach, Contemporary Approaches. Managerial Competencies: Communication, team work, planning and administrative, strategic and global competencies; Managerial Skills; How Is the Manager's Job Changing?, Importance of Customers to the Manager's Job, Importance of Innovation to the Manager's Job, Importance of Sustainability to the Manager's Job. **(5)**

2. **Planning:** Concept, need, nature, Management By Objectives (MBO) - Process of MBO - Benefits of MBO, Planning and Performance, Goals and Plans, Types of Goals, Types of Plans, Setting Goals and Developing Plans, Approaches to Setting Goals, Developing Plans, Approaches to Planning, Planning Effectively in Dynamic Environments. **(6)**

3. **Organizing:** Organization, Organizing, Organizational Structures, Principles of Work Specialization, Departmentalization, Chain of Command, Span of Control, Centralization and Decentralization, Formalization. Mechanistic and Organic Structures, Factors Affecting Structural Choice - Strategy, Size, Technology, Environmental Uncertainty. Traditional Organizational Designs - Simple Structure, Functional Structure, Divisional Structure, Matrix Structure, Team Structures, Project Structure, Adaptive Organizations - Boundary less Organization, Virtual Organizations, Learning Organization, Flexi Work, Tele-working, Global Organizations. **(7)**

4. **Decision Making:** The Decision-Making Process - Identifying a Problem - Identifying Decision Criteria - Allocating Weights to the Criteria - Developing Alternatives - Analyzing Alternatives - Selecting an Alternative - Implementing the Alternative - Evaluating Decision Effectiveness. Making Decisions: Rationality, Bounded Rationality, The Role of Intuition, The Role of Evidence-Based Management. Types of Decisions & Decision-Making Conditions. Decision-Making approaches - Quantitative approach, Environmental Approach, System Approach, Ethical Approach, Intuitive Approach, Case Study Approach Decision-Making Styles - Linear-Nonlinear Thinking Style Profile, Decision-Making Biases and Errors. Effective Decision Making in Today's World - Correctness of decision, Decision environment, Timing of decision, Effective communication of Decision, Participation in decision Making-Implementation of decision. **(7)**

5. **Controlling:** Controlling, Definition, need and Importance, The Control Process, Managerial Decisions in Controlling, Feed-forward / Concurrent / Feedback Controls. Financial Controls, Information Controls, Benchmarking of Best Practices. **(5)**

Suggested Text Books:

1. Fundamentals of Management by Robbins, S.P. and Decenzo, D.A., Pearson Education Asia, New Delhi.
2. Management, Koontz and Wechrich, TMGH
3. Management, Stoner, et. al., Prentice Hall of India, New Delhi.

Suggested Reference Books:

1. Management, Hellregel, Thomson Learning, Bombay
2. Management, Robbins & Coulter, Prentice Hall of Hall of India, New Delhi.
3. Management - Text & Cases, Satya Raju, PHI, New Delhi.
4. Management, Richard L. Draft, Thomson South-Western

Semester I		108 – Indian Economy
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO108.1	REMEMBERING	DESCRIBE the present state of Indian Economy and LIST major economic policy issues in the current context.

CO108.2	UNDERSTANDING	EXPLAIN the economic development strategy since Independence and DISCUSS the priorities in the current context.
CO108.3	APPLYING	ILLUSTRATE the economic impact of Monetary policy and Fiscal Policy, Economic Reforms, Demographic Transition in India, Changing profile of GDP, Growth and Inequality and Trade Policy in the Indian context.
CO108.4	ANALYSING	EXAMINE the changing profile of human capital, employment, productivity and ILLUSTRATE the linkages with Soft Infrastructure, growth of Start-ups, GDP composition of India.
CO108.5	EVALUATING	DETERMINE the key priority areas, across various dimensions, for the Indian Economy in the context of current economic environment.
CO108.6	CREATING	BUILD a case for co-existence of MNCs, Indian Public Sector, Indian Private Sector, SMEs, MSMEs and Start Ups in the Indian Economy.

1. Perspective of Indian Economy: Indian Economy as a Developing Economy, Basic Characteristics Overview of Economic Planning, Role of Monetary policy and Fiscal Policy, Budget terminology, Economic Growth, GDP and GDP Trends, Money Supply & Inflation, Inflation trends, RBI – overview of role and functions, Capital Markets – overview of role and functions, Concept of Poverty, Estimates of Poverty, Poverty Line, Economic Reforms and Reduction of Poverty, Concept of Inclusion, Need of inclusive growth, Financial inclusion. Concept of Hard & Soft Infrastructure. Hard Infrastructure - Transport Infrastructure, Energy Infrastructure, Water management infrastructure, Communication Infrastructure, Solid waste management, Earth monitoring and measuring networks. Soft Infrastructure - Governance Infrastructure, Economic infrastructure, Social infrastructure, Critical Infrastructure, Urban infrastructure, Green infrastructure, Education Infrastructure, Health Infrastructure. **(6)**

2. Human Resources and Economic Development : The Theory of Demographic Transition, Size and Growth Rate of Population in India, Quantitative Population Growth Differentials in Different Countries, The Sex Composition of Population, Age Composition of Population, Density of Population, Urbanization and Economic Growth in India, The Quality of Population, Population Projections (2001-2026), Demographic Dividend. **Human Development in India -** The Concept and Measures of Human Development, Human development Index for Various States in India, National Human Development Report, Changing profile of GDP and employment in India, GDP, Employment and Productivity per Worker in India, Relative Shift in the Shares of NSDP and Employment in Agriculture, Industry and Services in Different States. **(6)**

3. Sectoral composition of Indian Economy: Primary, Secondary, Tertiary Sectors, Issues in Agriculture sector in India ,land reforms, Green Revolution and agriculture policies of India , Industrial development , small scale and cottage industries, Industrial Policy, Public sector in India, Services sector in India. Areas of Market Failure and Need for State Intervention, Redefining the Role of the State, Liberalization, Privatization and Globalization (LPG) Model of Development, Planning commission v/s NITI Aayog, Public Versus Private Sector Debate, Unorganised Sector and India's Informal Economy. **(6)**

4. Inequality and Economic Power in India: FDI, Angel Investors and Start-ups, Unicorns, M&A, Investment Models, Role of State, PPP (Public-Private Partnership), Savings and Investment Trends. Growth of Large Industrial Houses Since Independence, Growth of Monopolies and Concentration of Economic Power in India, Competition Policy and Competition Law, Growth and Inequality, India as an Economic Superpower, Growth of the Indian Middle Class, Indian MNCs : Mergers and Acquisitions, Outsourcing, Nationalism and Globalization, Small-scale and Cottage Enterprises, The Role of Small-scale Industries in Indian Economy, Poverty, Vulnerability and Unorganized Sector Employment-The High Degree of Correlation, Estimate of Organized and Unorganized Workers. **(6)**

5. The Foreign Trade of India: Importance of Foreign Trade for a Developing Economy, Overview of Foreign Trade Since Independence, Composition of India's Foreign Trade, Direction of India's Foreign Trade, India's Balance of Payments on Current Account, Balance of Payments Crisis, Balance of Payments Since the New Economic Reforms of 1991, India's Trade Policy, India's Foreign Trade Policy, An Analysis of Trends in Exports and Imports, Special Economic Zones (SEZs)-An Overview. **(6)**

Suggested Text Books:

1. Indian Economy , Dutt R and Sundharam K.P.M, S .Chand, Delhi
2. Indian Economy, Agarwal A. N., Vikas Publishing House, Delhi
3. Indian Economy, Misra S.K. and Puri V.K., Himalaya Publishing House, New Delhi
4. Business Environment , Bedi S K, Excel Books
5. Economic Reforms in India - A Critique, Dutt Ruddar, S. Chand, New Delhi .

Suggested Reference Books:

1. Economic Environment of Business , Adhikary, Sultan Chand and Sons
2. Business, Government and Society, George A and Steiner G A, Macmillan
3. Economic Environment of Business , Ghosh, Vikas
4. Business Environment, Francis Cherunilam, Himalaya Publishing House, Bombay
5. Industrial Economy of India, Kuchhal S.C., Chaitanya Publishing House, Allahabad

Semester I		109 – Entrepreneurship Development
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO109.1	REMEMBERING	DEFINE the key terms, LIST the Attributes and Characteristics of Entrepreneurs features and ENUMERATE the Factors influencing Entrepreneurship Growth.
CO109.2	UNDERSTANDING	DISCUSS various theories of entrepreneurship and the entrepreneurship development ecosystem in Indian context.
CO109.3	APPLYING	APPLY the theories of entrepreneurship and entrepreneurship development framework to analyze and identify entrepreneurial opportunities.
CO109.4	ANALYSING	DISCRIMINATE between potential options available for entrepreneur for embarking on establishing a Start Up
CO109.5	EVALUATING	EVALUATE the start up ecosystem and the entrepreneurial opportunities in light of requirements of a business plan.
CO109.6	CREATING	CREATE a business plan that captures entrepreneurs and variety of entrepreneur motivations, entrepreneur culture and sectoral opportunities and financing options.

1. Entrepreneurship: Concept of Entrepreneur. Intrapreneur, Entrepreneurship and Manager. Difference between Entrepreneur and Intrapreneur, Entrepreneur and Entrepreneurship. Attributes and Characteristics of successful entrepreneurs. Functions of an Entrepreneur, Classification of Entrepreneurs. Role of Entrepreneur in Indian Economy, Developing entrepreneurial culture, Factors influencing Entrepreneurship Growth - Economic, Non-Economic Factors, For profit or Not for profit entrepreneurs, Constraints for the Growth of Entrepreneurial Culture, Entrepreneurship as a career, Entrepreneurship as a style of management, Emerging Models of Corporate Entrepreneurship, India's start up revolution-Trends, Imperatives, benefits; the players involved in the ecosystem, Business Incubators-Rural entrepreneurship, social entrepreneurship, women entrepreneurs, Cases of Tata, Birlas, Kirloskar and new generation entrepreneurs in India. **(6)**

2. Theories of entrepreneurship: Innovation Theory by Schumpeter & Imitating, Theory of High Achievement by McClelland, X-Efficiency Theory by Leibenstein, Theory of Profit by Knight, Theory of Social change by Everett Hagen. **(4)**

3. Entrepreneurship development: Entrepreneurial Competencies, Developing Competencies. Concept of entrepreneurship development, Entrepreneur Training and developing, Role of Entrepreneur Development Programs (EDP), Role of DIC, SISI , EDII , NIESBUD, NEDB, EDP - Objectives – contents – methods - execution. Role of Mentors. Innovation and Entrepreneurship, Design Thinking Process. Role of consultancy organizations in promoting Entrepreneurs, Problems and difficulties of Entrepreneurs - Marketing Finance, Human Resource, Production; Research - external problems, Mobility of Entrepreneurs, Entrepreneurial change, occupational mobility - factors in mobility. **(6)**

4. Role of Central Government and State Government in promoting Entrepreneurship: Introduction to various incentives, subsidies and grants, Export Oriented Units, Fiscal and Tax concessions available, Women Entrepreneurs - Role, Problems and Prospects, Reasons for low women Entrepreneurs, Assistance Programme for Small Scale Units – Institutional Framework – Role of SSI Sector in the Economy – SSI Units – Failure, Causes and Preventive Measures – Turnaround Strategies. Future of Entrepreneurship Development and Government, Start Up India, Make in India. **(5)**

5. Enterprise Promotion: Creating Entrepreneurial Venture, Entrepreneurship Development Cycle, Business Planning Process, The business plan as an entrepreneurial tool, Elements of Business Plan, Objectives, Market Analysis,

Development of product / idea - Resources, Capabilities, and strategies, identifying attributes of strategic resources, Opportunity Analysis, innovator or imitator, SWOT analysis, Internal and External Environment Analysis, Industry Analysis, Embryonic Companies and Spin off's, Porter's five forces model, Identifying the right Business Model Canvas, Seven Domains of John Mullins, Opportunities in Emerging/Transition/Decline industries, Opportunities at the bottom of the pyramid, Opportunities in social sector, Opportunities arising out of digitization, Marketing, Finance, Organization & Management, Ownership - Franchising, networking and alliances, Buying an existing business, Critical risk contingencies of the proposal, Scheduling and milestones. **(9)**

Suggested Text Books:

1. Dynamics of Entrepreneurship Development, Vasant Desai
2. Entrepreneurship: New Venture Creation, David H. Holt
3. Entrepreneurship Development New Venture Creation, Satish Taneja, S.L.Gupta
4. Project management, K. Nagarajan.
5. Entrepreneurship: Strategies and Resources, Marc J. Dollinger

Suggested Reference Books:

1. The Culture of Entrepreneurship, Brigitte Berger
2. Innovation and Entrepreneurship, Peter F. Drucker
3. Entrepreneurship, Robert D. Hisrich, Michael P. Peters, Dean A. Shepherd
4. Entrepreneurship As Strategy, G. Dale Meyer, Kurt A. Heppard
5. New Vistas of Entrepreneurship: Challenges & Opportunities, A. Sahay, M.S.Chhikara
6. Entrepreneurship and Small Business Management, Siropolis
7. The Entrepreneurial Connection, Gurmeet Naroola
8. Thought Leaders, Steven Brandt
9. Corporate Entrepreneurship, Vijay Sathe
10. Corporate Entrepreneurship: Entrepreneurial Development Inside Organizations, Michael H.Morris, Donald F.Kuratko
11. Intrapreneurship: Gifford Pinchot
12. Lead like an Entrepreneur, Neal Thornberry
13. You Too Can Become an Entrepreneur, Nalinaksha Mutsuddi
14. Make The Move: Demystifying Entrepreneurship, Ishan Gupta, Rajat Khare

Semester I		110 – Essentials of Psychology for Managers
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO110.1	REMEMBERING	DEFINE the basic concepts of psychology.
CO110.2	UNDERSTANDING	EXPLAIN the sensing and perceiving processes.
CO110.3	APPLYING	APPLY principles of learning and conditioning to human behavior.
CO110.4	ANALYSING	ILLUSTRATE the linkages between learning, memory and information processing.
CO110.5	EVALUATING	EXPLAIN the basic intrapersonal processes that influence social perception.

1. Basic Concepts: Introduction to Psychology, Definitions of Psychology, Goals of Psychology, History of Psychology, Modern Psychology, Psychology: Its Grand Issues and Key Perspectives, Psychology - Trends for the New Millennium. Biological Bases of Behavior: Neurons - Building Blocks of the Nervous System, The Nervous System - its Basic Structure and Functions, The Brain and Consciousness – states of consciousness, dreams, hallucinations, The Brain and Human Behavior, Heredity and Behavior - Genetics and Evolutionary Psychology. **(6)**

2. Sensation and Perception : Sensing and perceiving, Sensory Thresholds, Sensory Adaptation, The Senses - Hearing, Vision, Perceptual Processes, Information Processing – Bottom Up Processing, Top Down processing, Bottom Up and Top Down (together) processing, Culture, Experience & Perception, Perceptual Constancy, Perceptual Expectations, Perceptual illusions, Gestalt Theory, Perceptual Development and Learning. **(6)**

3. Learning and Conditioning: A Definition of Learning, Classical Conditioning, Instrumental Conditioning, Classical and Instrumental Conditioning Compared: Biofeedback and Reinforcement, Verbal Learning, Basic Conditioning and

Learning Phenomena, Reinforcement, Schedules of reinforcement, role of reinforcement in developing subordinate Social Behavior, Transfer of Training, Learning by Observing Models, Biological Limits. **(6)**

4. Memory: Learning and Memory as Intertwined Processes, Kinds of Information Stored in Memory, Measures of Retention, The Three Components of Memory – Encoding, Storage, Retrieval, Interference Theory, Decay Theory, Information Processing I: Separate-Store Models, Information Processing II: Levels of Processing, Issues in Memory. **(6)**

5. Cognition: Thinking - Mental Imagery, Problem Solving, Decision Making. Concept Formation, Language development. Relationship between language and thinking. **Emotion:** Definition of Emotion, the Physiology of Emotion, Emotional Expression - Verbal & Non Verbal, Labelling Emotions, Theories of Emotion – Common sense theory of emotion, James Lang theory of emotion, Cannon Bard Theory of Emotion, Cognitive Arousal Theory of Emotion **(6)**

Suggested Text Books:

1. Psychology Ciccarelli, S. K & Meyer, G.E Pearson Education Ltd.
2. Introduction to Psychology, Clifford T. Morgan, Richard A King, John R Weisz and John Schopler, Indian Edition

Suggested Reference Books:

1. Essentials of understanding psychology, Feldman.S.R, Tata Mc Graw Hill.
2. Psychology, Baron, R.A and Misra, G. Pearson Education Ltd.

Semester I		111 - Legal Aspects of Business
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO111.1	REMEMBERING	DESCRIBE the key terms involved in each Act.
CO111.2	UNDERSTANDING	SUMMARIZE the key legal provisions of each Act.
CO111.3	APPLYING	ILLUSTRATE the use of the Acts in common business situations.
CO111.4	ANALYSING	OUTLINE the various facets of basic case laws of each Act from a legal and managerial perspective.
CO111.5	EVALUATING	DEVELOP critical thinking by making judgments related to use of various provisions of the Acts in business situations

1. The Contract Act, 1872: Essential Elements of Valid Contract, Essential elements of Valid Contracts, Contracts of Indemnity & Guarantee, Contingent Contract, Quasi Contract, Discharge of contract, Breach of contract-Meaning & remedies, Agency - Creation of Agency – Agent and Principal (Relationship/rights), Types of agency. **(5+1)**

2. Sale of Goods Act, 1930: Contract of sale of goods, Conditions & warranties, Transfer of property or ownership, Performance of the Contract of Sale, Rights of unpaid seller, Sale by Auction. **(5+1)**

3. The Negotiable Instrument Act, 1881: Negotiable Instruments – Meaning, Characteristics, Types. Parties, Holder and holder in due course, Negotiation and Types of Endorsements, Dishonor of Negotiable Instrument – Noting and Protest. **(5+1)**

4. The Companies (Amendment) Act, 2015: Company – Definition, Meaning, Features and Types, One Person Company, Incorporation of Company – Memorandum of Association (MOA), Articles of Association (AOA), Share capital & Debentures, Acceptance of deposits, Appointment of director including woman Director. **(5+1)**

5. The Consumer Protection Act, 1986, Unfair & Restrictive Trade Practices, Dispute Redressal Forums – District, State & National Forum, Composition, Jurisdiction, Powers, Appellate Authority. **Information Technology Act, 2000,** Digital Signature, Electronic Governance, Electronic Records E – Contracts, E – Business models, E – Commerce & Security, Cyber Crimes. Intellectual Property Laws – Understanding of concepts of patents, copyrights, trademarks and designs. **(5+1)**

Suggested Text books:

1. Business Legislations for Management, M.C. Kuchhal
2. Elements of Mercantile Law, N.D.Kapoor
3. Business and Corporate Laws, Dr. P.C. Tulsian

Suggested Reference Books:

1. Legal Aspects of Business, Ravinder Kumar

2. Business Laws, S. D. Geet
3. Business Laws, S.S. Gulshan
4. Legal Aspects of Business, Akhileshwar Pathak

Semester I		112 – Demand Analysis and Forecasting
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO112.1	REMEMBERING	DESCRIBE the key terms associated with demand analysis, demand estimation and demand forecasting.
CO112.2	UNDERSTANDING	SUMMARIZE the use of demand forecasting in various functions of management.
CO112.3	APPLYING	IDENTIFY the pros and cons of various forecasting methods
CO112.4	ANALYSING	DECONSTRUCT a forecast into its various components
CO112.5	EVALUATING	BUILD a forecast for common products and services using time-series data.

1. **Demand Analysis:** An Overview, Significance of Demand Analysis and Forecasting, How Predictable Is the Future? Some Causes of Forecast Error, Myths versus Reality of Forecasting, Data Collection, Storage, and Processing Reality, Art-of-Forecasting, Reality of Judgmental Overrides, Reality of Unconstrained Forecasts, Constrained Forecasts, and Plans, Accuracy of Forecast, Short Run Forecast, Long Term Forecast. Applications of Forecasting – Forecasting economic trends, Sales Forecasts, Staffing forecasts, budgeting, revenue and tax planning, cash flows forecasting, raw material planning, inventory planning, etc. **(5+1)**
2. **Estimation of Demand** - Marketing Research Techniques - Consumer Surveys, Consumer Clinics and Focus Groups, Market Experiments in Test Stores. Statistical Estimation, Variable Identification, Time Series and Cross Sectional Data Collection, Specification of the Model, Estimation of the Parameters, Interpretation of Regression Statistics. **(5+1)**
3. **Forecasting Demand** : Overview of Forecasting Methods, Selecting a Forecasting Technique, Purpose of Forecast, Type of Users, Patterns in the Data Series, Lead Time, Minimum Data Requirement, Desired Accuracy, Cost of forecasting, Qualitative Forecasting Techniques - Survey and Opinion Polling Techniques, Delphi Method, Cross Impact Analysis, Historical Analogy. **(5+1)**
4. **Quantitative Forecasting Methods Using Time Series Data:** Time Series Analysis - Trend Analysis, Cyclical Variations, Seasonal Effects, Random Fluctuations, Smoothing Techniques, Moving Averages, Exponential Smoothing, Single Exponential Smoothing, Holt's Two-Parameter Method, Holt's-Winters' Method, Winters' Additive Seasonality Standard Statistical Error Terms, Specific Measures of Forecast Error, Out-of-Sample Measurement, Forecast Value Added. Barometric Techniques - Leading, Lagging and Coincident Economic Indicators, Diffusion and Composite Indexes, Choose the Appropriate Forecasting Method Use of Software Packages for Forecasting such as EXCEL. **(5+1)**
5. **New Product Forecasting:** Using Structured Judgment, Differences between Evolutionary and Revolutionary New Products, General Feeling about New Product Forecasting, New Product Forecasting Overview, What Is a Candidate Product? New Product Forecasting Process, Structured Judgment Analysis, Structured Process Steps, Statistical Filter Step, Model Step, Forecast Step. **(5+1)**

Suggested Text Books:

1. Demand-Driven Forecasting: A Structured Approach to Forecasting, Charles W. Chase
2. Demand Forecasting for Managers, Stephan Kolassa
3. Forecasting: Principles and Practice, George Athanasopoulos and Rob J. Hyndman

Suggested Reference Books:

1. Fundamentals of Demand Planning and Forecasting - Forecasting & Planning, Chaman L. Jain and Jack Malheron

Semester II		207 – Contemporary Frameworks in Management
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO207.1	REMEMBERING	DEFINE Emotional Intelligence (EQ), IDENTIFY the benefits of emotional intelligence and RELATE the 5 Dimensions of Trait EI Model to the practice of emotional intelligence.
CO207.2	UNDERSTANDING	DESCRIBE how companies achieve transition from being good companies to great companies, and DISCUSS why and how most companies fail to make the transition.
CO207.3	APPLYING	APPLY the 21 laws that make leadership work successfully to improve your leadership ability and ILLUSTRATE its positive impact on the whole organization.
CO207.4	ANALYSING	EXAMINE the fundamental causes of organizational politics and team failure.
CO207.5	EVALUATING	EXPLAIN the approach to being effective in attaining goals by aligning oneself to the "true north" principles based on a universal and timeless character ethic.

1. **Emotional Intelligence** : What is Emotional Intelligence, Benefits of EI, Understand the difference between Trait EI and Ability EI, 5 Dimensions of Trait EI Model - Self Awareness (SA), Managing Emotions (ME), Motivation (M), Empathy (E), Social Skills (SS) - Self awareness (SA) - Self Awareness, Seeing the other side, Giving in without giving up, Life Positions – you and only you can choose your mindset, Managing Emotions (ME) - Self-Regulation, Managing Emotions, The 'EQ brain' and how it works, The science of emotions, Understanding Emotions, Find your self-control, Using Coping Thoughts, Using Relaxation Techniques, Self-Motivation (M) – Optimism, Pessimism, The balance between optimism and pessimism, The power of re-framing, Empathy (E) – Empathy, Barriers to empathy, Developing your empathy, Social Skills (SS) - Social skills, Making an impact, Creating a powerful first impression, Assessing a situation, Being zealous without being offensive, Traits of a person with high social skills. Determine your EQ

2. **The 7 habits of highly effective people:** Paradigms and principles, Inside-out, The seven habits - an overview - Private victory Habit 1. Be proactive: principles of personal vision, Habit 2. Begin with the end in mind: principles of personal leadership, Habit 3. Put first things first: principles of personal management, Public victory. Paradigms of interdependence. Habit 4. Think win/win: principles of interpersonal leadership, Habit 5: Seek first to understand, then to be understood: principles of empathetic communication, Habit 6. Synergize: principles of creative cooperation, Renewal. Habit 7. Sharpen the sword: principles of balanced self-renewal

3. **Five dysfunctions of a team:** Absence of trust—unwilling to be vulnerable within the group, Fear of conflict—seeking artificial harmony over constructive passionate debate, Lack of commitment—feigning buy-in for group decisions creates ambiguity throughout the organization, Avoidance of accountability—ducking the responsibility to call peers on counterproductive behavior which sets low standards, Inattention to results—focusing on personal success, status and ego before team success

4. **The 21 irrefutable laws of leadership:** The law of the lid, The law of influence, The law of process, The law of navigation, The law of addition, The law of solid ground, The law of respect, The law of intuition, The law of magnetism, The law of connection, The law of the inner circle, The law of empowerment, The law of the picture, The law of buy-in, The law of victory, The law of the big mo, The law of priorities, The law of sacrifice, The law of timing, The law of explosive growth, The law of legacy.

5. **Good to Great:** Level 5 Leadership - Leaders who are humble, but driven to do what's best for the company, First Who, Then What: Get the right people on the bus, then figure out where to go. Find the right people and try them out in different seats on the bus (different positions in the company), Confront the Brutal Facts: The Stockdale paradox, Hedgehog Concept: Three overlapping circles: What lights your fire ("passion")? What could you be best in the world at ("best at")? What makes you money ("driving resource")? Culture of Discipline: Rinsing the cottage cheese, Technology Accelerators: Using technology to accelerate growth, within the three circles of the hedgehog concept, The Flywheel: The additive effect of many small initiatives.

Suggested Reference Books:

1. Emotional Intelligence, Daniel Goleman
2. The 7 Habits of Highly Effective People: Powerful Lessons in Personal Change, Stephen R. Covey
3. The Five Dysfunctions of a Team: A Leadership Fable, Patrick M. Lencioni
4. The 21 Irrefutable Law of Leadership-John C. Maxwell

Semester II		208 - Geopolitics & World Economic Systems
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: At the end of this course, the learner shall be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO208.1	REMEMBERING	ENUMERATE the various elements of global economic system.
CO208.2	UNDERSTANDING	EXPLAIN the role of key trade organizations in the global economic system.
CO208.3	APPLYING	IDENTIFY the crucial elements of international trade laws.
CO208.4	ANALYSING	ANALYSE the forces that work for and against globalization.
CO208.5	EVALUATING	ASSESS the impact of the elements of the Global Economic System on the India Economy.

- 1. Introduction to Global Economic & political Systems:** Meaning of Global Economy and its History Structure and Components of Global Economy, Theory of Hegemonic Stability, Differences among National Economies, Market Oriented Capitalism, Developmental Capitalism, Social Market Capitalism, Comparative Analysis, Effects of Globalization on Indian Economy. **(6)**
- 2. The Trading System:** Debate over Free Trade – Functions of GATT and WTO, The Uruguay Round and World Trade Organization, Trade Blocs – EU, OECD, OPEC, SAARC, ASEAN, NAFTA, Threats to Open Trading System, Developments in International Trade Theory, Bi-lateral, Multilateral Trade Agreements, Impact of Trade wars in liberalized economy. **(6)**

8. Indian Entrepreneurial Culture by A Gupta , New Age International.
9. Make The Move: Demystifying Entrepreneurship by Ishan Gupta, Rajat Khare

Semester II		210 – Qualitative Research Methods
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOME
CO210.1	REMEMBERING	ENUMERATE the key terms associated with Qualitative research approach.
CO210.2	UNDERSTANDING	COMPARE and CONTRAST Qualitative research approach with the Quantitative approach.
CO210.3	APPLYING	CONSTRUCT appropriate research and sampling designs for Qualitative research work in real world business and non-business contexts
CO210.4	ANALYSING	ILLUSTRATE the use of appropriate qualitative research methods in real world business and non-business contexts.
CO210.5	EVALUATING	EVALUATE the quality of Qualitative Research work
CO210.6	CREATING	COMBINE Qualitative and Quantitative research approaches in a real world research project.

1. **Qualitative Research:** Nature, Relevance, Need, Characteristics and Limitations of Qualitative Research, Ethics in Qualitative Research, Interrelationship of Qualitative and Quantitative Research, Linking Qualitative and Quantitative Research in One Design, Combining Qualitative and Quantitative Data, Combining Qualitative and Quantitative Methods, Linking Qualitative and Quantitative Results, Triangulation. **(5)**
2. **Qualitative Research Design:** Basic Qualitative Research Designs, Case Studies, Comparative Studies, Retrospective Studies, Longitudinal Qualitative Studies, Appropriateness of the Approach to the Issue, Fitting the Approach into the Research Process. Qualitative Research Sampling - Theoretical Sampling, Gradual Selection as a General Principle in Qualitative Research, Purposive Sampling, Width or Depth as Aims of Sampling, Case Constitution in the Sample, Sample Size decisions in Qualitative Research, Principle of Saturation. **(5)**
3. **Qualitative Research Methods:** Focused Interview, Semi-Standardized Interview, Problem-Centered Interview, Expert Interview, Group Interviews, Focus Groups, Non-participant Observation, Participant Observation, Ethnography. Grounded Theory Methodology. **(5)**
4. **Projective Techniques:** Principle of projection, applications, association, construction, expression based techniques, design and interpretation, Zaltman's Metaphor Elicitation Techniques. **(5)**
5. **Quality Criteria in Qualitative Research:** Reliability, Validity, Objectivity, Alternative Criteria, Criteria for Evaluating the Building of Theories, Quality Assessment as a Challenge for Qualitative Research, Triangulation, Analytic Induction, Generalization in Qualitative Research, The Constant Comparative Method, Process Evaluation and Quality Management. **(5)**

Suggested Text Books:

1. An Introduction to Qualitative Research, Uwe Flick, 4th Edition, SAGE
2. Research Methods in the Social Sciences, Bridget Somekh & Cathy Lewin, 5th Edition, SAGE India

Suggested Reference Books:

1. Qualitative Research Methods in Public Relations and Marketing Communications, Christine Baymon & Immy Holloway, Routledge
2. Qualitative Journeys, Minichiello & Kottler, SAGE

Semester II		211 – Business, Government & Society
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOME
CO211.1	REMEMBERING	DESCRIBE the economic roles of government in the Indian context.
CO211.2	UNDERSTANDING	EXPLAIN the macroeconomic crises around the world.
CO211.3	APPLYING	ILLUSTRATE the interlinkages between economic growth , poverty and inequality.
CO211.4	ANALYSING	EXAMINE the rationale, success and failures of Public Private Partnerships in the Indian context.
CO211.5	EVALUATING	ASSESS the forces for and against Globalization and the socio-economic impact of Globalization.
CO211.6	CREATING	DISCUSS the interplay between technology, business and society.

1. Roles of Business, Government, and Society: Interdependence and Conflict, Regulation of Business, Functions of State; Economic roles of government; Government and legal environment; Economic roles of Government in India; Indian experience with overall and sectoral growth, Inter-sectoral linkages and role of foreign direct investment, The Constitutional environment , Macroeconomic crises since 1990s- Indian and global experiences.

2. Poverty, Inequality and Economic Growth: Industrial Development, Rural-Urban Dynamics, Population and Development, Finance for Development, Trade and Development, State and the Market, Privatization and Regulation, Institutions and Growth.

3. Public Private Partnerships: The Rationale for Public Private Partnerships, Different Kinds of Public Private Partnerships with a special emphasis on the Build Operate and Transfer Model (BOT), Issues in Regulation that come about with privatization, Pricing mechanisms available to a regulator to ensure universal access and efficiency, Discussion of the privatization experience in different sectors, water, electricity, telecommunication, and railways with a special emphasis on India.

4. Multinational Corporations: Perspectives on Globalization, Globalization: The MNC and TNC Organizations, Globalization of Brands, Globalization of the Indian Business and Firms, Coping with Global Competition, Conflict with Nation States. Domestic and Global forces - for and against Globalization, Brexit and latest developments.

5. Business in a Global Environment: Business as Blending of People Technology and Ethical Behaviour, Achieving Business Success through Social Responsibilities, Changing Workplace - Influence of demography, influence of technology, gender issues, social justice and affirmative action, Industrial Relations.

Suggested Text Books:

1. Business, Government and Society: A Managerial Perspective by John Steiner, George Steiner, Tata McGraw Hill
2. Business, Government, and Society by Douglas E. Greer, Prentice Hall
3. Business and Its Environment by David P., International Edition

Semester II		212 - Business Process Reengineering
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO212.1	REMEMBERING	DEFINE the key terms associated with Business Process Reengineering.
CO212.2	UNDERSTANDING	EXPLAIN the various supporting and opposing forces to Business Process Reengineering in simple business situations.
CO212.3	APPLYING	APPLY modeling tools for simple business processes.
CO212.4	ANALYSING	FORMULATE a working plan to establish a Business Process Reengineering team.
CO212.5	EVALUATING	EVALUATE the success of a BPR initiative in relation to the impact on organizational KPIs.
CO212.6	CREATING	IMAGINE ways to improve business or non-business processes.

- 1. Introduction to Business Process Reengineering (BPR):** Definition of business processes – Concept of BPR - Definition of business process redesign, BPR - Evolution, Definition, Need for reengineering, Benefits, Role of leader & manager, Breakthrough reengineering model, BPR guiding principles, Business process reengineering & performance improvement, Key targets of BPR, Myths about BPR, What reengineering isn't, BPR and other management concepts: TQM, Quality function deployment, ISO standards, ERP. BPR and Process Simplification, BPR and Continuous Improvement. (6)
- 2. Business vision and process objectives:** The Key Elements of BPR, Develop a Vision, Establish a Responsible Team, Prepare the Organization for Change, Redesign the Business Process, Case Studies. Business Processes, People, Information Technology. Processes to be redesigned, selection criteria, dysfunction, importance feasibility. Measuring existing processes, BPR Goals – Cycle time reduction, Cost reduction, Quality improvement, Customer Satisfaction, BPR team characteristics. (6)
- 3. Enablers of BPR:** Enablers of BPR in manufacturing – Agile Manufacturing, Lean Manufacturing, JIT, Collaborative Manufacturing, Intelligent Manufacturing, Production Planning, Product design & development. Relationship between BPR and information technology, Role of information technology in reengineering, Criticality of IT in business process. (6)
- 4. BPR implementation methodology:** Different BPR Methodologies, Different Phases of BPR, Relationship between BPR phases, Tools used in Modelling the Business - flow-charting, business activity maps, relational diagrams, benefit/cost analysis, Process Modelling, Notations, Case Studies. BPR KPIs Definition, Measuring KPIs, Methodologies (Common Assessment Framework (CAF), Balanced Scorecard), Case Studies. (6)
- 5. Change Management:** The Power of Habit in organizations, Planned changes in business re-engineering projects; Factors relating to change management systems and culture, Committed and strong leadership, Factors relating to organizational structure, Factors related to BPR program management, Factors related to IT infrastructure, Factors Relating to BPR Failure, Problems in communication and organizational resistance, Lack of organizational readiness for change, Problems related to creating a culture for change, Lack of training and education, Factors related to management support, Ineffective BPR teams, A framework for barrier management.

Semester I		114 - Enterprise Analysis - Desk Research
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO114.1	REMEMBERING	DESCRIBE the key historical, organizational, market related, financial, governance, leadership and social responsibility dimensions of a real world business organization.
CO114.2	UNDERSTANDING	SUMMARIZE the regional, national and global footprint of a real world business organization.
CO114.3	APPLYING	DEMONSTRATE the use of secondary – offline and online resources to profile a real world business organization.
CO114.4	ANALYSING	ANALYSE, using tables and charts, the trends in market standing and financial performance of a real world business organization over the last 5 years.
CO114.5	EVALUATING	COMPOSE a succinct summary of future plans of a real world business organization the company website, shareholders reports and other information available in the public domain.
CO114.6	CREATING	IMAGINE the key challenges and opportunities for a real world business organization in the immediate future (1 to 3 years).

1. Enterprise History & Background: Establishment, Original & Current Promoters, Business Group or Business Family to which it belongs, Vision-Mission-Philosophy – Values-Quality Policy, Brief profiles of the Chairman, CEO, MD, Members of Board of Directors along with their career highlights CSR Initiatives, Technical and other collaborations if any, Recent Mergers and Acquisitions, if any. **(6)**

2. Organization : Organization Structure, Geographical (domestic and global) foot print – at the time of inception and spread over the years, company's current head quarter worldwide as well as head quarter / corporate office in India, Manufacturing /Service locations Indian and major worldwide, Certifications if any - ISO / EMS / FDA / CMMI , etc. Online presence. Initiatives towards gender diversity, Initiatives towards social inclusion, Initiatives towards environment conservation. Current Talent needs. Key highlights of the company's website. **(6)**

3. Markets: Major Customers, customer segments, Products, Product lines, Major Brands, Market Share – nationally, region wise, product wise, Advertising Agency, Advertising Punch Line/Slogan, Logo, Key Alliances in the past 5 years & impact. Mergers & Acquisitions, if any. Technological developments. Disruptive innovations affecting the organization. Labour unrest if any – reasons thereof and impact. Emerging potential competition through first generation entrepreneurs or global / local players. **(6)**

4. Financials: Data to be studied, tabulated, graphically depicted, analyzed and presented for last 5 years for the Revenues, Profitability, Market Capitalization, Segmented Revenues, Auditors. Listing status & Scrip Codes – BSE and NSE, Global Listings on International Stock Markets, Share Price Face Value, Current Market Value, Annual High Low Figures, P/E Ratio, Shareholding Pattern. **(6)**

5. Governance: Philosophy, Action taken by SEBI if any, Involvement in Scams, Insider Trading Issues, Standard & Poor's Corporate Governance Scores, CRISIL Rating. Major Awards and Achievements of the Organization in the last 5 years. Forward looking statements of the top management. **(6)**

Note:

- Students should work in groups of 3 to 5 each under the guidance of a faculty.
- Students shall carry out an indepth study of any THREE Organizations of their choice.
- Organizations selected should demonstrate a variety across sectors, ownerships, size, and other key dimensions.
- Students shall submit a structured detailed report.

Suggested Text Books:

- No text books are prescribed.
- The course has to be taught using the company annual reports and other publications, company website, social media feeds, business newspapers and business data bases such as ACE equity, CRISIL database, etc.

Semester I		115 - Selling & Negotiations Skills Lab
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO115.1	REMEMBERING	DESCRIBE the various selling situations and selling types.
CO115.2	UNDERSTANDING	OUTLINE the pre-sales work to be carried out by a professional salesperson.
CO115.3	APPLYING	IDENTIFY the key individuals involved in a real world sales process for a real world product/ service / e-product / e-service.
CO115.4	ANALYSING	FORMULATE a sales script for a real world sales call for a product/ service / e-product / e-service.
CO115.5	EVALUATING	DECONSTRUCT the pros and cons of sample real world sales calls for a product/ service / e-product / e-service.
CO115.6	CREATING	DEVELOP a sales proposal for a real world product/ service / e-product / e-service and for a real world selling situation.

1. Basics of Selling: Importance of Selling. Role in the context of organization – survival and growth. - Selling & Sales Management, Geoffrey Lancaster & David Jobber, Macmillan India Ltd.
- Negotiation: Communication for diverse settings, Michael L Spangle and Myra Isenhardt, Sage South Asia Edition.
- The Sales Bible: The Ultimate Sales Resource, Jeffrey Gitomer, Wiley India
- How to win friends and influence People, Dale Carnegie
- The Art of Closing the Sale, Brian Tracy, Pearson Education.

Suggested Reference Books:

- Sales Management, Bill Donaldson, Palgrave Publications
- You can negotiate anything, Herb Cohen
- Managing Sales Leads, Crocker and Obermayer, American Marketing Association

Semester I		116 - MS Excel
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO116.1	REMEMBERING	SELECT appropriate menus and functions of MS Excel to Create, Format, Import, Merge, Save, Print Spreadsheets & Charts using business data.
CO116.2	UNDERSTANDING	SHOW how to do basic troubleshooting and fix mistakes most people make when working with spreadsheets.
CO116.3	APPLYING	USE various functions of MS Excel, Execute pivot table analysis, common (and powerful functions), and different types of lookups (vlookup, hlookup, and index/match).
CO116.4	ANALYSING	ILLUSTRATE the use of the most commonly used data-manipulation commands in MS Excel.
CO116.5	EVALUATING	DERIVE insights from multiple data sources in MS EXCEL and work with it to answer relevant business questions.
CO116.6	CREATING	CREATE standard Excel Templates for routine business data management and analysis activities.

1. Introduction to Spreadsheets - Understanding Microsoft Excel, Excel Workbook Windows, Basic Spreadsheet Skills, Excel Help System, Opening and Closing Workbooks, Understanding Workbook File Formats, Creating New Workbooks, Selecting Cells, Auto Sum and Auto Fill Function, Cell Referencing and Request, Formatting Cells, Formatting Numbers, Placing Cell Alignment, Cell, Rows and Columns, Understanding Worksheets, Editing, Copying and Moving Cells, Page Layouts in Excel, Proofing Workbooks, Basic Options, Ribbons and Toolbar. **(4)**

2. Defining Names in Excel, Sorting Data, Using Excel Tables, Filtering Data in Excel, Understand Charts, Chart Design Options and Tools, Chart Format Tools, Combo Charts, Functions within Excel, Understanding Date Function, Information Functions, Logical Functions, Find and Replace, Headers and Footers, Adding Comments, Conditional Formatting. **(5)**

3. Using Text to Columns, The Paste Special Function, Data Validation, Subtotals and Grouping, Consolidating Data, Scenario Analysis, Data Tables in Scenario Analysis, What-if Analysis, Mats and Trig Functions, Text Functions in Excel, Using Lookup Functions, Vlookups, Hlookups, Match, Using Statistical Functions, Database Functions, Financial Functions, Formula Auditing and Error Tracing, Hyperlinks in Excel, Linking Data, Understanding Pivot Tables, Using Pivot Charts, Workbook Properties, Protecting and Sharing Worksheets, Data Encrypting and Finalising Workbooks, Understanding Macros, Custom Number Formats in Excel, Using Custom Lists, Working with Templates, Tracking Changes in Excel, Merging and Compare Excel Workbooks. **(7)**

4. Using Pivot tables – Slicers -Report Filters for basic analytics, Contact Management and Marketing With Excel, Managing Customers, Vendors And Employees, Gaining Product And Service Insights, Sales reports using Excel, Supervising Sales With Excel, Preparing Invoices, Assessing Account Aging, Analyzing Demographics, Creating Scheduling And Marketing Calendars, Creating Standard Excel Templates for routine business data management and analysis activities. **(7)**

5. Managing Money With Excel, Building & Tracking Budgets, Planning And Tracking Loans, Keeping Account Registers, Creating Formulas for Financial Applications, PV, PMT, NPER, RATE, Creating Balance Sheet, Investment Calculations, Depreciation calculations, Lab based Evaluation, Gauging Business Status with Excel, Configuring Cash Flow Statements, Resolving Business Ratios, Creating Standard Excel Templates for routine business data management and analysis activities. **(7)**

Note:

- The entire course should be delivered in the computer lab in an application oriented manner.
- Business Applications should be stressed rather than merely teaching Excel as a software.

Suggested Text Books:

- Excel 2016 Bible, John Walkenbach, John Wiley & Sons
- Excel: Formulas & Functions, Robert Dinwiddie
- Excel 2007 for Dummies by Greg Harvey
- New Perspectives on Microsoft Office Excel 2007
- Microsoft Excel 2016 Step by Step, Curtis Frye

Semester I		117 - Business Systems and Procedures
------------	--	---------------------------------------

2 Credits	LTP: 0:3:1	Generic Elective – Institute Level
------------------	-------------------	---

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO117.1	REMEMBERING	TABULATE the key elements of a typical business system and related work flow procedures.
CO117.2	UNDERSTANDING	EXPLAIN a business system and related procedures.
CO117.3	APPLYING	PREDICT the fail points / bottle necks in a typical business process.
CO117.4	ANALYSING	BREAK DOWN a business system into simpler components and explain the inter-relationships.
CO117.5	EVALUATING	DEVELOP a process based thinking approach.
CO117.6	CREATING	CREATE standard operating procedures and flow charts / other visual representations for typical business systems and processes.

- Business Systems and Procedures:** Concept and need - Characteristics of a good procedure. Writing a Standard Operating Procedure (SOP)– Procedure Identification - Information Gathering–Interviewing – Analysis – Writing – Implementation – Review- Identifying Fail Points - Fine-tuning. Process Mapping Tools – Aid Memoir – Flowchart – Swim Lane Diagrams – Flow Charting Software – Using MS Word and Excel for Flowcharting - Case Studies. Re-engineering information flow and paper flow – Process Mapping for Current and Future State Map.
- Systems Study:** Process Mapping, Improvement and Writing SOP's for an entire range of activities for a typical business process in a manufacturing/ service organization. Students should visit appropriate organizations to study the real life processes.
- Detailed study of atleast **FIVE** Systems and underlying Procedures, such as: (list is illustrative only)
 - Attendance Recording System in a manufacturing / service organization.
 - Employee scheduling in a retail mall.
 - Facilities management and scheduling system in automobile workshop.
 - Inventory Management
 - Just in Time Inventory System in a manufacturing / service organization.
 - Kitchen Order Ticket (KOT) System in a Restaurant.
 - KYC verification system in a mutual fund house.
 - Loan approval system in a cooperative bank.
 - Maintenance system in a facility.
 - On-boarding of new employees in a manufacturing / service organization.
 - Payroll Management
 - Performance Appraisal system in a manufacturing / service organization.
 - Point of sale (POS) system in an organized retail store.
 - Purchase Order System in a manufacturing / service organization.
 - Quality Audit system
 - Receivables Management
 - Stock Taking system in a library.
 - Warehouse management system.
- Presentation of individual/group projects

Suggested Text Book:

- Business Process Management – A Rigorous Approach, Martyn A Ould , British Computer Society, First South Asia Edition.

Semester I		118 - Managing Innovation
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO118.1	REMEMBERING	DESCRIBE the key ideas relevant to innovation, intellectual property, business models

CO118.2	UNDERSTANDING	INTERPRET the various theories of innovation and EXPLAIN with examples the types of innovation.
CO118.3	APPLYING	EXPERIMENT WITH innovation as a systematic process and generate innovative ideas for new products and services.
CO118.4	ANALYSING	DISSECT contemporary start-up businesses for their business models, extent of innovation, success and failure.
CO118.5	EVALUATING	CREATE an inventory of product and process innovations for daily use consumer products and routine business processes in a typical organization.
CO118.6	CREATING	CREATE a potential list of innovation needs for India in the local, regional and national context and ASSESS the likelihood of constructing a business model around these needs in the current local, regional and national context.

6. Basics of Innovation: Concept of Innovation. Invention and Creativity - Role and relationship with innovation, Product innovation and process innovation, Radical and incremental innovation, Technological innovation, commercial or organizational Innovation, Characteristics of innovation in different sectors, Innovation in Indian context, Innovation and Creativity, Jugad and innovation, Innovation in Current Environment- local, regional and national context. **(4)**

7. Economics and Management of Innovation: Schumpeter and creative destruction, The evolutionary theory of Nelson and Winter, The model of the dynamic capabilities of David Teece, Porter and competitive advantages, The value chain, Drucker and the systematic innovation, Innovations diffusion, Speed, Adoption. Innovation and Knowledge, Tacit and explicit knowledge, Knowledge as a public good. **(5)**

8. Models of Innovation – Static Models: Incremental versus Radical Innovation, Abernathy –Clark Model, Henderson – Clark Model, Disruptive Technological Change Model, Innovation Value – Added Chain, Strategic Leadership View, Familiarity Matrix, Imitability & Complementary Assets – Teece Model. Dynamic Models: Utterback – Abernathy Model, Tushman – Rosenkopf technology Life Cycle Model, Foster’s S Curve. **(7)**

9. Instruments for Innovation: Challenges of Innovation, Innovation as a systematic practice, Steps of Innovation Management, Learning Cycle, The roles of the innovator, Functional Sources of Innovation – Internal Value Chain, Spillovers from Competitors, Suppliers, Customers and Complimentary Innovators, The generation of ideas: brainstorming, Creativity, Divergent V/s Convergent Thinking, Design Thinking, Blue Ocean Strategy. Experimentation in Innovation Management, Technology Innovation Process, Idea Championship, Participation for Innovation, Co-creation for Innovation, Screening the innovative ideas, Proto typing to Incubation. **(7)**

10. Management and Marketing of Innovation: Innovation Management Planning, Technology Forecasting, Innovation Sustainable Conditions, Management of Innovation, Concept of IPR. Creation of IPR, Types of IPR, Patents and Copyrights, Patents in India. **Business Models:** What is a Business Model? The evolution of the business model, The Business Model Canvas, Business Models and value proposition, Business Model Failure: Reasons and Remedies, Incubators: Business Vs Technology, Future markets and Innovation needs for India. **(7)**

5. Dictionary of Common Errors, Turton, N.D and Heaton, J.B, Addison Wesley Longman Ltd.

Semester II		214 - Industry Analysis - Desk Research
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO214.1	REMEMBERING	DESCRIBE the key characteristics of the players in an industry.
CO214.2	UNDERSTANDING	SUMMARIZE the management ethos and philosophy of the players in the industry.
CO214.3	APPLYING	DEMONSTRATE an understanding of the regulatory forces acting on the industry.
CO214.4	ANALYSING	COMPARE and CONTRAST, using tables and charts, the market and financial performance of the players in an industry.
CO214.5	EVALUATING	ASSESS the impact of recent developments on the industry and its key players.
CO214.6	CREATING	PREDICT the future trajectory of the evolution of the industry in the immediate future (1 to 3 years).

1. **Industry Analysis – the Basics:** Nature of the Industry, Players in the industry, Nature of competition, Market shares of top 5 & bottom 5 players, Possible Classification of players into Leaders, Challengers, Followers, Nichers, Positioning & Differentiation strategies of key players. Branding strategies, Pricing Policies, Cartelization if any and comments thereon, Capacity analysis – total capacity of the industry and break up capacity amongst key players, Current Capacity Utilization rates, Planned future capacity additions, Geographical spread of plants/facilities/ capacities (Domestics as well as Global), Demand Supply balance in the industry – at global, national and regional level, Key factors affecting demand, Key supply side constraints, Professional Trade bodies of the Industry, Business Functions carried out Online by the key players. Online presence of the players, Incremental Innovations in the industry, Disruptive Innovations in the industry. **(5)**
2. **Promoters & Management Ethos:** Background of promoter groups of top 5 and bottom 5 players in the industry, Management ethos and philosophy, Brief profiles of CMDs, CEOs, and key top management personnel with their career highlights, Detailed profile of one distinguished top management personnel each from any two players in the Industry, CSR policy, Corporate Governance Initiatives, Initiatives towards social inclusion, Initiatives towards environment conservation. **(5)**
3. **External Environment:** Controlling ministry and / or regulator if any for the Industry, Regulatory Policies at the state, national and global level and their impact on the industry as a whole with analysis of impact on top 5 players and bottom 5 players, Key National and Global issues affecting the industry, Key initiatives by the Government to promote the industry, Environmental issues, CSR initiatives, Regulatory actions against the players for e.g. Action by SEBI, Competition Commission of India, MTRP Commission, FDA, etc. against irregularities, legal violations if any. **(5)**
4. **Financials:** Profitability, Revenues, Margins of top 5 & bottom 5 players over the last 5 years and trends/changes therein, Sick players if any and their turnaround strategies, if any, Key factors contributing to costs, Ratio analysis of financial data for last 5 years for top 5 and bottom 5 companies in the industry. **(5)**
5. **Recent Developments:** Impact of key relevant provisions of the latest Fiscal policy on the industry and various players therein, Analysis of Key relevant provisions of latest Exim Policy in case of industries that are focused on Global Markets for exports or industries that have significant import components, Key Alliances in the past 5 years and their performance & impact on other players in the industry, Mergers & Acquisitions, if any. Technological developments, Labour unrest if any – reasons thereof and impact on the particular player and the industry as a whole, emerging first generation entrepreneurs, if any, in the industry, Corporate wars & feuds in the industry, if any. **(5)**

Note:

1. Students should work in groups of 3 to 5 each under the guidance of a faculty.
2. Students shall carry out an indepth study of any TWO industries of their choice.
3. Industries selected should be distinct from each other.
4. Students shall submit a structured detailed report.

Suggested Text Books:

1. No text books are prescribed.
2. The course has to be taught using the company annual reports and other publications, company website, social media feeds, business newspapers and business data bases such as ACE equity, CRISIL database, etc.

Semester II		215 – Entrepreneurship Lab
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO215.1	REMEMBERING	IDENTIFY a basket of potential business opportunities in the local, regional or national context.
CO215.2	UNDERSTANDING	COMPARE and CONTRAST the shortlisted business opportunities to SELECT the most suitable / promising opportunity.
CO215.3	APPLYING	DEVELOP a business model around the shortlisted business opportunity.
CO215.4	ANALYSING	FORMULATE the organization structure for the proposed start up
CO215.5	EVALUATING	EVALUATE the market potential and ESTIMATE the financing requirements for the initial 1 to 3 years after launch.
CO215.6	CREATING	CREATE a proposal for funding the start up.

This course provides a hands-on experience to the students to convert and apply theoretical and conceptual knowledge about entrepreneurship into practical entrepreneurship. During the course, students shall identify and evaluate a new business opportunity (which may be supplied by an entrepreneur or innovator in the nearby region.)

Students shall work in a group, of not more than 5 students, on a real-life business case.

Scope of the work expected:

1. Business Model Designing
2. Business Plan Designing
3. Financial Planning
4. Prototype Making
5. Test Marketing
6. Planning Commercial Launch.

Suggested Text Books:

1. New Venture Management: The Entrepreneur's Roadmap (Entrepreneurship Series), Donald F. Kuratko and Jeffrey S. Hornsby, Pearson
2. The Manual for Indian Start-ups: Tools to Start and Scale-up Your New Venture, Vijaya Kumar Ivaturi, Meena Ganesh, Penguin Random House India.
3. Managing New Ventures, Anjan Raichoudhuri, Prentice-Hall of India Pvt.Ltd

7. A Guide to Entrepreneurship by David, Otes, Jaico Books Publishing House, Delhi.
8. Indian Entrepreneurial Culture by A Gupta, New Age International.
9. Make The Move: Demystifying Entrepreneurship by Ishan Gupta, Rajat Khare

Semester II		216 - SPSS
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO216.1	REMEMBERING	IDENTIFY the key menus of SPSS and DESCRIBE their functionality.
CO216.2	UNDERSTANDING	EXPLAIN the main features of SPSS
CO216.3	APPLYING	MAKE USE OF various tools to manage data, describe data and display graphical output using SPSS.
CO216.4	ANALYSING	ANALYSE data using various statistical tests of SPSS
CO216.5	EVALUATING	INTERPRET and EXPLAIN the outputs from SPSS
CO216.6	CREATE	DESIGN, DEVELOP and TEST advanced multivariate models using SPSS.

1. **Overview:** SPSS Environment, Introduction to various menus, Data file, Output file, Frequently –used dialog boxes, Editing output, Printing results. Creating and editing a data file – Variable and data view, Value Labels.
2. **Managing Data:** Listing cases, replacing missing values, computing new variables, recording variables, exploring data, selecting cases, sorting cases, merging files, splitting files, Visual Binning. **Frequencies:** Frequencies, bar charts, histograms, percentiles. **Descriptive Statistics:** Measures of central tendency, variability, deviation from normality, size and stability. Cross Tabulation and chi-square analyses, The means Procedure. **Graphs:** Creating and editing graphs and charts
3. **Bivariate Correlation:** Bivariate Correlation, Partial Correlations and the correlation matrix. **The T-test Procedure:** Independent –samples, paired samples, and one sample tests. **Non Parametric Tests:** ChiSquareTest, 1 sample test, 2 independent samples test, k independent samples, 2 related samples test, k related samples.
4. **One Way ANOVA Procedure:** One way analysis of variance, General Linear model: Two –way analysis of variance, General Linear model: three –way analysis of variance and the influence of covariates
5. **Advanced Tools:** Simple Linear Regression , Multiple regression analysis. Multidimensional scaling, Reliability Analysis, Factor analysis, Cluster analysis.

Suggested Text Books:

1. Discovering Statistics Using SPSS, by Andy Field A, SAGE
2. How to Use SPSS: A Step-By-Step Guide to Analysis and Interpretation by Brian C. Cronk

Semester II		217 - Foreign Language II
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217.1	REMEMBERING	LISTEN to simple audio-visual recordings in the foreign language.
CO217.2	UNDERSTANDING	TRANSLATE simple letters from English to the foreign language and vice-versa.
CO217.3	APPLYING	CONSTRUCT a business email, in the foreign language.
CO217.4	ANALYSING	TAKE PART IN an interaction in a business setting using the foreign language.
CO217.5	EVALUATING	COMPOSE a covering letter and resume in the foreign language.

1. **Listening:** Understand Simple Questions and Instructions. **Reading:** Understand Single Words and Sentences but also Signposts, Signs and Posters. **Speaking:** Provide Short Information about the Job and the Person. **Writing:** Fill in Forms and Provide Information About Name, Address, Nationality etc. (6)
2. **Listening:** Understand Information about the Person and the Work. **Reading:** Understand Simple Letters, Appointments, Invitations and Information in Short Texts. **Speaking:** Answer Simple Questions About One's Working Field. **Writing:** Write Faxes and e-mails. (6)
3. **Listening:** Understand Standard Information Related to the Working Field. **Reading:** Understand Standard Letters and Texts about Working Processes and Product Descriptions. **Speaking:** Provide Information about the Job, the Departments, the Company, the Products and Processes in a Conversation or on the Phone. **Writing:** Answer Standard Inquiries, Make Quotations, Write Short Texts with a Familiar Content, Possibly Give Some Explanation and Answer Simple Questions. (6)
4. **Listening:** Understand Complex Information Related to the Working Field in Meetings, Discussions and at Presentations. **Reading:** Understand Reports and Contracts with a Company-related Content. **Speaking:** Describe and Explain Work Processes and Projects. Report on Meetings and Presentations. Explain Concepts and Clarify Misunderstandings. **Writing:** Write Formal Standard Letters and Texts about One's Field of Expertise. Explain a Graphic and Reflect the Content. (6)
5. **Grammar:** Future tense, imperfect tense, degrees of comparison, imperative mood. Script, Letters of alphabet, accents, sounds of groups of letters, punctuation marks, articles, nouns, sing./Pl , genders; mas. /fem. Structure of sentences & types like affirmative, negative interrogative & negative interrogative, Verbs: classes of verbs and conjugation patterns, Pronominal verbs; Present tense, The idea of auxiliary verb; prepositions; pronouns- subject, interrogative, relative, possessive, emphatic ; adjectives, adverbs. (6)

Note: Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Suggested Text Books:

Relevant Standard Text Books, Videos, Audio CDs

Foundation Courses (Elective) - Semester I & II

Semester I		FOU – 001: Elementary English
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU001.1	REMEMBERING	LABEL the different parts of a sentence, correctly SPELL and PRONOUNCE the words in common usage and effectively LISTEN to short AV material (English).
CO-FOU 001.2	UNDERSTANDING	PARAPHRASE published written and audio visual content (English) in own words.
CO-FOU 001.3	APPLYING	CONSTRUCT short paragraphs and essays (English) for a specified task, to elicit, to select, to describe, to summarize information.
CO-FOU001.4	ANALYSING	TAKE PART IN conversations using general, social and professional (English) language.
CO-FOU001.5	EVALUATING	CHECK written and audio visual content (English) for grammatical correctness.
CO-FOU001.6	CREATING	SUBSTITUTE right words / terms / phrases in a compiled text.

- Fundamental grammatical structures and functions** - sentence types, tenses, voice, parts of speech, word order, expressing possibility, obligation, necessity, prohibition, criticism; expressing preferences, making assumptions; asking for/ refusing/giving permission; making offers, suggestions, punctuation, etc. **(3)**
- Building fundamental vocabulary** - to fulfill the above mentioned functions in roles, topics and discussions, synonyms, antonyms, homonyms, homophones, using dictionary, using thesaurus. **(3)**
- Listening** – short AVs in English, understanding the gist, the main points, look for detail or specific information, deduce the meaning. **(3)**
- Reading material** - reading various common place publications, using different strategies for different reading purposes, identifying the main points in a text, looking for detail, locating specific information in a text, understanding a text structure, right pronunciation, etc. **(3)**
- Conversation on different topics** - people, jobs, places to visit, festivals/celebrations, eating habits, attire, current affairs – popular personalities, disasters/accidents, politics, technology, sports/hobbies, environment, education, entertainment, transport, crime, etc. **(3)**

Suggested Text Books:

- English Grammar and Composition, Wren & Martin, S. Chand Publishing
- Word Power Made Easy, Norman Lewis

Semester I		FOU – 002: Elementary Mathematics and Statistics
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU002.1	REMEMBERING	MEMORIZE and REPRODUCE all basic formulae covered in the syllabus.
CO-FOU002.2	UNDERSTANDING	EXPRESS numbers in various forms such as fractions, percentages, equivalent simplest fractions.
CO-FOU002.3	APPLYING	CALCULATE Percentages, Profit & Loss, Simple & Compound Interest, frequency, cumulative frequency, basic areas and basic volumes.

CO-FOU002.4	ANALYSING	ILLUSTRATE relationships using direct and inverse proportion, simple graphs, linear and quadratic equations.
CO-FOU002.5	EVALUATING	INTERPRET basic statistical data, graphs, and venn diagrams.
CO-FOU002.6	CREATING	CREATING and SOLVING simple simultaneous equations.

- Numbers:** Integers and fractions, squares, cubes, square roots and cube roots by prime factorization, negative numbers; Examples of very large and very small numbers such as million/billion/trillion, positive, negative, zero and fractional indices, laws of indices. **(1)**
- Preliminary Mathematics:** HCF & LCM, Ratio & Proportion, Problems based on Ages. **(2)**
- Ratio, rate and proportion:** Ratios involving rational numbers, writing a ratio in its simplest form, average rate, direct and inverse proportion, problems involving ratio, rate and proportion **(1)**
- Fractions & Percentages :** Expressing one quantity as a percentage of another, comparing two quantities by percentage, percentages greater than 100%, increasing/decreasing a quantity by a given percentage, reverse percentages, problems involving percentages **(1)**
- Mathematical Operations for Business:** Percentage, Profit & Loss, Simple & Compound Interest. **(1)**
- Time and Number related Mathematical operations:** Time & Work, Time, Speed & Distance, Number System, Permutation, and Series. **(2)**
- Basic Statistics:** Classification and tabulation of data, presentation of data, graphical presentation of data by frequency curve, frequency polygon, ogives, histogram. **(2)**
- Set Theory:** Basic concepts, Venn diagrams, interpretation. **(2)**
- Trigonometry :** Basic Trigonometry, Area and Volume. **(1)**
- Equations:** Simultaneous Equations, Quadratic Equations. **(2)**

Semester I		FOU – 003: Elementary Business Economics
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU003.1	REMEMBERING	ENUMERATE the basic terms covered in the syllabus.
CO-FOU003.2	UNDERSTANDING	INTERPRET the historical trends in key economic data from a managerial and business perspective.
CO-FOU003.3	APPLYING	MAKE USE OF key Government and Non-Government economic publications to gather insights from a managerial and business perspective.
CO-FOU003.4	ANALYSING	ILLUSTRATE broad inter-relationships between various economic parameters within the national context and global context.
CO-FOU003.5	EVALUATING	EXPLAIN the role and objectives of Monetary and Fiscal policy.
CO-FOU003.6	CREATING	HYPOTHESIZE the expected short term trends of key economic indices.

- Concept of Economic Development, Concept of emerging, developed and developing economy, Concept of PPP **(1)**
- Economic Map of the Globe, Economic map of India. **(1)**
- Reserve Bank of India – composition, role, functions. **(1)**
- Economic Survey of India - Role, Scope, Objectives, Sections, Key highlights of last Economic Survey. **(1)**
- Union Budget - Role, Scope, Objectives, Sections, Key highlights of last Union Budget, Concept of Fiscal Deficit, Combined Fiscal Deficit. **(1)**
- Monetary Policy – Concept, Frequency, MPC - Role, Scope, Objectives of Monetary Policy, Key highlights of last few Monetary Policy statements, impact – sentimental and material on economy. **(1)**

7. Key Economic Indicators – Inflation, IIP, GDP, CRR, Bank Rate, Exchange Rate, Unemployment rate, Ease of doing business index, etc. **(1)**
8. Inflation – Concept, CPI, WPI, Composition, Changes over time, Trends, Usage in policy making, Implications of high and low CPI, WPI. **(1)**
9. Exchange rates – Concept, USD – INR, Euro – INR, Yuan – INR, Renminbi – INR, Key trends and influencing factors. **(1)**
10. GDP – Composition, Trends. **(1)**
11. Key Stock Markets & Stock Indices – Sensex, Nifty, Sectoral Indices in India, Global Indices - European Indices, American Indices, Asian Indices. **(1)**
12. Commodity Markets – Crude, Precious Metals, Industrial Metals, Agro Commodities, MCX, NCDEX. **(1)**
13. Direct & Indirect Taxes – Concept of Direct Tax, Indirect Tax, Income Tax, Wealth Tax, GST. **(1)**
14. Key Sources of Data – Census, CSO, Niti Aayog, Different Ministries of Government of India, CRISIL, NCAER, Credit Rating Agencies. **(1)**
15. Introduction of G7, G 20, BRICS, ASEAN, SAARC, EuroZone, PIIGS, ADB, WB, etc. **(1)**

Suggested Text Books:

1. Indian Economy , Dutt R and Sundharam K.P.M, S .Chand, Delhi
2. Indian Economy, Agarwal A. N., Vikas Publishing House, Delhi
3. Indian Economy, Misra S.K. and Pury V.K., Himalaya Publishing House, New Delhi

Semester I		FOU – 004: Elementary Accounting
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU004.1	REMEMBERING	DESCRIBE the basic accounting terminologies and concepts covered in the course syllabus.
CO-FOU004.2	UNDERSTANDING	EXPLAIN the concepts covered in the course syllabus.
CO-FOU004.3	APPLYING	APPLY concepts covered in the course syllabus to accurately do the required calculations.
CO-FOU004.4	APPLYING	DETERMINE the key elements of business transactions and complete their accounting.
CO-FOU004.5	EVALUATING	DESIGN and OPERATE the entire accounting process (from entry to Balance - Sheet) for any given transaction.

1. **Basic Concepts and Terminologies** –Business Transaction, Meaning and Scope of Book Keeping and Accountancy, Importance of Book Keeping and Accountancy, Basic Terminologies related to Book Keeping and Accountancy, Classification of Accounts, Principle of Double Entry and Golden Rules of Accounting. (3+1)
2. **Journal Entries** – Preparation of Journal and passing journal entries (2+1)
3. **Ledger Posting & Balancing** – Preparation of Ledger Accounts, Posting the journal entries in the ledger accounts, Ledger Accounts Balancing and Interpretation of Ledger Account Balances. (2+1)
4. **Trial Balance** – Preparation of Trial Balance and Importance of Trial Balance in Accounting Process. (1+1)
5. **Final Accounts of Sole Proprietor** –Trading Account, Profit & Loss Account and Balance Sheet without adjustments. (2+1)

Suggested Text Books:

1. T.S. Grewal's Double Entry Book Keeping
2. Taxmann's Fundamentals of Accounting (CA CPT), CA D.G. Sharma
3. Book Keeping and Accountancy, Aina Pure and Aina Pure
4. Managerial Accounting, Dr. Mahesh Abale and Dr. Shriprakash Soni

Suggested Reference Books:

1. Financial Accounting for Management: Shankarnarayanan, Ramanath- CENGAGE Learning
2. Financial Accounting for Managers, Sanjay Dhmiya, Pearson Publications

3. Accounting For Management, Jawahar Lal
4. Accounting, Shukla Grewal

Semester I		FOU – 005: Elementary Information Technology
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU005.1	REMEMBERING	DESCRIBE various components of a computer, network.
CO-FOU005.2	UNDERSTANDING	EXPLAIN the characteristics and usage of various elements of a computer, a network and operating systems.
CO-FOU005.3	APPLYING	USE various input, output, memory and local network devices.
CO-FOU005.4	ANALYSING	TEST and do basic troubleshooting of a standalone desktop or desktop connected to a network.
CO-FOU005.5	EVALUATING	EXPLAIN basic terminology related to data and information.
CO-FOU005.6	CREATING	DISCUSS emerging trends in IT.

1. **Computer Basics:** Introduction, Evolution of Computers, Computer Generations, Classification of Computers, Computer Applications. Computer Organization, Memory and Storage - Basic Computer Organization (a) Input devices - keyboard, voice devices, scanner, MICR, OMR, Bar code reader, digital camera, etc. (b) Output devices - Visual Display Unit, printers, plotters, Audio Output, etc. (c) Memory or Storage Devices – Memory or Storage Unit - Physical Devices Used as Storage Cells, Random Access Memory, Read Only Memory, Secondary Storage, Compact Disk Read Only Memory, Flash Memory, Archival Storage, etc. (d) Central Processing Unit. Basic trouble shooting. Connecting a desktop, laptop to LCD, printer, etc. **(4)**
2. **Computer Software:** Introduction, System Software, Application Software, Software Installing and Uninstalling, Booting, Software Development Steps, Programming Languages - Classification of Programming Languages. Operating System - Introduction, Role and functions of Operating System, Working Knowledge of GUI Based Operating System, Use of menus, tools and commands of windows operating system, File Handling and Management. **(4)**
3. **Computer Networks:** Overview of Computer Network, Types of computer networks (LAN, WAN and MAN), Network topologies, Components of computer networks (servers, workstations, network interface cards, hub, switches, cables, etc.) Internet and its Tools - Introduction, Internet Evolution, Basic Internet Terminology, Data over Internet, Modes of Data Transmission, Types of Networks, Types of Topologies, Protocols used in the Internet, Getting Connected to Internet Applications, Internet Applications, Computer Ethics. **(3)**
4. **Information Technology Basics:** Introduction, Data and Information, Types of Data, Need for Information Storage and Processing, **(2)**
5. **Emerging Trends in IT:** Introduction, Electronic Commerce, Electronic Data Interchange, Smart Cards, Mobile Communications, Internet Protocol TV. **(2)**

Suggested Text Books:

1. Computers Today, Basandra SK, Galgotia.
2. Fundamentals of Information Technology, Leon, Vikas
3. Information Technology: Inside and outside, Cyganski, Pearson
4. Computer Applications in Management, Kakkar DN, Goyal R, New Age
5. Information Technology for Management, B Muthukumaran, Oxford University Press

Semester I		FOU – 006: Elementary Business Etiquette
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU006.1	REMEMBERING	DEFINE terms and concepts used to describe appropriate business etiquette attitudes and behaviors.
CO-FOU006.2	UNDERSTANDING	EXPLAIN what is meant by business etiquette and how it impacts the workplace.

CO-FOU006.3	APPLYING	DEMONSTRATE appropriate behaviors within specific business situations.
CO-FOU006.4	ANALYSING	TAKE PART IN professional business meetings and real & virtual business conversations.
CO-FOU006.5	EVALUATING	DETERMINE the right attire for business, casual and multicultural events.
CO-FOU006.6	CREATING	PLAN a professional business meeting and a business meal.

1. **Professionalism at Work:** Making a good first impression, understanding the mechanics of human perception, being aware of elements in image building, developing a culture of excellence, basic understanding of acceptable attitudes and mannerisms at work, the role of Good Manners in Business? Disability Etiquette - Basic disability Etiquette practices, Courtesies for wheelchair users, Courtesies for blind or visually impaired, Courtesies for the deaf, People with speech impairments. Multi-cultural challenges, Multi-cultural etiquette, Cultural differences and their effect on business etiquette, Select Cultural Highlights (5)

2. **Body Language at Work:** Non verbal communication, the 'smile' factor, building posture, facial expressions and eye contact, gestures for effective communication. (3)

3. **Business Etiquette Basics:** Introduction to business etiquette - The ABCs of etiquette Meeting and greeting scenarios, Enduring Words, Making introductions and greeting people, Greeting Components, The protocol of shaking hands, Introductions, Introductory scenarios, Addressing individuals, Networking for business, Business card protocol, Managing your business voice, Speaking Diplomatically, Managing Question and Answer Sessions Effectively - Anticipatory Q & A, Dealing with hostile questions, Reframing principles, Case Studies and Practice, Cell phone Etiquette, Voice Mail Etiquette, Internet & email etiquette, Internet usage in the workplace, Email, Netiquette, Online chat, Online chat etiquette, Online chat etiquette guidelines. (5)

4. **Dining Etiquette:** Planning a meal, issuing invitations, How to proceed through a receiving line, seating guidelines, navigating a place setting, appropriate table manners. (1)

5. **Business Attire & Professionalism:** Dressing sense, selecting the right clothing for a business wardrobe, Business style and professional image, Dress code, Guidelines for appropriate business attire, Grooming for success, Guidelines for appropriate business attire, Multicultural dressing, Making-up basics. (1)

Suggested Text books:

1. The Essentials of Business Etiquette: How to Greet, Eat, and Tweet Your Way to Success, Barbara Pachter
2. Modern Manners: Tools to Take You to the Top, Dorothea Johnson and Liv Tyle
3. Business Etiquette: 101 Ways to Conduct Business with Charm and Savvy, Ann Sabath
4. Indian Business Etiquette, Raghu Palat, Jaico Publishing
5. Business Etiquette: A Guide for the Indian Professional, Shital Kakkar Mehra

Semester II		FOU – 007: Elementary MS Word
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU007.1	REMEMBERING	SHOW basic menus of MS WORD on the screen and RECALL the functionality.
CO-FOU007.2	UNDERSTANDING	DEMONSTRATE the use of formatting, layout and printing tools of MS Word to create professional word documents.
CO-FOU007.3	APPLYING	APPLY the viewing, referencing tools of MS Word.
CO-FOU007.4	ANALYSING	ILLUSTRATE the use of reviewing tools for collaborative MS word documents.
CO-FOU007.5	EVALUATING	DESIGN and execute Mail merged documents.
CO-FOU007.6	CREATING	COMPILE a professional report using templates, Tables, Table of contents, referencing, headers, footers and page numbers.

1. Introduction to MS WORD, The Screen and its Elements, The Office Button, Quick Access, The View Buttons, Print Layout, Full Screen Reading, Web Layout, Outline , Draft, Zoom, The Status Bar, Creating a New Document,

- Starting on a New Blank Document, Templates, Writing and Simple Formatting - Simple formatting, Formatting with Styles, Customising Styles. **(3)**
2. Pictures and Graphics, Pictures, Insert a Picture from a File, Adjusting Picture Size, Positioning and Text Wrapping, Captions, Cross-References to Characters, Pictures and Headlines, Clip Art, SmartArt, Excel Charts, Create a New Excel Chart in Word, Insert a Chart from an Excel Project File, Tables Tools, Illustrations, Equations, Symbols. **(3)**
 3. Tables of contents and other references - Create a table of contents, Edit a citation placeholder, Create a bibliography, Foot note & End Note, Captions & Index, Mail Merge – Preparation, Retrieving Merge Data, Complete the Merge. **(3)**
 4. Page Layout, Margins, Adjusting the Margins, Page Setup, Setting Page Size, Orientation, Columns, Sections, Page Header and Footer, Tabs (tabulators), Page Numbers, Links, Page breaks and section breaks, Applying Multiple headers, Checking Spelling, grammar, and thesaurus. **(3)**
 5. Collaboration - Protect your document with passwords, permission, and other restrictions, Tracking changes and comments - Turn track changes on or off, Review tracked changes and comments. **(3)**

Suggested Text Books:

1. Microsoft Word 2016 Step by Step, Joan Preppernau
2. Microsoft Word 2016 Introduction Quick Reference Guide - Windows Version (Cheat Sheet of Instructions, Tips and Shortcuts, Lamina

Semester II		FOU – 008: Elementary MS Powerpoint
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU008.1	REMEMBERING	SHOW basic menus of MS Powerpoint on the screen and RECALL the functionality.
CO-FOU008.2	UNDERSTANDING	DEMONSTRATE the use slide management, slide layout and reviewing tools of MS Powerpoint to create professional presentations.
CO-FOU008.3	APPLYING	USE tables, charts, smart art, animation and references in a powerpoint presentation.
CO-FOU008.4	ANALYSING	ILLUSRATE the various modes of delivery of the final powerpoint presentation.
CO-FOU008.5	EVALUATING	DEVELOP custom themes and customize slide masters and layouts.
CO- FOU008.6	CREATING	COMPILE a professional powerpoint presentation using templates, tables, images, hyperlinks, animation, templates, headers, footers and slide numbers, etc.

1. **Get started with PowerPoint:** PowerPoint basics, Start PowerPoint, Work in the PowerPoint user interface, Create and manage presentations, Open and navigate presentations , Display different views of presentations, Change the display of content, Display and edit presentation properties, Save and close presentations, Compatibility with earlier versions, Create and manage slides , Add and remove slides, Insert new slides , Copy and import slides and content, Hide and delete slides, Divide presentations into sections, Rearrange slides and sections, Apply themes, Change slide backgrounds. **(4)**
2. **Editing and Managing Text:** Insert and manage slide text, Enter and edit text, Insert nonstandard characters, Add supplementary text to slides, Insert equations, Add a slide footer, Move, copy, and delete text, Format text placeholders, Format characters and paragraphs, Apply WordArt text effects, Configure AutoCorrect options, Check spelling and choose the best wording, Find and replace text and fonts. **(5)**
3. **Tables, Shapes and Charts:** Present text in tables, Insert tables, Format tables, Modify table structure, Embed and link to Excel content, Insert and manage visual elements, Insert and manage simple graphics, Insert, move, resize, edit and format pictures, Draw and modify shapes, Draw and add text to shapes, Locate additional formatting commands, Move and modify shapes, Format shapes, Connect shapes, Capture and insert screen clippings, Create a photo album. Create and manage business graphics, Create diagrams, Sidebar: Picture diagrams Modify diagrams,

Format diagrams, Create charts, Modify charts, Manage chart data, Modify the display of chart elements, Pie charts, Format charts, and Custom chart templates. **(6)**

4. **Animation:** Add sound and movement to slides Animate text and pictures on slides, Customize animation effects, Bookmark points of interest in media clips, Add audio content to slides, Add video content to slides, Compress media to decrease file size, Hyperlink to additional resources, Add and manage slide transitions. **(5)**

5. **Finalize presentations:** Create custom presentation elements, Create custom themes, Customize slide masters and layouts, Save custom presentation templates, Save and share presentations, Save presentations in other formats, Share presentations from PowerPoint, Restrict access by using passwords, Add and review comments, Coauthor presentations. Review presentations, Add notes, Configure slides for presentation or printing, Inspect and finalize presentations, Print presentations and handouts, Prepare and deliver presentations, Adapt presentations for different audiences, Rehearse a presentation and set slide timings, Prepare presentations for travel, Present slide shows, Start the slide show, Use the slide show tools. **(5)**

Suggested Text Books:

1. Microsoft PowerPoint 2016 Step by Step, Joan Lambert
2. Microsoft PowerPoint 2016 Made Easy: A Step-by-Step Guide for PC Users, Dr. Harold Lloyd Fisher Jr., Kymitra L. Fisher (Editor)
3. Exploring Microsoft PowerPoint 2016 Comprehensive, Mary Anne Poatsy, Rebecca Lawson, Cynthia Krebs, Robert T. Grauer

Semester II		FOU – 009: Data Interpretation and Logical Reasoning
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU009.1	REMEMBERING	RECOGNIZE when additional information is needed to solve problems.
CO-FOU009.2	UNDERSTANDING	EXPRESS quantitative and non-quantitative data, associations and linkages in a logical format.
CO-FOU009.3	APPLYING	USE statistical information when reported in condensed form or as summary statistics to make informed decisions.
CO-FOU009.4	ANALYSING	DISSECT arguments, SEQUENCE relationships, EXAMINE assumptions, DETECT fallacies and INFERENCE from the same.
CO-FOU009.5	EVALUATING	ESTIMATE and CHECK answers to logical and data sufficiency problems in order to determine reasonableness, identify alternatives, and select correct options.
CO-FOU009.6	CREATING	DEVELOP and EVALUATE inferences and predictions based on the data and information provided.

Data Interpretation

1. Tables
2. Pie Charts
3. Caselets
4. Bars
5. Line Graphs
6. Data Sufficiency

Logical Reasoning

1. Blood Relations
2. Direction Sense
3. Puzzles
4. Data Arrangement, Seating Arrangement
5. Data Structures
6. Series

7. Coding-Decoding
8. Clocks and Calendars
9. Family Tree
10. Venn Diagram
11. Syllogism
12. Proposition, Assumptions
13. Statements
14. Binary Logic
15. Sets

Suggested Text Books:

1. How to Prepare for Data Interpretation, Arun Sharma, Tata Mc Graw Hill
2. Puzzles to Puzzle you, Shakuntala Devi
3. Quantitative Aptitude, Abhijeet Guha, Tata Mc Graw Hill
4. Quantitative Aptitude, Agarwal R S, S Chand
5. Data Interpretation & Data Sufficiency, Ananta Ashisha
6. The Great Book of Puzzles & Teasers, George J Summers
7. Magical Book Series: Data Interpretation, K. Kundan
8. A Modern Approach to Verbal Reasoning, R.S. Aggarwal

Semester II		FOU – 010: Verbal Ability & Reading Comprehension
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU010.1	REMEMBERING	IDENTIFY parts of speech
CO-FOU010.2	UNDERSTANDING	SUMMARIZE a given text material in defined word limits.
CO-FOU010.3	APPLYING	MAKE USE OF foreign words in English Language, idioms and phrases.
CO-FOU010.4	ANALYSING	EXAMINE given text sentences and paragraphs for errors and correct them.
CO-FOU010.5	EVALUATING	SELECT the appropriate words in a given context.
CO-FOU010.6	CREATING	CONSTRUCT meaningful sentences and COMPOSE meaningful paragraphs from jumbled ones.

Verbal Ability and Reading Comprehension

1. Grammar, Parts of Speech, Articles. Nouns, Verbs, Adjectives, Pronouns, Conjunctions, Prepositions, Adverbs.
2. Clauses, Tenses, Subject & Verb Agreement, Question Tags
3. Analogies
4. Idioms & Phrases
5. Synonyms, Antonyms,
6. Homonyms, Homophones
7. One word substitution
8. Root words, origins of words, prefixes, suffixes,
9. Foreign language words used in English
10. Contextual usage, Different usage of same word
11. Spotting Errors, Error Correction
12. Fill in the blanks, Sentence correction, Sentence completion
13. Jumbled paragraphs, Para Completion and inference
14. Reading Comprehension
15. Verbal Logic, Verbal Reasoning, Syllogisms

Suggested Text Books:

1. How to Prepare for Verbal Ability and Reading Comprehension for CAT, Arun Sharma and Meenakshi Upadhyay/Arihant
2. 30 Days to a More Powerful Vocabulary, Wilfred Funk & Norman Lewis/ Simon & Schuster
3. How to Prepare for Verbal Ability and Reading Comprehension for the CAT, Sharma and Upadhyay
4. Puzzles to Puzzle you, Shakuntala Devi
5. A Modern Approach to Verbal Reasoning, R.S. Aggarwal
6. Competition Success Review

Semester II		FOU – 011: Quantitative Ability
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU011.1	REMEMBERING	RECALL the formulas.
CO-FOU011.2	UNDERSTANDING	INTERPRET quantitative information and INFER from it.
CO-FOU011.3	APPLYING	DEMONSTRATE number sense, including dimensional analysis and conversions between fractions, decimals, and percentages.
CO-FOU011.4	ANALYSING	EXAMINE the validity and DETECT possible biases in arguments presented in quantitative forms.
CO-FOU011.5	EVALUATING	DETERMINE when approximations are appropriate and when exact calculations are necessary.
CO-FOU011.6	CREATING	FORMULATE the problem quantitatively and USE appropriate arithmetical, and/or statistical methods to SOLVE the problems.

Quantitative Aptitude

1. Geometry
2. Trigonometry
3. Mensuration
4. Ratios and Proportion
5. Number system
6. Work and time
7. HCF & LCM
8. Algebra
9. Profit & Loss
10. Quadratic and linear equations
11. Geometric Progression
12. Percentages
13. Averages
14. Partnership (Accounts)
15. Time-Speed-Distance
16. Surds and Indices
17. Inequalities
18. Logarithms

Suggested Text Books:

1. Shakuntala Devi, Puzzles to Puzzle you
2. Quantitative Aptitude, Abhijeet Guha, Tata Mc Graw Hill
3. Quantitative Aptitude, Agarwal R S, S Chand
4. Data Interpretation & Logical Reasoning, Gautam Puri
5. Logical Reasoning and Data Interpretation, Nishit K. Sinha
6. Data Interpretation & Data Sufficiency, Ananta Ashisha

Subject Core (SC) Courses - Semester II
Specialization: Marketing Management

Semester II		205MKT: Marketing Research
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Marketing Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205MKT.1	REMEMBERING	IDENTIFY and DESCRIBE the key steps involved in the marketing research process.
CO205MKT.2	UNDERSTANDING	COMPARE and CONTRAST various research designs, data sources, data collection instruments, sampling methods and analytical tools and SUMMARIZE their strengths & weaknesses.
CO205MKT.3	APPLYING	DEMONSTRATE an understanding of the ethical framework that market research needs to operate within.
CO205MKT.4	ANALYSING	ANALYSE quantitative data and draw appropriate Inferences to address a real life marketing issue.
CO205MKT.5	EVALUATING	DESIGN a market research proposal for a real life marketing research problem and EVALUATE a market research proposal.
CO205MKT.6	CREATING	PLAN and UNDERTAKE qualitative or quantitative Market Research and demonstrate the ability to appropriately analyse data to resolve a real life marketing issue.

1. **Introduction to Marketing Research:** Definitions - Marketing Research, Market Research, Scope and Limitations of Marketing Research, Role of Information in Marketing Decisions, Value and Cost of Information, Marketing Information System and Marketing Research, Marketing Decision Support System, Threats to Marketing Research, Relationship between Marketing Research & Marketing, Organizing Marketing Research function, Evaluating utility of Marketing Research, Online Marketing Research, Recent Trends in Marketing Research, Marketing Research Industry in India. **(3+1)**

2. **Marketing Research Proposal:** The marketing research brief, The Marketing decision problem and marketing research problem, Defining the marketing research problem, developing the research approach, The decision maker & the environment, alternative courses of action, objectives of decision maker, consequences of alternative courses of action, Translating decision problem to research problem, The marketing research proposal (Background - basic problem/opportunity, Objectives, Research Design – Qualitative & Quantitative approaches, Data Requirements, Data collection methods, Data collection instruments, Population definition, Sample Plan, Sample size, Sampling Methodology, Statistical analysis, Cost Estimates, Time line, Appendices), Report Writing, Ethical Issues in Marketing Research – participant issues, sponsor issues, corporate espionage, code of ethics. **(5+1)**

3. **Advanced Analytical Tools:**

- (a) **Conjoint Analysis:** Conceptual basis, procedure, type of data required, key decision, how to interpret output, applications to study trade off patterns of consumers as related to different levels of marketing mix elements (Question on interpretation of output is expected)
- (b) **Factor Analysis:** Conceptual basis, type of data required, procedure, PCA, Interpreting factor matrix (factor loadings, communalities, Eigen value), determining number of factors using latent root criteria & scree test, interpreting & naming factors, applications in consumer behavior studies (interpretation of output is expected)
- (c) **Cluster Analysis:** Conceptual basis, type of data required, procedure, clustering methods – single linkage rule, how to interpret output, applications related to psychographic & lifestyle market segmentation (interpretation of output is expected)
- (d) **Multi- dimensional Scaling & Perceptual Mapping:** Conceptual basis, type of data required, key decision-attribute based versus non-attribute based approaches, procedure, how to interpret output, applications related to target market selection & positioning (interpretation of output is expected)
- (e) **Discriminant Analysis (Two Group Case):** Conceptual basis, type of data required, determining the coefficients, interpreting discriminant function & classifying subjects using discriminant function, applications in marketing (interpretation of output is expected) **(10+2)**

4. **Marketing Research Applications - I:**

- (a) **Sales Analysis and Forecasting:** Mining internal customer and sales data, In-store shopper marketing research and Retail shop audits, margin trend data, targeting best customers, identifying most efficient and effective advertising and promotion methods to reach existing consumers, Consumer panels, Customer satisfaction research, Concept of

Market demand and Market potential, Forecasting, Forecasting methods, Choosing a forecast model, forecast errors. Moving Average and Exponential Methods, Decomposition Methods, Regression Models.

(b) **New Product Development and Test Marketing:** marketing information for new markets, new product categories, new product concepts, new product design and market validation research, test marketing – uses, types, methods, limitations. Conjoint analysis for understanding consumer preferences and application to product design.

(c) **Market Segmentation and Positioning:** researching traditional market segments, defining meaningful segments, assessing existing product strength and line extension potential, creative positioning strategy, repositioning strategy research, defining go-to-market strategy, current and potential markets. **Use of Factor analysis and perceptual maps.**

- Human Resource Management, L M Prasad
- Human Resource Management, Gary Dessler

Semester II		206HRM: Employee Relations and Labour Legislations
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
-----	---------------------	-----------------

CO206HRM.1	REMEMBERING	SHOW awareness of important and critical issues in Employee Relations
CO206HRM.2	UNDERSTANDING	INTERPRET and relate legislations governing employee relations.
CO206HRM.3	APPLYING	DEMONSTRATE an understanding of legislations relating to working environment.
CO206HRM.4	ANALYSING	OUTLINE the role of government, society and trade union in ER.
CO206HRM.5	EVALUATING	EXPLAIN aspects of collective bargaining and grievance handling.
CO206HRM.6	CREATING	DISCUSS the relevant provisions of various Labour Legislations.

1. Introduction: Background of Employee Relations, Concept, definition, scope, objectives, factors, participants & importance of ER, Approaches to employee relations – The Dunlop's approach, The Social Action Approach, The Human Relations Approach and The Gandhian Approach, Labour policies, role of ILO and its influence on legislation in India. **(5+3)**

2. Mechanism for harmonious ER: Collective bargaining - definition, meaning, nature, essential conditions, functions and importance, process and its implementation, Workers participation in management & Problem solving attitude, Grievance, meaning and forms, sources, approaches, procedures, model grievance procedure and grievance handling committees. **(6+3)**

3. Legislations governing Employee Relations: The Industrial Disputes Act 1947 – Definition of industry, workmen and industrial dispute, authorities under the act, procedure, powers and duties of authorities, strikes and lockouts, layoff, retrenchment and closure, The Contract Labour (Regulation and Abolition) Act 1970 – Advisory boards, registration of establishment, Licensing of Contractors, Welfare and health of contract labour, registers and other records to be maintained. **(6+3)**

4. Legislation governing Unions and wages: The Trade Union Act 1926- Formation and registration of Trade Unions, Principle privileges of a registered trade union, rights of recognised trade unions, types and structure of trade unions, impact of globalisation on trade union movement, Maharashtra Recognition of Trade Union and Prevention of Unfair Labour Practices Act 1971 – Unfair labour practices on the part of Employers and Employees, authorities and punishments under the act, Minimum Wages Act 1948 – Definition of wages, fixation and revision of minimum wages, advisory boards and committees, fixing hours for a normal working day, wages for worker who works for less than normal working day, maintenance of registers and records. **(6+3)**

5. Legislation governing working environment: The Factories Act 1948 – Definitions of factory, manufacturing process, worker, occupier; provisions under health, safety and welfare, working hours, annual leave with wages, prohibition of employment of young children, Maharashtra Shops & Establishment (Regulation of Employment and Conditions of Service) Act, 2017 – Scope, Registration of establishments, opening and closing hours, hours of work, interval for rest, spread over, wages for overtime and weekly off, leave with pay and payment of wages and welfare provisions, offences and penalties, Maternity benefit Act, 1961 – Entire Act and latest amendment, The Sexual harassment of women at workplace (Prevention, prohibition and Redressal) Act, 2013 – Definitions of sexual harassment, employee, workplace, complaints committee, complaint mechanism, Aggrieved Woman, Chairperson; Constitution of Internal Complaints Committee, Complaint, Inquiry into complaint, duties of employer. **(7+3)**

Suggested Text Books:

1. Personnel Management, C B Mamoria
2. Dynamics of Personnel Administration, Rudrabaswaraj
3. Personnel Management, Edwin Flippo
4. Industrial and Labour Laws, S. P. Jain

Suggested Reference Books:

1. Guide on Labour Management forms and precedents (Law, Practice and Procedure), S D Puri, Snow white publication
2. Introduction of Labour and Industrial Laws, Avatar Singh
3. Elements of Mercantile Law, N. D. Kapoor, Sultan Chand
4. Bare Acts

Subject Elective (SE) Courses - Semester II
Specialization: Human Resource Management

Semester II		217HRM: Labour Welfare
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217HRM.1	REMEMBERING	ENUMERATE the key concepts of the subject matter.
CO217HRM.2	UNDERSTANDING	DESCRIBE the key aspects of the labour policy regulation in the country.
CO217HRM.3	APPLYING	IDENTIFY the applicability of various legislations to variety of real world organizations.
CO217HRM.4	ANALYSING	EXAMINE the traditional concept of labour welfare in the industry.
CO217HRM.5	EVALUATING	EXPLAIN the conditions of labour and their welfare and social security needs in the country.
CO217HRM.6	CREATING	ELABORATE upon the perspective of labour problems and remedial measures in the country.

- 1. Introduction - Evolution of Labor Welfare :** Origin and evolution of Labour Welfare-objectives of Labour Welfare need and importance of L.W, Classification of Labour Welfare, Work agencies of Labour Welfare, Scope of Labour Welfare, Concepts, philosophy and principles of labour welfare, Plans and labour policy in India and Labour Welfare in India. (4+2)
- 2. Labour Legislations in India:** Statutory Welfare Amenities – as per Factories Act, 1948, Plantation Act, 1951, Motor Act 1952, Motor Transport Act. Non-statutory welfare Agencies – Role of Trade Unions, NGOs and Local-self Govt., National Commission on Labour and Labour Welfare, Labour Laws of the Elimination of Child Labour(4+2)
- 3. Agencies of Labour welfare:** Agencies of Labour welfare in India (Central Govt. , State Govt., Employers & Trade-Unions), Labour Welfare Officer: Role, Qualifications, Functions, Duties, Labour Administration in India (4+2)
- 4. Industrial Hygiene & Occupational Health:** Working condition and benefits, Working conditions in the factory-safety and accident prevention, Health and hygiene, Canteen organization and management, Organization of credit and consumer co-operative societies-recreational and educational activities-workers education in India, Functions of Labour welfare officers India. (4+2)
- 5. Problems of Indian labour:** Problems of Women Labour, Problems of Unorganized labour, Problems of Workers education (4+2)

Suggested Text Books:

1. Labour Problem and Social Welfare in India, Memoria, C. B., Kitab Mahal Allahabad
2. Labour Welfare, Trade Unionism and Industrial Relation, Puneekar, S. D. , Himalaya Publishing House, Bombay.
3. Labour Welfare and Social security, Kohli, A. S. and Sarma S. R., Anmol Publications Pvt. Ltd., New Delhi.
4. Child Labour in India, Misra, L., Oxford University Press, New Delhi.
5. Personnel Problems and Labour Welfare, Mathur D. C., Mittal Publication. New Delhi.

Suggested Reference Books:

1. Female Labour in India, Sharma Usha, Mittal Publication New Delhi
2. Aspects of Labour Welfare and Social Security, A.M.Sharma
3. Labour Problems and Social Welfare, R.C. Saxena
4. Labour economics and social welfare, Dr. B.P. Tyag

Semester II		218HRM: Lab in Recruitment and Selection
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO218HRM.1	REMEMBERING	DESCRIBE the key concepts such as Job Specification, Job description, Recruitment and Selection.
CO218HRM.2	UNDERSTANDING	COMPARE and CONTRAST various methods of Recruitment and Selection.
CO218HRM.3	APPLYING	DEVELOP Job Specifications and Job descriptions in a variety of context.

CO218HRM.4	ANALYSING	ANALYZE various Personality types.
CO218HRM.5	EVALUATING	EXPLAIN the profiling techniques used to test Personality, Aptitude, Competency.
CO218HRM.6	CREATING	COMPILE a list of questions for Recruitment and Selection interviews.

1. **Comparative study of 10 recruitment advertisements** (5 from Newspaper & 5 from job portals) & analysis of the same in the light of : Job Specification/ description, Mode of selection, Other details - Documentation for Recruitment
2. **Profiling Techniques** : Personality, Aptitude, Competency
3. **Interviewing**: Study of Interview modes, List of questions for interviewers, Personal, Telephonic.

Suggested Text Books:

1. Human Resource and Personnel Management, K Aswathappa, Tata McGraw Hill
2. Effective Recruitment and Selection Practices, Alan Nankervis, Robert Compton, Bill Morrissey.
3. Recruitment and Selection (Developing Practice), Chartered Institute of Personnel and Development
4. Successful Interviewing and Recruitment, Rob Yeung, Kogan ,Page Publishers

Semester II		219HRM: Learning & Development
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO219HRM.1	REMEMBERING	DESCRIBE the key concepts associated with Learning & Development
CO219HRM.2	UNDERSTANDING	EXPLAIN the training process and the various methods of training for various categories of employees in a variety of organizational contexts.
CO219HRM.3	APPLYING	IDENTIFY training needs of various categories of employees in a variety of organizational contexts.
CO219HRM.4	ANALYSING	EXAMINE the impact of training on various organizational and HR aspects.
CO219HRM.5	EVALUATING	EVALUATE the training process of various categories of employees in a variety of organizational contexts.
CO219HRM.6	CREATING	DESIGN a training programme for various categories of employees in a variety of organizational contexts.

1. **Learning:** Nature of learning, Learning-its influence on employee behavior, Learning Process, Learning and HRD, Learning styles, elements and Profile, Types of Learning, Adult Learning, Androgogy, Implementing Learning/HRD needs. Introduction to Training: Definition, Concept, Meaning, Nature, Need for Training and Development, Types of Training, Effective Learning and Training. **(4+2)**
2. **Process of Training:** Identification of job competencies, Training Need Analysis and Assessment, Training for Performance, Steps in Training, Role and Responsibilities of HRD and Training Specialist. **(4+2)**
3. **Designing and Implementation of Training Plan:** Objectives of Designing Training Plan, Budgeting of Training, Trainer and Trainee Identification, Designing Module, Designing and Conducting Specific Training and Development Programme. Methods of Training: Methods & Technique of Training, On Job Training, and Competency based training, Online Training, E-Learning, Multimedia Training, Management Development Program, New Employee Training. **(4+2)**
4. **Evaluation of Training Program:** Introduction, concept & principles, Evaluating Training and Results- Kirkpatrick Model of Evaluation, CIRO of Training, ROT of Training, Cost-Benefit analysis. **(4+2)**
5. **Management Development:** Training and Coaching, Mentoring, Training Practices, Train the trainer, Training for Diversity, Impact of Training on HRD. **(4+2)**

Suggested Text Books:

1. Employee Training & Development, Raymond Noe
2. Training and Development, S K Bhatia
3. The ASTD Training and Development Handbook: A Guide to Human Resource Development, Robert Craig, McGraw-Hill.

Semester II		220HRM: Public Relations & Corporate Communications
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO220HRM.1	REMEMBERING	DESCRIBE the various forms of Corporate Communications from a HR perspective.
CO220HRM.2	UNDERSTANDING	EXPLAIN the role of Public Relations & Corporate Communications in HRM.
CO220HRM.3	APPLYING	PLAN and EXECUTE a PR activity.
CO220HRM.4	ANALYSING	EXAMINE the PR campaign & strategies of real world organizations.
CO220HRM.5	EVALUATING	DEVELOP a strategic communication plan for a real life Corporate communication issue.
CO220HRM.6	CREATING	COMPLIE an analytical report on the PR activities and communication strategies designed & practiced by the organizations and IMPROVE on it.

1. **Public Relations & Corporate Communication** : Introduction to corporate communication, Public relations writing-writing to inform, writing to persuade, Design & lay out, Online public relations (4+1)
2. **Media Relations:** Building maintaining relationship with credibility with media, Developing methodologies for successful practice of media relations (5+1)
3. **Public Relations:** Concept, theory, history & practice of public relations, Importance of PR for HR professionals, PR campaign & strategies for PR, Evaluating PR activities (5+1)
4. **Communication Management** : Presentation skills, Developing strategic communication plan, Synthesizing internal & external initiatives, Event Management (4+1)
5. **Field Study/ Desk Research:** Student along with faculty are expected to study PR activities and communication strategies designed & practiced by the organizations in the area & prepare a report. (7+1)

Suggested Text Books:

1. Public Relations, Phillip Henslowe, Chartered Institute of PR

Suggested Reference Books:

1. Public Affairs in Practice, Stuart Thomson & Stevee John, Chartered Institute of PR
2. Develop your PR Skills, Neil Richardson & Lucy Laville, The Sunday Times,
3. Creativity in PR, Andy Green, Chartered Institute of PR
4. Running a PR Department, Mike Beard, Chartered Institute of PR

Semester II		221HRM: HR Analytics
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221HRM.1	REMEMBERING	ENUMERATE the key concepts related to the subject matter.
CO221HRM.2	UNDERSTANDING	DEMONSTRATE experimentation and innovation.
CO221HRM.3	APPLYING	USE thinking & decision making ability beyond the existing capabilities and present environment.
CO221HRM.4	ANALYSING	ANALYSE the behavioral Patterns of an individual & Map the competency- the audit Perspective.
CO221HRM.5	EVALUATING	EXPLAIN the innovative and formulate strategies which enhance innovative skills and Promote Innovation.
CO221HRM.6	CREATING	FORMULATE the linkage between HR Analytics and Business Analytics.

1. **Introduction & Concept:** Disruptive Technological Era: Evolution of Industry Revolution 4.0 and aspect of HR, Big data in HR, understanding of Machine Learning, sensors and cloud computing, Business Intelligence in HR. **(4+2)**

2. **Importance of HR Analytics:** Role and Responsibilities of HR Analytics, Framework of contemporary HR Analytics,- Predictive tools and Applications in solving problems using HR analytics. Gartners Analytics Maturity Model.(4+2)
3. **Innovation:** Concept of innovation, Kinds of Innovation, Developing Innovative culture in an organization. HR analytics linkage to business outcomes, Measuring use of HR analytics impact on business outcome (4+2)
4. **Strategy Formulation:** Redefining HR Policies and Practices, Robust competency mapping, understanding future of work and workplace, Decision framework. Use of HR analytics in workforce planning: talent acquisition, talent development, talent compensation, talent engagement and retention (4+2)
5. **Learning from Analysis:** Case studies and best practices in use of HR Analytics in industry (5 cases) (4+2)

Suggested Text Books:

1. Winning on HR analytics: Leveraging data for competitive advantage, Ramesh Soundararajan and Kuldeep Singh, Sage Publication
2. The Practical Guide to HR Analytics: Using Data to Inform, Transform, and Empower HR Decisions Paperback, Shonna D. Waters , Valerie N. Streets , Lindsay Mcfarlane , Rachael Johnson-murray
3. Human Capital Analytics: How to Harness the Potential of Your Organization's Greatest Asset, Boyce Byerly, Gene Pease, and Jac Fitz-enz
4. Doing HR Analytics: A Practitioner's Handbook with R Examples, Lyndon, Mr. Sundmar, Createspace Independent Pub
5. The Power of People: Learn How Successful Organizations Use Workforce Analytics to Improve Business Performance, Guenole Nigel, Ferrar Jonathan, Feinzig Sheri, Pearson Publication

Semester II		222HRM: Conflict & Negotiation Management
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO222HRM.1	REMEMBERING	DEFINE the key concepts of the subject matter.
CO222HRM.2	UNDERSTANDING	EXPLAIN the negotiation process, Zone of possible agreement (ZOPA) and Best alternative to a negotiated agreement (BATNA)
CO222HRM.3	APPLYING	APPLY the negotiation process, Zone of possible agreement (ZOPA) and Best alternative to a negotiated agreement (BATNA) for successful negotiations.
CO222HRM.4	ANALYSING	APPRAISE the importance of in business negotiations and managing conflicts.
CO222HRM.5	EVALUATING	DEVELOP the logical thinking, communication skills and other prerequisite for successful business negotiations and handling organizational conflict.
CO222HRM.6	CREATING	COMBINE the theoretical concepts practical methods of managing and resolving organizational conflict and negotiation styles in the organizational context.

1. **Fundamentals of Negotiation:** definition: Introduction to the importance of negotiation, its importance and Nature of negotiation, negotiation Vs other interactions, Dimensions of Negotiation, Structure and the prerequisites of successful negotiation, types of negotiation , Strategy & planning of negotiation, four stage model of negotiation. (4+2)
2. **Negotiation Process:** Perception & Preparation for the negotiations, goal setting for the negotiation , options and criteria for negotiation, role of Communication & Influence in the negotiation process , Identifying BATNA (Best alternative to a negotiated agreement) and ZOPA (zone of possible agreement) in the negotiation process , Ethics in negotiation, Agreement (4+2)
3. **Negotiation styles:** Leigh Thompson's 5 negotiation mental models, importance of establishing trust and building a Relationship in negotiation , Win-Win Negotiation, use of creativity and problem Solving in Negotiations, application of Transactional analysis for negotiations.(4+2)
4. **Conflict Management:** Introducing the concept of conflict management, Definition, importance and Models of conflict (Process & Structural), Sources of conflict, analyze the relationship between conflict & performance in team, Advantages & Disadvantages of Conflict. Creating conducive climate to resolve the conflict, apply the fundamentals of conflict management to build teams in the organizations, design the process for conflict management and create the situations to minimize the conflicts in an organizations. (4+2)

5. **Types of Conflicts:** understanding the importance of developing mechanism to manage conflicts in the organizations, managing interpersonal and intra personal conflict, and conflict resolution, dealing with difficult subordinates, boss & colleagues, evaluate the organization conflict, analyze the techniques to resolve team conflict, creating the strategies to manage organizational conflict, understand the concept of third party conflict resolution (ADR), demonstrate the use of third party conflict resolution (ADR). Simulation: Case study on best business negotiations and conflict management, Role Play. **(4+2)**

Suggested Text Books:

1. Negotiation: Communication For Diverse Settings, Spangle, Michael L. ; Isenhardt, Myra Warren : Sage Publications
2. The Negotiation Field book Simple Strategies to Help you negotiating everything, Grande, Lum. New Delhi : TATA MCGRAW HILL Publishing Company Limited
3. Negotiation / Harvard Business Essentials. U S A, Harvard Business Publishing Corporation
4. How to Conduct Effective Negotiations, Forsyth, Patrick Jaico Publishing House
5. Managing Workplace Conflicts, Subbulakshmi, V., Hyderabad : ICFAI University Press
6. The Power of Positive Confrontation : The Skills You Need To Know To Handle Conflicts At Work, At Home And In Life, Pachter, Barbara . Magna Publishing Co. Ltd.

Suggested Reference Books:

1. Getting to Yes: Negotiating Agreement without Giving In, Roger Fisher, William Ury, Bruce Patton
2. Bargaining for Advantage: Negotiation Strategies for Reasonable People, G. Richard Shell
3. Secrets of Power Negotiating: Inside Secrets from a Master Negotiator, Roger Dawson

Subject Core (SC) Courses - Semester II
Specialization: Operations & Supply Chain Management

Semester II		205OSCM: Service Operations Management – I
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205OSCM.1	REMEMBERING	DESCRIBE the nature and CHARACTERISTICS of services and the services economy.
CO205OSCM .2	UNDERSTANDING	DESCRIBE the service design elements of variety of services.
CO205OSCM .3	APPLYING	USE service blueprinting for mapping variety of real life service processes.
CO205OSCM .4	ANALYSING	ANALYSE alternative locations and sites for variety of service facilities.
CO205OSCM .5	EVALUATING	JUDGE and EXPLAIN the service orientation at variety of service facilities / organizations.
CO205OSCM .6	CREATING	CREATE flow process layouts for variety of services.

1. **Understanding Services:** The Service Economy, Service Definitions, Facilitating Role of Services in an Economy, Economic Evolution, Stages of Economic Development, Nature of the Service Sector, The Experience Economy, Consumer Service Experience, Business Service Experience, Service-Dominant Logic, Distinctive Characteristics of Service Operations - Customer Participation, Simultaneity, Perishability, Intangibility, Heterogeneity, Non-transferrable Ownership. The Service Package, Grouping Services by Delivery Process, Open-Systems View of Service Operations Management. **(7+2)**

2. **Designing the Service Enterprise:** New Service Development, Sources of Service Sector Growth, Information Technology, The Internet as a Service Enabler, Innovation, Changing Demographics, Innovation in Services, New Service Development, Technology in Service Innovation, Challenges of Adopting New Technology in Services, Readiness to Embrace New Technology, Service Design Elements, Customer Value Equation, Strategic Positioning through Process Structure, Service Blueprinting, Taxonomy for Service Process Design, Degree of Divergence, Object of the Service Process, Type of Customer Contact, Generic Approaches to Service System Design, Production-Line Approach, Customer as Co-producer, Customer Contact Approach, Information Empowerment, Intellectual Property. **(7+2)**

3. The Service Encounter: Concept of the Service Encounter, Role of Technology, The Emergence of Self-Service, The Service Encounter Triad, Encounter Dominated by the Service Organization, Contact Personnel-Dominated Encounter, Customer-Dominated Encounter, The Service Organization, Culture, Empowerment, Control Systems, Customer Relationship Management, Contact Personnel - Selection & Training, Creating an Ethical Climate. The Customer Expectations and Attitudes, The Role of Scripts in Coproduction, Creating a Customer Service Orientation, Service Profit Chain. **(7+2)**

4. Service Facility Location: Strategic Location Considerations, Competitive Clustering, Saturation Marketing, Marketing Intermediaries, Substitution of Communication for Travel, Separation of Front from Back Office, Impact of the Internet on Service Location, Site Considerations, Geographic Information Systems, Facility Location Modeling Considerations, Geographic Representation, Number of Facilities, Optimization Criteria, Facility Location Techniques, Cross-Median Approach for a Single Facility, Huff Model for a Retail Outlet, Location Set Covering for Multiple Facilities, Regression Analysis in Location Decisions. **(7+2)**

5. Service Facility and Process Flows: Environmental Psychology and Orientation, Servicescapes, Behaviors in Servicescapes, Environmental Dimensions of Servicescapes, Facility Design, Nature and Objectives of Service Organizations, Land Availability and Space Requirements, Flexibility, Security, Aesthetic Factors, The Community and Environment. Process Analysis, Types of Processes, Flowcharting, Gantt Chart, Process Terminology, Facility Layout, Flow Process Layout and the Work Allocation Problem, Job Shop Process Layout and the Relative Location Problem. **(7+2)**

Suggested Text Books:

1. Successful Service Operations Management, Metter, King-Metters, Pulliman & Walton, Thomson India
2. Service Management, Fitzsimmons and Fitzsimmons, Irwin/McGraw-Hill
3. Services Marketing Operations and Management, Vinnie J Juhari, Kirti Dutta, Oxford University Press
4. Services Sector Management An Indian Perspective, C. Bhattacharjee
5. Services Business Management, Dr. Abhay Kulkarni, Himalaya Publication.

Suggested Reference Books:

1. Service operations management - Improving service delivery, Robert Johnston, Graham Clark, Pearson Publication
2. Baldrige – Just What the Doctor Ordered, Quality Progress, Nelson

Semester II		206OSCM: Supply Chain Management
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO206OSCM.1	REMEMBERING	DESCRIBE the key concepts of Supply Chain Management and the – driving forces in contemporary Supply Chain Management.
CO206OSCM.2	UNDERSTANDING	EXPLAIN the structure of modern day supply chains.
CO206OSCM.3	APPLYING	IDENTIFY the various flows in real world supply chains.
CO206OSCM.4	ANALYSING	COMPARE and CONTRAST push and pull strategies in Supply Chain Management.
CO206OSCM.5	EVALUATING	EXPLAIN the key Operational Aspects in Supply Chain Management.
CO206OSCM.6	CREATING	DISCUSS the relationship between Customer Value and Supply Chain Management.

1. **Supply Chain Structure:** Shift from enterprise to network, Structure of a SC, Push based SC, Pull based SC, Tradeoff between Push & Pull, Identifying appropriate Push & Pull Strategy for SC, Commodity & cost centric SC, Agile SC **(7+2)**

2. **Flows in SC:** Forward & Reverse SC, Product, Services, Information, Funds, Demand, Forecast flows in Upstream & Downstream direction **(7+2)**

3. **Total SCM:** Changing business landscape – driving forces: Shift from Operations to Services, Impact of globalization & technological revolution, Shift from linear SC to collaborative networks, power shifts in the SC- demands for flexibility of partnerships, core competencies, growth in outsourcing, Increased complexity of processes **(7+2)**

4. **SCM Building Blocks:** Overview of customer focus & demand, resources & capacity management, procurement & supplier focus, inventory management, operations management, distribution management in SCM. Key Operational Aspects in SC: Creating the Lean SC – JIT Purchasing, JIT Transportation and JIT Production. Kanban, VMI. **(7+2)**
5. **Customer Value:** Empowered consumer, Customer focused Marketing & SC service outputs, customer service – availability, operational performance, reliability. Customer satisfaction – customer expectations, enhancing customer satisfactions, limitations of customer satisfaction. Customer success – achieving customer success, value added services, customer value requirement mapping, CRM. **(7+2)**

Suggested Text Books:

1. Supply Chain & Logistics Management, Bowersox, Closs & Cooper, Tata McGraw Hill
2. Designing & Managing the SC – Concepts, Strategies & Case studies, Levi, Kaminsky et. al., Tata McGraw Hill
3. Supply Chain Management: Strategy Planning & Operations, Sunil Chopra, Peter Meindl, Pearson

Suggested Reference Books:

1. Supply Chain Management Process, System & Practice, N.Chadrasekaran, Oxford
2. Total Supply Chain Management, Basu & Wright, Elsevier
3. Logistics Management & Strategy, Harrison and van Hoek, Prentice Hall
4. Supply Chain Management, Mentzer, Response Books.
5. Logistics Management: The Supply Chain Imperative, Vindo Sople, Pearson Education.

Subject Elective (SE) Courses - Semester II
Specialization: Operations & Supply Chain Management

Semester II		217OSCM: Planning & Control of Operations
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217OSCM.1	REMEMBERING	DESCRIBE the building blocks of Planning & Control of Operations.
CO217OSCM.2	UNDERSTANDING	EXPLAIN the need for aggregate planning and the steps in aggregate planning.
CO217OSCM.3	APPLYING	MAKE USE OF the various forecasting approaches in the context of operations planning process.
CO217OSCM.4	ANALYSING	ILLUSTRATE how capacity planning is done in organizations and its relationship with MRP.
CO217OSCM.5	EVALUATING	EXPLAIN the importance of scheduling in operations management.
CO217OSCM.6	CREATING	CREATE a Bill of Materials.

1. **Planning & Control of Operations:** Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation. **(5+1)**
2. **Demand Forecasting:** Forecasting as a planning tool, Why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system. **(5+1)**
3. **Aggregate Production Planning:** Planning Hierarchies in operations, Aggregate Production planning, Need for Aggregate Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling. **(5+1)**
4. **Resources Planning:** Dependent Demand Attributes, Planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services. **(5+1)**
5. **Scheduling of Operations:** Need for Scheduling, Scheduling – Alternative terms, Loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in Mass production systems. **(5+1)**

Suggested Text Books:

1. Operations Management: Theory and Practice, B Mahadevan, Pearson.
2. Operations Management, Terry Hill, Palgrave
3. The Fundamentals of Production Planning and Control, Stephen Chapman, Pearson
4. Operations Now, Byron Fitch, TMGH.

Semester II		218OSCM: Productivity Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO218OSCM.1	REMEMBERING	DEFINE various types of productivity and measures of productivity.
CO218OSCM.2	UNDERSTANDING	DEMONSTRATE the linkages between various measures of productivity.
CO218OSCM.3	APPLYING	APPLY Value Analysis and Value Engineering principles to simple situations related to operations management.
CO218OSCM.4	ANALYSING	APPLY various types of charts and diagrams to carry out work study and method study.
CO218OSCM.5	EVALUATING	DETERMINE the Standard Time using Techniques of Work Measurement.
CO218OSCM.6	CREATING	ELABORATE upon the concepts of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing.

1. **Introduction:** Importance and significance of productivity, Productivity concepts – Macro and Micro factors of productivity, productivity from product and service perspective, different inputs and productivity measures, Various ratios related to finance, material and service. **(3+1)**
2. **Value Analysis and Value Engineering:** Concept of Cost, Price and Value, Role in Productivity, Procedure – Application and productivity benefit model. **(3+1)**
3. **Work Study:** Importance of work study – Method Study and Work Measurement – Pioneers of Performance Measurement. **Method Study:** Need for Method Study – Procedure of Method Study –Process Flow charts, Man machine diagrams ,Principles of Motion Economy. **(6+1)**
4. **Work Measurement:** Techniques of Work Measurement including Estimating, Stopwatch Time Study, Predetermined Time Standards, Synthetic Estimates of Work, Times, Activity Sampling. Computation of Standard Time – Elements – Types of Elements – Performance Rating – Allowances – Need for Allowances – Types of Allowances. **(8+1)**
5. **Advanced Methods of Productivity and service level enhancements:** Overview of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing, Use of Technology in productivity and service enhancements: ITes, CAD, CAM, CIM, CMMI. **(5+1)**

Suggested Text Books:

1. Productivity Measurement for Business Excellence, Prem Vrat, G.D. Sardana, B.S. Sahay, Narosa Publishing House.
2. Operations Management for Competitive Advantage, Richard B Chase, Jacobs, Aquilano, Agarwal,
3. Introduction to Work Study, Editor - Geirge Kanawaty, Universal Publishing
4. Production and Operations Management, S.N.Chary, TMGH

Semester II		219OSCM: Inventory Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO219OSCM.1	REMEMBERING	DEFINE the key terms associated with Inventory Management.
CO219OSCM.2	UNDERSTANDING	CLASSIFY various types of inventory, and inventory costs.
CO219OSCM.3	APPLYING	CALCULATE Economic Order Quantity and stock levels under various conditions.
CO219OSCM.4	ANALYSING	COMPARE and CONTRAST various methods of inventory control.
CO219OSCM.5	EVALUATING	ASSESS various factors influencing Make or Buy decisions.

CO219OSCM.6	CREATING	SOLVE problems based on ABC classification of inventory.
-------------	----------	--

1. **Elements of Inventory Management:** Inventory concepts, Pressures for Low Inventory, Pressures for High Inventory, Role of inventory in Operations, Types of inventory – seasonal, decoupling, cyclic, pipeline, Safety stock. Inventory costs – carrying costs, ordering costs, shortage costs. **(5+1)**
2. **Inventory Control systems:** Continuous Review (Q) systems, Periodic Review (P) systems, ABC Classification system, Issues in the P and Q systems of inventory control. **(5+1)**
3. **Economic Order Quantity Models:** The Basic EOQ Model, Production Quantity Model, Computer Solution of EOQ model with MS Excel, Quantity Discounts, Computer Solution of Quantity Discounts model with MS Excel, Reorder Point, Safety Stocks, Service Level, Reorder point with variable demand, Computer Solution of Reorder point with MS Excel, Order quantity for periodic inventory system, Order quantity with variable demand, Computer Solution of fixed period model with MS Excel. **(5+1)**
4. **Just-In-Time:** Principles of just-in-time, Core logic of JIT, Main features for stocks, Achieving just-in-time operations, Other effects of JIT, Benefits and disadvantages of JIT, Comparison with other methods of inventory management. KANBAN as a control tool. Vendor managed inventory. **(5+1)**
5. **Make Or Buy Decisions:** Factors influencing Make Or Buy Decisions-cost, quality, capacity core v/s noncore, management strategy. Evaluation of performance of Materials function: cost, delivery, quality, methodology of evaluation, Use of ratios - inventory ratios, inventory analysis like ABC, FSN: Fast slow, Nonmoving, HML-High Medium, Low, XYZ. Materials Management In JIT Environment. **(5+1)**

Suggested Text Books:

1. Operations Management: Theory and Practice, B Mahadevan, Pearson.
2. Operations Management-Process and Value Chains, Krajewski, Ritzman, Malhotra, Pearson.
3. Operations Management: Quality and Competitiveness in a Global Environment, Russell and Taylor, Wiley India.

Suggested Reference Books:

1. Introduction to Materials Management, J.R.Tony and Arnold.
2. Inventory Control and Management, Donald Waters, Wiley Student Edition.
3. Just-in-Time Manufacturing, Korgaonker, Macmillan
4. Essentials of Inventory Management, Max Muller, JAICO Publishing

Semester II		220OSCM: Theory of Constraints
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO220OSCM.1	REMEMBERING	DEFINE the key concepts of TOC.
CO220OSCM.2	UNDERSTANDING	DEMONSTRATE knowledge & understanding of the fundamentals of TOC.
CO220OSCM.3	APPLYING	IDENTIFY and mitigate both real constraints and managerial constraints.
CO220OSCM.4	ANALYSING	ILLUSTRATE the tools and techniques that help in managing constraints to improve organizational performance.
CO220OSCM.5	EVALUATING	EXPLAIN the benefits an organization may reap through the successful implementation of the TOC.
CO220OSCM.6	CREATING	DEVELOP solutions to common problems in Project Management, Operations Management and Supply Chain Management using TOC principles and methods.

1. **Thinking Process:** Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method. **(5+1)**
2. **Finance and Measures:** Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. **(5+1)**
3. **Project Management:** Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach. **(5+1)**

4. **Drum-Buffer-Rope Solution:** Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method. **(5+1)**
5. **Theory of Constraints in Supply Chain Management:** Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution. **(5+1)**

Suggested Text Books:

1. Theory of Constraints by S K Mukhopadhyay, Jaico Books.
2. The Goal by E M Goldratt and Cox J, Great Barrington, North River

Suggested Reference Books:

1. What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River
2. It's Not Luck by E M Goldratt, Great Barrington, North River
3. Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River
4. Critical Chain by E M Goldratt, Great Barrington, North River

Semester II		221OSCM: Quality Management Standards
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221OSCM.1	REMEMBERING	DESCRIBE the concepts of Quality and importance of the Quality Management Principles.
CO221OSCM.2	UNDERSTANDING	INTERPRET the requirements of ISO 9001:2015 standard.
CO221OSCM.3	APPLYING	APPLY process based thinking and risk based thinking for managing and improving the functioning of an organization.
CO221OSCM.4	ANALYSING	TAKE PART IN planning, conducting and follow-up of QMS audits directed towards maintenance and continual improvements of the QMS.
CO221OSCM.5	EVALUATING	DEVELOP skills for Corrective Action Management and Continual Improvement Project management.
CO221OSCM.6	CREATING	BUILD stakeholder confidence by managing processes in line with the latest requirements.

1. **Quality Management Systems:** Quality, Quality Concepts, Concepts and Characteristics of Quality as a Business Imperative, Quality Management Systems Map, Advantages of the Quality Management Systems, Process approach, Seven Quality Management Principles, Organization and it's Context, Needs and Expectations of Interested Parties. Need for Quality Management System, Management System Standards (MSS), High Level Structure (HLS), Integrated Management Systems, Risk Management, How processes affect each other, The Plan – Do – Check (Study) – Act Cycle (PDCA) and terminology; PDCA and its relation in business processes, Quality Policy and Objectives at all functions and levels. **(5+1)**
2. **ISO Standards:** QMS: ISO 9001 Useful Terms, ISO Supporting Standards, Understanding the terms and definitions of the ISO 9001: 2015 standard, Broad overview of the requirements of ISO 9001: 2015, The principles, structure and language of ISO 9000 and ISO 9001, Applying the ISO 9001: 2015 standard when developing and implementing a QMS. **(5+1)**
3. **Documentation and Implementation Planning:** Phased Approach Method and Tools, Executive and Management Overview, Planning, Gap Assessment and Planning, Documentation, Implementation and Training, Internal Assessment and Management Review, 3rd Party Registration Assessment, Sustain and Continual Improvement. **(5+1)**
4. **Risk Assessment:** Concept and principles of Risk Assessment, Risk Based Thinking and Management Responsibility within an effective QMS, Applying the Framework of Risk Assessment, Understand the differences between the different techniques - Root Causal Analysis, Failure Modes and Effects Analysis (FMEA), Hazard Analysis and Critical Control Points (HACCP), Capability Index. **(5+1)**
5. **Internal Audit :** Understanding and application of Internal Audit Process requirements, Planning the Audit, Scheduling the Audit, Preparing the Audit, Conducting the Audit, Documenting Audit Findings, Reporting Audit Findings,

Corrective Action Follow-up, Auditing practices and techniques ,Role plays and/or scenarios to relevant field, The personal and interpersonal skills and competencies required for auditing. **(5+1)**

Suggested Text Books:

1. Mastering ISO 9001:2015: A Step-By-Step Guide To The World's Most Popular Management Standard, Gregory Peckford
2. Understanding ISO 9001: 2015 Quality Management System, Virendra Kumar Gupta
3. ISO 9001: 2015 - A Complete Guide to Quality Management Systems, Itay Abuhav
4. Operations Management: An Integrated Approach, Danny Samson and Prakash Singh, Cambridge University Press.
5. Managing Quality, Barrie G Dale, Ton van der Wiele and Jos van Iwaarden (Editors),Blackwell Publishing
6. ISO 9001:2015 Standard

Semester II		222OSCM: Service Value Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO222OSCM.1	REMEMBERING	DEFINE the core concepts related to Service Value Chain, Service Profit Chain, Innovation, CRM, networks.
CO222OSCM.2	UNDERSTANDING	ILLUSTRATE managing the service process through service value chain.
CO222OSCM.3	APPLYING	IDENTIFY factors influencing Innovation and service organizational design.
CO222OSCM.4	ANALYSING	EXAMINE the inter-relationships between the Focal firm, Supplier Networks, Distribution Networks, etc.
CO222OSCM.5	EVALUATING	EVALUATE the role of Business Networks as partners in value creation.
CO222OSCM.6	CREATING	DEVELOP strategies built on Principles of Service Value Chain & Service Profit Chain for various types of organizations.

1. **Basic Concepts, Value, Value Processes,** Creating service value, Defining the benefit part of service value- the service product, Value creation by services marketing, Evaluating internal customer value leading to external customer satisfaction, Costing of Services- Defining the cost part of service value: service pricing, Delivering service value - Managing service delivery. **(5+1)**
2. **Service Value Chain & Service Profit Chain:** Introduction, Definitions, Significance, Managing the service process through service value chain, service value chain and service profit chain, Key elements of service profit chain – customer loyalty and satisfaction, understanding value from customer perspective, dream team cycle. **(5+1)**
3. **Value Chain Service Innovations:** Introduction, Components, Types, Models, Processes of Innovation, Evolution and Characteristics of Innovation Management, Key drivers, Factors influencing Innovation, Organizing for Innovation, Factors influencing service organizational design, Developing Innovation Strategy. **(5+1)**
4. **Managing Networks:** What is a Network? Business Networks, Network Position, Concept of Focal firm, Business Networks and CRM, Supplier Networks, Distribution Networks, Management of Networks, Supplier Relationships, Product Development, Supplier Accreditation Programmes, Process Alignment, E Procurement, Partners in Value Creation, Alliance between non-competing firms, Alliance between competing firms, Benchmarking Partners, Customer Advocacy groups, Sponsors, Partners in Value Delivery. IT Enabled Customer Services - Call Centre Operations and Management, Web-enabled Services, ERP enabled Field and Technical Support Services, Tele marketing and servicing. **(5+1)**
5. Case Studies related to Service Value Chain in Banking & Insurance, Hospital and Health Care, Travel & Tourism, Hotel & Catering, Retail and Contractual Services. **(5+1)**

Suggested Text Books:

1. Service Profit Chain: How Leading Companies Link Profit and Growth to Loyalty, Satisfaction and Value, W. Earl Sasser , Leonard A. Schlesinger, James L. Heskett
2. Competitive Advantage, Porter, Michael E, The Free Press. New York.
3. Strategic Management: a Methodological Approach, Rowe, Mason, Dickel, Mann, Mockler; Addison-Wesley

Semester II		223OSCM: Industry 4.0
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO223OSCM.1	REMEMBERING	DESCRIBE the drivers, enablers and compelling forces for Industry 4.0's advancement.
CO223OSCM.2	UNDERSTANDING	UNDERSTAND the power of Cloud Computing in a networked economy.
CO223OSCM.3	APPLYING	IDENTIFY the opportunities, challenges brought about by Industry 4.0.
CO223OSCM.4	ANALYSING	OUTLINE the various systems used in a manufacturing plant and their role in an Industry 4.0 paradigm.
CO223OSCM.5	EVALUATING	APPRAISE the smartness in Smart Factories, Smart cities, smart products and smart services.
CO223OSCM.6	CREATING	PREDICT how organizations and individuals should prepare to reap the benefits.

1. **Introduction to Industry 4.0:** Overview of the Various Industrial Revolutions, Digitization and the Networked Economy, Industry 4.0 Paradigm, Industry 4.0 characteristics – Interoperability, Virtualization, Decentralization, Real-time capability, Service orientation, Modularity, Convergence, Cost reduction and efficiency, Mass customization. Drivers, Enablers, Compelling Forces and Challenges for Industry 4.0, Evolution in USA, Europe, China and other countries, Comparison of Industry 4.0 Factory and Today's Factory, Trends of Industrial Big Data and Predictive Analytics for Smart Business Transformation. **(7+1)**

2. **Key Building Blocks:** Internet of Things (IoT), Industrial Internet of Things (IIoT), Internet of Services, Smart Manufacturing, Smart Devices and Products, Smart Logistics, Smart Cities, Predictive Analytics. **(4+1)**

3. **Technological Ecosystem:** Technologies for enabling Industry 4.0, Cyberphysical Systems, Robotic Automation and Collaborative Robots, Support System for Industry 4.0, Mobile Computing, Related Disciplines, Issues of Cyber Security. **(4+1)**

4. **Data as a resource:** Role of data, information, knowledge and collaboration in future organizations, Resource-based view of a firm, Data as a new resource for organizations, Harnessing and sharing knowledge in organizations, Cloud Computing Basics, Cloud Computing and Industry 4.0 **(5+1)**

5. **Applications and the way ahead:** Automotive, Agriculture, Retail, Healthcare, Fintech, Manufacturing, Applications and Case Studies: Industry 4.0 laboratories, IIoT case studies, Business issues in Industry 4.0 - Opportunities and Challenges, Future of Works and Skills for Workers in the Industry 4.0 Era, Strategies for competing in an Industry 4.0 world. **(5+1)**

Suggested Text Books:

1. Industry 4.0: Managing The Digital Transformation, Ustundag, Alp, Cevikcan, Emre, Springer.
2. Hands-On Industrial Internet of Things: Create a powerful Industrial IoT infrastructure using Industry 4.0, Giacomo Veneri.
3. Internet of Things: A Hands-On Approach, Arsheep Bahga.
4. Industry 4.0: The Industrial Internet of Things Paperback, Alasdair Gilchrist.

Subject Core (SC) Courses - Semester II
Specialization: Business Analytics

Semester II		205BA: Basic Business Analytics using R
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205BA.1	REMEMBERING	IDENTIFY opportunities for creating value using business analytics and DESCRIBE the basic concepts in Business Analytics, DATA Science and Business Intelligence.

CO205BA.2	UNDERSTANDING	EXPLAIN the applications of Business Analytics in multiple business domains and scenarios.
CO205BA.3	APPLYING	DEVELOP a thought process to think like a data scientist/business analyst.
CO205BA.4	ANALYSING	ANALYZE data graphically by creating a variety of plots using the appropriate visualization tools of R.
CO205BA.5	EVALUATING	SELECT the right functions of R for the given analytics task.
CO205BA.6	CREATING	COMBINE various tools and functions of R programming language and use them in live analytical projects in multiple business domains and scenarios.

1. **Business Analytics Basics:** Definition of analytics, Evolution of analytics, Need of Analytics, Business analytics vs business analysis, Business intelligence vs Data Science, Data Analyst Vs Business Analyst, Types of Analytics, Tools for Analytics. Concept of insights. Importance of data in business analytics, Differences between data, information and knowledge, various stages of an organization in terms of data maturity, Options for organizations in the absence of good quality data. **(5+1)**
2. **Analytical decision-making:** Analytical decision-making process, characteristics of the analytical decision-making process. Breaking down a business problem into key questions that can be answered through analytics, Characteristics of good questions, Skills of a good business analyst, Overview of Business analytics applications in - Marketing Analytics, HR Analytics, Supply Chain Analytics, Retail Industry, Sales Analytics, Web & Social Media Analytics, Healthcare Industry, Energy Analytics, Transportation Analytics, Lending Analytics, Sports Analytics. Future of Business Analytics. **(5+1)**
3. **Fundamentals of R:** R environment, Downloading and Installing R, Using command line in R, Help, File operations in R -Reading from and Writing to a file, Writing your first code in R, Importing data from spreadsheets, text files, SAS, SPSS, Connect to RDBMS from R using ODBC, basic SQL queries in R, Exploration and transformation activities, basics of Web Scraping. **(6+1)**
4. **Data types & Data Structures in R:** Data types in R and its appropriate uses, Program Structure in R, Flow Control: For loop, If condition, While conditions and repeat loop, Debugging tools, Concatenation of Data, Combining Vars , cbind, rbind, Sapply, apply, tapply functions, Built-in functions in R like: seq(), cbind (), rbind(), merge(), knowledge on the various subsetting methods, summarize data by using functions like: str(), class(), length(), nrow(), ncol(), use of functions like head(), tail(), for inspecting data, summarize data, SQL join in R. Introduction to Data Structure in R, Vectors, Lists, Scalars, Data Frames, Matrices, Arrays, Factors, Use of data structures in different conditions, Advantage of using a particular approach. **(10+3)**
5. **Data Visualization:** Concept of Data Visualization, Popular Data Visualization tools, Exploratory Data Analysis(EDA), Data Cleaning, Data Inspection, uses of the functions like grepl(), grep(), sub(), summarize(), llist(), Using graphical functions in R for data visualization, Line Plots, Bar Plots, Bar Plots for Population, Pie chart, tableplot, histogram, Plotting with base graphics, Plotting with Lattice graphics, Plotting and coloring in R. Customizing Graphical Parameters to improvise plots, understanding GUIs like Deducer and R Commander, introduction to Spatial Analysis. **(10+3)**

Suggested Text Books:

1. R for Business Analytics, A Ohri
2. Data Analytics using R, Seema Acharya, TMGH
3. Data mining and business analytics with R, Johannes Ledolter. New Jersey: John Wiley & Sons.
4. Data Mining for Business Intelligence, Concepts, Techniques and Applications, Shmueli, Patel, and Bruce: Wiley

Suggested Reference Books:

1. Statistical data analysis explained: applied environmental statistics with R, Clemens Reimann. Chichester: John Wiley and Sons
2. Data science in R: a case studies approach to computational reasoning and problem solving, Deborah Nolan. Boca Raton: CRC Press
3. The analytics revolution: how to improve your business by making analytics operational in the big data era, Bill Franks. Hoboken: Wiley
4. Taming the big data tidal wave: finding opportunities in huge data streams with advanced analytics, Bill Franks. Hoboken: John Wiley & Sons.
5. Big data, big analytics: emerging business intelligence and analytic trends for today's business, Michael Minelli. Hoboken: John Wiley & Sons

Semester II		206BA: Data Mining
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO206BA.1	REMEMBERING	DEFINE the key terms associated with Data Mining
CO206BA.2	UNDERSTANDING	EXPLAIN the various aspects of Data
CO206BA.3	APPLYING	APPLY classification models
CO206BA.4	ANALYSING	ANALYSE using clustering models
CO206BA.5	EVALUATING	SELECT appropriate association analysis and anomaly detection tools.
CO206BA.6	CREATING	COMBINE various data mining tools and use them in live analytical projects in business scenarios.

- Basic Concepts:** Concept, Definitions and Need of Big Data, Data Mining, Business Intelligence. Data Mining Process, relation to Business Intelligence techniques. Introduction to Data Mining Tasks (Classification, Clustering, Association Analysis, Anomaly Detection). Concept, Definitions of model, descriptive models, predictive modeling, basic terminology. Real-world data mining applications - Big Data Analytics in Mobile Environments, Fraud Detection and Prevention with Data Mining Techniques, Big Data Analytics in Business Environments. **(6+1)**
- Data and Preprocessing:** Understanding of Data, what is data? Types of attributes, properties of attribute values, types of data, data quality, Sampling, Data Normalization, Data Cleaning, Similarity Measures, Feature Selection/Instance Selection, the importance of feature selection/instance selection in various big data scenarios. **(7+1)**
- Classification:** Decision-Tree Based Approach, Rule-based Approach, Instance-based classifiers, Support Vector Machines, Ensemble Learning, Classification Model Selection and Evaluation, Applications: B2B customer buying stage prediction, Recommender Systems. **(9+1)**
- Clustering:** Partitional and Hierarchical Clustering Methods, Graph-based Methods, Density-based Methods, Cluster Validation, Applications: Customer Profiling, Market Segmentation. **(9+1)**
- Association Analysis:** Apriori Algorithm and its Extensions, Association Pattern Evaluation, Sequential Patterns and Frequent Subgraph Mining, Applications: B2B Customer Buying Path Analysis, Medical Informatics, Telecommunication alarm diagnosis. **Anomaly Detection:** Statistical-based and Density-based Methods, Ethics of data mining, privacy, what can/do firms know? **(9+1)**

Suggested Text Books:

- Data Mining: The Textbook by Charu C. Aggarwal
- Data Science for Business by Foster Provost and Tom Fawcett, O'Reilly
- Introduction to Data Mining by Pang-Ning Tan, Michael Steinbach, Vipin Kumar, Addison Wesley
- Data Mining and Analysis: Fundamental Concepts and Algorithms by Mohammed J. Zaki and Wagner Meira

Subject Elective (SE) Courses - Semester II		
Specialization: Business Analytics		

Semester II		217BA: Marketing Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217BA.1	REMEMBERING	DESCRIBE the use of Voice of the Customer data in making data driven marketing decisions.
CO217BA.2	UNDERSTANDING	DEMONSTRATE an understanding of utility theory to measure customer preferences and choices.
CO217BA.3	APPLYING	IDENTIFY what customers' value in a product, and assess what they are willing to pay for it.
CO217BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks to solve strategic marketing problems using marketing data.

CO217BA.5	EVALUATING	DETERMINE the most effective target markets.
CO217BA.6	CREATING	DESIGN a study that incorporates the key tools of Marketing Analytics.

1. **Segmentation Analytics:** Market Segmentation Variables, Market Segmentation Types, Marketing Data Landscape, Data for Segmentation, Analytics for Need Based Segmentation - Voice of the Customer, Managing "Voice of the Customer" Data, Customer Co-Creation, RFM Analysis, Life Cycle Segmentation, Cross Tabulation Segmentation, Regression based segmentation, Clustering, Conjoint Analysis Segmentation, The Cluster Analysis + Discriminant Analysis Approach, **(5+1)**
2. **Approaches to Choosing Target Segment/s:** Rationale for Segment Targeting, Analytics for Perceptual Mapping and Product Positioning, Product Positioning, Multi Dimensional Scaling (MDS) and Factor Analysis, Relevance of Mapping for Product Positioning, Preference Mapping, Incorporating Preferences in Perceptual Mapping. **(5+1)**
3. **Analytics for Product/Service Design:** The Relevance of Trade-off Approaches, Conjoint Analysis, Approaches to Conjoint Analysis, Interpreting Conjoint Results, Optimizing Design using Conjoint Results. **(5+1)**
4. **Analytics for Tracking Customer Growth:** Rationale for Customer Analytics, Customer acquisition cost, Customer Churn, Customer Attrition models, Customer lifetime value, Net promoter score, Calculating the number of new customers, Calculating average customer age & Days to convert, Calculating customer acquisition cost & Average purchases, Calculating touch points & Lead conversion, Analyzing age demographics, First contact with customer, Customer satisfaction, Understanding customer engagement, Diffusion Models - The Bass Model. **(5+1)**
5. **Modeling New Marketing Initiatives:** Introduction to modeling, Evaluating new ad channels, Modeling tips and best practices, Projecting ad revenue, Projecting organic follower revenue, Projecting expenses, Calculating net profit and breakeven, Understanding ROI, Calculating returns, Creating a single-variable sensitivity table, Creating a multi-variable sensitivity table. **(5+1)**

Suggested Text Books:

1. Marketing Analytics: Data-Driven Techniques with Microsoft Excel, Wayne L. Winston
2. Marketing Analytics: Strategic Models and Metrics, Stephan Sorger
3. Marketing Analytics: A Practical Guide to Improving Consumer Insights Using Data Techniques, Mike Grigsby
4. Cutting-edge Marketing Analytics: Real World Cases and Data Sets for Hands on Learning, Paul Farris, Rajkumar Venkatesan, and Ronald T. Wilcox

Semester II		218BA: Retailing Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO2018BA.1	REMEMBERING	ENUMERATE the characteristics, opportunities and challenges of New Age Retailing and Digital Consumers.
CO2018BA.2	UNDERSTANDING	UNDERSTAND Consumer Buying Behavior and Trends in new age retailing.
CO2018BA.3	APPLYING	USE various kinds of data for performing Retailing Analytics.
CO2018BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks for predictive retail analytics.
CO2018BA.5	EVALUATING	DERIVE a variety of metrics and quantify key outcomes in multiple areas of Retail.
CO2018BA.6	CREATING	BUILD value for Retail and Marketing by deriving Marketing ROI metrics..

1. **Retailing in the Digital Era:** New Age Retailing, Digital Consumers Characteristics – interconnected , involved, interconnected, co-creation, collaboration, Customer Data – Big Data, Business Analytics, Customer Insights, Data Characteristics - Variety, Volume, Velocity, Veracity. Critical issues in Modern day Retail, The Digital organization, Retail analytics for decision making, Informed and Risk-Aware Decisions , Benefits of Retail Analytics – Informed Decisions, Risk mitigation, Gaining visibility , Retail Analytics for Strategic – Tactical and Operational decisions. **(3)**
2. **Marketing in a Consumer-Driven Era:** Understanding Consumer Buying Behavior and Trends , Leveraging customer data, Putting information in context, Clicking with consumer communities, Keeping content in mind, From personalization to commerce. **(3)**
3. **Key Questions:** What they are buying, Who they are, How they are buying, Where else they are buying? **(3)**

4. **Data sources:** Customer, Retailer, Supplier, Market, Web, Mobile, Social, Call Centres.. (3)
5. **Looking at Unstructured Data:** The unstructured data challenge, Recognizing the untapped analytics opportunity, Customer-Driven Decision Making, Content Analytics in Action, Understanding Affinities between Products and Customers, Advanced affinity analysis, Market basket analysis, Understanding customer preferences , Anticipating the customer's next move, Improving Retail Promotions. (3)
6. **Merchandising Analytics:** Assortment planning , GeoSpatial Analytics, Product placement, Space Optimisation, Product adjacency, Aligning store-level assortment with demand, Category Intelligence, Developing dynamic retail assortments, Prioritization of Product categories. (3)
7. **Marketing Analytics:** Marketing Mix ROI, Promotions – Promotional Maturity Curves, Pricing – Price per segment, Margin, Profitability, Personalisation, Campaigns, Marketing Return Curves, Scenario Analysis, Driving better P&L analyses, Managing Incentive Compensation. (3)
8. **Supply Chain Analytics:** Creating a Demand-Driven Supply Chain, Gaining Visibility across the Supply Chain, Resolving Operations Problems Premptively , Logistics, Inventory, Supplier performance, Demand forecasting, Vendor Intelligence, Vendor Rankings, Fulfillment Intelligence, Inventory Diagnostics, Shrinkage, Optimization opportunities. (3)
9. **Store operations analytics :** Using Analytics to Optimize Staffing Plans, Drilling into HR analytics, Customer Traffic, Store Performance Dashboards, Local Market Analytics, Online Offline Analytics, Sales Trends, Brand Performance, Account Performance Forecasts. (3)
10. **Customer View:** Customer Insights, Omni channel insights, Personalization, merchandise Data sources, including operations and supplier. (3)

Suggested Text Books:

1. Retail Analytics – The Secret Weapon, Emmett Cox
2. Behaviour Analytics in Retail, Ronny Max
3. The Little Book on Big Data: Understand Retail Analytics Through Use Cases and Optimize Your Business, Mahogany Beckford
4. The New Science of Retailing: How Analytics are Transforming the Supply Chain and Improving Performance, Fisher and Raman
5. The Strategy and Tactics of Pricing: A Guide to Growing More Profitably, Nagle, Hogan and Zale, Prentice-Hall
6. Competing on Analytics, Davenport, Harris
7. The New Rules of Retail: Competing in the World's Toughest Marketplace, Lewis and Dart
8. Sales Promotions, Neslin, Marketing Science Institute

Semester II		219BA: Workforce Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO2019BA.1	REMEMBERING	ENUMERATE the use of Workforce Analytics.
CO2019BA.2	UNDERSTANDING	UNDERSTAND the process of creating and using HR analytics
CO2019BA.3	APPLYING	USE dashboards, pivot tables for data driven decision making in HR.
CO2019BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks for predictive analytics.
CO2019BA.5	EVALUATING	DERIVE a variety of metrics and quantify key outcomes in multiple areas of HR.
CO2019BA.6	CREATING	BUILD value for HR departments by showing clear links between HR and Business outcomes.

1. **Workforce Analytics – Overview:** Workforce Analytics: definition, evolution, function of Workforce analytics, Use of Workforce / People / HR metrics to measure results in HR - Process vs Outcome , Efficiency vs Effectiveness, Lead vs Lag, challenges in measuring human capital, HR Business Framework, Concept of Balanced Score Card, Identifying key workforce questions, Strategic Case for Workforce Analytics, Data Sources, Power of combining data sources, Good, Important & Key Metrics. (3)
2. **Recruitment Metrics:** Fill-up ratio, Time to hire, Cost per hire, Early turnover, Termination during probation, Channel efficiency mix in terms of Direct hires, Employee referral hires, Agency hires & Lateral hires, Offer reject and renege, Fulfilment ratio, Quality of hire, Recruitment to HR cost. (3)

3. **Diversity Metrics:** Workforce diversity index, Gender mix, Differently abled index, Implementation challenges. **(3)**
4. **Talent Metrics:** Retention index, Voluntary and involuntary turnover, Turnover by department, grades, performance, and service tenure, Internal hired index. **(3)**
5. **Learning & Development Metrics:** Training need identification, Make or Buy Model, Training effectiveness evaluation, Percentage of employee trained, Internally and externally trained, Training hours and cost per employee, ROI calculation. **(3)**
6. **Internal Mobility Metrics:** Career Progression Indices - Promotion index, Rotation index, Career path index, Level wise succession readiness index. **(3)**
7. **People Deployment Metrics:** Employees per manager, Employee service profiling, Workforce age profiling, Workforce service profiling, Churn index, Separation clearance time. **(3)**
8. **HR Cost Metrics:** Revenue per employee, Operating cost per employee, PBT per employee, HR cost per employee, HR to operating cost, Compensation to HR cost, HR budget variance, HR ROI. **(3)**
9. **HR KPI Dashboard:** Calculating HR KPI, Scorecard based on recruitment, training and development, Calculating HR KPI, Scorecard based on employee retention, and turnover. **(3)**
10. **HR Predictive Analytics:** Regional and country level differences in turnover data, Predicting individual and team turnovers, Turnover costs for business implications, Selection decisions from previous performance data, Predictive modelling of individual and team performance, Identifying flight-risk candidates, Report generation. **(3)**

Suggested Text Books:

1. The Practical Guide to HR Analytics: Using Data to Inform, Transform, and Empower HR Decisions, Shonna D. Waters, Valerie N. Streets, Lindsay Mcfarlane, Rachael Johnson-Murray
2. HR Analytics: Understanding Theories and Applications, Dipak Kumar Bhattacharyya
3. Doing HR Analytics - A Practitioner's Handbook With R Examples Lyndon Sundmark

Semester II		220BA: Tableau
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221BA.1	REMEMBERING	DEFINE Tableau terminology and SHOW how to Connect to your data, Edit and save a data source.
CO221BA.2	UNDERSTANDING	ILLUSTRATE the use of the Tableau interface to effectively create powerful visualizations and charts.
CO221BA.3	APPLYING	MAKE USE OF statistical techniques to analyze your data, parameters and input controls to give users control over certain values.
CO221BA.4	ANALYSING	INTEGRATE data sources using data blending and Combine data from multiple tables in the same data source using joins.
CO221BA.5	EVALUATING	CREATE basic calculations including basic arithmetic calculations, custom aggregations and ratios, date math, and quick table calculations.
CO221BA.6	CREATING	BUILD spatial visualizations of non-geographic data by using advanced geographic mapping techniques and custom images and geocoding.

1. **Data Connections:** Tableau terminology, Tableau interface/paradigm, Create and save data connections, Create a live connection to a data source, Explain the differences between using live connections versus extracts, Create an extract, Save metadata properties in a .TDS, Modify data connections, Add a join, Add a blend, Add a union, Manage data properties, Rename a data field, Assign an alias to a data value, Assign a geographic role to a data field, Change data type for a data field (number, date, string, boolean, etc.), Change default properties for a data field (number format, aggregation, color, date format, etc.) **(5+1)**
2. **Organizing & Simplifying Data:** Organize data and apply filters, Filter data, Sort data, Build groups, Build hierarchies, Build sets, Add a filter to the view, Add a context filter, Add a date filter, Apply analytics to a worksheet, Add a manual or a computed sort, Add a reference line or trend line, Use a table calculation. **(5+1)**

3. **Field & Chart Types** : discrete v. continuous, Measure Names and Measure Values, Generated Fields, Use bins and histograms, Heat maps, Tree maps, Bullet graphs, bar chart, line chart, stacked bar, Combined Axis Charts, Dual Axis Charts, Scatter Plots, Data Highlighter, Cross tabs, Motion charts, Bar in bar charts, Box plots, Gantt Bar Charts, Paretos, Sparklines, geocoding , spatial visualizations of non-geographic data, Using titles, captions and tooltips, Editing axes, Mark labels and annotations. **(5+1)**

4. **Calculations**: Manipulating string and date calculations, Create quick table calculations, Use LOD calculations; types of LOD calculations, Use Ad-hoc calculations, Work with aggregation options, Build logic statements, Build arithmetic calculations, Build grand totals and sub-totals, Use calculations in join clauses, Create a calculated field (e.g. string, date, simple arithmetic), Add a parameter. **(5+1)**

5. **Sharing Insights**: Format view for presentation, Use color, Use bolding, Use shapes, Change size of marks, Select fonts, Create and modify a dashboard, Create a dashboard layout, Add interactive or explanatory elements, Add dashboard actions, Modify existing dashboard layout for mobile devices, Create a story using dashboards or views, Share a twbx as a PDF, Share a twbx as an image. **(5+1)**

Suggested Text Books:

1. Mastering Tableau, David Baldwin
2. Communicating Data with Tableau: Designing, Developing, and Delivering Data Visualizations, Ben Jones
3. Learning Tableau, Joshua N. Milligan
4. Practical Tableau: 100 Tips, Tutorials, and Strategies from a Tableau Zen Master, Ryan Sleeper

Semester II		221BA: Data Warehousing Project Life Cycle Management
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221BA.1	REMEMBERING	DESCRIBE various stages in Data Warehouse development process.
CO221BA.2	UNDERSTANDING	EXPLAIN the significance of and Project Management issues to be considered in the Data warehouse and Business Intelligence projects and the practicality of each phase.
CO221BA.3	APPLYING	MAKE USE OF the Data warehouse Lifecycle.
CO221BA.4	ANALYSING	FORMULATE Requirements Definition using requirements gathering methods.
CO221BA.5	EVALUATING	DETERMINE users of information and SELECT appropriate Information Delivery Tools, OLAP models and Data Mining Techniques.
CO221BA.6	CREATING	CREATE an Implementation Plan for a Data warehouse Project.

1. **Data Warehousing Project Life Cycle Management - Planning And Requirements**: Data to Information Lifecycle, Brief History of Accessing, Reporting And Analyzing Data, Business Intelligence (BI) defined, Data Warehousing (DW) defined, Data Mining defined, Data Stores and Data Marts defined, Uses of BI & DW, Business Drivers For BI, Business and IT Drivers For DW, Applications that use BI And DW, Data Shadow Systems, Industry terminology, Planning the Data Warehouse Project, The Project Team, Project Management Considerations, Defining the Business Requirements, Dimensional Analysis, Information Packages, Requirements Gathering Methods, Requirements Definition: Scope and Content, Requirements as the Driving Force for Data Warehousing, Data Design, The Architectural Plan, Data Storage Specifications, Information Delivery Strategy. **(5+1)**

2. **Data Warehousing Project Life Cycle Management - Architecture And Infrastructure**: The Architectural Components, Understanding Data Warehouse Architecture, Distinguishing Characteristics, Architectural Framework, Technical Architecture, Infrastructure as the Foundation for Data Warehousing, Infrastructure Supporting Architecture, Database Software, Collection of Tools, The Significant Role of Metadata, Why Metadata is Important, Metadata Types by Functional Areas, Business Metadata, Technical Metadata, How to Provide Metadata. **(5+1)**

3. **Data Warehousing Project Life Cycle Management - Data Design And Data Preparation**: Principles of Dimensional Modeling, From Requirements to Data Design, The STAR Schema, STAR Schema Keys, Advantages of the STAR Schema, Updates to the Dimension Tables, Miscellaneous Dimensions, The Snowflake, Schema, Aggregate Fact Tables, Families of STARS, Data Extraction, Transformation, and Loading, Data Extraction, Data Transformation, Data

Loading, ETL Summary, Why is Data Quality Critical?, Data Quality Challenges, Data Quality Tools, Data Quality Initiative. **(5+1)**

4. **Data Warehousing Project Life Cycle Management - Information Access And Delivery:** Matching Information to the Classes of Users. Information from the Data Warehouse, Users of the Information, Information Delivery, Information Delivery Tools, Demand for Online Analytical Processing, Major Features and Functions, OLAP Models, OLAP Implementation Considerations, Data Warehousing and the Web, Web-Enabled Data Warehouse, Web-Based Information Delivery, OLAP and the Web, Building a Web-Enabled Data Warehouse, Data Mining, Major Data Mining Techniques, Data Mining Applications. **(5+1)**

5. **Data Warehousing Project Life Cycle Management - Testing , Implementation And Maintenance:** Unit, IT, ST, Data volume, ETL and other test techniques, The Physical Design Process, Physical Design Steps, Physical Design, Considerations, Physical Storage, Indexing the Data Warehouse, Performance Enhancement Techniques, Data Warehouse Deployment, Major Deployment Activities, Considerations for a Pilot, Security, Backup and Recovery, Growth and Maintenance, Monitoring the Data Warehouse, User Training and Support, Managing the Data Warehouse, Scoping, Estimation, proposal writing and Risk planning. **(5+1)**

Suggested Text Books:

1. The Data Warehouse Lifecycle Toolkit, Ralph Kimball
2. Data Warehouse Project Management , Sid Adelman, Larissa T. Moss
3. The Data Warehouse Lab: A step-by-step guide using SSIS and SSAS, Amin Jalali
4. Data Warehouse for Project Managers, Laura Reeves
5. The Profit Impact of Business Intelligence, Steve Williams , Nancy Williams

University of Pune
Revised Syllabus
Master of Business Administration
(MBA)
Incorporating
Choice Based Credit System and Grading System
TWO YEAR FULL TIME FOUR SEMESTER
POST GRADUATE DEGREE PROGRAMME
MBA I Year Curriculum Applicable w.e.f. AY 2013-14
MBA II Year Curriculum Applicable w.e.f. AY 2014-15

1. Title

Name of the Programme: Master of Business Administration (MBA).

Nature of the Programme: MBA is TWO YEAR FULL TIME post-graduate degree programme.

2. Preamble: The revised curriculum for MBA is developed keeping in mind the *national priorities* and *international practices*. It also attempts to align the programme structure and course contents with student aspirations & recruiter expectations.

2.1 Need for Revision of the Curriculum: The MBA programme curriculum of the University of Pune was last revised in the AY 2008 and there was a need for revision of the curriculum in view of the global aspects of businesses and economies, dynamism in the industry practices, evolution of technology, emergence of new business and organizational forms and the evolving expectations of key stakeholders viz. students, the industry and faculty members at large.

Specifically, the triggers for the comprehensive revamp of the curriculum are -

- a) **New Skills & Competencies desired due to dynamic business environment:** Jobs of today were perhaps not created about 5 years ago. This aspect has a direct linkage with contents and structure of syllabus across the *Knowledge, Skills and Attitude (KSA) dimensions*, which calls for frequent and meaningful updating of the curriculum.
- b) **Concerns expressed by the Industry:** The industry has expressed concerns about the need for improvement in the *communication skills, inter-personal skills, basic domain knowledge, awareness of business environment, technology proficiency, and attitude* of the MBA graduates. *Newer and innovative evaluation methods* are necessary to address these concerns of the industry.
- c) **Application Orientation:** There is a pressing need to *imbibe application oriented thinking*, based on sound knowledge of management theories, principles and concepts. Management education needs to move out of the classrooms and instead focus on *group activity, field work, experiential learning, etc.* This can be achieved only through a radical change in the evaluation pattern and course delivery methodology.
- d) **Changing mindset of the Learner:** The profile of the students for the management programme, their learning styles and the outlook towards higher education has undergone a gradual transformation. The expectations of the students from the MBA programme have changed over the last decade.
- e) **Integrate a basket of skill sets:** B-Schools are expected to imbibe varied aspects of 'learning beyond the syllabus' through innovative curriculum design, contemporary syllabus, effective delivery and comprehensive evaluation.

Specifically the following skill sets are in focus:

- i. Reading & Listening Skills
- ii. Problem Definition & Problem Solving Skills
- iii. Application of Technology Tools
- iv. Mastery of Analytics - Quantitative Aspects
- v. Cross-Functional perspectives
- vi. Sensitization to Cross-Cultural skills
- vii. Orientation to Global perspectives
- viii. Peer-based Learning – Ability to Work in groups
- ix. Learning by application and doing – Experiential learning

2.2 MBA Programme Objectives: The MBA programme prepares a student for a domestic and global careers in diverse sectors of the industry. The MBA programme facilitates learning in theory and practice of different functional areas of management and equips the students with an integrated approach to various functions of management. However, the demand for managerial skills is not limited to the industry. Managerial talent is much sought by the Government Sector, NGOs, non-corporate sector as well. Institutes, Faculty and Students need to move away from the excessive focus on industry and look at needs and demands of broader sections of the society. Likewise entrepreneurial perspective of job and wealth creation with a social context also needs to be integrated into various aspects of the programme.

Specifically the objectives of the MBA Programme are:

1. To equip the students with requisite knowledge, skills & right attitude necessary to provide effective leadership in a global environment.
2. To develop competent management professionals with strong ethical values, capable of assuming a pivotal role in various sectors of the Indian Economy & Society, aligned with the national priorities
3. To develop proactive thinking so as to perform effectively in the dynamic socio-economic and business ecosystem.

2.3 Highlights of the New Curriculum: The New Curriculum intends to add immense value to all stakeholders by effectively addressing their requirements in more than one way by:

1. Adoption of Choice Based Credit System (CBCS) and Grading System in line with National policies and International practices.
2. Enhancing *the brand value of the MBA programme of the University of Pune*.
3. Providing the much needed flexibility to individual Institutes to carve a niche for themselves.
4. Emphasizing the *centrality of the student and teacher-student relationship* in the learning process.
5. Focusing on '*Concurrent Evaluation*' i.e. continuous evaluation throughout the programme.
6. Empowering the Institutes through *cafeteria approach – by providing Generic Core, Subject Core, Generic Elective, and Subject Elective Courses*. This shall provide in-built flexibility in the curriculum to help the institutes to offer tailor made courses preferred by students, from a wider basket of courses.
7. Evaluating *all Half Credit Courses completely on Concurrent Evaluation* pattern.
8. Emphasizing *Experiential Learning* aspect through Half Credit Courses.
9. Supplementing traditional classroom teaching/learning with focus on *group activity, field work, experiential learning, self-study, projects, etc.*
10. Incorporating new specializations viz. Supply Chain Management (SCM), Rural & Agribusiness Management (RABM), Family Business Management (FBM), Technology Management (TM) – thereby providing wider choice to the students.
11. A thorough revamp of Systems & Operations Specializations to make them more meaningful and attractive to BCA, BCS, BE students.
12. Providing opportunity to students to choose courses from other electives to explore *cross-functional issues*.
13. Emphasizing on *Research, Inter-personal, Analytical, Cross-Cultural, Global aspects* of managerial careers throughout the curriculum.

3. Pattern: The Programme comprises of 4 Semesters and adopts the Choice Based Credit System (CBCS) and Grading System.

3.1 Choice Based Credit System: Choice Based Credit System (CBCS) offers wide ranging choice for students to opt for courses based on their aptitude and their career goals. CBCS works on the fundamental premise that students are mature individuals, capable of making their own decisions.

CBCS enables a student to obtain a degree by accumulating required number of credits prescribed for that degree. The number of credits earned by the student reflects the knowledge or skills acquired him / her. Each course is assigned a fixed number of credits based on the contents to be learned & the expected effort of the student. The grade points earned for each course reflects the student's proficiency in that course. CBCS is a process of evolution of educational reforms that would yield the result in subsequent years and after a few cycles of its implementation.

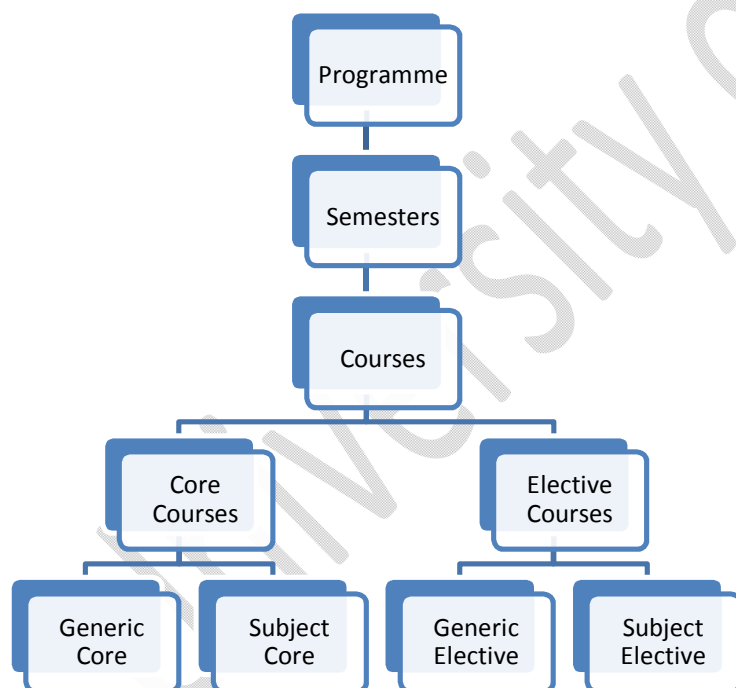

3.1.1 Key features of CBCS:

1. **Enriching Learning Environment:** A student is provided with an academically rich, highly flexible learning system blended with abundant provision for skill development and a practical orientation that he/she could imbibe without sacrificing his/her creativity. There is a definite movement away from the traditional lectures and written examination.
2. **Learn at your own pace:** A student can exercise the option to decide his/her own pace of

learning- *slow, normal or accelerated plan*. Students can select courses according to their aptitude, tastes and preferences.

3. **Continuous Learning & Student Centric Concurrent Evaluation:** CBCS makes the learning process continuous. Likewise the evaluation process is not only made continuous but also made learner-centric. The evaluation is designed to recognize the capability and talent of a student.
4. **Active Student-Teacher Participation:** CBCS leads to quality education with active teacher-student participation. This provides avenues to meet student's scholastic needs and aspirations.
5. **Industry Institute Collaboration:** CBCS provides opportunities for meaningful collaboration with industry and foreign partners to foster innovation, by introduction of electives and half credit courses through the cafeteria approach. This will go a long way in capacity building of students and faculty.
6. **Interdisciplinary Curriculum:** Cutting edge developments generally occur at the interface of two or more disciplines. The interdisciplinary approach enables integration of concepts, theories, techniques, and perspectives from two or more disciplines to advance fundamental understanding or to solve problems whose solutions are beyond the scope of a single discipline.
7. **Employability Enhancement:** CBCS shall ensure that students enhance their skill/employability by taking up project work, entrepreneurship and vocational training.
8. **Faculty Expertise:** CBCS shall give the Institutes the much needed flexibility to make best use of the available faculty expertise.

3.1.2 Programme Structure in Choice Based Credit System:

3.2 Time Schedule: An academic year is divided into two terms – I and II. Term I shall have Semester I and III, whereas Term II shall have Sem II and IV. In each semester, courses are offered in 15 teaching weeks and the remaining 5 weeks are to be utilized for conduct of examinations and evaluation purposes.

For the students, each week has 40 working hours is spread over 5/6 days a week, consisting of lectures, tutorials, assignments, class participation, library work, special counseling, Sports, project work, field visit, youth welfare and social activities.

3.3 Course: A “Course” is a component of programme, i.e. in the new system; papers will be referred to as courses. Each course is identified by a unique course code. While designing curriculum, courses have defined weightages, called credits.

Each course, in addition to having a syllabus, has learning objectives and learning outcomes. A course may be designed to comprise lectures/ tutorials/ laboratory work/ field work/ project work/vocational training /viva voce etc. or a combination of some of these.

3.3.1 Core Courses: The Curriculum comprises of Core Courses and Elective Courses.

Core courses are the foundation courses of management education. They are compulsory for all the students. Core courses are of two types: Generic Core & Subject Core.

Generic Core: This is the course which should compulsorily be studied by a candidate as a core requirement to complete the requirement of a degree in a said discipline of study. Therefore, Generic Core courses are mandatory and fundamental in nature. These courses cannot be substituted by any other courses. Such courses are also known as **Hard Core Courses**.

A Hard core course may be a Theory, Practical, Field based or Project Work based subject which is a compulsory component in the Programme Structure.

Subject Core: A Core course may be a Subject Core if there is a choice or an option for the candidate to choose from a broad category (grouping) of subjects (specializations / electives). These are also known as **Soft Core Courses**.

Following Specializations shall be offered:

1. Marketing Management (MKT)
2. Financial Management (FIN)
3. Information Technology Management (IT)
4. Operations Management (OPE)
5. Human Resources Management (HR)
6. International Business Management (IB)
7. Supply Chain Management (SCM)
8. Rural & Agribusiness Management (RABM)
9. Family Business Management (FBM)
10. Technology Management (TM)

Students shall study 2 Full Credit Courses & 4 Half Credit Courses in Semester III and IV each for specialization courses i.e. a total of 12 specialization courses.

- Generic Core courses in Semester I provide *foundations of management*.
- Generic Core courses in Semester II focus on *functional areas*.
- Generic Core courses in the Semester III and IV are *integrative* in nature along with the Subject Core subjects.

3.3.2 Elective Course: Elective course is a course which can be chosen from a pool of courses. It may be:

- a) Very Specialized or advanced course focusing on a specific aspect
- b) Supportive to the discipline of study
- c) Providing an extended scope
- d) Enabling an exposure to some other discipline/domain
- e) Nurturing candidate's proficiency/skills.

Generic Elective: An elective course which is common across disciplines / subjects is called a generic elective. 'Generic Elective' courses develop generic proficiencies amongst the students.

Subject Elective: A 'Discipline centric' elective is called 'Subject Elective.'

- Generic Elective courses, in Semester I and II facilitate self-development and skill building.
- Subject Elective courses, in the Semester III and IV are focused on a specialization.

Open Elective: A subject elective course chosen generally from an unrelated discipline/ subject, with an intention to seek cross-functional exposure is called an Open Elective. A Subject Elective offered in a specialization/elective may be treated as an Open Elective by other specialization/ elective and vice-a-versa.

Choice of Cross Functional Half Credit Courses (Subject Elective chosen as Open Elective): Out of the 8 half credit subject elective courses (to be taken collectively in Semester III and IV); *a student may choose 2 half credit subject courses from another elective* (i.e. other than his chosen elective). The student may exercise this choice either in Semester III and/or in Semester IV. The final say in this matter shall rest with the Director of the Institute.

Generic and Subject Electives will provide flexibility to each Institute to offer courses based on: -

- a) Intended positioning of the Institute
- b) Targeted Industry Linkages – sectoral requirements and networking at the Institute Level
- c) Student Composition – rural/urban, commerce/engineering/others, freshers/experienced, etc.
- d) Present & Future Faculty Competencies – generic and specialization areas
- e) Locational Aspects - rural/urban/ semi-urban.

An Institute may offer varied combinations of Half Credit courses to various groups of students enrolled in a particular academic year / enrolled for a particular specialization based on student interests and competencies, faculty availability.

3.4 Pre-requisites for successful implementation of CBCS: The success of the CBCS also requires certain commitments from both the students and the teachers.

1. The student should be regular and punctual to his classes, studious in carrying out the assignments and should maintain consistency in his tempo of learning. He should make maximum use of the available library, internet and other facilities.
2. The teachers are expected to be alert and punctual and strictly adhere to the schedules of teaching, tests, seminars, evaluation and notification of results.
3. All teachers should notify the tentative schedule of teaching and tests of the entire semester, including the dates of tests, dates of score notification and all other schedules, which can be planned in advance.
4. The teachers are expected to adhere to unbiased and objective evaluation and marking of concurrent evaluation scores (internal examinations) which will not only maintain the confidence of the students, but, at the same time, ensure that merit is given due credit.
5. Transparency, objectivity and quality are the key factors that will sustain a good CBCS system.
6. **At the post-graduate level, and in a professional programme, the syllabus is to be looked upon as the bare minimum requirement to be fulfilled and sufficient emphasis shall be laid on contemporary aspects, going beyond the syllabus.**

3.5 Credits

Credit: The definition of 'credits' can be based on various parameters - such as the learning hours put in, learning outcomes and contact hours, the quantum of content/syllabus prescribed for the course.

The credit system requires that a student progresses in the academic programmes not in terms of time (years or semesters), but in terms of courses.

Each course is assigned a certain credit, depending on the estimated effort put in by a student. When the student passes that course, he/she earns the credits associated with that course.

In the Credit system the emphasis is on the **hours put in by the learner and not on the workload of the teacher**. Each credit can be visualized as a combination of **3 components viz. Lecture (L) + Tutorials (T) + Practice (Practical / Project Work) (P) i.e. LTP Pattern**.

The effort of the learner for each Credit Point may be considered to have two parts –

- a) One part consisting of the **hours actually spent** in class room / practical / field work instructions and
- b) The other part consisting of **notional hours** spent by the Learner in self-study, in the library, peer interactions, case study, writing of journals and assignments, projects etc. for the completion of that course.

Every course offered shall have three components associated with the teaching-learning process of the course, viz.

- a) **Lecture (L)**: Classroom sessions delivered by faculty in an **interactive mode**
- b) **Tutorial (T)**: Session consisting of participatory discussion/ self-study/ desk work/ brief seminar presentations by students and such other **novel methods** that make a student to absorb and assimilate more effectively the contents delivered in the Lecture sessions
- c) **Practice (P)**: Practice session /Practical / Project Work consisting of Hands-on experience / Field Studies / Case studies that equip students to acquire the much required **skill component**.

The teaching / learning as well as evaluation are to be interpreted in a broader perspective as follows:

- a) Teaching – Learning Processes: Classroom sessions, Group Exercises, Seminars, Small Group Projects, Self-study, etc.
- b) Evaluation: Tutorials, Class Tests, Presentations, Field work, Assignments, Research papers, Term papers, etc.

In terms of credits, for a period of one semester of 15 weeks:

- a) every ONE hour session per week of L amounts to 1 credit per semester
- b) a minimum of TWO hours per week of T amounts to 1 credit per semester,
- c) a minimum of TWO hours per week of P amounts to 1 credit per semester,

A course shall have either or all the three components, i.e. a course may have only lecture component, or only practice component or a combination of any two or all the three components.

The total credits earned by a student at the end of the semester upon successfully completing a course are 'L + T + P'. The **credit pattern** of the course is indicated as L: T: P.

If a course is of 3 credits then the different credit distribution patterns in L: T: P format could be 3: 0: 0, 1: 2: 2, 2: 0: 2, 2: 2: 0, etc. The credits of a course cannot be greater than the number of hours (per week for 15 weeks) allotted to it.

Full Credit Course: A course with weightage of 3 credits is considered as a full credit course. (Except for Summer Internship Project which is a full credit course with 6 Credits.)

Half Credit Course: A course with weightage of 2 credits is considered as a half credit course.

The MBA programme is a combination of:

- a) Full Credit Courses (100 Marks each) : 3 Credits each
- b) Half Credit Courses (50 Marks each) : 2 Credits each

3.6 Adoption of Credit and Grading System

As per national policy and international practices, it is proposed to adopt the Credit and Grading System for the MBA programme w.e.f. AY 2013-14.

3.6.1 Rationale for adoption of the Credit and Grading System:

a) **Learner's Perspective:** The current practice of evaluation of student's performance at the end of a semester is flawed. The students are expected to express their understanding or mastery over the content included in their curriculum for a complete semester within a span of three hours and their efforts over the semester are often completely ignored. It also promotes unhealthy practice of cramming before the examinations and focusing on marks rather than on learning.

b) **Evaluation Perspective:** The present system of evaluation does not permit the flexibility to deploy multiple techniques of assessment in a valid and reliable way. Moreover, the current practice of awarding numerical marks for reporting the performance of learners suffers from several drawbacks and is a source of a variety of errors. Further, the problem gets compounded due to the variations in the marks awarded in different subjects. **The 'raw score' obtained by the learner, is, therefore, not a reflection of his true ability.**

In view of the above lacunae, it is desirable that the marking system used for the declaration of results is replaced by the grading system. The system of awarding grades provides a more realistic picture of learner's ability than the prevailing marking system. *Excellence in quality education can be achieved by evaluating the true ability of the learners with the help of continuous evaluation.*

3.6.2 Salient features of the grading system:

1. In this system, students (learners) are placed in ability bands that represent a range of scores. This ability range may be designated with alphabetical letters called as 'GRADE'.
2. Grading reflects an individual learner's performance in the form of a certain *level of achievement*.
3. The Grading system ensures natural classification in qualitative terms rather than quantitative terms since it expresses a range /band of scores to which a learner belongs such as O,A,B,C,D,E & F
4. Grades can be interpreted easily and directly and can be used to prepare an accurate 'profile' of a learner.
5. A properly introduced grading system not only provides for a comparison of the learners' performance but it also indicates the quality of performance with respect to the amount of efforts put in and the amount of knowledge acquired at the end of the course by the learners.

3.6.3 Basics of Credit and Grading System: Grading is a method of reporting the result of a learner's performance subsequent to his evaluation. It involves a set of alphabets which are clearly defined and designated and uniformly understood by all the stakeholders.

Grading is carried out in a variety of ways. The classification of grades depends upon the reference point.

With 'Approach towards Grading' as the reference point, Grading may be classified as:

- a) **Direct grading:** When the performance exhibited by the examinees is assessed in qualitative terms and the impressions so obtained by the examiners are directly expressed in terms of letter grades, it is called, '*Direct Grading*'.
- b) **Indirect grading:** When the performance displayed by the examinees is first assessed in terms of marks and subsequently transformed into letter grades by using different modes, it is called, '*Indirect Grading*'.

With 'Standard of Judgment', as the reference point Grading may be classified as:

- a) **Absolute grading:** The method that is based on a predetermined standard which becomes a reference point for the learner's performance is called 'Absolute Grading'. This involves direct conversion of marks into grades irrespective of the distribution of marks in a subject.
- b) **Relative grading:** Relative Grading is popularly known as grading on the curve. The curve refers to the normal distribution curve or some symmetric variant of it. This method amounts to determining in advance approximately what percentage of learners can be expected to receive different grades, such as O,A,B,C,D,E,F. In this grading system the grade is not determined by the learner's performance but on the basis of group performance.

Absolute grading has several advantages such as:

- a) The procedure is simple and straightforward to use,
- b) Each grade is distinctly understandable,
- c) The learner has the freedom to strive for the attainment of the highest possible grade and
- d) It enables the learners to know their strengths and weaknesses.

The few limitations of Absolute Grading method are:

- a) The distribution of scores is taken at its face value regardless of the errors of measurement creeping in due to various types of subjectivity.
- b) Besides, the cut-offs of different categories are also arbitrarily decided.

It is proposed to use the **Indirect and Absolute Grading System for the MBA programme**, i.e. the assessment of individual Courses in the concerned examinations will be on the basis of marks. However the marks shall later be converted into Grades by a **defined mechanism** wherein the overall performance of the learners can be reflected after considering the Credit Points for any given course. The **overall evaluation shall be designated in terms of Grade**.

3.7 Session Duration: Each teaching-learning, evaluation session shall be of 60 minutes. However, institutes shall have the flexibility to define their time slots in a manner as to use their faculty and infrastructure resources in the best possible way.

3.8 Courses Offered: Institutes are free to offer only a *select number of specializations* from amongst the list provided by the University. Likewise, institutes may provide only a *sub-set of the generic electives, subject electives* as prescribed semester-wise in the Programme structure. It is envisaged that Institutes offer only those specializations/electives for which they have the required faculty competencies and relevant resources.

It shall be mandatory for the Institutes to provide all information relating to the specializations offered, generic electives, subject electives, their respective credits, evaluation pattern, etc. to all the students so as to enable them to make an informed choice. Such information should be hosted on the website/prospectus of the Institute in sufficient advance, prior to commencement of the classes. Other information such as the credits, the prerequisites, and syllabus shall also be hosted on the website of the institute.

3.9 Registration: *It is mandatory for every student, to register every semester, for the courses opted under CBCS system, for that semester.*

Such registration shall be the basis for a student to undergo concurrent evaluation, online evaluation and end-semester examination. Application forms for University examinations are to be filled up based on the choices finalized during the registration process and submitted to the University along with the prescribed examination fee.

3.9.1 Registration Process:

- i. Each student, on admission shall be assigned to a **Faculty Advisor** who shall advise her/him about the academic programs and counsel on the choice of courses considering the student's profile and career objectives.
- ii. With the advice and consent of the Faculty Advisor the student shall register for a set of courses he/she plans to take up for the Semester.
- iii. The student should meet the criteria for prerequisites, if defined for a course, to become eligible to register for that course.
- iv. The Institute shall follow a selection procedure on a first come first served basis, determining the maximum number of students and counseling the students if required to avoid overcrowding to particular course(s) at the expense of some other courses.
- v. It is expected that a student registers for 26 credits in Semester I, II, 29 Credits in Semester III each and balance 19 credits in Semester IV.

- vi. However fast learners (under accelerated plan), may be permitted to register for 2 full credit / 3 half credit courses in excess of the normal credits defined for a semester. However, registration for Repeat courses (backlogs) is allowed in excess of this limit.
- vii. Likewise, slow learners, may be permitted to register for 2 full credit / 3 half credit courses less than the normal credits defined for a semester.
- viii. A candidate may register for a minimum of say, 20 credits per semester, but it is possible that he/she may earn less than 20 credits in a semester. It may be theoretically possible that he/she may just earn ZERO credits in a semester. However, he/she should register for credits less than or equal to permissible maximum and more than or equal to permissible minimum per semester, excluding the courses of earlier semester(s), for which he/she has not earned the credits (uncleared courses) if any.
- ix. Students shall have to register for the courses for the semester **within first week of Semester I** and immediately after conclusion of the preceding term for subsequent Semesters - II, III and IV. i.e. The fresh inducted batch shall register for various courses at the end of the first week of their Semester I after their induction. They will register for Semester II courses immediately at the end of Semester I and likewise for subsequent semesters. In Semester I the registration window shall be open for sufficiently long duration to take care of late admissions.
- x. The maximum number of students to be registered in each elective course shall depend upon the physical facilities available. Every effort shall be made by the Institute to accommodate as many students as possible.
- xi. Students who do not earn credits for an elective course (generic / subject / open) are permitted to opt for another elective course (generic / subject / open) in case they feel to do so. In such a case they shall be said to have **dropped the original course and opted for a new one**. Alternatively, they are permitted to continue with the same elective course (generic / subject / open) i.e. If a student secures a F Grade in say course no 111 for which he has opted in Semester I, during the successive attempt he may drop course 111 and take up another course from 107 to 115, or continue with 111.
- xii. The Institute may not offer a course if a minimum of 20% of students are not registered for that course.

4. Eligibility: The eligibility for admissions shall be defined by the Competent Authority viz. AICTE / DTE Maharashtra State for the relevant academic year.

5. Examination:

Pattern of Examination: The evaluation scheme comprises of:

- a) University Evaluation
- b) Concurrent Evaluation

For each full credit course –

- a) 70 marks shall be evaluated by the University and
- b) 30 marks shall be evaluated by the respective Institute.

For each half credit course –

- a) 50 marks shall be evaluated by the respective Institute.

There shall not be any University evaluation for half credit courses.

(Evaluation Scheme for Summer Internship Project is detailed separately.)

5.1 University Evaluation

There shall be University evaluation for each full credit course as per the time table announced by the University. The evaluation by the University for Full Credit Courses shall comprise of two parts:

- a) Online Examination for 20 marks.
- b) Written Examination (subjective – concept plus case study / application oriented type) for 50 marks.

5.1.1 Online Examination

The University of Pune shall conduct an online examination for each full credit course. This examination shall be *objective* in nature and shall carry a *weightage of 20 marks per full credit course*. Students will appear for the online examinations in their respective institutes. Online examination shall constitute a **separate head of passing** for the full credit courses. Passing shall be at 40%, i.e. Grade E. The student does NOT have a facility of Grade Improvement, in online examination, if he/she has secured any grade other than F.

The Controller of Examinations of the University of Pune shall announce the *online examination window of 3 days per semester* i.e. a window of 3 days for Sem I and another window of 3 days for Sem III (in term I and likewise for term II) for the examination, *in consultation with the Dean – Faculty of Management*. The online test shall be conducted for all 4 semesters during each term. A similar window of 3 days for Sem II (backlog) and another window of 3 days for Sem IV backlog shall be announced in term I and vice-versa for Sem I backlog and Sem III backlog in term II for students who score Grade F in the online exam.

There shall NOT be any retest for those students who is absent for the online exam during the declared examination window period. Any student, who *is absent* for the online test during the regular term, can take the online test for the specific course in the next term and his grades evaluation shall be updated accordingly in the revised **Grade Card**.

Generally the schedule for online examination will be as follows:

- a) Semester I: In the 8th/9th week after the commencement of semester I.
- b) Semester II, III and IV: In the 7th/ 8th week after the commencement of respective semester.

The date declared by DTE for commencement of classes as per CAP process shall be the reference date for Semester I. Only for Semester I, in case of unforeseen circumstances the Controller of Examinations (CoE), University of Pune, in consultation with the Dean of the Faculty of Management may postpone the examinations for Semester I. However the online examinations shall not be postponed beyond 10th week after commencement of the classes / course for Semester I.

For Sem II, III and IV the reference date shall be the term commencement date declared by the UoP.

The syllabus for the online examination shall be the first two units in each full credit course (2 out of total 5 units, i.e. 40% of the syllabus). The duration of online examination for each course shall be of 25 minutes.

There shall be **one mark for each correct response and 0.25 negative marks for each incorrect response. There shall be 20 questions – each carrying one mark. ALL THE QUESTIONS SHALL BE COMPULSORY.** The questions shall be of different variety within the objective format. In the extreme event of a student answering all the questions incorrectly, the final score of such a student for that course for the online examination shall be 0 (ZERO) and not -5 (MINUS FIVE).

The Faculty of Management shall devise objective question bank comprising questions of varying degree of difficulty, and of different types, in sufficiently large number for each course for the exclusive purpose of the online examination. *The objective question paper shall be developed in real time, randomly using an ERP / Learning Management System.*

The Institutes shall ensure the provision of necessary IT infrastructure and internet bandwidth, backup power supply, for the smooth conduct of such online examination.

The score of each candidate for each course shall be known immediately after the conclusion of the online test and the Institute shall display the scores of all students for the online test within 3 days of the completion of the test.

5.1.2 Instructions to External Paper Setters / Chairman/ Examiners: The syllabus for each course is organized in 5 units. The end-semester University evaluation shall cover the entire syllabus prescribed for the course. For University evaluation (Written Examination – subjective type of 50 marks) of each full credit course, the question pattern shall be as follows:

Pattern of Question Paper:

- 1) There shall be five questions each of 10 marks.
- 2) All questions shall be compulsory with internal choice within the questions. i.e. There shall be 2 questions from each unit of the curriculum with an internal option.
- 3) A Question may be subdivided into sub-questions a, b, c... and the allocation of marks depend on the weightage of the topic.

ILLUSTRATIVE PATTERN OF QUESTION PAPER	
Q. 1 (A).....	based on Unit 1
OR	
Q.1 (B)	based on Unit 1
Q.2. (A)	based on Unit 2
OR	
Q.2 (B)	based on Unit 2
Q.3 (A)	based on Unit 3
OR	
Q.3 (B)	based on Unit 3
Q.4 (A)	based on Unit 4
OR	
Q.4 (B)	based on Unit 4
Q.5 (A)	based on Unit 5
OR	
Q.5 (B)	based on Unit 5

Questions shall assess knowledge, application of knowledge, and the ability to synthesize knowledge. The paper setter shall ensure that questions covering all skills and all units are set. She/he shall also *mandatorily submit* a detailed scheme of evaluation along with the question paper. Questions shall be of three categories of difficulty level – low difficulty, average difficulty and high difficulty.

The duration of written examination shall be 2 hours. Students shall be provided a single answer sheet of 16 pages. They must ensure that their responses fit within the provided answer sheet. Additional supplements shall NOT be provided.

5.2 Concurrent Evaluation: A continuous assessment system in semester system (also known as internal assessment/comprehensive assessment) is spread through the duration of course and is done by the teacher teaching the course.

The continuous assessment provides a feedback on teaching learning process. The feedback after being analyzed is passed on to the concerned student for implementation and subsequent improvement. As a part of concurrent evaluation, the learners shall be *evaluated on a continuous basis* by the Institute to ensure that student learning takes place in a graded manner.

Concurrent evaluation components should be designed in such a way that the faculty can *monitor the student learning & development and intervene wherever required*. The faculty *must share the outcome* of each concurrent evaluation component with the students, soon after the evaluation, and guide the students for betterment.

Individual faculty member shall have the flexibility to design the concurrent evaluation components in a manner so as to give a balanced assessment of student capabilities across Knowledge, Skills & Attitude (KSA) dimensions based on variety of assessment tools.

Suggested components for Concurrent Evaluation (CE) are:

1. Case Study / Caselet / Situation Analysis – (Group Activity or Individual Activity)
2. Class Test
3. Open Book Test
4. Field Visit / Study tour and report of the same
5. Small Group Project & Internal Viva-Voce
6. Learning Diary
7. Scrap Book
8. Group Discussion
9. Role Play / Story Telling
10. Individual Term Paper / Thematic Presentation
11. Written Home Assignment
12. Industry Analysis – (Group Activity or Individual Activity)
13. Literature Review / Book Review
14. Model Development / Simulation Exercises – (Group Activity or Individual Activity)
15. In-depth Viva
16. Quiz

There shall be a *minimum of three concurrent evaluation components per full credit course and five concurrent evaluation components for each half credit course*. The faculty shall announce in advance the units based on which each concurrent evaluation shall be conducted. Each component shall ordinarily be of 10 marks. The Institute shall however have the liberty to conduct additional components (beyond three/five). However the total outcome shall be scaled down to 30/50 marks for full credit and half credit courses respectively. Marks for the concurrent evaluation must be communicated by the Institute to the University as per the schedule declared by the University. Detailed record of the Concurrent Evaluation shall be maintained by the Institute. The same shall be made available to the University, on demand.

At the end of Concurrent Evaluation (out of 30/50 marks) the student does NOT have a facility of Grade Improvement, if he/she has secured any grade other than F.

5.2.1 Safeguards for Credibility of Concurrent Evaluation: The following practices are encouraged to enhance transparency and authenticity of concurrent evaluation:

- a) Involving faculty members from other management institutes.
- b) Setting multiple question paper sets and choosing the final question paper in a random manner.
- c) One of the internal faculty members (other than the course teacher) acting as jury during activity based evaluations.
- d) Involvement of Industry personnel in evaluating projects / field based assignments.
- e) Involvement of alumni in evaluating presentations, role plays, etc.
- f) 100% moderation of answer sheets, in exceptional cases.

5.3 Summer Internship Project: At the end of Second Semester each student shall undertake a **Summer Internship Project (SIP) for 8 weeks. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP.** The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. Ideally the SIP should exhibit a **cross-functional orientation**. The student shall submit a written structured report based on work done during this period.

SIP can be carried out in:

- a) Corporate Entity
- b) NGO

- c) SME
- d) Government Undertaking
- e) Cooperative Sector

SIP may be a research project – based on primary / secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace. *The learning outcomes and utility to the organization must be specifically highlighted.*

The report should be well documented and supported by –

1. Executive Summary
2. Organization profile
3. Outline of the problem/task undertaken
4. Research methodology & data analysis (in case of research projects only)
5. Relevant activity charts, tables, graphs, diagrams, etc.
6. Learning of the student through the project
7. Contribution to the host organization
8. References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)

It should reflect the nature and quantum of work undertaken by the student. The report must reflect 8 weeks of work and justify the same.

The completion of the SIP shall be certified by the respective Faculty Guide & approved by the Director of the Institute. The external organization (Corporate / NGO/ SME/ Government Entity/ Cooperative/ etc.) shall also certify the SIP work.

The student shall submit **TWO hard copies & one soft copy (CD)** of the project report before 30th September in Sem III. One hard copy is to be returned to the student by the Institute after the External Viva-Voce.

In the interest of environmental considerations, students are encouraged to print their project reports on both faces of the paper.

SIP shall have a weightage of 6 credits. The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks. The Panel shall comprise of the Internal Faculty Guide & One additional faculty nominated by the Director.

There shall be an external viva-voce for the SIP for 100 marks. The examiner's panel for the same shall include one external faculty member nominated by the University and one internal faculty member nominated by the Director. **The external viva-voce shall be conducted for 15 minutes at least per student.**

The Internal & the External viva-voce shall evaluate the project based on:

1. Actual work undertaken by the student
2. Student's understanding of the organization and business environment
3. Outcome of the project
4. Utility of the project to the organization
5. Basic analytical capabilities

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

5.4 Dissertation: In Sem IV the student shall work under the supervision of the Faculty and carry out a dissertation and submit a structured report in TWO hard copies & one soft copy (CD). *In the interest of environmental considerations, students are encouraged to print their dissertation reports on both faces of*

the paper.

The student is required to conduct advanced research on a topic related to one (or more) of contemporary issues in management. The topic is chosen in consultation with the student's supervisor. The student will prepare and present a detailed research proposal prior to starting the work. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic before commencing the dissertation work. A dissertation outlining the entire problem, including a survey of literature and the various results obtained along with their solutions is expected to be produced. The student must submit the completed dissertation and make an oral presentation of the same. Through the dissertation, the student is expected to furnish evidence of competence in understanding varied aspects of the theme/topic selected and a deep understanding of the specialty area. The completion of the dissertation / project shall be certified by the Faculty Guide & approved by the Director of the Institute.

Dissertation shall have a weightage of 2 credits. The Institute shall conduct a viva-voce for evaluation of the dissertation, for 50 marks. The panel shall comprise of 2 internal Faculty members (One who has supervised the student and the other one as Jury) nominated by the Director. The Institute may invite an additional external examiner from the industry. Copies of Dissertation report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

5.5 Standard of Passing: Every candidate must secure at least Grade E in Concurrent Evaluation , University Examination & Online Evaluation (as applicable) as separate heads of passing for each course.

Degree Requirements:

- a) **Earned Credits:** A candidate who has successfully completed all the Core courses and accumulated, through elective courses, not less than minimum number of Credits prescribed shall be eligible to receive the Degree. The degree requirements for the MBA programme is completion of 100 earned credits.
- b) **Final Grade Point Requirement:** A student must obtain the Final Grade Point of a minimum of 00.50 to be eligible for award of the MBA degree.

5.5.1 Conversion of Marks to Grade Points & Grades: The marks shall be converted to grade points and grades using Table I below.

Table I: Points Grading System

Sr. No.	Marks	Grade	Grade Point
1	100 – 75	O – Outstanding	06
2	74 – 65	A – Very Good	05
3	64 -55	B – Good	04
4	54 – 50	C – Average	03
5	49 – 45	D – Satisfactory	02
6	44 – 40	E – Pass	01
7	39 – 0	F – Fail	00

The description of the final grades shall be as follows:

O: Outstanding (Excellent Analysis of the topic - 75% and above)

Accurate knowledge of the primary material, wide range of reading, logical development of ideas, originality in approaching the subject. Neat and systematic organization of content, elegant and lucid style.

A: Very Good (Excellent Analysis of the topic - 65 to 74 %)

Accurate knowledge of the primary material, acquaintance with seminal publications, logical development of ideas. Neat and systematic organization of content, effective and clear expression.

B : Good (Good Analysis and treatment of the topic - 55 to 64 %)

Basic knowledge of the primary material, logical development of ideas. Neat and systematic organization

of content, effective and clear expression.

C : Average (Some important points covered – 50 to 54%)

Basic knowledge of the primary material, logical development of ideas. Neat and systematic organization of content, good language or clear expression.

D: Satisfactory (Some points discussed – 45 to 49%)

Basic knowledge of the primary material, some organization of content, acceptable language or expression.

E: Pass (Any two of the above – 40 to 44%)

F: Fail (None of the above – 0 to 39%)

The performance of a student will be evaluated in terms of two indices, viz.

- Semester Grade Point Average (SGPA)* which is the Grade Point Average for a semester
- Cumulative Grade Point Average (CGPA)* which is the Grade Point Average for all the completed semesters at any point in time.

Semester Grade Point Average (SGPA): At the end of each semester, SGPA is calculated as the weighted average of GPI of all courses in the current semester in which the student has passed, the weights being the credit values of respective courses.

SGPA = Grade Points divided by the summation of Credits of all Courses.

$$SGPA = \frac{\sum \{C * GPI\}}{\sum C} \text{ for a semester.}$$

Where GPI is the Grade and C is credit for the respective Course.

Cumulative Grade Point Average (CGPA): Cumulative Grade Point Average (CGPA) is the grade point average for all completed semesters. CGPA is calculated as the weighted average of all GPI of all courses in which the student has passed up to the current semester.

Cumulative Grade Point Average (CGPA) for the Entire Course

$$CGPA = \frac{\sum \{C * GPI\}}{\sum C} \text{ for all semesters taken together.}$$

Where GPI is the Grade and C is credit for the respective Course.

Note: If a student secures F grade in either or both of Concurrent Evaluation or University Evaluation for a particular course his /her credits earned for that course shall be ZERO.

5.5.2 Scaling Down of Concurrent Evaluation Scores: The marks obtained by the student for the Concurrent Evaluation components conducted by the Institute (i.e. out of 30 marks), in the Full Credit Courses, in Semester I to Semester IV, shall be scaled down, to the required extent, if percentage of the marks of Concurrent Evaluation exceeds the percentage of marks scored in the end semester University Examination by 25% for the respective course. Scores of Online Examination are not part of the scaling down formula. i.e. (percentage of marks scored out of 30 in concurrent evaluation) – (percentage of marks scored out of 50 in university evaluation) should not exceed 25%.

The marks obtained by the student in Half Credit Courses are **not subject to** scaling down. Likewise, the marks obtained by the student in Concurrent Evaluation for the Summer Internship Project (Course 304) shall **not be** subjected to scaling down.

5.5.3 Attendance: The student must meet the requirement of **75% attendance per semester per course** for grant of the term. The Director shall have the right to withhold the student from appearing for examination of a specific course if the above requirement is not fulfilled.

Since the emphasis is on continuous learning and concurrent evaluation, it is expected that the students study all-round the semester. *Therefore, there shall not be any preparatory leave before the University examinations.*

5.6 ATKT Rules: A student shall earn the credits for a given course in **MAXIMUM FOUR ATTEMPTS**. If a student drops a course (generic elective / subject elective) and opts for another course in lieu of the dropped course the attempts utilized for the dropped course shall be included in the maximum 4 attempts available to earn the credits for a course. The facility of dropping a course and opting for a new course in lieu of the dropped course shall be availed by the student only once during these four attempts available to him. A student may drop at the most 2 courses out of the 16 elective courses and select other courses in lieu of dropped courses. i.e. Dropping a course can be done only twice.

Maximum Duration for completion of the Programme: The candidates shall complete the MBA Programme **WITHIN 4 YEARS** from the date of admission, by earning the requisite credits. The student will be finally declared as failed if she/he does not pass in all credits within a total period of four years. After that, such students will have to seek fresh admission as per the admission rules prevailing at that time.

5.7 Award of Grade Cards: The University of Pune under its seal shall issue to the student a grade card on completion of each semester. The final Grade Card issued at the end of the final semester shall contain the details of all courses taken during the entire programme for obtaining the degree.

Final Grades: After calculating the SGPA for an individual semester and the CGPA for entire programme, the value shall be matched with the grade in the Final Grade Points Table (as per Table II) and expressed as a single designated GRADE such as O, A, B, C, D, E, F.

Table II: Final Grade Points

Sr. No.	Grade Points	Grade
1	05.00 to 6.00	O – Outstanding
2	04.50 to 04.99	A – Very Good
3	03.50 to 04.49	B – Good
4	02.50 to 03.49	C – Average
5	01.50 to 02.49	D – Satisfactory
6	00.50 to 01.49	E – Pass
7	00.00 to 00.49	F – Fail

A student who secures grade E or above in a course is said to have completed /earned the credits assigned to the course. A student who completed the minimum credits required for the MBA programme shall be declared to have completed the programme.

NOTE:

The Grade Card for the final semester shall indicate the following, amongst other details:

- Grades for concurrent evaluation (out of 30 for Full Credit Courses & out of 50 for Half Credit Courses) , Online evaluation (out of 20 for Full Credit Courses only) and University evaluation (out of 50 for Full Credit Courses only), separately, for all courses offered by the student during the entire programme along with the grade for the total score.
- SGPA for each semester.
- CGPA for final semester.
- Total Marks Scored out of Maximum Marks for the entire programme, with break-up of Marks Scored in Concurrent Evaluation and University Evaluation (Semester Wise).
- Marks scored shall **not be** recorded on the Grade Card for intermediate semesters.
- The grade card shall also show the 7 point scale and the formula to convert GPI, SGPA, and/or CGPA to percent marks.
- The final GPA shall not be printed unless the student earns the minimum 100 credits required for

- earning the MBA Degree.
- h) B Grade is equivalent to atleast 55% marks.
 - i) If the GPA is higher than the indicated upper limit in the three decimal digit, then the student may be awarded higher final grade e.g. a student getting a GPA of 4.492 may be awarded grade A. The grade card shall also provide, on the reverse, the 7-point scale and the formula to convert GPI, SGPA, and/or CGPA to percent marks.

5.8 Grade Improvement: A Candidate who has secured any grade other than F (i.e. passed the MBA programme) and desires to avail the Grade Improvement facility, may apply under Grade Improvement Scheme within five years from passing that Examination. He/she can avail not more than three attempts, according to the syllabus in existence, for grade improvement. He /she shall appear for University Evaluation of **at least 1/3rd** Generic / Subject Core Courses (except SIP) for the purpose of Grade Improvement. Generic or Subject Electives (Half Credit Courses) cannot be selected for Grade Improvement.

5.9 External Students: MBA being a full time programme, there is no provision of external students.

5.10 Verification / Revaluation: Students can avail the verification / revaluation facility as per the prevailing policy, guidelines and norms of the University of Pune. There shall be Revaluation of the answer scripts of Semester-End examination for Full Credit Courses but not of online examination , half credit courses / SIP / Dissertation as per Ordinance no.134 A & B.

5.11 Additional Specialization: A student may enroll for additional specialization *after passing out the regular MBA programme*. Such students will get exemption from all the generic core and generic elective courses in First Year (Sem I and II) and generic core courses in Second Year (Sem III and IV). Such students shall have to appear for the subject core and subject elective courses i.e. 2 Full Credit Courses & 4 Half Credit Courses in Sem III and IV each. i.e. a total of 12 subject electives (specialization) courses of which 4 are full credits and 8 are half credits.

6. **Structure of the Programme:** The programme is a combination of:

- a) Full Credit Courses (100 Marks each) : 3 Credits each
- b) Half Credit Courses (50 Marks each) : 2 Credits each

Total Credits: 100 Credits (3000 Marks), Total Courses = 38.

- a) 20 Full Credit Courses * 3 credits per course = 60 Credits (2000 Marks)
- b) 1 Full Credit Course - SIP = 6 Credits (150 Marks)
- c) 16 Half Credit Courses *2 credits per course = 32 Credits (800 Marks)
- d) 1 Dissertation (Half Credit) = 2 Credits (50 Marks)

The spread of courses across the 4 semesters for a normal learner is given below.

Table III: Break Up & Spread of Courses

Spread of Full & Half Credit Courses:

Semester	Full Credit Courses (100 Marks) (A)	Half Credit Courses (50 Marks) (B)
I	6	4
II	6	4
III	5	4
III	1 (SIP for 6 Credits)	-
IV	3	4
IV	-	1 (Dissertation for 2 Credits)
Total	21	17

Break Up of Full Credit Courses:

Semester	Number of Generic Core Courses (A)	Number of Subject (Specialization) Core Courses (B)	Total Number of Full Credit Courses (100 Marks) (C = A + B)
I	6	0	6
II	6	0	6
III	4**	2	6**
IV	1	2	3
Total	17	4	21

** includes SIP for 6 Credits & for 150 Marks

Break Up of Half Credit Courses:

Semester	Number of Generic Elective Courses (A)	Number of Subject Elective (Specialization) Courses (B)	Total Number of Half Credit Courses (50 Marks) (C = A + B)
I	4	0	4
II	4	0	4
III	0	4	4
IV	1#	4	5 #
Total	9	8	17

Dissertation for 2 Credits

Detailed Programme Structure is provided in Annexure I.

6.1 Pedagogy: It is expected that the faculty members adopt a variety of teaching methodologies, such as case studies, role-play, problem solving exercises, group discussion, computer simulation games, etc. during the programme delivery. Use of technology and innovative techniques beyond the lecture method is desirable.

MBA being a post-graduate professional Programme, students are also expected to assimilate certain topics through self-study.

6.2 Medium of Instruction: The medium of Instruction & Evaluation shall be English.

7. Equivalence of previous syllabus with the proposed syllabus: The equivalence of the previous syllabus with the proposed syllabus shall be announced separately.

8. University Terms: The dates for the commencement and conclusion of the first and the second terms shall be as determined by the University Authorities. The terms can be kept only by duly admitted students. The present relevant ordinances pertaining to grant of terms will be applicable.

9. Course wise detailed syllabus: Course wise detailed syllabus along with recommended text books, reference books, websites, journals, etc. is provided in Annexure II.

10. Qualifications of Teacher: The qualifications of the full-time teacher for the MBA Programme shall be as per AICTE norms prescribed from time to time.

10.1 Teacher Capacity Building: The faculty of management shall organize suitable programmes for capacity building of teachers.

Annexure I - Detailed Programme Structure

Table IV – A: Generic Core Courses

	Generic Core Courses	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
101	Accounting for Business Decisions	3	I	30	20	50	100
102	Economic Analysis for Business Decisions	3	I	30	20	50	100
103	Legal Aspects of Business	3	I	30	20	50	100
104	Business Research Methods	3	I	30	20	50	100
105	Organizational Behaviour	3	I	30	20	50	100
106	Basics of Marketing	3	I	30	20	50	100
201	Marketing Management	3	II	30	20	50	100
202	Financial Management	3	II	30	20	50	100
203	Human Resource Management	3	II	30	20	50	100
204	Decision Science	3	II	30	20	50	100
205	Operations & Supply Chain Management	3	II	30	20	50	100
206	Management Information Systems	3	II	30	20	50	100
301	Strategic Management	3	III	30	20	50	100
302	Enterprise Performance Management	3	III	30	20	50	100
303	Startup and New Venture Management	3	III	30	20	50	100
304	Summer Internship Project	6	III	50	00	100	150
401	Managing for Sustainability	3	IV	30	20	50	100
402	Dissertation	2	IV	50	00	00	50

Note: Each Generic Core Course is a Full Credit course of 45 hours. Out of 45 hours, 35 hours shall be devoted to teaching – learning sessions and 10 hours for evaluation/projects.

30 marks shall be reserved for concurrent evaluation to be carried out by the Institute, 20 marks shall be reserved for online mid-term evaluation to be conducted by the University and 50 marks shall be reserved for term end written examination to be conducted by the University.

Course 304 - SIP shall have 6 Credits and 150 marks. (50 Marks for Concurrent Evaluation & 100 Marks for University Evaluation)

Course 402 – Dissertation shall have 2 Credits and 50 marks Concurrent Evaluation.

Table IV – B: Generic Elective Courses

	Generic Elective Courses	Credits	Semester	Concurrent Evaluation	Total Marks
107	Management Fundamentals	2	I	50	50
108	Business Communication Lab	2	I	50	50
109	MS Excel & Advanced Excel Lab	2	I	50	50
110	Selling & Negotiation Skills Lab	2	I	50	50
111	Business, Government & Society	2	I	50	50
112	Leadership Lab	2	I	50	50
113	Personality Development Lab	2	I	50	50
114	Foreign Language - I Lab	2	I	50	50
115	Enterprise Analysis - Desk Research	2	I	50	50
207	Emotional Intelligence and Managerial Effectiveness Lab	2	II	50	50
208	Statistical Software Lab	2	II	50	50
209	MS Project Lab	2	II	50	50
210	Life Skills Lab	2	II	50	50
211	Geopolitics & the World Economic System	2	II	50	50
212	Business Systems & Procedures	2	II	50	50
213	Computer Aided Personal Productivity Tools Lab	2	II	50	50
214	Foreign Language - II Lab	2	II	50	50
215	Industry Analysis - Desk Research	2	II	50	50

Note: Each Generic Elective Course is a Half Credit course of 30 hours. Out of 30 hours 25 hours shall be devoted to teaching – learning sessions and 5 hours for evaluation/projects.

50 marks shall be devoted for concurrent evaluation to be carried out by the Institute.

There shall not be any evaluation by the University (online / subjective) for all Half Credit Courses.

Table IV – C: Subject Core Courses

	Subject Core Courses (Marketing)	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
305MKT	Contemporary Marketing Research	3	III	30	20	50	100
306MKT	Consumer Behaviour	3	III	30	20	50	100
403MKT	Services Marketing	3	IV	30	20	50	100
404MKT	Sales and Distribution Management	3	IV	30	20	50	100

412TM	Seminar on Managing Emerging technologies	2	IV	50	50
413TM	Marketing of High Technology Products	2	IV	50	50

Note: Each Subject Elective Course is a Half Credit course of 30 hours. Out of 30 hours 25 hours shall be devoted to teaching – learning sessions and 5 hours for evaluation/projects. 50 marks shall be devoted for concurrent evaluation to be carried out by the Institute.

Note: Number of Sessions provided in the detailed syllabus in Annexure II for each course are **indicative and not prescriptive** in nature. They indicate the clock hours allocated for teaching and evaluation/project. However under the CBCS - LTP pattern , the faculty has the liberty to modify the same in the best interest of the learners.

Note:

- a) In the detailed syllabus, Number of Sessions indicated are as follows: 7 + 2 indicates 7 teaching sessions and 2 evaluation /project sessions. Kindly note that the numbers provided are indicative and not prescriptive.
- b) Faculty members and students should refer to the latest edition of the relevant books, wherever such latest editions are available.

ANNEXURE II - Detailed Syllabus

MBA SYLLABUS: SEMESTER I

Semester	I	Specialization	NA
Course Code	101	Type	Generic - Core
Course Title	Accounting For Business Decisions		

Course Objectives:

1	To understand the basic concepts of financial accounting, cost accounting and management accounting
2	To know various tools from accounting and cost accounting which would facilitate the decision making
3	To develop analytical abilities to face the business situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basic Concepts: Overview of Financial Accounting, Cost Accounting and Management Accounting, Role of each in a business organization, Relationship between financial, cost and management accounting, Various concepts and conventions of financial accounting, Basics of cost accounting, Role of management accounting in the global business environment.	7+2
2	Understanding of Financial Statements: Financial statements of proprietary and partnership organizations, Financial statements of limited companies, schedule VIth of Companies Act, Objectives of financial statements.	6+2
3	Cost Accounting: Basic concepts of Cost Accounting, Classification and analysis of Costs, Relevant and irrelevant costs, differential costs, sunk costs, objectives of Cost Accounting, preparation of Cost Sheets.	6+2
4	Cost Control: Elements of costs, Material cost control, Procurement, Pricing of issues, Inventory control techniques, fixation of various levels, Economic Order Quantity, material losses, labour cost control, time keeping and time booking, labour turnover, overheads, collection, classification, absorption of overheads.	8+2
5	Decision making tools: Marginal costing, Make or buy, Optimizing product mix, Break-even point, Cost Volume Profit Analysis, Pricing decisions, budgeting – Cash, flexible and functional budgets.	8+2

Note:

1	Numerical Problems will be asked on the following topics: Pricing of issues – FIFO, LIFO, Simple Average and Weighted Average methods Allocation, Apportionment and Absorption of overheads. Decision Making tools – optimizing product mix, make or buy, acceptance of export order and other Decision Making areas. Computation of breakeven point and related areas. Budgeting – cash and flexible. Computation of material and labour variances
2	Weightage of Theory Questions will be 40% and numerical problems will carry 60% marks in the final question paper.

Learning Resources:		
1	Text Books	Management Accounting – Dr. Mahesh Kulkarni Accounting For Business Decisions by Dr. E B Khedkar and D B Bharati
2	Reference Books	Financial Cost and Management Accounting - P Periasamy Management Accounting- Madhu Vij Fundamentals of Management Accounting – H. V Jhamb Cost and Management Accounting – M N Arora Financial Accounting for Managers – Mr. Sanjay Dhmiya, Pearson Publications Management Accounting – Mr. Anthony Atkinson, Robert Kaplan, Pearson Management Accounting – Mr. Khan and Mr. Jain, Tata McGraw Hill Financial Accounting part I – Mr. S. N. Maheshwari Accounting For Management-Jawarhar Lal
3	Supplementary Reading Material	Management Accounting - Mr. Ravi Kishore Accounting for Managers – Dearden and Bhattacharya
4	Websites	Institute of Cost Accountants, Institute of Chartered Accountants
5	Journals	Indian Journal of Finance

Semester	I	Specialization	NA
Course Code	102	Type	Generic - Core
Course Title	Economic Analysis for Business Decisions		

Course Objectives:

1	To equip the students of management with time tested tools and techniques of managerial economics to enable them to appreciate its relevance in decision making.
2	To explore the economics of information and network industries and to equip students with an understanding of how economics affect the business strategy of companies in these industries.
3	To develop economic way of thinking in dealing with practical business problems and challenges.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basic Concepts of Economics: Introduction to Economics , Basic Economic Problem, Circular Flow of Economic Activity , Nature of the firm - rationale, objective of maximizing firm value as present value of all future profits, maximizing, satisficing, optimizing, principal agent problem, Accounting Profit and Economic Profit , Role of profit in Market System , Adam Smith and Invisible Hand.	7 + 2
2	Demand Analysis and Forecasting: Determinants of Market Demand at Firm and Industry level – Elasticity of Demand - Market Demand Equation – Use of Multiple Regression for estimating demand – Case study on estimating industry demand (formulating equation and solving with the aid of software expected) Demand and Supply: Market Equilibrium – Pricing under perfect competition, monopolistic competition, Case study on pricing under monopolistic competition , Oligopoly - product differentiation and price discrimination; price- output decision in multi-plant and multi-product firms.	7 + 2
3	Cost Concepts: Cost Concept, Opportunity Cost, Marginal, Incremental and Sunk Costs, Cost Volume Profit Analysis, Breakeven Point, Case Study on marginal costs. Risk Analysis and Decision Making: Concept of risk, Expected value computation, Risk management through Insurance, diversification, Hedging, Decision Tree Analysis, Case Study on Decision tree Technique.	7 + 2
4	Money and Capital Markets in India: Role and Functions of Money Markets, Composition of Money Market, Money Market Instruments , Reserve Bank of India – Functions , Regulatory Role of RBI w.r.t. Currency, Credit and Balance of Payment, Open Market Operations. Role and Functions of Capital Markets, Composition of Capital market, Stock Exchanges in India, Role of SEBI, understanding of stock market quotations in financial press expected.	7 + 2
5	Public Finance Infrastructure: Familiarity with important terms/agencies/approaches/practices related to National Income (such as GDP, PPP, Growth Rate), Foreign Trade (such as GATT, WTO) and union budget (such as Revenue Account, Capital Account, Revenue Deficit, Fiscal Deficit, Plan and Non-plan expenditure) is expected. Understanding of Summarized budget for the current financial year is required (knowledge of detailed budget provisions not required).	7 + 2

Learning Resources:		
1	Text Books	Managerial Economics by Peterson, Lewis, Sudhir Jain, Pearson, Prentice Hall Indian Economy by Datt & Sundaram, 61 st Edition, S Chand Managerial Economics by D. Semester	I	Specialization	NA
Course Code	104	Type	Generic - Core
Course Title	Business Research Methods		

Course Objectives:

1	To understand the concept and process of business research in business environment.
2	To know the use of tools and techniques for exploratory, conclusive and causal research.
3	To understand the concept of measurement in empirical systems.
4	To use statistical techniques for analysis of research data.

Syllabus:

Unit Number	Contents	Number of Sessions
1	1. Foundations of Research: 1.1 Research: – Definition, Why study Business Research? What is good research? Decision Support, Business Intelligence, Research applications in functional areas of Business, Emerging trends in Business research. 1.2 Research & the Scientific Method: Characteristics of scientific method. 1.3 Steps in Research Process 1.4 Concept of Scientific Enquiry: - Formulation of Research Problem – Management Question – Research Question – Investigation Question 1.5 Research Proposal: – Elements of a Research Proposal, Drafting a Research Proposal, Evaluating a research proposal (Students are expected to draft and evaluate a real life research proposal)	5 + 1
2	2. Research Design: 2.1 Concept, Features of a good research design, Use of a good research design 2.2 Qualitative research and Quantitative research approaches, Comparison - Pros and Cons of both approaches. 2.3 Exploratory Research Design: Concept, Types: Qualitative techniques - Projective Techniques, Depth Interview, Experience Survey, Focus Groups, Observation. 2.4 Descriptive Research Designs: Concept, types and uses. Concept of Cross-sectional and Longitudinal Research 2.5 Experimental Design: Concept of Cause, Causal relationships, Concept of Independent & Dependent variables, concomitant variable, extraneous variable, Treatment, Control group. (Elementary conceptual treatment expected) 2.6 Hypothesis: Qualities of a good Hypothesis –Framing Null Hypothesis & Alternative Hypothesis. Concept of Hypothesis Testing - Logic & Importance	7 + 2

3	<p>3. Measurement & Data:</p> <p>3.1 Concept of Measurement: what is measured? Problems in measurement in management research - Validity and Reliability. Levels of measurement - Nominal, Ordinal, Interval, Ratio.</p> <p>3.2 Attitude Scaling Techniques: Concept of Scale – Rating Scales viz. Likert Scales, Semantic Differential Scales, Constant Sum Scales, Graphic Rating Scales – Ranking Scales – Paired Comparison & Forced Ranking - Concept and Application.</p> <p>3.3 Types of Data - Secondary Data: Definition, Sources, Characteristics, Searching world wide web for data, Issues to be considered for secondary data, sufficiency, adequacy, reliability, consistency.</p> <p>3.4 Types of Data - Primary Data: Definition, Advantages and disadvantages over secondary data,</p> <p>3.5 Questionnaire Method: Questionnaire Construction - Personal Interviews, Telephonic survey Interviewing, Email/Internet survey, online survey sites, their utility, constraints</p>	7 + 3
4	<p>4. Sampling:</p> <p>4.1 Basic Concepts: Defining the Universe, Concepts of Statistical Population, Sample, Characteristics of a good sample. Sampling Frame (practical approach for determining the sample frame expected), Sampling errors, Non Sampling errors, Methods to reduce the errors, Sample Size constraints, Non Response.</p> <p>4.2 Probability Sample: Simple Random Sample, Systematic Sample, Stratified Random Sample, Area Sampling & Cluster Sampling.</p> <p>4.3 Non Probability Sample: Judgment Sampling, Convenience Sampling, Purposive Sampling, Quota Sampling & Snowballing Sampling methods. Determining size of the sample - Practical considerations in sampling and sample size, (sample size determination formulae and numerical not expected)</p>	6 + 2

5	<p>5. Data Analysis & Report Writing:</p> <p>5.1 Data Analysis : Editing, Coding, Univariate analysis - Tabular representation of data, frequency tables, Construction of frequency distributions and their analysis in the form of measures of central tendency – Mean, Median and Mode; their relative merits and demerits,</p> <p>5.2 Graphical Representation of Data: Appropriate Usage of Bar charts, Pie charts, Histogram, Leaf and stem, Candle stick, Box plots. (Use of MS Excel)</p> <p>5.3 Bivariate Analysis: Cross tabulations, Use of percentages, Bivariate Correlation Analysis - meaning & types of correlation, Karl Person's coefficient of correlation and spearman's rank correlation; Scatter plots, Chi-square test including testing hypothesis of association, association of attributes. (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.4 Linear Regression Analysis: Meaning and two lines of regression; relationship between correlation and regression co-efficient (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.5 Test of Significance: Small sample tests: t (Mean, proportion) and F tests, Z test, Non-parametric tests: Binomial test of proportion, Randomness test; Analysis of Variance: One way and two-way Classifications (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.6 Research Reports: Structure of Research report, Report writing and Presentation.</p> <p><i>Note: Extensive use of MS Excel is expected in learning unit no. 5</i></p>	10 + 2

Semester	I	Specialization	NA
Course Code	109	Type	Generic - Elective
Course Title	MS Excel and Advanced Excel Lab		

Course Objectives:	
1	To familiarize Students with basic to intermediate skills for using Excel in the classroom vis-à-vis Business Applications
2	To provide students hands on experience on MS Excel Utilities
3	To gain proficiency in creating solutions for Data Management and Reporting

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Understanding Excel's Files, Ribbon and Shortcut: Create a workbook , Enter data in a worksheet , Format a worksheet , Format numbers in a worksheet , Create an Excel table , Filter data by using an AutoFilter , Sort data by using an AutoFilter	1
	1.2 Essential Worksheet Operations: Using Help (F1), Key Board Shortcuts	1
	1.3 Working with Cells and Ranges: Formatting Cells, Name Manager	1
	1.4 Visualizing Data Using Conditional Formatting: Apply conditional formatting	1
	1.5 Printing Your Work: Print a worksheet , Using Print Preview & Other Utilities	1
	Lab based Evaluation	1
2	2.1 Working with Dates and Times & Text: Working with Dates & Time, Creating Formulas that Manipulate Text – Upper, Proper, Lower, Concatenate, Text to column	1
	2.2 Creating Formulas That Count, Sum, Subtotal: Create a formula, Use a function in a formula	2
	2.3 Creating Formulas That Look Up Values: VLookup, HLookup, Match & Index	2
	Lab based Evaluation	1
3	3.1 Creating Formulas for Financial Applications: Introduction to formulas e.g. PV, PMT, NPER, RATE, Creating Balance Sheet, Investment Calculations, Depreciation calculations	3
	3.2 Creating Charts and Graphics: Chart your data, Creating Sparkline Graphics, Using Insert Tab Utilities	2
	Lab based Evaluation	1
4	4.1 Using Custom Number Formats: Right click, Format Cells window	1
	4.2 Using Data Tab and Data Validation: Getting external Data, Remove Duplicates, Apply data validation & using utilities from Data Tab	1
	4.3 Protecting Your Work: Using Review Tab Utilities	1
	4.4 Performing Spreadsheet What-If Analysis: Create a macro, Activate and use an add-in	2
	Lab based Evaluation	1
	5.1 Analyzing Data with the Analysis Tool Pak: Anova,Correlation, Covariance, Descriptive Statistics, Histogram, Random Number Generation, Rank and Percentile, Regression, t-Test, Z Test	2
	5.2 Using Pivot Tables for Data Analysis: Create Data Base for Pivot, Analysing Data with Pivot Tables, Producing Report with a Pivot Table	3
	Lab based Evaluation	1

Semester	II	Specialization	NA
Course Code	206	Type	Generic - Core
Course Title	Management Information Systems		

Course Objectives:

1	To develop conceptual understanding about latest developments in the field of Information Technology and the impact of I.T. in managing a business
2	To learn to use Information Technology to gain competitive advantage in business
3	To learn from, with a view to emulate, entrepreneurial ventures in e-Commerce and m-Commerce

Syllabus:

Unit Number	Contents	Number of Sessions
1	Management Information Systems: Need, Purpose and Objectives - Data, Information, Knowledge – Types of Information Systems - Information as a strategic resource - Use of information for competitive advantage Information Technology Infrastructure: Information Systems Architecture – Mainframe, Client Server, Web Based, Distributed, Grid, Cloud - Overview of Hardware, Software, Storage and Networking Devices – Networks Types - Topologies of Networks	7 + 2
2	2.1 Data Base Management Systems: Concept – Relational Model Applications – DBMS Architecture 2.2 Systems Engineering Analysis and Design: Systems Concept - Systems Development Life Cycle - Assessing Enterprise Information requirements – Alternative System Building Approaches - Prototyping - Rapid Development Tools – CASE Tools – Object Oriented Systems (<i>Only introduction to these tools & techniques</i>)	7 + 2
3	3.1 Decision Support Systems: Data Warehousing and Data Mining - Business Intelligence and Analytics - Group Decision Support Systems – Executive Information Systems - Executive Support Systems – Geographical Information Systems - Expert Systems and Knowledge Based Expert Systems – Artificial Intelligence	7 + 2
4	4.1 Digital firm Perspective: MIS Model for a digital firm – Organization Structure for digital firm – e-Business Models and Applications – Mobile computing, Call Centers, BPO 4.2 Management Issues in MIS: Information Security and Control - Quality Assurance - Ethical and Social Dimensions - Intellectual Property Rights as related to IT Services / IT Products	7 + 2
5	5.1 Applications of MIS in functional areas as well as in the service sector should be covered with the help of minimum 5 case studies.	7 + 2

Note:

Emphasis should be given on management oriented problems and cases as compared to technical orientation expected from computer science/ computer management students.

Learning Resources:		
1	Text Books	Management Information Systems by Obrien, Marakas and Ramesh Behl, TMGH Management Information Systems by Jawadekar, TMGH, 4 th Edition
2	Reference Books	Management Information Systems by Jaiswal and Mittal, Oxford University Press Decision Support Systems and Intelligent Systems by Turban and Aronson, Pearson Education Asia Management Information Systems by C.S.V.Murthy
3	Supplementary Reading Material	Management Information Systems by Laudon, Laudon, Dass, Pearson Education Asia, 11 th Edition Management Information Systems by Davis and Olson, Tata McGraw Hill
4	Websites	-
5	Journals	MIS Quarterly, University of Minnesota CSI Communications, Computer Society of India, Mumbai

Semester	II	Specialization	NA
Course Code	207	Type	Generic - Elective
Course Title	Emotional Intelligence and Managerial Effectiveness Lab		

Course Objectives:	
1	To equip students with individual and group learning methods
2	To understand intelligence and develop emotional competence
3	To develop understanding and competence for personal and managerial effectiveness.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Emotions and the Tripartite Brain, Emotional Competencies, Executive EQ, Emotions and Enneagram, Rational Emotive Therapy, Emotional Transformation, Measuring Emotional Intelligence, Emotions and Childhood, Role of Emotions, Emotions and Attitudes	5 + 1
2	Individual & Organizational Learning: Theories of Learning, Learning Processes, Kolb's Learning Styles, How to create a learning organization	5 + 1
3	Emotional Intelligence: Fundamentals of Emotional Intelligence, The Emotional Competence Framework, Benefits of Emotional Intelligence	5 + 1
4	Managerial Effectiveness: Challenges faced by Organisations & expectations from practicing Managers	5 + 1
5	Improving Effectiveness: Understanding Organizational goals, Creativity, Optimising resources, Execution Skills (PDCA Cycle)	5 + 1

Learning Resources:		
1	Text Books	Emotional Intelligence: Why It Can Matter More Than IQ by Daniel Goleman Get Better or Get Beaten: 31 Leadership Secrets from GE's Jack Welch by Robert Slater, Jack Welch, McGraw-Hill School Education Group
2	Reference Books	Working with Emotional Intelligence - Daniel Goleman Jack Welch on Leadership : Executive Lessons from the Master CEO by John A. Byrne, Jack Welch Crown Publishing Group
3	Supplementary Reading Material	Leadership: The Power of Emotional Intelligence by Daniel Goleman The Brain and Emotional Intelligence: New Insights by Daniel Goleman The Emotionally Intelligent Workplace by Daniel Goleman, 2001 Primal Leadership: Realizing the Power of Emotional Intelligence by Daniel Goleman, 2002 Destructive Emotions: A Scientific Dialogue with the Dalai Lama – 2003 Emotional Intelligence: Key Readings on the Mayer and Salovey Model by John D. Mayer (Editor), Marc A. Brackett (Editor), Peter Salovey (Editor) The Emotionally Intelligent Manager: How to Develop and Use the Four Key Emotional Skills of Leadership by David R. Caruso and Peter Salovey Bhagwad Gita As it is by Shree Prabhupada

Semester	II	Specialization	NA
Course Code	208	Type	Generic - Elective
Course Title	Statistical Software Lab		

Course Objectives:	
1	To give an overview of the capabilities of popular statistical software packages.
2	To train students in handling data files and carry out basics statistical analysis.
3	To give hands on experience about basic hypothesis testing using t tests, Chi Square tests and ANOVA.
4	To train students in using advanced tools such as regressions, MDS, Factor Analysis etc.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 An Overview of Statistical Software: Introduction to SPSS / SAS/ Systat. Introduction to various menus, Data file, Output file, Frequently –used dialog boxes, Editing output, Printing results. Creating and editing a data file – Variable and data view, Value Labels.</p> <p>1.2 Managing Data: Listing cases, replacing missing values, computing new variables, recording variables, exploring data, selecting cases, sorting cases, merging files, splitting files, Visual Binning.</p>	4 + 1
2	<p>2.1 Frequencies: Frequencies, bar charts, histograms, percentiles</p> <p>2.2 Descriptive Statistics: Measures of central tendency, variability, deviation from normality, size and stability. Cross Tabulation and chi-square analyses, The means Procedure</p> <p>2.3 Graphs: Creating and editing graphs and charts</p>	4 + 1
3	<p>3.1 Bivariate Correlation: Bivariate Correlation, Partial Correlations and the correlation matrix</p> <p>3.2 The T-test Procedure: Independent –samples, paired samples, and one sample tests</p> <p>3.3 Non Parametric Tests: ChiSquareTest, 1 sample test, 2 independent samples test, k independent samples, 2 related samples test, k related samples,</p>	4 + 1
4	4.1 One Way ANOVA Procedure: One way analysis of variance, General Linear model:Two –way analysis of variance, General Linear model: three –way analysis of variance and the influence of covariates	5 + 1
5	5.1 Advanced Tools: Simple Linear Regression , Multiple regression analysis Multidimensional scaling, Reliability Analysis, Factor analysis, Cluster analysis.	8 + 1

Note:

The entire course has to be taught using a hands-on approach.
Students should be encouraged to use the 30 day trial version of relevant software package.

Learning Resources:		
1	Text Books	SPSS for Windows – Step by Step, 17.0 Update, by George and Mallery, Pearson, 10 th Edition. Research Methodology with SPSS by Rao and Tyagi, Shree Niwas Publications, 2009.

Semester	II	Specialization	NA
Course Code	209	Type	Generic - Elective
Course Title	MS Project Lab		

Course Objectives:	
1	To understand basics of project management and learn how to use MS Project 2007 to:
A	Create a New Project
B	Build Tasks
C	Create Resources & Assign Costs
2	To understand use of MS Project 2007 to track Project Progress

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Introduction to MS Project 2007 : Understanding Projects, Managing Projects & Project Management Software, Taking a first look at Project – Starting Project, Entering Information, Changing Views, What's new in Project 2007	2
2	2.1 Creating a New Project: Gathering Information, Opening a Project file, Establishing Basic Project Information, Looking at Project Calendars, Entering tasks, Adding subtasks, Saving Project files, Working with Project Outline – Adjusting tasks in an outline, Copying tasks	3 + 2
3	3.1 Building Tasks: Establishing Timing for Tasks, Assigning Task Timing, Using Recurring Tasks, Establishing Constraints and Deadline Dates, Manipulating Gantt Chart to View Timing, Entering Task Notes, Establishing Dependencies Among Tasks, Viewing Dependencies	4 + 2
4	4.1 Creating Resources & Assigning Costs: Understanding Resources, Creating Resource List, Modifying Resource Information, Using Resources and Tasks, Handling Unusual Cost Situations 4.2 Understanding Basics of Views: What is a View?, Examining Indicators, Admiring Views – Calendars, Detail Gantt, Gantt Chart, Leveling Gantt, Tracking Gantt, Multiple baselines Gantt. Resource Allocation , Resource Form, Resource Graph, Resource Name Form, Resource Sheet, Resource Usage, Roll up Views, Task Details Form, Task Entry, Task Form, Task Name Form, Task Sheet, Task Usage, Printing Project	5 + 3
5	5.1 Tracking Project Progress I: Understanding the Principles of Tracking, Using Baseline, Changing the Baseline, Viewing Progress with the Tracking Gantt Chart View – Interpretation, Task Variance Table, Task Cost Table, Task Work Table, Understanding Tracking Strategies 5.2 Tracking Project Progress II: Recording Actuals – Organizing the Updating Process, Understanding Calculation Options, Updating Tasks to Reflect Actual Information, Using Actuals and Costs, Techniques and Tips for Updating, Reviewing Progress.	6 + 3

Learning Resources:

4	Websites	www.pmi.org.in http://www.project-blog.com/
5	Journals	Project Management by Koehler, Brandon. OfficePro. Mar/Apr2012, Vol. 72 Issue 2, p36-37

Semester	II	Specialization	NA
Course Code	210	Type	Generic - Elective
Course Title	Life Skills		

Course Objectives:

1	To encourage students to develop and use balanced self-determined Behavior.
2	To help students in enhancing self, increasing life satisfaction and Improving relationships with others.
3	To develop new ability to practice new problem solving skills in group and use these skills in personal life.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Definition of Life Skills , Assumptions about Life Skills, Concept of skill in Life Skills, Concept of Skill in Life Skills, Primary goal of Life Skills programme, Life Skills Process model, Group development and group behaviors.	5 + 1
2	Cognition, Meaning , Piaget's theory of Cognitive Development, role of Goal Orientation, Meaning, Big Five personality characteristics, extraversion, Openness to experience, emotional stability, consciousness and agreeableness, Personal knowledge management, meaning, Wright's model, Four domains, Analytical, information, social and learning.	5 + 1
3	Coping, Meaning, Types of coping strategies, 1) appraisal focused (adaptive Cognitive) 2) problem focused (adaptive behavior) 3) emotion focused Empathy, meaning and definitions, Difference between empathy and sympathy, Anger and distress, Meaning, overcoming.	5 + 1
4	Moral development, Meaning, Interpersonal influences on Moral development, Moral development and social exclusion, Morality and culture, Morality and Intergroup attitudes, moral emotions.	5 + 1
5	Study Skills, Meaning, Types of study skills, Methods based on : Memorization such as rehearsal and role learning Communication Skills e.g. reading, listening, Cues e.g. flashcard training Condensing information, summarizing and use of key words.. Visual imagery Exam strategies Time management, organization and life style changes.	5 + 1

Semester	II	Specialization	NA
Course Code	211	Type	Generic - Elective
Course Title	Geopolitics & the World Economic System		

Course Objectives:

1	To expose students to the relationship between political power and geographic space amidst world economic system.
2	To help students understand various facets of international political economy & national system political economy.
3	To develop abilities to appreciate the interrelationship between the trading system, international financial system and the participants in the changed economic system

Syllabus:

Unit Number	Contents	Number of Sessions
1	International Political Economy: Distribution of Wealth and Economic Activities - National Autonomy - Politics of International Regimes - Theory of Hegemonic Stability - Governance of the Global Economy	5 + 1
2	National Systems of Political Economy: Differences among National Economies - Market-Oriented Capitalism- Developmental Capitalism- Social Market Capitalism – Comparative Analysis	5 + 1
3	The Trading System: Debate over Free Trade – Functions of WTO and GATT - The Uruguay Round and World Trade Organization – Trade Blocs such as SAARC, ASEAN, NAFTA - Threats to Open Trading System	5 + 1
4	International Monetary System: The International Financial System - Reform of International Monetary Affairs - Nature of Financial Crises - Controversy over Regulation of International Finance	5 + 1
5	The State and the Multinationals: An International Regime for FDI and MNC- Do Global Corporations Pose a Threat? - Consequences of Economic Globalization	5 + 1

Learning Resources:

1	Text Books	Global Political Economy – Robert Gilpin, Princeton University Press International Economics with MyEconLab by Paul Krugman, Maurice Obstfeld and Marc Melitz, Pearson, Global Edition, 9 th Edition
2	Reference Books	Managing World Economic Change: International Political Economy by Robert A. Isaak, Pearson, 3 rd Edition,
3	Supplementary Reading Material	Economic Times Daily Business Standard Daily The Economist – Magazine

5	Journals	Economic Systems Research.

Semester	II	Specialization	NA
Course Code	212	Type	Generic - Elective
Course Title	Business Systems and Procedures		

Course Objectives:

1	To understand Business as an integrated system
2	To develop process thinking for developing procedures.
3	To make students aware of various business functions & responsibilities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Systems and Procedures – Concept and need - Characteristics of a good procedure. Writing a Standard Operating Procedure (SOP)– Procedure Identification - Information Gathering–Interviewing – Analysis – Writing – Implementation – Review- Fine-tuning. Process Mapping Tools – Aid Memoir – Flowchart – Swim Lane Diagrams – Flow Charting Software – Using MS Word and Excel for Flowcharting - Case Studies.	+ 1
2	Understanding accounting procedures for Cash Sales - Credit Sales - Cash Receipts – Donations – Travelling Expenses – Writing off Bad Debts – Sale of Scrap. Principles of Internal Control – Study of Internal Control in Select Procedures such as Recruitment, Payment of Salaries and Wages, Verification of Inventories and Work in Progress, Verification of Fixed Assets and Investments	5 + 1
3	Lean Office – Re-engineering information flow and paper flow – Process Mapping for Current and Future State Map. Digital Office –Overview of Office Automation Systems – Use of technologies such as Bar Coding, RFID, Biometry and Mobile Computing for redesigning office procedures.	5 + 1
4	Study of the following Systems and underlying Procedures. Point of sale (POS) system in an organized retail store, Purchase Order System in a manufacturing organization, Attendance Recording System in a factory, Kitchen Order Ticket (KOT) System in a Restaurant, Just in Time Inventory System in a manufacturing organization.	5 + 1
5	Presentation of individual/group projects in Process Mapping, Improvement and Writing SOP's for an entire range of activities for a segment in a manufacturing/ service organization.	5 + 1

Learning Resources:

1	Text Books	Business Process Management – A Rigorous Approach by Martyn A Ould , British Computer Society, First South Asia Edition.
2	Reference Books	-
3	Supplementary Reading Material	-
4	Websites	-
5	Journals	-

Semester	II	Specialization	NA
Course Code	213	Type	Generic - Elective
Course Title	Computer Aided Personal Productivity Tools Lab		

Course Objectives:	
1	To give students mastery of MS Office.
2	To enhance personal productivity through advanced features of MS Word, MS Excel & MS PowerPoint
3	To impart skills of using MS Outlook and basic social networking tools.

Syllabus:

Unit Number	Contents	Number of Sessions
1	MS WORD	+ 1
	1.1 Collaboration - Protect your document with passwords, permission, and other restrictions, Save a document to SharePoint from Office 2010, The purpose of IRM and its limitations, Mail Merge	1
	1.2 Tracking changes and comments - Turn track changes on or off, Review tracked changes and comments	1
	1.3 Formatting - Add, change, or delete WordArt, Add or remove text effects, Adjust the spaces between letters, lines or paragraphs, Set the default font, Language, Apply, customize, and save a document theme in Word	1
	1.4 Tables of contents and other references - Create a table of contents, Edit a citation placeholder, Create a bibliography, Foot note & End Note, Captions & Index	1
	1.5 Checking Spelling, grammar, and thesaurus	1
	1.6 Managing Headers, footers, and page numbers, Links	1
	1.7 Inserting Page breaks and section breaks, Applying Multiple headers, page layouts	1
	1.8 Tables Tools, Illustrations, Equations, Symbols	1
2	POWERPOINT	6 + 1
	2.1 Working with text & SmartArt graphics - Add alternative text to a shape, picture, chart, table, SmartArt graphic, or other object, Wrap text around an object in PowerPoint 2010, Adjust the indent in a bulleted or numbered list on the ruler, Change the look, position, or function of bulleted or numbered lists in your presentation	1
	2.2 Organizing and formatting slides, Using masters - Understanding a slide master, Create or customize a slide master, Apply one or more slide masters to a presentation	1
	2.3 Working with animation, sounds & Movies - Turn your presentation into a video, Embed or link to a video from your presentation, Set the 'Play' options for a video in your presentation, Trim a video, Compress your media files, Tips for improving audio and video playback and compatibility	1
	2.4 Working with hyperlinks and action buttons	1
	2.5 Reviewing and adding comments - Show markup and add Comments	1
	2.6 Creating support materials - Notes and Notes Master, Printing Notes	1
	2.7 Delivering your presentation - Using Presenter's Mode, Optimising Handouts	1
	2.8 Embedding Presentation - Multiple presentations & Slides and files on the slide	1
3	MSEXCEL	6 + 1
	3.1 Excel Basics Review - Using Keyboard, Importing and Exporting Data (Access, SPSS)	1

	3.2 Excel For Marketing & Statistics - Creating Business Solutions	1
	Excel & HRIS - Database Creation, Analysis & reporting	1
	3.4 Excel for Finance - Analysing Financial Statements e.g. Balance sheet, Ratio Analysis, Using Applications e.g. PROWESS, AceEquity, Creating Excel Dashboard	3
4	MS Outlook	2 + 1
	4.1 MS Outlook - Start using the Outlook Social Connector, Stay up-to-date in the People Pane, Assign a colour category to an e-mail message, Customize the appearance of task lists, Turn the Reading Pane on or off, Introduction to Conversations, Create and add a message signature, Manage messages by using rules, Automate common or repetitive tasks	2
5	Media for Social Connectivity	5 + 1
	5.1 Using Google + & Google Docs	2
	5.2 Using Twitter for networking and Business	1
	5.3 Creating Blogs, Using LinkedIn, and other academics and Business websites. Networking, Surveys, Discussions, Business Information	2

Note:

Emphasis should be on hands on experience.
All sessions should be conducted in the IT laboratory.

Learning Resources:

Semester	II	Specialization	NA
Course Code	214	Type	Generic - Elective
Course Title	Foreign Language – II Lab		

Course Objectives:	
1	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
2	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Listening: Understand Simple Questions and Instructions. Reading: Understand Single Words and Sentences but also Signposts, Signs and Posters. Speaking: Provide Short Information about the Job and the Person. Writing: Fill in Forms and Provide Information About Name, Address, Nationality etc.	5 + 1
2	Listening: Understand Information about the Person and the Work. Reading: Understand Simple Letters, Appointments, Invitations and Information in Short Texts. Speaking: Answer Simple Questions About One's Working Field. Writing: Write Faxes and e-mails	5 + 1
3	Listening: Understand Standard Information Related to the Working Field. Reading: Understand Standard Letters and Texts about Working Processes and Product Descriptions. Speaking: Provide Information about the Job, the Departments, the Company, the Products and Processes in a Conversation or on the Phone. Writing: Answer Standard Inquiries, Make Quotations, Write Short Texts with a Familiar Content, Possibly Give Some Explanation and Answer Simple Questions.	5 + 1
4	Listening: Understand Complex Information Related to the Working Field in Meetings, Discussions and at Presentations. Reading: Understand Reports and Contracts with a Company-related Content. Speaking: Describe and Explain Work Processes and Projects. Report on Meetings and Presentations. Explain Concepts and Clarify Misunderstandings. Writing: Write Formal Standard Letters and Texts about One's Field of Expertise. Explain a Graphic and Reflect the Content.	5 + 1
5	Grammar: Future tense, imperfect tense, degrees of comparison, imperative mood. Script, Letters of alphabet, accents, sounds of groups of letters, punctuation marks, articles, nouns, sing./Pl , genders; mas. /fem. Structure of sentences & types like affirmative, negative interrogative & negative interrogative, Verbs: classes of verbs and conjugation patterns, Pronominal verbs; Present tense, The idea of auxiliary verb; prepositions; pronouns-subject, interrogative, relative, possessive, emphatic ; adjectives, adverbs	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material

5	Journals	

Semester	II	Specialization	NA
Course Code	215	Type	Generic - Elective
Course Title	Industry Analysis - Desk Research		

Course Objectives:	
1	To help the students understand the dynamics of a specific industry.
2	To acquaint students with various issues particular to an industry.
3	To provide a cross-functional perspective of the functioning of a business enterprise and an industry.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Industry Analysis – the Basics: Nature of the Industry, Players in the industry. Nature of competition from an economist's perspective. Market shares of top 3 & bottom 3 players. Possible Classification of players into Leaders, Challengers, Followers, Nichers. Positioning & Differentiation strategies of key players. Branding strategies. Pricing Policies, Cartelization if any and comments thereon. Capacity analysis – total capacity of the industry and break up capacity amongst key players, Planned future capacity additions. Geographical spread of plants/facilities/ capacities (Domestics as well as Global). Demand Supply balance in the industry, Key factors affecting demand. Key supply side constraints. Professional Trade bodies of the Industry. Business Functions carried out Online by the key players. Online presence.	25 + 5
2	Promoters & Management Ethos: Background of promoter groups of top 3 and bottom 3 players in the industry. Management ethos and philosophy. Brief profiles of CMDs, CEOs, and key top management personnel with their career highlights. Detailed profile of one distinguished top management personnel each from any two players in the Industry. CSR policy. Corporate Governance Initiatives. Initiatives towards social inclusion. Initiatives towards environment conservation.	
3	External Environment: Controlling ministry and / or regulator if any for the Industry Regulatory actions against the players for e.g. Action by SEBI, Competition Commission of India, MTRP Commission, etc. against irregularities , legal violations if any. Regulatory Policies at the state, national and global level and their impact on the industry as a whole with analysis of impact on top 3 players. Key National and Global issues affecting the industry. Key initiatives by the Government to promote the industry. Environmental issues.	

4	Financials: Profitability, Revenues, Margins of top 3 & bottom 3 players over the last 3 years and trends/changes therein. Sick players if any and their turnaround strategies, if any. Key factors contributing to costs. Ratio analysis of financial data for last 3 years for top 5 and bottom 5 companies in the industry.	
5	Recent Developments: Impact of key relevant provisions of the latest Fiscal policy on the industry and various players therein. Analysis of Key relevant provisions of latest Exim Policy in case of industries that are focused on Global Markets for exports or industries that have significant import components. Key Alliances in the past 5 years and their performance & impact on other players in the industry. Mergers & Acquisitions, if any. Technological developments. Labour unrest if any –reasons thereof and impact on the particular player and the industry as a whole. Emerging first generation entrepreneurs, if any, in the industry. Corporate wars & feuds in the industry, if any.	

Note:

Students should work in groups of 3 to 5 each under the guidance of a faculty.
Students shall study various aspects of any TWO industries (group of similar business entities) of their choice.
Focus shall be the comparative and historical analysis across the players in the industry.
Students shall submit a structured detailed report.

The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty. The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

Learning Resources:

4	Websites	Websites of various companies Websites of various ministries of the Government of India Websites of various trade bodies Websites of stock exchanges
5	Journals	Economic and Political Weekly

MBA SYLLABUS: SEMESTER III

Semester	III	Specialization	NA
Course Code	301	Type	Generic - Core
Course Title	Strategic Management		

Course Objectives:

1	To expose participants to various perspectives and concepts in the field of Strategic Management
2	To help participants develop skills for applying these concepts to the solution of business problems
3	To help students master the analytical tools of strategic management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Understanding Strategy: Concept of strategy, Corporate, Business and Functional Levels of Strategy</p> <p>1.2 Introduction to Strategic Management: Meaning and Characteristics of strategic management, strategic management Vs. operational management</p> <p>1.3 Four Phases in Strategic Management Process: Stakeholders in business and their roles in strategic management</p> <p>1.4 Hierarchy of Strategic Intent: Meaning & attributes of strategic intent, Meaning of Vision, Process of envisioning, Meaning of mission, difference between vision & mission, characteristics of good mission statements, Business definition using Abell's three dimensions, objectives and goals, Linking objectives to mission & vision. Critical success factors (CSF), Key Performance Indicators (KPI), Key Result Areas (KRA)</p> <p>1.5 Analyzing Company's External Environment: Environmental appraisal Scenario planning – Preparing an Environmental Threat and Opportunity Profile (ETOP)</p> <p>Analyzing Industry Environment: Industry Analysis - Porter's Five Forces Model of competition, Entry & Exit Barriers, Strategic Group analysis</p>	7 + 2
2	<p>2.1 Analyzing Company's Internal Environment: Resource based view of a firm, meaning, types & sources of competitive advantage, analyzing Company's Resources and Competitive Position, VRIO Framework, competitive advantage, competitive parity & competitive disadvantage, Core Competence, characteristics of core competencies, Distinctive competitiveness, Benchmarking as a method of comparative analysis</p> <p>2.2 Value Chain Analysis Using Porter's Model: primary & secondary activities</p> <p>2.3 Organizational Capability Profile: Strategic Advantage Profile, Concepts of stretch, leverage & fit, ways of resource leveraging –concentrating, accumulating, complementing, conserving, recovering</p> <p>2.4 Portfolio Analysis: Business Portfolio Analysis - BCG Matrix – GE 9 Cell Model</p>	7 + 2

3	<p>3.1 Generic Competitive Strategies: Meaning of generic competitive strategies, Low cost, Differentiation, Focus – when to use which strategy</p> <p>3.2 Grand Strategies: Stability, Growth (Diversification Strategies, Vertical Integration Strategies, Mergers, Acquisition & Takeover Strategies, Strategic Alliances & Collaborative Partnerships), Retrenchment – Turnaround, Divestment, Liquidation, Outsourcing Strategies</p>	7 + 2
4	<p>4.1 Strategy Implementation: Components of a strategic plan, barriers to implementation of strategy, Mintzberg's 5 Ps – Deliberate & Emergent Strategies, Mc Kinsey's 7s Framework</p> <p>4.2 Organization Structures for Strategy Implementation: entrepreneurial, functional, divisional, SBU, Matrix, Network structures, Cellular/ Modular organization, matching structure to strategy, organizational design for stable Vs. turbulent environment,</p> <p>4.3 Changing Structures & Processes: Reengineering & strategy implementation – Principles of Reengineering, Six Sigma – Process consisting of defining, measuring, analyzing, improving & establishing steps, Lean Six Sigma (Concepts only)</p> <p>4.4 Corporate Culture: Building Learning organizations, promoting participation through technique of Management by Objectives (MBO), Total Quality Management (TQM)</p> <p>4.5 Strategy Evaluation: Operations Control and Strategic Control - Symptoms of malfunctioning of strategy – Use of Balanced Scorecard for strategy evaluation</p>	7 + 2
5	<p>5.1 Blue Ocean Strategy: Difference between blue & red ocean strategies, principles of blue ocean strategy, Strategy Canvas & Value Curves, Four Action framework</p> <p>5.2 Business Models: Meaning & components of business models, new business models for Internet Economy– E-Commerce Business Models and Strategies – Internet Strategies for Traditional Business – Virtual Value Chain</p> <p>5.3 Sustainability & Strategic Management: Threats to sustainability, Integrating Social & environmental sustainability issues in strategic management, meaning of triple bottom line, people-planet-profits.</p>	7 + 2

University of Pune

Semester	III	Specialization	NA
Course Code	302	Type	Generic - Core
Course Title	Enterprise Performance Management		

Course Objectives:	
1	To acquaint the students with a perspective of different facets of management of an enterprise
2	To provide inputs with reference to the Investment Decisions along with the techniques for those decisions
3	To inculcate the evaluation parameters of enterprise in terms of expenses, control systems and pricing
4	To develop the knowledge of the concept of auditing and its applicability as performance management tool

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Performance Management: Concept, Need, Linkages with Strategic Planning, Management Control and Operational Control</p> <p>1.2 Performance Evaluation Parameters: Financial – Responsibility Accounting – Concept of Responsibility Centers, Revenue Centre, Expense Centre - Engineered and Discretionary costs – Committed costs, Profit Centre, Investment Centers. ROI, ROA, MVA, EVA – DuPont analysis. (Numericals Not expected – Interpretation only) Limitations of Financial Measures</p> <p>1.3 Performance Evaluation Parameters: Non-Financial Performance measures – Balanced Scorecard, Malcolm Baldrige Framework.</p> <p>1.4 Measuring SBU Level Performance: Concept, Need, Linkages with Enterprise Performance Management – Goal Congruence. Transfer Pricing – Objective, Concept, Methods – Cost based, Market price based & Negotiated, Applicability of Transfer Pricing.</p>	7 + 2
2	<p>2.1 Capital Expenditure Control: Concept, Need, Process of Capital Budgeting, Types of capital expenditure decisions – pre-sanction, operational and post-sanction control of capital expenditure.</p> <p>2.2 Tools & Techniques of Capital Expenditure Control: Performance Index, Technical Performance Measurement, Post completion audit</p>	7 + 2
3	<p>3.1 Performance Evaluation Parameters for Banks: Customer Base, NPAs, Deposits, Rol, Financial Inclusion, Spread, Credit Appraisal, Investments.</p> <p>3.2 Performance Evaluation Parameters for Retail: ABC analysis, Sell Through Analysis, Multiple Attribute Method, Gross Margin Return on Investment (GMROI), GMROI as Gross Margin/Average Inventory at Cost</p>	7 + 2
4	<p>4.1 Performance Evaluation Parameters for Projects: Project Control Process: Setting base line plan, Measuring progress and performance, comparing plan against action, Taking action, Schedule variance (time overruns), Project Cost Variance (cost overruns)</p> <p>4.2 Performance Evaluation Parameters for Non-Profit: Features of Non-profit organizations, fund accounting, governance, product pricing, strategic planning & budget preparations, social audit.</p>	7 + 2

5	5.1 Audit Function as a Performance Measurement Tool: Financial Audit, Internal Audit, Cost Audit, Management Audit – Principles and Objectives (Audit Reports / Formats are expected to be discussed in the class from a performance measurement perspective).	7 + 2
---	--	-------

Learning Resources:		
1	Text Books	Management Control System by Robert Anthony & Vijay Govindrajan, Tata McGraw Hill Publishing Co. Ltd., 12 th Edition Management Control in Non Profit Organizations by Robert Anthony & David Young, McGraw Hill International Publication, 7 th Edition Retailing Management by Swapna Pradhan, TMGH, 3 rd Edition
2	Reference Books	Project Management by K.Nagarajan, New Age International Publications, 2 nd Edition Principles and Practices of Auditing by Ravindar Kumar & Virendar Sharma, PHI. Principles and Practices of Banking by Indian Institute of Banking & Finance, MacMillan India Ltd. Financial Management by Prasanna Chandra, TMGH, 7 th edition
3	Supplementary Reading Material	Management Control Systems by R.C. Sekhar, TMGH
4	Websites	-
5	Journals	IUP journal of Business strategy- by ICWFI Enterprise and Society- International journal of business history by Oxford University.

Semester	III	Specialization	NA
Course Code	303	Type	Generic - Core
Course Title	Startup and New Venture Management		

Course Objectives:	
1	To instill a spirit of entrepreneurship among the student participants.
2	To provide an overview of the competences needed to become an entrepreneur
3	To give insights into the Management of Small Family Business

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Concept and Definitions: Entrepreneur & Entrepreneurship, Entrepreneurship and Economic Development; A Typology of Entrepreneurs;</p> <p>1.2 Entrepreneurial Competencies: The Entrepreneur's Role, Task and Personality -</p> <p>Entrepreneurial Skills: creativity, problem solving, decision making, communication, leadership quality; McClelland's N-Ach theory, self – analysis, personal efficacy, culture & values, risk-taking behaviour, technology backup.</p> <p>1.3 Factor Affecting Entrepreneurial Growth: Economic, Non-Economic Factors; EDP Programmes; Entrepreneurial Training;</p> <p>1.4 Traits/Qualities of an Entrepreneurs: Entrepreneur; Manager Vs. Entrepreneur, The Early Career Dilemmas of an Entrepreneur, Defining Survival and Success , Entrepreneurship as a Style of Management , The Entrepreneurial Venture and the Entrepreneurial Organization. Entrepreneurial Process</p> <p>1.5 Steps of entrepreneurial process : Deciding – Developing – Moving – Managing – Recognizing</p>	7 + 2
2	<p>2.1 Opportunity / Identification and Product Selection: Entrepreneurial Opportunity Search and Identification;</p> <p>2.2 Product Selection: Criteria to Select a Product</p> <p>2.3 Conducting Feasibility Studies: Project Finalization; Sources of Information.</p> <p>2.4 Entry strategies: New product, Franchising, Partial Momentum, Sponsorship and Acquisition</p> <p>2.5 Intellectual Property: Creation and Protection</p>	+ 2
3	<p>Small Enterprises and Enterprise Launching Formalities: Definition of Small Scale; Rationale; Objective; Scope; Role of SME in Economic Development of India; SME; Registration; NOC from Pollution Board; Machinery and Equipment Selection</p> <p>Project Report Preparation: Specimen of Project Report; Project Planning and Scheduling using Networking Techniques of PERT / CPM; Methods of Project Appraisal - economic viability and market feasibility, requirements of financial institutions, projected financial statement preparation.</p>	7 + 2

4	<p>4.1 Role of Support Institutions and Management of Small Business: Director of Industries; DIC;SIDO; SIDBI; Small Industries Development Corporation (SIDC); SISI; NSIC; NISBUED; StateFinancial Corporation SFC;</p> <p>Information : assistance from different organizations in setting up a new venture, technology parks, industrialcorporations, directorate of industries / cottage and small scale industries, SISI, Khadi & Village Industries Corporation / Board.</p> <p>DGS & DNSIC, export & import, how to apply for assistance – procedure, forms, proceduresfor obtaining contract from Railways, Defence, P & T etc., SIDBI.</p> <p>4.2 Laws :Liabilities under the Factories Act, Shops & Establishment Act, Industrial Employment (Standing Orders) Act,Environment Protection Act, Sale of Goods Act, maintenance & submission of statutory records & returns, understanding labour - management relationship</p>	7 + 2
5	<p>Case Studies :Diagnostic case studies of successful / unsuccessful entrepreneurs, key variables explaining success /failures, industrial sickness, industrial reconstruction, technology obsolescence, technology, transfer.</p>	7 + 2

Semester	III	Specialization	NA
Course Code	304	Type	Generic – Core [6 Credits]
Course Title	Summer Internship Project		

Course Objectives:	
1	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, and perceptions along with the experience needed to constitute a professional identity.
2	To provide means to immerse students in actual supervised professional experiences
3	To give an insight into the working of the real organizations.
4	To gain deeper understanding in specific functional areas.
5	To appreciate the linkages among different functions and departments
6	To develop perspective about business organizations in their totality
7	To help the students in exploring career opportunities in their areas of interest

At the end of Second Semester each student shall undertake a **Summer Internship Project (SIP) for 8 weeks. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP.** The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. Ideally the SIP should exhibit a **cross-functional orientation**. The student shall submit a written structured report based on work done during this period.

SIP can be carried out in:

- Corporate Entity
- NGO
- SME
- Government Undertaking
- Cooperative Sector

SIP may be a research project – based on primary / secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace. *The learning outcomes and utility to the organization must be specifically highlighted.*

The report should be well documented and supported by –

- Executive Summary
- Organization profile
- Outline of the problem/task undertaken
- Research methodology & data analysis (in case of research projects only)
- Relevant activity charts, tables, graphs, diagrams, etc.
- Learning of the student through the project
- Contribution to the host organization
- References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)

It should reflect the nature and quantum of work undertaken by the student. The report must reflect 8 weeks of work and justify the same.

The completion of the SIP shall be certified by the respective Faculty Guide & approved by the Director of the Institute. The external organization (Corporate / NGO/ SME/ Government Entity/ Cooperative/ etc.) shall also certify the SIP work.

The student shall submit **TWO hard copies & one soft copy (CD)** of the project report before 30th September in Sem III. One hard copy is to be returned to the student by the Institute after the External Viva-Voce.

In the interest of environmental considerations, students are encouraged to print their project reports on both faces of the paper.

SIP shall have a weightage of 6 credits. The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks. The Panel shall comprise of the Internal Faculty Guide & One additional faculty nominated by the Director.

There shall be an external viva-voce for the SIP for 100 marks. The examiner's panel for the same shall include one external faculty member nominated by the University and one internal faculty member nominated by the Director. **The external viva-voce shall be conducted for 15 minutes at least per student.**

The Internal & the External viva-voce shall evaluate the project based on:

1. Actual work undertaken by the student
2. Student's understanding of the organization and business environment
3. Outcome of the project
4. Utility of the project to the organization
5. Basic analytical capabilities

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

**MBA SYLLABUS: SEMESTER III
MARKETING MANAGEMENT - SPECIALIZATION**

Semester	III	Specialization	Marketing
Course Code	305MKT	Type	Subject - Core
Course Title	Contemporary Marketing Research		

Course Objectives:

1	To give the students an understanding of marketing research from both user's (management) and doer's (the researchers) perspective.
2	To design and produce, evaluate a research proposal & understand the quality of research studies.
3	To learn the basic skills to conduct professional marketing research.
4	To understand the applications of business research tools in Marketing decision making.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Marketing Research & Applications of Research Designs Meaning & role of Marketing Research, Role of Information in Marketing Decisions, Marketing Research – Sequence of Steps, Meaning & Types of Research Designs – Exploratory, Descriptive & Causal, concept of validity & reliability of a research study Problem Formulation, The decision maker & the environment, alternative courses of action, objectives of decision maker, consequences of alternative courses of action, Translating decision problem to research problem, Preparing & Evaluating Marketing Research proposal. Formulating hypotheses using exploratory research techniques like literature survey, experience survey & analysis of cases. Meaning of Qualitative research & applications of Depth Interviews & Focus Groups in marketing Applications of longitudinal studies in consumer panels, retail shop audit, media audience tracking studies like TRP, brand tracking studies	6+2
2	Data Collection – Questionnaires & Scaling Designing questionnaires & observation forms for different marketing research situations – study of consumer behavior, advertising copy research, media research like readership surveys, opinion polls, retail surveys to understand market potential, channel behavior, mystery shopping etc. Scale Construction, Specifying domain, generating scale items, Basic Scaling Issues like number of scale points, odd number Vs. even number of options, balanced Vs. unbalanced scale, forced Vs. unforced scale, verbal & pictorial description of response categories Scale Purification Process, Deleting scale items using correlations with total score, Reliability Testing using Chronbach Alpha, Validity Testing – Face Validity, Content Validity, Construct Validity, Convergent Validity & Discriminant Validity Applications of Likert, Semantic Differential & Staple Scales for positioning research, brand research, attitudinal studies, customer satisfaction research	8+2
3	Experimental Designs & Sampling Experimentation in Marketing Research, Basic/ classical designs: before – after, before – after with control group, after only with control group, four group – six study design. (Applications expected with interpretation of data) Statistical Designs, Randomized Block Design, Latin Square Design, Factorial Design, Applications related to Test Marketing, study of effectiveness of advertising & sales promotional campaigns Case studies on sampling decisions like defining universe, sampling unit, sampling element, choice of sampling frame, determining sample size for probability & non-probability sampling methods & choice of final sample by using appropriate sampling methods in a step by step manner	6+2

4	Data Analysis – I Testing hypothesis for one mean, two means, two proportions. (Numerical expected with practical examples) Chi Square Test, Observed & Expected Frequencies, ANOVA – One & Two way (numerical expected with practical examples) Conjoint Analysis, Conceptual basis, procedure, type of data required, key decision, how to interpret output, applications to study trade off patterns of consumers as related to different levels of marketing mix elements (Question on interpretation of output is expected) Factor Analysis, Conceptual basis, type of data required, procedure, PCA, Interpreting factor matrix (factor loadings, communalities, Eigen value), determining number of factors using latent root criteria & scree test, interpreting & naming factors, applications in consumer behavior studies (Question on interpretation of output is expected)	7+2
5	Data Analysis – II Cluster Analysis, Conceptual basis, type of data required, procedure, clustering methods – single linkage rule, how to interpret output, applications related to psychographic & lifestyle market segmentation (Question on interpretation of output is expected) Multi- dimensional Scaling & Perceptual Mapping, Conceptual basis, type of data required, key decision- attribute based versus non-attribute based approaches, procedure, how to interpret output, applications related to target market selection & positioning (Question on interpretation of output is expected) Discriminant Analysis (Two Group Case), Conceptual basis, type of data required, determining the coefficients, interpreting discriminant function & classifying subjects using discriminant function, applications in marketing (Question on interpretation of output is expected)	8+2

Semester	III	Specialization	Marketing
Course Code	306MKT	Type	Subject - Core
Course Title	Consumer Behaviour		

Course Objectives:	
1	To highlight the importance of understanding consumer behavior in Marketing.
2	To study the environmental and individual influences on consumers
3	To understand consumer behavior in Indian context.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Environmental Influences on Consumer Behaviour Basics: Meaning of Customers & Consumers, Consumer Roles, Consumerism & De-marketing Culture & Sub- Culture: Meaning, Characteristics & Relevance to Marketing Decisions Social Class: Meaning, Measurement, Effect on Lifestyles Social Groups: Meaning & Group Properties & Reference Groups Family: Family Life Cycle & Purchasing Decisions Marketing Mix : Influence of marketing mix variables	10 + 2
2	Individual Determinants of Consumer Behavior Personality & Self Concept: Meaning of Personality, Influence on Purchase Decisions Motivation & Involvement: Types of Buying Motives, Motive Hierarchy, Dimensions of Involvement Learning & Memory: Meaning & Principal Elements of Learning, Characteristics of Memory Systems, Recall Attitudes: Meaning & Characteristics, Strategies for Changing Attitudes, Intentions & Behaviors	9 + 2
3	Consumer Decision Making Process Problem Recognition: Types of consumer decisions, types of Problem Recognition, Utilizing problem recognition information Search & Evaluation: Types of information, Sources of Information Search, Search, Experience and Credence Aspects -Marketing Implications Purchasing Process: Why do people shop? Store & Non-store Purchasing Processes, Purchasing Patterns. Post-purchase Evaluation & Behavior: Consumer Satisfaction, Dissatisfaction, Customer Delight, Consumer Complaint Behavior, Post-Purchase Dissonance.	8 + 2
4	Consumer Behavior Models Howard Sheth Model Engel – Blackwell – Miniard Model	4 + 2
5	Indian Consumer Demographic & Socio-economic Profile Measurement of social classes in India using Socio-Economic Classes (SEC) in Urban & Rural Markets Living Standards Measures (LSM). Characteristics of BoP Consumers.	4 + 2

Learning Resources:		
1	Text Books	Consumer Behaviour by David L. Loudon & Albert J. Della Bitta, Tata McGraw Hill, 4 th Edition Consumer Behaviour, Hawkins, Mothersbaugh, Tata McGraw Hill Consumer Behaviour, Batra, Kazmi, Excel Books
2	Reference Books	Consumer Behavior by Leon Schiffman, Leslie Kanuk, S.Ramesh Kumar, Pearson, 10 th Edition Consumer Behaviour by Engel, Blackwell & Miniard Consumer Behavior - An Indian perspective by Dr. S.L Gupta, Sumitra Pal, Sultan Chand and Sons Consumer Behavior - In Indian Perspective by Suja R. Nair, Himalaya Publishing House. Why we Buy: The Science of Shopping by Paco Underhill, Simon and Schuster Paperbacks.

Reforms in rural credit system.	5 + 1

Learning Resources:

1	Text Books	Banking – Dharmaraj E – Scitech Publications
2	Reference Books	Indian Economy – Datt, Sundaram – S.Chand& Sons, Indian Economic Problem – Amitabh Bhattacharya – Metropolitan Publications,
3	Supplementary Reading Material	Microfinance – Rajagopalan – ICFAI Press,
4	Websites	www.nabard.org www.banknetindia.com www.rbi.org.in www.iba.org
5	Journals	Asian Journal of Agricultural & Rural Development Journal of Industrial and Rural Development

Semester	III	Specialization	Finance
Course Code	323FIN	Type	Subject – Elective
Course Title	Social Finance for Inclusive Growth - I		

Course Objectives:	
1	To highlight the need for financial products that help the asset poor households and the marginalized communities, including micro entrepreneurs, engage in income-generating activities.
2	To give inputs for designing of innovative financial contracts and instruments, reducing the risk of lenders as well as borrowers, and most importantly credit enhancements and guarantees.
3	To highlight innovations in financial contract design and risk for financial inclusion.
4	To understand the role of financial institutions in financial inclusion.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Financial Markets: Accessibility of Financial Markets to poor in India-Demand & Supply issues	5 + 1
2	Innovative Financial Products: Financial innovations beyond microcredit, urban finance, low income housing finance, Micro Enterprise Financing Innovations	5 + 1
3	Finance constraints faced by microenterprises : Financing constraints faced by microenterprises, restricting access to finance, Financial market innovations supporting MSME finance, financing startup and venture capital fund, credit guarantee mechanisms	5 + 1
4	Impact Investing: Value Creation at the Bottom of the Pyramid, balancing the needs of investors as well as social entrepreneurs. Funding Options for innovations	5 + 1
5	Capital Markets & Access to Finance: Financial innovations to support savings & Investments of asset poor households, framework for managing inflation risks, etc. global and Indian experiences. Micro-SIP& Pension, investment linked insurance products. Investment and Insurance-linked Products : Credit-insurance based financing arrangement	5 + 1

Learning Resources:		
1	Text Books	Inclusive Growth – Indian Institute of Banking & Finance, Microfinance – Somnath – Excel Books
2	Reference Books	New Trends in Banking – VV Ravi Kumar – ICFAI Press, Principles & Practice of Banking – IIBF – Macmillan Publishing,
3	Supplementary Reading Material	Financial Inclusion – Sameer Kochharm, R. Chandrashekar, Advanced Financial Management – M.A. Kohok – Everest Publishing
4	Websites	www.impactinvesting.in www.oecd.org
5	Journals	Indian Journal of Finance

MBA SYLLABUS: SEMESTER III
INFORMATION TECHNOLOGY MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Information Technology
Course Code	305IT	Type	Specialization - Core
Course Title	I.T. Management		

Course Objectives:	
1	To get a thorough update of Information Technology used in Business Organizations.
2	To develop understanding of managerial aspects so as to use Information technology effectively and efficiently.
3	To develop capability to integrate different but related aspects of Information Technology
4	To develop a view of IT Management, especially, for a large organization
5	To appreciate IT Management as an independent and important field of work, different from IT for Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Hardware Management – Historical Review - Types of Computers – Computer Peripherals - Input Technologies and Devices– Output Technologies and Devices - Storage Technologies and Devices - Future Scenario – Managerial considerations in acquisition, maintenance, controlling, replacement of Hardware	7+2
2	Application Software Management - Overview of General Purpose Application Software such as Software Suites, Messaging, Groupware, Conferencing Commercial and Corporate Tools and Overview of Application Specific Software such as Programming languages, ERP, e-Commerce, CRM, Scientific and Engineering Programs. System Software Management –Overview of Operating Systems, Network Management Programs, Database Management Programs, Servers, System Utilities, Performance and Security Monitors, System Development Programs. Managerial considerations in selection, maintenance, controlling, replacement of Software	7+2
3	Networking Management – Networking Trends – Internet Basics – Intranet and Extranet – Overview of Networking Alternatives, Networking types, Networking media, Networking processors, Networking software, Networking architecture and Networking protocols	7+2
4	Data Management –Database Concepts and Development - Types of Databases – Application Development thru DBMS - Database Administration Data Resource Management –Data warehouse and Data Mining - Data Recovery Practices and Technologies	7+2
5	(a) Security Management –Need, Case Studies – Types of Computer Crime – Cyber Law - Tools of security Management - Security Defenses – System Controls and Audit (b) People Management -- I.T. Organization of a large corporation – Selection and Recruitment – Training – Retention – Performance Measurement	7+2

Learning Resources:		
1	Text Books	Management Information System Laudon, Laudon and Dass 11 th Edition Pearson Management Information Systems Obrien, Marakas, Behl 9 ^h Edition Tata McGraw Hill Management Information Systems W S Jawadekar, 4 th Edition Tata McGraw Hill
2	Reference Books	IT system Management by Rich Schiesser Enterprise Computing by Alan R. Simpson
3	Supplementary Reading Material	The Influence of IT Management Practice on IT Use in Large Organizations Journal MIS Quarterly Author: Boynton Andrew, Zmud Robert & Jacobs Gerry
4	Websites	www.csus.edu whatis.techtarget.com
5	Journals	MIS Quarterly, University of Minnesota CSI Communications, Computer Society of India

Semester	III	Specialization	Information Technology
Course Code	306IT	Type	Specialization - Core
Course Title	E-Business		

Course Objectives:

1	To appreciate e-Business as a significant business segment of the future
2	To get on overview of technological aspects of e-business
3	To understand strategic aspects of e-business
4	To develop capacity to initiate/lead an e-business venture/ business segment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction, Background and Current Status, Case studies	6+2
2	e-Business Architecture - Enabling Technologies- Information distribution and messaging Technologies- Information Publishing Technology	7+2
3	e-Business Infrastructure - e-Business Design, Capacity Planning, Performance Modeling- Mobile commerce- framework and models	7+2
4	e-Business Models - e-Marketing, e-CRM, Internet advertising - e-Business Security/Payment Services - e-SCM, e-Procurement - Portals- Search Engines – Online Community building	8+2
5	e-Business Strategy into Action, Challenges, Legal Issues - Business Plan Presentation and Demonstration “Launching e-Business: From Idea to Realization”.	7+2

Learning Resources:

1	Text Books	E-business by Rayudu, Himalaya Publication
2	Reference Books	Knowledge Management by Jawadekar, McGraw-Hill e-Commerce A Manager's Guide to e-Business by Parag Diwan & Sunil Sharma
3	Supplementary Reading Material	E-Government, E-Business, and National Economic Performance Journal: Communications of AIS, Shirish Shrivastava
4	Websites	e-business.com www.ecommercetimes.com
5	Journals	Journal of Electronic Commerce Research International Journal of Electronic Commerce

Semester	III	Specialization	Information Technology
Course Code	307IT	Type	Subject - Elective
Course Title	Software Engineering		

Course Objectives:	
1	To develop theoretically sound understanding of Software Engineering Methods
2	To develop understanding of object oriented software Engineering
3	To develop ability to represent diagrammatically and in descriptive form, software engineering schemas

Syllabus:

Unit Number	Contents	Number of Sessions
1	Nature of Software, Software Engineering, Software Process, Unique Nature of WebApps, Basic System Development Life Cycle	6+1
2	Different approaches and models for System– Generic Process Model, Waterfall, Spiral, Prototyping, RAD, JAD	6+1
3	Requirements Anticipation, Requirements Investigation, Requirements Specifications	6+1
4	Use-case Driven Object oriented Analysis - Use case Diagram, Activity Diagram, Sequence diagram, Collaboration Diagram and Class Diagram	8+2
5	User Interface design	4

Learning Resources:		
1	Text Books	Software Engineering Pressman, TMH, 7th Edition
2	Reference Books	System Analysis and Design Jalote, Narosa Publication, 3rd Edition Software Engineering W S Jawadekar, TMH. System Analysis & Design Elias Awad, Galgotia Publication Object Oriented Analysis and Design with Applications by Grady Booch., Benjamin / Cummings , 1994., Pearson, 3rd Edition
3	Supplementary Reading Material	Management Information System for Enterprise Applications, Adamantions Koumpis
4	Websites	www.unesco-ihe.org
5	Journals	International Journal of Software Engineering & Knowledge Management TSE - IEEE Transactions on Software Engineering SPE - Software - Practice and Experience

Semester	III	Specialization	Information Technology
Course Code	308IT	Type	Subject - Elective
Course Title	Mobile Computing with Android		

Course Objectives:	
1	To understand technical aspects of M-computing
2	To appreciate impact of M-computing on Information Technology scenario
3	To understand M-computing applications; initiate new applications

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Generations of mobile computing, Spectrum allocation, Standard Bodies, Players in the Wireless Space, three tier architecture of mobile computing, Mobile Computing through Internet, Basic cellular system, concept of frequency reuse channels, hand-off mechanism, cell splitting	5+1
2	GSM & GPRS :GSM features and Architecture , Network Aspects in GSM, GSMFrequency Allocation, Mobility management, hand-off mechanisms, cell splitting, Security issues used in GSM, GPRS features and architecture, network operations, data services in GPRS, applications and limitations, SMS and MMS services architecture and operation details	5+1
3	Emerging Telecommunication Technologies :Introduction, Bluetooth, EDGE, UMTS, Wireless Broadband (WiMAX),Mobile IP, Java Card, WLAN, Ad-hoc Networks, Sensor Networks, SpreadSpectrum technology, CDMA, Third generation networks and applications,WAP: Model, architecture & protocol stack.	5+1
4	Security Issues in Mobile Computing: Introduction, Information security, Security techniques and Algorithms,security Protocols, Public Key Infrastructure, Trust, Security Models, SecurityFrameworks for Mobile Environment.	4+1
5	M-Commerce :Introduction to m-commerce :Emerging applications, different playersin m-commerce, m-commerce life cycleMobile financial services, mobile entertainment services, and proactive serviceManagement Management of mobile commerce services: Content development and distribution to hand-held devices, contentcaching, pricing of mobile commerce services The emerging issues in mobile commerce: The role of emerging wireless LANs and 3G/4G wireless networks, personalized content management, implementation challenges in m-commerce, futuristic m-commerce services.	6+1

Learning Resources:		
1	Text Books	Mobile Computing (Technology, Applications and Service Creation) , Asoke. K Talukder and Roopa R. Yavagal. Tata McGraw Hill
2	Reference Books	Mobile Communication : Jachan Schiller, Adison-Wesley.Wireless and Mobile Network Architecture : Yi-Bing Lin, Wiley Mobile Commerce: Technology, Theory and Applications by BrianMennecke and Troy J. Strader, Idea Group Publishing
3	Supplementary Reading Material	
4	Websites	techbits.co.in www.zslinc.com
5	Journals	Wireless communication & mobile computing IEEE Transactions on Mobile Computing

Semester	III	Specialization	Information Technology
Course Code	309IT	Type	Subject - Elective
Course Title	RDBMS with Oracle		

Course Objectives:	
1	To understand theoretical concepts in Relational Data Base Management
2	To develop working level proficiency for writing SQL commands
3	To develop capability to design applications for a real life DBMS problem

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of DBMS : Architecture, Data models, constraints	3
2	Relational model concept: Relational model constraints ,relational Algebra, Relational database language, Data definition in SQL, Views and Queries in SQL, Specifying constraints and Indexes in SQL, Specifying constraints management systems,	6+1
3	SQL Functions: Date - Sys_date , next_day, Add_months, last_day, months_between. Numeric - round, trunc, abs, ceil, cos, exp, floor. Character - initcap, lower, upper, ltrim, rtrim, translate, length, lpad, rpad, replace. Conversion - to_char, to_date, to_number. Miscellaneous - Uid, User, nvl, vsize, decode, rownum. Group function - avg, max, min, sum, count, with Group by and Having Clause. Nested functions.	6+1
4	Joins: Simple join Equi join Non equi join Self join Outer join Set operators (Union, union all, intersect, minus) Sub queries and Correlated query DML statements (Insert, Update, Delete with whereclause) TCL (Commit, Rollback, Saveint)	5+1
5	Tables Create, Alter, Drop, Truncate, Rename Constraints (Primary key, Foreign Key, Unique Key, Check, Default, Not Null, On delete, Cascade) Column level and Table level constraints Oracle Objects Views, Sequences, Synonyms, Index (Define, Alter and Drop)	6+1

Learning Resources:		
1	Text Books	Data Base System Concept by Korth, TMH, 5 th Edition Oracle by Ivan Bayros
2	Reference Books	Introduction To Database Systems By C.J.Date, Pearson. Data Management Systems by Alexis Leon, Mathew Leon Principles of Database Management by James Martin, PHI. SQL - The complete Reference by Groff James & Weinberg Paul., TMH, 2 nd Edition.
3	Supplementary Reading Material	Oracle 7 by Ivan Bayross, BPB Pub.
4	Websites	www.thinkoracle.in
5	Journals	Development of a Relational Database Management System

Semester	III	Specialization	Information Technology
Course Code	310IT	Type	Subject - Elective
Course Title	Software Quality Assurance		

Course Objectives:	
1	To understand concepts and methodology related to Software Quality Assurance
2	To Know software Quality standards specifies by regulatory authorities
3	To develop capability to design Quality Testing processes in software development environment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Software quality - Definition Software errors, software faults and software failures Software quality assurance – definition and objectives Software quality assurance vs. software quality control The objectives of SQA activities	5+1
2	Pre-project SQA Components Contract Review Development and Quality Plan	5+1
3	SQA components in Project life cycle activities assessment. Verification and Validation Various types of Reviews Inspections Walkthrough Software testing Impact of CASE Tools	5+1
4	Software Quality Factors McCall's Quality Model Product, Process quality metrics	5+1
5	Standardization ISO 9001 and ISO 9000-3 SEI-CMM IEEE 1012 standard ISO/IEC 12207 standard.	5+1

Learning Resources:		
1	Text Books	Handbook of Software Quality Assurance Software Quality Assurance: Principles and Practices by Nina Godbole
2	Reference Books	Software Quality Assurance from theory to implementation – Danial Galin Software Project management - Edwin Bennatan Project Management Body of Knowledge – PMI
3	Supplementary Reading Material	Software Engineering Roger S. Pressman, TMH, 7 th Edition.
4	Websites	www.softwarecertifications.org www.softwareqatest.com
5	Journals	Software Quality Journal

Semester	III	Specialization	Information Technology
Course Code	311IT	Type	Subject - Elective
Course Title	E-Learning		

Course Objectives:	
1	To understand e-learning as an emerging educational technology
2	To learn use of tools/ technologies used for e-learning based pedagogy
3	To develop capability to initiate e-learning project(s)

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: e-learning- definition. Why e-learning? Elements of e- learning, e-learning content- dimensions, Risks in e-learning, ROI , e- learning cycles, Implementation.	5+1
2	Types of e-learning and technologies required: Learner- led e-learning Facilitated e-learning, Instructor- led e-learning, Embedded e-learning Tele-mentoring and e-coaching, Categories of software tools	5+1
3	Hardware and Networks for e-learning: Selection of e-learning Hardware, network for e-learning, types of networks, private network, private networks, internet, TCP/IP , wireless internet connection.	5+1
4	Tools for accessing e-learning: Web browsers, media players and viewers Tools for offering e-learning: Web servers, LMS- Learning Management Systems , Learning Content Management Systems, Collaboration tools, Virtual- School systems, media servers Tools for creating e-learning content: Course authoring tools, web site authoring tools, how they work?, an overview of popular web site authoring tools, alternatives to web authoring tools, blogging tools, testing and assessment tools Other Tools: Media Editors, Content Converters	5+1
5	Standards For e-learning: Standards for packaging, communication, Metadata, Quality standards , other standards and regulation Trends in e-Learning: Always Online, All information online, All Media digital, Emergence of HDTV video standard, Force or haptic feedback, Telepresence, immersive simulations, embedded system.	5+1

Learning Resources:		
1	Text Books	E- learning strategies – How to get implementation and delivery right first time by Don Morrison, John Wiley and sons Ltd. Methodologies, Tools and New Developments for E-Learning
2	Reference Books	Delivering E- learning : A complete strategy for design, application and assessment – by Kenneth Fee , Kogan Page London and Philadelphia, 2009 E- Learning Tools and Technologies a consumer's guide for trainers, teachers, educators and instructional designers – William Horton, Katherine Horton, Wiley.
3	Supplementary Reading Material	
4	Websites	www.e-learningconsulting.com www.elearningnc.gov
5	Journals	Journal of e-Learning and Knowledge Society

Semester	III	Specialization	Information Technology
Course Code	312IT	Type	Subject - Elective
Course Title	Software Marketing		

Course Objectives:	
1	To understand facets of software marketing as a field of study
2	To develop in depth of understanding of Software Marketing Practices
3	To assist in developing capability to market the software

Syllabus:

Unit Number	Contents	Number of Sessions
1	Global and Indian Software Industry Environment: Historical Growth of the Industry, Market Size, Nature of Products, Projects and Services, Major Players, Industry Associations and their role in market development, Overview of India's Software Export Industry	5+1
2	Services Marketing Mix: 7 Ps of Services Marketing – Service Life Cycle Strategic Aspects of Software Marketing - Identification of potential markets, Industry/ Business analysis and creating/ sustaining competitive advantage - Segmenting, Targeting and Positioning.	5+1
3	Promotion: Role of Promotion in Software Marketing; Personnel Selling, Advertising and Sales Promotion; Trade Shows, Role of Relationship Marketing in promoting software	5+1
4	Distribution: Place – Distribution Strategies for Software Products / Services; Challenges in distribution of Software Products and Services; Role of Internet in distribution of Software Products and Services. Pricing: Factors involved in pricing software Products, Price estimating for Software Projects	5+1
5	Customer Satisfaction & Service Quality: Monitoring and Measuring customer satisfaction. Applying technology to service settings, e-services. Role of People, Process and Physical Evidence in Software Products and Services	5+1

Learning Resources:		
1	Text Books	Services Marketing - Zeithaml, Bitner, Gremler&Pandit, TMGH, 4 th Edition.
2	Reference Books	Services Marketing – Rampal& Gupta Software That Sells : A Practical Guide to Developing and Marketing your Software Project, Edward Hasted
3	Supplementary Reading Material	Services Marketing - Christopher Lovelock
4	Websites	www.softwaremarketingresource.com www.softwareceo.com
5	Journals	Journal of Services Marketing

Semester	III	Specialization	Information Technology
Course Code	313IT	Type	Subject - Elective
Course Title	Business Intelligence and Analytics		

Course Objectives:	
1	To understand principles of BI and Analytics at conceptual level
2	To understand application areas for implementing BI and Analytics
3	To develop skills to design BI and Analytics projects

Syllabus:

Unit Number	Contents	Number of Sessions
1	Business Intelligence: definition , concept and need for Business Intelligence, Case studies BI Basics : Data, information and knowledge, Role of Mathematical models	5+1
2	Business Analytics at the strategic level: Strategy and BA , Link between strategy and Business Analytics, BA supporting strategy at functional level, dialogue between strategy and BA functions, information as strategic resource Business Analytics at Analytical level : Statistical data mining, descriptive Statistical methods, lists, reports, automated reports, hypothesis driven methods, data mining with target variables, cluster analysis, Discriminate analysis, logistic regression, principal component analysis.	5+1
3	Business Analytics at Data Warehouse Level, Designing physical database, Deploying and supporting DW/BI system	5+1
4	Business Intelligence Architectures: Cycle of Business Intelligence Analysis, Development of Business Intelligence System, spread sheets, concept of dashboard, OLAP, SOA, decision engineering. BI Tools: Concept of dashboard.	5+1
5	BI Applications in different domains- CRM, HR, Production	5+1

Learning Resources:		
1	Text Books	Decision Support and Business Intelligence Systems, Turban, Sharda, Delen, Pearson
2	Reference Books	Business Intelligence Success Factors Tools for aligning your business in the global economy by Olivia Parr Rud, John Wiley and sons , 2009 The Profit impact of Business Intelligence by Steve Williams and Nancy Williams , Morgan Kauffman Publishers/ Elsevier, 2007 Business Intelligence: Practices, Technologies, and Management- Rajiv Sabherwal, Irma Becerra-Fernandez Business Analytics for Managers : Taking Business Intelligence beyond reporting by GERT H.N. Laursen, Jesper Thorlund, Wiley and SAS Business Series, 2010
3	Supplementary Reading Material	The Great Mind Challenge for Business, Vol. 1 and 2, IBM (I) Pvt. Ltd, Bangalore
4	Websites	www.sas.com www.smartdatacollection.com
5	Journals	International Journal of Business Intelligence Research ,

Semester	III	Specialization	Information Technology
Course Code	314IT	Type	Subject - Elective
Course Title	Cyber Laws		

Course Objectives:	
1	To understand legal provisions of Information Technology Act, 2000
2	To know Case Law and practical ramifications of the Act

Syllabus:

Unit Number	Contents	Number of Sessions
1	Object and Scope: Genesis, Object, Scope of the Act Encryption - Symmetric Cryptography- Asymmetric Cryptography- RSA Algorithm - Public Key Encryption	5+1
2	Digital Signature: Technology behind Digital Signature - Creating a Digital Signature - Verifying a Digital Signature - Digital Signature and PKI - Digital Signature and the Law. E-Governance and IT Act 2000: Legal recognition of electronic records- Legal recognition of digital signature - Use of electronic records and digital signatures in Government and its agencies.	5+1
3	Certifying Authorities: Need for Certifying Authority and Powers - Appointment, function of Controller - Who can be a Certifying Authority? - Digital Signature Certifications - Generation, Suspension and Revocation of Digital Signature Certificate. Cyber Regulations Appellate Tribunal: Establishment & Composition of Appellate Tribunal - Powers of Adjudicating officer to Award Compensation - Powers of adjudicating officer to Impose Penalty.	5+1
4	Domain Name Disputes and Trademark Law : Concept of Domain Names - New Concepts in Trademark – Jurisprudence - Cybersquatting, Reverse Hijacking, Meta tags, Framing, Spamming - Jurisdiction in Trademark Dispute.	5+1
5	Cyber Crimes: Tampering with Computer Source Documents - Hacking with Computer System - Publishing of Information which is obscene, in Electronic Form - Offences related to Breach of Confidentiality& Privacy – Offences related to Digital Signature Certificate.	5+1

Learning Resources:		
1	Text Books	Cyber Law in India by Farooq Ahmad – Pioneer Books
2	Reference Books	Information Technology Law and Practice by Vakul Sharma – Universal Law Publishing Co. Pvt. Ltd. The Indian Cyber Law by Suresh T Vishwanathan –Bharat Law house New Delhi. Guide to Cyber Laws by Rodney D. Ryder –Wadhwa and Company Nagpur. The Information Technology Act,2000 – Bare Act –Professional Book Publishers – New Delhi
3	Supplementary Reading Material	Hand book of Cyber & E-commerce Laws by P.M. Bakshi & R.K.Suri – Bharat Law house New Delhi.
4	Websites	www.cyberlawindia.net www.asianlaws.org
5	Journals	Cyber Times

Semester	III	Specialization	Information Technology
Course Code	315IT	Type	Subject - Elective
Course Title	IT for Retailing		

Course Objectives:	
1	To understand IT in Retail as an important field of practice
2	To know concepts and technologies related to IT in retail

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Role of IT in Retail Trade, Advantages of IT in Retail Trade like Cost productivity benefits and Marketing benefits, Competitive advantages of Information technology, limitations of using IT, Essential Requirements of an Information System for retail.	5+1
2	Applications of IT in Retail Management: Inventory control, POS - Point of sale, Sales Analysis, Planning and Forecasting, CPFR- Collaborative Planning, Forecasting and Replenishment. Capturing and transmitting data at POS , advantages, elements of data capture – coding system code symbology Means of data capture Database marketing, Data Mining, Data Mart	5+1
3	Technology for retail Management: POS - Point of Scale Technologies available Barcode scanning, electronic shelf tags, self-checkouts, RFID tags, fingerprint authentication. Evolution of Retail Management Systems: Introduction to self-service, supermarkets, atomistic retail to regional networks/ chain stores, POS to point of purchase, push action to push strategy, Point of Differentiation, Point of Customer.	5+1
4	Web based retailing/ E- Retailing/ E Commerce (B2C): Kinds of retailers engaged in electronic commerce: virtual retailers, two channel retailers, Multichannel retailers Role of Internet, Benefits of Internet, Monitoring the progress of an internet e- retail business, limitations of the web. Emergence of eBay, Amazon and others, comparison of web based retailing and other forms of retailing.	5+1
5	Future trends : Smart cards, E-cash, Multimedia kiosks, Customer specific offers, Electronic body scanners, Electronic shelf front Retail management Systems in the market: ERP systems like SAP and PeopleSoft, Specialized retail software providers like JDA, Retek, Essentus, SANDMAR RM 6000 and others, Open source software.	5+1

Learning Resources:		
1	Text Books	Information Technology for retailing by Khurana Pub McGraw Hill
2	Reference Books	Retail Business Management by R. Perumalsamy, Anmol Publications, 2010 Retail Management by Arif Sheikh and Kaneez Fatima, Himalaya Publishing House, 2008.
3	Supplementary Reading Material	Advanced Technologies Management for Retailing - Framework and Cases by Eleonora Pantano and Harry Timmermans, Business Science Reference, 2011
4	Websites	www.retailsystems.com
5	Journals	Journal of Retailing and Consumer Services

Semester	III	Specialization	Information Technology
Course Code	316IT	Type	Subject - Elective
Course Title	Technical Writing		

Course Objectives:	
1	To understand Technical Writing at conceptual level
2	To learn tools and techniques as well as approaches to technical writing
3	To develop expertise with a view to taking up technical writing as a career

Syllabus:

Unit Number	Contents	Number of Sessions
1	What is technical writing? – Case studies Role of technical writer- creating user guides, reference, readme, release notes, documentation procedure technical presentations, training slides, online help (preparation and integration.)marketing brochures, web pages, concept note, specs, project proposals company newsletter, CVs, effective emailing guidelines	5+1
2	Quality Characteristics for technical writing Ease of use: Task orientation, Accuracy, Completeness Easy to understand: Clarity, correctness, strike Easy to find: Organization, Retrievability, Visual effectiveness	5+1
3	Audience analysis: tailoring documents for a specific audience. Creating a thesis statement, developing an outline, pre-writing, refinement. Overcoming writer's block/writer's anxiety. Adding emphasis in writing. Annotated bibliographies. Avoiding plagiarism. Conciseness, clarity. Establishing arguments. Paragraphs and paragraphing. Quoting, paraphrasing, and summarizing. Sentence variety. Using appropriate language. Proofreading your writing; parallels in proofreading and debugging.	5+1
4	Writing white paper/ technical report, research paper, report abstracts, manuals and documentation. Effective workplace writing: accentuating the positives, prioritizing your concerns for effective business writing; memo writing, email etiquette, revision in business writing, tone in business writing, model letters for various purposes.	5+1
5	(a)Document types to be covered Business Writing – RFI (Request for information) and RFP (Request For proposal) structure, Writing RFI ,RFP Contents of an Installation manual , Writing an Installation manual Contents of a s/w user manual , Writing a s/w user manual What is a white paper? Contents of a white paper , writing white papers CBT(Computer based training) , Structure of CBT, Preparing CBT Preparing a tutorial (b)Tools of technical writing MS Word, Ms Excel, Ms- PowerPoint, TechSmith Snagit, Adobe PDF, Adobe Robohelp	5+1

Learning Resources:		
1	Text Books	Technical Writing, Process and Product, Sharon Gerson, Steven Gerson, Pearson
2	Reference Books	Engineers Guide to technical writing by Kenneth G. Budinski, ASM International , 2001 Science and Technical Writing A Manual of style edited by Philip Reubens, Routledge The Best Software Writing I selected and introduced by Joel Spolsky, Apress, 2005 Technical Communication' by Mike Markel
3	Supplementary Reading Material	Developing Quality Technical Information A Handbook of Writers and Editors, IBM Press, 2004
4	Websites	The Online Writing Labs (OWL) family of websites http://owl.english.purdue.edu/ ; specially, http://owl.english.purdue.edu/workshops/hypertext/ http://www.twin-india.org/ - Twinbook 1.chm and Twinbook2.chm http://techwhirl.com www.tc.eserver.org -The most comprehensive virtual library for technical communicators on the Web. http://mysite.verizon.net/resnx4g7/ http://www.greatuserdocs.com http://www.io.com/~hcexres/textbook/ - Basic online textbook on technical writing. http://en.wikiversity.org/wiki/Technical_writing -Provides a basic online course in technical writing. http://www.indexers.org.uk -Indexing user manuals http://www.g2meyer.com/gallery/ -Collection of screen captures of various online help systems. http://www.itauthor.com
5	Journals	Journal of Technical Writing and Communication Editor: Charles H. Sides

MBA
SYLLABUS: SEMESTER III
OPERATIONS MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Operations Management
Course Code	305OPE	Type	Specialization –Core
Course Title	Planning & Control of Operations		

Course Objectives:

1	To give an overview of Planning & Control of Operations
2	To explain the role of forecasting in the operations planning process.
3	To explain the need for aggregate planning and the steps in aggregate planning.
4	To explain how is capacity planning done in organizations and what is its relationship with MRP.
5	To highlight the importance of scheduling in operations management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Planning & Control of Operations: Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation.	7 + 2
2	Demand Forecasting: Forecasting as a planning tool, Why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system.	7 + 2
3	Aggregate Production Planning: Planning Hierarchies in operations, Aggregate Production planning, Need for Aggregate Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling.	7 + 2
4	Resources Planning: Dependent Demand Attributes, Planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services.	7 + 2
5	Scheduling of Operations: Need for Scheduling, Scheduling – Alternative terms, Loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in Mass production systems.	7 + 2

Learning Resources:		
1	Text Books	Operations Management: Theory and Practice by B Mahadevan, Pearson, 2 nd Edition.
2	Reference Books	Operations Management by Terry Hill, Palgrave, 2 nd Edition The fundamentals of Production Planning and Control by Stephen Chapman, Pearson, 1 st Ed.
3	Supplementary Reading Material	Operations Now by Byron Fitch, TMGH, 3 rd Edition.
4	Websites	www.apics.org
5	Journals	<p>Demand Forecasting and Smoothing Capacity Planning for products with high random demand volatility by Huang, M.-G.; Chang, P.-L.; Chou, Y.-C., International Journal of Production Research, Jun2008, Vol. 46 Issue 12</p> <p>Adaptive Exponential Smoothing versus Conventional Approaches for lumpy Demand Forecasting: case of production planning for a manufacturing line by Quintana, R.; Leung, M. Semester	III	Specialization	Operations Management
Course Code	306OPE	Type	Specialization –Core
Course Title	Inventory Management		

Course Objectives:

1	To give an overview of various aspects of inventory.
2	To explain the impact of types of inventory costs on inventory management decisions.
3	To explain the principles of JIT

Syllabus:

Unit Number	Contents	Number of Sessions
1	Elements of Inventory Management: Inventory concepts, Pressures for Low Inventory, Pressures for High Inventory, Role of inventory in Operations, Types of inventory – seasonal, decoupling, cyclic, pipeline, Safety stock. Inventory costs – carrying costs, ordering costs, shortage costs.	7 + 2
2	Inventory Control systems: Continuous Review (Q) systems, Periodic Review (P) systems, ABC Classification system, Issues in the P and Q systems of inventory control.	7 + 2
3	Economic Order Quantity Models: The Basic EOQ Model, Production Quantity Model, Computer Solution of EOQ model with MS Excel, Quantity Discounts, Computer Solution of Quantity Discounts model with MS Excel, Reorder Point, Safety Stocks, Service Level, Reorder point with variable demand, Computer Solution of Reorder point with MS Excel, Order quantity for periodic inventory system, Order quantity with variable demand, Computer Solution of fixed period model with MS Excel	7 + 2
4	Just-In-Time: Principles of just-in-time, Core logic of JIT, Main features for stocks, Achieving just-in-time operations, Other effects of JIT, Benefits and disadvantages of JIT, Comparison with other methods of inventory management. KANBAN as a control tool. Vendor managed inventory.	7 + 2
5	Make Or Buy Decisions: Factors influencing Make Or Buy Decisions-cost, quality, capacity core v/s noncore, management strategy. Evaluation of performance of Materials function: cost, delivery, quality, inventory turnover ratio methodology of evaluation, Use of ratios and analysis like FSN: Fast slow, Nonmoving, HML-High Medium, Low, XYZ. Materials Management In JIT Environment:	7 + 2

Learning Resources:		
1	Text Books	Operations Management: Theory and Practice by B Mahadevan, Pearson, 2 nd Edition. Operations Management-Process and Value Chains by Krajewski, Ritzman, Malhotra, Pearson, 8 th Edition.
2	Reference Books	Operations Management: Quality and Competitiveness in a Global Environment by Russell and Taylor, Wiley India. Introduction to Materials Management by J.R.Tony and Arnold.
3	Supplementary Reading Material	Inventory Control and Management by Donald Waters, Wiley Student Edition, 2 nd Ed. Just-in-Time Manufacturing by Korgaonker, Macmillan Essentials of Inventory Management by Max Muller, JAICO Publishing, 1 st Edition.
4	Websites	www.inventorymanagementreview.org www.effectiveinventory.com
5	Journals	Material Management Review- Institute of Material Management Production & Inventory Management - APICS

Semester	III	Specialization	Operations Management
Course Code	307OPE	Type	Subject - Elective
Course Title	Productivity Management		

Course Objectives:

1	To understand and appreciate significance of productivity management
2	To study various productivity management methods
3	To learn applicability of popular productivity management tools

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Importance and significance of productivity, Productivity concepts – Macro and Micro factors of productivity, productivity from product and service perspective, different inputs and productivity measures, Various ratios related to finance, material and service.	3+1
2	Value Analysis and Value Engineering: Concept of Cost, Price and Value, Role in Productivity, Procedure – Application and productivity benefit model.	3+1
3	Work Study: Importance of work study – Method Study and Work Measurement – Pioneers of Performance Measurement Method Study: Need for Method Study – Procedure of Method Study –Process Flow charts, Man machine diagrams ,Principles of Motion Economy	6+1
4	Work Measurement: Techniques of Work Measurement including Estimating, Stopwatch Time Study, Predetermined Time Standards, Synthetic Estimates of Work, Times, Activity Sampling. Computation of Standard Time – Elements – Types of Elements – Performance Rating – Allowances – Need for Allowances – Types of Allowances	8+1
5	Advanced Methods of Productivity and service level enhancements: Overview of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing, Use of Technology in productivity and service enhancements: ITeS, CAD, CAM, CIM, CMMI.	5+1

Learning Resources:

1	Text Books	Productivity Measurement for Business Excellence by Prem Vrat, G.D. Sardana, B.S. Sahay, Narosa Publishing House. Operations Management for Competitive Advantage by Richard B Chase, Jacobs, Aquilano, Agarwal, TMGH, 11 th Edition.
2	Reference Books	Introduction to Work Study Edited by Geirge Kanawaty, Universal Publishing, 4th Edition.
3	Supplementary Reading Material	Production and Operations Management by S.N.Chary, TMGH, 4th Edition
4	Websites	www.npcindia.org
5	Journals	International Journal of Operations & Production Management International Journal of Business Performance Management Journal of Applied Economics International Journal of Management Journal of Management Information Systems

Semester	III	Specialization	Operations Management
Course Code	308OPE	Type	Subject - Elective
Course Title	Maintenance Management		

Course Objectives:

1	To understand importance and role of Maintenance Management
2	To acquaint with various alternatives of Maintenance Management
3	To understand use of decision tools for Maintenance Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Need and Importance of Maintenance Management: Maintenance versus Aggregate production planning, Maintenance versus Scheduling, Maintenance versus Quality Control, Equipment Life Cycle, Measures of Maintenance Performance – Mean Time Between Failure (MTBF) and Mean Time to Repair (MTTR) , Availability.	5 + 1
2	Requirements for Effective Maintenance Management: Catalogues of Equipment, Maintenance Policy, Maintenance Manual, Troubleshooting Mechanisms, Fault – tree Analysis, Maintenance Information Systems.	5 + 1
3	Maintenance Alternatives: Routine Inspection, Preventive Maintenance, Predictive Maintenance, Breakdown Maintenance, Planned Shutdowns / Major Overhaul, Equipment Replacement.	5 + 1
4	Decision tools for Maintenance Management: Optimum Preventive maintenance policy, group replacement policy, equipment replacement decision, Spare parts management: Types of spares, Vital Essential and Desirable, Inventory planning for spares.	5 + 1
5	Total Productive Maintenance: TPM Overall equipment effectiveness , TPM Methodology , TPM implementation, Technology in maintenance	5 + 1

Learning Resources:		
1	Text Books	Operations Management : Theory and Practice by Mahadevan, 2 nd Edition, TMGH Operations Management by Norman Gaither & Greg Frazier, Cengage Learning, India Ed.
2	Reference Books	Production & Operations Management by Alan Muhlemann, John Oakland, Keith Lockyer, Macmillan India Ltd.
3	Supplementary Reading Material	Operations Management by Norman Gaither

Semester	III	Specialization	Operations Management
Course Code	309OPE	Type	Subject - Elective
Course Title	Facilities Planning		

Course Objectives:	
1	To emphasize the importance of facilities planning in view of the size of investment.
2	To make the student understand the linkages of facilities planning with other activities
3	To underline the importance of facilities location

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Facilities Planning: Facilities planning defined, Significance of Facilities Planning, Objectives of Facilities Planning, Long Range Capacity Planning, Facilities Planning process, Strategic Facilities Planning, Developing Facilities Planning Strategies, Examples of Inadequate Planning. Impact of Environmental Issues on Facilities Planning.</p> <p>Product, Process and Schedule Design: Introduction, Product Design, Process Design, Schedule Design, Facilities Design.</p>	5 + 1
2	<p>Logistics and Facilities Location: Logistics, Decisions related to Logistics, Issues in Facilities location – Market related factors, Cost-related factors, Regulatory and Policy Issues, Location Planning Methods – Location Factor rating, Centre-of-gravity method, Load-distance method, Transportation Model. Locating Service Facilities, Relocation aspects,</p>	5 + 1
3	<p>Layout Planning: Concept of Layout, Basic Layout Types, Layout Procedures, Algorithmic approach, Department Shapes and Aisles, Multi-floor facility layout, Commercial Facility Layout, Impact of change, Developing alternative layouts. Introduction to ALDEP and CORELAP.</p> <p>Facilities design for various Facilities Functions: Warehouse operations – Functions of Warehouse, Receiving and Shipping Operations, Dock Locations, Storage Operations, Order Picking Operations.</p>	6 + 1
4	<p>Service Facilities Layout: Nature of Services, Operational Classification of services, Structuring the service encounter, Service blueprinting and fail-safing, Role of floor manager in service sectors such as – Hospital, Hotel, Airlines and airports.</p>	4 + 1
5	<p>Flow Space and Activity Relationships: Departmental Planning, Activity Relationships, Flow Patterns, Flow Planning, Measuring Flow, Space Requirements.</p> <p>Personnel Requirements: Employee-Facility Interface, Restrooms, Food Services, Health Services, Barrier-Free Compliance, Office Facility Planning.</p> <p>Material Handling: Scope and Definition of Material Handling, Material Handling Principles, Designing Material Handling Systems, Unit Load design, Material Handling Equipment, Estimating Material Handling costs, Safety Considerations.</p>	5 + 1

Learning Resources:		
1	Text Books	Facilities Planning by Tompkins, White, Bozer and Tanchoco, Wiley India 3 rd Edition. Operations Management – Theory and Practice by B Mahadevan, Pearson, 2 nd Edition.
2	Reference Books	Operations and Supply Management by Chase, Shankar, Jacobs and Aquilano, TMGH, 12 th Edition.
3	Supplementary Reading Material	Operations Management by Terry Hill, Palgrave, 2 nd Edition. Operations Management – Quality and Competitiveness in a Global Environment by Russell and Taylor, Wiley India, 5 th Edition
4	Websites	http://www.youtube.com/watch?v=zkKFf7iLph4 http://www.youtube.com/watch?v=zkKFf7iLph4&feature=results_main&playnext=1&list=PL7768A320362EA93D
5	Journals	Ergo-Centric Facilities, Dohrmann, Mark. Industrial Engineer: IE, Jun2009, Vol. 41 Issue 6 Organization of facilities management in relation to core business, Jensen, Per Anker. Journal of Facilities Management, 2011, Vol. 9 Issue 2 5 facility planning mistakes (and how to avoid them), Weitzner, Wendy M., May2006, Vol. 60 Issue 5 Facilities planning for greener hospitals by Scheeres, D. Junell. Industrial Engineer: IE, Mar2012, Vol. 44 Issue 3 A Conceptual model for barrier free facilities planning, Soares, Marcelo M.; Jacobs, Karen; Bittencourt, R.S.; de M.Guimarães, L.B. Work, 2012, Vol. 41

Semester	III	Specialization	Supply Chain Management
Course Code	310OPE	Type	Subject - Elective
Course Title	Manufacturing Resource Planning		

Course Objectives:

1	To understand role and importance of Manufacturing Resource Planning (MRP II)
2	To know the inputs, processing and outputs of MRP II

Syllabus:

Unit Number	Contents	Number of Sessions
1	Master Production Scheduling (MPS): Introduction to MPS, Need, objectives & functions of MPS, Role of MPS in management- as a “Link between strategic and tactical planning”, Logical flow of materials in different manufacturing scenarios (VAT Analysis), Planning horizons and Time periods (Buckets) of MPS, Order management in MPS, Safety and hedges, Projected Available Balance (PAB) and Available To Promise (ATP), Time Fences & effect of changing MPS decisions on time fences, Final Assembly Schedule (FAS).	5 + 1
2	Material Requirements Planning (MRP-I): Introduction to MRP-I, Roles & functions of MRP-I, Independent & Dependent Demand, Bill of Materials (BOM), Types of BOM, Numerical Problems on BOM, Lot-sizing, MRP-I as Input & Output Process, MRP-I Spreadsheet problem, Pegging reports & where-used files.	5 + 1
3	Capacity Management: Introduction to ‘Capacity’ and ‘Capacity management’, Capacity Expansion Strategies, Capacity Planning levels vis-à-vis Manufacturing planning levels, Capacity measurement, Rough Cut Capacity Planning (RCCP), Capacity Requirement Planning (CRP), Shop Calendar, Scheduling strategies- Backward & Forward scheduling, Infinite & Finite loading, Production smoothing policies.	5 + 1
4	Manufacturing Resource Planning (MRP-II)- (Module-I): Introduction to MRP-II, Roles & functions of MRP-II, MRP-II framework, Information flow in MRP-II, Relation of MRP-II with Demand management and Capacity management, Manufacturing calendar.	5 + 1
5	Manufacturing Resource Planning (MRP-II)- (Module-II): Transition from MRP-I to MRP-II, Closed loop MRP, Comparison between MRP-I and MRP-II, Plant & supplier scheduling, Problems associated with MRP-II, Benefits and prospects of MRP-II, Compatibility between MRP-II & Just-in-Time (JIT).	5 + 1

Learning Resources:		
1	Text Books	Manufacturing Resource Planning (MRP II) with introduction to ERP, SCM and CRM by Khalid Sheikh, TMGH, 1 st Edition Operations Management – Theory & Practice by B. Mahadevan , Pearson Pub., 2 nd Edition
2	Reference Books	Plossl, George, Orlicky's Material Requirement Planning, McGraw-Hill, Inc, 2 nd Edition, 1994
3	Supplementary Reading Material	Operations management by William J, Stevenson, Tata McGraw Hill Companies – 9 th Edition
4	Websites	www.apics.org/
5	Journals	Materials and Capacity Requirements Planning: (APICS) CPIM Certification Review Course, Student Guide by John, Ralph E St., APICS, Revision 3, 1993 Managing in an Age of Modularity by Baldwin, Carliss Y and Kim B Clark, Harvard Business Review, Vol. 75, No. 5, September-October 1997 Assemble to Order Manufacturing: Implications for Materials Management by Wemmerlov, U, Journal of Operations Management, Vol. 4,(4), 1984 Shop floor Control edited by Wassweiler, William R in James H Greene (Editor), Production and Inventory Control Handbook, 3 rd Edition, McGraw-Hill, 1997

Semester	III	Specialization	Operations Management
Course Code	311OPE	Type	Subject - Elective
Course Title	Technology Management		

Course Objectives:	
1	To highlight the role of technology and innovation as drivers of value and competitive advantage.
2	To provide conceptual foundations in managing innovation and technology.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction & Importance of Technology Management: Technology - Definition and Characteristics , Technology trends, Market Based and Resource Based view, Impact of technology on business, Forms of technological change, Concept and significance of management of technology, Technological environment-meaning, importance : recent developments in Technological environment - Globalization, Time Compression, Technology integration, Induced & Autonomous changes in the Technological environment, Competitive advantages through new technologies.	5 + 1
2	Innovation Management: Concept of Innovation; invention and creativity: role and relationship with innovation, Drivers and process of innovation– firm & technology level, Classification of innovation management of innovation. Technology Evolution – S curve of technology evolution, Technology progression, Technology change agents, Evolutionary characteristics of technological change, uncertainty and technological insularity.	5 + 1
3	Technology Sources and Research & Development Management: Sources of technology, Process of new product development; Reasons of failures of hi-tech products: Strategy to avoid product failure in market. Process of bringing hi-tech product from development to market: Managing R& D Organization –issues and recent trends. Linkage between technology, development and competition, Significance of managing Intellectual Property Rights in context of technology management, strategic issues in managing IPR.	5 + 1
4	Technological Forecasting: Meaning of Technology forecasting, uses of Technology forecasting, Technology forecasting techniques : Exploratory and Normative: technique; Process and application of techniques like Delphi, Growth Curves, S- curve, Pearl Curve, Gompertz curve : Relevance Tree, Morphological Analysis, Mission Flow Diagram Technology strategy: concept, key principles, framework for formulating technology strategy, Linkage of technology strategy with business strategy, Issues in technology strategy.	5 + 1
5	Technology and Organizational Issues: Technological change and Industrial Relations, Technology Assessment and Environmental Impact Analysis Integration of People and Technology, Organizational and Psychological Factors, Organizational Structure.	5 + 1

Learning Resources:		
1	Text Books	Strategic Technology Management by Betz. F. , McGraw-Hill Managing Technology and Innovation for Competitive Advantage by V K Narayanan, Pearson Education Asia Management of Technology by Tarek Khalli , McGraw-Hill Strategic Management of Technological Innovation by Schilling , McGraw-Hill, 2 nd Edition
2	Reference Books	Strategic Management of Technology & Innovation by Burgelman, R.A., M.A. Madique and S.C. Wheelwright , Irwin Handbook Of Technology Management by Gaynor, McGraw Hill Managing New Technology Development by Souder, W.C. and C.M. Crawford, McGraw-Hill
3	Supplementary Reading Material	Managing Technological Innovation by Twiss, B., Pitman Bringing New Technology to Market by Kathleen R Allen, Prentice Hall India Management of New Technologies for Global Competitiveness by Christian N Madu, Jaico Publishing House
4	Websites	http://www.tifac.org.in/ http://ec.europa.eu/enterprise/policies/innovation/index_en.htm
5	Journals	The use of Manufacturing Technologies - An External Influence Perspective by Das, Ajay; Nair, Anand., International Journal of Production Research, Sep 2010, Vol. 48 Issue 17 Research on Technical Strategy for New Product Development based on TRIZ Evolution Theory by Fu-ying Zhang; Yan-shen Xu., International Journal of Product Development, 2007, Vol. 4 Issue ½ A Framework for the Assessment of an Organization's Innovation Excellence by Dervitsiotis, Kostas N., Total Quality Management & Business Excellence, Sep 2010, Vol. 21 Issue 9

Semester	III	Specialization	Operations Management
Course Code	312OPE	Type	Subject - Elective
Course Title	Six Sigma		

Course Objectives:	
1	To provide a comprehensive understanding of six sigma
2	To introduce the six sigma methodology and philosophy
3	To learn how to manage change and sustain benefits
4	To learn how to listen and map customer requirements
5	To start executing and delivering project

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Enterprise-wide Deployment</p> <p>1.1 Six Sigma and Lean : Brief history of performance initiatives- Quality Control, TQM, Cost of Quality, Customer quality Management, SPC, Reengineering, Six Sigma, Theory of Constraint, Lean manufacturing.</p> <p>1.2 Business Process Management : Introduction to Six Sigma-As a metric, As a methodology, As a management System. Six sigma Evolution and approach Lean as a Business Management Strategy, Key elements of lean. Types of lean initiatives, Implementing lean initiatives</p>	5 + 1
2	<p>DMAIC model for implementing Six Sigma.</p> <p>2.1 Define: Project Selection, Developing the team, DMAIC & DMADV, Deliverables, Tollgate Questions</p> <p>2.2 Measure: Determining X variables, Cause and Effect Diagram & Matrix, Overview of MSA, Data Collection Plan – Forms, Baselining the y data, DPMO, Capability Indices, COPQ, Yield, Tollgate Questions</p> <p>2.3 Analyze: Tools for identifying Root Causes: Histogram, Boxplot, Scatter Plot, Matrix Plot, DotPlot, Run Chart, Multi-Vari Chart, 5 Why's</p> <p>2.4 Improve: Generating Solutions, Random Simulation, Six Thinking Hats, Mind Mapping, Challenge Assumptions, Decision Making Tools for Selecting Solutions – Pairwise Ranking, Solution Matrix, Force Field Analysis, Costs and Benefits, Pilot Plan, Potential Problem Analysis – Mistake Proofing, Risk Assessment Matrix and Control Assessment Matrix, FMEA, Contingency Plan, Verification Plan, Tollgate Questions</p> <p>2.5 Control: Solution Planning, Process Control Plan, Review Meetings, Updated flowcharts & procedures, Control Charts, Out Of Control Action Plan, Project Conclusion Activities</p>	7 + 1

3	Six Sigma Impact measurement Financial and Performance measurement: Lack of Clear Goals and Metrics linked to Measurable Business Goals, Mismatches between Traditional Accounting and Improvement Campaigns. Metrics That Impact – Revenue Growth, Cost Savings, Productivity Improvement, Reduced Cost of Poor Quality, Cash Flow Improvement, Faster product / service cycle times, Freed up engineering and /or sales / service time, Freed up other indirect time, Cost avoidance savings. Seven Elements of Six Sigma Scorecard	5 + 1
4	Six Sigma in non-manufacturing environments: MSA in the DMAIC Cycle. MSA Psychology. Why Non-Manufacturing Processes are Different, MSA Repeatability & Reproducibility (R&R) Studies. Gauge R & R. Comparison of MSA Acceptance Criteria	5 + 1
5	Projects in Six Sigma-Use of DMAIC Cycle	3 + 1

Learning Resources:		
1	Text Books	The Six Sigma Black Belt Handbook by MacCarty, Daniels, Bremer and Gupta, TMGH, 2010 Edition Juran Institute's Six Sigma Breakthrough and Beyond by De Feo and Barnard, TMGH. What is Six Sigma? by Peter Pande, TMGH Six Sigma Management by Blashka, TMGH All about Six Sigma by Warren Brussee, TMGH.
2	Reference Books	TPS-Lean Six Sigma by Hubert Ramprasad, Sara Books Pvt.Ltd.
3	Supplementary Reading Material	The Certified Six Sigma Black Belt Hand Book, Donald Benbow, Pearson Publication Achieving Business Excellence by Pravin Rajpal, Om Books International, India.
4	Websites	http://asq.org
5	Journals	What , Why and How: The importance of statistical thinking for SixSigma , Krishnamoorth, K. S., Industrial Engineer: IE, Oct 2011, Vol. 43, Issue 10 In pursuit of implementation patterns: the context of Lean and SixSigma, Shah, R.; Chandrasekaran, A.; Linderman, K.. International Journal of Production Research, Dec2008, Vol. 46 Issue 23 Critical analysis of SixSigma implementation , Moosa, Kamran; Sajid, Ali. Total Quality Management & Business Excellence, Jul2010, Vol. 21 Issue 7

Semester	III	Specialization	Operations Management
Course Code	313OPE	Type	Subject - Elective
Course Title	Designing Operations Systems		

Course Objectives:	
1	To give an overview of the various process options in Manufacturing and Services.
2	To give insights into factors that influence process choice.
3	To impart fundamental concepts in Job Design and Work Measurement.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Process Analysis: Process Analysis, Process Flowcharting, Types of Processes, Measuring Process Performance, Examples of Process Analysis, Process Throughput Time Reduction	5 + 1
2	Job Design & Work Measurement: Job Design Decisions, Behavioural Considerations in Job Design – Degree of Labour Specialization, Job Enrichment, Sociotechnical Systems, Work Measurement and Standards – Time Study, Work Sampling, Comparison	5 + 1
3	Designing Manufacturing Processes: Factors involved in making products, Types of Manufacturing processes – Project, Jobbing, Batch, Line & Continuous Processing. Product Categories & Manufacturing Processes- Relationship & Choices. Implications reflected in manufacturing process alternatives. Hybrid Processes – Batch Layout, Cellular Layout	5 + 1
4	Designing Service Processes I: Characteristics of Service Operations, Factors involved in delivering services – Nature of technology / people mix, Nature of service, Complexity of service, Volumes. Overall Design of Service Delivery System. Service Blueprinting and fail-safing. Service Delivery System – detailed design – Phase I: back office or front office, Phase II: The delivery system (Non repeat services, Repeat services, single step or multi step processes).	5 + 1
5	Designing Service Processes II: Three contrasting Service Designs – Production line approach, Self-service approach, Personal attention approach. Managing customer introduced variability, Applying behavioral Science to Service Encounters.	5 + 1

Learning Resources:		
1	Text Books	Operations & Supply Management by Chase, Shankar, Jacobs, TMGH, 12 th Edition. Operations Management – Terry Hill, Palgrave Macmillan, 2 nd Edition.
2	Reference Books	Operations Management by Krajewski, Ritzman, Malhotra, Pearson, 8 th Edition.
3	Supplementary Reading Material	Achieving Business Excellence by Pravin Rajpal, Om Books International, India.
4	Websites	http://www.servicedesigntools.org/tools/35
5	Journals	How important is the batch splitting activity in scheduling of virtual manufacturing cells (VMCs)? by Kesen, Saadettin Erhan; Gungor, Zulal., International Journal of Production Research, Mar2011, Vol. 49 Issue 6 The method in work design. Some recommendations based on experience obtained in job design byde Jong, J. R. International Journal of Production Research, Jan1978, Vol. 16 Issue 1 Service delivery system design: characteristics and contingencies by Ponsignon, F.; Smart, P. A.; Maull, R. S. International Journal of Operations & Production Management, 2011, Vol. 31 Issue 3 Structuring front office and back office work in service delivery systemsby Zomerdijs, Leonieke G.; Vries, Jan de. International Journal of Operations & Production Management, 2007, Vol. 27 Issue 1 Impact of sequence of operations and layout of cells in cellular manufacturing by Logendran, Rasaratnam., International Journal of Production Research, Feb1991, Vol. 29 Issue 2 Customer-Introduced Variability in Service Operations by Frei, Frances X. Harvard Business School Cases, Mar 01, 2006

Semester	III	Specialization	Operations Management
Course Code	314OPE	Type	Subject - Elective
Course Title	Toyota Production System		

Course Objectives:

1	To explain the management principles and business philosophy behind Toyota's worldwide reputation for quality and reliability.
2	To demonstrate how managers in every industry can improve business processes by: Eliminating wasted time and resources Building quality into workplace systems Finding low-cost but reliable alternatives to expensive new technology Turning every employee into a quality control inspector

Syllabus:

Unit Number	Contents	Number of Sessions
1	Operational Excellence as a Strategic Weapon: 4 P model of the Toyota Way. Toyota Production System (TPS) and Lean Production. Development of TPS & One Piece Flow. Waste Elimination. Traditional Process Improvement v/s Lean Improvement. TPS House	5 + 1
2	14 Toyota Way Principles: 1. Base Your Management Decisions on Long Term Philosophy 2. Create Continuous Process Flow 3. Use 'Pull' Systems to avoid Overproduction 4. Level out the Workload (Heijunka)	5 + 1
3	14 Toyota Way Principles: 5. Build a Culture of Stopping the Process to Build in Quality Right the First Time 6. Standardized Tasks for Continuous Improvement and Employee Empowerment 7. Use Visual Control so No Problems are hidden 8. Use only Reliable, Thoroughly Tested Technology	5 + 1
4	14 Toyota Way Principles: 9. Grow Leaders who thoroughly understand the Work 10. Develop Exceptional People and Teams 11. Respect Your Extended Network of Partners and Suppliers	5 + 1
5	14 Toyota Way Principles: 12. Go and See for yourself to thoroughly understand the Situation (Genchi Genbutsu) 13. Consensus based slow decision making but rapid implementation 14. Become a learning organization through relentless reflection (Hansei) and Continuous Improvement (Kaizen)	5 + 1

Learning Resources:		
1	Text Books	The Toyota Way by Jeffrey Liker, Tata McGraw Hill, 2004 Edition.
2	Reference Books	The Machine that Changed the World by Womack, Jones & Roos, Simon and Schuster UK
3	Supplementary Reading Material	The Toyota Way Fieldbook by Jeffrey Liker, David Meier, TMH, 2008 Reprint
4	Websites	http://www.toyotawayacademy.com/index.php
5	Journals	<p>Empowering Kanban through TPS-principles - An empirical analysis of the Toyota Production System by Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre. International Journal of Production Research, Dec2010, Vol. 48 Issue 23</p> <p>The Toyota Production System and Art: Making highly customized and creative products the Toyota way by Lander, E.; Liker, J. K., International Journal of Production Research, Aug2007, Vol. 45 Issue 16</p> <p>The Toyota Way in Services: The Case of Lean Product Development by Liker, Jeffrey K.; Morgan, James M.. Academy of Management Perspectives, May2006, Vol. 20 Issue 2</p> <p>Exploiting the DNA of the Toyota Production System by Towill, D. R., International Journal of Production Research, Aug2007, Vol. 45 Issue 16</p> <p>Handshakes around the world [Toyota production system by Towill, Denis R., Manufacturing Engineer, Feb/Mar2006, Vol. 85 Issue 1</p>

Semester	III	Specialization	Operations
Course Code	315OPE	Type	Subject - Elective
Course Title	Project Management		

Course Objectives:	
1	To provide the students with a holistic, integrative view of Project Management.
2	To highlight the role of projects in modern day business organizations.
3	To sensitize the students to complexities of project management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Overview of Project Management</p> <p>Basics of Project Management: Concept of Project, Attributes of a Project, Importance of Project Management, Project Management Process, Project Lifecycle, Project Stakeholders, Project Management Structures, Choosing Appropriate Project Management Structure, Implications of Organizational Culture, Main Causes of Project Failure.</p> <p>Project Definition: Defining Scope, Establishing Priorities, Creating the Work Breakdown Structure (WBS), integrating the WBS with the organization, Coding the WBS for information system, Project Roll Up, Process Breakdown Structure, Responsibility Matrices.</p>	5 + 1
2	<p>Project Planning</p> <p>Estimating Project Times and Costs: Factors Influencing Quality of Estimates, Estimation Guidelines for Time, Costs and resources, Macro versus Micro Estimating, Methods for Estimating Project Times and Costs, Level of detail, Developing Budgets, Types of Costs, Refining estimates and contingency funds.</p> <p>Developing a Project Plan: Developing the Project Network, From Work Package to Network, Constructing a Project Network, Activity-on-Node Fundamentals, Network Computation process, Using the Forward and Backward pass information, Level of Detail for activities, Extended Network techniques.</p>	5 + 1
3	<p>Project Scheduling & Risk Management</p> <p>Scheduling Resources and Reducing Project Duration: Types of Project Constraints, Classification of Scheduling Problem, Resource Allocation Methods, Splitting, Multitasking, Benefits of scheduling resources, Assigning Project work, Multi Project resource Schedules, Rationale for reducing project duration, Options for accelerating Project Completion, Concept and construction of a Project Cost – Duration Graph, Practical considerations.</p> <p>Managing Risk: Risk Management process – Risk Identification, Risk Assessment, Risk Response Development, Contingency Planning, Risk Response Control, Change Control Management.</p>	5 + 1

4	<p>Project Organization:</p> <p>The Project Manager: Role and Responsibilities of the project Manager, Planning, Organizing, Controlling, Skills of the Project Manager – Leadership Abilities, Coaching & mentoring Abilities, Communication Skills, Interpersonal Skills, Ability to Handle Stress, Problem Solving Skills, Time Management Skills, Delegation, Management of Change.</p> <p>Managing Project Teams: The five stage team development model, Situational factors affecting team development, Team effectiveness, Conflict in projects, Sources of Conflict, Handling Conflict. Managing Virtual Project teams, Project team pitfalls.</p>	5 + 1
5	<p>Project Evaluation</p> <p>Progress and Performance Management and Evaluation: Structure of a Project Monitoring Information System, Project Control Process, Monitoring Time Performance, Need for an Integrated Information System, Developing a status report and index to monitor progress, Forecasting final project cost, Other control issues.</p> <p>Project Audit and Closure: Project Audit, Project Audit Process, Project Closure, Team, Team member and Project Manager Evaluations.</p>	5 + 1

Learning Resources:		
1	Text Books	Project Management – The Managerial Process, Clifford Gray and Erik Larson, TMGH, 3 rd Edition. Effective Project Management, Clements and Gido, Thomson – India Edition, 1 st Indian Reprint.
2	Reference Books	The Practice of Project Management – A guide to business focused approach, Frigenti and Comminos, Kogan Page, 1 st South Asian Edition
3	Supplementary Reading Material	Project Management by Mantel, Meredith, Shafer, Sutton and Gopalan, Wiley India, 1 st Edition.
4	Websites	http://www.pmi.org.in/ http://www.infogoal.com/pmc/pmchome.htm
5	Journals	Journal of Project Management-Global Research Publication International Journal of Project Management-Elsevier Science

Semester	III	Specialization	Operations Management
Course Code	316OPE	Type	Subject - Elective
Course Title	Theory of Constraints		

Course Objectives:

1	To imbibe in the students the TOC thinking process.
2	To provide insights into managing a business when there are constraints and resolving those by logical thinking.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Thinking Process: Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method.	5 + 1
2	2.1 Finance and Measures: Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. 2.2 Project Management: Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach.	5 + 1
3	Drum-Buffer-Rope Solution: Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method.	5 + 1
4	Theory of Constraints in Supply Chain Management: Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution	5 + 1
5	Cases: Cases in application of TOC thinking process, TOC in Manufacturing,	5 + 1

Learning Resources:

1	Text Books	Theory of Constraints by S K Mukhopadhyay, Jaico Books. The Goal by E M Goldratt and Cox J, Great Barrington, North River
2	Reference Books	What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River It's Not Luck by E M Goldratt, Great Barrington, North River
3	Supplementary Reading Material	Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River Critical Chain by E M Goldratt, Great Barrington, North River
4	Websites	http://www.goldratt.com/ http://www.scienceofbusiness.com/home/what-is-theory-of-constraints-toc/ http://www.tocico.org/

5	Journals	<p>A Tutorial on Project Management from a Theory of Constraints Perspective by Blackstone, John H.; Cox, James F.; Schleier, John G., International Journal of Production Research, Dec2009, Vol. 47 Issue 24</p> <p>Theory of Constraints at Uni Co: Analyzing The Goal as a fictional case study by Tibben-Lembke, Ronald S., International Journal of Production Research, Apr2009, Vol. 47 Issue 7</p> <p>Implementing Theory of Constraints in a traditional Japanese Manufacturing Environment: The case of Hitachi Tool Engineering by Umble, M.; Murakami, S., International Journal of Production Research, 5/15/2006, Vol. 44 Issue 10</p> <p>Determination of buffer sizes for drum-buffer-rope (DBR)-controlled production systems by Ye, T.; Han, W., International Journal of Production Research, May2008, Vol. 46 Issue 10</p> <p>Modified drum-buffer-rope scheduling mechanism for a non-identical parallel machine flow shop with processing-time variation by Sirikrai, V.; Yenradee, P., International Journal of Production Research, 9/1/2006, Vol. 44 Issue 17</p> <p>Comparisons between drum-buffer-rope and Material Requirements Planning: a case study by Steele, Daniel C.; Philipoom, Patrick R.; Malhotra, Manoj K.; Fry, Timothy D., International Journal of Production Research, 8/1/2005, Vol. 43 Issue 15</p> <p>Order review/release and lot splitting in drum-buffer-rope by Russell, G. R.; Fry, T. D., International Journal of Production Research, Mar 1997, Vol. 35 Issue 3</p> <p>Scheduling using drum-buffer-rope in a remanufacturing environment by Guide, V.D.R., International Journal of Production Research, Apr96, Vol. 34 Issue 4</p> <p>Using Drum-Buffer-Rope Scheduling Rather Than Just-In-Time Production by Huff, Patricia. **MBA SYLLABUS: SEMESTER III
HUMAN RESOURCE MANAGEMENT - SPECIALIZATION**

Semester	III	Specialization	HRM
Course Code	305HR	Type	Specialization - Core
Course Title	Labour Laws		

Course Objectives:

1	To make the students understand rationale behind labour laws
2	To equip students with important provisions of various labour laws
3	To give students insight into the implementation of labour laws.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Labour Laws: Why Labour Laws? Evolution of Labour Laws, Indian Perspective, Labour Laws and changing scenario, need for change in labour laws, Implementation of labour laws, Problems and challenges, ILO and its role.	3 + 1
2	The Payment of Wages Act 1936: Sections # 1 to 26, 12A, 13A, 14A, 15A, 17A, 17B, 22A, 25A, The Minimum Wages Act 1948, Sections # 1, 2, 11 to 18, 20, The Payment of Bonus Act 1965: Sections # 2, 4 to 17, 19, 20, 21, 22, 26, 28, 29, 30, 32	8 + 2
3	The Factories Act 1948: Sections #1, 3, 5, 6, 7, 10, 15 to 20, 23, 31, 40, 40A, 40B, 41, 42, 44, 45, 46, 47, 48, 49. All provisions under Chapter VI, VII, VIII	11 + 3
4	The Employee Provident Fund and Miscellaneous Provisions Act 195 : Sections# 2, 5, 6, 7, 8, 11, 12, 14, 15, 16, 17, 18, 20 The Payment of Gratuity Act 1972: Sections# 2, 4, 6, 7, 8, 10, 11, 12, 14, 15, 16, 17, 18, 20	8 + 2
5	The Employee State Insurance Act 1948: Sections # 2 and All provisions in Chapter IV, V, VIII The Workmen's Compensation Act 1923: Sections# 2 to 14, 16, 22	5 + 2

Learning Resources:

1	Text Books	Labour Law by S.P.Jain Labour Law by Malik
2	Reference Books	Introduction to Labour & Industrial Laws, Avatar Singh, LexisNexis Labour & Industrial Laws by S.N.Mishra, Central law publication Elements of Mercantile Law by N.D.Kapoor, Sultan Chand Bare Acts
3	Supplementary Reading Material	APS Labor Digest
4	Websites	www.india-laws.com www.lawinfo.com www.lawsinindia.com
5	Journals	Management & Labour Studies International Labour Review

Semester	III	Specialization	HRM
Course Code	306HR	Type	Specialization - Core
Course Title	Performance Management		

Course Objectives:

1	To orient the students with the concepts related to performance appraisal.
2	To facilitate learning related to performance management for employees

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Performance Management System: Definition, concerns and scope - Historical developments in Performance Management - Performance appraisal Vs. performance management - performance management Vs. Human resource management - processes for managing performance - Essence and Implications of Performance Management-critical appraisal	3 + 1
2	Performance Management Process: Performance planning Setting objectives - Organizational and individual performance plans - Components of Manager's performance and development plan - setting mutual expectations and performance criteria. Performance Managing, Objectives of performance managing, Process of performance Managing, Importance of performance managing. Performance Appraisal, Objectives of performance Appraisal, Process of performance appraisal, Types of Performance appraisal, Achieving effective Performance appraisal. Monitoring and Mentoring, Introduction - Supervision - Objectives and Principles of Monitoring - monitoring process - periodic reviews - problem solving - engendering trust - role efficacy.	8 + 2
3	Implementing Performance Management: Strategies for effective implementation of performance management-Top Management agreement commitment and leadership, Building Performance oriented Work culture. Factors affecting effective use of performance management-Corporate culture, alignment, Review and update	11 + 3
4	Reward for Performance: Reward System, Components of Reward System, Objective of Reward System, Linkage of performance management to reward and compensation System Performance Management Pitfalls and Remedies, Recognizing the problems and Pitfalls, Limitations, Shortcoming or efficiencies of performance appraisal, Guideline for performance appraisal and good practices	8 + 2
5	Ethics in Performance Management: Ethical Performance Management Defined, Objectives and Significance of Ethics in performance Management, Ethical issues and dilemmas in Performance Management, Ethical Strategies in Performance management, Performance Management in Multinational Corporations	5 + 2

Learning Resources:		
1	Text Book	Performance Management: The New Realities by Michael Armstrong & Angela Baron, Jaico Publishing House, New Delhi, 2002 Appraising and Developing Managerial Performance by TV Rao Learning Systems Pvt. Limited, Excel Books, 2003
2	Reference Books	Corporate Performance Management by David Wade and Ronad Recardo, Butter Heinemann, New Delhi, 2002. Performance Management by A.S. Kolhi & T. Deb, Performance Management Systems by A.M. Sharma
3	Supplementary Reading Material	Compensation Management in a Knowledge Based World by Henderson , Pearson Education, 9 th Edition
4	Websites	http://shrmindia.org http://humanresources.about.com/od/performancemanagement
5	Journals	International Journal of Business Performance Management International Journal of Human Resource Management Human Resource Management Journal Human Resource Management

Semester	III	Specialization	HRM
Course Code	307HR	Type	Subject - Elective
Course Title	Employee Health & Safety		

Course Objectives:	
1	To learn the basic concepts of safety management
2	To study the various provisions of employee health and safety.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Health and Safety Organization and Administration : Safety Organization, Safety Planning, Safety policies, Safety officer, Fire hazards, Fire inspection, Safety inspection, Plant inspection list, Record keeping	8 + 1
2	Occupational and Work Related Health and Safety: Occupational health , Occupational Safety , Occupational Disease, Fire Basic Chemistry/Mechanism , Reasons, Prevention and Types of Fire, Extinction of Fire, Loss Prevention, Association- Objective Formation, Scope and Significance	5 + 1
3	Accident compensation statutes: Section I: The Dangerous Machines Act 1983 (Entire Act), The fatal accident Act 1855 (Entire Act), Workmen Compensation Act 1928(Health and Safety Related Sections), The Mine Act 1952(Section 19 to 22) Section II: The Employers liability Act 1938(Entire Act), Public Liability Insurance Act 1991(Entire Act), The Employees State Insurance Act 1948(Health and Safety Related Sections), Factories Act 1948 (Section 11 to Section 40), Maharashtra Factories Rule 1963(Health and Safety Related Sections), Maharashtra Safety Officers Rule 1982(Health and Safety Related Sections)	6 + 2
4	Environmental Pollution and Protection: Air pollution, Water pollution, Soil pollution, Noise pollution, The Air Prevention and Control Act 1981, The Water Prevention and Control Act 1974 , The Environment Protection Act 1986: Definitions, General powers of the central Government: Power of Central Government to take measures to protect and improve environment, appointment of officers and their powers and functions, rules to regulate environmental pollution.	3 + 1
5	Field Visit: It is expected that students should visit an organization. The students are expected to prepare reports of accidents.	3

Learning Resources:		
1	Text Books	Industrial health and Safety Management by A.M. Sarma
2	Reference Books	T Safety Management: John V. Grimaldi, Rollin H. Simonds Industrial Safety Management by L.M. Deshmukh
3	Supplementary Reading Material	BARE Acts APS Labour Digest
4	Websites	www.lawsinindia.com www.lawforyou.com
5	Journals	Management & Labour Studies International Labour Review

Semester	III	Specialization	HRM
Course Code	308HR	Type	Subject - Elective
Course Title	Employee Welfare		

Course Objectives:	
1	To equip students with welfare concepts & practices
2	To study statutory & non statutory welfare facilities
3	To acquaint students with role of various agencies

Syllabus:

Unit Number	Contents	Number of Sessions
1	Labour Welfare : Introduction & Origin, Welfare from Indian prospective, Objectives, principals, approaches, classification of welfare	4 + 1
2	Labour Welfare Officer: Need, role, functions, duties, Qualification, disqualification, Duties under Maharashtra Welfare officers Rules 1966.	5 + 1
3	Statutory & Non Statutory welfare facilities : Study of all statutory & Non statutory welfare facilities	5 + 1
4	Role of various agencies in Labour Welfare Employer: Employer, Government, Trade Unions, NGO	4 + 1
5	Field Study/ Desk Research: Student along with faculty are expected to study employee welfare facilities practiced by the organizations in the area & prepare a report	7 + 1

Learning Resources:		
1	Text Books	Aspects of Labour Welfare & Social Security by A.M. Sharma
2	Reference Books	Labour Welfare, Trade Unionism by S.D. Punekar Labour Problems & Social Welfare by R.C. Tyagi
3	Supplementary Reading Material	APS Labour Digest
4	Websites	www.articlesbase.com http://industrialrelations.naukrihub.com/employee-welfare.html
5	Journals	Management & Labour Studies International Journal of Human Resource Management Human Resource Management Journal

Semester	III	Specialization	HRM
Course Code	309HR	Type	Subject - Elective
Course Title	HR Audit		

Course Objectives:

1	To provide a balanced and comprehensive exposition of the concept of HRD Audit
2	To learn the tools and techniques required for its implementation
3	To provide a balanced and comprehensive exposition of the concept of HRD Audit

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction : Origins of HR Audit, HRD Audit Basic Concepts and Components, Elements of Good HRD	5 + 1
2	HRD and HR Audit : HRD Strategies, HRD Structure, HRD Systems , HRD Competencies	5 + 1
3	HRD Audit Methodology : HRD Audit Methodology –Interview- Individual, Group, HRD Audit Methodology-Observation-Physical facilities, Meetings, Discussions, and Transaction , Celebration and Events, HRD Score Card: Designing and Using HRD Audit for Business Improvement	7 + 2
4	Effectiveness of HRD Audit as an Intervention : Objective, Variables Used, Instruments Used, Tools of Data Collection, Major Findings and Conclusion	8 + 1

Learning Resources:

1	Text Books	HRD Audit – Evaluating the Human Resource Functions for Business Improvement by T.V. Rao, Response Books
2	Reference Books	Human Resource Management by Gary Dessler, Pearson Publications
3	Supplementary Reading Material	---
4	Websites	http://www.expressindia.com/fe/daily/19980719/20055424.html http://strengthbasedstrategies.com/PAPERS/24%20TVRaoFormatted.pdf

Semester	III	Specialization	HRM
Course Code	310HR	Type	Subject - Elective
Course Title	Human Resource Information System		

Course Objectives:

1	To learn fundamental principles of HRIS
2	Developing specific HRIS skills competencies needed by professionals

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction To Human Resource Management And Human Resource Information Systems: Evolution of Human Resource Management and Human Resource Information Systems: The Role of Information Technology, Database Concepts and Applications in Human Resource Information Systems, Systems Considerations in the Design of an HRIS: Planning for Implementation	5 + 1
2	Determining Human Resource Information System's Needs: Human Resource Information Systems Needs Analysis, System Design and Acquisition, HR Metrics and Workforce Analytics, Cost Justifying Human Resource Information Systems Investment	5 + 1
3	Resource Information Systems Implementation And Acceptance: Human Resource Information Systems Project Management, Change Management: Implementation, Integration and Maintenance of the Human Resource Information Systems	3 + 1
4	Human Resource Information Systems Applications: Human Resource Administration and Human Resource Information Systems, Talent Management 1: Job Analysis and Human Resource Planning, Recruitment and Selection in an Internet Context, Training and Development: Issues and Human Resource Information Systems Applications, Performance Management, Compensation, Benefits, Payroll and the Human Resource Information Systems, International Human Resource Management	7 + 1
5	Special Topics In Human Resource Information Systems: Information Security and Privacy in Human Resource Information Systems, The Future of Human Resource Information Systems: Emerging Trends in Human Resource Management and Information Technology	5 + 1

Learning Resources:

1	Text Books	Human Resource Information Systems- Basics, Application, Future and Direction by Dr. Michael Kavanagh and Dr. Mohan Thite
2	Reference Books	Human Resource Information System by P.K.Gupta and Sushil Chaabra
3	Supplementary Reading Material	Human Resource Management by Gary Dessler, Pearson Publication

5	Journals	International Journal of Human Resource Management Human Resource Management Journal Human Resource Management

Semester	III	Specialization	HRM
Course Code	311HR	Type	Subject - Elective
Course Title	Outsourcing of HR		

Course Objectives:

1	To learn the basic concepts of outsourcing
2	To enable the students to understand each stage of out sourcing process

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: What is Outsourcing? Factors Driving the Need to Outsource, Types of Outsourcing, Skills Needed to Manage Outsourcing Efforts, The Outsourcing Lifecycle, Stages of Outsourcing	7 + 1
2	Outsourcing Strategies: Four Elements of Strategic Assessment , Business Value Assessment, Risk Assessment	2 + 1
3	Defining Needs and Vendor Assessment : In-depth Look at Operational Assessment, Defining Needs, Conclusion in Checklist, Types of Vendors, The Process of Vendor Assessment, Common Errors while Choosing Vendors	5 + 1
4	Negotiation and Contract Management : Negotiation management, Contract Management, Project Initiation and Transition, Key Considerations	4 + 1
5	Managing Relationships and Repeating the Processes: Work Administration, Communication Management, Knowledge Management, Personnel Management and Financial Management, The Argument for Continuing the Exit Strategy, Outsourcing Management Maturity Model (OMMM), Relationship Management Office	7 + 1

Learning Resources:

1	Text Books	The outsourcing Handbook: How to implement a Successful Outsourcing Process by Mark J. Power, Kevin c. Desouza, carlo Bonifazi
2	Reference Books	Human Resource Outsourcing- An Introduction by V.R. P. Kashyap, E. Mrudula, ICAFAI University Press
3	Supplementary Reading Material	Human Resources Outsourcing: Solutions, Suppliers, Key Processes and the Current Market : a Case-study-based Market Review by Ian Hunter, Jane Saunders, Gower Publishing, Ltd., 2007
4	Websites	http://www.induction.to/outsourcing/ http://www.strategic-human-resource.com

Semester	III	Specialization	HRM
Course Code	312HR	Type	Subject - Elective
Course Title	Public Relations & Corporate Communications		

Course Objectives:

1	To make students understand importance of effective communication in HR
2	To equip students with PR initiatives by the HR professional

Syllabus:

Unit Number	Contents	Number of Sessions
1	Public Relations & Corporate Communication : Introduction to corporate communication, Public relations writing-writing to inform, writing to persuade, Design & lay out, Online public relations	4 + 1
2	Media Relations : Building maintaining relationship with credibility with media, Developing methodologies for successful practice of media relations	5 + 1
3	Public Relations : Concept, theory, history & practice of public relations, Importance of PR for HR professionals, PR campaign & strategies for PR, Evaluating PR activities	5 + 1
4	Communication Management : Presentation skills, Developing strategic communication plan, Synthesizing internal & external initiatives, Event Management	4 + 1
5	Field Study/ Desk Research : Student along with faculty are expected to study PR activities and communication strategies designed & practiced by the organizations in the area & prepare a report.	7 + 1

Learning Resources:

1	Text Books	Public Relations by Phillip Henslowe, Chartered Institute of PR, 2 nd Edition,
2	Reference Books	Public Affairs in Practice by Stuart Thomson & Stevee John, Chartered Institute of PR, 1 st edition
3	Supplementary Reading Material	Develop your PR Skills by Neil Richardson & Lucy Laville, The Sunday Times, Creativity in PR by Andy Green, Chartered Institute of PR, 3 rd edition, Running a PR Department by Mike Beard, Chartered Institute of PR, 2 nd Edition
4	Websites	http://www.public-relations-india.blogspot.in/
5	Journals	International Journal of Human Resource Management Human Resource Management Journal Human Resource Management

Semester	III	Specialization	HRM
Course Code	313HR	Type	Subject - Elective
Course Title	Quality Management System		

Course Objectives:

1	To create an awareness of fundamental principles, significance and implementation of quality management
2	To use new concepts of TQM in the process of continuous improvement and learning

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: History of Total quality management, Principles of TQM, Features of TQM, Tool and techniques of TQM, TQM implementation, Barriers to TQM implementation	5 + 1
2	Components of TQM: Customer supplies relationship, Management leaders and leadership in TQM system, Values vision mission and goals in TQM, Cultural change for TQM, Continuous improvement and learning in TQM, Creativity and innovation, Communication.	7 + 1
3	Quality Certification: Evolution of ISO 9000 standard, Principles and objectives of ISO 9000 standard, Procedure for registration and certification of ISO 9000 Standards, ISO 9000 standard versus QS 9000	5 + 1
4	5S for Quality Ambience: Definition of 5S, Implementation of 5S	3 + 1
5	Tools for Continuous Improvements: PDCA process, Just in Time, Poka Yoke, Kaizen, Six Sigma.	5 + 1

Learning Resources:

1	Text Books	Total Quality Management Principles and Practices by S.K Mandal
2	Reference Books	Total Quality Management by N. Srinivasa Gupta, B. Valarmathi Total Quality Management by I. Suganthu, Anand Samuel
3	Supplementary Reading Material	Quality control & Total Quality Management by P.L. Jain, TMGH An Executive Handbook- World Class Quality by Suresh Lulla, TMGH
4	Websites	http://www.iso.org/iso/qmp http://www.stqc.gov.in/content/quality-management-system-qms

Semester	III	Specialization	HRM
Course Code	314HR	Type	Subject - Elective
Course Title	Lab in Recruitment and Selection		

Course Objectives:

1	To give hands on experience to students on Recruitment advertisements, profiling techniques
2	To acquaint students with different interviewing methods

Syllabus:

Unit Number	Contents	Number of Sessions
1	Comparative study of 10 recruitment advertisements (5 from Newspaper & 5 from job portals) & analysis of the same in the light of : Job Specification/ description, Mode of selection, Other details - Documentation for Recruitment	10
2	Profiling Techniques : Personality, Aptitude, Competency	10
3	Interviewing : Study of Interview modes, List of questions for interviewers, Personal, Telephonic	10

Learning Resources:

1	Text Books	Human Resource and Personnel Management by K Aswathappa, Publisher, TMGH
2	Reference Books	Effective Recruitment and Selection Practices by Alan Nankervis, Robert Compton, Bill Morrissey, 5 th Edition. Recruitment and Selection (Developing Practice), Chartered Institute of Personnel and Development
3	Supplementary Reading Material	Successful Interviewing and Recruitment by Rob Yeung, Kogan Page Publishers, 2008
4	Websites	www.articlebase.com
5	Journals	International Journal of Human Resource Management Human Resource Management Journal Human Resource Management

Semester	III	Specialization	HRM
Course Code	315HR	Type	Subject - Elective
Course Title	Lab in Job Design & Analysis		

Course Objectives:

1	To give hands of experience to the students of designing jobs at various levels
---	---

Syllabus:

Unit Number	Contents	Number of Sessions
1	Faculty is expected to divide students in group of 5 students each & brief them about the process of Job design & Analysis	5
2	Each group assigned to design jobs at following levels from manufacturing/ service sector: Lower Level- 2 jobs , Middle Level- 2 jobs, Top level- 2 jobs	15
3	Presentation by the student & submission of assignment to the concern faculty	10

Learning Resources:

1	Text Books	Job Analysis: Methods, Research, and Applications for Human Resource Management in the New Millennium by Michael T. Brannick
2	Reference Books	Human Resource Management by Gary Dessler
3	Supplementary Reading Material	Human Resource Management by K. Ashwathappa, TMGH
4	Websites	http://www.job-analysis.net/018.htm http://toolkit.ahpnet.com/Building-a-Recruitment-and-Retention-Plan/Step-3-Analyze-the-Selected-Job-Position http://www.icmrindia.org/courseware/Intro%20to%20Hrm/hrm-DS5.htm

Semester	III	Specialization	HRM
Course Code	316HR	Type	Subject - Elective
Course Title	Lab in Training		

Course Objectives:	
1	To make students understand training need analysis
2	To help students design Training Programmes
3	To make students understand & design training methods

Syllabus:

Unit Number	Contents	Number of Sessions
1	Students are divided in group of 5 students each. Faculty along with students identify 6 cadres at different levels & prepare Training Need Analysis	10
2	After this design training programme with reference to TNA	10
3	Design Training methods for the Training programme designed.	10

Learning Resources:		
1	Text Books	The ASTD Training and Development Handbook: A Guide to Human Resource Development by Robert Craig, McGraw-Hill.
2	Reference Books	Creative Training Techniques Handbook by Robert W. Pike, CSP
3	Supplementary Reading Material	Training & Development by Dr. B. Janakiraman, Dreamtech Press, Indian Text Edition, 2007.

5	Journals	International Journal of Human Resource Management Human Resource Management Journal Human Resource Management Advances in Developing Human Resources

Semester	III	Specialization	HRM
Course Code	317HR	Type	Subject - Elective
Course Title	Lab in Labor Laws - I		

Course Objectives:

1	To give students insight into the implementation of labour laws
2	To acquaint students with calculation of due/ compensations/ contributions etc.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Calculations of: Bonus, Gratuity, Compensations under W.C. Act, Provident Fund, ESI contributions, Accident Report Writing	10
2	Inviting industry experts to understand calculations of the above in their respective organizations.	10
3	Students to be given assignments either realistic or hypothetical to calculate above	10

Learning Resources:

1	Text Books	Labour Law by S.P. Jain Labour Law by Malik
2	Reference Books	Introduction to Labour & Industrial Laws by Avatar Singh Labour & Industrial Laws by S.N.Mishra, Central law Publication Labour Laws by S.D. Geet, Nirali Prakashan Elements of Mercantile Law by N.D.Kapoor, Sultan Chand Bare Acts

Semester	III	Specialization	International Business Management
Course Code	316IB	Type	Subject - Elective
Course Title	International Relations & Management		

Course Objectives:

1	To equip the students with an understanding of the multifaceted phenomenon called international relations
2	To help students understand as to how exactly does the existing international environment affect the decision menu? How does it affect what is possible and probable in state behaviour and what are its effects on business?
3	To expose students to these issues focused on India to discern their effect on the management of business.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Historical Context: The Historical Context of International Relations - The Pre-Westphalian World, The Westphalian System, World Wars I & II & the Cold War. Role of the US - The New World Disorder & the Emerging New World Order. The European Union: Role in Global Security & Business.	5 + 1
2	New World Order : New World Order. The Shift of Balance of Power to Asia, Strategic Alignments in Asia: Convergence of Democracy and Emergence of the Asian bloc, Role of Australia, Resurgent Japan.	5 + 1
3	Indian Perspective - I: India's Security in its Areas of Strategic Interest, The Rise of China & its Implications for Asia, The Taiwan Issue, The Myth of China's Miracle, The Bamboo Network, The Great Game in the Stans of Central Asia. India's Look East Policy: Relations with SE Asia.	5 + 1
4	Indian Perspective - II: The Indian Ocean & India's Maritime Strategy, Pakistan: Future Portents; Democracy & Role of the Military, Terrorism: An International & National Scourge, Future of Afghanistan: Chaos or Stability? Disaster Management & Business.	5 + 1
5	Indian Perspective - III: India's Interaction in Africa: Exploiting an Untapped Market & Seeking Resources, India & West Asia: Transfer of Wealth & the Politics of Oil, Energy Security: Oil, Gas & the Nuclear Deal, Iran & Central Asia- Energy & Allies, Iran as a Nuclear State.	5 + 1

Learning Resources:		
1	Text Books	<p>International Business, Justin Paul, Prentice Hall of India Private Limited, New Delhi, 4th Ed. 2008.</p> <p>International Business, Oded Shenkar and Yadong Luo, John Wiley & Sons Inc., New Delhi, 2004.</p> <p>International Business, S Shajahan, Macmillan India Limited, Delhi, 2006.</p> <p>International Business: An Introduction, Geert Hofstede, Palgrave, New York, 2001.</p> <p>Elements of International Business, S. 5	Journals	<p>Indian Journal of International Business and Finances</p> <p>Asian Journal of Management Cases</p> <p>Global Journal of International Business Research</p> <p>Harvard Business Review</p> <p>International Business and Management</p> <p>Journal of International Business</p> <p>Journal of International Business and Economy</p>

Semester	III	Specialization	International Business Management
Course Code	317IB	Type	Subject - Elective
Course Title	Foreign Language for International Business – I		

Course Objectives:

1	To equip the students with a foreign language skill at least to that extent that is required for conducting international business.
2	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
3	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Socializing: Wishing, thanking and congratulating somebody and to take leave, Talking about his work, his experiences and his professional plans, Introducing his colleagues and the people with whom he is collaborating.	5 + 1
2	Telephonic conversation: Receiving or send simple telephonic message, Identifying the person on phone and his/her request, Spelling, repeating, reformulating, concluding, taking leave.	5 + 1
3	Writing - I: Reading simple and commonly used documents in professional and day-to-day life. Filling up forms in professional or day to day life situation. Taking down notes.	5 + 1
4	Writing - II: Writing (from indications given) about messages, telegram, notes, as well as informal and formal specifically formatted letters, such as business letters.	5 + 1
5	Career related Communication: Organizing the time table. Reading writing and understanding classified ads, a curriculum vitae, and application for a post so that the student can look for a job or a training programme. Interviewing another person and handle a job interview.	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

MBA SYLLABUS: SEMESTER III
SUPPLY CHAIN MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Supply Chain Management
Course Code	305SCM	Type	Subject Core
Course Title	Essentials of Supply Chain Management		

Course Objectives:

1	To make students understand how supply chain impacts all areas of the firm
2	To introduce the basic concepts of supply chain management
3	To provide insights into supply chain's linkages with customer value

Syllabus:

Unit Number	Contents	Number of Sessions
1	21st Century Supply Chains: Concept & definitions of Supply Chain (SC), Physical distribution, Logistics & Supply Chains, Generalized SC Model, Concept of SCM, Role of SC as a value driver: Integrative Management, Responsiveness, Financial Sophistication	6 + 1
2	Supply Chain Structure: Shift from enterprise to network, Structure of a SC, Push based SC, Pull based SC, Tradeoff between Push & Pull, Identifying appropriate Push & Pull Strategy for SC, Commodity & cost centric SC, Agile SC	7 + 2
3	Total SCM: Changing business landscape – driving forces: Shift from Operations to Services, Impact of globalization & technological revolution, Shift from linear SC to collaborative networks, power shifts in the SC- demands for flexibility of partnerships, core competencies, growth in outsourcing, Increased complexity of processes	7 + 2
4	SCM Building Blocks: Overview of customer focus & demand, resources & capacity management, procurement & supplier focus, inventory management, operations management, distribution management in SCM	7 + 2
5	Customer Value: Empowered consumer, Customer focused Marketing & SC service outputs, customer service – availability, operational performance, reliability. Customer satisfaction – customer expectations, enhancing customer satisfactions, limitations of customer satisfaction. Customer success – achieving customer success, value added services, customer value requirement mapping, CRM	8 + 3

Learning Resources:		
1	Text Books	<p>Supply Chain & Logistics Management by Bowersox, Closs & Cooper, TMGH, 2nd Edition.</p> <p>Designing & Managing the SC – Concepts, Strategies & Case studies by Levi, Kaminsky et. al., TMGH, 3rd Edition.</p> <p>Supply Chain Management: Strategy Planning & Operations by Sunil Chopra, Peter Meindl, Pearson, 1st Edition.</p> <p>Supply Chain Management Process, System & Practice by N. Chadraseskaran, Oxford, 1st Edition</p> <p>Total Supply Chain Management by Basu & Wright, Elsevier, 1st Edition.</p>
2	Reference Books	<p>Logistics Management & Strategy by Harrison and van Hoek, Prentice Hall, 2005.</p> <p>Supply Chain Management by Mentzer, Response Books, 2007</p> <p>Logistics Management : The Supply Chain Imperative by Vindo Sople, Pearson Education, 2007</p>
3	Supplementary Reading Material	<p>Competitive Advantage, Michael Porter, Free Press, 1985</p> <p>Latest Economic Survey of India – Chapter on Infrastructure and Communications.</p> <p>New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007</p>
4	Websites	<p>http://csmp.org/</p> <p>www.supplychain.org</p>
5	Journals	<p>Logistics And Supply Chain Practices In India by Srivastava, Samir K., Vision , Jul-Sep2006, Vol. 10 Issue 3</p> <p>What Is the Right Supply Chain for Your Product? by Fisher, Marshall L., Harvard Business Review, Mar/Apr97, Vol. 75 Issue 2</p> <p>Supply Chain Management: More Than a New Name for Logistics, by Cooper, Martha C.; Lambert, Douglas M.; Pagh, Janus D., International Journal of Logistics Management, 1997, Vol. 8 Issue 1</p> <p>Customer Service, Customer Satisfaction, and Corporate Performance In The Service Sector, by Dresner, Martin; Kefeng Xu., Journal of Business Logistics, 1995, Vol. 16 Issue 1</p> <p>Supply Chain Management: Relationships, Chains and Networks, by Harland, C. M., British Journal of Management, Mar96 , Special Issue, Vol. 7</p>

Semester	III	Specialization	Supply Chain Management
Course Code	306SCM	Type	Subject Core
Course Title	Logistics Management		

Course Objectives:

1	To make students understand the role and importance of logistics in modern day economy.
2	To discuss the relationship between logistics and other functional areas.
3	To analyze logistics systems from different perspectives to meet desired corporate objectives.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Context of Logistics: Introduction, definitions, logistics in the economy a macro perspective, aim of logistics, activities of logistics, value added role of logistics	5 + 1
2	Logistics in the firm: Micro dimensions of logistics, interface with operations, manufacturing, marketing, supply chain, Problems with fragmented logistics, Integrating logistics within an organization, integrating logistics along the SC,	7 + 2
3	Approaches to analyzing logistics systems: Materials Management v/s physical distribution, Cost centers, nodes v/s links, logistics channel, cost perspective & level of optimality, short run or static analysis, long run or dynamic analysis	8 + 2
4	Logistics Relationships: Types of relationships, Competitive relationship, product relationship, spatial relationship, intensity of involvement, logistics outsourcing activities – concept & types of 3PL, 4PL, need for collaborative relationships	7 + 2
5	Service Response Logistics: Overview of service Operations – service productivity, global service issues, service strategy development, service delivery systems, service location & layout, primary concerns of service response logistics – service capacity, waiting times, distribution channels, service quality	8 + 3

Learning Resources:		
1	Text Books	The Management of Business Logistics by Coyle, Bardi, Langley, Cengage Learning India Ed, 7 th Edition. Logistics – An introduction to SCM by Donald Waters, Palgrave Macmillan, 1 st Edition Principles of SCM – A Balanced Approach by Wisner, Leong, Tan , Cengage Learning India Ed., 1 st Edition
2	Reference Books	Logistics and Supply Chain Management: Cases and Concepts by Raghuraman and Rangaraj, Macmillan Business Books
3	Supplementary Reading Material	Business Logistics: Management of Physical Supply and Distribution, Heskett, Ivie and Glaskowsky, Ronald Press, New York.
4	Websites	http://www.logisticsmgmt.com/ www.asianclm.com/
5	Journals	Principles Of Logistics Management by Payne, Stanley L.; Kramer, Walter H., Journal of Marketing, Apr1967, Vol. 31 Issue 2, The Principles of Logistics Revisited by Voorhees, Roy Dale; Sharp, Merrill Kim., Transportation Journal (American Society of Transportation & Logistics Inc), Fall78, Vol. 18 Issue 1, A Survey of Third-party Logistics (3PL) Service Providers in India by Mitra, Subrata., IIMB Management Review , Jun2006, Vol. 18 Issue 2 The Emerging Role of the Third-Party Logistics Provider (3PL) as an Orchestrator by Zacharia, Zach G.; Sanders, Nada R.; Nix, Nancy W., Journal of Business Logistics, 2011, Vol. 32 Issue 1 Selection process in logistics outsourcing - a view from third party logistics provider by Yee Ming Chen; Meng-Jong Goan; Pei-Ni Huang., Production Planning & Control, Apr 2011, Vol. 22 Issue 3

Semester	III	Specialization	Supply Chain Management
Course Code	307SCM	Type	Subject - Elective
Course Title	Managing Material Flow in Supply Chains		

Course Objectives:

1	To understand flow of materials in a Supply Chain
2	To appreciate the role of Transportation and Warehouse Management
3	To understand the essentials of Packaging and Materials Handling from Logistics point of view
4	To understand Government statutory requirements related to Logistics Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Flows in SC: Forward & Reverse SC, Product, Services, Information, Funds, Demand, Forecast flows in Upstream & Downstream direction	4 + 1
2	Transportation Infrastructure & Operations: Transport functionality, Principles, Mode Selection criteria, Transportation Service Levels, Transportation Economics and Pricing – economic drivers, costing, carrier pricing strategy. Transport Administration – operational management, consolidation, negotiation, control, Documentation – L/R, B/L, AWB, IGM	5 + 2
3	Warehouse Management: Warehousing – economic benefits, service benefits. Warehousing Operations – handling, storage. Warehouse Ownership Arrangements, Warehouse Decisions – site selection, design, product mix analysis, expansion, material handling, layout, Warehouse Management System	5 + 1
4	Packaging & Materials Handling: Packaging Perspectives, Packaging for Materials Handling Efficiency – package design, unitization, communication. Material Handling – basic considerations, mechanized systems, semi-automated, automated Systems, information directed Systems, special handling considerations	5 + 1
5	Role of Government in Logistics: Overview of CST, LST, Implications of proposed GST, Excise Duties, Octroi, Entry Tax, CENVAT, Motor Vehicles Act, Customs Act	5 + 1

Learning Resources:		
1	Text Books	Supply Chain & Logistics Management by Bowersox, Closs& Cooper, TMGH, 2 nd Edition. Logistics and Supply Chain Management- Cases and Concepts by G. Raghuram, N Rangaraj, Macmillan India, 1 st Edition. Fundamentals of SCM Twelve drivers of competitive advantage by John Mentzer, Sage Publication, 1 st Edition
2	Reference Books	Business Logistics/Supply Chain Management by Ronald Ballou, Pearson Education, 5 th Edition. A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009.
3	Supplementary Reading Material	Advanced Supply Chain Management by Poirier C C, Berrett, Koehler Publishers, 1999.
4	Websites	http://www.inboundlogistics.com/cms/ http://www.cillogistics.com/ http://www.tcil.com/tcil/ http://cscmp.org/
5	Journals	Commodity Futures Markets, Warehouse Receipts and the Dynamics of Warehousing Infrastructure: The Indian Scenario by Pillai, Manoj., IUP Journal of Infrastructure, Dec2010, Vol. 8 Issue 4 What Can You Do About Logistics in India?, Frentzel, David, World Trade: WT100, Mar2011, Vol. 24 Issue 3 Technological Innovations in the Indian Logistics Industry: The Case of Freight Handling, Srinivas, Kolluru; Krishna, Kolluru., IUP Journal of Infrastructure, Sep2009, Vol. 7 Issue 3/4,

Semester	III	Specialization	Supply Chain Management
Course Code	308SCM	Type	Subject - Elective
Course Title	Inventory Management		

Course Objectives:	
1	To understand the Process of Aggregate Planning and its link with Inventory Management
2	To understand concept of Supply Chain Inventory and study a few basic variants of EOQ models
3	To recognize role and importance of Supply Chain Inventory Management in delivering perfect customer order
4	To acquaint with safety and environmental aspects of Inventory Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Aggregate Planning & Inventory Management: Introduction, Operations Planning, Aggregate Production Plan – Chase Production Strategy, Level Production Strategy, Mixed Production Strategy. MPS, Dependent & Independent Demand. Bill Of Materials, Overview of MRP & MRP II	4 + 1
2	Managing SC Inventory & Delivering Perfect Customer Orders-I: Understanding SC Inventory – types of inventory, inventory related costs, Inventory Investment – Asset or Liability? The Right reasons for Investing in Inventory – (support production, operational & customer service requirements, hedge against marketplace uncertainty, opportunity buying). The Wrong reasons for Investing in Inventory – (poor quality & material yield, unreliable supplier delivery, extended order-cycle times, inaccurate demand forecasts, specifying custom items for standard applications, extended material pipelines, inefficient manufacturing processes). Special Applications of EOQ Approaches – adjusting simple EOQ model for modal choice decision, adjusting simple EOQ model for volume transportation rates, adjusting simple EOQ for private carriage	6 + 1
3	Managing SC Inventory & Delivering Perfect Customer Orders-II: Managing Inventory Investment – Three V model of inventory management, achieve perfect record integrity, improve product forecasting, Standardize and Simplify product design, leverage companywide purchase volume, use suppliers for on-site inventory management, develop SC planning systems and support structure, Reduce Supplier-buyer cycle times, Delivering the Perfect Customer Order – MRP, DRP, SC inventory planning, automated inventory tracking system, Inventory at Multiple Locations – The Square Root law, inventory for outbound systems, Demand Pull Approach to manage Inventory	5 + 1
4	Safety & Environmental Aspects of Inventory Management: Environmental Aspects of Storage – identification of land contamination , water and air contamination & monitoring for fugitive emission, spillages, leakages, dumps, & disposables. Explosive Storage - Petroleum act - storage of explosive – precautions during loading, unloading, storage, transportation & usage, Gas Cylinder rules, Fire and other Hazards & precautions for mitigation, Cross contamination & Hygiene precaution in case of chemicals & pharmacy food storage material, Hazardous Waste Storage and Management – Storage and disposal methods and legal compliance	5 + 1
5	Key Operational Aspects in SC: Creating the Lean SC – JIT Purchasing, JIT Transportation and JIT Production. Kanban, VMI	4 + 1

Learning Resources:		
1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Thomson South Western, 3 rd Edition Supply Chain Management Process, System & Practice by N.Chadrasekaran, Oxford, 1 st Edition
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition.
3	Supplementary Reading Material	The Management of Business Logistics by Coyle, Bardi, Langley, CengageLearning, 5th Indian Reprint
4	Websites	www.apics.org/
5	Journals	Sharpening Inventory Management by Armstrong, David J. , Harvard Business Review, Nov/Dec85, Vol. 63 Issue 6 Empowering Kanban through TPS - Principles - An Empirical Analysis of the Toyota Production System, Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre, International Journal of Production Research, Dec2010, Vol. 48 Issue 23 Kanban, MRP, and Shaping The Manufacturing Environment by Krajewski, Lee J.; King, Barry E.; Ritzman, Larry P; Wong, Danny S., Management Science, Jan1987, Vol. 33 Issue 1 Prerequisites to Vendor-managed Inventory by Niranjana, Tarikere T.; Wagner, Stephan M.; Nguyen, Stephanie M., International Journal of Production Research, Feb2012, Vol. 50 Issue 4 A Logistics Network Design Model With Vendor Managed Inventory by Shu, Jia; Li, Zhengyi; Shen, Houcai; Wu, Ting; Zhong, Weijun., International Journal of Production Economics, Feb2012, Vol. 135 Issue 2 Adaptive Fuzzy Vendor Managed Inventory Control For Mitigating The Bullwhip Effect In Supply Chains by Kristianto, Yohanes; Helo, Petri; Jiao, Jianxin (Roger); Sandhu, Maqsood., European Journal of Operational Research, Jan2012, Vol. 216 Issue 2 Study of Vendor-Managed Inventory practices in Indian industries by Atul B. Borade; Satish V. Bansod., Journal of Manufacturing Technology Management, Oct2010, Vol. 21 Issue 8

Semester	III	Specialization	Supply Chain Management
Course Code	309SCM	Type	Subject - Elective
Course Title	Purchasing & Supplier Relationship Management - I		

Course Objectives:

1	To emphasize the managerial perspective of core tasks and challenges in effectively managing the purchasing function within the context of integrated supply chain.
2	To make the students aware of the different demands placed on the purchasing and supply chain managers by business stakeholders.
3	To help the students understand the impact of purchasing on competitive success and profitability of modern day organizations.
4	To provide an in-depth understanding of the fundamentals surrounding the operational aspects of purchasing.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Purchasing Process, Policy & Procedures: Purchasing Objectives, Responsibilities of Purchasing, Types of Purchases, Improving Purchase Process, Purchasing Procedures, Policy Overview – What makes an effective Policy? Advantages & Disadvantages of Policies, Policies defining - Role & conduct of Purchasing, Buyer-Supplier Relationship, Operational Issues, Ethical considerations in Purchasing	5 + 1
2	Organizing the Purchasing Function: Purchase Function Position Within the Organization Structure, Factors affecting Purchasing's Position, Reporting of Purchasing function, Organizing of Purchasing, Separating Operational & Strategic Purchasing, Advantages & disadvantages of centralized, decentralized Purchasing, Hybrid Purchasing Structure	5 + 1
3	Strategic Sourcing – Supplier Evaluation & Selection: Linking Purchasing and Corporate Strategy, Translating Corporate Objectives into Purchasing Goals, Translating Purchasing Objectives into Purchasing Goals, Purchasing Strategy Development Process, Types of Purchasing Strategies, Supply Base Optimization, Critical Role of In-sourcing / Outsourcing, The In-sourcing / Outsourcing Decision Process, Make or Buy, Supplier Evaluation and Selection Process, Need for Supplier Selection, Identifying key sourcing requirements, Evaluation and Selection, Key Supplier Evaluation Criteria	5 + 1
4	Supplier Quality Management: Overview of Supplier Quality Management – What is Supplier Quality? Why be Concerned with Supply Quality? Factors Affecting Purchasing's Role in Managing Supplier Quality, Supplier Quality Management using Total Quality Perspective, Defining Quality in Terms of Customers and their Requirements, Pursuing Quality at the Source,	5 + 1
5	Negotiation & Contracts Management: Objectives of negotiation, when to negotiate, The negotiation Process, Preparation, Establishing the Objectives, Dynamics of Negotiation, Phases in face-to-face negotiation, Negotiation Techniques – traditional, collaborative, price analysis, cost analysis. Types of Contracts – Fixed Price, Cost based / Indexation, Long term, Short term. Consideration when selecting contract types, How to write a Contract. Essential elements of Contract, Purchase Order (P.O), Difference between P.O & Contract	5 + 1

Learning Resources:		
1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Thomson South Western, 3 rd Edition. Purchasing & Supply Chain Management by Lysons and Farrington, Pearson Education, 2010.
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition. New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007 Extending the Supply Chain by Boyer, Forhlich and Hult, PHI, 3 rd Indian Reprint, 2009
3	Supplementary Reading Material	Organizational Buying Behaviour by Webster and Wind, Prentice Hall, 1972 Category Management in Purchasing: A Strategic Approach to maximize business profitability by Jonathan O Brien Kogan Page.
4	Websites	www.cips.org www.eipm.org
5	Journals	Purchasing Competence: A Stakeholder-Based Framework for Chief Purchasing Officers by Kern, Daniel; Moser, Roger; Sundaresan, Naveen; Hartmann, Evi., Journal of Business Logistics, 2011, Vol. 32 Issue 2 Understanding how Formal and Informal Communication Affect Purchasing, Manufacturing and Logistics Integration by Andrea, Furlan; Arnaldo, Camuffo; Romano, Pietro., Advances in Management, Jul2011, Vol. 4 Issue 7 An Empirical Study of the Relationships among Purchasing Skills and Strategic Purchasing, Financial Performance, and Supplier Responsiveness by Carr, Amelia S.; Smeltzer, Larry R., Journal of Supply Chain Management, Summer2000, Vol. 36 Issue 3 World-Class Purchasing Skills: An Empirical Investigation by Giunipero, Larry C.; Percy, Dawn H., Journal of Supply Chain Management, Fall2000, Vol. 36 Issue 4 The Seven Cs of Effective Supplier Evaluation by Carter R, Purchasing and Supply Chain Management, April, 1995.

Semester	III	Specialization	Supply Chain Management
Course Code	310SCM	Type	Subject - Elective
Course Title	Six Sigma		

Course Objectives:	
1	To provide a comprehensive understanding of six sigma
2	To introduce the six sigma methodology and philosophy
3	To learn how to manage change and sustain benefits
4	To learn how to listen and map customer requirements

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Enterprise-wide Deployment:</p> <p>1.1 Six Sigma and Lean: Brief history of performance initiatives- Quality Control, TQM, Cost of Quality, Customer quality Management, SPC, Reengineering, Six Sigma, Theory of Constraint, Lean manufacturing.</p> <p>1.2 Business Process Management: Introduction to Six Sigma-As a metric, As a methodology, As a management System. Six sigma Evolution and approach Lean as a Business Management Strategy, Key elements of lean. Types of lean initiatives, Implementing lean initiatives</p>	5 + 1
2	<p>DMAIC model for implementing Six Sigma:</p> <p>2.1 Define: Project Selection, Developing the team, DMAIC & DMADV, Deliverables, Tollgate Questions</p> <p>2.2 Measure: Determining X variables, Cause and Effect Diagram & Matrix, Overview of MSA, Data Collection Plan – Forms, Baselining the y data, DPMO, Capability Indices, COPQ, Yield, Tollgate Questions</p> <p>2.3 Analyze: Tools for identifying Root Causes: Histogram, Boxplot, Scatter Plot, Matrix Plot, DotPlot, Run Chart, Multi-Vari Chart, 5 Why's</p> <p>2.4 Improve: Generating Solutions, Random Stimulation, Six Thinking Hats, Mind Mapping, Challenge Assumptions, Decision Making Tools for Selecting Solutions – Pairwise Ranking, Solution Matrix, Force Field Analysis, Costs and Benefits, Pilot Plan, Potential Problem Analysis – Mistake Proofing, Risk Assessment Matrix and Control Assessment Matrix, FMEA, Contingency Plan, Verification Plan, Tollgate Questions</p> <p>2.5 Control: Solution Planning, Process Control Plan, Review Meetings, Updated flowcharts & procedures, Control Charts, Out Of Control Action Plan, Project Conclusion Activities</p>	7 + 1
3	<p>Six Sigma Impact measurement: Financial and Performance measurement: Lack of Clear Goals and Metrics linked to Measurable Business Goals, Mismatches between Traditional Accounting and Improvement Campaigns. Metrics That Impact – Revenue Growth, Cost Savings, Productivity Improvement, Reduced Cost of Poor Quality, Cash Flow Improvement, Faster product / service cycle times, Freed up engineering and /or sales / service time, Freed up other indirect time, Cost avoidance savings. Seven Elements of Six Sigma Scorecard</p>	5 + 1

4	Six Sigma in non-manufacturing environments: MSA in the DMAIC Cycle. MSA Psychology. Why Non-Manufacturing Processes are Different, MSA Repeatability & Reproducibility (R&R) Studies. Gauge R & R. Comparison of MSA Acceptance Criteria	5 + 1
5	Projects in Six Sigma-Use of DMAIC Cycle	3 + 1

Learning Resources:		
1	Text Books	The Six Sigma Black Belt Handbook by MacCarty, Daniels, Bremer and Gupta, TMGH, 2010 Edition Juran Institute's Six Sigma Breakthrough and Beyond by De Feo and Barnard, TMGH. What is Six Sigma? by Peter Pande, TMGH Six Sigma Management by Blashka, TMGH All about Six Sigma by Warren Brussee, TMGH.
2	Reference Books	TPS-Lean Six Sigma by Hubert Ramprasad, Sara Books Pvt.Ltd.
3	Supplementary Reading Material	The Certified Six Sigma Black Belt Hand Book, Donald Benbow, Pearson Publication Achieving Business Excellence by Pravin Rajpal, Om Books International, India.
4	Websites	http://asq.org
5	Journals	What , Why and How: The importance of statistical thinking for Six Sigma by Krishnamoorth, K. S., Industrial Engineer: IE, Oct 2011, Vol. 43, Issue 10 In pursuit of implementation patterns: the context of Lean and Six Sigma by Shah, R.; Chandrasekaran, A.; Linderman, K., International Journal of Production Research, Dec2008, Vol. 46 Issue 23 Critical analysis of Six Sigma Implementation by Moosa, Kamran; Sajid, Ali. Total Quality Management & Business Excellence, Jul2010, Vol. 21 Issue 7

Semester	III	Specialization	Supply Chain Management
Course Code	311SCM	Type	Subject - Elective
Course Title	Supply Chain Planning		

Course Objectives:	
1	To understand essentials of Demand Management
2	To get acquainted to Supply Chain Aggregate Planning
3	To understand how to manage predictable variability in Supply Chain
4	To recognize the role of Network Planning and understand basic Network Planning Design Models

Syllabus:

Unit Number	Contents	Number of Sessions
1	Forecasting: Concept and definition of Forecasting & Demand, Role of Forecasting in SC, Traditional Forecasting Methods – Judgment Methods, Market Research Methods, Time Series Methods, Causal Methods. Selection of Appropriate Forecasting technique, Risks in Forecasting – forecasting error	5 + 1
2	Demand Management: Collaborative Planning, Forecasting & Replenishment (CPFR). Order fulfillment & Order Management. Customer Service Level & Expected cost of stock outs (Numericals Expected)	5 + 1
3	Aggregate Planning in SC: Concept of Aggregate Planning & its role in SC. Aggregate Planning Strategies, Aggregate Planning for Services, Aggregate Planning using MS-Excel, Role of IT in Aggregate Planning, Aggregate Planning in Practice	5 + 1
4	Managing Predictable Variability in SC: Decision Environment of SC – external factors responsible for decisions, Concept of Variability, Responding to predictable variability, Managing Supply, Managing Demand, Impact of seasonality	5 + 1
5	Network Decisions: Choices of Network Configurations – direct shipping, distribution through intermediary, customer pick up, Challenges in Network Configuration. Models – Strategic Facility Location Model with Single Capacity Choice, Strategic Facility Location Model with Two Capacity Choices, Demand Allocation Across different Facilities with Fixed Capacities, Gravity Location Model, Uncertainty and Application of Probability	5 + 1

Learning Resources:		
1	Text Books	Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3 rd Edition Supply Chain Management Process, System & Practice by N.Chadrasedkaran, Oxford, 1 st Edition
2	Reference Books	The Management of Business Logistics: A Supply Chain Perspective by Coyle, Bardi and Langley, Cengage Learning – India 7 th Edition.
3	Supplementary Reading Material	Managing the Supply Chain: A Strategic Perspective by Gattorna and Walters, Palgrave. A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009.
4	Websites	http://www.ibf.org/
5	Journals	Mapping the Future of Supply Chain Management: a Delphi study by Melny K, Steven A.; Lummus, Rhonda R.; Vokurka, Robert J.; Burns, Laird J.; Sandor, Joe., International Journal of Production Research, Aug2009, Vol. 47 Issue 16 Aligning Demand Management with Business Strategy by Jim R and Langabeer II, Supply Chain Management Review, May/June 2000. ABC of Collaborative Planning Forecasting and Replenishment by Ireland, Ron., Journal of Business Forecasting, Summer2005, Vol. 24 Issue 2 Collaborative Planning, Forecasting & Replenishment (CPFR): Realizing the Promise of Efficient by Sherman, Richard J., Journal of Marketing Theory & Practice, Fall 98, Vol. 6 Issue 4

Semester	III	Specialization	Supply Chain Management
Course Code	312SCM	Type	Subject - Elective
Course Title	Supply Chain Coordination		

Course Objectives:

1	To understand role and importance of business functional coordination across the Supply Chain
2	To know the impact of ineffective Supply Chain coordination and its business implications
3	To understand how managerial levers and partnerships aid in achieving Supply Chain coordination

Syllabus:

Unit Number	Contents	Number of Sessions
1	Coordinate the Traditional Business Functions Across the Company and Across the SC: Functional Coordination, Supply Chain Relationships, Failing to coordinate Sales Function with SC Capacity, Failing to coordinate Industrial Service SC, Coordinate Retail Functions for Market Expansion, Coordinating Traditional Retail Functions for SC Economics, Coordinating R&D, Order Processing and Inventory Management	5 + 1
2	SC Coordination & Bull Whip Effect: Challenges in SC Coordination, Concept of Bull Whip Effect – impact on manufacturing cost, inventory cost, replenishment lead time, transportation cost, labour cost for logistics, product availability & relationships across the SC, Obstacles to Coordination in SC – incentive obstacles, Information Processing Obstacles, Operational Obstacles, Pricing Obstacles, Behavioural Obstacles, Role of IT in SC Coordination	5 + 1
3	Managerial Levers to achieve SC Coordination: Aligning of Goals & Incentives, Improving Information Accuracy, Improving Operational Performance, Designing Pricing Strategies to stabilize orders, Building Partnerships & Trust.	5 + 1
4	Building Strategic Partnerships within a SC: Deterrence Based View, Process Based View, Accessing Value of Relationship, Identifying Operational Roles & Decision Rights for each party, Creating Effective Contracts, Designing Effective Conflict Resolution Mechanisms.	5 + 1
5	Collaborative Planning, Forecasting & Replenishment: Retail Event Collaboration, DC Replenishment Collaboration, Store Replenishment Collaboration, Collaborative Assortment Planning, Organizational & Technology Requirements for successful CPFR, Risks & Hurdles for CPFR Implementation	5 + 1

Learning Resources:		
1	Text Books	Fundamentals of Supply Chain Management by John Mentzer, Response Books, 1 st Edition Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3 rd Edition Supply Chain Management Process, System & Practice by N. Chadrasekaran, Oxford, 1 st Edition
2	Reference Books	The Management of Business Logistics: A Supply Chain Perspective by Coyle, Bardi and Langley, Cengage Learning – India 7 th Edition
3	Supplementary Reading Material	A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009. Industrial Dynamics by Jay Wright, Forrester, 1961
4	Websites	www.apics.org
5	Journals	The Bullwhip Effect in Supply Chains by Lee, Hau L; Padmanabhan, V. and Whang, Seungjin, Sloan Management Review, 1997 Volume 38 Issue 3 Taming the bullwhip by Lee, H.L., Journal of Supply Chain Management 2010, Volume 46, Issue 1 Capacity Choice and Allocation: Strategic Behavior and Supply Chain Performance by Cachon, Gérard P.; Lariviere, Martin A., Management Science, Aug1999, Vol. 45 Issue 8 Quantifying the Bullwhip Effect in a Simple Supply Chain: The Impact of Forecasting, Lead Times and Information by Chen, Y. F., Z. Drezner, J. K. Ryan and D. Simchi-Levi, Management Science, 2000, Volume 46. Information Sharing and Coordination Mechanisms for Managing Uncertainty in Supply Chains: A Simulation Study by Datta, Partha Priya; Christopher, Martin G., International Journal of Production Research, Feb2011, Vol. 49 Issue 3 Coordinating for Flexibility in e-Business Supply Chains by Gosain, Sanjay; Malhotra, Arvind; El Sawy, Omar A., Journal of Management Information Systems, Winter2004/2005, Vol. 21 Issue 3

Semester	III	Specialization	Supply Chain Management
Course Code	313SCM	Type	Subject - Elective
Course Title	Decision Modeling for Supply Chains		

Course Objectives:

1	To know how to model typical Supply Chain Domain Problems
2	To understand use of MS- Excel in solving typical Supply Chain Domain Problems

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of MS – Excel Advance Capabilities and Functions	3 + 1
2	Linear Programming Models: Make Buy Decision Problem, Transportation Applications – Vehicle loading Problem, Sensitivity Analysis for Profit Maximization, Cost Minimization	6 + 1
3	Transportation Models: LP Formulation for transportation problem, Transportation involving transshipment, Maximal flow model, Shortest Path Model	5 + 1
4	Integer Programming Model, Goal Programming Model & Nonlinear Programming Model: New factory Decision Problem (IP), Product Mix Problem (Goal), Profit Maximization Problem (NLP)	6 + 1
5	Decision Making Models (based on Decision Trees): Using TreePlan to solve decision tree problems with Excel	5 + 1

Learning Resources:

1	Text Books	Managerial Decision Modeling with Spreadsheets by Balakishnan, Render, Stair, Pearson, 2 nd Edition
2	Reference Books	Excel Models for Business and Operations Management by Barlow, Wiley-India, 2 nd Edition.
3	Supplementary Reading Material	Modeling the Supply Chain by Jeremy Shapiro, Cengage Learning, 2 nd Edition Supply Chain Modeling & Solutions by B.S. Sahay & A.K. Gupta, Macmillan India Ltd., 1 st Edition
4	Websites	http://logistics.about.com/od/supplychainmodels/Modelling_the_Supply_Chain.htm
5	Journals	Overcoming Spreadsheet Risk in Supply Chain Modeling by Galbreth, Michael R.; LeBlanc, Larry J., Journal of Business Logistics. 2010, Vol. 31 Issue 2, p21-33 Design and Use of Microsoft Excel Solver by Fylstra, Daniel; Lasdon, Leon; Watson, John; Warren, Allen. Interfaces. (Sep-Oct) 1998, Vol. 28, 5, p29-55. Network Modeling Tools: Enhancing Supply Chain Decision Making by Jiminez, S., T.Brown and J.Jordan, Strategic Supply Chain Alignment, 1998, ed. J. Gattorna. Andershot, Eng.: Gower

Semester	III	Specialization	Supply Chain Management
Course Code	314SCM	Type	Subject - Elective
Course Title	Theory of Constraints		

Course Objectives:	
1	To imbibe in the students the TOC thinking process.
2	To provide insights into managing a business when there are constraints and resolving those by logical thinking.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Thinking Process: Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method.	5 + 1
2	2.1 Finance and Measures: Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. 2.2 Project Management: Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach.	5 + 1
3	Drum-Buffer-Rope Solution: Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method.	5 + 1
4	Theory of Constraints in Supply Chain Management: Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution	5 + 1
5	Cases: Cases in application of TOC thinking process, TOC in Manufacturing,	5 + 1

Learning Resources:		
1	Text Books	Theory of Constraints by S K Mukhopadhyay, Jaico Books. The Goal by E M Goldratt and Cox J, Great Barrington, North River
2	Reference Books	What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River The Goal by E M Goldratt and Cox J, Great Barrington, North River It's Not Luck by E M Goldratt, Great Barrington, North River
3	Supplementary Reading Material	Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River Critical Chain by E M Goldratt, Great Barrington, North River
4	Websites	http://www.goldratt.com/ http://www.scienceofbusiness.com/home/what-is-theory-of-constraints-toc/ http://www.tocico.org/

5	Journals	<p>A Tutorial on Project Management from a Theory of Constraints Perspective by Blackstone, John H.; Cox, James F.; Schleier, John G., <i>International Journal of Production Research</i>, Dec2009, Vol. 47 Issue 24.</p> <p>Theory of Constraints at UniCo: Analyzing The Goal as a fictional case study by Tibben-Lembke, Ronald S., <i>International Journal of Production Research</i>, Apr2009, Vol. 47 Issue 7.</p> <p>Implementing Theory of Constraints in a traditional Japanese Manufacturing Environment: The case of Hitachi Tool Engineering by Umble, M.; Umble, E.; Murakami, S., <i>International Journal of Production Research</i>, 5/15/2006, Vol. 44 Issue 10.</p> <p>Determination of buffer sizes for drum-buffer-rope (DBR)-controlled production systems by Ye, T.; Han, W., <i>International Journal of Production Research</i>, May2008, Vol. 46 Issue 10.</p> <p>Modified drum-buffer-rope scheduling mechanism for a non-identical parallel machine flow shop with processing-time variation by Sirikrai, V.; Yenradee, P., <i>International Journal of Production Research</i>, 2006, Vol. 44 Issue 17.</p> <p>Comparisons between drum-buffer-rope and Material Requirements Planning: a case study by Steele, Daniel C.; Philipoom, Patrick R.; Malhotra, Manoj K.; Fry, Timothy D., <i>International Journal of Production Research</i>, 2005, Vol. 43 Issue 15.</p> <p>Order review/release and lot splitting in drum-buffer-rope by Russell, G. R.; Fry, T. D., <i>International Journal of Production Research</i>, Mar1997, Vol. 35 Issue 3.</p> <p>Scheduling using drum-buffer-rope in a remanufacturing environment by Guide, V.D.R., <i>International Journal of Production Research</i>, Apr96, Vol. 34, Issue 4.</p> <p>Using Drum-Buffer-Rope Scheduling Rather Than Just-In-Time Production by Huff, Patricia. <i>Management Accounting Quarterly</i>, Winter2001, Vol. 2 Issue 2</p>
---	----------	--

Semester	III	Specialization	Supply Chain Management
Course Code	315SCM	Type	Subject - Elective
Course Title	Supply Chain Practices - I		

Course Objectives:	
1	To give a practical understanding of the practice of supply chain management in various sectors.
2	To give a practical understanding of the peculiarities of supply chain management practices in various sectors.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chains for Agro Based Products - Food, Milk Products, Poultry, Edible Oil, Flowers, Seeds & Fertilizers, Public Distribution System	NA
2	Supply Chains for Industrial Products - Auto Components, Steel Products, Lubricants, Industrial Paints, Transformers, Gensets	NA
3	Supply Chains for Consumer Products – Bicycles, Tractors, Cola Cans, Cars, Mobile Phones, Furniture, Sports Goods, Pharmaceutical Products, Fabrics & Garments, Books, Mineral Water, Newspapers & Magazines, Toys, Wrist Watches, Home Décor, Decorative Paints, Wine, White goods	NA
4	Supply Chains for Commodities - Coal, Cotton, Cement, Sugar, Rice, Metals, Oil & Gas	NA
5	Supply Chains for Services - Mobile Telephony, Financial Services, Electricity , Internet Services, Food Chains, Hospitality, Medical services, Airlines, Retail	NA

Students should work in groups of two each on any two Companies from the Sectors listed above. The Sectors should be from different groups. Students shall study various aspects of the SCM principles and practices as followed in these sectors. They should identify the peculiarities of the sector, map the supply chain in detail (identify the parties involved and their role in the supply chain), compare the top two players in each of these sectors and identify best practices, Prepare a summary evaluation of each sector studied. Students shall submit a structured detailed report based on the above parameters. The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty.

The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

* Field/Self Study under Faculty guidance.

Learning Resources:		
1	Text Books	Indian Supply Chain Architecture by B S Sahay and Ramneesh Mohan, Macmillan, 2007. Excellence in Manufacturing : New Approaches by Sabyasachi Chatterjee, ICFAI Books.
2	Reference Books	Financial Supply Chain by Sanjay Dalmia, TMGH, 2008. Logistics and Retail Management: Insights into Current Practice and Trends from leading Experts by Fernie and Sparks, Kogan Page, 2 nd Edition.
3	Supplementary Reading Material	Supply Chain Management in the 21st Century Editor by B S Sahay, Macmillan, 2006 reprint.
4	Websites	www.kpmg.com http://www.futuresupplychains.com/aboutus.html http://www.deloitte.com/us/supplychainindia

R., IUP Journal of Supply Chain Management, Mar2011, Vol. 8 Issue 1

**MBA SYLLABUS: SEMESTER III
RURAL & AGRIBUSINESS MANAGEMENT SPECIALIZATION**

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	305RABM	Type	Subject - Core
Course Title	Agriculture and Indian Economy		

Course Objectives:	
1	To expose learners to the environment in which the agri-business is conducted.
2	Focus will be on understanding micro and macro environmental forces and their impact on agri-business.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Indian Agriculture under the Five Year Plans : The Green Revolution, The place of agriculture in the national economy, progress of agriculture under the Five Year Plans, Present position of Indian Agriculture : Looming Crisis, New Thrust Areas in Agriculture, National Commissions of Farmers and Green Revolution, Crop Pattern in India since 1951.	7 + 2
2	Food Security in India: Green Revolution, Second Green Revolution – the future prospects, Concept of Food Security , Food self-sufficiency and food security, Poverty and need for Public Distribution Systems, Policy Options for reforms of PDS, Food Insecurity at Global level, Food Security Act – Salient features and implications.	7 + 2
3	Irrigation and other agricultural inputs: Irrigation, multipurpose river valley project – a controversy, irrigation in the 12 th plan, private sector participation in irrigation, fertilizers and manures, improved seeds, soil conservation and reclamation, livestock and dairy development, mechanization of agriculture	7 + 2
4	Land Reforms: The need and scope for land reforms in a developing economy, the abolition of intermediaries, tenancy reforms, ceiling on land holdings, an appraisal of land reforms Size of Farms and Productive Efficiency: Meaning of economic holding, changing pattern of ownership and operational holdings in India, Farms size, Productivity/ Profitability and farm efficiency, the problem of sub division and fragmentation of holdings, cooperative farming	7 + 2
5	Agriculture Labour: Present position of agricultural Labour in India, Agricultural Labour and Minimum Wages, Abolition of Bonded Labour, Recommendations of National Commissions on Rural Labour (NCRL) Unorganized Sector and Informalisation of the Indian Economy: Unorganized sector and India's Informal economy, size of unorganized sector, poverty, vulnerability and unorganized sector employment – the high degree of correlation, estimate of organized and unorganized workers, self-employed workers in non-agricultural sector, agricultural labourers, bonded labour, working conditions, of farmers, action programme for the unorganized sector, assessment of NCEUS recommendations	7 + 2

Learning Resources:		
1	Text Books	Indian Economy, Datt and Sundharam, S Chand Indian Economy Since Independence, edited by Uma Kapila, Academic Foundation Indian Agriculture - issues and perspectives, Edited by N Janardhana Rao, ICFAI University Press
2	Reference Books	Adhikary M. 1986. <i>Economic Environment of Business</i> . S. Chand & Sons. Aswathappa K. 1997. <i>Essentials of Business Environment</i> . Himalaya Publications Francis Cherunilam 2003. <i>Business Environment</i> . Himalaya Publications
3	Supplementary Reading Material	Food Security in India: Performance, Challenges and Policies (http://www.oxfamindia.org/sites/default/files/VII.%20Food%20Security%20in%20India-Performance,%20Challenges%20and%20Policies.pdf) National Food Security Mission - Operational Guidelines (http://agricoop.nic.in/nfsm/nfsm.pdf)

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	306RABM	Type	Subject – Core
Course Title	Rural Marketing – I		

Course Objectives:

1	To objective of this course is to develop understanding of issues in rural markets
2	To provide an overview of marketing environment, consumer behaviour, distribution channels, marketing strategies, etc. in the context of rural markets in India.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Rural Marketing Opportunities: What is a Rural Market?, Taxonomy of the Rural Market, Go Rural Decision, Rural Inhibiting factors, Approach Decision: Rural Marketing Models, Bottom of the Pyramid Approach, Integrated, Innovation and Inclusive – Growth Model, Evolution and Scope, Rural versus Urban Marketing, Becoming a Rural Marketer, Testing rural marketing potential. Understanding the Rural Economy: Rural marketing Environment, social environment, economic environment, technological environment, innovations, political environment and development initiatives, implications on rural marketers	7 + 2
2	Rural marketing experiences: Case of HUL – Project Shakti, Case of CFCL – Uttam Bandhan, Case of ITC – e-Choupal, Case of Colgate – Education, Case of HLL – Social Marketing, lessons from experience	7 + 2
3	Rural Consumer Behavior: Rural consumer on the growth, models of consumer behavior, buying decision process, Opinion Leaders, Environmental factors influencing the decision making process, buyer characteristics, buying behavior patterns, brand loyalty, innovation adoption	7 + 2
4	Rural Marketing Research: Significance of information, sources of information, marketing research – key decisions, approaches and tools – case for innovation, participatory approaches, innovative tools, rural versus urban marketing research, rural research business, challenges in rural marketing research.	7 + 2
5	Selecting and Attracting Markets: Concepts and process, case for segmentation, bases for segmentation, emerging segments – women and youth, guides to effective segmentation, targeting, positioning, Case Study.	7 + 2

Learning Resources:		
1	Text Books	<p>Rural Marketing – Text and Cases, Krishnamacharyulu and Ramakrishnan, Pearson</p> <p>Rural Marketing – Concept and Practices, Dogra and Ghuman, TMGH</p> <p>Rural Marketing, Velayudhan, Sage</p> <p>Rural Marketing, Gopalaswamy, Vikas Publishing house</p> <p>Rural Marketing in India, Habeeb - ur – Rahman, Himalaya Publishing House</p> <p>Rural Marketing Text and Cases, S L Gupta, Wisdom Publications</p>

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	307RABM	Type	Subject – Elective
Course Title	Rural Development – I		

Course Objectives:

1	To motivate students to understand the realities of rural India its economic strength, weaknesses, opportunities and threats in changing global context.
2	To help students to analyze the rural economic condition from two perspectives viz. actor's (the rural people) and outsider's (economists, development professionals) perspectives
3	To assists students to develop conceptual framework for dealing with rural economy.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Concepts and Connotations of Rural Development, Basic Elements of Rural Development, Growth versus Development, Some Dilemmas in Development Concepts and Connotations of Rural Development, Basic Elements of Rural Development, Growth versus Development, Why Rural Development,	5 + 1
2	Measures of Development: Measures of Level of Rural Development, Income Distribution, Development Simplified, Concepts and Measures of Rural Poverty. Paradigm of Rural Development: The modernization theory, the dependency theory of the Marxist school, The Gandhian Model of Rural Development, Development Theories from other social sciences and their relevance.	5 + 1
3	Determinants of Rural Development: Changes in Output, Natural Resources, Human Resources, Capital, Technology, Organizational and Institutional Framework, Relation between Rural Development and Its Determinants.	5 + 1
4	Strategies for Sustainable Development: The concepts of sustainability and sustainable development, some indicators of non-sustainable development, a critical review of India's strategies of rural development, some elements of a new strategy for sustainable development.	5 + 1
5	Rural Development Project: Students to be divided in groups of 5 each and assign to study and present rural development measures and outcomes of a selected rural area.	5 + 1

Learning Resources:

1	Text Books	Rural Development, Katar Singh, Sage Rural Transformation - Infrastructure and Micro Finance, Bhargava and Deepak Kumar, ICFAI University Press Agriculture and Rural Development in India, Smita Patel, Paradise Publishers
2	Reference Books	Mishra, J. My Vision for India's Rural Development, New Delhi, Vikas Publishing
3	Supplementary Reading Material	Dhubashi PR. 1986. <i>Policy and Performance - Agricultural and Rural Development in Post Independent India</i> . Sage Publications
4	Websites	www.indiabudget.nic.in/ www.fao.org/index_en.htm www.icar.org.in/
5	Journals	Journal of Rural Development

Semester	III	Specialization	Rural & Agribusiness Management
----------	-----	----------------	---------------------------------

Course Code	308RABM	Type	Subject – Elective
Course Title	Special Areas in Rural Marketing		

Course Objectives:

1	To explore the students to the Special Areas in Rural Marketing Environment
2	To help students to understand opportunities and emerging challenges in the upcoming rural markets .

Syllabus:

Unit Number	Contents	Number of Sessions
1	Rural Marketing in FMCG – FMCG :An Introduction, Characteristics of FMCG for rural markets, Challenges to FMCG Industry from a rural perspective, Adopting marketing strategies to rural markets.	5 + 1
2	Rural Market in Consumer durables – Consumer durables : An Introduction, Marketing of consumer durables vs. FMCGs, Issues related to marketing of consumer durables in rural market.	5 + 1
3	Rural Market in Financial Services – Marketing of banking services in rural market, evolution of rural banking after independence, key reasons for poor performance of banks in nationalization period, challenges in marketing of banking services in rural market, opportunities for banking in rural areas, marketing strategies for banking services. Marketing of Mutual Funds in rural markets, Micro SIPs, etc.	5 + 1
4	Rural Market in Agricultural inputs – Indian tractor industry : A brief overview, fertilizer industry in India: An Introduction, Indian Agrochemical market: An Introduction, Global Agrochemical Market: A brief Overview.	5 + 1
5	Rural Market in Cottage Industries – Characteristics of Indian Handicraft industry, Nature of Indian Handicrafts, selected cottage industries clusters identified for enhanced exports, Challenges for rural cottage industries.	5 + 1

Learning Resources:		
1	Text Books	Rural Marketing – Concept and Practices, Dogra and Ghuman, TMGH Rural Marketing in India, Habeeb - ur – Rahman, Himalaya Publishing House
2	Reference Books	Singh Sukhpal 2004. <i>Rural Marketing- Focus on Agricultural Inputs</i> . Vikas Publishing House.
3	Supplementary Reading Material	Rural Marketing – Text and Cases, Krishnamacharyulu and Ramakrishnan, Pearson Rural Marketing, Velayudhan, Sage Rural Marketing, Gopalaswamy, Vikas Publishing house
4	Websites	www.nhb.gov.in/ www.dcsi.gov.np/ www.fert.nic.in/
5	Journals	Agribusiness – An International Journal Decision Indian Cooperative Review Indian Journal of Agricultural Economics Indian Journal of Agricultural Marketing Indian Journal of Marketing Journal of Agri-business Journal of Marketing Management Journal of Marketing Research Journal of Sales Management Vikalpa

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	309RABM	Type	Subject – Elective
Course Title	Commodity Markets – I		

Course Objectives:

1	To help students understand what commodity means and how commodities are traded
2	To make students identify significant areas of risk associated with buying and selling commodities
3	To update students about the regulatory framework for commodity markets in India

Syllabus:

Unit Number	Contents	Number of Sessions
1	Commodity Markets: An Overview – What is a Commodity?, Commodity Markets, Marketing of agricultural commodities, physical market operations.	5 + 1
2	Commodity Risk – Understanding risk, managing risk, evolution of commodity derivatives, evolution of commodity derivatives in India.	5 + 1
3	Commodity Derivatives – What is Derivatives? , types of derivatives, other classification of derivatives, Pricing derivatives, derivatives markets and participants, economic importance.	5 + 1
4	Commodity exchanges – What is commodity exchanges?, commodity exchanges around the world, commodity exchanges in India, electronic spot exchanges regulation of commodity markets.	5 + 1
5	Variety in commodity markets – designing commodity contracts, weather derivatives, freight derivatives, electricity derivatives, catastrophe derivatives, carbon derivatives, currency derivatives, property derivatives.	5 + 1

Learning Resources:

1	Text Books	Purcell WD. 1991. <i>Agricultural Futures and Options: Principles and Strategies</i> . Macmillan Publications
2	Reference Books	Kaufman PJ. 1986. <i>The Concise Handbook of Futures Markets</i> . John Wiley & Sons. Wasendorf RR & McCafferty 1993. <i>All about Commodities from the Inside Out</i> . McGraw-Hill.
3	Supplementary Reading Material	Understanding Agricultural Commodity Markets – EPW - December 29, 2012, Vol xlvii no 52 Leuthold RM, Junkus JC & Cordier JE. 1989. <i>The Theory and Practice of Futures Markets</i> . Lexington Books. Lofton T. 1993. <i>Getting Started in Futures</i> . 3rd Ed. John Wiley & Sons, 1993.
4	Websites	www.indiabudget.nic.in/ www.commodityonline.com/ in.reuters.com/finance/commodities
5	Journals	Agribusiness – An International Journal Decision Indian Journal of Agricultural Economics Indian Journal of Agricultural Marketing Indian Journal of Finance Journal of Agri-business Management Review Prabandhan Vikalpa

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	310RABM	Type	Subject – Elective
Course Title	Agricultural Marketing & Price Analysis – I		

Course Objectives:	
1	To impart adequate knowledge and analytical skills in the field of agricultural marketing issues
2	To enhance expertise in improving the performance of the marketing institutions and the players in marketing of agricultural commodities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Concepts in Agricultural Marketing: Characteristic of Agricultural product and Production – Problems in Agricultural Marketing from Demand and Supply and Institutions sides. Market intermediaries and their role - Need for regulation in the present context - Marketable & Marketed surplus estimation. Marketing Efficiency - Structure Conduct and Performance analysis - Vertical and Horizontal integration - Integration over space, time and form-Vertical coordination.	5 + 1
2	Marketing Co-operatives: APMC Regulated Markets - Direct marketing, Contract farming and Retailing - Supply Chain Management - State trading, Warehousing and other Government agencies– Market infrastructure needs, performance and Government role - Value Chain Finance.	5 + 1
3	Role of Information Technology and telecommunication in marketing of agricultural commodities: Market research-Market information service - electronic auctions (e-bay), e-Chaupals, Agrimarket and Domestic and Export market Intelligence Cell (DEMIC) – Market extension.	5 + 1
4	Spatial and temporal price relationship: Price forecasting – time series analysis – time series models – spectral analysis. Price policy and economic development – non-price instruments.	5 + 1
5	Project: Students should collect prices of one commodity per group from APMC for a fixed period and analyze the price trends and forecast future prices.	5 + 1

Learning Resources:		
1	Text Books	Singhal AK. 1986. <i>Agricultural Marketing in India</i> . Annual Publ., New Delhi.
2	Reference Books	Purecell WD & Koontz SR. 1999. <i>Agricultural Futures and Options: Principles and Strategies</i> . 2nd Ed. Prentice-Hall.
3	Supplementary Reading Material	Rhodes VJ. 1978. <i>The Agricultural Marketing System</i> . Grid Publ., Ohio. Shepherd SG & Gene AF. 1982. <i>Marketing Farm Products</i> . Iowa State Univ. Press.
4	Websites	www.market.ap.nic.in/ www.ncdc.in/ www.agricoop.nic.in/agristatistics.htm
5	Journals	Agribusiness – An International Journal Decision Indian Journal of Agricultural Economics Indian Journal of Agricultural Marketing Indian Journal of Finance Journal of Agri-business Prabandhan Vikalpa

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	311RABM	Type	Subject – Elective
Course Title	Microfinance		

Course Objectives:

1	To Appraise the state of microfinance in Indian Economy
2	To make students understand the concept and principles of microfinance
3	To help students to identify issues, linkages and role of technology that hinder the success of microfinance

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of Microfinance: What is Microfinance ? , Economically active poor, Microfinance Institutions, Trends in Poverty in India, Can Poverty be eradicated, Microfinance as a development tool: The India Experience	5 + 1
2	Subsidized credit to Microcredit: Progress of rural banking, growth of microcredit, RRBs and micro credit, sustainable micro credit, Microfinance delivery methodologies.	5 + 1
3	Microfinance Institutions: Why is credit microcredit booming?, credit delivery, four tier apparatus. NGO –SHG-Bank Linkage – Lending through NGOs, scalability – the new mantra of NGOs; State Sponsored Microfinance	5 + 1
4	Outreach and Viability: Impact assessment study of microfinance, innovative and creative microfinance models	5 + 1
5	Role of Technology: Technology as an Enabler – Case study	5 + 1

Learning Resources:		
1	Text Books	Microfinance - Redefining the Future, Somanath, Excel books

Firm as a Value Chain, Industries as Competitive Domain, Value Creation and Competitive Advantage. Market Based views and Resource Based views in Management. General Manager's Perspective on Managing Technology.	7 + 2
2	Technology & Wealth Creation: Role of Technology in wealth creation, Historical perspective, Creation of wealth, Long Wave Cycle, Evolution of Production Technology, Product Technology, Technology & the National Economy.	7 + 2
3	Critical Factors in Managing Technology: Creativity – Invention – Innovation. Link between Science and Technology. Types of Innovation. Creativity & Innovation. Bringing Innovation to Market. Technology – Price Relationship. The Timing Factor. The Vision to Change Strategy. Productivity, Effectiveness and Competitiveness. Leaders versus Followers.	7 + 2
4	Management of Technology - The New Paradigms: Technology Trends, Resources and the Business Environment, The Structure and Management of Organizations, Project Planning & Management, Management of Human Resources, MOT guiding principles for Managing Enterprises, Changes in the Business Environment – Communication, Integration, Collaboration, Strategic Directions of the Industry, Changes in Organizational forms and structures, Financial Sector Structure.	7 + 2
5	Management of Technology & Competitiveness: Definitions and Indicators of Competitiveness, Investment, Productivity, Trade, Standard of Living, Management of Technology & Global Competitiveness, Case of Japan, Singapore, Various Indices on Competitiveness - Standard of Living Indexes, Trade Indexes, Productivity Indexes, Investment Indexes, Patents Index. Emergence of the Tigers, Competitiveness – The Game of Nations, Competitiveness of Firms – The Micro Level. Competitiveness of India and China – a comparative analysis.	7 + 2

Learning Resources:		
1	Text Books	Management of Technology – The Key to Competitiveness and Wealth Creation, Tarek Khalil and Ravi Shankar, TMGH, New Delhi, 2 nd Edition.
2	Reference Books	Managing Technology and Innovation for Competitive Advantage, V K Narayanan, Pearson Education, 2009 Edition. Strategic Management of Technology & Innovation, Robert A Burgelman, Modesto A Maidique, Steven C Wheelwright, MGH International Edition.
3	Supplementary Reading Material	Technology, Management & Society – Peter Drucker, Harvard Business Review Press. Technology Management – Text and International Cases, Norma Harrison and Danny Samson, MGH. Managing Strategic Innovation and Change – A Collection of Readings, Michael L Tushman and Philip Anderson, Oxford University Press. 2 nd Edition. Management of Technology and Innovation – Competing through Technological Excellence, P N Rastogi, Response Books, 2 nd Edition.

Semester	III	Elective	Technology Management
Course Code	306TM	Type	Subject – Core
Course Title	Managing Innovation – I		

Course Objectives:	
1	To highlight the importance of innovation in competitive world of business
2	To describe various models of innovation and corresponding assets & knowledge requirements
3	To highlight the threat of disruptive technologies and its managerial implications

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>The Innovation Imperative - Why innovate? The changing world of business, Key Definitions – Creativity, Invention, Innovation, Business Design, Innovation to Energize, Innovate for Growth, Profit, Innovate for Survival, Managing Change, Creativity & innovation. Myths Surrounding Creativity, Difference between innovation and creativity.</p> <p>Sources of Innovation: Functional Sources of Innovation – Internal Value Chain, Spillovers from Competitors, Suppliers, Customers and Complimentary Innovators, University, Government & Private Laboratories, International Sources. Circumstantial Sources of Innovation – Planned Firm Activities, Unexpected Occurrences, Creative Destruction.</p>	7 + 2
2	<p>Models of Innovation– Static Models : Incremental versus Radical Innovation, Abernathy –Clark Model, Henderson – Clark Model, Disruptive Technological Change Model, Innovation Value – Added Chain, Strategic Leadership View, Familiarity Matrix, Imitability & Complementary Assets – Teece Model. Dynamic Models: Utterback – Abernathy Model, Tushman – Rosenkopf technology Life Cycle Model, Foster's S Curve.</p>	7 + 2
3	<p>Competencies, Assets and Knowledge: Profit Chain, Value Configurations – Value Chain, Value Network, Value Shop. Assets and Competencies. Assets – Coreness, Imitability, Profits. Competencies – Coreness, Imitability, Profits. Relationship between Competencies and Assets. Knowledge – Newness, Quantity, Tacitness. Sources of Assets and Competencies. Implications for Competition. Innovation and Competencies.</p>	7 + 2
4	<p>The Innovation Portfolio –What to innovate? Vision – Portfolios and Feelings, What is the right question? Identifying Feelings and Needs, Innovating Experiences, Battling Commoditization, Technology & Psychology, Innovation, Feelings, Needs: Creating Emotional Appeal, Searching for Innovation Opportunities. Process Innovation, Innovation Portfolios for Established Organizations. Pioneers, Migrators & Settlers.</p>	7 + 2
5	<p>Innovator's Dilemma: Sustaining versus disruptive technologies, trajectories of market need versus technology improvement, Value Networks, Implications of the Value Network for Innovation, Managerial Decision Making & Disruptive Technological Change, Value Networks and Characteristic Cost Structures, Resource Allocation & Upward Migration, Case Studies on Management of Disruptive Technological Change</p>	7 + 2

Learning Resources:		
1	Text Books	<p>Innovation Management , Allan Afuah, Oxford Indian Edition.</p> <p>Innovation Management ,ShlomoMaital and D V R Seshadri, Response Books, Sage Publications, New Delhi.</p> <p>Moore, G. Semester	III	Elective	Technology Management
Course Code	307TM	Type	Subject – Elective
Course Title	Technology Forecasting		

Course Objectives:

1	To understand the purpose of technology forecasting and techniques used for technology forecasting.
2	To appreciate the strengths and weaknesses of technology forecasting techniques.
3	To underline the need for different technology forecasting techniques for different purposes.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology Forecasting Methods – I: Expert Opinion Methods: Delphi (iterative survey), Focus Groups [panels, workshops], Interviews, Participatory Techniques Trend Analysis: Trend Extrapolation [Growth Curve Fitting], Trend Impact Analysis, Precursor Analysis, Long Wave Analysis Monitoring and Intelligence Methods: Monitoring [environmental scanning, technology watch], Bibliometrics [research profiling; patent analysis, text mining]	5 + 1
2	Technology Forecasting Methods – II: Creativity: Brainstorming [brainwriting; nominal group process (NGP)], Creativity Workshops [future workshops], TRIZ, Vision Generation, Science Fiction Analysis Scenarios: Scenarios [scenarios with consistency checks; scenario management], Scenario-simulation [gaming; interactive scenarios], Field Anomaly Relaxation Method [FAR]	5 + 1
3	Technology Forecasting Methods – III: Statistical Methods: Correlation Analysis, Demographics, Cross Impact Analysis, Risk Analysis. Modeling and Simulation: Agent Modeling, Cross Impact Analysis, Sustainability Analysis [life cycle analysis], Causal Models, Diffusion Modeling, Complex Adaptive System Modeling (CAS) [Chaos], Systems Simulation [System Dynamics, KSIM], Technological Substitution, Scenario-simulation [gaming; interactive scenarios], Economic base modeling [input-output analysis], Technology Assessment.	5 + 1
4	Technology Forecasting Methods – IV: Valuing/Decision/Economics Methods: Relevance Trees [futures wheel], Action [options] Analysis, Cost-benefit analysis, Decision analysis [utility analyses], Economic base modeling [input-output analysis]	5 + 1
5	Technology Forecasting Methods – V: Descriptive and Matrices Methods: Analogies, Backcasting, Checklist for Impact Identification, Innovation System Modeling, Institutional Analysis, Mitigation Analysis, Morphological Analysis, Road mapping [product-technology roadmapping], Social Impact Assessment, Multiple perspectives assessment, Organizational analysis, Requirements Analysis [needs analysis]	5 + 1

Learning Resources:

Semester	III	Elective	Technology Management
Course Code	308TM	Type	Subject – Elective
Course Title	Strategies for Information Goods and Network Economies – I		

Course Objectives:

1	To learn about the characteristic features of network and information goods (and related products).
2	To understand the distinctive impact of network and information goods on competitive strategies in these industries, and how to manage them.
3	To highlight distinctive role of pricing in case of information goods.
4	To highlight importance of network effects & strategies to exploit network effect.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Introduction to information and network goods. Cost structures, network effects, product complements, two-sided networks, standards, compatibility, product and price differentiation, Platforms and two-sided networks	5 + 1
2	Methods for Pricing and Price Discrimination: Demand, supply, price elasticity, price optimization, variety of pricing schemes, price discrimination, Pricing information goods, Characteristics of information goods, and how they affect product differentiation, price discrimination, versioning.	5 + 1
3	Game theory and competition: Introduction to the concept of Game theory. Competitive duopoly pricing and product decisions. Price Discrimination through Versioning and Bundling. Product bundling. The design and pricing of product bundles	5 + 1
4	Network Effects: Product Design, Launch, and Pricing Strategies, Multiple Dimensions of Value – Technology's standalone value, Networks Externality value. Markets/products as networks, positive feedback, compatibility. Adoption dynamics for network goods. Managing network goods. Competing for Design Dominance in Markets with Network Externalities. Dynamic pricing, product complements and bundles, versioning, product launch strategy	5 + 1
5	Strategies for Platforms and Two-Sided Markets: Determining which side to charge, how to balance growth across both networks. Determining firm structure in platform market.	5 + 1

Learning Resources:

1	Text Books	Carl Shapiro and Hal R. Varian. Information rules: a strategic guide to the network economy. Boston, MA, USA: Harvard Business School Press, 1998 Economics of Information Technology: An Introduction , Hal R. Varian, Joseph Farrell, and Carl Shapiro. Cambridge University Press, 2005.
2	Reference Books	Competition, Regulation and Strategy: The Information Technology Industry, Morris Game Theory and Business Strategy , Oberholzer-Gee and Yao
3	Supplementary Reading Material	The Economics of Network Industries. Oz Shy , Cambridge University Press, 2002.
4	Websites	The Information Economy and Network Economics (at UC Berkeley): lots of pointers to research resources http://www2.sims.berkeley.edu/resources/infoecon/Networks.html and data http://www.ifm.eng.cam.ac.uk/research/ctm/ http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/

---	----------	--

Semester	III	Elective	Technology Management
Course Code	309TM	Type	Subject – Elective
Course Title	Advanced Manufacturing Technology		

Course Objectives:	
1	To provide students with an understanding of the key concepts of advanced manufacturing technology used in modern manufacturing facility
2	To develop an understanding of the principles of operation and characteristics of specific technologies and processes.
3	To appreciate the effect of technologies on global manufacturing and competitiveness.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Advance Manufacturing Technology: Introduction to Advanced Manufacturing Technologies, Production System facilities, Manufacturing Support Systems, Automation in Production System, Manufacturing Operations, Product/Production Relationships, Cost of Manufacturing Operations.	5 + 1
2	Material Handling and Identification Technologies: Introduction to Material Handling, Considerations in Material Handling System Design, Material Transport Systems, Automated Guided Vehicle Systems, Cranes and Hoists, Storage Systems, Automated Storage Systems, Engineering Analysis of Storage Systems, Automatic Data Capture, Bar Code Technology.	5 + 1
3	Manufacturing Systems: Introduction to Manufacturing Systems, Components of a Manufacturing System, Conventional Manufacturing System, and Manufacturing Progress Functions. Single Station Manufacturing Cells: Single Station Manned Workstations, Single Station Automated Cells, Applications, Analysis of Single Station Cells.	5 + 1
4	Group Technology and Cellular Manufacturing: Part Families, Parts Classification and Coding, Production Flow Analysis, Cellular Manufacturing, Application Considerations in Group Technology, Quantitative Analysis in Cellular Manufacturing, Flexible Manufacturing Systems. Why consider FMS? What are FMS advantages over conventional manufacturing? FMS Management & Control Functions & Performance Statistics, FMS applications.	5 + 1
5	Rapid Manufacturing Processes: Classification of Rapid Manufacturing (RM) Processes- Additive/Subtractive/Formative Principles of various rapid manufacturing process, Typical Process Chain; Materials for RM; Operating principles, and characteristics of R M processes; Introduction of alternative technologies like Laminated Object Manufacturing , Shaped Deposition, Stereo-lithography , 3D printing, Selection of RM processes based on the product requirements; Process selection, Applications and Case studies.	5 + 1

Learning Resources:		
1	Text Books	Automation, Production Systems and Computer-Integrated Manufacturing, Mikell P. Groover, Prentice Hall. Flexible Automation and Intelligent Manufacturing, Begell House, 1998
2	Reference Books	Manufacturing Engineering and Technology, S.Kalpajian, S.Schmid, Prentice Hall, 2006, 5th Edition.
3	Supplementary Reading Material	Computer Integrated Manufacturing and Engineering, Rembold, Nnaji, Storr, Addison Wesley, 1994 Computer-Aided Manufacturing, Tien-Chien Chang, Richard A. Wysk, Hsu-Pin Wang, Prentice Hall Gibson, I, Rosen, D W., and Stucker, B., Additive Manufacturing Methodologies: Rapid Prototyping to Direct Digital Manufacturing, Springer, 2010. Hopkinson, N, Haque, R., and Dickens, P., Rapid Manufacturing: An Industrial Revolution for a Digital Age: An Industrial Revolution for the Digital Age, Wiley, 2005.
4	Websites	http://www.wohlersassociates.com http://www.materialise.com/materialise/view/en/449917-Rapid+Manufacturing.html http://www.ifm.eng.cam.ac.uk/research/ctm/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/
5	Journals	International Journal of Technology Management Journal of Technology, Management and Applied Engineering Journal of Manufacturing Science and Engineering, Transactions of the ASME

Semester	III	Elective	Technology Management
Course Code	310TM	Type	Subject – Elective
Course Title	Product Strategy for High Technology Companies – I		

Course Objectives:

1	To increase student's awareness of the forces driving the competition among technology-based companies & need for strategic approach to product management in high technology companies.
2	To provide an understanding of decision making frameworks for managing products in high technology companies.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Strategy & Vision: Impaired Vision - Tunnel Vision, Blindness, Shortsightedness, Hallucination. Exceptional Vision – 20/20 Vision, Peripheral Vision, Foresighted Vision. Core Strategic Vision – Focus, Clarity, Completeness, Feasibility. Change in Vision – Need for Clarification, Evolution, Obsolescence. Vision Guides Strategy. Aligning Vision and Strategy: CSV Boundary Framework, Aligning Financial Plans/Economic Model. Aligning Market Trends. Aligning Technology Trends/Strategy. Aligning Product Strategy. Aligning the Business Charter. Aligning Core Competencies / Value Chain.	5 + 1
2	Product Platform Strategy: Ingredients of Product Platform Strategy. Benefits of Platform Strategy. Product Platform of Microsoft, Apple, AT & T, Walt Disney, Amazon, etc. Product Platform Management. Product Line Strategy: Ingredients of Product Line Strategy. Product Line Strategy of Amazon, HP Color, Dell, Walt Disney, etc. , Product Line Management.	5 + 1
3	The MPP framework: Product Structure Strategy. The Market Platform Plan (MPP) Framework – Markets & Market Segments, Economic and Business Case, Product Offerings and Product lines, Product Platforms, Value Chain Strategies and Ongoing MPP Management. Managing the Technology Elements.	5 + 1
4	Successful Expansion Paths: Leveraging Product or Technical Competencies. Leveraged Expansion framework. Leveraged Expansion Paths.	5 + 1
5	Strategic Balance and Portfolio Management: Strategic Balance Tradeoffs - Focus versus Diversification, Short Term versus Long Term, Current Platforms versus New Platforms, One Business Unit versus Another, Research versus Development. High versus Low Risk, Financial Return. Setting priorities. Beyond Portfolio Management.	5 + 1

Learning Resources:		
1	Text Books	Product Strategy for High Technology Companies, Michael McGrath, MGH, 2nd Edition.
2	Reference Books	Marketing of High-Technology Products and Innovations by Jakki Mohr, Sanjit Sengupta, Stanley Slater, 2nd Edition
3	Supplementary Reading Material	Marketing High Technology by William H. Davidow Product Marketing for Technology Companies by Mark Butje, Elsevier
4	Websites	http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/ http://www.ifm.eng.cam.ac.uk/research/ctm/
5	Journals	International Journal of Technology Management International Journal of Technology Intelligence and Planning

Semester	III	Elective	Technology Management
Course Code	311TM	Course Type	Subject – Elective
Course Title	Foundations of Knowledge Management		

Course Objectives:	
1	To familiarize the participants with basic concepts of data, information & knowledge
2	To highlight importance of knowledge management in complex environments.
3	To provide an overview of systems, technologies & infrastructure required for knowledge management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Knowledge 1.1 Meaning of data, information, knowledge and expertise 1.2 Meaning of epistemology, Types of Knowledge - Subjective & Objective views of knowledge, procedural Vs. declarative, tacit Vs. explicit, general Vs. specific. 1.3 Types of expertise – associational, motor skill, theoretical 1.4 Characteristics of knowledge – explicitness, codifiability, teachability, specificity 1.5 Reservoirs of knowledge	5 + 1
2	Introduction to Knowledge Management (KM) 2.1 Meaning of Knowledge Management, Forces Driving 2.2 Organizational issues in KM 2.3 KM Systems & their role 2.4 Relevance of KM in today's dynamic & complex environment 2.5 Future of Knowledge Management	5 + 1
3	KM Solutions for capture, sharing & applications 3.1 KM Processes, 3.2 KM Systems, 3.3 Mechanisms & Technologies	5 + 1
4	KM Infrastructure 4.1 Organizational Structure 4.2 Organizational Culture 4.3 Communities of Practice 4.4 Information Technology Infrastructure 4.5 Common Knowledge	5 + 1
5	KM Impact 5.1 Dimensions of KM Impact – People, Processes, Products & Organizational Performance 5.2 Factors influencing impact – universalistic & contingency views 5.3 Assessment of KM Impact – Qualitative & quantitative measures 5.4 Identification of appropriate KM solutions	5 + 1

Learning Resources:		
1	Text Book	Irma Becerra-Fernandez, Avelino Gonzalez, Rajiv Sabherwal (2004). <i>Knowledge Management Challenges, Solutions, and Technologies</i> . Prentice Hall. ISBN: 0-13-109931-0.

Semester	III	Elective	Technology Management
Course Code	312TM	Type	Subject - Elective
Course Title	Business Intelligence and Analytics		

Course Objectives:

1	To understand principles of BI and Analytics at conceptual level
2	To understand application areas for implementing BI and Analytics
3	To develop skills to design BI and Analytics projects

Syllabus:

Unit Number	Contents	Number of Sessions
1	Business Intelligence: definition , concept and need for Business Intelligence, Case studies BI Basics : Data, information and knowledge, Role of Mathematical models	5+1
2	Business Analytics at the strategic level: Strategy and BA , Link between strategy and Business Analytics, BA supporting strategy at functional level, dialogue between strategy and BA functions, information as strategic resource Business Analytics at Analytical level : Statistical data mining, descriptive Statistical methods, lists, reports, automated reports, hypothesis driven methods, data mining with target variables, cluster analysis, Discriminate analysis, logistic regression, principal component analysis.	5+1
3	Business Analytics at Data Warehouse Level Designing physical database , Deploying and supporting DW/BI system	5+1
4	Business Intelligence Architectures: Cycle of Business Intelligence Analysis, Development of Business Intelligence System, spread sheets, concept of dashboard, OLAP, SOA, decision engineering. BI Tools: Concept of dashboard.	5+1
5	BI Applications in different domains- CRM, HR, Production	5+1

Learning Resources:

1	Text Books	Decision Support and Business Intelligence Systems, Turban, Sharda, Delen, Pearson
2	Reference Books	Business Intelligence Success Factors Tools for aligning your business in the global economy by Olivia Parr Rud, John Wiley and sons , 2009 The Profit impact of Business Intelligence by Steve Williams and Nancy Williams , Morgan Kauffman Publishers/ Elsevier, 2007 Business Intelligence: Practices, Technologies, and Management- Rajiv Sabherwal, Irma Becerra-Fernandez Business Analytics for Managers : Taking Business Intelligence beyond reporting by GERT H.N. Laursen, JesperThorlund, Wiley and SAS Business Series, 2010
3	Supplementary Reading Material	The Great Mind Challenge for Business, Vol. 1 and 2, IBM (I) Pvt. Ltd, Bangalore
4	Websites	www.sas.com www.smartdatacollection.com http://hbswk.hbs.edu/ http://www.ifm.eng.cam.ac.uk/research/ctm/
5	Journals	International Journal of Business Intelligence Research ,

Semester	III	Elective	Technology Management
Course Code	313TM	Type	Subject – Elective
Course Title	Designing Organizations for Uncertain Environment		

Course Objectives:	
1	To develop and acquire cognitive framework to understand and analyze the hyper-turbulent international business environment in the era of technological discontinuity.
2	To gain insights into strategic models that successful organizations deploy to develop their strategies.

Semester	IV	Specialization	NA
Course Code	402	Type	Generic Core
Course Title	Dissertation		

Course Objectives:	
1	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, and perceptions along with the experience needed to constitute a professional identity.
2	To provide means to immerse students in actual supervised professional experiences
3	To gain deeper understanding in specific areas.

The student shall work under the supervision of the Faculty and carry out a dissertation and submit a structured report in TWO hard copies & one soft copy (CD). *In the interest of environmental considerations, students are encouraged to print their dissertation reports on both faces of the paper.*

The student is required to conduct advanced research on a topic related to one (or more) of contemporary issues in management. The topic is chosen in consultation with the student's supervisor. The student will prepare and present a detailed research proposal prior to starting the work. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic before commencing the dissertation work. A dissertation outlining the entire problem, including a survey of literature and the various results obtained along with their solutions is expected to be produced. The student must submit the completed dissertation and make an oral presentation of the same. Through the dissertation, the student is expected to furnish evidence of competence in understanding varied aspects of the theme/topic selected and a deep understanding of the specialty area. The completion of the dissertation / project shall be certified by the Faculty Guide & approved by the Director of the Institute.

Dissertation shall have a weightage of 2 credits. The Institute shall conduct a viva-voce for evaluation of the dissertation, for 50 marks. The panel shall comprise of 2 internal Faculty members (One who has supervised the student and the other one as Jury) nominated by the Director. The Institute may invite an additional external examiner from the industry. Copies of Dissertation report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

**MBA SYLLABUS: SEMESTER IV
MARKETING MANAGEMENT - SPECIALIZATION**

Semester	III	Specialization	Finance
Course Code	408FIN	Type	Subject – Elective
Course Title	Financial Modeling using Excel		

Course Objectives:

1	To develop the ability to utilize the core functionality of excel in decision framework to solve managerial problems in the finance functions of the business.
2	To master modeling techniques to eliminate the substantial risk of poor spreadsheet coding.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Modeling Practice And Principles: Making decisions based on numbers, Features of MS Excel to its maximum advantage to calculate and communicate decision information. Understanding The Make-Up Of Analytical Decision Calculus, How problems in business are framed, Construction of integrated financial statement, Developing the decision matrix, Case Studies. Excel 2010 Logic And Tool Sets - How Excel is structured – the Toolsets, The Excel Ribbon Interface, Understanding Excel Objects, The limitations of Excel, Working With Functions - Utilizing the existing Excel formulae functions: Financial, Logical, Date and Time, Lookup and Reference, Statistical, Strategy for developing nested formulae functions, Good Excel coding techniques. Consolidation: Linking principles in excel, Consolidation function, Outlining function, Linking to external data sources.	5 + 1
2	Exploring The Visualization Power Of Excel: Specific functions of Excel, Advanced Chars, Understanding the Excel for Charts, What are the appropriate graphs to assist in analytics? Examining the different types of graphs, Advanced graphing formatting techniques, Creating interactive graphs. Advanced Formatting Techniques - Formatting strategies in Excel – how we develop rich reports, Examining the Conditional Formatting functionality, Inserting Objects into Excel. Developing A Dashboard - What is a dashboard and good design principles, Utilizing Indirect, Lookup and Match functions, Using SLICERS, Case Study – Producing world class Monthly Management Accounts.	5 + 1
3	Data And Statistical Analysis Of Large Tables: Data Management In Excel, Examining the concept of data and how excel deals with them, Creating data input tables , Data cleaning functions, Creating tables, Filtering functions, Special functions using tables, Case study – analyzing a large marketing customer. Analyzing Data with Excel Pivot - Understanding what is OLAP, Importing from external Databases (SQL and Access), Performing calculations in PIVOT TABLE, Creating graphs in PIVOT CHART, Case Study – analyzing a large Sales Database. Data Analysis: Data Summation and Graphing using the Data Analysis Pack, Introduction to Inference Capabilities, Working with advanced statistical functions, Forecasting, Multiple Regression, Other Advanced Functions - Linear Programming, Data mining Toolset from SQL 2008.	5 + 1

4	Developing The Interactive Model: The Modeling Methodology, Designing the Model Structure , Developing the Input Screen and assumption interface, Incorporating exogenous and macroeconomic dimensions, Structuring the Calculation Sheets, Developing The Calculation Modules - Investment size and timing, Capacity Modeling, Revenue Modeling with major emphasis on pricing elasticity and demand drivers, Cost modeling and the impact of inflation. Funding Considerations - Structuring the Funding Model, Determining the Weighted Average Cost of Capital, Developing the Debt Funding Repayment Schedules, Integrating the modules, Developing the Working Capital requirements - Linking the CAPEX, Income Statement and Working Capital to Cash Flow Statement, Integrating the Cash flow Statement to the Balance Sheet, Developing the Free Cash Flow Model for NPV , Summarizing the results. Auditing The Model - Spreadsheet Audit, Stress testing the model to determine logic, Documentation.	5 + 1
5	Modeling Analytics: Developing The Output Screens And Report, Developing an Investment Dashboard, Preparing the report outputs, Report presentation dynamics, Examining The Output, "What If" functionality of Excel to analyze the sensitivity of the numbers, Preparing the DATA TABLES to determine the impact of key variables, Utilizing the SCENARIO MANAGER to determine profitability, Utilizing the GOAL SEEK function, Preparing The Investment Report To Management- Preparation of Investment Report that complies with disclosure requirement, Dealing with risk and the limitations of the assessment, Assessing the Cash Flow of a "no-invest" option, Writing up the investment report utilizing the rich features of Word 2010. Presenting the Report - Using PowerPoint 2010, Web enable your report, Good presentation technique.	5 + 1

Note:

1	Depending upon the data available regarding research projects available with the institute, small assignments can be created to develop the models using Excel. Selecting different sectors and using their cost structure develop models for financial analysis and decision making. Risk measurement and portfolio management tools also can be incorporated in the same.

Semester	IV	Specialization	Finance
Course Code	409 FIN	Type	Subject – Elective
Course Title	Indirect Taxation		

Course Objectives:

1	To make students familiar with various indirect tax laws in India
2	To create awareness about the tax planning in the field of indirect taxes

Syllabus:

Unit Number	Contents	Number of Sessions
1	Canons of Taxation - Indirect Taxes, Features of Indirect Tax. Constitutional validity. Indirect Tax Laws, administration and relevant procedures	3 + 1
2	Central Excise: The Central Excise Law, Goods, Excisable goods, Manufacture and manufacturer, Classification, Valuation, Related Person, Captive Consumption, CAS 4, CENVAT. Basic procedures, Export, SSI, Job Work. Assessment, Demands, Refund, Exemptions; Powers of Officers. Adjudication, Appeals, Settlement Commission, Penalties. Central Excise Audit and Special Audit under 14A and 14AA of Central Excise Act, Impact of tax on GATT 94, WTO, Anti- Dumping processing; Tariff Commission and other Tariff authorities.	7 + 1
3	Customs laws: Basic concepts of customs law; Territorial waters, high seas; Types of custom duties., Anti-Dumping Duty, Safeguard Duty; Valuation; Customs Procedures, Import and Export Procedures, Baggage, Exemptions, Warehousing, Demurrage; Project Imports and Re-Imports; Penalties and Offences. Export Promotion Schemes. EOU, Duty Drawback, Special Economic Zones.	5 + 1
4	Service Tax: Introduction, Nature of Service Tax, Service Provider and Service Receiver, Registration procedure, Records to be maintained, Classification of taxable services, Valuation of taxable services, Exemptions and Abatements, Payment of service tax Return, CENVAT Credit Rules, Export and import of services, Other Procedural aspects of Service Tax, Taxable Services.	5 + 1
5	Central Sales Tax Act & VAT Act: CST: Introduction, definition of sale under CST; Stock transfer, branch transfer under CST; Interstate sale, Various forms for filing of sales tax returns under CST; Sales outside territorial waters under CST; Procedures. Practical examples on CST VAT: Salient feature of State VAT Acts, Definitions, Treatment of stock & branch transfer under State VAT Acts, Filing & Return under State VAT Acts, Accounting & Auditing VAT.	5 + 1

Learning Resources:		
1	Text Books	Systematic Approach to Indirect Taxes - Kumar, Sanjeev. Text Book of Indirect Tax – Sinha P.K.
2	Reference Books	Indirect Taxes: V.S.Datey- Taxman Publication M VAT- Subramanian- Snow-white Publications
3	Supplementary Reading Material	Various Bare Acts
4	Websites	Websites of Customs Department Websites of Excise Department Websites of Sales Tax Department
5	Journals	The Chartered Accountant The Management Accountant

Semester	IV	Specialization	Finance
Course Code	410FIN	Type	Subject – Elective
Course Title	Financial Risk Management		

Course Objectives:

1	To understand what is risk and the basic concepts of modeling its application for measuring and managing financial risks
2	To measure volatility in market prices, highlight Risk Management issues in investments.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Risks: Financial Risk: An Overview, Evolution, and the Environment, Risks definition (market, credit, liquidity, operational), more specifically on the identification of different forms of risk (currency, interest rate, equity, commodity). Market Data Analysis, Probability and distributions of asset prices, measuring return and risk, Modeling Risk Factors, Using implied volatility in Value-at-Risk measures.	5 + 1
2	Risk and volatility Measurement : Risk and volatility Measurement, the issue of time aggregation, different measures of volatility such as EWMA, ARCH & GARCH processes, volatility clusters and the issue of time varying volatility . Measuring risk using Value-at-Risk, concept and computation of VAR using variance-covariance approach, Calculating portfolio risk of more than one Assets. Historical simulation & multifactor Var, marginal and relative var, expected shortfalls, treasury applications Stress testing and back-testing, Forecasting correlation & Volatility during market crash, Extreme Value Theory - Basic Principles, Extreme Value Theory methods in measuring financial risk, Monte Carlo simulation, issues in generating price process (Brownian Motion, Ito Process), Cholesky decomposition in computing multi-asset VaR. Risk & Forecasting issues in asset prices (exchange rates & interest rates), modeling interest rates such as Cox-Ingersoll-Ross Models, ARMA processes in generating currency forecasts and using in decision making.	5 + 1
3	Currency risk analysis: Currency risk analysis in global investing, interest rate parity (covered and uncovered), yen-carry trade syndrome, risk environment in Indian Forex markets, forwards and non- deliverable forwards, cross-currency risk analysis. Value at risk for fixed income portfolio, cash flows mapping in fixed income portfolios, relation of Var measures with duration, comparing with yield v/s price volatility, etc.	5 + 1
4	Credit Risk Basics: Probability of Default, Credit ratings & Transition Matrix analysis, Contingent claim approach and the KMV Model, Credit Risk Management and Credit VaR. Indian environment in VaR applications (NSE, BSE, NCDEX, CCIL), RBI guidelines for credit & market risk management, VaR based margining.	5 + 1
5	Integrated Risk Management framework: Operational, An integrated approach to risk management considering issues such as operational, supervisory, legal, Accounting, Issue of Governance ratings and risk in institutions, the role of risk management offices (front, middle and back offices), Risk reporting, Risk Budgeting and Setting Risk Limits, limits using notional, stop loss and Var based limits, establishing trading limits.	5 + 1

Note:

1	In addition to suggested case discussion, live cases can be built and studied using Excel, live price movements on stock exchanges along with statistical tools. Valuation and risk modeling with the link to Financial statement analysis can be used to create live assignments.

Semester	III	Specialization	Finance
Course Code	411FIN	Type	Subject – Elective
Course Title	Online Trading of Financial Assets		

Course Objectives:

1	To understand how to do the trading of financial assets online.
2	To know practically the prerequisites of trading.
3	To analyze the securities using the MIS reports available online.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of Capital Markets: Overview of Indian Capital Market and Global Capital Market, Stock exchanges in India: Vision, Mission and Functions, Products & Participants, Key indicators of securities market, market segments & their products, options available with investors for trading online.	3 + 1
2	Products in Capital Markets: Capital Market(Equity, Indices, MFs, ETFs, IPOs, Offer for sale, IPP, SLBs) Derivatives (Equity derivatives, Currency Derivative, Interest rate derivatives, Global indices) Debt (Retail debt market, Wholesale debt market, Corporate bonds) Investors' rights and obligations	6 + 1
3	Trading Online: Pre requirements and documentation, Online trading and mobile applications, Verifying trades, contract notes, bills, demands Verifying margin requirements and balance in trading account	6 + 1
4	Analysis using online information: Using online reports and charts for analysis and decision making (daily, monthly)...creating data base for your portfolio, Understanding Trading, Clearing & settlement and Risk Management related to each product in Capital Market	6 + 1
5	Profit Management: Managing online 3 portfolios and related customized market watch (e.g. My NSE) along with related detailed MIS in excel	4 + 1

Learning Resources:

Semester	IV	Specialization	Finance
Course Code	412FIN	Type	Subject – Elective
Course Title	Banking Operations – II		

Course Objectives:

1	To get acquainted with the changed role of Banking post 1991 Reforms.
2	To know the lending and borrowing rates along with the various mandatory reserves.
3	To know the procedural compliances by bank's functionality.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Role of Banking in India: Banking in India pre and post-independence, Banking in post 1991 Reforms, Role of foreign players in Indian Banking, change in the role of Nationalized banks	5 + 1
2	Legal Aspects of Banking in India: Commercial Laws with reference to Indian Banks, Security Norms, Core Banking Environment, Standard Books maintained for different accounts	4 + 1
3	Interest Rates by and for banks: Differentiation in lending and borrowing rates, Interest as an important source of revenue of banks, various interest rates in funding schemes of banks, SLR, CRR, REPO and REVERSE REPO Rate	4 + 1
4	Funding and Procedural Compliances: Working Capital Gap, BASEL Norms for Working Capital Finance, Significance of documentation and procedural compliances in funding by the banks, Modes of Payments including Letters of Credit, Deferred Payments, Valuation of Securities, Internal Checks and Controls in Banks	6 + 1
5	International Banking: Currency Swaps, Multinational Banking, International Risk Management, Asset Liability Management, Exposure Management, Offshore Banking, International Financial Institutions, Operations of Indian Banks abroad	6 + 1

Semester	III	Specialization	Finance
Course Code	413FIN	Type	Subject – Elective
Course Title	Wealth and Portfolio Management		

Course Objectives:	
1	To understand the concept of Wealth Management.
2	To understand the concept of Portfolio Management.
3	To understand various tools and methods of evaluating the portfolio.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: objectives of investment decisions, types of investors, goal of investors, investment opportunities (debt instruments, equity instruments, derivatives and others), Investment and risk management : equity, debt, alternate assets, Investment products and services.	5 + 1
2	Wealth Management: Concept, measuring investment returns in wealth management, investment vehicles of wealth management, managing investment risk in wealth management, Indian Tax Laws & Taxation of investment products, wealth management planning / financial planning, Financial planning process, systematic approach to investing.	4 + 1
3	Portfolio Management - Active v/s Passive Portfolio Management, Costs of Management – Entry / Exit load and fees, Net Asset Value, Classification of funds, Phases of portfolio management, evolution of portfolio management, role of portfolio management, Portfolio building process – benchmark portfolios, market index portfolios, approaches for building portfolios - building bond portfolios, equity portfolios, mixed portfolio, Rebalancing Portfolios, Cost benefit analysis of Portfolio Rebalancing, Portfolio Management Plans, Portfolio Management plans under different market scenarios.	6 + 1
4	Portfolio analysis & Selection: Expected return of portfolio, risk of a portfolio, Diversification - a tool for reducing risk, portfolio having more than two securities Portfolio Revision: Need for revision, Meaning of portfolio revision Constraints, strategies, plans for revision Portfolio Evaluation: Need, meaning, Differential return, Decomposition of performance, Sharpe's Portfolio Performance Measure, Treynor's Portfolio Performance Measure, Jensen's Portfolio Performance Measure. Forecasting Portfolio Performance & Hedging Portfolio Risk	4 + 1
5	Portfolio Theory - Efficient Market Theory, Capital Asset Pricing Model (CAPM), Random Walk theory, Markowitz Model, Sharpe's single index portfolio selection method, Arbitrage Pricing Theory	6 + 1

Semester	III	Specialization	Finance
Course Code	414FIN	Type	Subject – Elective
Course Title	Fixed Income Securities		

Course Objectives:	
1	To analyze the fixed income securities markets and its implications for investments.
2	To explain the market characteristics, instruments, selling techniques, pricing and valuation issues with money market instruments.
3	To explain the specific features of the Indian Fixed Income Securities Markets.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Fixed Income Markets, Institutional Arrangements, Market Participants and Instruments, Investors Perspectives, & Market Conventions, features of government securities market, Understanding market linkages, bonds and money market instruments, MIFOR Curve. Risk Identification in Bonds: Duration, Convexity, and Immunization. Risk measurement in fixed income securities using value at risk, STRIPS, Theories of Term Structure of Interest Rates, Term structure and the economy, Treasury Securities Auction, Market Implications, When-Issued markets, Government securities auction & Bidding, Uniform v/s discriminatory auction, bidding behavior, winners curse analysis.	5 + 1
2	Bond Valuation: Time Value of Money, Price and Yield Conventions, Bond Valuation under flat term structure, Yield & return & horizon return, Valuation of other Bonds, Floating Rate securities, index bonds, illiquid bonds, Corporate Debt Valuation, valuation of convertibles, Bond Indexing, methodology for constructing a bond index, index return comparison. Yield Curve Analysis: Par Value, Zero, Spot Curve, Bootstrapping, spot & forward rates, (Nelson-Seigel model of the Indian NSE)	5 + 1
3	Auction Game: Portfolio construction, setting portfolio objectives, interpreting portfolio parameters, Passive v/s Active portfolio management strategies, bullet v/s barbell, other strategies. Global Bond Markets, foreign currency bonds, dual currency bonds, analysis of global bond spread behavior in recent times.	5 + 1
4	Fixed Income Derivative Markets: FRAs, Interest rate Swaps, swap pricing and swap curve, Interest rate futures, Interest Rate Options, Caps & Floors pricing.	5 + 1
5	Advanced Term Structure Modeling (Cox-Ingersoll-Ross, Vasicek), Black-Derman-Toy (BDT) model representing binomial tree model of valuation of bonds with embedded options, Markets for Asset Backed Securities, Prime and Subprime Mortgage-Backed Securities. Fixed Income Investing: An Analysis & Strategies, Summary of learning experience.	5 + 1

Learning Resources:		
1	Text Books	Fixed-Income Securities: Valuation, Risk Management and Portfolio Strategies (The Wiley Finance Series) – Lionel Martelline, Philippe Priaulet, Stephane Priaulet.
2	Reference Books	Fixed Income Securities: Dun & Bradstreet The Handbook of Fixed Income Securities - Frank J. Fabozzi, Steven V. Mann
3	Supplementary Reading Material	Fixed Income Markets and Their Derivatives - Suresh Sundaresan
4	Websites	www.nseindia.com www.bseindia.com www.fimmda.org
5	Journals	Journal of Portfolio Management Journal of Private Equity Journal of Investment Management

Semester	III	Specialization	Finance
Course Code	415FIN	Type	Subject – Elective
Course Title	Technical Analysis		

Course Objectives:	
1	To understand the basics of technical analysis and its applications.
2	To understand how various types of charts are used to give recommendation on stocks.
3	To understand the psychology behind a pattern and its formations.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technical Analysis :Technical analysis – definition and concept, Price discounts everything , Price movements are not totally random , Technical Analysis: the basic assumptions, Strengths and weakness of technical analysis, Importance of technical analysis, Constructing and Interpreting Charts and the significance of volume while using patterns, chart patterns (bar chart, line chart, point & figure chart & candle stick chart), Understanding the psychology behind a pattern and its formation, Evolving a Trading strategy based on patterns, Candlestick analysis.	5 + 1
2	What to look for on charts – Trends, Support & Resistance levels, Moving Average, P Gaps, Volume, Comparative Relative Strength, Head and shoulders top reversal, Inverted head and shoulders, Head and shoulders bottom, Double top and double bottom, Rounded top and bottom, Gap theory, Common gaps, Breakaway gaps, Runaway/continuation gap, Exhaustion gap, Island cluster.	5+1
3	Indicators and Oscillators : Indicators - Covering the set of classical as well as unconventional indicators and focus on their application towards investments / positions / day trading, Moving Averages : An in-depth study of Moving Averages and the role it plays in determining a trade, multiple uses of Moving Averages for different time horizons of trades, Oscillators, Relative strength index , What is momentum? Applications of RSI , Overbought and oversold , Divergence , Stochastic , William %R, Real life problems in use of RSI, Advanced concepts - Moving average convergence/divergence(MACD) , calculations for MACD , MACD benefits , uses , Money Flow Index, Bollinger Bands, Using multiple indicators for trading signals, Price sensitive technique, Volume sensitive techniques , Composite methods, How to use tool kit of trading techniques? Trading market tool kit applications, Bull market tool kit applications, Bear market tool kit applications, Trading market changing to bull market tool kit application , Trading market changing to bear market tool kit application, Bull market changing to trading market tool kit application , Bear market changing to trading market tool kit application.	6 + 1
4	Trading Strategies : Day trading, Advantages of day trading, Risks associated with risk day trading, Strategies for day trading, Momentum trading strategies. Technical Theories : Dow Theory and Elliot Wave Theory - Introduction , Principles of Dow Theory , Significance of Dow Theory , Problems with Dow Theory , Elliot Wave - Introduction , Fundamental Concept , After Elliott	4 + 1
5	Trading Psychology & Risk Management : Introduction , Risk Management , Components of risk management, Stop loss, Analyze reward risk ratio, Trail stop loss, Booking Profit, Uses of stop loss , Qualities of successful trader , Golden rules of traders , Do's and don'ts in trading , Rules to stop losing money , Choosing the right market to trade , Importance of discipline in trading.	5 + 1

Learning Resources:		
1	Text Books	How to select stocks using technical analysis – Martin J. Pring Technical analysis of financial markets – a comprehensive guide to trading methods and applications – John J. Semester	III	Specialization	Finance
Course Code	416FIN	Type	Subject – Elective
Course Title	Commodity Market & Derivatives		

Course Objectives:	
1	To equip young managers with the knowledge of emerging commodities derivatives trading practices in India.
2	To explain the regulatory framework of these markets and domestic and international historical developments in commodities market.
3	To highlight the importance of hedgers, speculators and arbitrageurs.
4	To highlight the importance of Commodity indices as an investment class.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Historical changes and growth of global and domestic Commodities derivatives markets, FCR Act 1952 and Regulatory structure of Commodities Derivatives Markets in India, Commodities as a New Asset Class, International commodity indices and as an investment tool for investors, Internationally traded Commodities based ETFs, Difference between commodity and financial derivatives, Evolution of Commodity Exchange, NCDEX Platform - Structure of NCDEX, exchange membership, capital requirements, commodities traded on NCDEX platform, instruments available for trading, pricing of commodity futures, trading, clearing, settlement and risk management, use of commodity futures in hedging, speculation and arbitrage.	5 + 1
2	Product Design: Issues Related to Product Design and contract specifications, Issues related to Spot price and present practices of commodities exchanges, Basis Risk and its importance in pricing, Commodity Options on Futures and its mechanism	5 + 1
3	Market Mechanism: Clearing House operations and Risk Management Procedures, Delivery Related Issues like delivery centers, deliverable varieties, assaying, Issues related to monitoring and surveillance by Exchanges and Regulator, Role of intermediaries in Commodities Markets	5 + 1
4	Agricultural Commodities Markets & Non- Agricultural Commodities Markets: Issues in Agricultural Commodities Markets, Agricultural Commodity Futures trading pattern in Exchange – Case study , Issues in Non-Agricultural Commodities Markets, Commodities Derivative Exchanges and design of the markets, Non- Agricultural Commodity Futures trading pattern in Exchange – Case study	5 + 1
5	Regulation Framework & Taxation Aspects: Essential Commodities Act and role of state governments, Intermediaries, Investor Grievances and arbitration, Implications of Sales Tax, Warehousing Act Bill and its implications. Commodity Research: Introduction to Fundamental and technical analysis of commodity.	5 + 1

Learning Resources:

2	Reference Books	Commodities and Commodity Derivatives: Modeling and Pricing for Agricultural, Metals and Energy – Helyette Geman Risk Management in Commodity Markets: From Shipping to Agricultural and Energy (The Wiley Finance Series) – Helyette Geman Guide to Indian Commodity Market : Ankit Gala & Jitendra Gala
3	Supplementary Reading Material	NCFM Module on Commodity Derivatives Capital Market Magazine
4	Websites	www.nseindia.com www.bseindia.com www.mcxindia.com www.ncdex.com
5	Journals	International Journal of Financial Markets and Derivatives Financial markets, Institutions and Instruments

Semester	IV	Specialization	Finance
Course Code	417FIN	Type	Subject – Elective
Course Title	Practice of Life Insurance		

Course Objectives:	
1	To provide an understanding of life insurance products
2	To provide an understanding of the functioning of life insurance

Syllabus:

Unit Number	Contents	Number of Sessions
1	Life Insurance Organization: Introduction, Organizing, Internal Organization, The Distribution System, Appointment of Agent, Functions of Agent, Continuance of Agency, Trends in Life Insurance, Premiums and Bonuses, Premium, Risk management, Net and Pure Premium, Premium Calculation, Actuarial Valuation, Bonus, Reversionary Bonus	5 + 1
2	Plans of Life Insurance: Death Cover , Survival Benefit , Term Assurance , Pure Endowment ,With Profit and Without Profit Policies , Joint Life Policies , Children's' Plans, Variable Insurance Plans, Riders, Postal Life Insurance. Annuities Group Insurance: Meaning of Group Insurance, Types, Group Gratuity Schemes, Ways to meet Gratuity Liability, Group Superannuation Scheme , Group Leave Encashment Scheme, Other Group Schemes. Social Security Schemes, Other Special Need Plans, Industrial Life Insurance, Married Women's Property Act Policies , Key Man Insurance, Plans Covering Handicapped. Health Products Linked Insurance Plans: What Is Linked Policy, Equity Funds, Debt Funds, Money Market Funds, Liquid Funds, Balanced Funds, Flexibility, Top-Up-Premium Holiday, Net Assets Value, Annuities and Pensions, IRDA Guidelines.	5 + 1
3	Application and Acceptance: Principle of Utmost Good Faith, Insurable Interest, Prospectus , Proposal Forms and Other Related Documents Alterations, Duplicate Policy. Premium Payment , Lapse and Revival , Age, Premium , Where To Pay, Surrender Values, Non-Forfeiture Option, Revival, Special Revival Scheme, Installment Revival Scheme, Loan-Cum – Revival Scheme. Assignment, Nomination, Loans, Surrenders, Foreclosure	5 + 1
4	Policy Claims: Policy Claims, Maturity Claims, Survival Benefit Payments, Death Claims, Waiver of Evidence of Title, Early Claims, Claims Concession, Presumption of Death , Accident Benefit and Disability Benefit , Permanent Disability Benefit, Post Maturity Options , Settlement Options, Precautions.	5 + 1
5	Reinsurance, Exchange Control Regulations, Payment of Premiums, Payment of Claims Etc. Assignment in Favour of Non-Residents, Deposits, Export of Policies, Information Technology, Intranet and Internet, Benefits To Agents, Benefits To Policy Holders/ Prospects – Kiosks , IT in The Rural Areas, Internal Processing, IRDA Regulations.	5 + 1

Learning Resources:		
1	Text Books	Insurance – Tripathi & Prabir Pal – Prentice Hall of India Life Insurance: Principles & Practice by NIA Life Insurance Underwriting by NIA
2	Reference Books	Insurance & Risk Management – R.K. Gupta – Himalaya Publishing, Insurance Products – Indian Institute of Banking & Finance – Taxman's Publications
3	Supplementary Reading Material	
4	Websites	www.licindia.com ,
5	Journals	Life Insurance Today

Semester	IV	Specialization	Finance
Course Code	418FIN	Type	Subject – Elective
Course Title	Information Systems Audit		

Course Objectives:

1	To get acquainted with the concept and importance of Auditing in the organizational functionality
2	To know the changed and emerging role of Systems Audit
3	To get the practical inputs with regard to the Systems Audit

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basics: Concept of Auditing, Differentiation with regard to Internal Checks and Internal Controls, Concepts of posting, vouching, tracing, Emerging trends of Auditing, Role of Auditor in the Organization, Test Checks, Types of Audit, Required Competencies, Sector and Industry Specific prerequisites of Audit, Audit Reports, Types of Audit Reports	5 + 1
2	Concept of Systems Audit: Emerging concept of Systems Audit, Time and Cost effectiveness, Convenience, Competent Authorities involved, Role of Systems Auditor, Internal and External Systems Auditor, Role of ERP in Systems Audit, Prerequisites of Systems Audit	4 + 1
3	System & Infrastructure Maintenance: Review of the existing information flows in the organization, systems in the organization, inputs, process, validation and output, modifications, authorizations, maintenance process, disposal process, Review of Master Files, checking of authorization codes, Logical access and Physical access, maintenance of the confidentiality of the information, Difference between physical and system records	4 + 1
4	Security Administration & Operations' Audit: Security Threats of the information – Physical and System based, Disaster recovery plans for the information, design and implementation of information validation, role of management in the operations and information security, integrity of information processing, connect of existing internal checks /controls with the information systems	6 + 1
5	Global & Indian perspective: Certifications available in Systems Audit, Institutes / Organizations providing the Certifications, Connect between traditional audit and systems audit, organizations opting for systems audit, demand and supply gap for system auditors, linkage with the accuracy and reduction of scandals, advanced usage of IT in Systems Audit	6 + 1

Learning Resources:

1	Text Books	Accounting Information Systems – M.Kartikeyan – Avinash Paperbacks Principles of Accounting Information Systems by Hall
2	Reference Books	Analysis and Design of Information Systems – V. Rajaraman – Prentice Hall of India Auditing - D.G–Prasuna – ICFAI Press Auditing in a computerized environment – Mohan Bhatia – Tata Mc Graw Hill Contemporary Auditing – Kamal Gupta – Tata Mc Graw Hill
3	Supplementary Reading Material	The Chartered Accountant The Management Accountant Indian Journal of Finance
4	Websites	www.icaai.org www.isaca.org ,
5	Journals	ISACA Journal

Semester	IV	Specialization	Finance
Course Code	419FIN	Type	Subject - Elective
Course Title	Practice of General Insurance		

Course Objectives:

1	To understand the concept of General Insurance.
2	To understand various types of general insurance.
3	To get acquainted with the regulatory and legal framework of insurance.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basic Concepts: Risk Management and Control-Concept of Risk – Risk v/s Uncertainty- Risk Management Objectives, Process and Control- Derivatives - Enterprise Risk Management - COSO Framework of ERM - Role of Chief Risk Officer. Fundamentals of Insurance - Related concepts - Mathematical basis of Insurance - Insurance Contracts and Provisions	7 + 1
2	Fire And Marine Insurance: Fire Insurance – Contracts – Proposals – Coverage, Marine Insurance – History - Nature of Contracts - Cargo Underwriting - Hull Underwriting -Marine Losses	5 + 1
3	Automobile Insurance & Health Insurance: Automobile Insurance – Overview – Need - Types of Policies.Health Insurance – Basics - Policies - Micro Health Insurance in India. Other Types of Insurance - Rural Insurance - Social Insurance - Project and Engineering Insurance - Liability Insurance - Aviation Insurance- product liability insurance – Natural calamities and terrorism insurance	7 + 1
4	Regulatory Framework: Insurance Legislation And Regulation - Insurance Act 1938, Life Insurance Corporation Act 1956, General Insurance Business (Nationalization) Act 1972.	3+1
5	Role And Importance Of IRDA: Role of Insurance Regulatory and Development Authority(IRDA) - IRDA Act 1999 - Schedules of IRDA Act - Motor Vehicle Act 1988 - Marine Insurance Act 1963	3+1

Learning Resources:

1	Text Books	Insurance and Risk Management, 2 nd Edition, P.K.Gupta, Himalaya Publishing House Insurance, Principles and Practice, S.N.Mishra, S.B.Mishra, S Chand Practical Approach to General Insurance Underwriting by NIA General Insurance: Principles & Practice by NIA General Insurance Business Operations and Decision Making by NIA
2	Reference Books	Principles of Insurance Management, Neelam Gulati, Excel Books Indian Insurance Industry, Transition and Prospects ,D C Srivastava, Shashank Srivastava, New Century Publications
3	Supplementary Reading Material	Principles of Risk Management and Insurance, 9 th Edition, George Rejda, Pearson Education
4	Websites	National Insurance Academy
5	Journals	Journal by NIA

Semester	IV	Specialization	Finance
Course Code	420FIN	Type	Subject – Elective
Course Title	Financing Rural Development		

Course Objectives:

1	To understand the need and importance of financing rural development
2	To know the schemes floated by the Government of India and its scope
3.	To analyze the needs of rural businesses and its viability

Syllabus:

Unit Number	Contents	Number of Sessions
1	Rural Financial Services: Introduction, rural indebtedness – causes – magnitude and legislation – rural financial markets formal/informal Need and Nature of financial services, Rural credit needs, estimate of credit requirements. Financial services paradigm shift-supply vs. demand led financial services – selling vs. marketing – design and delivery of financial services understanding rural clientele, Area approach and Credit Planning: Lead Bank scheme – priority sector lending –Innovation in rural lending.	5 + 1
2	Assessment of Credit Needs: Production credit – crop loan requirements– rescheduling in case of crop failure and recovery through sale of crops by tie up arrangements with marketing societies. Financing of Trade and Business: Appraisal of rural non- farm sector schemes – concepts of rural non- farm sector – importance in employment generation – Khadi and village industries, village and cottage industries, tiny industries, Draft rural industrialization policy of Govt. of India Entrepreneurship development programs, composite loan scheme	5 + 1
3	Investment credit: Project approach and appraisal of investment – technical, financial, commercial, social and economic feasibility – cost benefit analysis and return on investment – determining bank loan, repayment schedule with built in monitoring and evaluation mechanism.	5 + 1
4	Government Initiatives involving Bank Credit: Poverty alleviation programs/employment programs/ production oriented programs – rationale and philosophy, progress and impact, problems and deficiencies IRDP, DWACRA, TRYSEM, SCAP/STAP, MNPA, JRY – Mehta Committee Report on IRDP.	5 + 1
5	Problems and Prospects in Rural Financing: Problems and prospects in rural financing – sustainability and outreach – overdue – Examples of Rural Banking	5 + 1

Learning Resources:

1	Text Books	Rural Development: Concept, Approach and Strategy - B. K. Prasad
2	Reference Books	Rural Development in India - Kulwant Rai Gupta Institutional Finance for Rural Development - Veerashekarappa
3	Supplementary Reading Material	Institutional finance and rural development - Benson Kunjukunju, Mohanam
4	Websites	rural.nic.in www.nabard.org
5	Journals	Journal of Rural Development

Semester	IV	Specialization	Finance
Course Code	421FIN	Type	Subject – Elective
Course Title	Social Finance for Inclusive Growth – II		

Course Objectives:	
1	To understand new avenues available in agricultural sector for hedging risk.
2	To understand the importance of technology in the primary sector

Syllabus:

Unit Number	Contents	Number of Sessions
1	Weather Derivatives & Crop Insurance : Weather insurance in Agriculture, Livelihood Risk Management using Crop Insurance; Index Based Insurance are discussed, with valuation of insurance products workings.	5 + 1
2	Commodity Finance and Risk Management: Indian commodity derivatives , how have they benefitted farmers, allied Cases	5 + 1
3	Technology Innovations for Financial Inclusion: Innovations in transaction banking enabling poor to have financial market access. Allied cases.	5 + 1
4	Credit Rating : Credit Rating Models of Social Finance, Credit Scoring Model, Credit Information for Microenterprises, SME Exchange in India	5 + 1
5	Corporate Governance & Social Finance: Governance issues, including board composition, disclosures, and fiduciary responsibilities of companies that are in the social investing space. Governance mechanisms of private listed/unlisted companies as per SEBI Guidelines.	5 + 1

Learning Resources:		
1	Text Books	New Trends in Banking – VV Ravikumar – ICFAI Press, Principles & Practice of Banking – IIBF – Macmillan Publishing
2	Reference Books	Portfolios of the Poor, by Daryl Collins, Jonathan Morduch, Stuart Rutherford, and Orlanda Ruthvan, Princeton University Press. Markets for the Low-income Customer, Monitor Inclusive Markets (2010). Bridges Ventures: "Investing for Impact, Case Studies across Asset Classes" March 2010; Augustin Landier and Vinay Nair, Investing for Change, Oxford University Press, Dec 2008 Nothing Ventured, Nothing Gained: Addressing the Critical Gaps in Risk-
3	Supplementary Reading Material	Taking capital for Social Enterprise," Jed Emerson, Skoll Centre for Social Entrepreneurship at Oxford SAID Business School; Acumen Fund: Valuing a Social Venture: Michigan Business School; Initial Public Offers: SKS in India, Harvard Business School Case Study.
4	Websites	www.gov.in

**MBA SYLLABUS: SEMESTER IV
INFORMATION TECHNOLOGY MANAGEMENT - SPECIALIZATION**

Semester	IV	Specialization	Information Technology
Course Code	403IT	Type	Subject Core
Course Title	Software Project Management		

Course Objectives:

1	To understand different aspects of Software Project Management as an important field of practice under IT Management
2	To learn tools and techniques of Software Project Management
3	To understand importance of, and learning techniques to ensure, software quality
4	To learn to use a Software Package for Software Project Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Software Project Management – Software Projects Vs. Other Projects – Contract Management and Technical Project Management – Activities under technical project management – Plans, Methods and Methodology – Stakeholders – Business Case	7 + 1
2	Project Planning, Evaluation and Program Management – Steps in Project Planning and Project Evaluation – Strategic Assessment – Technical Assessment – Cost Benefit Analysis – Cash Flow Forecasting – Process Models – Prototyping – Dynamic Systems Development – Extreme Programming – Managing Iterative Processes	7 + 2
3	Software Effort Estimation – Estimation Techniques – Expert Judgment – Analogy – Function Point Analysis – Object Points – Procedural Codes – COCOMO Model Activity Planning – Project Schedules – Sequencing and Scheduling – Network Planning – Using PERT and CPM for activity planning – Forward Pass – Backward Pass – Activity-on-arrow networks Managing Contracts – Types of contracts – Stages in contract placement – Contract Management and Acceptance Software Quality Management – Defining Software Quality – Requisite ISO Standards – Product Vs. Process Quality – Enhancing Software Quality – Quality Planning	9+2
4	Risk Management in Software Projects – Nature and Types of risk – Managing risks – Risk Analysis, Planning and Control – Strategies for risk reduction – PERT as a tool of Risk Management Resource Monitoring and Control – Creating Control Framework – Reporting for Control – Visualizing Progress – Cost Monitoring – Change Control	7+2
5	Using Project Management Software – Introduction to either of Microsoft Project 2010, Prince2 and Primavera and learning to use any one of these products	5+3

Learning Resources:

1	Text Books	Software Project Management, 5 th Edition, Hughes, Cotterel, Rajib Mall, Tata McGraw Hill
2	Reference Books	Software Project management in practice by Pankaj Jalote Software project management by Rajendra Mishra
3	Supplementary Reading Material	
4	Websites	www.projectbubble.com www.sei.cmu.edu
5	Journals	International Journal of Software Project management

Semester	IV	Specialization	Information Technology
Course Code	404IT	Type	Subject Core
Course Title	Enterprise Resource Planning		

Course Objectives:

1	To acquire in-depth knowledge of ERP as a prime Application Software product
2	To learn operational aspects of ERP implementation and support
3	To know features of important ERP modules
4	To learn, through case studies, practical aspects of ERP in various industries

Syllabus:

Unit Number	Contents	Number of Sessions
1	Enterprise Resource Planning What is ERP? - Features of ERP (Basic and Advanced) – ERP Architecture – ERP Need Analysis – Return on Investment for ERP	7+2
2	ERP Implementation and Support ERP Life Cycle, Methodologies and Strategy – Vendor and Software Selection –Business Process Re-engineering related to ERP - Implementation Process – Change Management – Post Implementation Support, Maintenance, Security	5+2
3	ERP Functional Modules Human Resource Management Accounting and Finance Procurement, Inventory Control Production Planning, Operations Sales, Customer Relationship Management e-Commerce	9+2
4	ERP Technology Areas, Enterprise Applications Portal and Content Management, Data Warehousing and Data Mining, Business Intelligence and Analytics - Emerging Trends in ERP Applications	7+2
5	ERP Case Studies Case Studies of ERP Implementation in Manufacturing and Service Sectors	7+2

Learning Resources:

1	Text Books	Enterprise Resource Planning, Ray, Tata McGraw Hill
2	Reference Books	ERP Demystified, Alexis Leon, Tata McGraw Hill Enterprise Resource Planning, A Managerial Perspective, Goyal, Tata McGraw Hill
3	Supplementary Reading Material	Enterprise Resource Planning (ERP): A review of the literature by Young B. Moon, International Journal of Management and Enterprise Development, Vol. 4, No. 3
4	Websites	www.sap.com erp.iitkgp.ernet.in
5	Journals	Journal of Enterprise Resource Planning Studies

Semester	IV	Specialization	Information Technology
Course Code	405IT	Type	Subject - Elective
Course Title	Web Designing & Multimedia		

Course Objectives:

1	To acquire technical competence in Web Designing and Multimedia Applications
2	To learn to use HTML, VB Script and Java script
3	To integrate Web and Multimedia with business objectives of the organization

Syllabus:

Unit Number	Contents	Number of Sessions
1	Multimedia and hypermedia, world wide web, overview of multimedia software tools. Graphics and image data representation graphics/image data types, file formats, Color in image and video: color science, color models in images, color models in video.	5+1
2	Fundamental concepts in video and digital audio Types of video signals, analog video, digital video, digitization of sound, MIDI, quantization and transmission of audio.	5+1
3	HTML - tags, lists, tables, Frames, layers , using images in web pages and DHTML	5+1
4	Introduction in VB Script - Data types, operators, control structures, functions and strings.	5+1
5	Introduction to java script - Operators, identifiers, control structures, functions arrays and error handling.	5+1

Learning Resources:

1	Text Books	Mastering HTML- CYBEX Publication
2	Reference Books	Complete Reference VB Script and Java Script – Tata McGraw Hill Dynamic HTML- O'Reilly Media Internet & Web Technologies- Tata McGraw-Hill Education
3	Supplementary Reading Material	
4	Websites	www.3school.com
5	Journals	International Journal of Web & Semantic Technology Web Technology Journal

Semester	IV	Specialization	Information Technology
Course Code	406IT	Type	Subject - Elective
Course Title	Network Technologies& Security		

Course Objectives:	
1	To acquire an overview of (but not technical proficiency in) various computer networks, technologies behind networks and application protocols, e-mail and communication protocols
2	To develop awareness of managing networks well so as to offer high quality service to the users

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Networking: Hardware Architecture, Topologies, Media, Devices. Transmission Technique , Twisted Pair, Coaxial Cable, Fiber optics, Wireless Transmission Switching, Circuit Switching, Message Switching, Packet Switching Common Network Architecture: Connection oriented Networks, Connectionless Networks Example of Networks -P2P, X.25, ATM, Ethernet Wireless LANs - 802.11, 802.11x, Gigabit	5+1
2	The OSI Reference Model: Protocol Layering, TCP/IP Model, OSI vs. TCP/IP Local Area Networks: Components & Technology, Access Technique, Transmission Protocol & Media Broad Band Networks: Integrated Service Digital Networks (ISDN), Broad Band ISDN, ATM, ATM Traffic Management. Introduction to Very Small Aperture Terminal(VSAT)	5+1
3	IP Addressing & Routing: IP addresses – Network Part and Host Part, Network Masks, Network addresses and Broadcast addresses, Address Classes, Loop Back Address, IP routing Concepts, Routing Tables, Stream & Packets. What IP does? What TCP does? Sliding Windows, TCP – a reliable pipe, TCP connection – Multiple conversations, Port Numbers, Multiple Connection from many hosts and one host. IPV6: The next generation Protocol Domain Network Services (DNS): Domain Names, Authoritative Hosts, Delegating Authority, Resource Records, SOA records, DNS protocol, DHCP & Scope Resolution SNMP: An IP Management Protocol Network Management protocols SNMP the Simple Network Management Protocol, Agents & Managers, SNMP Organization, Object Identifiers, Problem withSNMP	5+1
4	Network Applications: (HTTP, Email, etc.)Hyper Text Transfer Protocol (HTTP) HTTP communications - HTTP request, Request Headers, Responses, Status Code, Error Status. Code Email- Sending & Receiving Emails, Email Addressing, Message Structure MIME–Multipurpose Internet Mail Extensions SMTP–Simple Mail Transfer Protocol with examples Mail Exchangers – Delivering a message, Mail Boxes. POP – Post Office Protocol. IMAP – Internet Message Access Protocol. FTP – File Transfer Protocol. Telnet – Remote Communication Protocol. Proxy Server, Proxy Web Servers.	5+1
5	Network Security: Threats, Packet-filtering firewalls, Firewall policies and rules, Common Problem with Packet Filtering, SSL – Secure Socket Layer, Internet Protocol Security (IPSEC) , Virtual Private Networks, Symmetric Key Signatures, Public key Signatures, The Birthday Attack	5+1

Learning Resources:		
1	Text Books	Computer Networks Andrew S. Tanenbaum 4e
2	Reference Books	Network Essential Notes GSW MCSE Study Notes Internetworking Technology Handbook CISCO System Introduction to Networking and Data Communications Eugene Blanchard
3	Supplementary Reading Material	Computer Networks and Internets with Internet Applications Douglas E. Comer
4	Websites	www.cert.org
5	Journals	International Journals of Internet Security & Its Applications International Journal of Wireless Networks and Broadband Technologies

Semester	IV	Specialization	Information Technology
Course Code	407IT	Type	Subject - Elective
Course Title	Database Administration		

Course Objectives:	
1	To know duties and responsibilities of a Data Base Administrator
2	To learn DBA skills through select tasks

Syllabus:

Unit Number	Contents	Number of Sessions
1	Job Specifications of Data Base Administration. Overview of Memory structure, process structure and storage structure of Oracle , Installation of Oracle using Oracle Universal Installer	6
2	Create database using DBCA, startup and shutdown of oracle using log and trace files and data dictionary	6
3	Configure and manage oracle network, create and manage tablespaces	6
4	Create and manage database user accounts, privileges, role and profiles	6
5	Monitor and resolve locking conflicts, manage undo	6

Learning Resources:		
1	Text Books	Oracle 9i, 10g or 11g Manuals
2	Reference Books	Database Administration: The Complete Guide to Practices and Procedures by Craig Mullins DBA Survivor Expert Oracle Database Administration by Sam Alapati, Dreamtech Press
3	Supplementary Reading Material	
4	Websites	www.databasejournals.com www.dbametrics.com
5	Journals	Database Journals: The knowledge center for database professionals

Semester	IV	Specialization	Information Technology
Course Code	408IT	Type	Subject - Elective
Course Title	Software Testing		

Course Objectives:	
1	To understand scope of Software Testing Activity
2	To learn tools and techniques of Software Testing
3	To develop skill to design suitable test procedure in a given software development environment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Software Testing Principles: Basic concepts - Need of testing , errors, faults, defects Defects – Process defects, design defects, data defects Reducing the frequency of defects in software development Factors affecting software testing Testing constraints Life cycle testing Tester's workbench	5+1
2	Levels of Testing: Verification and Validation Functional and Structural Testing Static and Dynamic Testing V Concept of Testing with Testing Stages Types of Testing: Unit Testing, Integration Testing, System Testing- Performance, Load, Stress, Volume Testing, Regression Testing, Alpha, Beta and Acceptance Testing , Functional Testing, Performance Testing, Recovery Testing, White Box Testing, Black Box Testing, Gray Box Testing Security testing- Types of Security Testing: Network Scanning, Vulnerability Scanning, Password Cracking, Log Reviews, File Integrity Checkers, Virus Detectors, Penetration Testing Usability Testing Manual versus Automated Testing Static versus Dynamic Testing Compliance Testing	5+1
3	Test Management: Testing Life Cycle – Roles and activities, Test Planning – forming a test team, develop test plan reviews, structured walkthroughs Test Cases design strategies Test Execution: build test data, life cycle of defect, defect tracking, defect detection stages, defect detection stages, defect types, defect severity, defect analysis and prevention.	5+1

4	Functional Testing(black box): random testing, equivalence class partitioning and boundary value analysis, Cause effect graphing, Syntax testing Structural Testing(white box): test adequacy criteria, coverage (Branch and decision coverage, path coverage) and control flow graphs, paths, loop testing, mutation testing. Black Box testing versus White Box Testing	5+1
5	Overview of testing tools including open source tools for software testing	5+1

Learning Resources:		
1	Text Books	Effective Methods for Software Testing, William E Perry, 2nd Edition, Wiley Publication
2	Reference Books	Practical Software Testing, Ilen Burnstein, Springer Publication, 2003 Software Testing and continuous Quality improvement, William E Lewis, CRC Press, 2009 Software Engineering , Pressman, Fifth Edition
3	Supplementary Reading Material	
4	Websites	www.onestoptesting.com
5	Journals	Software Testing, Verification and Reliability, Wiley Automated Software Engineering, MetaPress

Semester	IV	Specialization	Information Technology
Course Code	409IT	Type	Subject - Elective
Course Title	Information Security & Audit		

Course Objectives:	
1	To understand perspectives of Information Security risks
2	To appreciate security audit as a preventive system
3	To know other techniques / approaches of risk prevention

Syllabus:

Unit Number	Contents	Number of Sessions
1	Information Security Risk Analysis Fundamentals. Importance of Physical Security and Biometric Controls for Protecting Information Systems Assets.	5+1
2	Overview of Network Security Perspectives, Networking and Digital Communications, Security of Wireless Networks.	5+1
3	Cryptographic Techniques and Encryption. Intrusion Detection Systems and Firewalls. Security of Virtual Private Networks.	5+1
4	Auditing concepts - Information Security Audit - Need, Concept, Standards, Performance, Steps, Techniques, Methodologies, around and through computer	5+1
5	Controls – Concept, Objectives, Types, Risk, Exposure	5+1

Learning Resources:		
1	Text Books	Information Security and Auditing in the Digital Age by: Amjad Umar
2	Reference Books	Computer Security, Art and Science by Matt Bishop, Pearson Management Information Systems by Laudon, Laudon, Dass, Pearson
3	Supplementary Reading Material	-
4	Websites	-
5	Journals	-

Semester	IV	Specialization	Information Technology
Course Code	410IT	Type	Subject - Elective
Course Title	Data Warehousing & Data Mining		

Course Objectives:	
1	To learn operational aspects of Data Warehousing and Data Mining
2	To know applications of Data Warehousing / Data Mining in business

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to data mining (DM) Kind of data, DM Functionalities, Classification of DM Systems, Issues in DM. What is Data warehousing (DW)? Multidimensional data model: Data cubes, Stars, snowflakes and fact constellations Defining schemas, concept hierarchies, OLAP	5+1
2	Data Warehouse Architecture Steps for design and construction, Three-tier Data Warehouse architecture, Types of OLAP servers: ROLAP versus MOLAP versus HOLAP	5+1
3	Data Warehouse Implementation: Efficient computation of Data cubes Indexing OLAP Data and efficient processing of OLAP queries Back-end tools and utilities	5+1
4	Data Preprocessing Why to preprocess data?, Data cleaning: Missing Values, Noisy Data, Data Integration and transformation, Data Reduction: Data cube aggregation, Dimensionality reduction. Data Compression, Numerosity Reduction Discretization and Concept Hierarchy Generation	5+1
5	Data Mining Primitives, Languages and System Architectures: Task relevant data, Kind of Knowledge to be mined, DM Query languages: Syntax, Designing GUI, Architectures of DM Systems Concept of Cluster Analysis. Application and trends in Data mining Data Mining for Financial data analysis, Data Mining for retail industry, Data mining for telecommunication industry	5+1

Learning Resources:		
1	Text Books	Data Mining Concepts and Techniques, J. Han, M. Kamber, Morgan Kaufmann Publishers, 2001.
2	Reference Books	Data mining: Concepts, Models, Methods and Algorithms, M. Kantardzic, John Wiley & Sons Inc., 2003. Data Mining: Introductory and Advanced Topics, M. Dunham, Pearson Data mining: Practical machine learning tools and techniques, H. Witten, E. Frank, 2nd ed., Morgan Kaufmann Publishers, 2005. Data mining: A tutorial-based primer, R. J. Roiger, M. W. Geatz, Pearson Education, 2003. UCI Repository of Machine Learning, C. L. Blake, C. J. Merz. 19 July 2002.
3	Supplementary Reading Material	
4	Websites	http://www.cs.waikato.ac.nz/ml/weka http://www.infoacumen.com ftp://axon.cs.byu.edu/pub/randy/ml/drop/ http://www.crisp-dm.org http://www.dmg.org
5	Journals	International Journal of Data Warehousing and Mining (IJDWM) International Journal of Data Mining, Modeling and Management

Semester	IV	Specialization	Information Technology
Course Code	411IT	Type	Subject - Elective
Course Title	Geographical Information System		

Course Objectives:	
1	To explore and understand concept of Geographical Information Systems
2	To know tools and techniques of G. I. S.
3	To develop skills to implement G. I. S. in appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	Conceptual Framework of GIS , GIS Structure & Function Coordinate Systems, GIS Data, Database Design & Development	5+1
2	Function and Structure of Maps, Overview of Public Data Sources	5+1
3	Basic GIS Operations, Fundamentals of Data Visualization, Advanced Querying	5+1
4	Linear Operations on Spatial Data, Spatial Modeling and Analysis Data Visualization and Presentation for GIS, GIS Modeling , Spatial Interpolation Error Evaluation and Management	5+1
5	GIS for Decision Making, GIS Organization and Management GIS Applications	5+1

Learning Resources:		
1	Text Books	Concepts and Techniques of Geographic Information Systems , Lo, C.P. and Yeung, A.K.W. (2002).. Prentice Hall.
2	Reference Books	Fundamentals of Geographic Information Systems. DeMers, M.N. (1999) 2nd Ed., Wiley Press.
3	Supplementary Reading Material	Principles of Geographical Information Systems Burrough, P.A. and R.A. McDonald (1998), Oxford University Press.
4	Websites	www.esri.com
5	Journals	-

Semester	IV	Specialization	Information Technology
Course Code	412IT	Type	Subject - Elective
Course Title	E-Governance		

Course Objectives:

1	To learn operational aspects of e-Governance
2	To know tools and techniques of e-Governance
3	To acquire / develop skills of implementing e-Governance in appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Definition, Why e- governance?, G to G , G to C, C to G , G to B and B to G , issues in e-governance applications and digital divide, Evolution of e-governance Stages in E- Governance Evolution	5+1
2	E-Governance Models Broadcasting/ Wider Dissemination model, Critical Flow model Comparative Analysis model, Interactive service model/Government –to-Citizen to Government Model (G2C2G) Evolution in E- Governance and Maturity Models E-Governance : strategies for success	5+1
3	E- Governance infrastructure Data Systems Infrastructure, Legal infrastructural preparedness Institutional infrastructural preparedness, Human infrastructural preparedness, Technological infrastructural preparedness	5+1
4	Applications of Data Warehousing and Data Mining in Government	5+1
5	Case studies, especially, on E- Governance in India	5+1

Learning Resources:

1	Text Books	E- Governance Concepts and case Studies- C.S.R Prabhu , Prentice Hall of India
2	Reference Books	-
3	Supplementary Reading Material	E-Governance: Transforming the national bone marrow, Journal of Management Research Year : 2002, Volume : 2, Issue : 3
4	Websites	www.egovamc.com/ egovstandards.gov.in/
5	Journals	Indian Journal of e-Governance

Semester	IV	Specialization	Information Technology
Course Code	413IT	Type	Subject - Elective
Course Title	Internet Marketing		

Course Objectives:	
1	To understand, various approaches to Internet Marketing
2	To learn advantages and disadvantages of approaches to Internet Marketing
3	To develop skills to implement Internet Marketing under appropriate situations

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction:</p> <p>What is internet marketing? Significance of internet marketing, benefits of internet to the marketer, how internet marketing differs from traditional marketing</p> <p>Marketplace, customers, online buyer behavior, competitors, suppliers, intermediaries</p> <p>Websites:</p> <p>People behind websites- owners, venture capitalists, creative directors, account and project managers, programmers, graphic designers, copy writers, marketers</p> <p>Types of websites- web portals, B2B, B2C, C2C, B2E(Business to employee), social networking, informational, entertainment</p>	5+1
2	<p>Social Media and social networking sites:</p> <p>An overview of social media and networking sites,</p> <p>The rise and dominance of social networking- Social media optimization, social media marketing</p> <p>Who is using social media and how?</p> <p>Social networking sites- types of audiences, generalist social networking, Niche market social networking, social bookmarking</p> <p>Blogging as a marketing strategy:</p> <p>Blogging basics- What is blogging? Types of blogs, who blogs, who reads them, how and why.</p> <p>Blogging as a marketing strategy- Benefits of blogging, pitfalls of blogging, the requirements for a successful marketing blog</p>	5+1
3	<p>Web based video:</p> <p>Who is watching what, video as a social media tool, web based video as a marketing tool</p> <p>Wikis , RSS, Mashups , virtual worlds and marketing</p> <p>Web and brand building - Brand – brand promise, brand personality, unique selling proposition,</p> <p>The web's place in brand building</p>	5+1
4	<p>E- commerce sites:</p> <p>sources of revenue - direct sales, indirect sales, paid memberships and Subscriptions, advertising</p> <p>Shopping on the social web- store layout, the shopping cart and check out process, intuitive and personal content provision, Feedback and reviews</p>	5+1
5	<p>Online promotion techniques:</p> <p>Search engine marketing, online PR, Online partnerships, interactive advertising, e-mail marketing, viral marketing</p>	5+1

Learning Resources:		
1	Text Books	Principles of Internet Marketing- new tools and methods for web developers by Jason I. Miletsky, Course Technology, Cengage Learning, 2009
2	Reference Books	Internet marketing- strategy, implementation and Practice- David Chaffey, Fiona Ellis- Chadwick, Richard Meyer, Kevin Johnston, Pearson Education Limited, 2006 The ultimate Web- Marketing Guide- Michael Miller, Pearson Education(QUE) , 2011
3	Supplementary Reading Material	Search Engine optimization your visual blueprint for effective internet marketing- Kristopher B. Jones, Wiley Publishing
4	Websites	www.interdigitalmarketing.com/
5	Journals	Internet Marketing Research & Theory

Semester	IV	Specialization	Information Technology
Course Code	414IT	Type	Subject - Elective
Course Title	Microsoft Office 2010Lab		

Course Objectives:

1	To enable students working in Microsoft office 2010 organize work more efficiently & develop a fully unified office with Microsoft suite.
2	To provide an opportunity to learn advanced and uncommon features of office – 2010 as an aid to career growth

Syllabus:

Unit Number	Contents	Number of Sessions
1	Microsoft Word : Tabs, Tables & sorting, Working with Graphics, Templates, wizards & sample documents, writers tools, Macros, custom toolbars, key board shortcuts & menus, Introduction to mail merge	5
2	Microsoft Excel : Excel Formatting Tips, & techniques, organizing large projects, introduction to functions, excel chart features, working with graphics in excel, vlookup, conditional formatting, command macros, IF function, Pivot Table, Excel 2010 keyboard shortcuts	8
3	Presenting With PowerPoint: Creating Presentations, use photos in PowerPoint, Working with Graphics & Multimedia in PowerPoint, Presenters Mode	5
4	Microsoft Access: Introduction to access, Creating database & tables, Forms, Entering & Editing Data, Relational Database, Expressions, Macros & other automation, graphics in Database, Troubleshooting, Maintaining & protecting database	6
5	Microsoft Outlook: Managing address book & distribution lists, organizing, filtering & using automatic response, Managing your contacts, scheduling appointments, meetings, Using Templates, Use e-mail signature in outlook, use e-business cards in outlook, manage the mails with conditional formatting	6

Learning Resources:

1	Text Books	Excel 2010 Bible [With CDROM] by John Walkenbach John Wiley & Sons Word 2010 Bible by Herb Tyson John Wiley & Sons MOS 2010 Study Guide for Microsoft Word, Excel, PowerPoint, and Outlook by Joan Lambert III and Joyce Cox (Apr 8, 2011) Microsoft Word 2010 Step by Step by Joyce Cox and Joan Lambert III PowerPoint 2010 Bible [Paperback] by Faithe Wempen
2	Reference Books	Microsoft Word 2010 in Depth by Faithe Wempen Microsoft Word 2010 Plain & Simple by Katherine Murray Beyond Bullet Points: Using Microsoft PowerPoint to Create Presentations That Inform, Motivate, and Inspire [Paperback] BPG Microsoft PowerPoint 2010 Plain & Simple by Nancy Muir Office 2010 Bible by John Walkenbach, Herb Tyson, Michael R. Groh, Faithe Wempen, Lisa A. Bucki
3	Supplementary Reading Material	Business Analysis with MS Excel by Conard Carlberg, Pearson Education
4	Websites	www.microsoft.com www.office.microsoft.com
5	Journals	-

**MBA SYLLABUS: SEMESTER IV
OPERATIONS MANAGEMENT - SPECIALIZATION**

Semester	IV	Specialization	Operations Management
Course Code	403OPE	Type	Subject Core
Course Title	Operations Strategy		

Course Objectives:

1	To emphasize the key role of operations in bringing about the growth and profitability of organizations.
2	To impart ideas, concepts and principles in operations strategy.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Importance and Linkage with Corporate strategy, Strategies and values, Competing through operations. Operation strategy in global economy- Strategic alliances and production sharing, fluctuations of international financial conditions and international companies. Changing nature of world business. Quality, Customer service and cost challenges and social responsibility, Current perspective-Strategic fit	7 + 2
2	Methodology for Developing Operations Strategy: Value as business concept – strategic issues in manufacturing – Value Chain concept Focus, core competence and distinctive capabilities – stake holders & strategy, Checking markets, Outcome of Market debate – Linking manufacturing to Markets – strategic integration – why products sell in the markets – Order Winners, Order Qualifiers. Lean systems-Eliminating waste.	7 + 2
3	Operation Strategy Implementation: Technology strategy Issues in New Product development Time to market – strategic nature of process– Business implication of Process choice – Hybrid Process. Change management and Sustainability Procedure – company or plant based profiles – decisions for product reallocation – downsizing – Capacity decisions Progression & Regression. Evaluating various tradeoffs alternatives – Focused manufacturing – Product or process focus – Make or Buy – merits /demerits – value chain approach – just in time – lean manufacturing.	7 + 2
4	Strategic Resource Management: Importance, issues involved – organizational issues operational approaches to improving, delivery system, controlling operations – key performance Indicators, PQCDSM (Productivity, Quality, Cost, Delivery Time, Safety, Morale)	7 + 2
5	Role of Technology in Operations Strategy: Automated production system with Robotic systems. Use of IT and ITES enabling the effective strategy and resource implementation. ERP/SAP for decision making.	7 + 2

Learning Resources:		
1	Text Books	Operations Management by Terry Hill, Palgrave, 2 nd Edition. Operations Now by Byron Finch, TMGH, 3 rd Edition. Operations Management by Norman Gaither, Greg Frazier, Cengage Learning, India Ed.
2	Reference Books	Operations Management – An Integrated Approach by Samson and Singh, Cambridge. Operations Management for Competitive Advantage by Chase, Jacobs, Aquilano and Agarwal, TMGH, 11 th Edition.
3	Supplementary Reading Material	Strategic Operations Management by Brown, Lamming, Bessant and Jones, Butterworth Heinemann, 2 nd Edition.
4	Websites	http://www.enotes.com/operations-strategy-reference/operations-strategy
5	Journals	Setting manufacturing strategy for a company's international manufacturing network by Miltenburg, John. International Journal of Production Research, Nov2009, Vol. 47 Issue 22 Breaking The Trade-Off Between Efficiency and Service by Frei, Frances X., Harvard Business Review, Nov2006, Vol. 84 Issue 11 Agile MPC system linking manufacturing and market strategies by Deif, Ahmed M.; ElMaraghy, Waguih H. Journal of Manufacturing Systems. Apr2007, Vol. 26 Issue 2, p99-107. Linking of manufacturing strategy, market requirements and manufacturing attributes in technology choice: An expert system approach by Cil, Ibrahim; Evren, Ramazan., Engineering Economist. Spring98, Vol. 43 Issue 3, p183. Differentiating manufacturing focus by Hallgren, Mattias; Ohliger, Jan. International Journal of Production Research. 9/15/2006, Vol. 44 Issue 18/19, p3863-3878. One more time: How do you win orders?: A critical reappraisal of the Hill manufacturing strategy framework by Spring, Martin; Boaden, Ruth., International Journal of Operations & Production Management. 1997, Vol. 17 Issue 7/8, p757-779.

Semester	IV	Specialization	Operations Management
Course Code	404OPE	Type	Subject Core
Course Title	Total Quality Management		

Course Objectives:	
1	To give various perspectives on Quality and various contributors to Quality.
2	To provide an in-depth understanding of the various QC tools.
3	To introduce the frameworks of Global Quality Awards.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Quality Concepts :Defined, Quality Cost perspective ,Cost of Quality Quality Function, Spiral of Progress in quality, Little q and Big Q, Juran Trilogy, Internal and external quality perspective. Goods and service quality. Cost of poor quality, internal failure cost and external failure cost, appraisal cost, Prevention cost, Analysis of quality cost, hidden quality cost, Discovering the optimum, economic models of quality of conformance-Zone of improvement, zone of high appraisal, zone of indifference.</p> <p>Strategic Quality management: Companywide quality culture, Organizational vision, Mission and quality policy, formulation of quality goals, competitive benchmarking, Steps in implementing Total quality-Decide, Prepare, Start, Expand and Integrate. Quality Circle</p>	7 + 2
2	Quality Gurus : Demings' 14 point philosophy, Juran, Crosby philosophy, Ishikawa, Taguchi, Feigenbaum. Comparison of quality philosophy.	7 + 2
3	QC Tools : Problem Solving Methodology - Check list, Flow Chart, Tally charts and Histograms, Graphs, Pareto Analysis ,Cause and Effect Diagram, Brainstorming, Scatter diagram and regression analysis. Quality Function Deployment - Introduction, Customer needs, Customer priorities and competitive comparisons and planned improvements, Design features or requirements, Central relationship matrix-What's versus the How's , relative weights of importance. Design features interactions, target values, Technical comparison ,service information and special requirements-Difficulties associated with QFD, Implementation of QFD	7 + 2
4	Statistical Quality Control : Necessity and Importance of SQC, Process capability, Six Sigma quality, Process control, Process control for attributes, p charts and c charts, Process control for variables, X bar R chart, acceptance sampling, OC curves, Average Outgoing Quality Limit (AOQL),Sampling plans	7 + 2
5	Quality Management Awards and frameworks : Malcolm Baldrige National quality award, Deming prize, ISO 9000-2000,CII, Ramakrishna Bajaj Awards, Tata Business Excellence Model (TBEM)	7 + 2

Learning Resources:		
1	Text Books	Operations Management: Theory and Practice by B Mahadevan, Pearson, 2 nd Edition Production and Operations Management by RB Khanna, PHI Managing Quality by Dale, Blackwell Publication. Quality Management by Howard Gitlow, Alan Oppenheim, Rosa Oppenheim and David Levine, TMGH, 3 rd Edition.
2	Reference Books	Operations Management: An Integrated Approach by Danny Samson and Prakash Singh, Cambridge University Press.
3	Supplementary Reading Material	Managing Quality Edited by Barrie G Dale, Ton van der Wiele and Jos van Iwaarden, Blackwell Publishing, 5 th Edition.
4	Websites	http://managementhelp.org/quality/total-quality-management.htm www.isixsigma.com www.asq.org
5	Journals	Journal of Operations Management Total Quality Management & Business Excellence Quality Assurance International Journal of Reliability, Quality & Safety Engineering Journal of Quality Management

Semester	IV	Specialization	Operations Management
Course Code	405OPE	Type	Subject - Elective
Course Title	Quality Management Standards		

Course Objectives:	
1	To introduce various management system standards.
2	To explain the implementation and role of MR for IMS.
3	To help the students understand the implementation of IMS through cases in services and manufacturing .

Syllabus:

Unit Number	Contents	Number of Sessions
1	Over view of IMS – QMS, EMS, OHSAS, TS: Introduction to core tools and TS 16949, Introduction to CMMI, Introduction to EFQM, Implementation requirements for certification	5 + 1
2	QMS Standards: Key clauses - 4.1 Process & documentation, 5.0 Top management , Organization and Role of MR, 6.0 Resource management, 7.0 Process control from Contract review to Calibration, 8 Monitoring measurement and improvement	5 + 1
3	EMS Standards: Key clauses -4.1General requirement, 4.2 Policy, 4.3 Planning – registers , objectives & programs, 4.4 Implementation and operation, 4.5 Checking	5 + 1
4	OHSAS 18001:2007 Standards: Key clauses -4.1 General requirement, 4.2 Policy, 4.3 Planning – registers , objectives & programs, 4.4 Implementation and operation, 4.5 Checking	5 + 1
5	Study of Apex manual & Procedural manual for QMS: Service and Manufacturing set up, Study of Apex manual and procedural manual for EOHS, Study of core tools implementation requirement, Study of ERP, Legal register, Risk register and Impact registers and various programs & monitoring programs and SOPs & their inter relation	5 + 1

Learning Resources:		
1	Text Books	ISO 9001:2008 ISO 19011: 2002 ISO 9004 :2002 ISO 14001 :2004 OHSAS 18001: 2007 TS 16949:2002 EFQM model
2	Reference Books	Operations Management: An Integrated Approach by Danny Samson and Prakash Singh, Cambridge University Press.
3	Supplementary Reading Material	Managing Quality Edited by Barrie G Dale, Ton van der Wiele and Jos van Iwaarden, Blackwell Publishing, 5 th Edition.
4	Websites	http://www.ohsas-18001-occupational-health-and-safety.com/ http://www.iso14000-iso14001-environmental-management.com/ http://www.efqm.org/en/
5	Journals	The Integration of the Standards Systems of Quality Management, Environmental Management and Occupational Health and Safety Management by Matias, Joao Carlos De Oliveira; Coelho, Denis A., International Journal of Production Research, 10/15/2002, Vol. 40 Issue 15 Usefulness of the EFQM Excellence Model: Theoretical explanation of some conceptual and methodological issues by Rusjan, Borut., Total Quality Management & Business Excellence, May2005, Vol. 16 Issue 3 A Framework for TQM to Achieve Business Excellence by Hafeez, K.; Malak, N.; Abdelmeguid, H., Total Quality Management & Business Excellence, Nov2006, Vol. 17 Issue 9 Journal of Operations Management Total Quality Management & Business Excellence Quality Assurance International Journal of Reliability, Quality & Safety Engineering Journal of Quality Management

Semester	IV	Specialization	Operations Management
Course Code	406OPE	Type	Subject - Elective
Course Title	World Class Manufacturing		

Course Objectives:	
1	To bring out the relevance and basics of World Class Manufacturing.
2	To highlight the current state of Indian Manufacturing
3	To provide a road map for World Class Manufacturing

Syllabus:

Unit Number	Contents	Number of Sessions
1	World Class Manufacturing and the Information Age: The emergence of the Information Age, Competing in the Information Age, Business challenges of the Information Age, Operating Environment of the Information Age, India's global Competitiveness and Manufacturing Excellence, World Class Manufacturing and the Information Age Competition, Manufacturing Challenges of the Information Age – Time based competition, Managing knowledge, Problems in the Manufacturing Industry – Coordination, Need for Control, Fragmented Information Infrastructure, Insufficient processability of available information.	5 + 1
2	Gaining Competitive Advantage through World Class Manufacturing: Manufacturing Excellence and Competitiveness, What is World Class Manufacturing? Hall's Framework of Value-added Engineering, Schonberger's framework of World Class Manufacturing, Gunn's model of World Class Manufacturing, Maskell's model of World Class Manufacturing, America's best plants model of World Class Manufacturing, Malcolm Baldrige National Quality Award, The Philosophy of World Class Manufacturing, The Evolution of World Class Manufacturing, The first principles of World Class Manufacturing, The Practices of World Class Manufacturing, Quality in World Class Manufacturing.	5 + 1
3	Systems and Tools for World Class Manufacturing: The integration imperative, Overview of systems and tools, Making sense of the manufacturing alphabet soup, Information management tools, Material processing and handling tools. Information management tools – Product and Process Design Tools, Bar Code Systems, Kanban, SQC, Business Integration and Decision Support Tools. Material processing and handling tools – Flexible Manufacturing Systems, Rapid Prototyping, Lean production tools, Poka Yoke, SMED. An assessment of Manufacturing systems and tools.	5 + 1
4	World Class Manufacturing – The Indian Scenario: Competitiveness of Indian Manufacturing, Manufacturing Performance and planned strategies of Indian Manufacturing firms, Manufacturing readiness of Indian Firms, Manufacturing Objectives and strategy, Usage of management tools and technologies, Manufacturing Management Practices, The Manufacturing Strategic Intent Framework, Strategic use of IT in Indian Manufacturing, Classification by breadth of IT infrastructure and depth of manufacturing applications, Classification by breadth and integration of IT infrastructure, Manufacturing Strategy – World class Status and IT Use: Is India Ready for World Class Manufacturing?	5 + 1

5	Leading India towards World Class Manufacturing: Business Strategy and Global Competitiveness, Generic Manufacturing Strategies for the Information Age, Developing strategic thinking in manufacturing, Issues in Strategic planning for World Class Manufacturing, Barriers to using IT strategically, Strategic Planning Methodology for World Class Manufacturing, Implementing the World Class Manufacturing Plan, Need for performance measurement – The PO-P System, The TOPP System, The AMBITE System, Quality Performance, Cycle Time, Delivery Performance and Customer Service, Financial Performance Measures, The Balanced Score Card, Human Resource Dimensions in World Class Manufacturing – Morale and Teamwork.	5 + 1
---	---	-------

Learning Resources:		
1	Text Books	World Class Manufacturing – A Strategic Perspective by B S Sahay, K B C Saxena, Ashish Kumar, Macmillan Publishers India Ltd., 1 st Ed. World Class Manufacturing by K. Sridhara Bhat, Himalaya Publishing, 1 st Ed.
2	Reference Books	Making Common Sense Common Practice – Models for Manufacturing Excellence by Ron Moore, Elsevier Pub., 3 rd Ed. Competitive Manufacturing Management by John Nicholas, TMGH, 2 nd Edition.
3	Supplementary Reading Material	The Japanese Manufacturing Techniques by Richard Schonberger, The Free Press Just in Time Manufacturing by M. G. Korgaonker, Macmillan Publishers India Ltd., 1 st Ed.
4	Websites	http://www.enotes.com/world-class-manufacturer-reference/world-class-manufacturer
5	Journals	International Journal of Operations & Production Management- Journal of Manufacturing Systems International Journal of Manufacturing Technology & Management Journal of Operations Management Manufacturing & Service Operations Management

Semester	IV	Specialization	Operations Management
Course Code	407OPE	Type	Subject - Elective
Course Title	Business Process Reengineering		

Course Objectives:

1	To explain how organizational performance in terms of efficiency and effectiveness can be improved through BPR.
2	To introduce BPR as a change management tool.
3	To explore and master the fundamental principles of BPR.
4	To provide a practical framework and management techniques needed for implementation of BPR.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to business processes: Definition of business process, Dimension of business process, Common business processes in an organization, Definition of business process redesign, Definitions of various management - related terms, Overview of business process reengineering, Business processes improvement.</p> <p>Introduction to Business Process Reengineering (BPR): History of BPR, Basics of BPR, Definition of BPR, Emergence of BPR, The need for reengineering, Benefits of BPR, Role of leader & manager, Breakthrough reengineering model, BPR guiding principles, Business process reengineering & performance improvement, Key targets of BPR, Myths about BPR, What reengineering Isn't, Difference between BPR and TQM, BPR and Process Simplification, BPR and Continuous Improvement.</p>	6 + 1
2	BPR in Manufacturing Industry: Introduction, Enablers of BPR in manufacturing – Agile Manufacturing, Lean Manufacturing, JIT, Collaborative Manufacturing, Intelligent Manufacturing, Production Planning, Product design & development.	4 + 1
3	BPR & Information Technology: Introduction, Relationship between BPR & Information Technology, Role of Information Technology in reengineering, Role of IT in BPR (with practical examples), Criticality of IT in business process, BPR tools & techniques, Enablers of process reengineering, Tools to support BPR, Future role of IT in reengineering.	4 + 1
4	BPR implementation methodology: Reasons of implementation of BPR, Necessary attributes, BPR team characteristics, Key concepts of BPR, BPR methodology, Different phases of BPR, BPR model, BPR methodology selection guidelines, Common steps to be taken for BPR implementation, Different business process reengineering methodologies, Comparison of various business process reengineering methodologies, Consolidated BPR implementation methodologies, Steps of process reengineering, Organizational redesign using BPR, Impact of BPR on organizational performance, Performance measures of BPR, Business process reengineering project management, Reengineering recommendations, Threads of BPR in various phases	6 + 1

5	<p>Success factors of BPR: Reengineering success factors, Critical success factors of BPR, Reasons for BPR project failure & success, Reengineering drives cause many changes</p> <p>Managing barriers to business process reengineering success: Potential project implementation success, Risks associated with business process reengineering projects, Business process reengineering implementation barriers, Areas generating barriers to business process reengineering, Root cause to Information Technology barriers, Some root causes of internal individual resistance, A framework for barrier management</p>	5 + 1
---	---	-------

Learning Resources:		
1	Text Books	Business Process Reengineering by Radhakrishnan, Balasubramanian, PHI, Eastern Economy Edition, 2008. Business Process Reengineering by Jayaraman, Ganesh Natrajan and Rangaramanujan, TMGH.
2	Reference Books	Business Process Reengineering and Change Management by Dey, Biztantra.
3	Supplementary Reading Material	Practical Business re-engineering by Obolensky, Kogan Page.
4	Websites	http://www.youtube.com/watch?v=2j2lcDWQk7A
5	Journals	Productivity and Performance Effects of BusinessProcessReengineering: A Firm-Level Analysis, Altinkemer, Kemal; Ozcelik, Yasin; Ozdemir, Zafer D. Journal of Management Information Systems, Spring2011, Vol. 27 Issue 4 BusinessProcessReengineering in the Public Sector: The Case of the Housing Development Board in Singapore, Thong, James Y. L.; Yap, Chee-Sing; Seah, Kin-Lee. Journal of Management Information Systems, Summer2000, Vol. 17 Issue 1 BusinessProcessReengineeringManagement Services, Spring 2010, Vol. 54 Issue 1 A Wider View of BusinessProcessReengineering, Grant, Delvin. Communications of the ACM, Feb2002, Vol. 45 Issue 2

Semester	IV	Specialization	Operations Management
Course Code	408OPE	Type	Subject - Elective
Course Title	Enterprise Resource Planning		

Course Objectives:

1	To understand how a business works and how information systems fit into business operations.
2	To understand the cross functional integration aspects of a business.
3	To understand better managerial decision making through real time data integration and sharing.
4	To understand the host of underlying technological tools of ERP.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Understanding Enterprise Resource Planning: Concept of Enterprise , Overview of Business Functions and Business Processes, Integrated Management Information, Business Modeling, Evolution of ERP; ERP and related technologies; Myths about ERP; Importance of ERP; Value creation in organizations through ERP; Benefits of ERP; Risk of ERP - People Issues, Process Risks, Technological Risks, Implementation Issues, Operation & Maintenance Issues; Managing risk in ERP projects.	5 + 1
2	ERP & Related Technologies: Business Process Reengineering, Data Warehousing, Data Mining, OLAP, PLM, SCM, CRM, GIS, ERP Functional Modules , Integration of ERP, Supply Chain, CRM.	5 + 1
3	ERP Implementation: Technological, Operational, Business Reasons for ERP implementation , ERP implementation Life Cycle – Objectives - Phases - Reasons for failure; Implementation challenges; ERP transition strategies - Big Bang Strategy, Phased Implementation, Parallel Implementation, Process Line Transition Strategy, Hybrid Transition Strategy, Strategy Choice; Success and failure factors of an ERP implementation; ERP implementation costs; Organization and working of ERP implementation team.	5 + 1
4	ERP Operations and Future Trends: Operation and maintenance of the ERP system; Maximizing the ERP system; ERP and e-business; Integration of ERP, internet and www; Future of ERP.	5 + 1
5	ERP Systems Processes and Management Control: Sales and Marketing; Accounting and Finance; Production and Material Management; Human Resource Management, Overview of an ERP product.	5 + 1

Learning Resources:		
1	Text Books	Enterprise Resource Planning by Leon, Alexis , TMH Publication, 2 nd Edition Enterprise Resource Planning by Koul, Saroj, Galgotia Publishing, 2001. ERP Concepts and Practice by Garg, V. K. and Venket Krishna N. K., PHI Publication, 1997. ERP In Practice by Vaman Jagan, TMGH
2	Reference Books	Enterprise Resource Planning by Sumner, Mary, Pearson Education, 2006. Enterprise Resource Planning by Jaiswal and Vanapalli, Macmillan Books.
3	Supplementary Reading Material	ERP Demystified by Leon, Alexis, TMH Publication, 2nd Edition, 2004.
4	Websites	https://www.sap.com
5	Journals	EnterpriseResource Planning (ERP) Systems and the Manufacturing-Marketing Interface: An Information-processing Theory View by Gattiker, T. F., International Journal of Production Research, 7/1/2007, Vol. 45 Issue 13 Critical Elements for a Successful Enterprise Resource Planning Implementation in Small-and Medium-sized Enterprises by Loh, T. C.; Koh, S. C. L., International Journal of Production Research, 9/1/2004, Vol. 42 Issue 17

Semester	IV	Specialization	Operations Management
Course Code	409OPE	Type	Subject - Elective
Course Title	Financial Perspectives in Operations Management		

Course Objectives:

1	To highlight the importance of cost management as a key to profitability and the key to successful Operations Management
2	To underline the role of cost management from a strategic perspective.
3	To teach the identification of key cost drivers and defined process of managing operational costs.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Cost Management: Cost management tools-life cycle costing, target costing, kaizen costing, JIT & theory of constraints, BPR and bench marking. Working Capital Management –Concept, Components, Scope, Practical applicability.	4 + 1
2	Activity Based Costing: Concept and basic knowledge, applicability, Limitations, Simple Numericals. Cost Concepts, behavior, type, allocation, apportionment and absorption along with nature, applicability and limitations of Job & Process Costing	4 + 1
3	Budgeting: Budgeting – nature, administration and effectiveness; budgeting cycle; activity-based budgeting; kaizen approach; ZBB; performance budgeting; human aspects of budgeting.	5 + 1
4	Capital Budgeting : The Capital Budgeting Concept & Process - An Overview, Generating Investment Project Proposals, Estimating Project, After Tax Incremental Operating Cash Flows, Capital Budgeting Techniques, Project Evaluation and Selection - Alternative Methods, Potential Difficulties ,Project Monitoring – Progress Reviews and Post - Completion Audits, Problem of Project Risk, Total Project Risk, Capital Rationing , Decision Tree.	7 + 1
5	Project Cost Estimate and Risk Analysis: Cost of project, Components of capital cost of a project, Project Risk Analysis, Project Organization. Project Evaluation and Audit: Sources of financing, Role of Financial Institutions in project financing, Data required for calculation of NPV, PI, IRR, BCR, NBCR, Project cost overruns and cost control, Phases of post audit, Type of post audit, Project closure.	5 + 1

Learning Resources:		
1	Text Books	Financial Management by I.M. Pandey, Vikas Publications, 10 th Edition Financial Management by M.Y.Khan & P.K.Jain, TMGH., 5 th Edition Project Management by K. Nagarajan, New Age Publications, 2 nd Edition
2	Reference Books	Financial Management by Rajiv Shrivastava & Anil Mishra, Oxford Publication, 2 nd Edition Corporate Financial Management by Arnold Glen, Pearson Publication
3	Supplementary Reading Material	The Chartered Accountant Management Accountant
4	Websites	www.icaai.org www.icwai.org www.moneycontrol.com
5	Journals	Production & Inventory Management Journal of Operations Management International Journal of Operation and Quantitative Management Indian Journal of Advanced Operations Management International Journal of Operations & Production Management Manufacturing & Service Operations Management

Semester	IV	Specialization	Operations Management
Course Code	410OPE	Type	Subject - Elective
Course Title	Service Operations Management		

Course Objectives:

1	To provide students with the concepts and tools necessary to effectively manage a service operation.
2	To discuss best practices of World-Class Service.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Services: Characteristics of Services, Importance of Service Sector, Classification framework, Service Delivery System – Process Flow Diagrams, Process Simulation,	4 + 1
2	Site Selection for Services: Types of Service Firms – Demand Sensitive Services, Delivered Services, Quasi-manufacturing Services, Site Selection for Demand Sensitive Services – Factor Rating, Regression, GIS, Gravity Model of Demand, Site Selection for Delivered Services – Expected Results, Mathematical Solution Methods for delivered services, Site Selection for Quasi-Manufacturing Services – Mixed Linear / Integer Programming for Location Selection	5 + 1
3	Yield Management: Capacity Strategies, Yield Management, Overbooking, Allocating Capacity – Static Methods, Nested Static Methods, Dynamic Methods. Pricing, Implementation issues – Alienating Customers, Customer Class Cheating, Employee Empowerment, Cost and Implementation Time.	5 + 1
4	Inventory Management in Services: Services versus Manufacturing Inventory, Set Up and Ordering Costs, Number of Products, Limited Shelf Space, Lost Sales versus Back Orders, Product Substitution, Demand Variance, Information Accuracy, The Newsvendor Model, Multiple Products and Shelf Space Limitations, Inventory Inaccuracy – Revenue Sharing, Markdown Money, Phantom Stockouts, Inventory Inaccuracy, Shrinkage.	6 + 1
5	Offshoring and Outsourcing: Outsourcing – Contract risk, Outsource Firm Risk and Pricing Risk, Competitive Advantage and Information Privacy Risk, Firm Specific Risks, Offshoring, Quantifying Offshoring, Offshoring and Competitive Capabilities – Cost, Non-cost Issues.	5 + 1

Learning Resources:

1	Text Books	Successful Service Operations Management by Metters, King-Metters, Pulliman and Walton, Thomson India Edition, 2 nd Edition.
2	Reference Books	Service Operations Management - Improving Service delivery by Robert Johnston Graham Clark, Prentice Hall
3	Supplementary Reading Material	Service Operation –Itil, Version 3 ,David Cannon, David Wheeldon
4	Websites	http://www.referenceforbusiness.com/management/Sc-Str/Service-Operations.html
5	Journals	A perspective on service delivery by McManus, John; Howitt, Michael. Management Services, Winter2009, Vol. 53 Issue 4 Journal of Software Project Management and & Quality Assurance

Semester	IV	Specialization	Operations Management
Course Code	411OPE	Type	Subject - Elective
Course Title	Modeling Techniques for Operations		

Course Objectives:

1	To learn how to model typical Operations Domain Problems
2	To understand use of quantitative tools in solving typical Operations Domain Problems

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Business Modeling: Meaning & process of modeling, Certainty & uncertainty in models, Importance of understanding data before modeling, Application of modeling to find Break-even point	2
2	Linear Programming: Formulation of LPP, Simplex method, Duality, Sensitivity Analysis, Goal Programming, Problems on Machine scheduling, Formulating & solving Product mix problem, Formulating & solving Labour planning problem. Integer Linear Programming: Concept, Job-sequencing model, Branch & Bound method, Problems based on Branch & Bound method.	8+2
3	Decision trees: Concept of decision making & decision trees; Application of decision trees in making manufacturing decisions like expansion of present plant, build new plant or sub-contract.	5+1
4	Replacement Models: Introduction; Failure of items; Application of Replacement models to Items that deteriorate, items with increasing running cost, items that fail completely, Group replacement policy, Recruitment and promotional problems, Equipment renewal problems.	6+1
5	Sequencing problems: Introduction, Problems involving n jobs- 2 machines, n jobs- 3 machines & n jobs-m machines; Comparison of priority sequencing rules.	4+1

Learning Resources:

1	Text Books	Operations Research- by Nita Shah, Ravi Gor, Hardik Soni- Prentice Hall India
2	Reference Books	Managerial Decision Modeling with Spreadsheets by Nagraj Balakrishnan, Barry Render, Ralph M. Stair Jr.- Pearson Introduction to Operations Research-by Billey E. Gillett- Tata Mc Graw Hill
3	Supplementary Reading Material	Operations Research- Hamdy A. Taha- Pearson Publication
4	Websites	www.orsl.in
5	Journals	International Journal of Operations and Quantitative Management

Semester	IV	Specialization	Operations Management
Course Code	412OPE	Type	Subject - Elective
Course Title	Business Process Management		

Course Objectives:	
1	Students will be able to model processes for subsequent implementation in Business Process Management Systems.
2	Students will be able to discern between technologies for human-centric process automation and system-centric process automation.
3	Students will understand the difference between Business Processes and Business Rules, and be able to select an appropriate information system.
4	Students will know the different phases of the process management lifecycle, supporting technologies, and how to transition between the phases of the lifecycle
5	Students will understand the technical capabilities of Business Process Management Systems, how they relate to concepts such as SOA and EAI
6	Students will be able to develop an implementation and integration strategy for processes that leverages organizational and technical capabilities of an enterprise

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Overview of the Process Management Lifecycle, Review of Process Modeling techniques. Process Design for Implementation: Analytical process model, Implementable process model – concept and comparison, Graphical models and their translation to XML, Components of Workflow Models From BPMN to XPD.	5 + 1
2	Implementing Process Designs: Change Management - Process Implementation Alternatives: Manual Implementation, CSCW Systems, ERP Systems, Workflow & Business Process Management Systems, Process Outsourcing.	5 + 1
3	Automating Processes: Supporting processes with IS, components of a process-aware application, BPMS and Workflow, Systems Components and Architecture. Rules vs. Processes: Capturing decision-making activities, dealing with unstructured work, BPMS and BRMS, Integrating ECA rules with processes, Capturing Unstructured Processes. Managing the Run-Time: Ensuring efficient processes, Process Metrics, Business Activity Monitoring, Business Intelligence, Process Dashboards	5 + 1
4	Task and Resource Allocation: Organization models, Task allocation strategies, Mobile performers, External Participants. Standards for Business Process Management: WfMC Reference Model, Process design standards: BPMN, IDEF, Interchange standards: XPD, BP, Integration standards: Wf-XML, WSDL	5 + 1
5	Post-Execution Evaluation: How Business Intelligence based on Process Data, Process Mining. Business Process Management Maturity: BPM Maturity Models, BPM Centers of Excellence, Organization Structure of BPM Efforts. Process Simulation and Data Mining: Predictive Process Simulation, Data Mining based on Process Data, Integration of Process information into Strategy Maps.	5 + 1

Learning Resources:		
1	Text Books	Harmon, Paul: Business Process Change. A Guide for Business Managers and BPM and Six Sigma Professionals. 2nd Edition, Morgan Kaufmann, San Francisco. Managing Business Process Flows, 2nd edition, by Ravi Anupindi, et al., ISBN 0-13-067546-6, Pearson Prentice-Hall, 2006.
2	Reference Books	Hammer, Michael: The Process Audit. Harvard Business Review, April 2007, pp. 111-123. Khoshafian, S. Service-oriented Enterprises. Auerbach Publications, Taylor & Francis Group, Boca Raton, FL, 2007, pp. xxv, 438 p. Scheer, A.-W. Business process change management : ARIS in practice Springer, Berlin ; New York, 2003, pp. xiii, 290 p.
3	Supplementary Reading Material	Davis, R.: An Introduction to Business Process Modeling with the ARIS design platform: getting started with BPM, (1st ed.) Springer, New York, 2007. Dumas, M.; van der Aalst, W.M.P. and A.H.M. ter Hofstede (eds.): Process-Aware Information Systems. Bridging People and Software Through Process Technology, John Wiley & Sons, Inc., Hoboken, NJ, 2005. Jeston, John; Nelis, Johan: Business Process Management: Practical Guidelines to Successful Implementations. Butterworth-Heinemann, 2006, pp. 464, ISBN 0750669217 van der Aalst, W.M.P., and van Hee, K. Workflow Management. Models, Methods, and Systems MIT Press, Cambridge, MA, USA, 2002.

5	Journals	International Journal of Business Process Management Leymann, F., and Altenhuber, W. "Managing business processes as an information resource," IBM Systems Journal (33:2) 1994, pp. 326-348.

Semester	IV	Specialization	Operations Management
Course Code	413OPE	Type	Subject - Elective
Course Title	Challenges and Opportunities in Operations Management		

Course Objectives:	
1	To make the student understand the ways of managing risk in Operations Management
2	To introduce various Environmental, Ethical and Technological issues in Operations Management
3	To introduce Global Reporting Initiatives, SA 8001, CSR, CDM, CT concept

Syllabus:

Unit Number	Contents	Number of Sessions
1	Managing Risk in Operations: Concepts and framework of Risk Management, COSO enterprise risk management, Risk standard AS/NZ 4360, M-o-R: Management of Risk Framework, Risk in the key decision areas of operations: Inventory management, Information technology, Process Technology, Operating planning and capacity management, Maintenance and servicing, Risk in service operations, Occupational Health and Safety, Environmental risk, Operations and corporate risk	5 + 1
2	Overview of Technological, Ethical and Environmental issues: Global challenges, Defining Technological options for the achieving Goals to combat the risks based on SWOT, Concept of Business ethics & CSR, Environmental – Introduction to GHG trading, Defining control against budgeting for identified impacts & risks for Quality, environment, safety, & global trading	5 + 1
3	Global Reporting: Business advantage with global reporting, Guidelines G 3 for sustainability, Study of any published report like Siemens, Social accountability aspect in Business across the borders, Case study in Indian industry for CSR Kyoto Protocol: Basic Features, Why Kyoto Protocol Failed, Limitations and aspect of Kyoto Protocol, Introduction to Clean Technology, Clean development mechanism, Government & statutory authorities and their role in promoting Sustainability	5 + 1
4	Sustainability in Operations: What is sustainability? Development of the concept of sustainability, Accepted definitions, What make sustainable practices successful, What is a sustainable practice, Quality and Excellence, Strategic connection, Business Case for sustainability, Building sustainability – the role of operations function, New capabilities of operations management to support sustainability,	5 + 1
5	Social Accountability: SA 8001, Considerations in identifying & mitigating child labour, Considerations in investigating un fair wages complaint, Considerations in investigating Discrimination related complaints, Consideration for recording and monitoring home workers and/ time logging for piece rate.	5 + 1

Semester	IV	Specialization	Operations Management
Course Code	414OPE	Type	Subject - Elective
Course Title	Lean Manufacturing		

Course Objectives:

1	To provide the concepts of Lean Manufacturing.
2	To give a hands on – How To – series of steps in Lean Manufacturing Implementation.
3	To highlight the role of company culture in transformation to Lean.

Syllabus:

Unit Number	Contents	Number of Sessions
1	History and Modern Applications of Lean Manufacturing: Popularity of MRP systems and their impact on organizations, Pre-computer Inventory Management tools, Rethinking the MRP Model, The search for Holy Grail of Manufacturing, Lean Manufacturing Model, Kanban Methodology, Sequencing production one piece at a time on the Lean Line, The benefits of embracing lean methodologies for manufacturing, Lean Manufacturing Challenges to the MRP paradigm, The continuous evolution to Lean Manufacturing, The Internet and E-commerce technologies.	5 + 1
2	Understanding Products, Processes and Demand: Determining the scope of initial Lean Manufacturing Implementation Area, Selecting parent parts for the lean line, Establishing the capacity to meet the demand volume of lean implementation area, Sources for determining demand, Documenting the Process flow and establishing mixed product families, Factors impacting throughput volume, Identifying process Demand Levels and Establishing Takt, Numerators and Denominators of Takt time, Documenting process Work elements and quality criteria, Nonvalue added activity and quality considerations, summing the total time of the process.	5 + 1
3	Line Layout and Work Station Identification with Process Linking and Balancing: The consequences of imbalance, The Lean approach to Achieving Balance, Calculating resource requirements, Defining Resources, The physical layout of resources, Assigning tasks for each workstation, the in-process Kanban Signalling methodology, Discipline for maintaining workstation balance, Designing 5S into the line design.	5 + 1
4	Kanban Strategies: The in-process Kanban, The Single Card Kanban System, The Multiple Card Kanban System, Managing inventory with the Kanban System: The advantages & disadvantages of Kanban System, Kanban manager job responsibilities.	5 + 1
5	Lean Implementation Mile Stones: Software requirements for Lean manufacturing methodologies, Commitment to change, Transformation process to Lean manufacturing, Initialization and Project Start-up, Understanding Products, Processes and Materials, Final Check, Line Start-up, Internalize. Organizational impact of Lean Manufacturing. Managing the Lean Manufacturing Line: Managing Line Output to Match Customer Demand, Establishing Customer Response policy, Suboptimizing the Lean line to meet daily rate of demand, flexible operators, Rewarding for Flexibility, Rewarding for Linear Performance, Resistance to change.	5 + 1

Learning Resources:		
1	Text Books	Lean Manufacturing Implementation by Dennis P Hobbs, Cengage Learning Co-published with APICS. Simplified Lean Manufacture – Elements, Rules & Implementation by N Gopalkrishnan, PHI.
2	Reference Books	Lean Manufacturing That Works by Bill Carreira, PHI, Eastern Economy Edition.
3	Supplementary Reading Material	Global Management Solutions Demystified by Dinesh Sheth and Subhash Rastogi, Thomson Learning Asia Lean Management – Concepts and Industry Perspectives by Mrudulla, ICFAI Books.
4	Websites	http://www.lean.org/
5	Journals	Evaluation of Value Stream Mapping in manufacturing system redesign by Serrano, Ibon; Ochoa, Carlos; Castro, Rodolfo De., International Journal of Production Research, Aug2008, Vol. 46 Issue 16 ERP Enabled Lean Six Sigma: A Holistic Approach for Competitive Manufacturing by Nauhria, Yugal; Wadhwa, S.; Pandey, Sunil., Global Journal of Flexible Systems Management, Jul-Sep2009, Vol. 10 Issue 3 Effect of buffer capacity and sequencing rules on single-card kanbansystem performance by Berkley, B.J., International Journal of Production Research, Dec1993, Vol. 31 Issue 12 Empowering Kanban through TPS - principles - An empirical analysis of the Toyota Production System by Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre., International Journal of Production Research, Dec2010, Vol. 48 Issue 23

MBA SYLLABUS: SEMESTER IV
HUMAN RESOURCE MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	HRM
Course Code	403HR	Type	Subject Core
Course Title	Industrial Relations		

Course Objectives:

1	Give students insight into the IR scenario in India
2	Make students understand important laws governing IR
3	Create understanding about role of Govt., society and trade union in IR

Syllabus:

Unit Number	Contents	Number of Sessions
1	Understanding IR: Concept, Philosophy of IR, Evolution of IR, Indian perspective, Parties to IR, Employers' organizations, Trade unions, Role of Government, Role of society Approaches to IR: The Dunlop's Approach, The Social Action Approach, The Human Relations Approach, The Gandhian Approach, Theoretical foundation and legal framework of IR in India	6 + 2
2	The Industrial Disputes Act 1947: Sections # 2 to 19 Provisions under Chapter V, VA, VC and chapter VI, VII.	6 + 2

Semester	IV	Specialization	International Business Management
Course Code	413IB	Type	Subject - Elective
Course Title	Global Competitiveness and Strategic Alliances		

Course Objectives:

1	To develop conceptual understanding of global competitiveness
2	To understand strategies and processes that lead to global competitiveness
3	To understand strategic alliance as an important initiative to achieve global competitiveness
4	To know steps to be taken to implement strategic alliance program

Syllabus:

Unit Number	Contents	Number of Sessions
1	Global Competitiveness: An Overview – Macroeconomic and Business Strategy Perspective, Framework for Assessing Competitiveness – Various Approaches; International and National Competitiveness Studies.	5+1
2	Developing Competitiveness – Role of Quality and Productivity in Achieving World Class Competitiveness - Role of Government Policy - Attaining Competitiveness through Integrated Process Management, Technology and Innovation - Human Capital and Competitiveness - Role of Information Systems in Building Competitiveness - Industrial Clusters and Business Development - Strategic Management of Technology and Innovation.	5+1
3	Global Competitiveness of Indian Industry – Status; Causes for lack of competitiveness - Strategic Options for Building Competitiveness -	5+1
4	Joint Ventures and other forms of Strategic Alliance-Benefits and Scope of Strategic Alliance – Forms of management/ ownership – Types of Alliance – Steps in implementing Strategic Alliance – Limitations and Pitfalls of Strategic Alliance	5+1
5	Internationalization of Indian Business - Case Studies of Globally Competitive Indian Companies.	5+1

Learning Resources:

1	Text Books	Momaya Kiran (2001). International Competitiveness: Evaluation and Enhancement, Hindustan Publishing Corporation (India). Fidelis Ezeela Harrison (1999). Theory and Policy of International Competitiveness, Greenwood Publishing Group.
2	Reference Books	International Business, 4th Edition, Griffin and Pustay, Prentice Hall
3	Supplementary Reading Material	Marcela, Vivian Walsh (2007). International Competitiveness and Technological Change, Oxford Press. Hamel G. and Prahalad C.K (1994). Competing for the future. Harvard Business Press. IMD, World Competitiveness Year Book, Latest issue. World Economic Forum, Global Competitiveness Report, Latest report.

Semester	IV	Specialization	International Business Management
Course Code	414IB	Type	Subject - Elective
Course Title	International Diversity Management		

Course Objectives:

1	To equip students with the knowledge and importance of culture and help them to manage International Diversity.
---	---

Syllabus:

Unit Number	Contents	Number of Sessions
1	Broad concept and definition of diversity. Historical perspective of diversity management in changing demographics	5 + 1
2	Understanding cultures, influence of behavior. Explanation of the dimension of race, ethnicity, gender, caste, sexual orientation. Socio-economic status, age, physical abilities, religious beliefs, political ideologies.	5 + 1
3	Formulations of international equal opportunity and non-discrimination policies. Limitations of Affirmative action welcoming ex-parte evaluation and other legal policies.	5 + 1
4	Recruitment, development and retention strategies in diverse organizations and Workplaces. Diversity management training programs for all employees and continuous monitoring of results, Diversity Audit.	5 + 1
5	Analysis of any two Organization's culture,	5 + 1

Learning Resources:		
1	Text Books	International Business, S Shajahan, Macmillan India Limited, Delhi, 2006. International Business: An Introduction, Geert Hofstede, Palgrave, New York, 2001. Semester	IV	Specialization	International Business Management
Course Code	415IB	Type	Subject - Elective
Course Title	Foreign Language for International Business - II		

Course Objectives:

1	To equip the students with a foreign language skill at least to that extent that is required for conducting international business.
2	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
3	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introducing a company : Introducing a company, its organization, its activities, its market, its trade policy, its financial and trade positions as well as its result and experience all these quantitatively and indicate also their evolution and make comparisons, interpret and comment on tables and graphs.	5 + 1
2	Speaking about the Professional environment : Talking about the framework of professional environment, its working conditions, the posts, the timings, Salaries leave, holidays and language learner's relationship with other colleagues.	5 + 1
3	Explaining the details : Understanding and explaining the manufacturing process and understand the directions for use. Asking and giving information on a product and on a service. Obtaining and providing information on the price, the modes and conditions of payment. Noting down and convey requests and claims of the clients. Placing orders.	5 + 1
4	Managing Visitors : Welcoming visitors and clients and to provide them with necessary information, orient them, scan the visitors and also to be able to make them wait.	5 + 1
5	Organizing : Organizing meetings and participate in meetings. Organizing different events, for example, an appointment, a meeting, a seminar, a fair or an exhibition and also be able to fix up, confirm, postpone or cancel an appointment or a programme.	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material

5	Journals	

**MBA SYLLABUS: SEMESTER IV
SUPPLY CHAIN MANAGEMENT - SPECIALIZATION**

Semester	IV	Specialization	Supply Chain Management
Course Code	403SCM	Type	Subject Core
Course Title	Strategic Supply Chain Management		

Course Objectives:	
1	To understand the role and objectives of Strategic Supply Chain Management
2	To recognize the role and importance of strategic partnerships and alliances in Supply Chain Management
3	To appreciate the increasing scope of Supply Chain Management and its future challenges

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chain Strategy: Strategic objectives of SCM - customer focus, product development, market development, diversification, learning & organizational capability, sustainable competitive advantage through SC	7 + 2
2	Managing SC for Strategic Fit: concept of strategic fit, steps in achieving strategic fit, impact of customer needs, impact of uncertainty, multiple products & customer segments, PLC, globalization & competitive changes over time	7 + 2
3	Expanding Strategic Scope: Minimize local cost perspective, Minimize functional Cost perspective, Maximize Company Profit perspective, Maximize SC Surplus perspective, Agile intercompany inter functional scope	7 + 2
4	Strategic Partnerships & Alliances: Collaborative Advantages, Framework for Strategic Alliances, Core Competence – 3PL, 4PL & Outsourcing: Advantages & Disadvantages, Prerequisites, Implementation Issues	7 + 2
5	Supply Chain Challenges – Strategies for the future: Mass customization, Globalization, Greening, Ethical SC, Intelligent System, Implications for managers, organizations & policy makers	7 + 2

Learning Resources:		
1	Text Books	Supply Chain Management: Strategy Planning & Operation by Sunil Chopra, Peter Meindl, Kalra, Pearson, 3 rd Edition. Supply Chain Strategies – Customer Driven & Customer Focused by Tony Hines, Elsevier, 1 st Edition
2	Reference Books	Managing the SC- A Strategic Perspective by Gattorna Walters, Palgrave Macmillan, 1 st Edition New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007 Extending the Supply Chain by Boyer, Forhlich and Hult, PHI, 3 rd Indian Reprint, 2009
3	Supplementary Reading Material	Designing & Managing the SC – Concepts, Strategies & Case studies – by Levi, Kaminsky et. al., TMGH, 3 rd Edition Manufacturing Operations and Supply Chain Management: The Lean Approach by Taylor and Brunt, Thomson Learning. Supply Chain Management by Mentzer, Response Books, 2007
4	Websites	http://csmp.org/ www.supplychain.org
5	Journals	An adaptive framework for aligning (re)planning decisions on supply chain strategy, design, tactics, and operations by Ivanov, Dmitry., International Journal of Production Research, Jul2010, Vol. 48 Issue 13 The Impact of Competitive Strategy and Supply Chain Strategy on Business Performance: The Role of Environmental Uncertainty by Yinan Qi; Xiande Zhao; Chwen Sheu., Decision Sciences, May2011, Vol. 42 Issue 2 An Exploration of Fisher's Framework for the Alignment of Supply Chain Strategy With Product Characteristics by Harris, Gregory A.; Compton, Paul J.; Farrington, Phillip A., Engineering Management Journal, Dec2010, Vol. 22 Issue 4 Alignment of Supply Chain Strategy with Business Strategy by Mitra, Amarnath; Bhardwaj, Sunil., IUP Journal of Supply Chain Management, Sep2010, Vol. 7 Issue 3 What's the buzz about moving from 'lean' to 'agile' integrated supplychains? A fuzzy intelligent agent-based approach by Jain, Vipul; Benyoucef, Lyes; Deshmukh, S. G., International Journal of Production Research, Dec2008, Vol. 46 Issue 23 Improving supply-chain collaboration by linking intelligent agents to CPFR by Caridi, M.; Cigolini, R.; De Marco, D., International Journal of Production Research, 2005, Vol. 43 Issue 20

Semester	IV	Specialization	Supply Chain Management
Course Code	404SCM	Type	Subject Core
Course Title	Knowledge Management in Supply Chains		

Course Objectives:	
1	To know Supply Chain Systems Classification
2	To understand the role of IT as an enabler of Supply Chain Management for today's businesses

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chain IT Framework: Supplier Relationship Management, Internal Supply Chain Management, Customer Relationship Management, Transaction Management Foundation	7 + 2
2	Supply Chain Information Systems: SC Information System classification, Requirement Analysis for Information Systems in SC, Information for Strategic SC decisions, Risks & Challenges in implementing SC Information Systems, Benefits of SC Information Systems	7 + 2
3	Digital Markets & Efficient Supply Chains: Web enabled Supply Chains, Technological impact of SC disintermediation, Reconfiguration of SC, Pure technology applications in SC, Process Improvements - technology adoption	7 + 2
4	E-Supply Chain Opportunities: E business & SCM – Upstream Perspective, B-2-B Perspective, E supply chain opportunities - e procurement, e fulfillment, auctions & reverse auctions, collaborative demand planning, intranets, extranets & VPN, Benefits to SMEs & MSMEs	7 + 2
5	Technology Standards: Overview of Information Technology infrastructure – interface devices, system architecture, e-commerce. Service oriented architecture – Introduction to ERP. Applications of Bar coding & scanning, RFID, EPOS, Global data synchronization, Image Processing, GPRS	7 + 2

Learning Resources:		
1	Text Books	Supply Chain & Logistics Management by Bowersox, Closs & Cooper, TMGH, 2 nd Edition. Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3 rd Edition Supply Chain Management Process, System & Practice by N.Chadrasekaran, Oxford, 1 st Edition Supply Chain Strategies: Customer Driven and Customer Focused by Tony Hines, Elsevier, 2008
2	Reference Books	Designing & Managing the SC – Concepts, Strategies & Case studies by Levi, Kaminsky et. al., TMGH, 3 rd Edition.
3	Supplementary Reading Material	New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007
4	Websites	www.supplychainmanagement.in
5	Journals	Explicating the Mediating Role of Integrative Supply Management Practices in Strategic Outsourcing: A case study analysis by Narasimhan, Ram; Narayanan, Sriram; Srinivasan, Ravi., International Journal of Production Research, Jan2010, Vol. 48 Issue 2 Intra-Organizational Perspectives On IT-Enabled Supply Chains by Singh, Nitin; Kee-hung Lai; Chen, T. C. E.. Communications of the ACM, Jan2007, Vol. 50 Issue 1 E-Enabled Closed-Loop Supply Chains by van Nunen, Jo A. E. E.; Zuidwijk, Rob A. California Management Review, Winter2004, Vol. 46 Issue 2 The Role of Trust and Collaboration in the Internet-enabled Supply Chain by Grossman, Martin., Journal of American Academy of Business, Cambridge, Sep 2004, Vol. 5 Issue 1/2

Semester	IV	Specialization	Supply Chain Management
Course Code	405SCM	Type	Subject - Elective
Course Title	Green Logistics and Supply Chains		

Course Objectives:	
1	To sensitize the students to external costs of logistics and supply chains (climate change costs).
2	To analyze the environmental costs of logistics and how to deal with them effectively.
3	To highlight how different types of environmentally sustainable practices should be adopted at different stages of supply chains.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Environmental Sustainability & Green Logistics: Concept of Green Logistics, Green Logistics – Rhetoric & reality, Key drivers for greening of Logistics & Supply Chains, Benefits of Green Supply Chains	4 + 1
2	Environmental Costs of Logistics: Arguments for and against internalizing environmental costs of logistics, Monetary calculation of environmental costs , Concept of Carbon Credits, Guidelines for carbon foot printing, Carbon foot printing process, success factors in carbon foot printing, Carbon Auditing of Supply Chains	5 + 2
3	Reverse Logistics for Waste Management: Waste Management in the context of reverse logistics, Waste Treatment Legislation, Reuse & refurbishment markets and take back business models, Managing waste as a part of sustainable reverse process.	5 + 1
4	Public Policy and Green Supply Chains: Role of Government, Policy Measures, Energy Efficiency, Cutting Emissions.	5 + 1
5	Green Supply Chains: Case Studies on Green Initiatives by Manufacturers, Green Initiatives by Government & Non-Profit Organizations, Green Initiatives by Retailers, Green Initiatives by Consumers.	5 + 1

Learning Resources:		
1	Text Books	Green Logistics – Improving the Sustainability of Logistics, Edited by McKinnon, Cullinane, Brown & Whiteing, Published by Chartered Institute of Logistics & Transports, UK.
2	Reference Books	Total Supply Chain Management by Basu & Wright, Elsevier, 1 st Ed.
3	Supplementary Reading Material	Greening the Supply Chain- A guide for Asian Managers by Purba Halady Rao, Response Books, 1 st Edition.
4	Websites	www.greenlogistics.org www.greenlogisticsforum.com
5	Journals	Why business needs to green the supply chain by Hoskin, Paul., University of Auckland Business Review, Autumn 2011, Vol. 13 Issue 1 How Green Are Your Supply Chains? By Crandall, Richard E., Industrial Management, May/Jun 2006, Vol. 48 Issue 3. Greening The Supply Chain: A New Initiative In India With Special Reference To Chhattisgarh by Ashraf, Gazala Yasmin; Raichoudhary, Arpita; Mukherjee, P. N.; Srivastava, R. K. Pranjana., The Journal of Management Awareness, Jan-Jun 2009, Vol. 12 Issue 1 The Economic Value of a Sustainable Supply Chain by Mefford, Robert N., Business & Society Review (00453609), Spring 2011, Vol. 116 Issue 1

Semester	IV	Specialization	Supply Chain Management
Course Code	406SCM	Type	Subject - Elective
Course Title	Enterprise Resource Planning		

Course Objectives:

1	To help the student understand how a business works and how information systems fit into business operations.
2	To emphasize the cross functional integration aspects of a business.
3	To enable better managerial decision making through real time data integration and sharing.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Understanding Enterprise Resource Planning: Concept of Enterprise , Overview of Business Functions and Business Processes, Integrated Management Information, Business Modeling, Evolution of ERP; ERP and related technologies; Myths about ERP; Importance of ERP; Value creation in organizations through ERP; Benefits of ERP; Risk of ERP - People Issues, Process Risks, Technological Risks, Implementation Issues, Operation & Maintenance Issues; Managing risk in ERP projects.	5 + 1
2	ERP & Related Technologies: Business Process Reengineering, Data Warehousing, Data Mining, OLAP, PLM, SCM, CRM, GIS, ERP Functional Modules , Integration of ERP, Supply Chain, CRM.	5 + 1
3	ERP Implementation: Technological, Operational, Business Reasons for ERP implementation , ERP implementation Life Cycle – Objectives - Phases - Reasons for failure; Implementation challenges; ERP transition strategies - Big Bang Strategy, Phased Implementation, Parallel Implementation, Process Line Transition Strategy, Hybrid Transition Strategy, Strategy Choice; Success and failure factors of an ERP implementation; ERP implementation costs; Organization and working of ERP implementation team.	5 + 1
4	ERP Operations and Future Trends: Operation and maintenance of the ERP system; Maximizing the ERP system; ERP and e-business; Integration of ERP, internet and www; Future of ERP.	5 + 1
5	ERP Systems Processes and Management Control: Sales and Marketing; Accounting and Finance; Production and Material Management; Human Resource Management, Overview of an ERP product.	5 + 1

Learning Resources:		
1	Text Books	Enterprise Resource Planning by Leon, Alexis, TMH Publication, 2 nd Edition, 2008. Enterprise Resource Planning by Koul, Saroj, Galgotia Publishing, 2001. ERP Concepts and Practice by Garg, V. K. and Venkat Krishna N. K., PHI Publication, 1997.
2	Reference Books	Enterprise Resource Planning by Sumner, Mary, Pearson Education, 2006.
3	Supplementary Reading Material	ERP In Practice by Vaman Jagan, TMGH
4	Websites	www.oracle.com/ERP www.sap.com/ www.openerp.com/
5	Journals	Measuring System Performance of an ERP-based Supply Chain by Ho, Chuan-Jyh., International Journal of Production Research, 2007, Vol. 45 Issue 6 Supply Chain Transformation by ERP for Enhancing Performance: An Empirical Investigation by Zong Dai., Advances in Competitiveness Research, 2008, Vol. 16 Issue 1 Coordination Strategies in an SaaS Supply Chain by Demirkan, Haluk; Cheng, Hsing Kenneth; Bandyopadhyay, Subhajyoti., Journal of Management Information Systems, Spring 2010, Vol. 26 Issue 4

Semester	IV	Specialization	Supply Chain Management
Course Code	407SCM	Type	Subject - Elective
Course Title	Purchasing & Supplier Relationship Management - II		

Course Objectives:

1	To provide an in-depth understanding of the fundamentals surrounding purchasing in different contexts.
2	To make the students aware of the different demands placed on the purchasing and supply chain managers by business stakeholders.
3	To help the students understand the impact of purchasing on competitive success and profitability of modern day organizations.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Purchasing for Institutions & Government Organizations: Similarities and dissimilarities with industrial purchasing. Purchasing procedure, roles of purchasing. Products & services purchased, functions performed, Purchase Cycle, Establishing sources of supply, Contracts Administration, Internal & External Environmental factors	5 + 1
2	Purchasing of Services: Hidden Opportunities, Planning the statement of work, Writing the statement of work, Selecting service contractors, Compensating Service suppliers, Professional services, Technical services, Operating services, Contract administration, Develop a sound Procedure for Evaluation	5+ 1
3	Purchasing of Capital Equipment: Differences in the procurement of capital equipment - Nonrecurring purchases, Nature and size of Expenditure. Considerations in Source Selection –Operating Characteristics of equipment, Engineering features of equipment, Total economic analysis, Various qualitative considerations, Life cycle cost analysis, Role of Purchasing, Used / Second hand equipment Purchasing, Leased equipment– factors favouring leasing	5 + 1
4	Worldwide Sourcing - Creating a world class supply base: An overview of Worldwide Sourcing, Why source worldwide? Barriers to worldwide sourcing, Information about Worldwide sources, Supplier selection issues, Cultural understanding, Language and communication differences, Legal issues, Logistical issues, Organizational issues, Costs associated with Worldwide Sourcing, Managing international currency risk, Hedging – Spot & Forward Contracts, Progressing from International Purchasing to Global Sourcing, Differentiating factors between successful and less successful Global Sourcing Efforts, Benefits of global sourcing, Future Global Sourcing Trends	5 + 1
5	Performance Measurement & Evaluation: Why Measure Performance, Problems with Purchasing Measurement and Evaluation, Purchasing Measurement Categories – Price Performance Measures, Cost-Effectiveness Measures, Quality, Time related Measures, Technology Innovation Measures, Physical Environment and Safety, Asset Management and Integrated SC Measures, Administration and Efficiency Measures, Developing a Performance Measurement and Evaluation System - Determining which Performance Categories to Measure, Developing Specific Performance Measures, Establish Performance Objectives for each Measure, Finalize system Details, Implement and Review	5 + 1

Learning Resources:		
1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Thomson South Western, 3 rd Edition. Purchasing & Supply Chain Management by Lysons and Farrington, Pearson Education, 2010.
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition.
3	Supplementary Reading Material	Organizational Buying Behaviour by Webster and Wind, Prentice Hall, 1972
4	Websites	www.cips.org www.eipm.org
5	Journals	e Global Sourcing and Logistics Exercise: A Group Exercise to Demonstrate Basic Global Supply Chain Principles by Ashenbaum, Bryan., Decision Sciences Journal of Innovative Education, Sep2008, Vol. 6 Issue 2 Strategic Alliance-Based Global Sourcing Strategy for Competitive Advantage: A Conceptual Framework and Research Propositions by Murray, Janet Y., Journal of International Marketing, 2001, Vol. 9 Issue 4 Global sourcing in the auto industry by Bergmann, Markus; Mangaleswaran, Ramesh; Mercer, Glenn A., McKinsey Quarterly, 2004 Special Edition Pursuing competitive advantage through integrated global sourcing by Trent, Robert J.; Monczka, Robert M., Academy of Management Executive, May2002, Vol. 16 Issue 2

Semester	IV	Specialization	Supply Chain Management
Course Code	408SCM	Type	Subject - Elective
Course Title	Supply Chain Risk Management		

Course Objectives:

1	To help the students understand the pressures on managing the supply chain and their impact on supply chain's vulnerability to disruptions.
2	To introduce the principles of supply chain risk management.
3	To provide an understanding of the basics of identifying, defining and analyzing risks.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basics of Risk Management: Risk & Management, Growth of risk Management, defining Risk, Features of Risk. Decisions & Risk, Decisions with certainty, uncertainty, risk, ignorance, Managing Risk	4 + 1
2	Risk in Supply Chain: Risks arising out of Trends affecting SC – Integration, Cost Reduction, Agile Logistics, E-Business, Globalization, Outsourcing, SC Risk Management – Aims, Steps & Principles	5 + 1
3	Identifying & Analyzing Risks: Types of Risks, Identifying Risks, Tools for analyzing past events, collecting opinions, analyzing operations, Measuring Risk, Likelihood of a risky event, Consequences of risk, Responding to risks, Alternative responses, defining the options & choosing the best response, Network View of Risk - Shared risks	5 + 2
4	Creating resilient SC: Design of a resilient SC, Principles of designing resilient SC, Physical features of a resilient SC, relationship within a resilient SC, Risk compensation & Business Continuity	5 + 1
5	Business Continuity Management: Emergencies & Crisis, Views of BCM & Steps in BCM	5 + 1

Learning Resources:		
1	Text Books	Supply Chain Risk Management by Donald Walters, Kogan Page, 1 st Edition.
2	Reference Books	The New Supply Chain Challenge: Risk Management in a Global Economy by Bosman R, FM Global, Johnston RI, 2006.
3	Supplementary Reading Material	Risk management for executives by Kendall R, FT Prentice Hall London, 1998.
4	Websites	www.disasterplan.com www.globalcontinuity.com www.riskinfo.com
5	Journals	<p>Reconciling Supply Chain Vulnerability, Risk And Supply Chain Management by Peck, H., International Journal of Logistics: Research & Applications, Jun2006, Vol. 9 Issue 2</p> <p>Sources of Supply Chain Disruptions, Factors That Breed Vulnerability, and Mitigating Strategies by Steckle, Kathryn E.; Kumar, Sanjay., Journal of Marketing Channels, Jul-Sep2009, Vol. 16 Issue 3</p> <p>Drivers Of Supply Chain Vulnerability: An Integrated Framework by Peck, Helen., International Journal of Physical Distribution & Logistics Management, 2005, Vol. 35 Issue 4</p> <p>A Conceptual Framework For The Analysis Of Vulnerability In Supply Chains by Göran Svensson., International Journal of Physical Distribution & Logistics Management, 2000, Vol. 30 Issue 9</p> <p>Key Areas, Causes And Contingency Planning Of Corporate Vulnerability In Supply Chains: A Qualitative Approach by Svensson, Göran., International Journal of Physical Distribution & Logistics Management, 2004, Vol. 34 Issue 9</p> <p>Managing Uncertainty - An Empirical Analysis Of Supply Chain Risk Management In Small And Medium-Sized Enterprises by Thun, Jorn-Henrik; Druke, Martin; Hoenig, Daniel., International Journal of Production Research, Sep2011, Vol. 49 Issue 18</p> <p>Analyzing Risks In Supply Networks To Facilitate Outsourcing Decisions by Lockamy, Archie; McCormack, Kevin., International Journal of Production Research, Jan2010, Vol. 48 Issue 2</p>

Semester	IV	Specialization	Supply Chain Management
Course Code	409SCM	Type	Subject - Elective
Course Title	Project Management		

Course Objectives:	
1	To make the students understand the complex issues in Project Management
2	To increase the understanding of project management tools and techniques
3	To teach the students the concepts and skills that are used by managers to plan projects, secure resources, budget, lead project teams to successful completion of projects.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Project Management: Definition, functions, evolution of Project Management, classification of projects, Project management in different environments.</p> <p>The Project Management Systems, Methodologies & Systems Development Cycle: Systems approach, systems analysis, systems development, project feasibility, Project life cycle, project appraisal, project contracting, the phases of system development life cycle.</p>	5 + 1
2	<p>Project Feasibility Study: Developing a project plan, market and technical analysis, financial analysis evaluation of project proposals, risk analysis, sensitivity analysis, and social cost benefit analysis.</p> <p>Project Planning: Planning fundamentals, project master plan, work breakdown structure & other tools of project planning, work packages project organization structures & responsibilities, responsibility matrix.</p>	6 + 1
3	<p>PERT, CPM, Resource allocation: Tools & techniques for scheduling development, crashing of networks, time-cost relationship, and resource leveling multiple project scheduling.</p> <p>Cost Estimating Budgeting : Cost estimating process elements of budgeting, project cost accounting & management information systems, cost schedules & forecasts.</p>	5 + 1
4	<p>Managing Risks in Projects: Risk concept & identification, risk assessment, risk priority, risk response planning, risk management methods.</p> <p>Project Control: Information monitoring, internal & external project control, cost accounting systems for project control, control process, performance analysis, variance limits, and issues in project control.</p>	5 + 1
5	<p>Project Management Information System: Computer based tools, features of PMIS, using project management software, (MS Projects)</p> <p>Project Evaluation, Reporting & Termination: Project reviews & reporting, closing the contract.</p>	4 + 1

Learning Resources:		
1	Text Books	Effective Project Management by Clements and Gido, Thomson India Edition, 2007. Project Management : The Managerial Process by Gray and Larson, MGH, Special Indian Edition, 3 rd Edition Project Management for Business and Technology: Principles and Practice by John Nicholas, PHI – Eastern Economy Edition, 2 nd Edition.
2	Reference Books	Project Management – Core Text by Mantel, Meredith, Shafer, Sutton and Gopalan, 1 st Indian Edition
3	Supplementary Reading Material	Project Management: A Managerial Approach by Meredith, Mantel Wiley India, 6 th Edition. The Practice of Project Management by Freigenti and Comninos, Kogan Page
4	Websites	www.pmi.org.in/
5	Journals	Risk Analysis of Infrastructure Projects: A Case Study on Build-Operate-Transfer Projects in India by Maniar, Hiren., IUP Journal of Financial Risk Management, Dec2010, Vol. 7 Issue 4 Enercon India: Project Planning by Mukherjee, Saral; Raghuram, G., Vikalpa: The Journal for Decision Makers, Jan-Mar2007, Vol. 32 Issue 1 Critical Factors Affecting Schedule Performance: Evidence from Indian Construction Projects by Iyer, K. C.; Jha, K. N., Journal of Construction Engineering & Management, Aug2006, Vol. 132, Issue 8 What attributes should a project coordinator possess? by Jha, Kumar Neeraj; Iyer, Chandrashekhar K., Construction Management & Economics, Sep2006, Vol. 24 Issue 9 A Study of Critical Project Success Parameters in Different Organizational Conditions by Piyush, Mishra; Dangayach, G. S.; Mittal, M. L., Advances in Management, Aug2011, Vol. 4 Issue 8

Semester	IV	Specialization	Supply Chain Management
Course Code	410SCM	Type	Subject - Elective
Course Title	Supply Chain Performance Measurement		

Course Objectives:	
1	To understand various types of traditional performance measures of supply chain , their use and drawbacks
2	To introduce a select world class performance measures of Supply Chain
3	To understand the right metrics for a Supply Chain

Syllabus:

Unit Number	Contents	Number of Sessions
1	Performance Measurement along the Supply Chain: Relationship between Company Strategy & Supply Chain Metrics, Functional classification of Decision areas in SCM – Procurement, Manufacturing, Distribution, Logistics, Global	5 + 1
2	Traditional Approaches to Performance Measurement: Productivity Measures, Quality Measures, Customer Service Measures, Cost Measures, Drawbacks of Traditional Measures	5 + 1
3	World Class Performance Measures for Supply Chains: Balanced Scorecard, Activity Based Management & Costing, EVA (In depth discussion & analysis expected)	5 + 1
4	Process Driven Metrics: SCOR framework, EFQM (In depth discussion & analysis expected)	5 + 1
5	Building & Leveraging Metrics to drive Supply Chain Performance: All metrics are not equal, Establishing the right Metrics, Linking Metrics to overall strategic objectives, Insights through cause & effect guided analysis, Quantifying financial impacts of SC Metrics, Identifying corrective actions	5 + 1

Learning Resources:

Semester	IV	Specialization	Supply Chain Management
Course Code	411SCM	Type	Subject - Elective
Course Title	Supply Chain Management - Financial Perspectives		

Course Objectives:

1	To highlight the importance of cost management as a key to profitability and the key to successful supply chain networks.
2	To underline the role of cost management from a strategic perspective.
3	To teach the identification of key cost drivers and defined process of managing supply chain costs.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Pricing & Revenue Management in Supply Chain: Role of Pricing & Revenue Management in SC, Pricing and Revenue Management for - Multiple Customer Segments, Perishable Assets, Seasonal Demand, Bulk and Spot Contracts, Role of IT in Pricing & Revenue Management, Using Pricing and Revenue Management in Practice	5 + 1
2	Identifying Critical Costs in the SC: Concept of cost, Process Mapping, SC Cost flow, Selecting critical costs to be managed, Obtaining cost data – supplier provided data, internal data, Measuring Secondary & Tertiary Costs – Overview of Allocation based costing system, Management Based costing system	5 + 1
3	Defining Key cost Drivers & developing Strategic Options: Review of current cost drivers, selection of key cost drivers, Weighted value of cost drivers, Potential for improvement, Developing strategic options for selected cost drivers	5 + 1
4	Reducing, Eliminating or Changing activities that cause cost: Risk return model for choosing strategic options – Market driven, Standard, Critical & Danger Quadrants, Identifying constraints, Evaluating risks & benefits in SC cost management from stakeholders perspectives, prioritizing strategies for implementation	5 + 1
5	Implementation & Control for Cost Management In SC: Creating a Implementation Plan, Addressing Implementation Risks, Developing Contingency Plans, Selling the Plan to Stakeholders, Monitoring Performance, Documenting Savings, Qualitative Benefits, Sharing the learning process, Eternally improving & leveraging the process	5 + 1

Semester	IV	Specialization	Supply Chain Management
Course Code	412SCM	Type	Subject - Elective
Course Title	Global Logistics		

Course Objectives:	
1	To get acquainted with global dimensions of logistics management
2	To introduce basic operational aspects i.e. procedure, documentations & related legal aspects of global logistics
3	To sensitize students to basics of shipping line industry

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Introduction to Global Logistics : International Logistics Development, International Trade Logistics Chain, Shipper's Logistics Requirements in trade, 7R's of Logistics Management, 5 P's of Logistics, International Commercial Terms – Use of Incoterms in a Contract, Incoterms Laws.</p> <p>1.2 Logistics and Documentation: Consular Invoice, Commercial Invoice, Certificate of Origin, certificate of Value, Bill of Lading, Cargo Manifest or Packing List, Health Certificate, Import license, Insurance Certificate, Export Declaration Forms.</p> <p>1.3 Transportation: Modes of transportation, Transport and Communication, Transport activities and Land Use, Transport, Energy and the Environment.</p> <p>1.4 Air Cargo: Transportation of goods through Air, Transportation Infrastructure, World Air Cargo growth, Benefits of Airfreight, Airport classification, International Airports of India, Types of Aircraft, Unit loading devices, Airport Charges, International Country Codes.</p>	5 + 1
2	<p>2.1 Carriage of Goods by Land: Motor Vehicles Act, 1988, Central Motor Vehicles Rules, 1989, Carriers Act, 1865 – Definition of common carrier, Scheduled and Non Scheduled Goods, Railways Act, 1989 – Railway's liability, Merits and Demerits of Railway Transportation, Railway Freight rates.</p> <p>2.2 Carriage of Goods by Sea & Ocean Freight & Freight Calculations: Ocean Shipping Methods, Ocean Freight or Tariff rates, Freight rates terminology used in international shipments, Freight surcharges, Freight Rebates, Conference Discounts, Contract Shippers, Weight or Measure in the Freight Cost Calculation, Freight Adjustments – Currency Adjustment Factor (CAF), Bunker Adjustment Factor (BAF).</p> <p>2.3 Types of Ships: Mail and Supply Ships, Expedition Ships, Coasters, Bulk Carriers, Tankers, Refrigerated Vessels and Reefers, Livestock carriers, LNG Carriers, Car Carriers, Container Ships, Heavy lift Vessels, Tugs, Ro-Ro Vessels.</p>	5 + 1
3	<p>3.1 Shipping Formalities: Booking Shipping Space, Conference Shipping, Non-conference Shipping, Charter Shipping, Charter Party, Shipping Storage, Ocean Shipping procedure.</p> <p>3.2 Shipping Intermediaries: Function and Roles of Custom Brokers, Freight Forwarders and Consolidators, Shipping Agents, Stevedores.</p> <p>3.3 The Major Port Trusts Act, 1963.</p> <p>3.4 Shipping Corporation of India: Products and Services, STS Lighterage Operations</p>	5 + 1

4	<p>4.1 Major Ports in India: Present Policy, Privatization Policy, Indian Port Policy Reform, Major Ports in India – Chennai, Cochin, Ennore, JNPT, Kandla, Mormugao, Mumbai, Paradip, NMPT, Pipavav, Tuticorin, Visakapatnam.</p> <p>4.2 Important Sea Routes: Northern Sea route, North Atlantic Route, Mediterranean Route, Panama Route, Baltic Sea Route, Indian Ocean route, Cape Route, South Atlantic Route, North Pacific Route.</p> <p>4.3 International Chamber of Shipping</p> <p>4.4 World's Major Ports: Major Ports and Port codes, Seaports of the world.</p>	5 + 1
5	<p>5.1 Containerization: Origin of containerization, Origin of TEU, Container sizes - dimensions and capacity, Container Flavours, Swap Bodies, Other considerations, Registration, Container Classification numbers, Lift/Stacking fittings, Movement of containers, Recent Developments – Coltainer, Cargosprinter, Safety of container ships, Container Classification – General Cargo service, Specific cargo service, Unit Load Device, Rating – Tare Mass and Pay load of Containers, Marking and Identification of Containers. Benefits of containerization.</p> <p>5.2 Inland Container Depots & Container Freight Stations: Functions, Benefits, Requirements for successful ICD/CFS, Designs and Layout, Equipping the ICD/CFS, Procedures for approval and implementation. Concor – The Multimodal Logistics Professionals.</p>	5 + 1

Learning Resources:

Fall2003, Vol. 34 Issue 4, p456-472. 17p Logistics Industry Profile: Global , Logistics Industry Profile: Global. Dec2008, p1 –30

Semester	IV	Specialization	Supply Chain Management
Course Code	413SCM	Type	Subject - Elective
Course Title	Supply Chain Practices - II		

Course Objectives:	
1	To give a practical understanding of the practice of supply chain management in various sectors.
2	To give a practical understanding of the peculiarities of supply chain management practices in various sectors.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chains for Projects – Construction (Housing, Infrastructure), Power Plants, New Factories, etc.	NA
2	Supply Chains for Disaster Management.	NA
3	Virtual Supply Chains for Books, Electronic Goods, Music, Apparel, Tourism, etc.	NA
4	Supply Chains for SMEs and MSMEs.	NA
5	Global Supply Chains - PCs, Desktops, Luxury Cars, Toys, etc.	NA

* Field/Self Study under Faculty guidance.

Students should work in groups of two each on any two Companies from the Sectors listed above. The Sectors should be from different groups.

Students shall study various aspects of the SCM principles and practices as followed in these sectors.

They should identify the peculiarities of the sector, map the supply chain in detail (identify the parties involved and their role in the supply chain), compare the top two players in each of these sectors and identify best practices, Prepare a summary evaluation of each sector studied.

Students shall submit a structured detailed report based on the above parameters.

The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty. The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

Learning Resources:

MBA SYLLABUS: SEMESTER IV
RURAL and AGRIBUSINESS MANAGEMENT - SPECIALIZATION

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	403RABM	Type	Subject – Core
Course Title	Rural Credit and Finance		

Course Objectives:	
1	To help students to understand various facets of agricultural credit in Indian rural market
2	To motivate students to know the relationship between and the institutional structural bodies and their linkages with rural credit.
3	To initiate students into the world of Micro Financial Institutions and their interventions in the rural finance

Syllabus:

Unit Number	Contents	Number of Sessions
1	Role and Characteristics of Indian Agriculture :Introduction, Role of Agriculture in Economic Development, Characteristics of Indian Agriculture.	3 + 2
2	Critical Review of Agricultural Finance :Role of Credit in Agriculture, Agricultural Finance in India, Classification of Agricultural Finance, Significance of Co-op. Credit, Some Issues of the Present System. Financial Intermediaries In Agriculture : Functions, Structure and Performance.	9 + 2
3	Cooperative Banks : Concept and special features of co-operative banking, Structure of co-operative credit system in India, Primary Level Credit Institutions (PACs, LAMPs, MPCs, FSS) their functioning and problems, District Central Cooperative Banks Structure and functions, Apex Co-operative Banks Structure and functions, Impact of liberalization on Co-operative Banks with particular reference to de regulation of interest rates and prudential norms.	8 + 2
4	Theories of Agricultural Finance :Risk and Uncertainty Theory, Demand and Supply Theory, Business Vs. Social and Moral Theory, Cost Theory, Productive Vs. Consumption, – The concept of 3 C's, 7 P's and 3 R's of credit, Credit Analysis, Kind Loans Vs. Cash Loans, Principle of Micro- and Macro-Finance, Principle of Supervised Credit, Principle of Crop Loan, Principle of Co-op. Credit, Principle of Better Credit.	8 + 2
5	Rural Finance and Microfinance : Players and Approaches; Microfinance & Rural Finance – Lessons from microfinance and historical interventions, Rural finance: approach, delivery channels and actors involved, and linkages, Triangle of microfinance and the role of BDS in rural finance.	7 + 2

Learning Resources:

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	404RABM	Type	Subject – Core
Course Title	Rural Marketing II		

Course Objectives:

1	To objective of this course is to develop understanding regarding issues in rural marketing mix.
---	--

Syllabus:

Unit Number	Contents	Number of Sessions
1	Product Strategy: Product decisions, product classifications, product strategy levels, significance of product strategy, product strategies : assessment of acceptability, product design decisions, types of product strategies, product innovation strategies, customer value strategies, product identity strategies – branding, product identity strategies – packaging, brand building strategies, product lifecycle strategies, fighting fakes.	7 + 2
2	Pricing Strategy: Concept and significance, pricing objectives, pricing policy, pricing strategy – <i>the affordability challenge, rural versus urban, needs integrated approach</i> , pricing for the <i>quality conscious segment, value conscious segment and price conscious segment</i> , Pricing and environmental factors, pricing for competition, pricing by retailers, pricing and product lifecycle .	7 + 2
3	Distribution Strategy: Distribution – The Availability Challenge, Distribution Practices, Distribution Trends, Rural Logistics, Rural Coverage Decision, Geographical Information System for Planning Rural Coverage, Distribution decision – Direct Versus Indirect, Direct Marketing, Indirect Marketing.	7 + 2
4	Rural Retailing: The rise of organized retailing, types of retail outlets, role of retailers, rural malls, Government initiated retail outlets, entrepreneur founded malls, agri company retail outlets, retail outlets of petro-chemical companies, retailing by urban players, PPP models, E Tailing, Training Retailers.	7 + 2
5	Promotion Strategy: IMC – Concept and Management Awareness and Motivation Challenge, Objectives and Framework of IMC, Promotional Mix, Communication Process, Communication Media, Designing the Communication Strategy, IMC Strategy, Rural Advertising.	7 + 2

Learning Resources:		
1	Text Books	Rural Marketing – Text and Cases, Krishnamacharyulu and Ramakrishnan, Pearson Rural Marketing – Concept and Practices, Dogra and Ghuman, TMGH
2	Reference Books	Rural Marketing, Velayudhan, Sage Rural Marketing, Gopalaswamy, Vikas Publishing house Rural Marketing, Badi and Badi, Himalaya Publishing House

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	405RABM	Type	Subject – Elective
Course Title	Rural Development – II		

Course Objectives:

1	To help students understand various aspects of Rural Development in India
2	To make students know the challenges in rural development and the importance of monitoring and people's participation in rural projects

Syllabus:

Unit Number	Contents	Number of Sessions
1	Planning for Rural Development: Levels and Functions of Planning, Decentralization of Planning, Methodology of Micro level Planning, Methodology for Block and District Level Planning.	5 + 1
2	Organizing for Rural Development: Organizational Models, the search for a new paradigm, criteria for designing an appropriate organization, Government Organizations, Panchayati Raj Institutions (PRIs), Cooperatives, Voluntary Agencies/Non-Governmental Organizations, Corporations and Rural Development.	5 + 1
3	Financing Rural Development: Domestic Institutional Sources, the role of non – institutional agencies, deficit financing or controlled inflation, foreign sources of funds.	5 + 1
4	Implementation, Monitoring and Evaluation: Project Implementation, Project Control, Integration and Coordination, People's Participation in Implementation, Project Monitoring, Project Evaluation.	5 + 1
5	Poverty and Unemployment Eradication Programmes: Current Poverty Scenario and Trends, Rural Employment Scenario, Poverty and Unemployment Alleviation Programmes, Social Welfare – oriented programmes (SWOP) Natural Resources and Infrastructure Development Programmes: Natural Resources based Programmes, National Agriculture Insurance Scheme (NAIS), Infrastructure Development Programmes.	5 + 1

Learning Resources:

1	Text Books	Rural Development, Katar Singh, Sage Rural Transformation - Infrastructure and Micro Finance, Bhargava and Deepak Kumar, ICFAI University Press
2	Reference Books	Agriculture and Rural Development in India, Smita Patel, Paradise Publishers

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	406RABM	Type	Subject – Elective
Course Title	Special Areas in Agro produce Management		

Course Objectives:	
1	To explore the students to the Special Areas in Rural Marketing Environment
2	To help students to understand opportunities and emerging challenges in the upcoming rural markets .

Syllabus:

Unit Number	Contents	Number of Sessions
1	Management of Biotech Industries : Agricultural needs & application of biotechnology for agricultural uses and benefits; tissue culture, their structure, quality parameters, marketing, Intellectual Property Rights and legal implications.	5 + 1
2	Management of Floriculture and Landscaping : Recent advances in floriculture industry; evolution of new cultivators and production technology of ornamental plants; landscape gardening; style of gardening, commercial cultivation of flower crops storage of Aromatic and Medicinal oils and perfumes; storage and packing of cut flowers determining optimum time harvesting of flowers for export and home use.	5 + 1
3	Feed Business Management : Role of management in feed manufacturing industry, organizing and planning feed manufacturing unit, quality control of raw material and finished products, cost analysis and pricing decisions.	5 + 1
4	Fruit Production and Post-harvest Management – Present status of fruit industry in India and emerging scenario; major fruit growing zones, management of fruit production technology for domestic and global market; post-harvest handling technology harvesting, pre-cooling, grading, packing, storage and transportation for cooling, grading, packing, storage and transportation, pre and post-harvest management for quality and shelf life; fruit processing industry; international trade in fruits problems and prospects and global marketing of fruits, and government policy, incentives domestic and global trade.	5 + 1
5	Visit to Poultry / Hatchery / Emu Breeding / Piscicultural farm and preparing a report on management of the same.	5 + 1

Learning Resources:		
1	Text Books	Gopalakrishnan, C.A. and G.M.M. Lal - Livestock and Poultry enterprises for Rural DevelopmentVikas Publishing House
2	Reference Books	Floriculture, Landscaping and Turf Management: Production and Management Strategies, Alagarsamy Nithya Devi, Alagarsamy Ramesh Kumar, Valliappan Lakshmanan, Lambert Academic Publishing Poultry Production in Hot Climates, N. Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	407RABM	Type	Subject – Elective
Course Title	Commodity Markets – II		

Course Objectives:	
1	To introduce the concept of commodity markets.
2	To develop an understanding about the functioning of Commodity Exchanges.
3	To develop an understanding about the price movements of Commodities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Trading on Commodity Exchanges: The exchange platform, exchange membership, commodity brokerage, participants in commodity markets, market positions, order types, access to commodity exchanges. Clearing and Settlement on Commodity Exchanges: Risks in commodity markets, the commodity clearing house, margining method, the settlement process, warehousing and warehouse receipts, the delivery process, distinctive features of commodity futures, markets, the lifecycle of a commodity futures contract	5 + 1
2	Commodity Futures Pricing: The commodity futures contract, pricing of futures, carrying cost, futures spot convergence, price relationships Commodity Futures Applications: Futures for the hedger, mismatches in basis and basis risk, futures for the speculator, spreads, futures for the arbitrageur	5 + 1
3	Commodity Options: Working of option, buying options, the arithmetic of option premiums, the option Greeks, selling options, pricing options, exotic options Commodity Options Applications: Options for hedging, options for speculating, advanced option trading strategies, commodity trading strategies : Round up	5 + 1
4	Commodities : An Emerging Investment Class: The investment rationale, investing in commodities, commodity indices, risks and challenges of commodity investing.	5 + 1
5	Fundamental and Technical Analysis of Commodities: The law of demand, the law of supply, supply – demand relationship, equilibrium price and disequilibrium. Basic concepts of fundamental analysis and technical analysis. Students should work in groups of 5 each. They should collect commodity prices traded on any commodity exchange and carry out its technical analysis. They should also carry out a fundamental analysis of the same commodity.	5 + 1

Learning Resources:		
1	Text Books	Commodity Markets – Operations, Instruments and Applications by Chatnani, TMGH Commodity Derivatives by Indian Institute of Banking & Finance, Macmillan
2	Reference Books	Commodity Options: Trading and Hedging Volatility in the World's Most Lucrative Market, Carley Garner & Paul Britain, Pearson Agricultural Commodity Markets: A Guide to Futures Trading, By Michael Atkin, Routledge Agricultural Commodity Markets And Trade: New Approaches to Analyzing Market and Trade, By Dr. Alexander Sarris, David Hallam, Edward Elgar Publishing
3	Supplementary Reading Material	Understanding Agricultural Commodity Markets – EPW - December 29, 2012, Vol xlvii no 52 Leuthold RM, Junkus JC & Cordier JE. 1989. <i>The Theory and Practice of Futures Markets</i> . Lexington Books. Lofton T. 1993. <i>Getting Started in Futures</i> . 3rd Ed. John Wiley & Sons, 1993.

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	408RABM	Type	Subject – Elective
Course Title	Agricultural Marketing and Price Analysis – II		

Course Objectives:

1	To critically analyze the important marketing concepts, models, properties of agricultural commodity prices and forecasting, data collection and analysis using current software etc., in order to make them policy decisions in the field of agricultural marketing.
---	---

Syllabus:

Unit Number	Contents	Number of Sessions
1	Importance of market analysis in the agricultural system - types of marketing advantages and disadvantages - quantitative estimation - the distinguishing characteristics and role of agricultural prices - data sources for agricultural products and prices - software used in market analysis.	5 + 1
2	Role of various formal institutions in agricultural marketing - and functions - measuring their efficiency - public - private partnership – institutional arrangements. Successful case studies. Multi market estimation, supply response models. Market integration and price transmission - supply / value chain management. GAP analysis. Current trends in information in the changing agrifood system.	5 + 1
3	Agricultural commodity marketing - spot and futures- marketing of derivatives- speculation, hedging, swap, arbitrage etc. commodity exchanges - price discovery and risk management in commodity markets- Regulatory mechanism of futures trading.	5 + 1
4	Estimation of demand/ supply forecasting, supply chain / value chain analysis for different commodities - Commodity models- multi market estimation- time series analysis - market integration studies- price discovery price volatility estimation - commodity price forecasting using econometric software.	5 + 1
5	Students should work on a group project of collecting information about agricultural prices of select commodities and using spreadsheet based software or any other appropriate software build a forecasting model.	5 + 1

Learning Resources:

Semester	IV	Specialization	Rural & Agribusiness Management
Course Code	409RABM	Type	Subject – Elective
Course Title	Agricultural Finance and Project Management		

Course Objectives:

1	To impart knowledge on issues related to lending to priority sector credit management and financial risk management.
2	To acquaint the learner with course would bring in the various appraisal techniques in project - investment of agricultural projects.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Role and Importance of Agricultural Finance: Agricultural Finance- meaning, Financial Institutions and credit flow to rural/priority sector. Agricultural lending – Direct and Indirect Financing - Development of Rural Institutional Lending - Branch expansion, demand and supply of institutional agricultural credit and Over dues and Loan waiving.</p> <p>Role of Cooperatives: Financing through Co-operatives, NABARD and Commercial Banks and RRBs. Lead Bank Scheme District Credit Plan and lending to agriculture/priority sector. Micro-Financing and Role of MFI's - NGO's, and SHG's.</p>	5 + 1
2	Lending to farmers: Lending to farmers, Estimation of Technical feasibility, Economic viability and repaying capacity of borrowers and appraisal of credit proposals.	5 + 1
3	Project Approach: Project Approach in financing agriculture. Financial, economic and environmental appraisal of investment projects. Identification, preparation, appraisal, financing and implementation of projects.	5 + 1
4	Project Appraisal Techniques: Project Appraisal techniques – Undiscounted measures. Time value of money – Use of discounted measures - B-C ratio, NPV and IRR. Agreements, supervision, monitoring and evaluation phases in appraising agricultural investment projects.	5 + 1
5	<p>Risks in financing agriculture: Risk management strategies and coping mechanism. Crop Insurance programmes – review of different crop insurance schemes – yield loss and weather based insurance and their applications.</p> <p>Case Study Analysis of an Agricultural project, Financial Risk and risk management strategies – crop insurance schemes, Financial instruments and methods – E banking, Kisan Cards and core banking.</p>	5 + 1

Semester	IV	Specialization	Family Business Management
Course Code	408FBM	Type	Subject – Elective
Course Title	Managing, Growing and Exiting The New Venture		

Course Objectives:	
1	To empower student with nuances of stages of venture and entrepreneurial conduct
2	To prepare student with the understanding of resources and external sources
3	To prepare student of separation and exit strategies

Syllabus:

Unit Number	Contents	Number of Sessions
1	Entrepreneurial Strategy: Generating And Exploiting New Entries: New Entry, Generation of a New Entry Opportunity - Resources as a Source of Competitive Advantage, Creating a Resource Bundle That is Valuable, Rare, and Inimitable. Assessing the Attractiveness of a New Entry Opportunity - Information of New Entry, Comfort with Making a Decision under Uncertainty, Decision to Exploit or Not to Exploit the New Entry. Entry Strategy for New Entry Exploitation - Environmental Instability and First Mover (Dis) Advantages, Customer Uncertainty and First Mover (Dis) Advantages, Lead Time and First Mover (Dis) Advantages. Risk Reduction Strategies for New Entry Exploitation - Market Scope Strategy, Imitation Strategies, Managing Newness.	5 + 2
2	Strategies For Growth And Managing The Implications of Growth: Growth Strategies: Where to Look for Growth Opportunities - Penetration Strategies, Market Development Strategies, Product Development Strategies, Diversification Strategies, Example of Growth Strategies. Economic Implications of Growth. Implications of Growth for the Firm - Pressures on Existing Financial Resources, Pressures on Human Resources, Pressures on Management of Employees, Pressures on Entrepreneur's Time. Overcoming Pressures on Existing Financial Resources. Financial Control - Managing Cash Flow, Managing Inventory, Managing Fixed Assets, Managing Costs and Profits, Taxes, Record Keeping. Overcoming Pressures on Existing Human Resources, Overcoming Pressures on the Management of Employees, Overcoming Pressures on Entrepreneur's Time - Basic Principles of Time Management. Implications of Firm Growth to the Entrepreneur - A Categorization of Entrepreneurs and Their Firms' Growth.	5 + 2
3	Accessing Resources For Growth From External Sources: Using External Parties to Help Grow a Business, Franchising - Advantages of Franchising- to the Franchisee, Advantages of Franchising- to the Franchiser, Disadvantages of Franchising, Types of Franchising, Investing in Franchising. Joint Ventures - Types of Joint Ventures, Factors in Joint Ventures. Acquisition - Advantages of Acquisition, Disadvantages of Acquisition, Synergy, Structuring the Deal, Locating Acquisition Candidates. Mergers, Leveraged Buyouts, Overcoming Constraints by Negotiating for More Resources.	5 + 2
4	Going Public: Advantages and Disadvantages of Going Public – Advantages, Disadvantages. The Alternatives to Going public, Timing of Going Public and Underwriter selection – Timing, Underwriter Selection. Registration Statement and Timetable - The Prospectus, Part II, Procedure. Legal issues. After Going public - Aftermarket Support, Relationship with the Financial Community, Reporting Requirements, Myths concerning Going Public.	5 + 2

5	Ending The Venture: Bankruptcy- An overview, Reorganization - Surviving Bankruptcy, Prepackaged Bankruptcy, Extended Time Payment Plans, Liquidation, Strategy during Reorganization, Keeping the Venture Going, Warning Signs of Bankruptcy, Starting Over, The Reality of Failure, Business Turnarounds, Exit Strategy. Succession of Business - Transfer to Family Members, Transfer to Non-Family Members. Harvesting Strategy - Direct Sale, Employee Stock Option Plan, Management Buyout.	5 + 2

Semester	IV	Specialization	Family Business Management
Course Code	412 FBM	Type	Subject – Elective
Course Title	Business Incubation		

Course Objectives:	
1	To develop a basic understanding of their own business model
2	Learn basics of startup formation
3	Receive mentoring from successful, articulate, and committed entrepreneurs.

Syllabus::

Students shall work in groups of not more than 3, identify a business idea and come up with the following in the context of their identified business idea:

1. Competitive Analysis
2. Marketing Plan
3. Operational Plan
4. Financials
5. Market research
6. Advertising
7. Advisory board development
8. Legal issues (company structure, legal agreements, intellectual property)
9. Insurance issues
10. Other revenue
11. Marketing
12. Technology
13. Operations/costs
14. Funding
15. Institutional / Government Support to the venture.
16. Relationships
17. Team-building
18. Ethical issues
19. One-Page Business Summary

The students shall present their work to the faculty and fellow students. To the extent possible an entrepreneur should be involved in the evaluation process.

The following questions shall form the basis of evaluation of the work:

1. Is the idea well-conceived?
2. Is the plan well researched?
3. Has the team identified and addressed key questions and challenges and, as an entrepreneur, adjusted nimbly?
4. Did the team present the plan well?

Weightage to the work shall be as follows:

1. Initial competitive analysis
2. Preliminary marketing plan
3. Operational plan
4. Financials
5. One-page business summary
6. Written Work

MBA Syllabus: Semester IV
Technology Management

Semester	IV	Specialization	Technology Management
Course Code	403TM	Type	Subject – Core
Course Title	Technology Competition and Strategy		

Course Objectives:	
1	To highlight the role of technology and innovation as value drivers.
2	To emphasize the open systems view and underscore the role of environment in Technology strategy.
3	To highlight linkages between technology and business strategy

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology & Competition: Competitive Domains, Competitive Consequences of Technological Change – Creation of New Products, Changes in the Value Chain, Changes in the Value Constellation, Competitive Rivalry. Technological Characteristics of Competitive Domains – Technological Opportunity, Appropriability, Resource Requirements, Collateral Assets, Institutional Milieu, Speed. Dynamics of Change in the Competitive Domain – Technology Emergence Phase, Incremental Change Phase. Framework for Analysis of Technology Emergence, Influence of Environmental trends on competition. Technology as critical to Business Outcomes – Technology Strategy and Technology Leadership.	7 + 2
2	Technology Intelligence: Signals of New Technology, What is Technology Intelligence, Importance of Technology Intelligence, Levels of Technology Intelligence, External versus Internal Technology Intelligence. Mapping the Technology Environment – Steps in Mapping, Mapping the Macro-level and Industry Level Environment. Mechanisms for Data Collection – Challenges, Organizational Arrangements and Key Principles for Data Collection. Contemporary Challenges in Mapping the Technology Environment.	7 + 2
3	Business Strategy and Technology Strategy: Business Strategy , Strategic Analysis and Decision Making using Product Evaluation Matrix, Market-Growth-Market-Share Analysis Matrix, X-Y Coordinating Method, M-by-N Matrix, SWOT Matrix, Formulation of Technology Strategy, Core Competencies, Exploitation of Core Competencies, Integration, Linking Technology & Business Strategies, Creating the Product-Technology-Business Connection. Technology's Interface with – Market, Customers and Suppliers. Customer-Supplier and Product-User relationships.	7 + 2
4	Technology Strategy Choice: Technology – Business Connection, Domains of Technology Choice, Linkages between Technology Choice and Competitive Advantage, Technology Strategy Definition, Role of Chief Technology Officer, Key principles underlying Technology Strategy – Objectives, Drivers, Decision criteria. Technology Strategy Types – Appropriateness of the Technology Strategy Types, Diversified Firms, A Framework for formulating Technology Strategy – Strategic Diagnosis, Formulation of Technology Strategy, Crafting and Implementation Approach, Execution. Technology Strategy – Superior Performance Characteristics. Accountability to Shareholders, Government and Other Stakeholders/ Performance Measurement.	7 + 2

5	Technology Strategy – Collaborative Mode: Collaborative Arrangements – Definitions, Trends, R&D Alliances, Marketing Alliances, Outsourcing Alliances, Collaboration between small and large firms, Strategic and Operational Reasons for Collaborative Arrangements. Collaborative Arrangements in the domain of Technology Strategy – Appropriation of technology, Deployment of technology in New Products, Deployment of technology in the Value Chain, Marketing of technology. Risks of Collaborative Activity – Intellectual Property Right Risk, Competitive Risk, Organizational Risk. Cases on R & D Collaborations, Global Technology Alliances. The form of Collaborative Arrangement.	7 + 2

Semester	IV	Elective	Technology Management
Course Code	404TM	Type	Subject –Core
Course Title	Managing Innovation – II		

Course Objectives:

1	To provide exposure to an integrative framework for innovation.
2	To highlight global and emerging market context of globalization
3	To describe government's role in innovation
4	To describe innovations in service sector context.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Globalization for Innovation: Technological Uncertainty, Market Uncertainty, Endogeneity, Generic Strategies for World Wide Innovation, Strategic Choice – Balancing Cost & Innovation, Role of Complimentary technologies, Protecting Entrepreneurial Rents – Team Up , Block, Run. Methods of Globalization – Acquisitions and Mergers, Strategic Alliances, Licensing, Internal Development.	7 + 2
2	Innovation for Emerging Economies: Value Stock, Techno-economic Factors – Economic Differences, Product Specificity. Entry Strategies – Reach for later stage of the Product Life Cycle, Reach Deeper into the Value Stock, Options Approach.. Implementation – Technology Transfer, Commercialization, Establishing Co-opetitors.	7 + 2
3	Role of National Governments in Innovation: Why a Government Role? – Public Nature of Knowledge, Uncertainty, Public Complementary Assets, Network Externalities, Politics. Government Actions – Financing R & D, Lead User, Provider of Public Complementary Assets. Regulator, Macro-Economic Fundamentals, Baby-Sitter and Godfather, Educator, Information Centre and Provider of Political stability.	7 + 2
4	Innovation in Services: Service Organizations do Innovate, The Concept of Innovation in Services, Type of Innovation in services, The CI-3 Framework – Customer Intelligence, Customer Intimacy, Customer Innovation. Brand Asset Monitoring, Customer Satisfaction & Loyalty Measurement, Touch Points Data Management. Customer Blending, Customer Mind Mapping, Customer Ecosystem Mapping. Innovation Process, Magnet team. Product Forums. Benefits of the CI – 3 Framework.	7 + 2
5	Cases on Innovation: Business / Process innovations, Social Innovations, Organizational innovations. Overview of National Innovation Systems – Brazil Denmark, Singapore, USA, Japan.	7 + 2

Semester	IV	Specialization	Technology Management
Course Code	405TM	Type	Subject – Elective
Course Title	Innovation, Product Development and Commercialization		

Course Objectives:	
1	To offer a holistic framework for new product development and commercialization especially in the context of high technology products.
2	To highlight critical role of leadership in management of new product development & commercialization.
3	To illustrate how to integrate business, market, technology and resource strategies for optimal product development decisions and global commercialization success.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Product Platform and Knowledge Integration: Product Development Goals, Knowledge - Generation, Retention, Reuse and Integration. Dimensions of Knowledge integration, Knowledge integration across the value chain and virtual teams, Time Value of Knowledge and Short time to Market, Types of Products and Product Development Projects, Product and Process Platforms – Definitions, Defining a Product platform. Modularity in System Design, Strategic Outsourcing and Product Architecture, Product Life Cycle, Continuous Improvement of a Product, Baseline and Derivative products.	5 + 1
2	Product Development Process: Product Development framework, product Development process at leading corporations, New Product Development and Commercialization Process, Scaling the process and dynamic nature of Product Development, Knowledge generation and Integration in the PDCP, Flexibility in Product Development, Market Requirement Specifications, Phases of the PDCP, Product Launch, Cross-functional responsibilities and deliverables in the Product Development. Process Development Methodology, Software Product Development, Product Release and Post release Management, Product Change Management.	5 + 1
3	Excellence in Design and Product Reliability: Product Design , Design for Excellence – Design for Manufacturability, Serviceability, Maintainability, Safety, Environment Sustainability. Design for Reliability, Predictability and Robustness. Reliability profile over the Life Cycle, Reliability Assurance beyond the design phase, Reliability design and reliability modeling, Fault Tree Analysis, Failure Modes, Effects and Criticality Analysis, Design of Experiments, Passive Data Collection, Accelerated Testing and Screening, Weibull Analysis, Duane Growth Model, Terminology in Product Design and Development, Product Documentation, Prototyping, Product Characterization Testing, Customer Participation in Product Development, Quality.	5 + 1
4	Commercialization of High Tech Products: Challenges in the development and commercialization of high tech products, Strategies for flawless execution, process orientation, Kaizen in PDCP, Managing critical interfaces, Systems analysis, Systems Engineering and Life Cycle Thinking, Product Development – A Systems Analysis Perspective, A Global Perspective. Managing Constraints. Common innovation problems in large companies, Engineering Excellence and Team Productivity, Lean Product Development, Virtual teams through strategic alliances and sourcing to external and internal suppliers, core competency, core activities, leveraging resources.	5 + 1

5	<p>Managing New Product Development Teams: Overview, Constructing New Product Development teams, Team Size and Composition, Structure of the New Product Development team, Functional teams, Lightweight teams, Heavyweight teams, Autonomous teams. Team Leadership, Team Administration. Managing Virtual teams.</p> <p>Managing Product and Technology Portfolios for Shareholder Value: Factors affecting long term growth of shareholder value – RoA, RoE, RoI models, Product and Technology Portfolio Planning, A framework for Product Portfolio Planning, Steps in Product Portfolio Planning, Resource Distribution, Assessing Market and Business Opportunities.</p>	5 + 1

Semester	IV	Elective	Technology Management
Course Code	406TM	Type	Subject – Elective
Course Title	Strategies for Information Goods and Network Economies – II		

Course Objectives:

1	To describe alternative strategies for pricing in the context of information goods.
2	To describe role of platform based strategies in the context of network economy.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Strategies for Internet and Telecommunication Services: Price discrimination via multi-part tariffs, Pricing of future consumption.	5 + 1
2	Enterprise Technology Strategies: Subscription vs. per-use pricing, Technology Licensing, site licensing vs. employee pricing, software sharing , Timing of release and upgrades, product launch and versioning, damaged goods, managing buyer disbelief about product quality. Managing switching costs and lock-in.	5 + 1
3	Strategies for platform and network goods: Compatibility, product complements and network effects: Compatibility within own network, one-way and two-way compatibility, compatibility under competition and direct network effects. Product complementarities and compatibility.	5 + 1
4	Platform Competition, Control, Alliances: Network compatibility and alignment, Why Dominant Designs are Selected – Learning Effects, Network Externalities, Government Regulation, Winner-take-all markets. Are Winner-take-all markets good for consumers?	5 + 1
5	Standards: Standards Wars - Battle for standards, openness, control, Managing and analyzing alliances.	5 + 1

Learning Resources:

1	Text Books	Carl Shapiro and Hal R. Varian. Information rules: a strategic guide to the network economy. Boston, MA, USA: Harvard Business School Press, 1998 Economics of Information Technology: An Introduction , Hal R. Varian, Joseph Farrell, and Carl Shapiro. Cambridge University Press, 2005.
2	Reference Books	Competition, Regulation and Strategy: The Information Technology Industry, Morris Game Theory and Business Strategy , Oberholzer-Gee and Yao Hirshleifer, J. and J. Riley (1992). The Analytics of Uncertainty and Information (Cambridge Univ. Press).
3	Supplementary Reading Material	The Economics of Network Industries. Oz Shy , Cambridge University Press, 2002. “Freeing the Source: The Story of Mozilla” by Jim Hamerly and Tom Paquin with Susan Walton, in: Open Sources: Voices from the Open Source Revolution, O'Reilly, 1999
4	Websites	http://www.ifm.eng.cam.ac.uk/research/ctm/ http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/
5	Journals	Katz, M. L. and Shapiro, C. (1994). Systems Competition and Network Effects. Journal of Economic Perspectives. 8(2): 93-115. Liebowitz, S. J. and Margolis, S. E. (1994). Network Externality: An Uncommon Tragedy. Journal of Economic Perspectives. 8(2): 133-150.

Semester	IV	Elective	Technology Management
Course Code	407TM	Type	Subject – Elective
Course Title	Technology Use and Assessment		

Course Objectives:

1	To describe linkages among society, environment, and technology.
2	To describe a framework for technology assessment.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology Assessment: Definitions and Purpose of Technology Assessment: Policy, Decision-making (Organizational and personal). Assessment Criteria - Stakeholder Interests, Authority, Sustainability: Social, Economic, & Environmental, Efficiency, Ethical Considerations, Costs, Benefits, and Tradeoffs. Scope of Technology Assessment - Personal and Organizational, Formal and Informal, Small- and Global-Scale.	5 + 1
2	Technology and its Influence: Technology and its influence on Society, Government & Politics, Energy, Health, Environment, Education.	5 + 1
3	Selected Technology Assessment Techniques: Risk and Impact Assessment, Environmental Impact Assessment, Health Technology Assessment, Critical Incident, Suturing, Brainstorming, Interpretive structural modeling, Trend extrapolation, Opinion measurement, Scenarios, Checklists, Relevance trees, Cross-effect matrices, Simulation models, Sensitivity analysis, Probabilistic techniques, Benefit-cost analysis, Export base models, Decision analysis - Decision Trees, Policy capture, Life cycle analysis, Force field analysis.	5 + 1
4	Technology Use: Definitions and Purpose of the study of Use. Usability: System & Product Acceptability Criteria, Usability Defined, Usability Attributes (e.g., learnability, efficiency, and satisfaction), Usability Engineering Lifecycle - Goal Setting & Design Criteria, User-centered design, Ergonomics and anthropometrics, Trade-Offs. Usability Research Methods - Observation, Usability Tests, User Surveys, Task Analysis.	5 + 1
5	Conducting Research on Technology Use: Planning - Human subjects protection, Standards for verifiability, validity, and reliability. Gathering data - Analyzing and Interpreting data, Reporting.	5 + 1

Learning Resources:

1	Text Books	Porter, A. L., Rossinni, F., Carpenter, S. R, Roper, A. T., Larson, R. W., and Tiller, J. S. (1980). A guidebook for technology assessment and impact analysis. New York: North Holland. Society for Philosophy of Technology, 4(4). http://scholar.lib.vt.edu/ejournals/SPT/v4n4/mohr.html
5	Journals	Deal, W. (2002). Making the connection: Technological literacy and technology assessment. The Technology Teacher, 61(7), 16-18. International Journal of Technology Management

Semester	IV	Elective	Technology Management
Course Code	408TM	Type	Subject – Elective
Course Title	Product Strategy for High Technology Companies – II		

Course Objectives:

1	To propose vectors of differentiation as a framework for sustainable competitive advantage
2	To describe alternative product-market strategies for high technology product companies
3	To provide a fundamental understanding of global product strategies and framework for opportunities and risk assessment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Achieving Sustained Differentiation through Vectors of Differentiation: Effects of Differentiation. Benefits of Vectors of Differentiation. Differentiation Strategies – Using Unique Features, Measurable Customer Benefits, Ease of Use, Improved Productivity, Protecting the Customer's Investment, Lower Cost of Product Failure, Higher-Performance products, Unique Fundamental Capabilities, Through Design, Based on Standards, Total Solutions, Total Cost of Ownership, Brand Name, Convenience. Risks of Differentiation, Sustainable Differentiation – Maintaining Technological Advantage, Using Patent Protection, Rapidly Advancing the Vector.	5 + 1
2	Product Pricing Strategy: Effects of Pricing Strategy, Offensive Pricing Strategies - Price Leadership, Penetration Pricing, Experience Curve Pricing, Price / Performance, Promotional Discounting. Defensive Pricing Strategies – Adapt prices to maintain Highest Competitive Price, Use Price to Segment the Market, Use Skim Pricing to Maximise Profit, Redirect Product line Sales by Bait-and-Switch Pricing. Internet Pricing Strategies, Risks of Offensive Pricing Strategies. Sources of Cost Advantage.	5 + 1
3	First-to-Market and Fast-Follower Strategies: Advantages of Being First to Market, Advantages of being the fastest, First-to-Market Strategies – First to Upgrade Products with New Technology, Respond Rapidly to Market Changes, Introduce Continual Product Innovation, Be a First to Create a New Market. Fast Follower Strategies – Wait Until a New Market is Clarified, Reverse Engineer Successful Competitor Brands. Risks of Timing Strategies – Entering the Market prematurely, Compressing Product Life cycles, Relying on Inferior Product Development Process.	5 + 1
4	Thinking Globally about Product Strategy: International Differences in Products – Certification Requirements, Standards, Language Differences, Differences in use, Demographic Differences, National Preferences and Protectionism, National Laws. Global Product Strategy Integration with Other Global Strategies – Global Market Strategy, Global Manufacturing Strategy, Global Product Development Process. Global product Strategies – Design and Develop Products Uniquely for Country Markets, Leverage a Country Specific Product through Reengineering, Customize a Global Product Platform to Meet the Needs of Different Regions, Develop a Universal Global Product. Risks of Global Strategies.	5 + 1
5	Opportunities and Risks of Cannibalization: Causes of Unfavourable Cannibalization, Offensive Cannibalization Strategies – Cannibalize the Market to Attach the Market Leader, Introduce New Technology First. Defensive Cannibalization Strategies – Cannibalize yourself before Competitors do it, Introduce Cannibalization to Continue as the Technology Leader, Manage the Rate of Cannibalization through Pricing, Restrict Cannibalization to Specific Market Segments. Risks of Cannibalization Strategies, Analytical Framework for Cannibalization.	5 + 1

Learning Resources:		
1	Text Books	Product Strategy for High Technology Companies, Michael McGrath, MGH, 2nd Edition. 2	Reference Books	Marketing of High-Technology Products and Innovations by Jakki Mohr, SanjitSengupta, Stanley Slater, 2nd Edition Gorchels, L.: The Product Manager's Handbook: The Complete Product Management Resource, 3 rd edition, McGraw Hill, New York, 2005
3	Supplementary Reading Material	Marketing High Technology by William H. Davidow Product Marketing for Technology Companies by Mark Butje, Elsevier
4	Websites	http://www.ifm.eng.cam.ac.uk/research/ctm/ http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/
5	Journals	Moore, J.F.: Predators and Prey: A New Ecology of Competition, Harvard Business Review May 1993

Semester	IV	Elective	Technology Management
Course Code	409TM	Course Type	Subject - Elective
Course Title	Systems & Technologies for Knowledge Management		

Course Objectives:

1	To familiarize the participants with systems & technologies used for knowledge capture, discovery, sharing & application.
2	To highlight role of artificial intelligence, knowledge based systems & data mining in knowledge Management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Artificial Intelligence 1.1 Artificial Intelligence – Meaning, Knowledge Vs. Intelligence, Concept of Expertise, state space search methods comprising early AI Work, 1.2 Modern knowledge-based systems (KBS), Heuristic Search, Kinds of Knowledge in Knowledge Based Systems, Expert Systems, Advantages & Disadvantages of KBS 1.3 AI Based Reasoning - Model-based reasoning, Constraint-based reasoning, Diagramatic Reasoning, Fuzzy logic, Evolutionary algorithms	5 + 1
2	Knowledge Based Systems (KBS) 2.1 User's & Developer's Views of KBS, Components of KBS - Inference engine, The knowledge base The user interface, The fact base 2.2 Means of Representing Knowledge – Rules & Frames, Inference Chains, Attributes, Inheritance 2.3 Rule based reasoning, Frame based reasoning, Forward & Backward Chaining, Weaknesses of Rule based reasoning, Knowledge Engineering, Tools available for KBS 2.4 Case Based Reasoning (CBR), CBR Systems, Using CB Libraries, Advantages & Disadvantages	4 + 1
3	Knowledge Elicitation & Capture 3.1 Repertory Grid as Knowledge Elicitation Tool, Techniques to automate knowledge acquisition, 3.2 Knowledge Capture System –Techniques for Using &OrganisingOrganisational Stories, 3.3 Concept Maps, Cmap Tools, Context Based Reasoning	4 + 1
4	Data Mining 4.1 Concept of Data Mining, Objectives of Data Mining, Data Mining Techniques – Predictive & Descriptive 3.3 Statistical pattern Recognition, Statistical Clustering, 3.4 Decision Trees, Induction Trees 3.5 Artificial Neural Networks, Basic feed forward neural networks with supervised learning, Unsupervised learning, Clustering techniques and the Kohonennetworks.CRISP DM Methodology	6 + 1

5	<p>Knowledge Sharing & Application Systems</p> <p>5.1 Organizational Memory</p> <p>5.2 Requirements & barriers to Knowledge Sharing Systems</p> <p>5.3 Types of Knowledge Sharing Systems, Repositories, Incident report databases, Alert systems, Best practices databases, Lessons-learned systems, Expertise locator systems</p> <p>5.4 Knowledge Application Systems, Design Considerations, Case Method Cycle, Technologies</p> <p>5.5 Types of Systems- Expert systems, decision support, advisor systems, fault diagnosis (troubleshooting) systems, help desk systems</p>	6 + 1
---	---	-------

---	----------	---

Semester	IV	Elective	Technology Management
Course Code	410TM	Course Type	Subject - Elective
Course Title	Strategic Management of Intellectual Property Rights		

Course Objectives:	
1	To expose the participants to the concept of intellectual property & intellectual property rights
2	To describe procedures & agencies involved in issues related to IPR
3	To highlight strategic issues related to IPR & its management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction 1.1 Meaning of Intellectual Property & Intellectual Property Rights, Historical perspectives and need for the introduction of Intellectual Property Right regime, Ethical & Social Issues 1.2 Types of IPRs - patents, copyrights, trademarks, trade secrets and traditional knowledge, industrial design, integrated circuits, plant protection and geographical indications, domain names 1.3 Benefits of securing IPRs, Strategic Relevance of IPR, 1.4 International conventions and treaties on IP, TRIPs and various provisions in TRIPs Agreement 1.5 IP issues on the internet	6+1
2	Filing Patent Applications 2.1 Indian Legislations for the protection of various types of Intellectual Properties 2.2 Patent Filing procedure, Claim drafting, agencies involved, what can be patented & what can not be, Strategic Issues relating to the content of the application 2.3 Traditional Knowledge & Geographical Indications 2.4 Introduction to Global IP & Different form of IPRs, Global IP and Litigation, US Patent Statutes and Filing procedure 2.5 Key strategic and policy issues.	5+1
3	IPRs and their strategic relevance 3.1 Patents in various industries such as Pharmaceutical & Biotech, Agriculture , Engineering, Information Technology Industry etc., ownership and period of protection; 3.2 Trademarks- Boundaries between trade-mark, trade-dress and industrial design 3.4 Copyright: Strategic Issues Relating to Software and Artistic Works 3.5 Securing and Commercializing IPRs	4+1
4	IPRs Licensing & Strategic Alliances 4.1 IP appraisal, IP Valuation 4.2 Technology transfer through licensing, strategic alliances and other types of contractual arrangements. 4.3 Licensing of technologies, Material Transfer Agreements, Research Collaboration Agreement 4.4 IPRs and Licensing Strategies – Strategic impact on licensors & licensees of technology, 4.5 Key issues involved in the licensing process.	5+1

5	Management of IPR : Inter & Intra Firm Alliances 5.1 Role of Inter-firm Networks and Strategic Alliances 5.2 Organizational Incentive Mechanisms & Intra-organizational arrangements , 5.3 Internal Assessment of Technology and Intellectual Property& strategies to protect it., search for similar or related innovations/inventions, Exploring databases 5.4 Issues Relating to Commercialization of IPRs, Evaluating the commercial viability of IPRs 5.5 Overseas IP Operations	5+1
---	---	-----

Semester	IV	Elective	Technology Management
Course Code	411TM	Type	Subject – Elective
Course Title	Change , Creativity & Innovation		

Course Objectives:

1	To emphasize the key aspects of managing change and the drivers of innovation and creativity in organizations.
2	To deconstruct and demystify the processes of change, creativity and innovation in organizational context.

Syllabus:

Unit Number	Contents	Number of Sessions
1	The Process of Change, Creativity & Innovation: Organizational Change – Definition & Key Dimensions, Factors that Promote Change, Creativity & Innovation, Theories of Innovation, Levels & Types of Innovation, The age of Creativity, Creativity & National prosperity, Creative Industries & potential for growth.	5 + 1
2	The Individual – Promoting Critical Thinking: Cognitive factors - Implications for HRM, Personality Traits - Implications for HRM, Knowledge – Explicit & Implicit, Informal and Tacit, Knowledge for creativity - Implications for HRM, Motivation – Types of Motivation. The Group – Nurturing Team Work: Difference between groups and teams, Why do people join teams? Team Development process, Why do teams fail? Blind conformity, Group Think, Social loafing. Team Inputs - size, longevity, task, Knowledge, Skills and Abilities (KSAs), Resourcing of the team, Team composition. Team processes – Action processes. Brainstorming. Electronic Brainstorming. Nominal Group Technique (NGT). Trust – Conflict – Team cohesiveness. Moderators of Team Performance – Task Type, Task Leadership. Team outcomes.	5 + 1
3	The Leader – Promoting New Ideas at Work: Defining Leadership, Difference between Managers and Leaders, Ingredients of Leadership, Trait approaches to Leadership, Behavioural approaches to Leadership, Managerial Grid, Contingency theories – Fiedler model, Hersey Blanchard situational theory, Leader participation model, Push-Goal Theory. Transformational and transactional leadership. Charismatic and Visionary Leadership. Leading change, creativity & Innovation – Leadership and change, Ingredients of leadership for creativity & Innovation. Challenges in leading for creativity & Innovation.	5 + 1
4	The Internal Environment – Orchestrating Structure, Systems and Resources; The Balanced Score Card – Value Creation and Performance management. Organizational Structure – work specifications, departmentalization, chain of command, span of control, centralization and decentralization, Formalization. Situational factors – Corporate Strategy, Organizational Size, Environmental uncertainty. Structural forms – Traditional and contemporary forms. Organizing for change, creativity and innovation - Goal Setting and reward Systems. Evaluation. Resources – Sufficient resourcing. Systems of Communication.	5 + 1

5	<p>Culture – Enabling & Constraining Creative Processes at Work: Organizational culture, Different Perspectives of Organizational culture, Can we manage Organizational culture? Culture as an important ingredient of Organizational Creativity. Norms that promote Creativity and Innovation, Norms that promote Implementation. Principles of creativity and innovation. Do strong, cohesive cultures hinder innovation?</p> <p>The Organization – Managing Process of Change: Change and Organizations, Change Drivers, People and Change, The problem of resistance, Organizational Development approach to change, Situational Approach to Change Management, Political process approach to change management, Processual perspective for understanding change. Studying change over time.</p>	5 + 1
---	--	-------

Learning Resources:

Semester	IV	Elective	Technology Management
Course Code	412TM	Type	Subject – Elective
Course Title	Seminar on Managing Emerging Technologies		

Course Objectives:	
1	To define the concept and scope of emerging technologies
2	To catalog and describe emerging technologies
3	To enable students to develop a systematic framework for analyzing emerging technologies
4	To discuss the possible managerial applications of these technologies

Students will work in groups of 2 or 3 each. They shall identify emerging technologies and explore applications of emerging technologies and document the same. The participants will determine the issues, questions, and areas that they would like to examine. The choice of technologies shall be shaped by the interests of the group participants as well as the relevance of specific technologies to managerial aspects in specific contexts.

Each group will prepare two presentations for class. Before, between, and after the presentations the group will post relevant articles, etc. for the rest of the class on the class website.

The idea is that each group will be working on their topic each week, but only present twice. However, the intervening work will be on the site for others to examine and discuss. This work on the site is each group's opportunity to try out ideas. It is also the opportunity for the other groups to pose questions that will help direct the group's research.

Towards the end the group will present their "findings" providing hard copies for every class member. As a class, students will brainstorm/explore the potential applications of the information, possibly around a theme.

The purpose is to examine critically the thinking and direction of other groups.
