To conduct following Courses with the Intake indicated below for the Academic Year 2022-23

Level	Program	Course	Affiliating Body (University /Body)	Intake Approved for 2021-22	Intake Approved for 2022-23	NRI Approval Status	FN / Gulf quota/ OCI/ Approval Status
POST GRADUATE	MANAGEM ENT	MBA	University of Pune, Pune	120	120	NA	NA

It is mandatory to comply with all the essential requirements as given in APH 2022-23 (Appendix 6)

Important Instructions

1. The State Government/ UT/ Directorate of Technical Education/ Directorate of Medical Education shall ensure that 10% of reservation for Economically Weaker Section (EWS) as per the reservation policy for admission, operational from the Academic year 2019-20 is implemented without affecting the reservation percentages of SC/ ST/ OBC (NCL)/ General. However, this would not be applicable in the case of Minority Institutions referred to the Clause (1) of Article 30 of Constitution of India. Such Institution shall be permitted to increase in annual permitted strength over a maximum period of two years.
2. The Institution offering courses earlier in the Regular Shift, First Shift, Second Shift/Part Time are now amalgamated as total intake and shall have to fulfil all facilities such as Infrastructure, Faculty and other requirements as per the norms specified in the Approval Process Handbook 2022-23 for the Total Approved Intake. Further, the Institutions Deemed to be Universities/ Institutions having Accreditation/ Autonomy status shall have to maintain the Faculty: Student ratio as specified in the Approval Process Handbook. All such Institutions/ Universities shall have to create the necessary Faculty, Infrastructure and other facilities WITHIN 2 YEARS to fulfil the norms based on the Affidavit submitted to AICTE beginning with the Academic Year 2022-23
3. Strict compliance of Anti-Ragging Regulation, Establishment of Committee for SC/ ST, Establishment of Internal Complaint Committee (ICC), Establishment of Online Grievance Redressal Mechanism, Barrier Free Built Environment for disabled and elderly persons, Fire and Safety Certificate should be maintained as Approval Process Handbook and provisions made in AICTE Regulation notified from time to time.
4. In case of any differences in content in this Computer generated Extension of Approval Letter, the content/information as approved by the Executive Council / General Council as available on the record of AICTE shall be final and binding.

Pharmacy Institute: In compliance with the order dated 05.03.2020 passed by the Hon'ble Supreme Court of India in Transferred Petitions (CIVIL) No 87-101 of 2014, for the existing institutions offering courses in Pharmacy Programme, approval of Pharmacy Council of India (PCI) is mandatory and AICTE approval is NOT required. The requirements for running the Programme (Diploma / UG / PG) such as Land & Build-up Area, Student-faculty ratio, Intake etc. will be as per the respective regulatory body (PCI). In case of any inconsistency in the course name and intake for EoA issued by AICTE and the approval by PCI, the approval of PCI shall prevail.

Architecture Institute: In compliance with the order dated 08.11.2019 passed by the Hon'ble Supreme Court of India in CA No.364/ 2005, for the existing Institutions offering Courses in Architecture Programme, approval by the Council of Architecture (CoA) is mandatory and AICTE approval is NOT required. The requirements for running the Programme (Diploma / UG / PG) such as Land & Build-up Area, Student-faculty ratio, Intake etc. will be as per respective regulatory body (CoA). In case of any inconsistency in the course name and intake for EoA issued by AICTE and the approval by CoA, the approval of CoA shall prevail.

Deemed to be University: Institutions Deemed to be Universities (Running Technical Education Programmes), it is mandatory to have AICTE approval from the Academic Year 2018-19 in compliance of the Hon'ble Supreme Court Order dated 03-11-2017 passed in CA No.17869- 17870 /2017.

Circular No. 03/2021
Important Notification

Regarding Commencement and Conclusion of Teaching of First & Second terms for the Academic Year 2020-2021

In continuation with Circular No. 284 and 285 dated 15/10/2020 regarding Commencement & Conclusion for First and Second terms for the Academic Year 2020-21 and Circular No. 323/2020 dated 03/12/2020, it is hereby informed to all the concerns that the University issues following guidelines to conduct theory and practical classes in offline mode:

P.G. Programme:

1. The practical / Summer Internship Project / Dissertation (Theory if required) classes of Odd Semesters of second year and onwards of Engineering / Architecture / Pharmacy / Management / Hotel Management / Education / Physical Education / Law and other similar programs shall begin from 11th January 2021 in offline mode.
2. The practical/ Dissertation / Industrial Training Project (Theory if required) classes of Odd Semesters of second year and onwards of Arts / Fine Arts / Science / Commerce/ Social Sciences / Library Science / Communication & Journalism and other similar programs shall begin from 11th January 2021 in offline mode.
3. The Theory and Practical classes of odd semesters of First year of Arts / Fine Arts / Science / Commerce / Social Sciences / Library Science / Communication & Journalism and other similar programs shall begin from 11th January 2021 in offline mode.
4. The Theory and Practical classes of even semesters of all programs shall be conducted in offline mode immediately after completion of odd semester examination in accordance with the guidelines issued by University Grants Commission, Government of Maharashtra and Local Authorities from time to time.

U.G. Programme:

1. Practical classes of Odd Semesters of Second year and onwards of Engineering / Architecture / Pharmacy / Management / Hotel Management / Education / Physical Education / Law and other similar programs shall begin from 11th January 2021 in offline mode.
2. Practical classes of Odd Semesters of Second year and onwards for Science courses shall begin from 11th January 2021 in offline mode.
3. Practical of Odd Semesters of Second year and onwards of Arts / Fine Arts / Commerce / Social Sciences / Library Science / Communication & Journalism and other similar programs (if applicable) shall begin from 11th January 2021 in offline mode.
The practical of T Y. B. A. and T Y B. Com. (Annual Pattern), if applicable shall also begin from 11th January 2021 in offline mode.
4. Theory and Practical classes of even semesters of all programs shall be conducted immediately after completion of odd semester examination shall be conducted in offline mode in accordance with the guidelines issued by University Grants Commission, Government of Maharashtra and Local Authorities from time to time.

First year of P.G. / U.G. of Non-Professional Programs:

1. Commencement of theory and practical classes of all P.G. programs of the First year (whose admissions were not made under the Common Entrance Test (CET) Examination conducted by Government of Maharashtra or Competent Authority) shall begin from 11th January 2021 in offline mode.
2. Commencement of practical of all U.G. programs of First year (whose admissions were not made under the Common Entrance Test (CET) Examination conducted by Government of Maharashtra or Competent Authority) shall begin from 11th January 2021 in offline mode.

First year of P.G. / U.G. of Professional Programs:

Commencement of theory and practical classes of first year of Professional programs (whose admissions are being made under the Common Entrance Test (CET) Examination conducted by the Competent Authorities) shall begin in offline mode as per the dates declared by the competent authorities.

M. Phil. / Ph.D. Programs:

The research work of M. Phil. / Ph.D. program shall begin from 11th January 2021 in offline mode.

General Instructions:

1. The Principals / Directors and Heads of the University Departments should follow the guidelines issued by the University Grants Commission vide its letter No. F.2-30/14 (General Circular/WRO) dated 6th November 2020 for Re-opening the Universities and Colleges Post Lockdown due to COVID-19 pandemic, Govt. Circular No. Sankirna2020/Pra.Kra.140/SD-6 dated 10th November 2020 and guidelines issued by Local Authorities from time to time. Attached herewith copies for ready reference.
2. The schedule of Commencement and Conclusion of Academic Year 2020-21 as per Circular No. 284/2020 and 285/2020 dated 15/10/2020 shall remain unchanged. Attached herewith copies for ready reference.

Subject : UGC Guidelines for Re-opening the Universities and Colleges Post
Lockdown due to COVID-19 Pandemic - reg.

Dear Madam/Sir,

Please find enclosed herewith a copy of letter D.O.No.14-8/2020(CPP-II) dated 5th November, 2020 from the Secretary, UGC regarding UGC Guidelines for Re-opening the Universities and Colleges post Lockdown due to COVID-19 Pandemic. The attached letter is self-explanatory. You are requested to comply with the instructions contained in the letter and take necessary action in this regard.

A copy of UGC Guidelines for Re-opening the Universities and Colleges post Lockdown due to COVID-19 Pandemic is also attached herewith.

With regards,

Yours sincerely,

R. Manoj Kumar

5th November, 2020

Subject: UGC guidelines for Re-Opening the Universities and Colleges Post Lockdown due to COVID-19 Pandemic

Respected Madam /Sir,

Universities and other educational institutions across the country have been closed since 16th March, 2020 when the Government of India announced a countrywide lockdown as one of the measures to contain the COVID-19 outbreak. Keeping in view of the COVID-19 pandemic and subsequent lockdown, the University Grants Commission issued "*Guidelines on Examinations and Academic Calendar for the Universities in View of Covid-19 pandemic and subsequent Lockdown*" on 29th April, 2020 and then, on 6th July, 2020. The universities and colleges have put in their best efforts to continue their academic programmes and complete the syllabi using various ICT tools of teaching and learning since their closure from mid-March onwards.

The new academic session is going on and the universities and colleges need a customized plan, as per the local conditions where they are located, to deal with any eventuality arising due to the COVID -19 before resuming the activities on campuses. The top priority, while opening the institutions, should be the safety, health and well-being of the students, teachers and staff. In view of this, UGC has framed "*Guidelines for Re-Opening the Universities and Colleges Post Lockdown due to COVID-19 Pandemic*" (Annexure-I) which provide in detail the measures to be taken before re-opening of campuses. These Guidelines have also been vetted by the Ministry of Health & Family Welfare and approved by the Ministry of Home Affairs and the Ministry of Education. The Guidelines may be adopted by the institutions as per the local conditions and directives of the Government authorities.

You are requested to adopt these guidelines and take necessary steps to implement them accordingly. Further, the universities/colleges have to ensure that it is prepared in all respects to carry out the academic activities following necessary advisories / guidelines / directions issued by the Central / State Government, Ministry of Education (MoE) or UGC from time to time to prevent the spread of COVID-19.

With kind regards,

Yours sincerely,

(Rajnish Jain)

Generic Preventive Measures/COVID-19 Appropriate Behaviour

The following public health measures are to be followed to reduce the risk of COVID-19 by all (faculty members, employees, students and visitors) in these places at all times:

- i. Physical distancing of at least 6 feet to be followed as far as feasible.**
- ii. Use of face covers/masks to be made mandatory.**
- iii. Frequent hand washing with soap (for at least 40-60 seconds) even when hands are not visibly dirty. Use of alcohol-based hand sanitizers (for at least 20 seconds) can be done wherever feasible.**
- iv. Respiratory etiquettes to be strictly followed. This involves strict practice of covering one's mouth and nose while coughing/sneezing with a tissue/handkerchief/flexed elbow and disposing of used tissues properly.**
- v. Self-monitoring of health by all and reporting any illness at the earliest.**
- vi. Spitting shall be strictly prohibited.**
- vii. Installation & use of Aarogya Setu App shall be advised wherever feasible.**

1. Introduction

Universities and other educational institutions across the country have been closed since 16th March, 2020 when the Government of India announced a countrywide lockdown as one of the measures to contain the COVID-19 outbreak. The Government of India through its Ministries, viz., Ministry of Home Affairs, Ministry of Health, Ministry of Ayush and Ministry of Education took several initiatives to contain the spread of the virus and issued directives and advisories to educate the people about the gravity of the infection from Coronavirus and the measures to protect from it. Specific instructions were also issued to the universities and colleges by the Ministry of Education and the UGC in this regard.

The University Grants Commission issued "Guidelines on Examinations and Academic Calendar for the Universities in View of COVID-19 Pandemic and Subsequent Lockdown" on 29th April, 2020 and then, on 6th July, 2020. These Guidelines covered important dimensions related to examinations, academic calendar, admissions, online teaching-learning and provided flexibility for adoption by the universities. Later "UGC Guidelines on Academic Calendar for the First Year of Under-Graduate and Post-Graduate Students of the Universities for the Session 2020-21 in View of COVID-19 Pandemic" were issued on 24th September, 2020.

In order to contain the spread of COVID-19 pandemic in the educational institutions and to ensure continuity in teaching- learning process, Ministry of Education and UGC issued several directives/ advisories/ guidelines to the universities and colleges, including the one to impart online education by making the best use of e-resources. Through all the communications made by Ministry of Education and UGC, it was emphasized to continue with teaching-learning processes using online modes such as Google Classroom, Cisco Webex Meeting, You Tube streaming, OERs, SWAYAM platform (www.swayam.gov.in), Swayam Prabha (www.swayamprabha.gov.in) (available on Doordarshan (Free dish) and Dish TV), e-yantra (www.e-yantra.org), Virtual Labs (www.vlab.co.in), FOSSEE (<https://fossee.in>), application of spoken tutorials (www.spoken-tutorial.org), National Digital Library (NDL) (<https://ndl.iitkgp.ac.in>), electronic journals (<https://ess.inflibnet.ac.in>) etc.

The new academic session is going on and the universities and colleges need a customized plan, as per the local conditions where they are located, to deal with any eventuality arising due the COVID -19 before resuming activities on campuses. Besides above, reopening of universities and colleges will relieve the students from uncertainties regarding their career, mode of functioning of universities and colleges, including the conduct of physical classes. Also, it will relieve teaching and other staff from any uncertainty regarding the continuity of their services and salary etc.

It is felt that even after the spread of Coronavirus is contained, certain preventive measures will be required to be followed for quite some time to avoid its recurrence. This will be all the more necessary for educational institutions as large numbers of students gather on the campuses. Keeping all these factors in view, the University Grants Commission has framed Guidelines for the universities and colleges which they may follow, while reopening their campuses after lockdown and the summer vacations. These Guidelines have been vetted by the Ministry of Health & Family Welfare and approved by the Ministry of Home Affairs and the Ministry of Education. The Guidelines may be adopted by the institutions as per the local conditions and directives of the Government authorities.

2. Re-Opening the Campuses - Issues and Challenges

Indian higher education system is very large and diverse. There are various types of universities, colleges and institutions offering programmes ranging from engineering, technical, medical, sciences, humanities and social sciences at undergraduate, postgraduate, and doctoral level, besides research and extension activities. Also, they vary in their geographical conditions, size, infrastructural capacity, types and duration of programmes etc. Therefore, the issues and challenges faced by them in reopening their campus also vary considerably.

Keeping in view the uncertainties of future due to COVID-19 pandemic and its impact on the functioning of universities and colleges, they may plan to reopen their campuses in a phased manner, ensuring safety, health and well-being of all students and staff. They should be flexible in their plan and should be ready to handle any eventuality arising due to COVID-19.

It may be difficult to comprehend all the challenges/ situations which the higher education institutions may be required to handle while they plan to reopen. However, some of the issues which they may be required to handle instantly are given below:

- i. To follow the advisories/guidelines/directions issued by the Central/State Government, Ministry of Education and UGC from time to time to prevent the spread of COVID-19.
- ii. Uncertainty among students regarding admissions, modes of teaching-learning, completion of courses, examinations, evaluation, declaration of results and the academic calendar, etc.
- iii. Anxiety, mental health and psychological issues of students developed during the lockdown period and fear of infection after the opening of campuses.
- iv. Safety measures including sanitisation of premises, thermal screening, ensuring physical distancing, face-cover/mask wearing, respiratory hygiene and hand-hygiene etc.
- v. Preparation for risk assessment and subsequent actions which may be required depending upon the residential status of the institution - whether fully residential, partially residential or non-residential.
- vi. Varied conditions of the pandemic in the state, area and environment where the students mainly live while making risk assessment and planning to address these challenges.
- vii. Besides students, a serious risk of infection will also be faced by the faculty, counsellors and other technical and non-teaching staff also who face/ interact with the students and also among themselves regularly.

3. Measures Required before Re-Opening of Campuses

As the universities and colleges are likely to face a number of issues at the time of reopening, they will be required to plan in advance. Some of the measures, which the institutions may have to take prior to reopening, are given below:

3.1 Pre-requisites

- i. Before reopening of any campus, the Central or the concerned State Government must have declared the area safe for reopening of educational institutions. The directions, instructions, guidelines and orders issued by the Central and State Government concerned regarding safety and health in view of COVID-19 must be fully abided by the higher education institutions.
- ii. However, they may develop stricter provisions and guidelines, if they feel it necessary. The universities and colleges have to make adequate arrangements to ensure the safety and health of students, faculty and staff.
- iii. The universities and colleges shall be allowed to open only if they are outside the containment zones. Further, students and staff living in containment zones will not be allowed to attend the colleges. Students and staff shall also be advised not to visit areas falling within containment zones.
- iv. The faculty, staff and students of the university and college should be encouraged to download 'Aarogya Setu App'.
- v. The institutions should be ready with a plan for handling the inflow of students, faculty and staff in the campus, monitoring disinfecting measures, safety and health conditions, screening and detecting the infected persons, containment measures to prevent the spread of the virus in the campus, and also alternative plan(s), in case the campus needs to be closed again due to spread of the virus in campus or in the surrounding area(s) in near future.

3.2 Modalities for Physical Opening of Colleges/Higher Education Institutions

The following modalities regarding the physical opening of Colleges/Higher Education Institutions, in a graded manner, may be adopted:

The Colleges/Higher Education Institutions outside the containment zones may be opened in a graded manner after consultations with concerned State/UT Governments and subject to adherence to the guidelines/SOP for safety and health protocol prepared by UGC, duly incorporating the view/comments of the Ministry of Health & Family Welfare, as under:

- i. For Centrally Funded Higher Education Institutions, the Head of the Institution should satisfy herself/himself regarding the feasibility of the opening of physical classes and decide accordingly.

- ii. For all other Higher Educational Institutions, e.g., State Universities, Private Universities etc., opening of physical classes to be done as per the decision of the respective State/UT Governments.

3.3 Measures

- i. Universities and colleges may plan opening the campuses in phases, with such activities where they can easily adhere to social distancing, use of face masks and other protective measures. This may include administrative offices, research laboratories and libraries etc.
- ii. Thereafter, students of all research programmes and post-graduate students in science & technology programmes may join as the number of such students is comparatively less and norms of physical distancing and preventive measures can be easily enforced.
- iii. Further, final year students may also be allowed to join for academic and placement purposes, as per the decision of the head of the institution.

However, for (i), (ii) and (iii) above, it should be ensured that not more than 50% of the total students should be present at any point of time and necessary guidelines/protocols to prevent the spread of COVID-19 are observed.

- iv. For the programmes, other than those mentioned in paras 3.3 (ii) and (iii) above, online/distance learning shall continue to be the preferred mode of teaching and shall be encouraged.
- v. However, if required, students may visit their respective departments in a small number for consultation with the faculty members, after seeking prior appointments to avoid crowding, while maintaining physical distancing norms and other safety protocols.
- vi. Some students may opt not to attend classes and prefer to study online while staying at home. Institutions may provide online study material and access to e-resources to such students for teaching-learning.
- vii. Institutions should have a plan ready for such international students who could not join the programme due to international travel restrictions or visa-related issues. Online teaching-learning arrangements should also be made for them.

3.4 Safety concerns

- i. The institutions should train their staff and students to assist and undertake the work related to safety and health to prevent an outbreak of the pandemic in their campuses. Non-resident students should be allowed in campuses only after thermal scanning, sanitization of their hands, wearing of face masks and gloves. Symptomatic persons should not be permitted to enter the campus and should be advised to contact the nearest hospital for clinical assessment.

- ii. Regular visits of a counsellor may be arranged so that students can talk with the counsellor about their anxiety, stress or fear.
- iii. To avoid the risk of transmission, the students, faculty and staff should be screened and symptomatic ones be advised to get clinically assessed before allowing them entry into the campus.
- iv. Isolation facilities for symptomatic persons and quarantine facilities for those who were in contact with the positively tested persons should be there on campus or a tie-up may be made in advance with some Government hospital or approved premises or as advised by the local authorities so that, in case of necessity, prompt action may be taken. Proper arrangement of safety, health, food, water etc. should be ensured for those in quarantine and isolation facilities.
- v. For those who have tested positive, isolation facilities should be in place either on campus itself or as a prior arrangement with some nearby hospital(s) or as advised by the local authorities.
- vi. Universities and colleges should prepare a policy for restricting the outside experts on campuses, study tours, field works etc., keeping in mind the COVID-19 situation.
- vii. All such programmes and extracurricular activities should be avoided where physical distancing is not possible.
- viii. Clean and hygienic conditions, as per safety and health advisories of the concerned government departments, are to be maintained at all places, including hostel kitchens, mess, washrooms, libraries, class rooms etc.
- ix. Proper signages, symbols, posters etc. should be prominently displayed at appropriate places to remind the students, faculty and staff for maintaining physical distancing. The details of COVID-19 cell established by the institution be prominently displayed containing the emergency number, helpline number, email id and contact details of persons to be contacted in case of any emergency in the institution.
- x. Ensure the norms of physical distancing, sanitization and hygienic conditions for use of common facilities, viz., Auditorium, Conference/ Seminar halls, Sports, Gymnasium, Canteen, Parking Area etc.

4. Institutional Planning

Institutional planning is the key for the successful reopening of the campuses and smooth conduct of the teaching-learning process during these difficult times. The universities and colleges will, therefore, be required to develop their plans very cautiously for reopening of their campuses and this planning has to be done well in advance. The plan may, inter-alia include the following points:

- i. Institutions should prepare details of opening the campus in a phased manner with a complete roster for all departments and batches of students in different programmes. Para 3.2 (i) & (ii) of the Guidelines may be referred.
- ii. The institutions must ensure appropriate sanitization and disinfection process and procedures.
- iii. It should be made mandatory for the Teachers, Officers, Staff and Students to wear the Id cards.
- iv. The faculty, student, staff should be screened regularly to protect and avoid infecting one another.
- v. All preventive measures, preparedness and necessary support system to deal with the COVID -19 positive cases should be monitored and reported to local authorities on a day to day basis.
- vi. Teaching hours in a day may be extended, as per requirements of the institution.
- vii. Six-day schedule may be followed so that classes can be conducted in phases and the seating arrangement be made keeping in view the requirements of physical distancing.
- viii. Universities and colleges may consider reducing the class size and break them in multiple sections to maintain physical distancing during the classes.
- ix. Depending on the availability of space in class rooms or learning sites, up to 50% students may be allowed on a rotation basis to attend the classes.
- x. Faculty should be trained for online teaching-learning practices.
- xi. The visitors should either not be allowed at all or their entry should be drastically restricted. The conditions of the entry for visitors should be strictly laid down and displayed on the entry point(s). Complete contact details of the visitors be maintained along with the names of persons whom he/ she meets.
- xii. There should be adequate isolation arrangements for those having symptoms and also for those who test positive for COVID-19 (however the two need to be kept separately), either at the level of the institution or in collaboration with the Government authorities.

4.1 Safety Measures at Entry/ Exit Point(s)

- i. Adequate arrangements of thermal scanners, sanitizers, face masks should be made available at all entry and exit points, including the reception area.
- ii. Crowding must be avoided at entry/ exit points. Staggered timings of entry and exit with limited strength for different programmes should be followed.
- iii. For ensuring queue management, inside and outside the premises, specific markings on the floor with a gap of 6 feet may be made and be adhered to.
- iv. In case the institution has more than one gate for entry/ exit, all the gates should be used, with adequate care, to avoid crowding.
- v. Monitoring of the entry and exit of the students should be done.
- vi. Screening of students, faculty and staff, wearing of face covers/ mask, sanitizing of hands etc. must be ensured at all entry points.
- vii. Those having symptoms of fever, cough or difficulty in breathing should not be allowed to enter.

4.2 Safety Measures during Working Hours

4.2.1 Classrooms and other Learning Sites

- i. Proper sanitization at all learning sites should be ensured. Cleaning and regular disinfection (using 1% sodium hypochlorite) of frequently touched surfaces (door knobs, elevator buttons, hand rails, chairs, benches, washroom fixtures, etc.) to be made mandatory in all class rooms, laboratories, (and also) lockers, parking areas, other common areas etc. before the beginning of classes and at the end of the day. Teaching materials, computers, laptops, printers, shall be regularly disinfected with 70% alcohol swipe.
- ii. Sitting places in classes, laboratories, computer labs, libraries etc. should be clearly marked, keeping in view the norms of physical distancing. At least one seat should be left vacant between two seats.
- iii. Wearing face cover/ mask is a must at all times and at all places inside the campus.

4.2.2 Inside the Campus

- i. Cultural activities, meeting etc. may be avoided. However, such extra-curricular and sports activities may be allowed where physical distancing is feasible and is in accordance with the Ministry of Home Affairs guidelines, issued under Disaster Management Act, 2005 from time to time

- ii. Adequate arrangements for safe drinking water should be made on the campus.
- iii. Hand washing stations with facilities of liquid soap should be created so that every student can wash her/ his hands frequently.
- iv. Regular and sufficient supply of face covers/ masks, heavy duty gloves, disinfecting material, sanitizer, soaps etc. to sanitation workers should be ensured.
- v. Wearing of face cover/ mask by all students and staff should be ensured.
- vi. Proper cleanliness should be maintained inside the entire campus.
- vii. Adequate arrangements should be made for sanitizing the entire campus, including administrative and academic buildings, classrooms, laboratories, libraries, common rooms, toilets, water stations, furniture, learning material, teaching aids, sports equipment, computers etc.
- viii. Physical distancing should be maintained at all places and crowding must not be allowed at any place under any circumstances.
- ix. An adequate supply of water in toilets and for hand- washing should be ensured.
- x. Proper sanitization of buses, other transport and official vehicles of the institution should be done.
- xi. Spitting in the campus must be made a punishable offence.
- xii. Dustbins must be cleaned and covered properly.
- xiii. Dustbin for collection of used facemasks, personal protective equipment, hand gloves and their disposals should be ensured as per safety norms. Provision for proper disposal of used personal protection items and general waste should be followed in accordance with CPCB guidelines (available at: https://cpcb.nic.in/uploads/Projects/Bio-Medical-Waste/BMW-GUIDELINES-COVID_1.pdf).
- xiv. For air-conditioning/ventilation, the guidelines of CPWD shall be followed which emphasizes that the temperature setting of all air conditioning devices should be in the range of 24-30°C, relative humidity should be in the range of 40-70%, intake of fresh air should be as much as possible and cross ventilation should be there.

- xv. Gymnasiums shall follow MoHFW guidelines (available at: <https://www.mohfw.gov.in/pdf/Guidelinesonyogainstitutesandgymnasiums03082020.pdf>).
- xvi. Swimming Pool (wherever applicable) shall remain closed.
- xvii. All employees who are at higher risk, i.e., older employees, pregnant employees and employees who have underlying medical conditions to take extra precautions. They should preferably not be exposed to any front-line work requiring direct contact with the students.

4.2.3 Hostels

- i. Hostels may be opened only in such cases where it is necessary while strictly observing the safety and health preventive measures. However, the sharing of rooms may not be allowed in hostels. Symptomatic students should not be permitted to stay in the hostels under any circumstances.
- ii. Since residential students may be coming from different locations, they shall remain in quarantine and self-monitor their health for a period of 14 days before being allowed to attend classes or as per the policy opted by the State Government for quarantine (even if they bring a negative test report or the university/college plan to test them on arrival).
- iii. There should be no crowding in hostel areas where students live in close proximity and share common facilities and utilities. Hence, their numbers need to be limited appropriately to avoid crowding. Also, hostel students should be called in phases.
- iv. Thermal Screening of all resident students should be ensured.
- v. They will be referred to the nearest COVID treatment facility for clinical assessment and treatment.
- vi. Density in dining halls, common rooms, playing areas should be limited, keeping in view the requirement of physical distancing.
- vii. Hygiene conditions should be regularly monitored in kitchens, dining halls, bathrooms and toilets etc.
- viii. Cleanliness is to be maintained in dining areas. Meals should be served in small batches, avoiding over-crowding. Take away options should be available for students and staff.
- ix. It must be ensured that the meals are freshly cooked. A senior staff should monitor the same.

- x. Utensils should be properly cleaned.
- xi. Wearing of face covers/ masks and proper sanitization of hands of the staff engaged for the preparation and distribution of meals should be ensured.
- xii. Resident students and staff should avoid or limit visiting the markets. As far as possible, essential items may be made available within the campus.
- xiii. Hostels may define the number of students in dining halls at any point in time. Mess timings may be increased to avoid overcrowding.

4.2.4 Regular Monitoring of Health

- i. Every institution should regularly monitor the health of its students, faculty, and staff.
- ii. Faculty, staff and students should also be sensitized on self-monitoring of their health.
- iii. Faculty, Staff and students should submit self-disclosure, if any of their family members have been infected/availed treatment for COVID-19.

4.2.5 Counselling & Guidance for Mental Health

In order to reassure the students' community to avoid any kind of stress or panic in the prevailing situation *vis-a-vis* their studies, health and related issues, Universities and Colleges should take the following measures for the mental health, psychological aspects and well-being of the students:

- i. All the faculty members, students and staff should be made aware of the Web page named "Manodarpan" – created on the Ministry of Education website to provide psychosocial support for Mental Health & Well-being during the COVID – 19 outbreak and beyond. The web page contains advisory, practical tips, posters, videos, do's and don'ts for Psychosocial support, FAQ and online query system. Also, a National Toll Free Helpline (8445440632) for country wide outreach to students from schools, colleges and universities has also been set up which will provide tele-counselling to address their mental health and psychosocial issues.
- ii. Set up helplines for mental health, psychological concerns and well-being of students in Universities/ Colleges which need to be regularly monitored by Counsellors and other identified faculty.

- iii. Regular mentoring of students through interactions, and appeals/letters by the Universities/ Colleges to remain calm and stress-free. This can be achieved through telephones, e-mails, digital and social media platforms.
- iv. Form COVID-19 help groups of students headed by hostel wardens / senior faculty who can identify friends/ classmates in need of help and provide the immediate necessary help.
- v. Share the following video links of Ministry of Health & Family Welfare <https://www.mohfw.gov.in/on> the University/ College website and with students and faculty via e-mail, through social media like Facebook, WhatsApp and twitter etc.

4.2.6 Measures for Containment

- i. As soon as a student, faculty or staff is detected COVID-19 positive, such person should be immediately isolated as per the directive/advisory of the Government. Room-mates and close contacts should be quarantined and symptomatic ones to be immediately tested.
- ii. Universities and colleges should have a ready plan to provide healthcare support to those resident students and staff who test positive and are isolated.
- iii. The guidelines restricting social and physical contacts and mobility in such parts of residential places in the campus, where positive cases have been found, should be strictly enforced. Measures like holding no class, not leaving the rooms for hostellers, if applicable, no take away arrangement of food from mess etc. may be enforced, depending upon the severity of the situation.
- iv. Universities and colleges should also plan in advance, in case shut down are ordered by the Government due to outbreak in campus or the surrounding region.

4.2.7 Sensitization of Students, Teachers and Staff

- i. Awareness programmes regarding COVID-19 as to how the infection spreads, common symptoms, and precautions and measures required to contain its spread may be launched.
- ii. Maintaining hygiene, e.g., how to wash hands, how to cough or sneeze into a tissue or elbow, avoid touching of face, eyes, mouth and nose should be regularly told to the students and the staff.
- iii. The necessity of physical distancing, wearing face covers/ masks, hygiene etc. should be brought home to all.
- iv. Activities to stay fit, physically and mentally, should be encouraged like doing exercises, yoga, breathing exercises, meditation, etc.
- v. To improve resilience and mental health, students should be encouraged to share their feelings with friends, teachers and parents, remain positive, grateful, helpful, have focussed approach, take a break from work, eat healthy and sleep timely etc.
- vi. Eating healthy food and fruits, avoiding junk food, frequently drinking warm water, adopting ways to increase immunity etc. should be encouraged.
- vii. Students should be told to regularly sanitize their laptops, audio, video and other media accessories.
- viii. Factual information regarding COVID-19 and consequences of infection, without making them stressed or fearful, should be disseminated.
- ix. Posters and stickers should be pasted at appropriate places in the campus to create awareness about the risk of infection from Coronavirus.
- x. All support and facilities should be provided to persons with disabilities (*Divyangjan*).
- xi. No discrimination based on caste, creed or gender should be allowed to take place.
- xii. Sharing of books, other learning material and eatables be discouraged.

5. Role of Stakeholders

5.1 Central/ State Government(s)

- i. The Government should help educational institutions to prepare an effective plan for reopening their campuses. The plan may vary from institution to institution, keeping in view the situation regarding spread of COVID-19 pandemic in a particular area/region/zone.
- ii. The Governments may issue clear instructions to the universities and colleges to ensure the safety and health of all concerned. This may include instructions for wearing of face masks, physical distancing, and the number of students in a class, library, hostels, and dining halls etc.
- iii. State governments, in consultations with higher education institutions, should prepare an estimate of requirement in each of their districts and zones, of disinfectants, facemasks and prepare a plan in advance for their procurement and distribution. Universities and colleges should ensure sufficient supplies of these items to their students, faculty and staff.
- iv. Keeping in view the varying conditions in any state at district and zonal levels, the Government concerned should prepare a region-specific plan, instead of a uniform plan for the entire state.
- v. State health departments should remain in touch with the universities and colleges and work to ensure that the campuses are well prepared to maintain the safe and healthy conditions and also to deal with the COVID-19 related unexpected situations.
- vi. The Governments should keep a constant touch with the universities and colleges regarding the status of COVID-19. The government may call information regarding COVID-19 related condition in the campuses and also call meetings at appropriate intervals with the Head of institutions through video conferencing.

5.2 Head of the Institution

- i. Vice- Chancellors/ Principals may get Standard Operating Procedures(SOPs) worked out in view of COVID-19 outbreak, in accordance with the Government orders and guidelines.
- ii. A detailed institutional plan which may, inter alia, include sanitization, safety and health measures should be prepared and kept ready, before reopening of campus. Proper implementation of the institutional plan should be ensured and regular monitoring should be done with the help of faculty and the staff.
- iii. Tie-ups may be established with nearby hospitals, health centres, NGOs, health experts for help and support in fighting COVID-19.

- iv. A plan for all academic activities, i.e., the academic calendar, teaching-learning modes, examinations, evaluation etc. should be kept ready well in advance.
- v. A Task Group should be created to handle varied situations and issues related to the COVID-19 pandemic. Such Task Group may consist of senior persons from faculty and staff, students, volunteers from communities, NGOs, health organisations and Government officials etc. as the case may be.
- vi. Teachers, students and staff should be made aware of all relevant plans and activities on the campus.

5.3 Teachers

- i. Teachers should make themselves fully aware of institutional plans and Standard Operating Procedures.
- ii. Every teacher should prepare a detailed teaching plan for the subjects taught by him/her, including time table, class size, modes of delivery, assignments, theory, practical, continuous evaluation, end- semester evaluation etc.
- iii. Teachers should keep themselves updated with the latest teaching- learning methods and availability of e-resources.
- iv. Teachers should make the students aware of the COVID-19 related situation, precautions and steps to be taken to stay safe and healthy.
- v. Teachers should monitor and keep track of the physical and mental health of their students.

5.4 Parents

- i. The parents should ensure that their children observe safety norms at home and whenever they go out.
- ii. Parents should not allow their children to go out, if they are not feeling well.
- iii. Parents may be advised that the 'Aarogya Setu App' has been downloaded by their children.
- iv. Parents should sensitize them of healthy food habits and measures to increase immunity.
- v. Parents should ask them to do exercise, yoga, meditation and breathing exercises to keep them mentally and physically fit.

5.5. Students

- i. Self-discipline is most important to contain the spread of COVID-19 pandemic through social distancing and maintaining hygienic condition.
- ii. All students should wear face covers/ masks and take all preventive measures.
- iii. May consider installing 'Aarogya Setu App' in the mobile.
- iv. It is important for the students to be physically and mentally fit to handle any exigencies. By remaining fit, they can take care of others also.
- v. The students must inculcate activities that will increase immunity-boosting mechanism which may include exercise, yoga, eating fresh fruits and healthy food (avoid fast food), sleep timely.
- vi. Discrimination of fellow students in respect of whom there is a history of COVID-19 disease in the family be avoided.
- vii. Give support to your friends under stress due to COVID-19 pandemic.
- viii. Students should follow the guidelines, advisories and instructions issued by the Government authorities as well as by the universities and colleges regarding health and safety measures in view of COVID-19 pandemic.

6. In view of the present scenario and future uncertainties:

- i. The universities may adopt and implement these Guidelines in a transparent manner by making alterations/ additions/ modifications/ amendments to deal with particular situation(s) in the best interest of students, educational institution and the entire education system, except in respect of those guidelines that are mandatory.
- ii. In case of educational institutions located at places where the Government (Centre/ State) have imposed restrictions on gathering of public, the institutions may plan accordingly. In any case, the above recommendations shall not cause any restrictions on the guidelines/directions issued by the appropriate Government/ competent authority.

Notwithstanding the above Guidelines, every university/ college has to ensure that it is prepared in all respects to carry out the academic activities following necessary advisories/guidelines/directions issued by the Central/State Government, Ministry of Education (earlier referred to as MHRD) or UGC from time to time to prevent the spread of COVID-19.

राज्यातील शाळा सुरक्षितपणे सुरु
करण्यासाठी मार्गदर्शक सूचना
निर्गमित करण्याबाबत.

महाराष्ट्र शासन
शालेय शिक्षण व क्रीडा विभाग
शासन परिपत्रक क्रमांक संकीर्ण २०२०/प्र.क्र.१४०/एसडी-६
मादम कामा मार्ग, हुतात्मा राजगुरु चौक,
मंत्रालय, मुंबई-४०० ०३२.
दिनांक :- १० नोव्हेंबर, २०२०

- बाबत :-** १) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक १५ जून, २०२०.
२) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक २४ जून, २०२०.
३) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक २२ जूलै, २०२०.
४) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक १७ ऑगस्ट, २०२०.
५) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक २९ ऑक्टोबर, २०२०.
६) केंद्र शासनाच्या दि.०८.०९.२०२० रोजीच्या मार्गदर्शक सूचना.

पार्श्वभूमी :-

या विभागाच्या संदर्भ क्र. ०१ येथील शासन परिपत्रकानुसार राज्यात कोव्हीड- १९ च्या प्रादुर्भावामुळे उद्भवलेल्या परिस्थितीत राज्यातील शाळा प्रत्यक्षात सुरु करणे शक्य नसल्याने दि.१५ जून, २०२० पासून शैक्षणिक वर्ष सुरु करून स्थानिक परिस्थितीनुसार प्रत्यक्ष शाळा टप्प्या-टप्प्याने सुरु करण्याबाबत निर्णय घेण्याचे अधिकार संबंधित जिल्हाधिकारी, महानगरपालिका आयुक्त यांच्या सहाय्याने संबंधित शाळा व्यवस्थापन समिती यांना प्रदान करण्यात आले आहेत. त्याचबरोबर शाळांमध्ये शिक्षकांच्या उपस्थितीबाबत दिनांक २४ जून, २०२० रोजीच्या परिपत्रकान्वये मार्गदर्शक सूचना निर्गमित करण्यात आल्या आहेत. कोरोनाच्या प्रादुर्भावामुळे विद्यार्थ्यांचे शिक्षण थांबू नये यासाठी वरील संदर्भ क्रमांक ०३ येथील परिपत्रकान्वये पूर्व प्राथमिक ते इयत्ता १२ वी पर्यंतच्या विद्यार्थ्यांसाठी ऑनलाईन शिक्षणाचा कालावधी व शिक्षणाच्या स्वरूपाबाबत मार्गदर्शक सूचना निर्गमित करण्यात आल्या होत्या.

राज्यात Mission Begin Again अंतर्गत राज्यातील सर्व आस्थापना टप्प्या - टप्प्याने सुरु करण्यासाठी मार्गदर्शक सूचना (SOP) निर्गमित करण्यात येत आहेत. त्याच धर्तीवर शैक्षणिक वर्ष दि.१५ जून, २०२० पासून सुरु झाले असले तरी प्रत्यक्ष प्रथम: इयत्ता ९ वी ते इयत्ता १२ वी साठी शाळा सुरु करण्याबाबतचा प्रस्ताव शासनाच्या विचाराधीन होता.

परिपत्रक:-

१. राज्यातील इयत्ता ९ वी ते इयत्ता १२ वी चे वर्ग दिनांक २३ नोव्हेंबर, २०२० पासून सुरु करण्यास मान्यता देण्यात येत आहे. तसेच इयत्ता ९ वी ते १२ वी चे वसतिगृह व आश्रमशाळा विशेषतः आंतरराष्ट्रीय विद्यार्थ्यांचे वसतिगृह सुरु करण्यास मान्यता देण्यात येत आहे. शाळा सुरु करण्यापूर्वी व शाळा सुरु झाल्यानंतर आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपाययोजनांबाबतच्या मार्गदर्शक सूचना सोबत जोडलेल्या परिशिष्ट-अ व परिशिष्ट-ब मध्ये देण्यात आल्या आहेत.

२. कोविड-१९ बाबत केंद्र व राज्य शासनाच्या सूचनांचे पालन करण्यात यावे. विद्यार्थ्यांच्या उपस्थितीबाबत पालकांकडून आवश्यक ती लेखी संमती घेण्यात यावी.

३. या विभागाच्या संदर्भाधीन दिनांक १५ जुन, २०२० व दिनांक २९ ऑक्टोबर, २०२० रोजीच्या परिपत्रकातील सूचनांचे पालन करण्यात यावे.

४. सदर शासन परिपत्रक महाराष्ट्र शासनाच्या www.maharashtra.gov.in या संकेत स्थळावर उपलब्ध करण्यात आले असून त्याचा संगणक संकेतांक २०२०१११०१६४२४८३६२१ असा आहे. सदर परिपत्रक डिजिटल स्वाक्षरीने साक्षांकित करुन निर्गमित करण्यात येत आहे.

महाराष्ट्राचे राज्यपाल यांच्या आदेशानुसार व नावाने.

शासन परिपत्रक क्रमांक संकीर्ण २०२०/प्र.क्र.१४०/एसडी-६; दि. १० नोव्हेंबर, २०२० सोबतचे

परिशिष्ट-अ

शाळा सुरु करण्यापूर्वी आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपाययोजनांबाबतच्या मार्गदर्शक सूचना

१) शाळेत स्वच्छता व निर्जंतुकीकरण विषयक सुविधा सुनिश्चित करणे:-

- शाळेत हात धुण्यासाठी सुविधा उपलब्ध करून देणे.
- Thermometer, Thermal Scanner/Gun, Pulse Oxymeter, जंतूनाशक, साबण, पाणी इत्यादी आवश्यक वस्तुंची उपलब्धता तसेच शाळेची स्वच्छता व निर्जंतुकीकरण स्थानिक प्रशासनाने (ग्रामीण व शहरी) सुनिश्चित करावी. वापरण्यात येणारे thermometer हे calibrated contactless infrared digital thermometer असावे.
- शाळा वाहतुक सुविधांचे निर्जंतुकीकरण सुनिश्चित करावे.
- एखाद्या शाळेत क्वारंटाईन सेंटर असल्यास स्थानिक प्रशासनाने ते इतर ठिकाणी स्थानापन्न करावे. स्थानिक प्रशासनाने अशा शाळेचे हस्तांतरण शाळा व्यवस्थापनाकडे करण्यापूर्वी त्याचे पूर्णतः निर्जंतुकीकरण करावे.
- क्वारंटाईन सेंटर इतर ठिकाणी नेणे शक्य नसल्यास शाळा खुल्या परिसरात किंवा इतर ठिकाणी भरवावी.

२) शिक्षकांची कोविड-१९ बाबतची चाचणी:-

- शाळेतील सर्व शिक्षक व शिक्षकेत्तर कर्मचाऱ्यांनी दि. १७ ते २२ नोव्हेंबर, २०२० या दरम्यान कोविड-१९ साठीची RTPCR चाचणी करणे बंधनकारक असेल. शिक्षक व शिक्षकेत्तर कर्मचाऱ्यांनी सदर चाचणीचे प्रयोगशाळेने दिलेले प्रमाणपत्र शाळा व्यवस्थापनास सादर करावे. सदर प्रमाणपत्राची शाळा व्यवस्थापनाने पडताळणी करावी.
- ज्या शिक्षक व शिक्षकेत्तर कर्मचाऱ्यांचे चाचणी अहवाल positive असतील त्यांनी डॉक्टरांनी प्रमाणित केल्यानंतरच शाळेत उपस्थित राहवे.
- ज्या शिक्षक व शिक्षकेत्तर कर्मचाऱ्यांचे चाचणी अहवाल negative आहेत त्यांनी शाळेत उपस्थित राहताना कोविड-१९ संदर्भातील सर्व मार्गदर्शक सूचनांचे पालन करणे आवश्यक राहिल. तसेच कोविड-१९ बाबतची लक्षणे आढळल्यास त्यांनी त्वरीत चाचणी करावी.

३) कार्यगट गठीत करणे:- सर्व भागधारकांचे त्यांच्या विशिष्ट जबाबदाऱ्यांसाठी विविध कार्यगट गठित करावे जसे आपत्कालीन गट, स्वच्छता पर्यवेक्षण गट, इत्यादी. शिक्षक, विद्यार्थी व इतर भागधारक या गटांचे सभासद म्हणून सहकार्याने काम करतील.

४) बैठक व्यवस्था :-

- वर्गखोली तसेच स्टाफ रुम मधील बैठक व्यवस्था शारीरिक अंतर (Physical Distancing) च्या नियमानुसार असावी.
- वर्गामध्ये एका बाकावर एक विद्यार्थी याप्रमाणे नावानिशी बैठक व्यवस्था असावी.

५) शारीरिक अंतर (Physical distancing) च्या नियमांच्या अंमलबजावणीकरिता विविध चिन्हे व खुणा प्रदर्शित करणे :-

- शाळेत दर्शनी भागावर Physical distancing, मास्कचा वापर इत्यादी संदर्भात मार्गदर्शक सूचना असणारे posters/stickers प्रदर्शित करावे.
- थूंकण्यावरील बंदीची काटेकोरपणे अंमलबजावणी करावी.
- शाळेच्या अंतर्गत व बाह्य परिसरामध्ये रांगेत उभे राहण्याकरिता किमान सहा फूट इतके शारीरिक अंतर (Physical distance) राखले जाईल याकरिता विशिष्ट चिन्हे जसे चौकोन, वर्तुळ इत्यादींचा वापर गर्दी होणारी ठिकाणे जसे पाणी पिण्याच्या सुविधा, हात धुण्याच्या सुविधा, स्वच्छतागृहे इत्यादी ठिकाणी करण्यात यावा.
- शारीरिक अंतर (Physical distance) राखण्यासाठी येण्या व जाण्याचे वेगवेगळे मार्ग निश्चित करणाऱ्या बाणांच्या खुणा दर्शविण्यात याव्यात.

६) शाळेतील कार्यक्रम आयोजनावरील निर्बंध :- परिपाठ, स्नेह संमेलन, क्रीडा व इतर तत्सम कार्यक्रम ज्यामुळे अधिक गर्दी होऊ शकते अशा कार्यक्रमांच्या आयोजनावर कडक निर्बंध असेल. शिक्षक- पालक बैठका ऑनलाईन घ्याव्यात.

७) पालकांची संमती:-

- विद्यार्थ्यांनी शाळेत उपस्थित राहण्यापूर्वी त्यांच्या पालकांची लेखी संमती आवश्यक असेल. शाळा व्यवस्थापन समितीने पालकांशी वरील विषयी चर्चा करावी.
- आजारी असलेल्या मुलांना पालकांनी शाळेत पाठवू नये.
- विद्यार्थ्यांना त्यांच्या पालकांच्या संमतीने घरी राहुन देखील अभ्यास करता येईल. अशा विद्यार्थ्यांच्या शैक्षणिक प्रगतीच्या मुल्यांकनाकरिता विशिष्ट योजना राज्य शैक्षणिक संशोधन व प्रशिक्षण परिषद, महाराष्ट्र यांनी तयार करण्यात यावी.

८) विद्यार्थी, पालक, शिक्षक व समाजातील सदस्य यांना कोविड-१९ च्या संदर्भातील आव्हाने व त्याबाबतची त्यांची भूमिका याबाबत जागरूक करणे:-

- शाळा सुरु करण्यापूर्वीच विद्यार्थी, पालक, शिक्षक व समाजातील सदस्य यांच्यात जागरूकता निर्माण करण्याकरिता शाळा व्यवस्थापन समितीने पत्रके, पत्रे व सार्वजनिक घोषणांच्या माध्यमांचा वापर करून पुढील मुद्द्यांबाबत कार्यवाही करावी:-
 - i. वैयक्तिक स्वच्छता व नेहमी वापरण्यात येणारे पृष्ठभागांचे निर्जंतुकीकरण इत्यादीबाबत काय करावे किंवा काय करू नये याबाबतच्या सुचना.
 - ii. शारीरिक अंतर पालनाचे (Physical distancing) चे महत्त्व.
 - iii. कोविड-१९ च्या प्रतिबंधासाठी आवश्यक स्वच्छताविषयक सवयी.
 - iv. कोविड-१९ बाबतच्या गैरसमजूती.
 - v. कोविड-१९ ची लक्षणे आढळल्यास शाळेत जाणे टाळणे.
- केंद्रीय आरोग्य व कुटुंब कल्याण मंत्रालय यांच्या सुचनांनुसार, सर्वच कर्मचारी जे (कोविड-१९च्या अनुषंगाने) अधिक उच्च धोक्याच्या पातळीमध्ये आहेत, जसे वयोवृद्ध कर्मचारी, दिव्यांग कर्मचारी, गरोदर महिला कर्मचारी व जे कर्मचारी औषध-उपचार

घेत आहेत, त्यांनी अधिक काळजी घ्यावी. त्यांनी शक्यतो विद्यार्थ्यांच्या प्रत्यक्ष संपर्कात येऊ नये.

९) शाळेतील उपस्थिती व वैद्यकीय रजा याबाबतच्या धोरणांमध्ये सुधारणा करणे:-

- विद्यार्थ्यांची शाळेतील उपस्थिती बंधनकारक नसून पूर्णतः पालकांच्या संमती वर अवलंबून असेल.
- पूर्ण उपस्थितीबाबतची पारितोषिके बंद करण्यात यावी.
- शाळेतील कर्मचाऱ्यांना त्यांना नेमून दिलेल्या कामाव्यतिरिक्त आणिबाणीच्या प्रसंगी इतर कर्मचाऱ्यांची कामे करण्यासाठी प्रशिक्षित करावे.

१०) माहितीचे एकत्रिकरण :-

- विद्यार्थी, पालक व शिक्षकांकडून पुढील माहिती स्वयंघोषित करून घ्यावी:-
त्यांची आरोग्याची स्थिती, आरोग्य सेतू ॲप वरील तपासणी अहवाल, तसेच अलीकडील आंतरराष्ट्रीय व आंतरराज्य प्रवासाची माहिती.
- स्थानिक प्रशासनाकडून राज्य व जिल्हा helpline तसेच जवळील कोविड सेंटर बदलची माहिती.

XXXXXXXXXXXXXXXXXXXX

शासन परिपत्रक क्रमांक संकीर्ण २०२०/प्र.क्र.१४०/एसडी-६; दि. १० नोव्हेंबर, २०२० सोबतचे

परिशिष्ट-ब

शाळा सुरु झाल्यानंतर आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपायोजनाबाबतच्या मार्गदर्शक सूचना:-

१) शाळेत व शाळेच्या परिसरात स्वच्छता व आरोग्यदायी परीस्थिती सतत राखणे:-

- शाळेचा परीसर दररोज नियमितपणे स्वच्छ केला जावा.
- शाळेतील वर्गखोल्या व वर्गखोल्यांच्या बाहेरील नेहमी स्पर्श होणारा पृष्ठभाग जसे लॅचेस, अध्ययन-अध्यापन साहित्य, डेस्क, टॅबलेट्स, खुर्च्या इ.वारंवार स्वच्छता व निर्जंतुकीकरण करण्यात यावे.
- शाळेतील व शाळेच्या परिसरातील सर्व कचरा नियमितपणे विल्हेवाट लावण्यात यावी.
- हात धुण्याच्या सर्व ठिकाणी साबण, हॅन्डवॉश व स्वच्छ पाण्याची व्यवस्था करण्यात यावी. शक्य झाल्यास अल्कोहोल मिश्रित हॅन्ड सॅनिटायझर सर्व महत्त्वाच्या ठिकाणी ठेवण्यात यावा.
- शाळेतील स्वच्छतागृहाचे वारंवार निर्जंतुकीकरण करण्यात यावे.
- सुरक्षित व स्वच्छ पिण्याचे पाणी विद्यार्थ्यांना उपलब्ध होईल याची दक्षता घेण्यात यावी. विद्यार्थ्यांनी सोबत वॉटर बॉटल आणण्यासाठी त्यांना प्रोत्साहित करावे.
- शाळा सुरु होण्यापूर्वी व शाळा सुटल्यानंतर शाळा व वर्ग खोल्यांचे नियमितपणे निर्जंतुकीकरण करण्यात यावे.
- वरील सर्व स्वच्छतेमध्ये विद्यार्थ्यांना सहभागी करून घेऊ नये.

२) शाळेत विद्यार्थ्यांना सुरक्षित ठेवणे :-

- सर्व विद्यार्थी, शिक्षक व कर्मचारी वर्ग यांनी शाळेत येताना व शाळेत असेपर्यंत तसेच, शाळेत कोणतीही कृती करताना मास्कचा वापर करावा. तसेच, विद्यार्थी मास्कची अदलाबदल करणार नाहीत याची दक्षता घ्यावी.
- विद्यार्थी, शिक्षक व कर्मचारी वर्गाची दररोज साधी आरोग्य चाचणी जसे Thermal Screening घेण्यात यावी.
- विद्यार्थी, शिक्षक व शाळेतील कर्मचाऱ्यांव्यतिरिक्त इतर कोणत्याही व्यक्तिला शाळेचा आवारात व शाळेच्या प्रवेशद्वारावर प्रवेश देऊ नये.
- काही विद्यार्थी सूचनांचे पालन करत नसल्यास ते त्यांच्या पालकांच्या निदर्शनांस आणावे.

३) विद्यार्थ्यांच्या सुरक्षित प्रवासाची सोय करणे :-

- कोविड-१९ संसर्ग टाळण्यासाठी पालकांनी शक्यतो विद्यार्थ्यांना स्वतः त्यांच्या वैयक्तिक वाहनाने शाळेत सोडावे.

- शाळा वाहतुकीच्या वाहनाचे दिवसातून किमान दोनवेळा (विद्यार्थी वाहनात येतांना व वाहनातून उतरल्यानंतर) निर्जंतुकीकरण करण्यात यावे.
- वाहनचालक व वाहक यांनी स्वतः तसेच विद्यार्थी शारीरिक अंतराचे पालन करतील, याची दक्षता घ्यावी. किमान ६ फुट अंतर राखण्यात यावे.
- बस / कार यांच्या खिडक्यांना पडदे नसावेत. सामान्यतः खिडक्या उघड्या ठेवण्यात याव्यात.
- वातानुकूलित बसेस मध्ये २४ ते ३० डिग्री सेल्सिअस तापमान राखावे.
- शक्य असल्यास वाहनात हॅन्ड सॅनिटायझर ठेवण्यात यावे.

४) शिक्षक व शिक्षकेतर कर्मचारी व विद्यार्थी यांचा सुरक्षित प्रवेश व गमन (Entry and Exit) :-

- विद्यार्थ्यांनी शाळेने निश्चित केल्याप्रमाणे शाळेत उपस्थित रहावे. शाळेत वावरताना त्यांनी किमान ६ फुट अंतराचे पालन करावे.
- विद्यार्थी व कर्मचारी वर्गाचे आगमन व गमन (Entry and Exit) यांचे वेळापत्रक अशा प्रकारे निश्चित करावे, ज्यामुळे शाळेत होणारी गर्दी टाळली जाईल.
- विविध इयत्तांचे वर्ग सुरु होण्याच्या व संपण्याच्या वेळामध्ये किमान १० मिनिटांचे अंतर असावे.
- शाळेच्या परिसरात चार पेक्षा जास्त विद्यार्थी एकत्र जमणार नाहीत, ही मुख्यध्यापकांची जबाबदारी असेल.
- शाळेस एकापेक्षा अधिक प्रवेशद्वार असल्यास शाळेत येताना व जाताना सर्व प्रवेशद्वारांचा वापर करावा.
- शाळेच्या बाहेरील वाहनांची गर्दी टाळण्यासाठी वाहतुक पोलिस किंवा समाजातील स्वयंसेवकाची मदत घ्यावी.
- शाळेच्या प्रमुखांनी आजारी असल्याच्या कारणामुळे कर्मचाऱ्यास रजेवर राहण्याची परवानगी देण्यात यावी.
- कुटुंबातील एखादा सदस्य किंवा घराजवळील एखादी व्यक्ती ताप / खोकला यांनी आजारी असल्यास आपल्या मुलांना शाळेत न पाठविण्याबाबत पालकांना अवगत करावे.

५) वर्गखोल्या व इतर ठिकाणी सुरक्षिततेच्या मानकांची खात्री करावी :-

- शाळेत प्रात्यक्षिक कार्ये (Practicals) घेताना विद्यार्थ्यांचे लहान लहान गट करून घेण्यात यावेत म्हणजे शारीरिक अंतराचे (Physical Distancing) पालन करणे सुलभ होईल.
- विद्यार्थ्यांनी कोणतेही साहित्य जसे पुस्तके, वही, पेन, पेन्सिल, वॉटर बॉटल, इत्यादींची अदलाबदल करू नये.
- ज्या विद्यार्थ्यांनी ऑनलाईन शिक्षणाचा पर्याय स्वीकारला असेल त्यांच्यासाठी ऑनलाईन गृहपाठाची व्यवस्था करावी.

- शक्य असल्यास वर्ग खुल्या परिसरात घ्यावेत. शक्य नसल्यास वर्गखोल्यांची दारे व खिडक्या उघड्या ठेवण्यात याव्यात. कोणत्याही परिस्थितीत बंद खोल्यांमध्ये वर्ग भरवण्यात येऊ नये.
- उदवाहन (lift) व व्हरांड्यांतील उपस्थित व्यक्तीच्या संख्येवर निर्बंध आणावेत.
- स्वच्छतागृहामध्ये अधिक गर्दी होऊ नये, याची दक्षता घ्यावी.
- विद्यार्थ्यांनी प्रत्येक कृती केल्यानंतर हात स्वच्छ धुवावेत.
- वातानुकूलित वर्ग खोल्यांचे तापमान २४ ते ३० डिग्री सेंटिग्रेड ठेवावे.

६) अभ्यासवर्गांची व्यवस्था:-

- शाळा व्यवस्थापन समितीने शाळेतील गर्दी टाळण्यासाठी एक दिवसआड विद्यार्थ्यांना शाळेत बोलवावे (५० टक्के विद्यार्थी एका दिवशी व उर्वरित ५० टक्के विद्यार्थी दुसऱ्या दिवशी). अशाप्रकारे एकाच दिवशी ५० टक्के विद्यार्थी ऑनलाईन वर्गात व उर्वरित ५० टक्के विद्यार्थी प्रत्यक्ष वर्गात उपस्थित राहून शिक्षण घेतील.
- इयत्ता निहाय ऑनलाईन व ऑफलाईन वर्गांचे वेळापत्रक, शिक्षकांची जबाबदारी निश्चिती याची जबाबदारी संबंधित शाळेच्या मुख्याध्यापकांची असेल. शक्यतो मुख्य विषय (Core Subjects) जसे गणित, विज्ञान व इंग्रजी शाळेत शिकवावेत व उर्वरित विषय शासनाने वेळोवेळी निर्गमित केलेल्या सूचनांप्रमाणे ऑनलाईन पद्धतीने शिकवावेत.
- प्रत्यक्ष वर्गाचा कालावधी ३ ते ४ तासांपेक्षा अधिक असू नये. प्रत्यक्ष वर्गाकरिता जेवणाची सुट्टी नसेल.

७) कोविड-१९ संशयित आढळल्यास करावयाची कार्यवाही :-

- शिक्षक, कर्मचारी वर्ग किंवा विद्यार्थी संशयित आढळल्यास त्यास एका खोलीत इतरांपासून वेगळे ठेवावे.
- तात्काळ रुग्णालय किंवा जिल्हा व राज्य संपर्क क्रमांकास (Helpline) कळवावे. त्यानंतर सर्व परिसराचे व त्या जागेचे निर्जंतुकीकरण करावे. राज्य व जिल्हा helpline क्रमांक तसेच जवळील कोविड सेंटर बदलची माहिती मुख्याध्यापक व प्रत्येक शिक्षकांच्या मोबाईलमध्ये असावी.

८) मानसिक व सामाजिक कल्याण :-

- चिंता आणि निराशा यासारख्या मानसिक आरोग्याच्या समस्या नोंदविणाऱ्या किंवा सांगणाऱ्या विद्यार्थी आणि शिक्षकांसाठी नियमित समुपदेशन केले जाईल, याची सुनिश्चिती करावी.
- शिक्षकांनी, शालेय समुपदेशकांनी आणि शालेय आरोग्य कर्मचाऱ्यांनी विद्यार्थ्यांचे व आपले मानसिक स्थिरता निश्चित करण्यासाठी एकत्रितपणे कार्य करावे.

उपरोक्त सूचनांव्यतिरिक्त स्थानिक परिस्थितीनुसार शाळांनी आवश्यक मार्गदर्शक सूचना निश्चित कराव्यात.

5th November, 2020

Subject: UGC guidelines for Re-Opening the Universities and Colleges Post Lock down due to COVID-19 Pandemic

Respected Madam /Sir,

Universities and other educational institutions across the country have been closed since 16th March, 2020 when the Government of India announced a countrywide lockdown as one of the measures to contain the COVID-19 outbreak. Keeping in view of the COVID-19 pandemic and subsequent lockdown, the University Grants Commission issued "*Guidelines on Examinations and Academic Calendar for the Universities in View of Covid-19 pandemic and subsequent Lockdown*" on 29th April, 2020 and then, on 6th July, 2020. The universities and colleges have put in their best efforts to continue their academic programmes and complete the syllabi using various ICT tools of teaching and learning since their closure from mid-March onwards.

The new academic session is going on and the universities and colleges need a customized plan, as per the local conditions where they are located, to deal with any eventuality arising due to the COVID -19 before resuming the activities on campuses. The top priority, while opening the institutions, should be the safety, health and well-being of the students, teachers and staff. In view of this, UGC has framed "Guidelines for Re-Opening the Universities and Colleges Post Lockdown due to COVID-19 Pandemic" (**Annexure-I**) which provide in detail the measures to be taken before re-opening of campuses. These Guidelines have also been vetted by the Ministry of Health & Family Welfare and approved by the Ministry of Home Affairs and the Ministry of Education. The Guidelines may be adopted by the institutions as per the local conditions and directives of the Government authorities.

You are requested to adopt these guidelines and take necessary steps to implement them accordingly. Further, the universities/colleges have to ensure that it is prepared in all respects to carry out the academic activities following necessary advisories / guidelines / directions issued by the Central / State Government, Ministry of Education (MoE) or UGC from time to time to prevent the spread of COVID-19.

With kind regards,

Yours sincerely,

(Rajnish Jain)

Generic Preventive Measures/COVID-19 Appropriate Behaviour

The following public health measures are to be followed to reduce the risk of COVID-19 by all (faculty members, employees, students and visitors) in these places at all times:

- i. Physical distancing of at least 6 feet to be followed as far as feasible.**
- ii. Use of face covers/masks to be made mandatory.**
- iii. Frequent hand washing with soap (for at least 40-60 seconds) even when hands are not visibly dirty. Use of alcohol-based hand sanitizers (for at least 20 seconds) can be done wherever feasible.**
- iv. Respiratory etiquettes to be strictly followed. This involves strict practice of covering one's mouth and nose while coughing/sneezing with a tissue/handkerchief/flexed elbow and disposing of used tissues properly.**
- v. Self-monitoring of health by all and reporting any illness at the earliest.**
- vi. Spitting shall be strictly prohibited.**
- vii. Installation & use of Aarogya Setu App shall be advised wherever feasible.**

1. Introduction

Universities and other educational institutions across the country have been closed since 16th March, 2020 when the Government of India announced a countrywide lockdown as one of the measures to contain the COVID-19 outbreak. The Government of India through its Ministries, viz., Ministry of Home Affairs, Ministry of Health, Ministry of Ayush and Ministry of Education took several initiatives to contain the spread of the virus and issued directives and advisories to educate the people about the gravity of the infection from Coronavirus and the measures to protect from it. Specific instructions were also issued to the universities and colleges by the Ministry of Education and the UGC in this regard.

The University Grants Commission issued "Guidelines on Examinations and Academic Calendar for the Universities in View of COVID-19 Pandemic and Subsequent Lockdown" on 29th April, 2020 and then, on 6th July, 2020. These Guidelines covered important dimensions related to examinations, academic calendar, admissions, online teaching-learning and provided flexibility for adoption by the universities. Later "UGC Guidelines on Academic Calendar for the First Year of Under-Graduate and Post-Graduate Students of the Universities for the Session 2020-21 in View of COVID-19 Pandemic" were issued on 24th September, 2020.

In order to contain the spread of COVID-19 pandemic in the educational institutions and to ensure continuity in teaching- learning process, Ministry of Education and UGC issued several directives/ advisories/ guidelines to the universities and colleges, including the one to impart online education by making the best use of e-resources. Through all the communications made by Ministry of Education and UGC, it was emphasized to continue with teaching-learning processes using online modes such as Google Classroom, Cisco Webex Meeting, You Tube streaming, OERs, SWAYAM platform (www.swayam.gov.in), Swayam Prabha (www.swayamprabha.gov.in) (available on Doordarshan (Free dish) and Dish TV), e-yantra (www.e-yantra.org), Virtual Labs (www.vlab.co.in), FOSSEE (<https://fossee.in>), application of spoken tutorials (www.spoken-tutorial.org), National Digital Library (NDL) (<https://ndl.iitkgp.ac.in>), electronic journals (<https://ess.inflibnet.ac.in>) etc.

The new academic session is going on and the universities and colleges need a customized plan, as per the local conditions where they are located, to deal with any eventuality arising due the COVID -19 before resuming activities on campuses. Besides above, reopening of universities and colleges will relieve the students from uncertainties regarding their career, mode of functioning of universities and colleges, including the conduct of physical classes. Also, it will relieve teaching and other staff from any uncertainty regarding the continuity of their services and salary etc.

It is felt that even after the spread of Coronavirus is contained, certain preventive measures will be required to be followed for quite some time to avoid its recurrence. This will be all the more necessary for educational institutions as large numbers of students gather on the campuses. Keeping all these factors in view, the University Grants Commission has framed Guidelines for the universities and colleges which they may follow, while reopening their campuses after lockdown and the summer vacations. These Guidelines have been vetted by the Ministry of Health & Family Welfare and approved by the Ministry of Home Affairs and the Ministry of Education. The Guidelines may be adopted by the institutions as per the local conditions and directives of the Government authorities.

2. Re-Opening the Campuses - Issues and Challenges

Indian higher education system is very large and diverse. There are various types of universities, colleges and institutions offering programmes ranging from engineering, technical, medical, sciences, humanities and social sciences at undergraduate, postgraduate, and doctoral level, besides research and extension activities. Also, they vary in their geographical conditions, size, infrastructural capacity, types and duration of programmes etc. Therefore, the issues and challenges faced by them in reopening their campus also vary considerably.

Keeping in view the uncertainties of future due to COVID-19 pandemic and its impact on the functioning of universities and colleges, they may plan to reopen their campuses in a phased manner, ensuring safety, health and well-being of all students and staff. They should be flexible in their plan and should be ready to handle any eventuality arising due to COVID-19.

It may be difficult to comprehend all the challenges/ situations which the higher education institutions may be required to handle while they plan to reopen. However, some of the issues which they may be required to handle instantly are given below:

- i. To follow the advisories/guidelines/directions issued by the Central/State Government, Ministry of Education and UGC from time to time to prevent the spread of COVID-19.
- ii. Uncertainty among students regarding admissions, modes of teaching-learning, completion of courses, examinations, evaluation, declaration of results and the academic calendar, etc.
- iii. Anxiety, mental health and psychological issues of students developed during the lockdown period and fear of infection after the opening of campuses.
- iv. Safety measures including sanitisation of premises, thermal screening, ensuring physical distancing, face-cover/mask wearing, respiratory hygiene and hand-hygiene etc.
- v. Preparation for risk assessment and subsequent actions which may be required depending upon the residential status of the institution - whether fully residential, partially residential or non-residential.
- vi. Varied conditions of the pandemic in the state, area and environment where the students mainly live while making risk assessment and planning to address these challenges.
- vii. Besides students, a serious risk of infection will also be faced by the faculty, counsellors and other technical and non-teaching staff also who face/ interact with the students and also among themselves regularly.

3. Measures Required before Re-Opening of Campuses

As the universities and colleges are likely to face a number of issues at the time of reopening, they will be required to plan in advance. Some of the measures, which the institutions may have to take prior to reopening, are given below:

3.1 Pre-requisites

- i. Before reopening of any campus, the Central or the concerned State Government must have declared the area safe for reopening of educational institutions. The directions, instructions, guidelines and orders issued by the Central and State Government concerned regarding safety and health in view of COVID-19 must be fully abided by the higher education institutions.
- ii. However, they may develop stricter provisions and guidelines, if they feel it necessary. The universities and colleges have to make adequate arrangements to ensure the safety and health of students, faculty and staff.
- iii. The universities and colleges shall be allowed to open only if they are outside the containment zones. Further, students and staff living in containment zones will not be allowed to attend the colleges. Students and staff shall also be advised not to visit areas falling within containment zones.
- iv. The faculty, staff and students of the university and college should be encouraged to download 'Aarogya Setu App'.
- v. The institutions should be ready with a plan for handling the inflow of students, faculty and staff in the campus, monitoring disinfecting measures, safety and health conditions, screening and detecting the infected persons, containment measures to prevent the spread of the virus in the campus, and also alternative plan(s), in case the campus needs to be closed again due to spread of the virus in campus or in the surrounding area(s) in near future.

3.2 Modalities for Physical Opening of Colleges/Higher Education Institutions

The following modalities regarding the physical opening of Colleges/Higher Education Institutions, in a graded manner, may be adopted:

The Colleges/Higher Education Institutions outside the containment zones may be opened in a graded manner after consultations with concerned State/UT Governments and subject to adherence to the guidelines/SOP for safety and health protocol prepared by UGC, duly incorporating the view/comments of the Ministry of Health & Family Welfare, as under:

- i. For Centrally Funded Higher Education Institutions, the Head of the Institution should satisfy herself/himself regarding the feasibility of the opening of physical classes and decide accordingly.

- ii. For all other Higher Educational Institutions, e.g., State Universities, Private Universities etc., opening of physical classes to be done as per the decision of the respective State/UT Governments.

3.3 Measures

- i. Universities and colleges may plan opening the campuses in phases, with such activities where they can easily adhere to social distancing, use of face masks and other protective measures. This may include administrative offices, research laboratories and libraries etc.
- ii. Thereafter, students of all research programmes and post-graduate students in science & technology programmes may join as the number of such students is comparatively less and norms of physical distancing and preventive measures can be easily enforced.
- iii. Further, final year students may also be allowed to join for academic and placement purposes, as per the decision of the head of the institution.

However, for (i), (ii) and (iii) above, it should be ensured that not more than 50% of the total students should be present at any point of time and necessary guidelines/protocols to prevent the spread of COVID-19 are observed.

- iv. For the programmes, other than those mentioned in paras 3.3 (ii) and (iii) above, online/distance learning shall continue to be the preferred mode of teaching and shall be encouraged.
- v. However, if required, students may visit their respective departments in a small number for consultation with the faculty members, after seeking prior appointments to avoid crowding, while maintaining physical distancing norms and other safety protocols.
- vi. Some students may opt not to attend classes and prefer to study online while staying at home. Institutions may provide online study material and access to e-resources to such students for teaching-learning.
- vii. Institutions should have a plan ready for such international students who could not join the programme due to international travel restrictions or visa-related issues. Online teaching-learning arrangements should also be made for them.

3.4 Safety concerns

- i. The institutions should train their staff and students to assist and undertake the work related to safety and health to prevent an outbreak of the pandemic in their campuses. Non-resident students should be allowed in campuses only after thermal scanning, sanitization of their hands, wearing of face masks and gloves. Symptomatic persons should not be permitted to enter the campus and should be advised to contact the nearest hospital for clinical assessment.

- ii. Regular visits of a counsellor may be arranged so that students can talk with the counsellor about their anxiety, stress or fear.
- iii. To avoid the risk of transmission, the students, faculty and staff should be screened and symptomatic ones be advised to get clinically assessed before allowing them entry into the campus.
- iv. Isolation facilities for symptomatic persons and quarantine facilities for those who were in contact with the positively tested persons should be there on campus or a tie-up may be made in advance with some Government hospital or approved premises or as advised by the local authorities so that, in case of necessity, prompt action may be taken. Proper arrangement of safety, health, food, water etc. should be ensured for those in quarantine and isolation facilities.
- v. For those who have tested positive, isolation facilities should be in place either on campus itself or as a prior arrangement with some nearby hospital(s) or as advised by the local authorities.
- vi. Universities and colleges should prepare a policy for restricting the outside experts on campuses, study tours, field works etc., keeping in mind the COVID-19 situation.
- vii. All such programmes and extracurricular activities should be avoided where physical distancing is not possible.
- viii. Clean and hygienic conditions, as per safety and health advisories of the concerned government departments, are to be maintained at all places, including hostel kitchens, mess, washrooms, libraries, class rooms etc.
- ix. Proper signages, symbols, posters etc. should be prominently displayed at appropriate places to remind the students, faculty and staff for maintaining physical distancing. The details of COVID-19 cell established by the institution be prominently displayed containing the emergency number, helpline number, email id and contact details of persons to be contacted in case of any emergency in the institution.
- x. Ensure the norms of physical distancing, sanitization and hygienic conditions for use of common facilities, viz., Auditorium, Conference/ Seminar halls, Sports, Gymnasium, Canteen, Parking Area etc.

4. Institutional Planning

Institutional planning is the key for the successful reopening of the campuses and smooth conduct of the teaching-learning process during these difficult times. The universities and colleges will, therefore, be required to develop their plans very cautiously for reopening of their campuses and this planning has to be done well in advance. The plan may, inter-alia include the following points:

- i. Institutions should prepare details of opening the campus in a phased manner with a complete roster for all departments and batches of students in different programmes. Para 3.2 (i) & (ii) of the Guidelines may be referred.
- ii. The institutions must ensure appropriate sanitization and disinfection process and procedures.
- iii. It should be made mandatory for the Teachers, Officers, Staff and Students to wear the Id cards.
- iv. The faculty, student, staff should be screened regularly to protect and avoid infecting one another.
- v. All preventive measures, preparedness and necessary support system to deal with the COVID -19 positive cases should be monitored and reported to local authorities on a day to day basis.
- vi. Teaching hours in a day may be extended, as per requirements of the institution.
- vii. Six-day schedule may be followed so that classes can be conducted in phases and the seating arrangement be made keeping in view the requirements of physical distancing.
- viii. Universities and colleges may consider reducing the class size and break them in multiple sections to maintain physical distancing during the classes.
- ix. Depending on the availability of space in class rooms or learning sites, up to 50% students may be allowed on a rotation basis to attend the classes.
- x. Faculty should be trained for online teaching-learning practices.
- xi. The visitors should either not be allowed at all or their entry should be drastically restricted. The conditions of the entry for visitors should be strictly laid down and displayed on the entry point(s). Complete contact details of the visitors be maintained along with the names of persons whom he/ she meets.
- xii. There should be adequate isolation arrangements for those having symptoms and also for those who test positive for COVID-19 (however the two need to be kept separately), either at the level of the institution or in collaboration with the Government authorities.

4.1 Safety Measures at Entry/ Exit Point(s)

- i. Adequate arrangements of thermal scanners, sanitizers, face masks should be made available at all entry and exit points, including the reception area.
- ii. Crowding must be avoided at entry/ exit points. Staggered timings of entry and exit with limited strength for different programmes should be followed.
- iii. For ensuring queue management, inside and outside the premises, specific markings on the floor with a gap of 6 feet may be made and be adhered to.
- iv. In case the institution has more than one gate for entry/ exit, all the gates should be used, with adequate care, to avoid crowding.
- v. Monitoring of the entry and exit of the students should be done.
- vi. Screening of students, faculty and staff, wearing of face covers/ mask, sanitizing of hands etc. must be ensured at all entry points.
- vii. Those having symptoms of fever, cough or difficulty in breathing should not be allowed to enter.

4.2 Safety Measures during Working Hours

4.2.1 Classrooms and other Learning Sites

- i. Proper sanitization at all learning sites should be ensured. Cleaning and regular disinfection (using 1% sodium hypochlorite) of frequently touched surfaces (door knobs, elevator buttons, hand rails, chairs, benches, washroom fixtures, etc.) to be made mandatory in all class rooms, laboratories, (and also) lockers, parking areas, other common areas etc. before the beginning of classes and at the end of the day. Teaching materials, computers, laptops, printers, shall be regularly disinfected with 70% alcohol swipe.
- ii. Sitting places in classes, laboratories, computer labs, libraries etc. should be clearly marked, keeping in view the norms of physical distancing. At least one seat should be left vacant between two seats.
- iii. Wearing face cover/ mask is a must at all times and at all places inside the campus.

4.2.2 Inside the Campus

- i. Cultural activities, meeting etc. may be avoided. However, such extra-curricular and sports activities may be allowed where physical distancing is feasible and is in accordance with the Ministry of Home Affairs guidelines, issued under Disaster Management Act, 2005 from time to time

- ii. Adequate arrangements for safe drinking water should be made on the campus.
- iii. Hand washing stations with facilities of liquid soap should be created so that every student can wash her/ his hands frequently.
- iv. Regular and sufficient supply of face covers/ masks, heavy duty gloves, disinfecting material, sanitizer, soaps etc. to sanitation workers should be ensured.
- v. Wearing of face cover/ mask by all students and staff should be ensured.
- vi. Proper cleanliness should be maintained inside the entire campus.
- vii. Adequate arrangements should be made for sanitizing the entire campus, including administrative and academic buildings, classrooms, laboratories, libraries, common rooms, toilets, water stations, furniture, learning material, teaching aids, sports equipment, computers etc.
- viii. Physical distancing should be maintained at all places and crowding must not be allowed at any place under any circumstances.
- ix. An adequate supply of water in toilets and for hand- washing should be ensured.
- x. Proper sanitization of buses, other transport and official vehicles of the institution should be done.
- xi. Spitting in the campus must be made a punishable offence.
- xii. Dustbins must be cleaned and covered properly.
- xiii. Dustbin for collection of used facemasks, personal protective equipment, hand gloves and their disposals should be ensured as per safety norms. Provision for proper disposal of used personal protection items and general waste should be followed in accordance with CPCB guidelines (available at: https://cpcb.nic.in/uploads/Projects/Bio-Medical-Waste/BMW-GUIDELINES-COVID_1.pdf).
- xiv. For air-conditioning/ventilation, the guidelines of CPWD shall be followed which emphasizes that the temperature setting of all air conditioning devices should be in the range of 24-30°C, relative humidity should be in the range of 40-70%, intake of fresh air should be as much as possible and cross ventilation should be there.

- xv. Gymnasiums shall follow MoHFW guidelines (available at: <https://www.mohfw.gov.in/pdf/Guidelinesonyogainstitutesandgymnasiums03082020.pdf>).
- xvi. Swimming Pool (wherever applicable) shall remain closed.
- xvii. All employees who are at higher risk, i.e., older employees, pregnant employees and employees who have underlying medical conditions to take extra precautions. They should preferably not be exposed to any front-line work requiring direct contact with the students.

4.2.3 Hostels

- i. Hostels may be opened only in such cases where it is necessary while strictly observing the safety and health preventive measures. However, the sharing of rooms may not be allowed in hostels. Symptomatic students should not be permitted to stay in the hostels under any circumstances.
- ii. Since residential students may be coming from different locations, they shall remain in quarantine and self-monitor their health for a period of 14 days before being allowed to attend classes or as per the policy opted by the State Government for quarantine (even if they bring a negative test report or the university/college plan to test them on arrival).
- iii. There should be no crowding in hostel areas where students live in close proximity and share common facilities and utilities. Hence, their numbers need to be limited appropriately to avoid crowding. Also, hostel students should be called in phases.
- iv. Thermal Screening of all resident students should be ensured.
- v. They will be referred to the nearest COVID treatment facility for clinical assessment and treatment.
- vi. Density in dining halls, common rooms, playing areas should be limited, keeping in view the requirement of physical distancing.
- vii. Hygiene conditions should be regularly monitored in kitchens, dining halls, bathrooms and toilets etc.
- viii. Cleanliness is to be maintained in dining areas. Meals should be served in small batches, avoiding over-crowding. Take away options should be available for students and staff.
- ix. It must be ensured that the meals are freshly cooked. A senior staff should monitor the same.

- x. Utensils should be properly cleaned.
- xi. Wearing of face covers/ masks and proper sanitization of hands of the staff engaged for the preparation and distribution of meals should be ensured.
- xii. Resident students and staff should avoid or limit visiting the markets. As far as possible, essential items may be made available within the campus.
- xiii. Hostels may define the number of students in dining halls at any point in time. Mess timings may be increased to avoid overcrowding.

4.2.4 Regular Monitoring of Health

- i. Every institution should regularly monitor the health of its students, faculty, and staff.
- ii. Faculty, staff and students should also be sensitized on self-monitoring of their health.
- iii. Faculty, Staff and students should submit self-disclosure, if any of their family members have been infected/availed treatment for COVID-19.

4.2.5 Counselling & Guidance for Mental Health

In order to reassure the students' community to avoid any kind of stress or panic in the prevailing situation *vis-a-vis* their studies, health and related issues, Universities and Colleges should take the following measures for the mental health, psychological aspects and well-being of the students:

- i. All the faculty members, students and staff should be made aware of the Web page named "Manodarpan" – created on the Ministry of Education website to provide psychosocial support for Mental Health & Well-being during the COVID – 19 outbreak and beyond. The web page contains advisory, practical tips, posters, videos, do's and don'ts for Psychosocial support, FAQ and online query system. Also, a National Toll Free Helpline (8445440632) for country wide outreach to students from schools, colleges and universities has also been set up which will provide tele-counselling to address their mental health and psychosocial issues.
- ii. Set up helplines for mental health, psychological concerns and well-being of students in Universities/ Colleges which need to be regularly monitored by Counsellors and other identified faculty.

- iii. Regular mentoring of students through interactions, and appeals/letters by the Universities/ Colleges to remain calm and stress-free. This can be achieved through telephones, e-mails, digital and social media platforms.
- iv. Form COVID-19 help groups of students headed by hostel wardens / senior faculty who can identify friends/ classmates in need of help and provide the immediate necessary help.
- v. Share the following video links of Ministry of Health & Family Welfare <https://www.mohfw.gov.in/> on the University/ College website and with students and faculty via e-mail, through social media like Facebook, WhatsApp and twitter etc.

4.2.6 Measures for Containment

- i. As soon as a student, faculty or staff is detected COVID-19 positive, such person should be immediately isolated as per the directive/advisory of the Government. Room-mates and close contacts should be quarantined and symptomatic ones to be immediately tested.
- ii. Universities and colleges should have a ready plan to provide healthcare support to those resident students and staff who test positive and are isolated.
- iii. The guidelines restricting social and physical contacts and mobility in such parts of residential places in the campus, where positive cases have been found, should be strictly enforced. Measures like holding no class, not leaving the rooms for hostellers, if applicable, no take away arrangement of food from mess etc. may be enforced, depending upon the severity of the situation.
- iv. Universities and colleges should also plan in advance, in case shut down are ordered by the Government due to outbreak in campus or the surrounding region.

4.2.7 Sensitization of Students, Teachers and Staff

- i. Awareness programmes regarding COVID-19 as to how the infection spreads, common symptoms, and precautions and measures required to contain its spread may be launched.
- ii. Maintaining hygiene, e.g., how to wash hands, how to cough or sneeze into a tissue or elbow, avoid touching of face, eyes, mouth and nose should be regularly told to the students and the staff.
- iii. The necessity of physical distancing, wearing face covers/ masks, hygiene etc. should be brought home to all.
- iv. Activities to stay fit, physically and mentally, should be encouraged like doing exercises, yoga, breathing exercises, meditation, etc.
- v. To improve resilience and mental health, students should be encouraged to share their feelings with friends, teachers and parents, remain positive, grateful, helpful, have focussed approach, take a break from work, eat healthy and sleep timely etc.
- vi. Eating healthy food and fruits, avoiding junk food, frequently drinking warm water, adopting ways to increase immunity etc. should be encouraged.
- vii. Students should be told to regularly sanitize their laptops, audio, video and other media accessories.
- viii. Factual information regarding COVID-19 and consequences of infection, without making them stressed or fearful, should be disseminated.
- ix. Posters and stickers should be pasted at appropriate places in the campus to create awareness about the risk of infection from Coronavirus.
- x. All support and facilities should be provided to persons with disabilities (*Divyangjan*).
- xi. No discrimination based on caste, creed or gender should be allowed to take place.
- xii. Sharing of books, other learning material and eatables be discouraged.

5. Role of Stakeholders

5.1 Central/ State Government(s)

- i. The Government should help educational institutions to prepare an effective plan for reopening their campuses. The plan may vary from institution to institution, keeping in view the situation regarding spread of COVID-19 pandemic in a particular area/region/zone.
- ii. The Governments may issue clear instructions to the universities and colleges to ensure the safety and health of all concerned. This may include instructions for wearing of face masks, physical distancing, and the number of students in a class, library, hostels, and dining halls etc.
- iii. State governments, in consultations with higher education institutions, should prepare an estimate of requirement in each of their districts and zones, of disinfectants, facemasks and prepare a plan in advance for their procurement and distribution. Universities and colleges should ensure sufficient supplies of these items to their students, faculty and staff.
- iv. Keeping in view the varying conditions in any state at district and zonal levels, the Government concerned should prepare a region-specific plan, instead of a uniform plan for the entire state.
- v. State health departments should remain in touch with the universities and colleges and work to ensure that the campuses are well prepared to maintain the safe and healthy conditions and also to deal with the COVID-19 related unexpected situations.
- vi. The Governments should keep a constant touch with the universities and colleges regarding the status of COVID-19. The government may call information regarding COVID-19 related condition in the campuses and also call meetings at appropriate intervals with the Head of institutions through video conferencing.

5.2 Head of the Institution

- i. Vice- Chancellors/ Principals may get Standard Operating Procedures(SOPs) worked out in view of COVID-19 outbreak, in accordance with the Government orders and guidelines.
- ii. A detailed institutional plan which may, inter alia, include sanitization, safety and health measures should be prepared and kept ready, before reopening of campus. Proper implementation of the institutional plan should be ensured and regular monitoring should be done with the help of faculty and the staff.
- iii. Tie-ups may be established with nearby hospitals, health centres, NGOs, health experts for help and support in fighting COVID-19.

- iv. A plan for all academic activities, i.e., the academic calendar, teaching-learning modes, examinations, evaluation etc. should be kept ready well in advance.
- v. A Task Group should be created to handle varied situations and issues related to the COVID-19 pandemic. Such Task Group may consist of senior persons from faculty and staff, students, volunteers from communities, NGOs, health organisations and Government officials etc. as the case may be.
- vi. Teachers, students and staff should be made aware of all relevant plans and activities on the campus.

5.3 Teachers

- i. Teachers should make themselves fully aware of institutional plans and Standard Operating Procedures.
- ii. Every teacher should prepare a detailed teaching plan for the subjects taught by him/her, including time table, class size, modes of delivery, assignments, theory, practical, continuous evaluation, end- semester evaluation etc.
- iii. Teachers should keep themselves updated with the latest teaching- learning methods and availability of e-resources.
- iv. Teachers should make the students aware of the COVID-19 related situation, precautions and steps to be taken to stay safe and healthy.
- v. Teachers should monitor and keep track of the physical and mental health of their students.

5.4 Parents

- i. The parents should ensure that their children observe safety norms at home and whenever they go out.
- ii. Parents should not allow their children to go out, if they are not feeling well.
- iii. Parents may be advised that the 'Aarogya Setu App' has been downloaded by their children.
- iv. Parents should sensitize them of healthy food habits and measures to increase immunity.
- v. Parents should ask them to do exercise, yoga, meditation and breathing exercises to keep them mentally and physically fit.

5.5. Students

- i. Self-discipline is most important to contain the spread of COVID-19 pandemic through social distancing and maintaining hygienic condition.
- ii. All students should wear face covers/ masks and take all preventive measures.
- iii. May consider installing 'Aarogya Setu App' in the mobile.
- iv. It is important for the students to be physically and mentally fit to handle any exigencies. By remaining fit, they can take care of others also.
- v. The students must inculcate activities that will increase immunity-boosting mechanism which may include exercise, yoga, eating fresh fruits and healthy food (avoid fast food), sleep timely.
- vi. Discrimination of fellow students in respect of whom there is a history of COVID-19 disease in the family be avoided.
- vii. Give support to your friends under stress due to COVID-19 pandemic.
- viii. Students should follow the guidelines, advisories and instructions issued by the Government authorities as well as by the universities and colleges regarding health and safety measures in view of COVID-19 pandemic.

6. In view of the present scenario and future uncertainties:

- i. The universities may adopt and implement these Guidelines in a transparent manner by making alterations/ additions/ modifications/ amendments to deal with particular situation(s) in the best interest of students, educational institution and the entire education system, except in respect of those guidelines that are mandatory.
- ii. In case of educational institutions located at places where the Government (Centre/ State) have imposed restrictions on gathering of public, the institutions may plan accordingly. In any case, the above recommendations shall not cause any restrictions on the guidelines/directions issued by the appropriate Government/ competent authority.

Notwithstanding the above Guidelines, every university/ college has to ensure that it is prepared in all respects to carry out the academic activities following necessary advisories/guidelines/directions issued by the Central/State Government, Ministry of Education (earlier referred to as MHRD) or UGC from time to time to prevent the spread of COVID-19.

राज्यातील शाळा सुरक्षितपणे सुरु
करण्यासाठी मार्गदर्शक सूचना
निर्गमित करण्याबाबत.

महाराष्ट्र शासन

४) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक १७ ऑगस्ट, २०२०.
५) शासन परिपत्रक क्र.संकीर्ण २०२०/प्र.क्र.८६/एसडी-६; दिनांक २९ ऑक्टोबर, २०२०.
६) केंद्र शासनाच्या दि.०८.०९.२०२० रोजीच्या मार्गदर्शक सूचना.

पार्श्वभूमी :-

या विभागाच्या संदर्भ क्र. ०१ येथील शासन परिपत्रकानुसार राज्यात कोव्हीड- १९ च्या प्रादुर्भावामुळे उद्भवलेल्या परिस्थितीत राज्यातील शाळा प्रत्यक्षात सुरु करणे शक्य नसल्याने दि.१५ जुन, २०२० पासून शैक्षणिक वर्ष सुरु करुन स्थानिक परिस्थितीनुसार प्रत्यक्ष शाळा टप्प्या-टप्प्याने सुरु करण्याबाबत निर्णय घेण्याचे अधिकार संबंधित जिल्हाधिकारी, महानगरपालिका आयुक्त यांच्या सहाय्याने संबंधित शाळा व्यवस्थापन समिती यांना प्रदान करण्यात आले आहेत. त्याचबरोबर शाळांमध्ये शिक्षकांच्या उपस्थितीबाबत दिनांक २४ जून, २०२० रोजीच्या परिपत्रकान्वये मार्गदर्शक सूचना निर्गमित करण्यात आल्या आहेत. कोरोनाच्या प्रादुर्भावामुळे विद्यार्थ्यांचे शिक्षण थांबू नये यासाठी वरील संदर्भ क्रमांक ०३ येथील परिपत्रकान्वये पूर्व प्राथमिक ते इयत्ता १२ वी पर्यंतच्या विद्यार्थ्यांसाठी ऑनलाईन शिक्षणाचा कालावधी व शिक्षणाच्या स्वरूपाबाबत मार्गदर्शक सूचना निर्गमित करण्यात आल्या होत्या.

राज्यात Mission Begin Again अंतर्गत राज्यातील सर्व आस्थापना टप्प्या - टप्प्याने सुरु करण्यासाठी मार्गदर्शक सूचना (SOP) निर्गमित करण्यात येत आहेत. त्याच धर्तीवर शैक्षणिक वर्ष दि.१५ जून, २०२० पासून सुरु झाले असले तरी प्रत्यक्ष प्रथम: इयत्ता ९ वी ते इयत्ता १२ वी साठी शाळा सुरु करण्याबाबतचा प्रस्ताव शासनाच्या विचाराधीन होता.

परिपत्रक:-

१. राज्यातील इयत्ता ९ वी ते इयत्ता १२ वी चे वर्ग दिनांक २३ नोव्हेंबर, २०२० पासून सुरु करण्यास मान्यता देण्यात येत आहे. तसेच इयत्ता ९ वी ते १२ वी चे वसतिगृह व आश्रमशाळा विशेषतः आंतरराष्ट्रीय विद्यार्थ्यांचे वसतिगृह सुरु करण्यास मान्यता देण्यात येत आहे. शाळा सुरु करण्यापूर्वी व शाळा सुरु झाल्यानंतर आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपाययोजनांबाबतच्या मार्गदर्शक सूचना सोबत जोडलेल्या परिशिष्ट-अ व परिशिष्ट-ब मध्ये देण्यात आल्या आहेत.

२. कोविड-१९ बाबत केंद्र व राज्य शासनाच्या सूचनांचे पालन करण्यात यावे. विद्यार्थ्यांच्या उपस्थितीबाबत पालकांकडून आवश्यक ती लेखी संमती घेण्यात यावी.

३. या विभागाच्या संदर्भाधीन दिनांक १५ जुन, २०२० व दिनांक २९ ऑक्टोबर, २०२० रोजीच्या परिपत्रकातील सूचनांचे पालन करण्यात यावे.

४. सदर शासन परिपत्रक महाराष्ट्र शासनाच्या www.maharashtra.gov.in या संकेत स्थळावर उपलब्ध करण्यात आले असून त्याचा संगणक संकेतांक २०२०१११०१६४२४८३६२१ असा आहे. सदर परिपत्रक डिजिटल स्वाक्षरीने साक्षांकित करुन निर्गमित करण्यात येत आहे.

महाराष्ट्राचे राज्यपाल यांच्या आदेशानुसार व नावाने.

शासन परिपत्रक क्रमांक संकीर्ण २०२०/प्र.क्र.१४०/एसडी-६; दि. १० नोव्हेंबर, २०२० सोबतचे

परिशिष्ट-अ

शाळा सुरु करण्यापूर्वी आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपाययोजनांबाबतच्या मार्गदर्शक सूचना

१) शाळेत स्वच्छता व निर्जंतुकीकरण विषयक सुविधा सुनिश्चित करणे:-

- शाळेत हात धुण्यासाठी सुविधा उपलब्ध करून देणे.
- Thermometer, Thermal Scanner/Gun, Pulse Oxymeter, जंतूनाशक, साबण, पाणी इत्यादी आवश्यक वस्तुंची उपलब्धता तसेच शाळेची स्वच्छता व निर्जंतुकीकरण स्थानिक प्रशासनाने (ग्रामीण व शहरी) सुनिश्चित करावी. वापरण्यात येणारे thermometer हे calibrated contactless infrared digital thermometer असावे.
- शाळा वाहतुक सुविधांचे निर्जंतुकीकरण सुनिश्चित करावे.
- एखाद्या शाळेत क्वारंटाईन सेंटर असल्यास स्थानिक प्रशासनाने ते इतर ठिकाणी स्थानापन्न करावे. स्थानिक प्रशासनाने अशा शाळेचे हस्तांतरण शाळा व्यवस्थापनाकडे करण्यापूर्वी त्याचे पूर्णतः निर्जंतुकीकरण करावे.
- क्वारंटाईन सेंटर इतर ठिकाणी नेणे शक्य नसल्यास शाळा खुल्या परिसरात किंवा इतर ठिकाणी भरवावी.

२) शिक्षकांची कोविड-१९ बाबतची चाचणी:-

- शाळेतील सर्व शिक्षक व शिक्षकेतर कर्मचाऱ्यांनी दि. १७ ते २२ नोव्हेंबर, २०२० या दरम्यान कोविड-१९ साठीची RTPCR चाचणी करणे बंधनकारक असेल. शिक्षक व शिक्षकेतर कर्मचाऱ्यांनी सदर चाचणीचे प्रयोगशाळेने दिलेले प्रमाणपत्र शाळा व्यवस्थापनास सादर करावे. सदर प्रमाणपत्राची शाळा व्यवस्थापनाने पडताळणी करावी.
- ज्या शिक्षक व शिक्षकेतर कर्मचाऱ्यांचे चाचणी अहवाल positive असतील त्यांनी डॉक्टरांनी प्रमाणित केल्यानंतरच शाळेत उपस्थित राहवे.
- ज्या शिक्षक व शिक्षकेतर कर्मचाऱ्यांचे चाचणी अहवाल negative आहेत त्यांनी शाळेत उपस्थित राहताना कोविड-१९ संदर्भातील सर्व मार्गदर्शक सूचनांचे पालन करणे आवश्यक राहिल. तसेच कोविड-१९ बाबतची लक्षणे आढळल्यास त्यांनी त्वरीत चाचणी करावी.

३) कार्यगट गठीत करणे:- सर्व भागधारकांचे त्यांच्या विशिष्ट जबाबदाऱ्यांसहित विविध कार्यगट गठित करावे जसे आपत्कालीन गट, स्वच्छता पर्यवेक्षण गट, इत्यादी. शिक्षक, विद्यार्थी व इतर भागधारक या गटांचे सभासद म्हणून सहकार्याने काम करतील.

४) बैठक व्यवस्था :-

- वर्गखोली तसेच स्टाफ रुम मधील बैठक व्यवस्था शारीरिक अंतर (Physical Distancing) च्या नियमानुसार असावी.
- वर्गामध्ये एका बाकावर एक विद्यार्थी याप्रमाणे नावानिशी बैठक व्यवस्था असावी.

५) शारीरिक अंतर (Physical distancing) च्या नियमांच्या अंमलबजावणीकरिता विविध चिन्हे व खुणा प्रदर्शित करणे :-

- शाळेत दर्शनी भागावर Physical distancing, मास्कचा वापर इत्यादी संदर्भात मार्गदर्शक सूचना असणारे posters/stickers प्रदर्शित करावे.
- थूंकण्यावरील बंदीची काटेकोरपणे अंमलबजावणी करावी.
- शाळेच्या अंतर्गत व बाह्य परिसरामध्ये रांगेत उभे राहण्याकरिता किमान सहा फूट इतके शारीरिक अंतर (Physical distance) राखले जाईल याकरिता विशिष्ट चिन्हे जसे चौकोन, वर्तुळ इत्यादींचा वापर गर्दी होणारी ठिकाणे जसे पाणी पिण्याच्या सुविधा, हात धुण्याच्या सुविधा, स्वच्छतागृहे इत्यादी ठिकाणी करण्यात यावा.
- शारीरिक अंतर (Physical distance) राखण्यासाठी येण्या व जाण्याचे वेगवेगळे मार्ग निश्चित करणाऱ्या बाणांच्या खुणा दर्शविण्यात याव्यात.

६) शाळेतील कार्यक्रम आयोजनावरील निर्बंध :- परिपाठ, स्नेह संमेलन, क्रीडा व इतर तत्सम कार्यक्रम ज्यामुळे अधिक गर्दी होऊ शकते अशा कार्यक्रमांच्या आयोजनावर कडक निर्बंध असेल. शिक्षक- पालक बैठका ऑनलाईन घ्याव्यात.

७) पालकांची संमती:-

- विद्यार्थ्यांनी शाळेत उपस्थित राहण्यापूर्वी त्यांच्या पालकांची लेखी संमती आवश्यक असेल. शाळा व्यवस्थापन समितीने पालकांशी वरील विषयी चर्चा करावी.
- आजारी असलेल्या मुलांना पालकांनी शाळेत पाठवू नये.
- विद्यार्थ्यांना त्यांच्या पालकांच्या संमतीने घरी राहून देखील अभ्यास करता येईल. अशा विद्यार्थ्यांच्या शैक्षणिक प्रगतीच्या मुल्यांकनाकरिता विशिष्ट योजना राज्य शैक्षणिक संशोधन व प्रशिक्षण परिषद, महाराष्ट्र यांनी तयार करण्यात यावी.

८) विद्यार्थी, पालक, शिक्षक व समाजातील सदस्य यांना कोविड-१९ च्या संदर्भातील आव्हाने व त्याबाबतची त्यांची भूमिका याबाबत जागरूक करणे:-

- शाळा सुरु करण्यापूर्वीच विद्यार्थी, पालक, शिक्षक व समाजातील सदस्य यांच्यात जागरूकता निर्माण करण्याकरिता शाळा व्यवस्थापन समितीने पत्रके, पत्रे व सार्वजनिक घोषणांच्या माध्यमांचा वापर करून पुढील मुद्द्यांबाबत कार्यवाही करावी:-
 - i. वैयक्तिक स्वच्छता व नेहमी वापरण्यात येणारे पृष्ठभागांचे निर्जंतुकीकरण इत्यादीबाबत काय करावे किंवा काय करू नये याबाबतच्या सूचना.
 - ii. शारीरिक अंतर पालनाचे (Physical distancing) चे महत्त्व.
 - iii. कोविड-१९ च्या प्रतिबंधासाठी आवश्यक स्वच्छताविषयक सवयी.
 - iv. कोविड-१९ बाबतच्या गैरसमजुती.
 - v. कोविड-१९ ची लक्षणे आढळल्यास शाळेत जाणे टाळणे.
- केंद्रीय आरोग्य व कुटुंब कल्याण मंत्रालय यांच्या सूचनांनुसार, सर्वच कर्मचारी जे (कोविड-१९च्या अनुषंगाने) अधिक उच्च धोक्याच्या पातळीमध्ये आहेत, जसे वयोवृद्ध कर्मचारी, दिव्यांग कर्मचारी, गरोदर महिला कर्मचारी व जे कर्मचारी औषध-उपचार

घेत आहेत, त्यांनी अधिक काळजी घ्यावी. त्यांनी शक्यतो विद्यार्थ्यांच्या प्रत्यक्ष संपर्कात येऊ नये.

९) शाळेतील उपस्थिती व वैद्यकीय रजा याबाबतच्या धोरणांमध्ये सुधारणा करणे:-

- विद्यार्थ्यांची शाळेतील उपस्थिती बंधनकारक नसून पूर्णतः पालकांच्या संमती वर अवलंबून असेल.
- पूर्ण उपस्थितीबाबतची पारितोषिके बंद करण्यात यावी.
- शाळेतील कर्मचाऱ्यांना त्यांना नेमून दिलेल्या कामाव्यतिरिक्त आणबाणीच्या प्रसंगी इतर कर्मचाऱ्यांची कामे करण्यासाठी प्रशिक्षित करावे.

१०) माहितीचे एकत्रिकरण :-

- विद्यार्थी, पालक व शिक्षकांकडून पुढील माहिती स्वयंघोषित करून घ्यावी:-
त्यांची आरोग्याची स्थिती, आरोग्य सेतू ऑप वरील तपासणी अहवाल, तसेच अलीकडील आंतरराष्ट्रीय व आंतरराज्य प्रवासाची माहिती.
- स्थानिक प्रशासनाकडून राज्य व जिल्हा helpline तसेच जवळील कोविड सेंटर बदलची माहिती.

XXXXXXXXXXXXXXXXXXXX

शासन परिपत्रक क्रमांक संकीर्ण २०२०/प्र.क्र.१४०/एसडी-६; दि. १० नोव्हेंबर, २०२० सोबतचे

परिशिष्ट-ब

शाळा सुरु झाल्यानंतर आरोग्य, स्वच्छता व इतर सुरक्षाविषयक उपायोजनाबाबतच्या

मार्गदर्शक सूचना:-

१) शाळेत व शाळेच्या परिसरात स्वच्छता व आरोग्यदायी परीस्थिती सतत राखणे:-

- शाळेचा परीसर दररोज नियमितपणे स्वच्छ केला जावा.
- शाळेतील वर्गखोल्या व वर्गखोल्यांच्या बाहेरील नेहमी स्पर्श होणारा पृष्ठभाग जसे लॅचेस, अध्ययन-अध्यापन साहित्य, डेस्क, टॅबलेट्स, खुर्च्या इ.वारंवार स्वच्छता व निर्जंतुकीकरण करण्यात यावे.
- शाळेतील व शाळेच्या परीसरातील सर्व कचरा नियमितपणे विल्हेवाट लावण्यात यावी.
- हात धुण्याच्या सर्व ठिकाणी साबण, हॅन्डवॉश व स्वच्छ पाण्याची व्यवस्था करण्यात यावी. शक्य झाल्यास अल्कोहोल मिश्रित हॅन्ड सॅनिटायझर सर्व महत्वाच्या ठिकाणी ठेवण्यात यावा.
- शाळेतील स्वच्छतागृहाचे वारंवार निर्जंतुकीकरण करण्यात यावे.
- सुरक्षित व स्वच्छ पिण्याचे पाणी विद्यार्थ्यांना उपलब्ध होईल याची दक्षता घेण्यात यावी. विद्यार्थ्यांनी सोबत वॉटर बॉटल आणण्यासाठी त्यांना प्रोत्साहित करावे.
- शाळा सुरु होण्यापूर्वी व शाळा सुटल्यानंतर शाळा व वर्ग खोल्यांचे नियमितपणे निर्जंतुकीकरण करण्यात यावे.
- वरील सर्व स्वच्छतेमध्ये विद्यार्थ्यांना सहभागी करून घेऊ नये.

२) शाळेत विद्यार्थ्यांना सुरक्षित ठेवणे :-

- सर्व विद्यार्थी, शिक्षक व कर्मचारी वर्ग यांनी शाळेत येताना व शाळेत असेपर्यंत तसेच, शाळेत कोणतीही कृती करताना मास्कचा वापर करावा. तसेच, विद्यार्थी मास्कची अदलाबदल करणार नाहीत याची दक्षता घ्यावी.
- विद्यार्थी, शिक्षक व कर्मचारी वर्गाची दररोज साधी आरोग्य चाचणी जसे Thermal Screening घेण्यात यावी.
- विद्यार्थी, शिक्षक व शाळेतील कर्मचाऱ्यांव्यतिरिक्त इतर कोणत्याही व्यक्तिला शाळेचा आवारात व शाळेच्या प्रवेशद्वारावर प्रवेश देऊ नये.
- काही विद्यार्थी सूचनांचे पालन करत नसल्यास ते त्यांच्या पालकांच्या निदर्शनांस आणावे.

३) विद्यार्थ्यांच्या सुरक्षित प्रवासाची सोय करणे :-

- कोविड-१९ संसर्ग टाळण्यासाठी पालकांनी शक्यतो विद्यार्थ्यांना स्वतः त्यांच्या वैयक्तिक वाहनाने शाळेत सोडावे.

- शाळा वाहतुकीच्या वाहनाचे दिवसातून किमान दोनवेळा (विद्यार्थी वाहनात येतांना व वाहनातून उतरल्यानंतर) निर्जंतुकीकरण करण्यात यावे.
- वाहनचालक व वाहक यांनी स्वतः तसेच विद्यार्थी शारीरिक अंतराचे पालन करतील, याची दक्षता घ्यावी. किमान ६ फुट अंतर राखण्यात यावे.
- बस / कार यांच्या खिडक्यांना पडदे नसावेत. सामान्यतः खिडक्या उघड्या ठेवण्यात याव्यात.
- वातानुकूलित बसेस मध्ये २४ ते ३० डिग्री सेल्सिअस तापमान राखावे.
- शक्य असल्यास वाहनात हॅन्ड सॅनिटायझर ठेवण्यात यावे.

४) शिक्षक व शिक्षकेत्तर कर्मचारी व विद्यार्थी यांचा सुरक्षित प्रवेश व गमन (Entry and Exit) :-

- विद्यार्थ्यांनी शाळेने निश्चित केल्याप्रमाणे शाळेत उपस्थित रहावे. शाळेत वावरताना त्यांनी किमान ६ फुट अंतराचे पालन करावे.
- विद्यार्थी व कर्मचारी वर्गाचे आगमन व गमन (Entry and Exit) यांचे वेळापत्रक अशा प्रकारे निश्चित करावे, ज्यामुळे शाळेत होणारी गर्दी टाळली जाईल.
- विविध इयत्तांचे वर्ग सुरु होण्याच्या व संपण्याच्या वेळामध्ये किमान १० मिनिटांचे अंतर असावे.
- शाळेच्या परिसरात चार पेक्षा जास्त विद्यार्थी एकत्र जमणार नाहीत, ही मुख्यध्यापकांची जबाबदारी असेल.
- शाळेस एकापेक्षा अधिक प्रवेशद्वार असल्यास शाळेत येताना व जातांना सर्व प्रवेशद्वारांचा वापर करावा.
- शाळेच्या बाहेरील वाहनांची गर्दी टाळण्यासाठी वाहतुक पोलिस किंवा समाजातील स्वयंसेवकाची मदत घ्यावी.
- शाळेच्या प्रमुखांनी आजारी असल्याच्या कारणामुळे कर्मचाऱ्यास रजेवर राहण्याची परवानगी देण्यात यावी.
- कुटुंबातील एखादा सदस्य किंवा घराजवळील एखादी व्यक्ती ताप / खोकला यांनी आजारी असल्यास आपल्या मुलांना शाळेत न पाठविण्याबाबत पालकांना अवगत करावे.

५) वर्गखोल्या व इतर ठिकाणी सुरक्षिततेच्या मानकांची खात्री करावी :-

- शाळेत प्रात्यक्षिक कार्ये (Practicals) घेताना विद्यार्थ्यांचे लहान लहान गट करून घेण्यात यावेत म्हणजे शारीरिक अंतराचे (Physical Distancing) पालन करणे सुलभ होईल.
- विद्यार्थ्यांनी कोणतेही साहित्य जसे पुस्तके, वही, पेन, पेन्सिल, वॉटर बॉटल, इत्यादींची अदलाबदल करू नये.
- ज्या विद्यार्थ्यांनी ऑनलाईन शिक्षणाचा पर्याय स्वीकारला असेल त्यांच्यासाठी ऑनलाईन गृहपाठाची व्यवस्था करावी.

- शक्य असल्यास वर्ग खुल्या परिसरात घ्यावेत. शक्य नसल्यास वर्गखोल्यांची दारे व खिडक्या उघड्या ठेवण्यात याव्यात. कोणत्याही परिस्थितीत बंद खोल्यांमध्ये वर्ग भरवण्यात येऊ नये.
- उदवाहन (lift) व व्हरांड्यांतील उपस्थित व्यक्तीच्या संख्येवर निर्बंध आणावेत.
- स्वच्छतागृहामध्ये अधिक गर्दी होऊ नये, याची दक्षता घ्यावी.
- विद्यार्थ्यांनी प्रत्येक कृती केल्यानंतर हात स्वच्छ धुवावेत.
- वातानुकूलित वर्ग खोल्यांचे तापमान २४ ते ३० डिग्री सेंटिग्रेड ठेवावे.

६) अभ्यासवर्गांची व्यवस्था:-

- शाळा व्यवस्थापन समितीने शाळेतील गर्दी टाळण्यासाठी एक दिवसआड विद्यार्थ्यांना शाळेत बोलवावे (५० टक्के विद्यार्थी एका दिवशी व उर्वरित ५० टक्के विद्यार्थी दुसऱ्या दिवशी). अशाप्रकारे एकाच दिवशी ५० टक्के विद्यार्थी ऑनलाईन वर्गात व उर्वरित ५० टक्के विद्यार्थी प्रत्यक्ष वर्गात उपस्थित राहून शिक्षण घेतील.
- इयत्ता निहाय ऑनलाईन व ऑफलाईन वर्गांचे वेळापत्रक, शिक्षकांची जबाबदारी निश्चिती याची जबाबदारी संबंधित शाळेच्या मुख्याध्यापकांची असेल. शक्यतो मुख्य विषय (Core Subjects) जसे गणित, विज्ञान व इंग्रजी शाळेत शिकवावेत व उर्वरित विषय शासनाने वेळोवेळी निर्गमित केलेल्या सूचनांप्रमाणे ऑनलाईन पद्धतीने शिकवावेत.
- प्रत्यक्ष वर्गाचा कालावधी ३ ते ४ तासांपेक्षा अधिक असू नये. प्रत्यक्ष वर्गाकरिता जेवणाची सुट्टी नसेल.

७) कोविड-१९ संशयित आढळल्यास करावयाची कार्यवाही :-

- शिक्षक, कर्मचारी वर्ग किंवा विद्यार्थी संशयित आढळल्यास त्यास एका खोलीत इतरांपासून वेगळे ठेवावे.
- तात्काळ रुग्णालय किंवा जिल्हा व राज्य संपर्क क्रमांकास (Helpline) कळवावे. त्यानंतर सर्व परिसराचे व त्या जागेचे निर्जंतुकीकरण करावे. राज्य व जिल्हा helpline क्रमांक तसेच जवळील कोविड सेंटर बदलची माहिती मुख्याध्यापक व प्रत्येक शिक्षकांच्या मोबाईलमध्ये असावी.

८) मानसिक व सामाजिक कल्याण :-

- चिंता आणि निराशा यासारख्या मानसिक आरोग्याच्या समस्या नोंदविणाऱ्या किंवा सांगणाऱ्या विद्यार्थी आणि शिक्षकांसाठी नियमित समुपदेशन केले जाईल, याची सुनिश्चिती करावी.
- शिक्षकांनी, शालेय समुपदेशकांनी आणि शालेय आरोग्य कर्मचाऱ्यांनी विद्यार्थ्यांचे व आपले मानसिक स्थिरता निश्चित करण्यासाठी एकत्रितपणे कार्य करावे.

उपरोक्त सूचनांव्यतिरिक्त स्थानिक परिस्थितीनुसार शाळांनी आवश्यक मार्गदर्शक सूचना निश्चित कराव्यात.

Institute Vision & Mission

Vision:

To emerge as one of the aspiring business schools and provide quality management education and Foundation for life skills.

Mission:

*To develop necessary competencies in students by providing exposure in various areas of knowledge,
To enhance employability for gainful employment and promote entrepreneurship. To promote
Ethical and value based learning.*

Director

Nashik Gramin Shikshan Prasarak Mandal
Brahma Valley Institute of Management
Anganga, Nashik

Master of Business Administration (MBA) –Syllabus 2019 Pattern (revised)

2 year, 4 Semester Full time Programme Choice Based Credit System (CBCS) and Grading System Outcome Based Education Pattern

MBA I effective from AY 2022-23

MBA II effective from AY 2022-23

1.0 Preamble: The revised MBA Curriculum 2022 finetunes the MBA 2019 Pattern which was built upon the Choice Based Credit System (CBCS) and Grading System and the Outcome Based Education. The MBA Curriculum 2022 also incorporates several aspects of NEP.

2.0 Definitions:

2.1 Outcome Based Education:

2.1.1 Outcome Based Education (OBE) Approach: Outcomes are about performance, and this implies:

- a) There must be a performer – the student (learner), not only the teacher
- b) There must be something performable (thus demonstrable or assessable) to perform
- c) The focus is on the performance, not the activity or task to be performed

2.1.2 Programme Educational Objectives (PEOs): Programme Educational Objectives are a set of **broad future-focused student performance outcomes** that explicitly identify what students will be **able to do with what they have learned**, and **what they will be like** after they leave school and are **living full and productive lives**. Thus PEOs are what the programme is preparing graduates for in their **career and professional life** (to attain within a **few years** after graduation¹).

2.1.3 Graduate Attributes (GAs): Graduate Attributes (GAs) are the **qualities, knowledge and capabilities** that students are encouraged to take responsibility for developing throughout their studies and are the **defining characteristics** of the students passing out of the MBA program. These attributes include, but go **beyond, the disciplinary expertise or technical knowledge**.

2.1.4 Programme Outcomes (POs): Programme Outcomes are a set of **narrow statements** that describes what students (learners) **of the programme** are expected to know and be able to perform or attain **by the time of graduation**.

2.1.5 Programme Specific Outcomes (PSOs): Programme Outcomes are a set of **narrow statements** that describes what students (learners) **of a particular specialization of the programme** are expected to know and be able to perform or attain **by the time of graduation**. PSOs are also a function of the various course combinations offered by the Institute.

2.1.6 Learning Outcomes: A learning outcome is what a student CAN DO as a result of a learning experience. It describes a **specific task** that he/she is able to perform at a **given level of competence under a certain situation**. The three broad types of learning outcomes are:

- a) Disciplinary knowledge and skills
- b) Generic skills
- c) Attitudes and values

2.1.7 Course Outcomes (COs): A set of specific statements that describes the **complex performances** a student should be capable of as a result of **learning experiences within a course**.

2.1.8 Teaching and Learning Activities (TLAs): The set of **pedagogical tools and techniques** or the teaching and learning activities that aim to **help students to attain** the intended learning outcomes and engage them in these learning activities through the teaching process.

2.1.9 Assessment: It is the process of collecting, recording, scoring, describing and interpreting information about learning

2.1.10 Outcome Based Assessment (OBA): An assessment system that asks course teachers to first identify what it is that we expect students to be able to do once they have completed a course or program. It then asks course teachers to provide evidence that they are able to do so. In other words, how will each learning outcome be assessed? What **evidence of student learning** is most **relevant for each learning outcome** and **what standard or criteria** will be used to evaluate that evidence? Assessment is therefore a key part of outcome-based education and used to determine whether or not a qualification has been achieved.

2.1.11 Rubric (Assessment Rubric): A rubric for assessment, also called a scoring guide, is a tool used to interpret and grade students on any kind of work against criteria and standards.

2.2 Academic credit: An academic credit is a unit by which the course work (theory/ practical/ training) is measured. Each course may be allotted credits in proportion to the time expected to be devoted by the student for that course. Thus, it determines the number of hours of instructions required per week

¹ Graduation refers to passing out of the MBA programme. Graduation does NOT refer to 10+2+3/4 degree e.g. BA, BE, etc.

2.2.1 Credit: *In terms of credits, for a period of one semester of 15 weeks:*

- a) *every ONE hour session per week of L amounts to 1 credit per semester*
- b) *every TWO hour tutorial per week of L amounts to 1 credit per semester*
- c) *a minimum of TWO hours per week of P amounts to 1 credit per semester,*

Each credit is a combination of 3 components viz. Lecture (L) + Tutorials (T) + Practice (Practical / Project Work / Self Study) (P) i.e. LTP Pattern. Indicative LTP, for each course, is documented in the syllabus.

The course teacher may modify the LTP of the course in view of the course requirements, nature of the course, the level of learners and the type of pedagogy and assessment tools proposed. The modified LTP shall have to be approved by the Director / Head of the Department / Designated academic authority of the Institute.

2.2.2 Session: Each teaching-learning, evaluation session shall be of 60 minutes. However, institutes shall have the flexibility to define their time slots in a manner as to use their faculty and infrastructure resources in the best possible way and ensure effective learning.

2.2.3 Course Announcement: The institute shall announce the elective courses and specializations it proposes to offer the students out of the wider course basket. It is not mandatory to offer all the specializations and all the electives. The decision of the Director shall be final in this case. However, in the spirit of Choice Based Credit System, institutes should offer choices to the students for the elective courses and not offer only the minimum number of electives.

2.2.4 Course Registration: It is mandatory for every student, to register every semester, for the courses opted for that semester. Each student, on admission shall be assigned to a Faculty Advisor who shall advise her/him about the academic programs and counsel on the choice of courses considering the student's profile, career goals and courses taken in the earlier semesters. With the advice and consent of the Faculty Advisor, the student shall register for a set of courses he/she plans to take up for the Semester. Students shall have to register for the courses for the semester within first week of Semester I and immediately after conclusion of the preceding term for subsequent Semesters II, III and IV.

3.0 MBA Programme Focus:

3.1 Programme Educational Objectives (PEOs):

1. **PEO1:** Graduates of the MBA program will *successfully integrate core, cross-functional and inter-disciplinary aspects of management theories, models and frameworks with the real world practices and the sector specific nuances to provide solutions to real world business, policy and social issues in a dynamic and complex world.*
2. **PEO2:** Graduates of the MBA program will possess excellent *communication skills, excel in cross-functional, multi-disciplinary, multi-cultural teams*, and have an appreciation for *local, domestic and global contexts* so as to manage *continuity, change, risk, ambiguity and complexity.*
3. **PEO3:** Graduates of the MBA program will be appreciative of the significance of *Indian ethos and values in managerial decision making* and *exhibit value centered leadership.*
4. **PEO4:** Graduates of the MBA program will be ready to *engage in successful career pursuits* covering a broad spectrum of areas in *corporate, non-profit organizations, public policy, entrepreneurial ventures* and engage in *life-long learning.*
5. **PEO5:** Graduates of the MBA program will be recognized in their chosen fields for their *managerial competence, creativity & innovation, integrity & sensitivity* to local and global issues of social relevance and earn the *trust & respect* of others as *inspiring, effective and ethical leaders, managers, entrepreneurs, intrapreneurs* and change agents.

3.2 Programme Outcomes (POs): At the end of the MBA programme the learner will possess the

1. **Generic and Domain Knowledge** - Ability to articulate, illustrate, analyze, synthesize and apply the knowledge of principles and frameworks of management and allied domains to the solutions of real-world complex business issues
2. **Problem Solving & Innovation** - Ability to Identify, formulate and provide innovative solution frameworks to real world complex business and social problems by systematically applying modern quantitative and qualitative problem solving tools and techniques.
3. **Critical Thinking** - Ability to conduct investigation of multidimensional business problems using research based knowledge and research methods to arrive at data driven decisions
4. **Effective Communication** - Ability to effectively communicate in cross-cultural settings, in technology mediated environments, especially in the business context and with society at large
5. **Leadership and Team Work** - Ability to collaborate in an organizational context and across organizational boundaries and lead themselves and others in the achievement of organizational goals and optimize outcomes for all stakeholders.
6. **Global Orientation and Cross-Cultural Appreciation:** Ability to approach any relevant business issues from a global perspective and exhibit an appreciation of Cross Cultural aspects of business and management.
7. **Entrepreneurship** - Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing startups as well as professionalizing and growing family businesses.
8. **Environment and Sustainability** - Ability to demonstrate knowledge of and need for sustainable development and assess the impact of managerial decisions and business priorities on the societal, economic and environmental aspects.
9. **Social Responsiveness and Ethics** - Ability to exhibit a broad appreciation of the ethical and value underpinnings of managerial choices in a political, cross-cultural, globalized, digitized, socio-economic environment and distinguish between ethical and unethical behaviors & act with integrity.
10. **LifeLong Learning** – Ability to operate independently in new environment, acquire new knowledge and skills and assimilate them into the internalized knowledge and skills.

3.3 Programme Specific Outcomes (PSOs): It is expected that **Institutes define the PSOs for each specialization / major-minor combination**. PSOs shall also vary based upon the **customized combination** of Generic Core, Generic Elective, Subject Core, Subject Elective, Foundation, Enrichment & Alternative Study Credit Courses that they offer.

3.4 Graduate Attributes (GAs): At the end of the MBA programme the learner shall exhibit:

GA1: Managerial competence

GA2: Proficiency in Communication, Collaboration, Teamwork and Leadership

GA3: Competence in Creativity & Innovation

GA4: Research Aptitude, Scholarship & Enquiry

GA5: Global Orientation

GA6: Proficiency in ICT & Digital Literacy

GA7: Entrepreneurship & Intrapreneurship Orientation

GA8: Cross-functional & Inter-disciplinary Orientation

GA9: Results Orientation

GA10: Professionalism, Ethical, Values Oriented & Socially Responsible behaviour

GA11: Life-Long Learning Orientation

4.0 MBA Programme Course Types & Evaluation Pattern:

Sr.No.	Course Type	Credits	Nature	Formative Assessment (FA) Marks	Summative Evaluation (SE) Marks	Total Marks
BASIC COURSE TYPES						
1	Generic Core (GC)	3	Compulsory	50	50	100
2	Subject Core (SC)	3	Compulsory (Specialization specific)	50	50	100
3	Generic Elective (GE - UL)	2	Elective	0	50	50
4	Generic Elective (GE - IL)	2	Elective	50	0	50
5	Subject Elective (SE - IL)	2	Elective (Specialization specific)	50	0	50
6	Summer Internship Project (SIP)	6	Project (Compulsory)	50	50	100
ADDITIONAL COURSE TYPES						

1	Enrichment Courses (ENR)	1	Elective	25	0	25
2	Foundation Courses (FOU)	1	Elective	25	0	25
3	Alternative Study Credit Courses (ASCC)	2	Elective	50	0	50
4	Open Electives (OE)	3 or 2	Subject Core / Subject Elective	As per Subject Core / Subject Elective Pattern		

4.1 Course Types

- 4.1.1 **Foundation Course:** These courses focus on developing the basic abilities that support the understanding of other courses.
- 4.1.2 **Core courses** are the compulsory courses for all the students. Core courses are of two types: Generic Core & Subject Core.
- 4.1.3 **Generic Core:** This is the course which should compulsorily be studied by a candidate as a core requirement to complete the requirement of a degree in a said discipline of study. Therefore, Generic Core courses are mandatory and fundamental in nature. These courses cannot be substituted by any other courses. Such courses are also known as Hard Core Courses.
- 4.1.4 **Subject Core:** A Core course may be a Subject Core if there is a choice or an option for the candidate to choose from a broad category (grouping) of subjects (specializations / electives). These are also known as Soft Core Courses.
- 4.1.5 **Elective Course:** Elective course is a course which can be chosen from a pool of courses. It may be:
- Very Specialized or advanced course focusing on a specific aspect
 - Supportive to the discipline of study
 - Providing an extended scope
 - Enabling an exposure to some other discipline/domain
 - Nurturing candidate's proficiency/skills.
- 4.1.6 **Generic Elective:** An elective course which is common across disciplines / subjects is called a generic elective. 'Generic Elective' courses develop generic proficiencies amongst the students.
- 4.1.7 **Generic Elective – University Level:** These elective courses are supportive to the discipline of study and focus on the knowledge aspect of competence building. The course outcomes for such courses can be better assessed through traditional End Semester Evaluation (Summative Evaluation).
- 4.1.8 **Generic Elective – Institute Level:** These elective courses are aimed to develop inter-personal, technical and other skills aspect of competence building. The course outcomes for such courses can be better assessed through Comprehensive Concurrent Evaluation.
- 4.1.9 **Subject Elective:** A 'Discipline (specialization) centric' elective is called 'Subject Elective.' Subject Elective courses, in the Semester II, III and IV are focused on a specialization.
- 4.1.10 **Open Elective:** A subject elective course chosen generally from another Discipline / specialization / subject, with an intention to seek cross-functional exposure is called an Open Elective. A Subject Elective offered in one specialization area may be treated as an Open Elective by another specialization area and vice-a-versa.
- 4.1.11 **Enrichment Course:** This is a course generally offered to bright learners / fast learners for advanced inputs beyond the curriculum. Enrichment / Add-on Course shall be a 1 Credit Course. The course is of the nature of Course of Independent Study (CIS) and is designed for learners who have the ability and inclination to work independently with limited guidance, supervision and interaction with the faculty member(s).
- 4.1.12 **Alternative Study Credit Courses:** These courses prepare the learners for a VUCA (Volatile Uncertain, Complex and Ambiguous) world by going beyond the boundaries of their campus. Apart from core and elective courses, these courses engage students in discussion, debate and solution of real world challenges.
- 4.1.13 **Massive Open Online Courses (MOOCs)²:** Massive Open Online Courses (MOOCs) are such online courses which are developed as per the pedagogy stated in the AICTE regulation (2016) or equivalent; following the four quadrant approach and made available on the SWAYAM platform of Government of India.

² AICTE (Credit Framework for online learning course through SWAYAM) Regulations, 2016

4.2 MBA Programme Structure: The Basic Programme Structure shall be as depicted below

	Course#	Semester I		Semester II		Semester III		Semester IV		Credits	FA Marks	SE Marks				
COMPULSORY CORE COURSES (GENERIC (GC) + SUBJECT (SC) + Summer Internship Project SIP)																
A	1	GC - 1	1	GC - 7	1	GC - 11	1	GC - 14		66 Credits						
	2	GC - 2	2	GC - 8	2	GC - 12	2	GC - 15								
	3	GC - 3	3	GC - 9	3	GC -13 (SIP)	3	SC - 5								
	4	GC - 4	4	GC - 10	4	SC - 3	4	SC - 6								
	5	GC - 5	5	SC - 1	5	SC - 4					1050	1050				
	6	GC- 6	6	SC - 2							2100					
GENERIC ELECTIVE COURSES (UNIVERSITY LEVEL) – GE - UL																
B	7	GE UL - 1	7	GE UL - 4	6	GE UL – 7	5	GE UL - 10		22 Credits						
	8	GE UL - 2	8	GE UL - 5	7	GE UL – 8	6	GE UL - 11			0	550				
	9	GE UL - 3	9	GE UL - 6	8	GE UL – 9					550					
GENERIC / SUBJECT ELECTIVE COURSES (INSTITUTE LEVEL) - GE – IL / SE - IL																
C	10	GE IL - 1	10	GE IL - 4	9	SE IL -3	7	SE IL -6		22 Credits						
	11	GE IL - 2	11	SE IL -1	10	SE IL -4	8	SE IL -7			550	0				
	12	GE IL - 3	12	SE IL -2	11	SE IL -5					550					
12										12	11	8	43	110 Credits	1600 FA	1600 SE
FOUNDATION COURSES (OPTIONAL)																
D	FOUNDATION 1 FOUNDATION 2 FOUNDATION 3 FOUNDATION 4 FOUNDATION 5 FOUNDATION 6		FOUNDATION 7 FOUNDATION 8 FOUNDATION 9 FOUNDATION 10							0 to 10 Credits						
ENRICHMENT COURSES (OPTIONAL)																
E	ENRICHMENT 1 ENRICHMENT 2 ENRICHMENT 3 ENRICHMENT 4 ENRICHMENT 5 ENRICHMENT 6		ENRICHMENT 7 ENRICHMENT 8 ENRICHMENT 9 ENRICHMENT 10		ENRICHMENT 11 ENRICHMENT 12		ENRICHMENT 13 ENRICHMENT 14			0 to 14 Credits						
ALTERNATIVE STUDY CREDIT COURSES (OPTIONAL)																
F	ASCC 1		ASCC 4		ASCC 7		ASCC 10			0 to 22 Credits						
	ASCC 2		ASCC 5		ASCC 8		ASCC 11									
	ASCC 3		ASCC 6		ASCC 9											

Note:

- The basic programme structure comprises of Block A, B & C above.
- Variations to the basic programme structure shall be defined at the institute level using any permissible combination of A,B,C,D,E and F blocks depicted above, taking into consideration institutional vision-mission-focus areas, industry demand, student learning capabilities, faculty competencies, availability of learning resources, etc. PSOs shall be appropriately defined by the institute.

LEGEND:

#	Block	FA - SA(Credits per course)	Course Type	Credits	Courses	Nature
1.1	A1	50-50 (3 Credits)	GENERIC CORE (GC)	42	14	COMPULSORY
1.2	A2	50-50 (3 Credits)	SUBJECT CORE (SC)	18	6	COMPULSORY
1.3	A3	50-50 (3 Credits)	PROJECT	6	1	COMPULSORY
2	B	0 - 50 (2 Credits)	GENERIC ELECTIVE (UNIVERSITY LEVEL) GE – UL	22	11	ELECTIVES
3.1	C1	50-0 (2 Credits)	GENERIC ELECTIVE (INSTITUTE LEVEL) GE – IL	8	4	ELECTIVES
3.4	C2	50-0 (2 Credits)	SUBJECT ELECTIVE (INSTITUTE LEVEL) SE - IL	14	7	ELECTIVES
			TOTAL	110	43	
OPTIONAL COURSES (In Lieu of C1 / C2 ONLY)						
4.1	D	25 - 0 (1 Credit)	FOUNDATION COURSES	0 -10	0 - 10	ELECTIVES
4.2	E	25 - 0 (1 Credit)	ENRICHMENT COURSES	0- 14	0 - 14	ELECTIVES
4.3	F	50 - 0 (2 Credits)	ALTERNATIVE STUDY CREDIT COURSES	0 -22	0 -11	ELECTIVES

5.0 Specializations offered: The following specializations shall be offered as MAJOR / MINOR:

1. Marketing Management (MKT)
2. Financial Management (FIN)
3. Human Resources Management (HRM)
4. Operations & Supply Chain Management (OSCM)
5. Business Analytics (BA)

The following specializations shall be offered ONLY as MINOR Specializations:

1. Rural & Agribusiness Management (RABM)
2. Pharma & Healthcare Management (PHM)
3. Tourism & Hospitality Management (THM)
4. International Business Management (IB)

Note:

1. Institutes may offer ONLY SELECT specializations based on industry needs, faculty strength & competencies, student demands, employability potential, etc.
2. Institutes MAY NOT offer a specialization if a **minimum of 20% of students** are not registered for that specialization.
3. The Institute MAY NOT offer an elective course if a **minimum of 20% of students** are not registered for that elective course.

5.1 Open Elective(s):

1. Learners who intend to learn specific courses from other specialization(s) can opt for Subject Elective (SE - IL) courses from other specializations in lieu of the Subject Elective (SE - IL) courses from their native specialization.
2. These open electives MAY BE from two different specializations.
3. Open Electives can be opted for only in Sem III and Sem IV.
4. Students can opt for maximum 1 Subject Elective (SE - IL) course in Sem III and Sem IV each. i.e. Students can opt for maximum 2 Open Electives (total 4 credits).

5.2 Major Specialization + Minor Specialization Combination:

1. For a **Major + Minor Specialization combination** the learner shall **complete**
 - a) Major Specialization – Courses: Total 9 (4 Subject Core courses and 5 Subject Elective courses)
 - b) Minor Specialization – Courses: Total 4 (2 Subject Core courses and 2 Subject Elective courses)
2. For a **Major + Minor Specialization combination** the learner shall **earn**
 - a) Major Specialization – Credits: Total 22 (12 Credits from Subject Core + Minimum 10 Credits from Subject Electives)
 - b) Minor Specialization – Credits: Total 10 (6 Credits from Subject Core + Minimum 4 Credits from Subject Electives)
3. The 10 credits of the MINOR specialization shall be from a single specialization, out of which 6 credits shall be mandatorily earned through the Subject Core Courses.
4. The Major + Minor specialization combination is **OPTIONAL**.
5. Students shall be permitted to opt for **ANY Major + ANY Minor** specialization combination, subject to institutional norms and guidelines, issued from time to time.

6. A student opting for Major + Minor specialization combination shall opt for Foundation Courses / Enrichment Courses / Alternative Study Credit Courses **ONLY in lieu of Generic Elective (GE - IL) Courses.**
7. Institutes may stipulate additional criteria of minimum SGPA / CGPA, number of backlogs, expectations about specific graduation discipline for students who wish to take up a specific specialization / specific major minor combination. Such criteria may also involve the potential employability criteria for a particular specialization / Major + Minor specialization combination.

5.3 Options & Guidelines for Choice of Specialization:

1. Students can opt for a single specialization (i.e. Major Only – 5 choices)
2. Students can opt for a two specializations (i.e. Major + Minor Combination – 1(Major) + 8(Minor) choices)
3. Specializations which are offered **ONLY** as MINOR shall be offered in SECOND YEAR ONLY. (4 choices)
8. Courses for the Minor specialization shall be taken up in the second year **ONLY** (in either Sem III or Sem IV or in a combination of Sem III and IV). **Courses Listed in a specific semester shall be available only in that semester. i.e. Courses listed in Semester III cannot be taken up in Semester IV or Semester II and like wise.**
4. The Major specialization of a student shall be determined by the Subject Core (SC) courses and the Subject Elective (SE - IL) courses chosen in Sem II.
5. All courses (Subject Core (SC) courses and the Subject Elective (SE - IL) courses) chosen in Sem II shall belong to the same specialization.
6. The learners shall generally complete 6 Subject Core courses (2 each in semester II, III, IV) and 7 Subject Elective courses (2, 3, 2 each in semester II, III, IV respectively). In this case he /she shall be awarded MBA (Functional Area Specialization) degree, e.g. MBA (Marketing), MBA (Finance), etc.
7. The learners shall complete 4 Subject Core courses and 5 Subject Elective courses of Major specialization and 2 Subject Core courses and 2 Subject Elective courses of Minor specialization. In this case he /she shall be awarded MBA (Functional Area Specialization Major + Functional Area Specialization Minor) degree, e.g. MBA (Marketing + Finance), etc.

5.4 Foundation Courses:

1. All the Foundation Courses shall be of 1 credit each.
2. Maximum credits for Foundation Courses **shall not exceed 10 (Ten) Credits.**
3. Foundation Courses can be opted for **ONLY IN LIEU** of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses.³
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum four credits) **ONLY**.
5. Foundation Courses **CANNOT** be opted for in Sem III and in Sem IV.
6. It is **NOT MANDATORY** for a learner to opt for Foundation Courses. However, Faculty members may advise a student to enroll for Foundation Course(s) after a methodical assessment of the relevant competencies of the student.
7. Foundation Courses shall be offered **ONLY** to those students who lack the basic competencies in the specific course. The institute shall conduct a methodical assessment of the relevant competencies of the student. to identify the learners who need to take up foundation courses. Records of the evaluation shall be preserved.
8. Institutes may stipulate additional criteria for students desirous to take up Foundation Courses.
9. Foundation Courses shall be taught by the course teacher in workshop mode / project mode.
10. The course teacher shall oversee the progress of the learner as well as evaluate the learner for 25 marks / 1 credit.
11. Pre- and post-test: A test or other assessment activity shall be administered to the students both at the beginning of the foundation course and at the end of the foundation course, with the intention of demonstrating improved skills upon completion. The tests shall be essentially **SKILL** based.
12. Best of the two assessments shall be treated as the final evaluation.
13. The list of Foundation Courses is mentioned in Annexure I.

5.5 Enrichment Courses:

1. All the Enrichment Courses shall be of 1 credit each.
2. Maximum credits for Enrichment Courses **shall not exceed 14 (Fourteen) Credits.**
3. Enrichment Courses can be opted for, **ONLY IN LIEU** of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses⁴.
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum four credits) or Semester III (minimum zero Credits – maximum two credits) or Semester IV (minimum zero Credits – maximum two credits).

³ Except for a learner who opts for Major + Minor Specialization combination

⁴ Except for a learner who opts for Major + Minor Specialization combination

5. It is NOT MANDATORY for a learner to opt for Enrichment Courses. However, Faculty members may advise a student to enroll for Enrichment Course(s) after a methodical assessment of the relevant competencies of the student.
6. Institutes may stipulate additional criteria for students desirous to take up Enrichment Courses.
7. Enrichment Courses shall be executed as **Course of Independent Study (CIS)** in guided self study mode.
8. A faculty guide shall be assigned for such courses. The learner shall select the Enrichment Course that he/she desires to opt for and submit an outline of the proposed study relevant to the course. The faculty guide shall approve the proposal after considering the nature of the work, learning effort required, desired outcomes and comprehensive coverage of the topic.
9. Since enrichment course is a guided self study course, 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 25 marks / 1 credit.
10. The learners shall document and submit details such as questionnaires, interview schedules, interview transcripts, observation sheets, photographs, testimonials from the organizations / persons interacted with, permission letters, acceptance letters, field work sampling plans, etc.
11. Enrichment Courses can be carried out in the campus library / in the campus IT lab / in a local community setting / in a start-up / in a government undertaking / in a NGO / in a cooperative / in a corporate entity.
12. The Enrichment Courses are organized in different Proficiency Tracks. Learners shall normally opt for enrichment courses from **NOT MORE THAN 3 Proficiency Tracks**.
13. **Enrichment Courses are of the following types:**
 - a) **Seminar** - Involves Desk Research of distributed learning material and information resources and submission and presentation of an analytical report. Maximum credits for Enrichment Courses of Seminar type shall not exceed 10 (Ten) Credits.
 - b) **Review** – Involves Desk Research of a small set of specific published reports/ databases and submission and presentation of an analytical report. Maximum credits for **Enrichment Courses of Seminar type** shall not exceed 10 (Ten) Credits.
 - c) **Case Study Development and Presentation** – Involves desk research and field work leading to the development, presenting and publishing of a case study. Maximum credits for **Enrichment Courses of Case Study Development and Presentation type** shall not exceed 10 (Ten) Credits.
 - d) **Project** – Involves field work leading to presentation of a comprehensive report based on the experiential learning. Maximum credits for **Enrichment Courses of Project type** shall not exceed 10 (Ten) Credits.
 - e) **Lab / Workshop** - Involves experiential learning through focused skill building activity. Maximum credits for **Enrichment Courses of Lab / Workshop type** shall not exceed 10 (Ten) Credits.
 - f) **Clinic / Fest** – Involves experiential learning through organizing an event / campaign. Maximum credits for **Enrichment Courses of Clinic / Fest type** shall not exceed 4 (Four) Credits.
 - g) **Personal Interest Course** - Involves experiential learning through club activities at the Institute Level. Maximum credits for **Enrichment Courses of Personal Interest Course type** shall not exceed 4 (Four) Credits.
14. A well documented and comprehensive spiral bound report / publication, with appropriate referencing, is essential for all the enrichment courses. Relevant Audio, Video Material, should be included as a part of the report.
15. The Evaluation for the Enrichment Courses shall be as follows –
 - a) Proposal and Scope of Work – 5 Marks
 - b) Report – 10 Marks
 - c) Presentation – 5 Marks
 - d) Viva Voce – 5 Marks
16. The presentation shall be similar to an open defence. The Viva Voce shall be carried out by minimum two faculty members including the guide.
17. The sum total of the number of Foundation Courses and the number of Enrichment Courses opted by a student in a particular semester should generally be an even number.
18. The list of Enrichment Courses is provided in Annexure I.

5.6 Alternative Study Credit Courses:

1. All the ASCC shall be of 2 credits each.
2. Maximum credits for ASCC **shall not exceed 22 (Twenty two) Credits**.
3. Alternative Study Credit Courses (ASCC) can be opted for, ONLY IN LIEU of Generic Elective (GE - IL) and / or Subject Elective (SE - IL) courses⁵.
4. This choice can be exercised in Semester I (minimum zero Credits – maximum six credits) or Semester II (minimum zero Credits – maximum six credits) or Semester III (minimum zero Credits – maximum six credits) or Semester IV (minimum zero Credits – maximum four credits). i.e. a learner may skip Generic Elective (GE - IL) courses all together and earn the required 22 credits entirely through ASCC.

⁵ Except for a learner who opts for Major + Minor Specialization combination

5. It is NOT MANDATORY for a learner to opt for Alternative Study Credit Courses. However, Faculty members may advise a student to enroll for Alternative Study Credit Course(s) after a methodical assessment of the relevant competencies of the student.
6. Institutes may stipulate additional criteria for students desirous to take up Alternative Study Credit Courses.
7. **A MINIMUM of 60% of the total credits earned by a learner through ASCC shall either be from MOOCs or from Professional Certification Programmes.**
8. Thus a learner may skip all Generic Elective (GE - IL) courses and skip all Subject Elective (SE - IL) courses and earn the required 22 credits entirely through ASCC.
9. The same TYPE of ASCC can be opted for multiple number of times. Norms for the same are prescribed in the relevant section later in this syllabus document. For e.g. A student may undertake 11 "Professional Certification Programs" and earn 22 credits or complete 11 MOOCs and earn 22 Credits.
10. ASCC shall be executed in online study mode / field work or project mode / certification mode.
11. A faculty guide shall be assigned for such courses. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
12. The learner shall select the ASCC that he/she desires to opt for and submit an outline of the proposed study relevant to the course. The faculty guide shall approve the proposal after considering the nature of the work, learning effort required, desired outcomes and comprehensive coverage of the topic.
13. There is no defined syllabus for the ASCC courses. Institutes shall define the syllabus and announce the same on the website.
14. Since ASCC is a guided self study course 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
15. The start date of the ASCC such as Professional Certifications shall be after the admission date for the MBA programme and the end date of the ASCC shall be within 6 months of the start date of the ASCC, but before the completion of Sem IV.
16. The list of ASCC is provided in Annexure I.

5.7 Combination of Options: A learner may opt for any combination of earning the 22 credits assigned to Generic Elective (GE - IL) courses and Subject Elective (SE - IL) courses through

- e) Generic Elective (GE - IL) courses
- f) Subject Elective (SE - IL) courses
- g) Open Elective Courses
- h) Major + Minor specialization combination
- i) Foundation Courses
- j) Enrichment Courses
- k) Alternative Study Credit Courses

SUBJECT TO THE minimum and maximum limits of credits prescribed and, subject to institutional norms and guidelines, issued from time to time.

6.0 Summer Internship Project: At the end of Second Semester each student shall undertake a Summer Internship Project (SIP) for a **minimum of 8 weeks**. For SIP, 1 credit is equivalent to minimum 40-45 hours of effective work. SIP shall have 6 credits. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP.

The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. **Ideally the SIP should exhibit a cross-functional orientation.**

SIP can be carried out in a

1. Corporate Entity
2. NGO
3. SME
4. Government Undertaking
5. Cooperative Sector.

SIP may be

1. a research project – based on primary / secondary data
2. may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry.

It is expected that the SIP shall sensitize the students to the demands of the workplace and apply conceptual knowledge in practice..

Each student shall maintain a SIP Progress Diary detailing the work carried out and the progress achieved on a daily basis. The student shall submit a written structured SIP report based on work done during this period. The student shall submit the SIP Progress Diary along with the SIP Report.

Students shall also seek a formal evaluation of their SIP from the company guide. The formal evaluation by the company guide shall comment on the nature and quantum of work undertaken by the student, the effectiveness and overall professionalism. The learning outcomes of the SIP and utility of the SIP to the host organization must be specifically highlighted in the formal evaluation by the company guide. The SIP evaluation sheet duly signed and stamped by the industry guide shall be included in the final SIP report.

The SIP report must reflect 8 weeks of work and justify the same. The SIP report should be well documented and supported by –

1. Institute's Certificate
2. Certificate by the Company
3. Formal feedback from the company guide
4. Executive Summary
5. Organization profile
6. Outline of the problem/task undertaken
7. Research methodology & data analysis (in case of research projects only)
8. Relevant activity charts, tables, graphs, diagrams, AV material, etc.
9. Learning of the student through the project
10. Contribution to the host organization
11. References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)

The completion of the SIP shall be certified by the respective Faculty Guide & approved by the Director of the Institute. The external organization (Corporate / NGO/ SME/ Government Entity/ Cooperative/ etc.) shall also certify the SIP work.

The students shall submit a spiral bound copy of the SIP report by 15th September. The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks between 15th September to 30th September. The Panel shall comprise of two evaluators appointed by the Director of the Institute / Head of Department (for MBA departments in engineering colleges). Institutes are encouraged to involve senior alumni, industry experts, recruiters to conduct the internal viva-voce. The internal viva-voce panel shall provide a detailed assessment of the SIP report and suggest changes required, if any.

After the internal viva-voce, the student shall finalize the SIP report by incorporating all the suggestions and recommendations of the internal viva-voce panel. The internal guide shall then issue the Institute's Certificate to the student.

The student shall submit TWO hard copies & one soft copy (CD) of the project report before 30th October in Sem III. One hard copy of the SIP report is to be returned to the student by the Institute after the External Viva-Voce. In the interest of environmental considerations, students are encouraged to print their project reports on both faces of the paper. Spiral bound copies may be accepted.

There shall be an external viva-voce for the SIP for 50 marks. The external viva-voce shall be conducted after the theory exam of Semester III.

The Internal & the External viva-voce shall evaluate the SIP based on:

1. **Clear and concise objectives**
2. **Clear methodology, articulated using technical terms indicating all steps and tools**
3. **Citation of substantial current and good quality literature**
4. **Application of concepts learned in Sem I and II**
5. **Understanding of the organization and business environment**
6. **Benchmarks used / Assumptions made**
7. **Technical Writing & Documentation Skills**
8. **Interpretation of results and justification thereof and validity of the results presented**
9. **Utility of the project to the organization**
10. **Comprehensiveness and stakeholder relevance of the learning experience**

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

7.0 Formative Assessment (FA) / Concurrent Assessment (CA):

1. The course teacher shall prepare the scheme of Formative Assessment before commencement of the term. The scheme of Formative Assessment shall explicitly state the linkages of each Formative Assessment Item with the Course Outcomes and define the targeted attainment levels for each CO.
2. The Director / Head of the Department / designated academic authority shall approve the scheme of Formative Assessment with or without modifications.
3. The course teacher shall display, on the notice board, the approved Formative Assessment scheme of the course and the same shall also be hosted on the website, not later than the first week of the term.
4. Each Formative Assessment item shall be of minimum 25 marks.
5. For a 3 Credit Course there shall be a MINIMUM of three Formative Assessment items. The final scores shall be converted to 50, using an average or best two out of three formula.
6. For 2 Credit Course there shall be a MINIMUM of two Formative Assessment items. The final scores shall be converted to 50.
7. For a 1 Credit Course there shall be a MINIMUM of one Formative Assessment item.
8. Formative Assessment shall be spread through the duration of course and shall be conceptualized, executed, assessed and documented by the course teacher along with student-wise and class-wise attainment levels of the COs and the attainment levels of the course.
9. The assessment outcome of each Formative Assessment shall be duly signed by the course teacher, programme coordinator / academic head and the Director / Head of the Department / designated academic authority of the Institute.
10. A copy of the duly signed Formative Assessment *outcome* shall be displayed on the notice boards, within a week of the assessment and course teachers shall guide the students on a need basis.
11. Institute may conduct additional make up / remedial Formative Assessment items at its discretion.
12. At the end of the term aggregate Formative Assessment scores / grades shall be calculated and the CO attainment levels shall be calculated by the course teacher. The same shall be displayed on the notice board

7.1 Formative Assessment Methods: Student assessment should be as comprehensive as possible and provide meaningful and constructive feedback to faculty and student about the teaching-learning process. Over-use of question-answers may be discouraged for formative assessments. Course teachers shall opt for a combination of one of more FORMATIVE ASSESSMENT methods listed below.

Group A (Individual Assessment) – Not more than 1 per course

1. MCQs with multiple correct answers
2. Class Test
3. Open Book Test
4. Written Home Assignment
5. In-depth Viva-Voce

Group B (Individual Assessment) – Atleast 1 per course

6. Case Study
7. Caselet
8. Situation Analysis
9. Presentations

Group C (Group Assessment) – Not more than 1 per course

10. Field Visit / Study tour and report of the same
11. Small Group Project & Internal Viva-Voce
12. Model Development
13. Role Play
14. Story Telling
15. Fish Bowls

Group D (Creative - Individual Assessment) – Not more than 1 per course

16. Learning Diary
17. Scrap Book / Story of the week / Story of the month
18. Creating a Quiz
19. Designing comic strips / Cartoon strips
20. Drama scripts
21. Creating Brochures / Bumper Stickers / Fliers
22. Creating Crossword Puzzles
23. Creating and Presenting Posters
24. Writing an Advice Column
25. Library Magazines based assessment
26. Peer assessment

27. Autobiography/Biography
28. Writing a Memo
29. Work Portfolio

Group E (Use of Literature / Research Publications- Individual Assessment) – Not more than 1 per course

30. Book Review
31. Drafting a Policy Brief
32. Drafting an Executive Summary
33. Literature Review
34. Term Paper
35. Thematic Presentation
36. Publishing a Research Paper
37. Annotated Bibliography
38. Creating Taxonomy
39. Creating Concept maps

Group F (Use of Technology - Individual Assessment) – Not more than 1 per course

40. E-portfolios
41. Digital stories
42. eNewsletter, eMagazine
43. Recorded interviews of stakeholders posted on You Tube
44. Simulation Exercises
45. Gamification Exercises
46. Presentation based on Google Alerts
47. Webinar based assessment
48. Creating Webpage / Website / Blog
49. Creating infographics / infomercial
50. Creating podcasts / Newscast
51. Discussion Boards

Rubrics: The course teacher shall design Rubrics for each Formative Assessment. Rubrics are scoring tools that define performance expectations for learners. The course teacher shall seek approval for the rubrics from the Director / Head of the Department / other designated competent academic authority of the institute. The course teacher shall share the approved Rubrics with the students at the start of the course. The rubric shall detail the following:

1. Linkages of the Formative Assessment to COs.
2. A description of the assessment - brief concept note
3. Criteria that will be assessed - the expected learning outcomes.
4. Descriptions of what is expected for each assessment component - the expectations from the student.
5. Substantive description of the expected performance levels indicating mastering of various components - the assessment criteria.
6. The team composition, if applicable.
7. The format and mode of submission, submission timelines
8. Any other relevant details.

7.3 Safeguards for Credibility of Formative Assessment: The following practices are encouraged to enhance transparency and authenticity of concurrent evaluation:

1. Involving faculty members from other management institutes.
2. Setting multiple question paper sets and choosing the final question paper in a random manner.
3. One of the internal faculty members (other than the course teacher) acting as jury during activity based evaluations.
4. Involvement of Industry personnel in evaluating projects / field based assignments.
5. Involvement of alumni in evaluating presentations, role plays, etc.
6. 100% moderation of answer sheets, in exceptional cases.

7.4 Retention of Formative Assessment Documents: Records of FORMATIVE ASSESSMENT shall be retained for 3 years from the completion of the Academic Year. i.e. **Current Academic Year (CAY) + 3 years**. Likewise records of assessments to decide the learning needs of students for opting for **Foundation Courses / capabilities for Enrichment Courses/ ASCC/ start-up option** etc. shall be retained for 3 years from the completion of the Academic Year.

8.0 Summative Evaluation (End Semester Evaluation):

1. The Summative Evaluation for the Generic Core (GC), Subject Core (SC) and the Generic Elective (GE - UL) course shall be conducted by the Savitribai Phule Pune University.
2. The SE shall have 5 questions each of 10 marks.
3. All questions shall be compulsory with internal choice within the questions.
4. The broad structure of the SE question paper shall be as follows:

Question Number	COGNITIVE ABILITIES EVALUATED	Nature
Q.1	REMEMBERING	Answer any 5 out of 8 (2 marks each)
Q.2	UNDERSTANDING	Answer any 2 out of 3 (5 marks each)
Q.3	APPLYING	Answer 3 (a) or 3 (b) (10 marks)
Q.4	ANALYSING	Answer 4 (a) or 4 (b) (10 marks)
Q.5	EVALUATING	Answer 5 (a) or 5 (b) (10 marks)
	CREATING	

Either Question 4 or Question 5 shall involve a case study in the Summative Evaluation. i.e. Both 4 (a) or 4 (b) shall be a Case Study based question OR Both Question 5 (a) or 5 (b) shall be a case study based question.

9.0 Programme Flexibility:

9.1 Average Credits per semester, Fast & Slow Learners:

1. It is expected that a student registers for 30 credits in Semester I, II, III each and balance 20 credits in Semester IV.
2. **Fast learners** (under accelerated plan), may be permitted to register for upto 6 additional credits per semester, subject to fulfilling the pre-requisites defined for a course, if any. However the degree shall be awarded not earlier than the end of the 2 academic years since the first admission to the MBA programme.
3. **Slow learners**, may be permitted to register for less than the normal credits defined for a semester but shall have to complete the programme within the stipulated maximum duration of 4 academic years since the first admission to the MBA programme.

9.2 Dropping an Elective Course:

1. Students who opt for an elective course and fail to earn the credits for the elective course (generic / subject / open) are permitted to opt for another elective course (generic / subject / open) in case they feel to do so.
2. In such a case they shall be said to have dropped the original course and opted for a new one.
3. Generic Core (GC), Subject Core (SC) CANNOT be dropped.
4. Generic Elective (GE - UL), Generic Elective (GE - IL) & Subject Elective (SE - IL) can be dropped and replaced with equivalent alternative courses
5. Not more than four courses can be dropped and replaced with equivalent alternative courses during the entire MBA programme.

9.3 Horizontal or Lateral Credit Transfer:

1. When a learner successfully completes the courses included in an academic program at a certain level, he/she is allowed to transfer his/her credits in some of these courses to another same-level academic program having these courses in common. This is referred to as 'Horizontal or Lateral Credit Transfer'.
2. Horizontal or Lateral Credit Transfer shall be permitted **between the MBA and the MCA programme of SPPU** for the equivalent number of credits provided the courses are related to the MBA programme's PEOs and POs and are opted by the students during the period of his enrolment for the MBA programme.
3. The list of such courses eligible for Horizontal or Lateral Credit Transfer **between the MBA and the MCA programme of SPPU** shall be announced by the BOS/Faculty.
4. The upper limit for Horizontal or Lateral Credit Transfer shall be 6 credits.
5. Such transfer shall be permitted for Generic Elective (GE - IL) & Subject Elective (SE - IL) only.

9.4 Block Credit Transfer:

1. Block credit transfer refers to a group of courses, such as a completed certificate or diploma program that are accepted for transfer of credit into a degree program.
2. Block credit transfer shall be permitted for all **national and international professional certifications** achieved by the learner provided the **courses learning outcomes (CLOs)** are related to the **MBA programme's PEOs and POs** and are opted by the students **during the period of his enrolment for the MBA programme**. The institute shall verify the linkages between the CLOs and the MBA PEOs and POs.
3. Such transfer shall be permitted for Generic Elective (GE - IL) & Subject Elective (SE - IL) courses ONLY.

9.5 Credit Transfer for MOOCs:

1. Learners are encouraged to opt for MOOCs (Massive Online Open Courses) through **SWAYAM, NPTEL, EdX, Coursera, Udemy** as a part of ASCC.
2. Priority shall be given to the SWAYAM platform. If a course is not available of SWAYAM, other online platforms may be used.
3. Not more than 20% of the total credits (22 Credits) shall be earned through the MOOCs.
4. Not more than 20% of the credits per semester (6 credits) per semester shall be earned through the MOOCs.
5. Since MOOC is a guided self study course 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
6. Students shall apply to the Director / Head of the Department / other designated competent academic authority of the institute in advance and seek permission for seeking credit transfer for the proposed MOOCs, he/she wishes to pursue.
7. Online courses of SWAYAM or equivalent platform shall be allowed if:
 - a) There is non-availability of suitable teaching staff for running a course in the Institution or
 - b) The facilities for offering the elective papers (courses), sought for by the students are not on offer in the Institution, but are available on the SWAYAM or equivalent platform.
8. Evaluation of MOOCs through SWAYAM:
 - 8.1 In case of SWAYAM, the students shall be evaluated as a part of the MOOC itself by the host institution (i.e. institution who has launched the MOOC through SWAYAM).
 - 8.2 The evaluation should be based on predefined norms and parameter and shall be based on a concurrent comprehensive evaluation throughout the length and breadth of course based on specified instruments like discussions, forms, quizzes, assignments, sessional examinations and final examination.
 - 8.3 After conduct of the examination and completion of the evaluation, the host institution shall award marks/grade as per the evaluation scheme announced and communicate the marks/grade to the students as well the parent institution of the student, within 4 weeks from the date of completion of the final examination.
 - 8.4 The parent institution shall, incorporate the marks/grade obtained by the student, as communicated by the Host Institution of the SWAYAM course in the marks sheet of the student that counts for final award of the degree/diploma by the University with the proviso that the programs in which Lab/Practical Component is involved, the parent institution will evaluate the students for the practical/Lab component and accordingly incorporate these marks/grade in the overall marks/grade.
 - 8.5 A certificate regarding successful completion of the MOOCs course shall be signed by the PI and issued through the Host Institution and sent to the Parent Institution.
9. Evaluation of MOOCs through EdX, Coursera, Udemy:
 - 9.1 The concurrent comprehensive evaluation conducted by EdX, Coursera, Udemy may be adopted by the institute and the institute may accordingly incorporate these marks/grade in the overall marks/grade for the course.
 - 9.2 Alternatively, the institute may carry out a concurrent comprehensive evaluation of such students who undertake MOOCs through the EdX, Coursera, Udemy platform.

9.6 Professional Certification Programmes:

1. Learners may opt for Professional Certification Programmes as a part of ASCC. These Professional Certification Programmes shall be offered by National, International organizations, Apex bodies, Chambers of Commerce, Professional certifying bodies, E-learning companies of repute.
2. Not more than 20% of the total credits (22 Credits) shall be earned through the Professional Certification Programmes.
3. Not more than 20% of the credits per semester (6 credits) per semester shall be earned through the Professional Certification Programmes.
4. Students shall apply to the Director / Head of the Department / other designated competent academic authority of the institute in advance and seek permission for seeking credit transfer for the proposed Professional Certification Programmes, he/she wishes to pursue.
5. For Professional Certification Programmes, 40 - 45 hours of work shall be equivalent to one credit. The faculty shall oversee the progress of the learner as well as evaluate the learner for 50 marks / 2 credits.
6. A valid certificate regarding successful completion of the Professional Certification Programmes shall be submitted by the learner to the institute for claiming the 2 credits.
7. Indicative list is provided below -
 - i. Business English Certificate (Cambridge) / IELTS / TOEFL Certification
 - ii. Foreign Language Certification Equivalent to A1/A2 or above
 - iii. Google / MicroSoft / Oracle / Sun Certification
 - iv. NSE / BSE / NISM Certification

- v. SAP Financial Accounting (FI) / Controlling (CO) / Sales and Distribution (SD) / Production Planning (PP) / Materials Management (MM) / Quality Management (QM) / Human Capital Management (HCM) / CRM Certification
- vi. Six Sigma Certification
- vii. ISO Certification (as an auditor)
- viii. Tally ERP Certification
- ix. NLP Certification

9.7 Start-up: Launching and Sustaining' program⁶: AICTE has launched the 'Start-up: Launching and Sustaining' program to promote entrepreneurship.

Learners opting for the 'Start-up: Launching and Sustaining' program shall earn the credits for the Generic Core (GC), Subject Core (SC) & Generic Elective (GE - UL); with the minimum desired CGPA.

However, these learners shall skip the Generic Elective (GE - IL) & Subject Elective (SE - IL) courses and instead opt for the Milestone based concurrent comprehensive evaluation for 'Start-up: Launching and Sustaining' Programme as per the AICTE Policy laid down in this regard.

Such students shall have to fulfill two out of the five measurable outcomes as below:

- a) **Funding:** Student Start-up should acquire at least 1-5 Lakhs INR of start-up funding as capital/convertible equity or other similar equity instruments used in start-up investments.
- b) **Employment Created:** At least 5 additional jobs, (other than student founders) with a minimum of 15,000 CTC/employee/per month, paid for one full year, should be created by the student start-up.
- c) **Revenues Generated:** At least 5 Lakhs INR of Cumulative revenues should be generated by the student start-up as per Audited Profit and Loss Statements.
- d) **Surplus Generated:** At least 5 Lakhs INR of Cumulative surpluses should be generated by the student start-up as per Audited Profit and Loss Statements.
- e) **Patent Application or Granted:** The student start-up should have applied for registration of One Indian or International Patent OR such patent should be granted to the start-up

Other modalities and guidelines as per the AICTE policy shall be adhered to.

Students opting for the 'Start-up: Launching and Sustaining' program have the flexibility to create 'graduation outcomes' within 4 years of registering under the 'Start-up: Launching and Sustaining' program.

It would be mentioned in the Academic Transcript that the student has graduated through the 'Start-up: Launching and Sustaining' Graduation Programme.

Students who join only the 'Start-up: Launching and Sustaining' stream and are either unable to meet the requisite graduation outcomes or unable to continue for any reason can opt to fall back into the academic stream through the regular registration of the University Semesters.

SPPU may suitably verify the details of fulfilment of the two out of the five measurable outcomes listed above.

9.8 Additional Specialization:

- 1. A student who has earned the MBA with a MAJOR Specialization may enroll for additional specialization after passing out the regular MBA programme.
- 2. Additional specialization can be pursued in the MAJOR Specialization ONLY. i.e. Additional specialization cannot be pursued in the Specializations which are listed as MINOR ONLY.
- 3. Such students will be exempted from appearing for all the generic core and generic elective courses.
- 4. Such students shall have to appear for the subject core and subject elective courses of the additional specialization that they have opted for.
- 5. Students opting for MAJOR + MINOR specialization combination are NOT eligible to enroll for additional specialization.

10.0 Passing Standards:

- 1. A student shall be said to have earned the credits for a course if he/she earns minimum 40% marks.
- 2. Formative Assessment and Summative Evaluation shall be separate heads of passing.

10.1 Grading System: The Indirect and Absolute Grading System shall be used, i.e. the assessment of individual Courses in the concerned examinations will be on the basis of marks. However the marks shall later be converted into

⁶ As per AICTE Policy approved by the Executive Committee in its 100th meeting held on June 28, 2016

Grades by a defined mechanism wherein the overall performance of the learners can be reflected after considering the Credit Points for any given course. The overall evaluation shall be designated in terms of Grade. The 10 point standard scale mandated by UGC shall be used.

The performance of a student will be evaluated in terms of two indices, viz.

- (a) Semester Grade Point Average (SGPA) which is the Grade Point Average for a semester
- (b) Cumulative Grade Point Average (CGPA) which is the Grade Point Average for all the completed semesters at any point in time

10.2 Scaling Down of Formative Assessment Scores: The marks obtained by the student for the FORMATIVE ASSESSMENT shall be scaled down, to the required extent, if percentage of the marks of FORMATIVE ASSESSMENT exceeds the percentage of marks scored in the SE (End Semester University Examination) by 25% for the respective course.

10.3 Degree Requirements: The degree requirements for the MBA programme are completion of minimum 110 credits.

10.4 Maximum Attempts per Course:

1. A student shall earn the credits for a given course in maximum FOUR attempts.
2. Dropping a course and opting for another equivalent course can be done ONLY in the case of Generic Elective (GE - UL) , Generic Elective (GE - IL) and Subject Elective (SE - IL).
3. If a student drops a course and opts for another course in lieu of the dropped course the attempts utilized for the dropped course shall be included in the maximum 4 attempts available to earn the credits for a course.
4. The facility of dropping a course and opting for a new course in lieu of the dropped course shall be availed by the student only once per course during these four attempts available to him.
5. A student may drop at the most 4 courses (GE – UL / GE – IL / SE – IL).

10.5 Maximum Duration for completion of the Programme: The candidates shall complete the MBA Programme within 4 years from the date of admission.

10.6 Grade Improvement:

1. A Candidate who has secured any grade other than F (i.e. passed the MBA programme) and desires to avail the Grade Improvement option, may apply under Grade Improvement Scheme within five years from passing that Examination.
2. He/she can avail not more than three attempts, according to the syllabus in existence, for grade improvement.
3. He /she shall appear for University Evaluation of **at least 1/3rd** of the Generic Core / Subject Core Courses (except SIP) for the purpose of Grade Improvement.
4. Generic Elective (GE - UL), Generic Elective (GE - IL) & Subject Elective (SE - IL) cannot be selected for Grade Improvement.

11. Miscellaneous

11.1 Attendance: The student must meet the requirement of **75% attendance per semester per course** for grant of the term. The institute may condone the shortage in attendance in exceptional circumstances, up to a maximum of 10%. The institute shall have the right to withhold the student from appearing for examination of a specific course if the above requirement is not fulfilled.

11.2 Medium of Instruction: The medium of Instruction & Evaluation shall be English.

11.3 LTP indicated in the syllabus is indicative.

11.4 Numbers indicated against each unit indicate L+T. These are indicative in nature. Course teachers may modify based on teaching & assessment, evaluation methods adopted.

11.5 Text Books and Reference Books refer to latest edition.

12. Detailed Course List for each category of courses is provided in Annexure I.

13. Detailed syllabus of each course is provided in Annexure II.

ANNEXURE I

GENERIC CORE (GC) COURSES – 3 Credits Each			
50 Marks FORMATIVE ASSESSMENT, 50 Marks SUMMATIVE EVALUATION			
Course No.	Course Code	Course	Semester
101	GC – 01	Managerial Accounting	I
102	GC – 02	Organizational Behaviour	I
103	GC – 03	Economic Analysis for Business Decisions	I
104	GC – 04	Business Research Methods	I
105	GC – 05	Basics of Marketing	I
106	GC – 06	Digital Business	I
201	GC – 07	Marketing Management	II
202	GC – 08	Financial Management	II
203	GC – 09	Human Resources Management	II
204	GC – 10	Operations & Supply Chain Management	II
301	GC – 11	Strategic Management	III
302	GC – 12	Decision Science	III
303	GC – 13	Summer Internship Project*	III
401	GC – 14	Enterprise Performance Management	IV
402	GC – 15	Indian Ethos & Business Ethics	IV

*** Six Credits**

GENERIC ELECTIVES UNIVERSITY LEVEL (GE – UL) COURSES – 2 Credits Each			
00 Marks FORMATIVE ASSESSMENT , 50 Marks SUMMATIVE EVALUATION			
Course #	Course Code	Course	Semester
Any 3 courses to be selected from the following list in Semester I			
107	GE - UL - 01	Management Fundamentals	I
108	GE - UL - 02	Indian Economy	I
109	GE - UL - 03	Entrepreneurship Development	I
110	GE - UL - 04	Essentials of Psychology for Managers	I

1. Understanding OB, Uday Pareek
2. Change & Knowledge Management, Janakiram, Ravindra and Shubha Murlidhar
3. Human Resource Management, Nkomo, CENGAGE Learning

Semester I		103 – Economic Analysis for Business Decisions
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO103.1	REMEMBERING	DEFINE the key terms.
CO103.2	UNDERSTANDING	EXPLAIN the key concepts in economics, from a managerial perspective.
CO103.3	APPLYING	IDENTIFY the various issues in an economics context and HIGHLIGHT their significance from the perspective of business decision making.
CO103.4	ANALYSING	EXAMINE the inter-relationships between various facets of micro-economics from the perspective of a consumer, firm, industry, market, competition and business cycles.
CO103.5	EVALUATING	EVALUATE critical thinking based on principles of micro-economics for informed business decision making.
CO103.6	CREATING	ELABORATE how other firms in an industry and consumers will respond to economic decisions made by a business, and how to incorporate these responses into their own decisions.

1. **Managerial Economics:** Concept of Economy, Economics, Microeconomics, Macroeconomics. Nature and Scope of Managerial Economics, Managerial Economics and decision-making. Concept of Firm, Market, Objectives of Firm: Profit Maximization Model, Economist Theory of the Firm. **(6+1)**
2. **Utility & Demand Analysis:** Utility – Meaning, Utility analysis, Measurement of utility, Law of diminishing marginal utility, Indifference curve, Consumer's equilibrium - Budget line and Consumer surplus. Demand - Concept of Demand, Types of Demand, Determinants of Demand, Law of Demand, Elasticity of Demand, Exceptions to Law of Demand. Uses of the concept of elasticity. Forecasting: Introduction, Meaning and Forecasting, Level of Demand Forecasting, Criteria for Good Demand Forecasting, Methods of Demand Forecasting, Survey Methods, Statistical Methods, Qualitative Methods, Demand Forecasting for a New Products. (Demand Forecasting methods - Conceptual treatment only numerals not expected) **(8+1)**
3. **Supply & Market Equilibrium:** Introduction, Meaning of Supply and Law of Supply, Exceptions to the Law of Supply, Changes or Shifts in Supply. Elasticity of supply, Factors Determining Elasticity of Supply, Practical Importance, Market Equilibrium and Changes in Market Equilibrium. Production Analysis: Introduction, Meaning of Production and Production Function, Cost of Production. Cost Analysis: Private costs and Social Costs, Accounting Costs and Economic costs, Short run and Long Run costs, Economies of scale, Cost-Output Relationship - Cost Function, Cost-Output Relationships in the Short Run, and Cost-Output Relationships in the Long Run. **(8+1)**
4. **Revenue Analysis and Pricing Policies:** Introduction, Revenue: Meaning and Types, Relationship between Revenues and Price Elasticity of Demand, Pricing Policies, Objectives of Pricing Policies, Cost plus pricing. Marginal cost pricing. Cyclical pricing. Penetration Pricing. Price Leadership, Price Skimming. Transfer pricing. Price Determination under Perfect Competition- Introduction, Market and Market Structure, Perfect Competition, Price-Output Determination under Perfect Competition, Short-run Industry Equilibrium under Perfect Competition, Short-run Firm Equilibrium under Perfect Competition, Long-run Industry Equilibrium under Perfect Competition, Long-run Firm Equilibrium under Perfect Competition. Pricing Under Imperfect Competition- Introduction, Monopoly, Price Discrimination under Monopoly, Bilateral Monopoly, Monopolistic Competition, Oligopoly, Collusive Oligopoly and Price Leadership, Pricing Power, Duopoly, Industry Analysis, Need for Government Intervention in Markets, Preventions and Control of Monopolies. **(11+1)**
5. **Consumption Function and Investment Function:** Introduction, Consumption Function, Investment Function, Marginal efficiency of capital and business expectations, Multiplier, Accelerator. Business Cycle: Introduction, Meaning and Features, Phases of Business Cycles, Measures to Control Business Cycles, Business Cycles and Business Decisions. **(7+1)**

Suggested Text Books:

1. Managerial Economics, Peterson, Lewis, Sudhir Jain, Pearson, Prentice Hall
2. Managerial Economics, D. Salvatore, McGraw Hill, New Delhi.
3. Managerial Economics, Pearson and Lewis, Prentice Hall, New Delhi
4. Managerial Economics, G.S. Gupta, T M H, New Delhi.

5. Managerial Economics, Mote, Paul and Gupta, T M H, New Delhi.

Suggested Reference Books:

1. Managerial Economics, Homas and Maurice, Tata McGraw Hill
2. Managerial Economics - Analysis, Problems and Cases, P.L. Mehta, Sultan Chand Sons, New Delhi.
3. Managerial Economics, Varshney and Maheshwari, Sultan Chand and Sons, New Delhi.
4. Managerial Economics, D.M.Mithani
5. Managerial Economics, Joel Dean, Prentice Hall, USA.
6. Managerial Economics by H L Ahuja, S Chand & Co. New Delhi.

Semester I		104 - Business Research Methods
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO104.1	REMEMBERING	DEFINE various concepts & terms associated with scientific business research.
CO104.2	UNDERSTANDING	EXPLAIN the terms and concepts used in all aspects of scientific business research.
CO104.3	APPLYING	MAKE USE OF scientific principles of research to SOLVE contemporary business research problems.
CO104.4	ANALYSING	EXAMINE the various facets of a research problem and ILLUSTRATE the relevant aspects of the research process from a data driven decision perspective.
CO104.5	EVALUATING	JUDGE the suitability of alternative research designs, sampling designs, data collection instruments and data analysis options in the context of a given real-life business research problem from a data driven decision perspective.
CO104.6	CREATING	FORMULATE alternative research designs, sampling designs, data collection instruments, testable hypotheses, data analysis strategies and research reports to address real-life business research problems.

1. Foundations of Research: Definition of Research, Need of business research, Characteristics of scientific research method, Typical Research applications in business and management. **Questions in Research:** Formulation of Research Problem – Management Question – Research Question – Investigation Question. **The process of business research:** Literature review - Concepts and theories - Research questions - Sampling - Data collection - Data analysis - Writing up - The iterative nature of business research process, Elements of a Research Proposal. **Practical considerations:** Values – researcher & organization. Ethical principles - Harm to participants, Lack of informed consent, Invasion of privacy, Deception, Reciprocity and trust, Affiliation and conflicts of interest. Legal considerations - Data management, Copyright. **(6+1)**

2. Research Design: Concept, Features of a robust research design. Exploratory, Descriptive, Quasi Experimental, Experimental research designs, Concept of Cause and Effect, Difference between Correlation and causation. Types of Variables – Independent, Dependent, concomitant, mediating, moderating, extraneous variables, Basic knowledge of Treatment & Control group, Case study design. Cross-sectional and Longitudinal designs, Qualitative and Quantitative research approaches, Pros and Cons of various designs, choice of a research design. **Hypothesis:** Definition, research Hypothesis, Statistical hypothesis, Null hypothesis, Alternative Hypothesis, Directional Hypothesis, Non-directional hypothesis. Qualities of a good Hypothesis, Framing Null Hypothesis & Alternative Hypothesis. Concept of Hypothesis Testing - Logic & Importance. **(7+1)**

3. Data & Measurement: Meaning of data, Need for data. **Secondary Data:** Definition, Sources, Characteristics, Advantages and disadvantages over primary data, Quality of secondary data - Sufficiency, adequacy, reliability and consistency. **Primary Data:** Definition, Advantages and disadvantages over secondary data. **Measurement:** Concept of measurement, What is measured? Problems in measurement in management research - Validity and Reliability, Levels of measurement - Nominal, Ordinal, Interval, Ratio. **Attitude Scaling Techniques:** Concept of Scale – Rating Scales viz. Likert Scales, Semantic Differential Scales, Constant Sum Scales, Graphic Rating Scales – Ranking Scales – Paired Comparison & Forced Ranking - Concept and Application. **Questionnaire:** Questionnaire Construction - Personal Interviews, Telephonic survey Interviewing, Online questionnaire tools. **(8+1)**

4. Sampling: Basic Concepts: Defining the Universe, Concepts of Statistical Population, Sample, Characteristics of a good sample. Sampling Frame, determining the sample frame, Sampling errors, Non Sampling errors, Methods to reduce the errors, Sample Size constraints, Non Response. **Probability Sample:** Simple Random Sample, Systematic Sample, Stratified Random Sample, Area Sampling & Cluster Sampling. **Non Probability Sample:** Judgment Sampling, Convenience Sampling, Purposive Sampling, Quota Sampling & Snowballing Sampling methods. **Determining size of**

the sample: Practical considerations in sampling and sample size, (sample size determination formulae and numericals not expected) **(9+1)**

5. Data Analysis & Report Writing: Data Analysis: Cleaning of Data, Editing, Coding, Tabular representation of data, frequency tables, Univariate analysis - Interpretation of Mean, Median Mode; Standard deviation, Coefficient of Variation. **Graphical Representation of Data:** Appropriate Usage of Bar charts, Pie charts, Line charts, Histograms. **Bivariate Analysis:** Cross tabulations, Bivariate Correlation Analysis - meaning & types of correlation, Karl Person's coefficient of correlation and spearman's rank correlation. Chi-square test including testing hypothesis of association, association of attributes. **Linear Regression Analysis:** Meaning of regression, Purpose and use, Linear regression; Interpretation of regression co-efficient, Applications in business scenarios. **Test of Significance:** Small sample tests: t (Mean, proportion) and F tests, Z test. Non-parametric tests: Binomial test of proportion, Randomness test. Analysis of Variance: One way and two-way Classifications. **Research Reports:** Structure of Research report, Report writing and Presentation. **(10+1)**

Note:

1. It is desirable to use MS Excel / SPSS / Systat for delivery of unit 5.
2. For unit 5, Formulae and calculations are not expected. Interpretation of the given data/test outcomes is expected for appropriate managerial decisions / inferences.

Suggested Text Books:

1. Business Research Methods, Donald Cooper & Pamela Schindler, TMGH.
2. Business Research Methods, Alan Bryman & Emma Bell, Oxford University Press
3. Research Methods for Social Work, Allen, Earl R. Babbie, Cengage
4. Research Methods in Business Studies: A Practical Guide, Pervez Ghauri, Dr Kjell Gronhaug, FT Prentice Hall

Suggested Reference Books:

1. Business Research Methods, William G. Zikmund, Barry J. Babin, Jon C. Carr, Mitch Griffin, Cengage Learning
2. Approaches to social research, Royce Singleton, Bruce C. Straits, Margaret Miller Straits, Oxford University Press
3. Research Methods: The Basics, Nicholas S. R. Walliman, Nicholas Walliman, Routledge,
4. Research Methodology In Management, Dr.V.P.Michael

Semester I		105 – Basics of Marketing
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO105.1	REMEMBERING	REPRODUCE the key marketing concepts, components and principles of marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.
CO105.2	UNDERSTANDING	INTERPRET the basic concepts, principles and frameworks of marketing in the context of diverse business situations for explaining the relevant issues with regard to marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.
CO105.3	APPLYING	APPLY the contemporary marketing theories, frameworks and tools to inform problem solving with respect to marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.
CO105.4	ANALYSING	EXAMINE the critical marketing issues for drawing inferences about the underlying causes and relationships concerning marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.
CO105.5	EVALUATING	EVALUATE the alternative courses of actions to make judgments with regard to the solution for problems involving marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.
CO105.6	CREATING	GENERATE alternative approaches to the emerging business challenges in the context of marketing environment, segmenting, targeting, positioning, consumer behaviour, marketing mix, and product life cycle.

1. Introduction to Marketing: Definition & Functions of Marketing- Scope of Marketing, Evolution of Marketing. Core Concepts of Marketing – Need, Want, Demand, Customer Value, Exchange, Customer Satisfaction, Customer Delight, Customer loyalty. Concepts of Marketers and Prospects, Key customer Markets, Marketplaces, Marketspaces, Meta markets. Digital Markets, Brick & Click Model. Impact of Globalization, Technology and Social Responsibility on Marketing. New Consumer Capabilities, New Company Capabilities. Functions of Marketing Manager. Linkage of Marketing Function with All Functions in the Organization. Company Orientation Toward the Marketplace - Production, Product, Selling, Marketing, Holistic Marketing Orientation. Selling versus Marketing. Concept of Marketing Myopia. Marketing Process, Understanding Marketing as Creating, Communicating, and Delivering Value. **(7+2)**

2. Marketing Environment: Concept of Environment, Macro Environment & Micro Environment – Components and Characteristics, Needs & Trends, Major Forces Impacting the Macro Environment & Micro Environment, Need for Analyzing the Marketing Environment. Analyzing the Demographic, Economic, Sociocultural, Natural, Technological, and Political-Legal Environment. **(7+2)**

3. Segmentation, Market Targeting & Positioning: Segmentation: Concept, Need & Benefits. Bases for Segmenting Consumer Markets - Geographic, Demographic, Psychographic, Behavioural. Bases for Segmentation for Business Markets. Levels of Segmentation, Criteria for Effective Segmentation. Market Potential & Market Share. Market Targeting - Concept of Target Markets Market Targeting and Criteria for Selection, Evaluating and Selecting the Market Segments – Full Market Coverage, Multiple Segment Specialization, Single-Segment Concentration, Individual Marketing, Long Tail Marketing. Positioning - Concept of Differentiation & Positioning, Value Proposition & Unique Selling Proposition. **(7+2)**

4. Consumer Behavior: Meaning & Importance of Consumer Behavior, Comparison between Organizational Buying Behavior and Consumer Buying Behavior, Buying Roles, Five-Stage Model of Buying Decision Process – Problem Recognition, Information Search, Evaluation of Alternatives, Purchase Decision, Post Purchase Behavior. Moment of Truth, Zero Moment of Truth, ZMOT. Moderating Effects on Consumer Decision Making. **(7+2)**

5. Marketing Mix: Origin & Concept of Marketing Mix, 7P's - Product, Price, Place, Promotion, People, Process, Physical Evidence. Product Life Cycle: Concept & Characteristics of Product Life Cycle (PLC), Relevance of PLC, Types of PLC and Strategies Across Stages of the PLC. **(7+2)**

Note: Real world examples / cases are expected to be analyzed in the class as well as included in the examination.

Suggested Text Books:

1. Marketing Management, Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, Pearson, 14th Edition
2. Marketing Management, Rajan Saxena, TMGH
3. Marketing, Lamb, Hair, Sharma, McDaniel, Cengage Learning

Suggested Reference Books:

1. Principles of Marketing, Philip Kotler, Gary Armstrong, Prafulla Agnihotri, Ehasan Haque, Pearson, 13th Edition
2. Marketing Management- Text and Cases, Tapan K Panda, Excel Books
3. Marketing Management, Ramaswamy & Namakumari, Macmillan.
4. Marketing Whitebook

Semester I		106 – Digital Business
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO106.1	REMEMBERING	DESCRIBE the conceptual framework of e commerce, mobile commerce and social commerce.
CO106.2	UNDERSTANDING	SUMMARIZE the impact of information, mobile, social, digital, IOT and related technologies on society, markets & commerce.
CO106.3	APPLYING	ILLUSTRATE value creation & competitive advantage in a digital Business environment.
CO106.4	ANALYSING	EXAMINE the changing role of intermediaries, changing nature of supply chain and payment systems in the online and offline world.
CO106.5	EVALUATING	ELABORATE upon the various types of digital business models and OUTLINE their benefits and limitations.
CO106.6	CREATING	DISCUSS the various applications of Digital Business in the present day world.

1. **Electronic Commerce:** The Digital Revolution and Society, The Digital and Social Worlds - The Digital Economy, The Digital Enterprise, Virtual Communities, Online Communities, Defining Electronic Commerce, Emerging

E-Commerce Platforms. E-Business, Electronic Markets and Networks; The Content and Framework of E-Commerce, Classification of E-Commerce by the Nature of the Transactions and the Relationships Among Participants, E-Commerce Business Models, Integrating the Marketplace with the Marketplace, Web 2.0. Drivers, Benefits and Limitations of E-Commerce, Impact of E-Commerce on business, government, customers, citizens and society. **(7+2)**

2. **Mobile Commerce, Social Commerce and IoT:** Mobile Commerce, Attributes Applications and Benefits of M-Commerce, Mobile Marketing - Shopping and Advertising. **Social Commerce:** Social Commerce, Social Business (Enterprise), Social Business Networks and Social Enterprise, Social Media – Platforms and its comparison, marketing/Enterprise 2.0, Improved Business Models. Entrepreneur Networks, Enterprise Social Networks, The Benefits and Limitations of Social Commerce, Benefits to Customers, Retailers, Employees, players in the ecosystem. Social Collaboration (Collaboration 2.0) - Essentials of Social Collaboration, Consumer-to-Consumer Electronic Commerce (C2C), Person-to-Person models. **Internet of Things:** Concept of IoT, Smart Homes and Appliances, Smart Cities, Smart Cars, Wearable Computing and Smart Gadgets. **(7+2)**

3. **Digital Business Ecosystem:** Electronic Commerce Mechanisms, Online Purchasing Process, E-Marketplaces - Types, Components and Participants, Disintermediation and Reintermediation; Customer Shopping Mechanisms - Webstores, Malls, and Portals, Webstores, Electronic Malls, Web (Information) Portals. **Intermediaries:** Roles of Intermediaries in E-Marketplaces, Merchant Solutions: Electronic Catalogs, Search Engines, and Shopping Carts, Electronic Catalogs, E-Commerce Search Activities, Auctions - Traditional Auctions Versus E-Auctions, Dynamic Pricing. **Changing Supply Chains:** Structure of the Supply Chain, EC Order Fulfillment Process, Speeding Up Deliveries, Partnering Efforts and Outsourcing Logistics, Order Fulfillment in Make-to- Order (MTO) and Mass Customization. **Digital Payments:** Smart Cards, Stored-Value Cards, EC Micropayments, Payment Gateways, Mobile Payments, Digital and Virtual Currencies, Security, Ethical, Legal, Privacy, and Technology Issues. **(7+2)**

4. **Digital Business Applications - I: Electronic Retailing:** B2C Electronic Retailing, Characteristics, Advantages, Limitations, E-Tailing Business Models, Classification of Models by Distribution Channel, Referring Directories, Malls with Shared Services. Social Shopping – Concept, Benefits and Drivers, Social Shopping Aids – Recommendations, Reviews, Ratings, and Marketplaces, Real-Time Online Shopping. The Online Versus Off-Line Competition, Click-and-Brick models, Product and Service Customization and Personalization. **Fintech:** E-Banking, Mobile Banking, Pure Virtual Banks, Insurance, and Stock Trading, Other Mobile Finance Applications. **Digital Government:** Government-to-Citizens, Government-to-Business, Government-to-Government, Government-to-Employees Models, Internal Efficiency and Effectiveness, E-Government and Social Networking, M-Government. **E-Learning, E-Training, and E-Books:** Basics of E-Learning, Characteristics, Advantages, Limitations, Distance Learning and Online Universities, Online Corporate Training, Social Networks and E-Learning, E-Learning Management Systems, Electronic Books. **(7+2)**

5. **Digital Business Applications - II: Online Travel and Tourism Services:** Characteristics of Online Travel, Benefits, Limitations, and Competition in Online Travel Services. **E-Employment:** Online Job Market, Social Networks Based Job Markets, Social Recruiting, Virtual Job Fairs and Recruiting Events, Benefits and Limitations of the Electronic Job Market. **E-Health:** Definition, Electronic Medical Record Systems (EMR), Doctors' System, Patients Services, Medical Devices and Patients Surveillance. **Entertainment, Media & Gaming:** Service Industry Consumer Applications. Digital Products, Internet TV and Internet Radio, Social Television (TV) Mobile Entertainment, Mobile Marketing, Mobile Streaming Music and Video Providers, Entertainment in Cars; Gaming - Mobile Games, Social Games and Gamification, Business of Social Games, Educational Social Games; Mobile Gambling, Mobility and Sports; Social Entertainment. **(7+2)**

Note: The focus of the entire course should be on business issues and not merely on technology.

Suggested Text Books:

1. Introduction to E Commerce & Social Commerce, Turban E, Whiteside J, King D, Outland J Springer
2. E-Business and E-Commerce Management- Strategy, Implementation and Practice, Dave Chaffey, Pearson Education.
3. Electronic Commerce – A Managerial Perspective, Efraim Turban, David King, Dennis Viehland, Jae Lee, Pearson Education.

Semester II		201 – Marketing Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO201.1	REMEMBERING	DESCRIBE the key terms associated with the 4 Ps of marketing for a real world marketing offering.
CO201.2	UNDERSTANDING	DEMONSTRATE the relevance of marketing mix concepts and frameworks for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO201.3	APPLYING	APPLY marketing Mix decisions for a real world marketing offering (commodities, goods, services, e-products/ e- Services.)

CO201.4	ANALYSING	EXAMINE marketing issues pertaining to Marketing Mix and Marketing Plan in the context of real world marketing offering (commodities, goods, services, e-products/ e-services)
CO201.5	EVALUATING	EXPLAIN the interrelationships between various elements of Marketing mix in the context of real world marketing offering (commodities, goods, services, e-products/ e-services)
CO201.6	CREATING	DESIGN a marketing plan for a real world marketing offering (commodities, goods, services, e-products/ e-services.)

- Product:** Meaning, The Role of Product as a market offering, Goods & Services Continuum Classification of consumer products- convenience, shopping, shopping, unsought goods. Classification of industrial products- materials and parts, capital items, supplies and services. The Product Hierarchy, Product Systems and Mixes, Product Line Analysis, Product Line Length, the Customer Value Hierarchy. New Product Development - Need, Booz Allen & Hamilton Classification Scheme for New Products, New Product Development Process - Idea Generation to commercialization. Branding: Concept, Definition and Commodity vs. Brand, Product Vs Brand, and Concept of Brand equity. (7 + 2)
- Pricing:** Meaning, The Role of Pricing, Importance and Factors influencing pricing decisions. Setting the Price: Setting pricing objectives, Determining demand, Estimating costs, Analyzing competitors' pricing, Selecting pricing method, selecting final price. Adapting the Price: Geographical pricing, Price discounts & allowances, Promotional pricing, Differentiated pricing, concept of transfer pricing, Dynamic pricing (surge pricing, auction pricing), Pricing in online marketing (free, premium, freemium). Price Change: Initiating & responding to price changes. (7 + 2)
- Place:** Meaning, The Role of Marketing Channels, Channel functions & flows, Channel Levels, Channel Design Decisions - Analyzing customers' desired service output levels, establishing objectives & constraints, Identifying & evaluating major channel alternatives. Channel Options - Introduction to Wholesaling, Retailing, Franchising, Direct marketing, Introduction to Omni channel & hybrid channel options. Market Logistics Decisions - Order processing, Warehousing, Inventory, and Logistics. (7 + 2)
- Promotion:** Meaning, The role of marketing communications in marketing effort. Communication Mix Elements, Introduction to Advertising, Sales Promotion, Personal Selling, Public Relations, Direct Marketing. Concept of Integrated Marketing Communications (IMC), Developing Effective Communication - Communication Process, Steps in Developing effective marketing communication - identifying target audience, determining communication objectives, designing a message, Choosing media, Selecting message source, Collecting feedback. Shaping the overall promotion mix: promotional mix strategy, push-pull strategies. (7 + 2)
- Product Level Planning:** Preparation & evaluation of a product level marketing plan, Nature & contents of Marketing Plans - Executive Summary, Situation Analysis, Marketing Strategy, Financials, Control. Marketing Evaluation & Control - Concept, Process & types of control - Annual Plan Control, Profitability Control, Efficiency Control, Strategic Control, Marketing audit. (7 + 2)

Note: Real world examples / cases are expected to be analyzed in the class as well as included in the examination.

Suggested Text Books:

- Marketing Management, Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, Pearson
- Marketing Management, Rajan Saxena, TMGH
- Marketing, Lamb Hair Sharma, Mc Daniel, Cengage Learning

Suggested Reference Books:

- Principles of Marketing, Philip Kotler, Gary Armstrong, Prafulla Agnihotri, Ehasan Haque, Pearson
- Marketing Management- Text and Cases, Tapan K Panda, Excel Books
- Marketing Management, Ramaswamy & Namakumari, Macmillan.
- Marketing Whitebook

Semester II		202 – Financial Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO202.1	REMEMBERING	DESCRIBE the basic concepts related to Financial Management, Various techniques of Financial Statement Analysis, Working Capital, Capital Structure, Leverages and Capital Budgeting.
CO202.2	UNDERSTANDING	EXPLAIN in detail all theoretical concepts throughout the syllabus

CO202.3	APPLYING	PERFORM all the required calculations through relevant numerical problems.
CO202.4	ANALYSING	ANALYZE the situation and <ul style="list-style-type: none"> comment on financial position of the firm estimate working capital required decide ideal capital structure evaluate various project proposals
CO202.5	EVALUATING	EVALUATE impact of business decisions on Financial Statements, Working Capital, Capital Structure and Capital Budgeting of the firm
CO202.6	CREATING	CREATE Common Size Comparative Statements, Comparative Financial Statements using Ratio Analysis (Year-wise, Industry – wise), Comparative Proposals using Capital Budgeting Techniques

- 1. Business Finance:** Introduction to Business Finance, Meaning and Definition of Financial Management, Objectives of Financial Management- (Profit Maximization and Wealth Maximization), Modern Approach to Financial Management- (Investment Decision, Financing Decision, Dividend Policy Decision), Finance and its relation with other disciplines, Functions of Finance Manager **(3+2)**
- 2. Techniques of Financial Statement Analysis:** Introduction, Objectives of financial statement analysis, various techniques of analysis viz Common Size Statements, Comparative Statements, Trend Analysis, Ratio Analysis, Funds Flow Statement & Cash Flow Statement **(10 + 2)**
- 3. Working Capital Management:** Meaning of Working Capital, its components& types, Operating Cycle, Factors affecting working capital, Estimation of working capital requirement. (Total Cost Method & Cash Cost Method) **(8 + 2)**
- 4. Capital Structure:** Meaning and Factors affecting Capital Structure, Different sources of finance. Concept and measurement of Cost of Capital (measurement of Specific Cost and WACC), Trading on Equity, Concept of Leverages and its types. **(6 + 2)**
- 5. Capital Budgeting:** Meaning, Definition of Capital Budgeting, Time value of money. Tools of evaluation of the project based on traditional techniques and modern techniques - ARR, Payback Period, Discounted Payback Period, NPV, PI & IRR **(6+2)**

Note: Numerical Problems will be asked on following topics only—

- Common Size Statements
- Comparative Statements
- Trend Analysis
- Ratio Analysis (Calculation of ratios plus its interpretation)
- Estimation of working capital requirement (Total Cost Method & Cash Cost Method)
- Operating Cycle
- Measurement of Specific Cost (Cost of Equity, Preference, Retained Earnings and Debt) and WACC
- Capital Structure
- Leverages
- Capital Budgeting (ARR, Payback Period, Discounted Payback Period, NPV, PI & IRR)

Suggested Text Books:

- Financial Management, Shashi K. Gupta and R.K. Sharma (Kalyani Publication)
- Basics of Financial Management, V.K. Saxena and C.D.Vashist (Sultan Chand & Sons)
- Financial Management, A Contemporary Approach, Rajesh Kothari (SAGE)
- Financial Management, Dr. Mahesh Abale & Dr. Shriprakash Soni (Himalaya Publishing House Pvt. Ltd.)
- Working Capital Management, Theory and Practice, Dr. P. Periasamy (Himalaya Publishing House)
- Financial Management, I M Pandey (Vikas Publishing House Pvt. Ltd)
- Fundamentals of Financial Management, A.P.Rao (Everest Publishing House)
- Advanced Financial management, N.M. Vechalekar

Suggested Reference Books:

- Financial Management, Rajiv Srivastava and Anil Misra (OXFORD University Press)
- Financial Management, Ravi Kishore (Taxmann)
- Financial management, V.K. Bhalla (S. Chand)
- Financial Management, Jonathan Berk, Peter DeMarzo and Ashok Thampy (Pearson Publication)

Semester II		203 – Human Resource Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO203.1	REMEMBERING	DESCRIBE the role of Human Resource Function in an Organization.
CO203.2	UNDERSTANDING	DISCUSS the emerging trends and practices in HRM.
CO203.3	APPLYING	ILLUSTRATE the different methods of HR Acquisition and retention.
CO203.4	ANALYSING	IDENTIFY the use of different appraisal and training methods in an organization.
CO203.5	EVALUATING	INTERPRET the sample job descriptions and job specifications for contemporary entry level roles in real world organizations.
CO203.6	CREATING	DESIGN the HR manual and compensation policy of the organization.

- Human Resource Management: Concept and Challenges** - Introduction, Objectives, Scope, Features of HRM, Role of HRM, Importance of HRM, Policies and Practices of HRM, Functions of HRM, Challenges of HRM. Introduction to SHRM: Define SHRM, importance and nature. HRM Models: Harvard Model, SHRM "matching model". **(5+2)**
- HR Acquisition & Retention:** Human Resource Planning: Definition, Objective, Need and Importance, HRP Process, Barriers to HRP. Job Analysis Process – Contents of Job Description & Job Specification, Job description Vs job specification, Job design, Factors affecting Job design, Job enrichment Vs job enlargement. Recruitment Introduction & Sources of Recruitment, Difference between recruitment and selection-Recruitment, Selection Process, Induction and Orientation. Career Planning-Process of career planning and development Succession Planning Process, Transfer and Promotion. Retention of Employees: Importance of retention, strategies of retention. **(8+2)**
- Managing Employee Performance and Training:** Performance Appraisal & Performance Management – Definition, Objective, Importance, Appraisal Process and Appraisal Methods. Why to measure performance and its purpose. Performance Appraisal Vs Performance Management, Potential Management. Training and Development - Definition – Scope – Conceptual framework of Training and development of Employees, Role of Training in Organizations, Objectives, The Training and Development Process, Training Need Assessment, Types of training, Difference between training and development, E-Learning. Benefits of training, Evaluation of Training Effectiveness: Kirkpatrick model. **(8+2)**
- Compensation Management:** Concept, Objectives, Importance of Compensation Management, Process, Current Trends in Compensation. Factors in compensation plan. Wage/ Salary differentials, Components of salary. Incentives and Benefits – Financial & Nonfinancial Incentive, Fringe Benefits. Employees Separation - Retirement, Termination, VRS, Golden Handshake, Suspension, Concepts & Methods, Grievance Procedure in Indian Industry. **(8+2)**
- Emerging Trends in HRM:** HRIS- Need, Advantages & Uses of HRIS. HR Accounting- Concepts, Objective, Advantage, Limitation & Method. HR Audit- Concept, Objective, Scope & Process. HR Shared Services- Concept, Objective, Benefits, Issues creating HR Shared Services. **(6+2)**

Suggested Text Books:

- Human Resource Management, Dr. S.S. Khanka, Sultan Chanda, Delhi
- Human Resource Management, Deepak Bhattacharya, Sage Publishing Ltd.
- Human Resource Management, Arun Monappa, Tata McGraw Hill Publishing Company
- Human Resource Management, Mirza & Zaiyaddin
- Human Resource Management, Dr. P.C. Pardeshi, Niramli Publication
- Human Resource Management, R.S. Dwiwedi, Vikas Publishing House.
- Human Resource Management, C.B. Mamoria, Himalaya Publishing House
- Human Resource Management, Gary Dessler, Dorling Kindersley Pvt Ltd.
- Human Resource Management: Text and Cases, K Aswathappa, Tata McGraw Hill Publishing Company.
- Performance Appraisal and Management, Himalaya Publishing House.

Suggested Reference Books:

- Human Resource Management in Organizations, Izabela Robinson, Jaico Publishing House.
- Armstrong's Essential Human Resource Management Practice - A guide to people management, Michael Armstrong, Koganpage.
- Applied Psychology in Human Resource Management, Cascio & Aguinis, PHI.

Semester II		204 – Operations & Supply Chain Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO204.1	REMEMBERING	DEFINE basic terms and concepts related to Production, Operations, Services, Supply Chain and Quality Management.

CO204.2	UNDERSTANDING	EXPLAIN the process characteristics and their linkages with process-product matrix in a real world context.
CO204.3	APPLYING	DESCRIBE the various dimensions of production planning and control and their inter-linkages with forecasting.
CO204.4	ANALYSING	CALCULATE inventory levels and order quantities and MAKE USE OF various inventory classification methods.
CO204.5	EVALUATING	OUTLINE a typical Supply Chain Model for a product / service and ILLUSTRATE the linkages with Customer Issues, Logistic and Business Issues in a real world context.
CO204.6	CREATING	ELABORATE upon different operational issues in manufacturing and services organisations where the decision-making element is emphasized.

- 1. Introduction to Operations and Supply Chain Management:** Definition, Concept, Significance and Functions of Operations and SCM. Evolution from manufacturing to operations management, Physical distribution to Logistics to SCM, Physical Goods and Services Perspectives. **Quality:** Definitions from various Perspectives, Customers view and Manufacturer's view, Concept of Internal Customer, Overview of TQM and LEAN Management, Impact of Global Competition, Technological Change, Ethical and Environmental Issues on Operations and Supply Chain functions. **(7+2)**
- 2. Operations Processes: Process Characteristics in Operations:** Volume Variety and Flow. Types of Processes and Operations Systems - Continuous Flow system and intermittent flow systems. **Process Product Matrix:** Job Production, Batch Production, Assembly line and Continuous Flow, Process and Product Layout. **Service System Design Matrix:** Design of Service Systems, Service Blueprinting. **(6+2)**
- 3. Production Planning & Control (PPC):** Role and Functions of PPC **Demand Forecasting:** Forecasting as a Planning Tool, Forecasting Time Horizon, Sources of Data for forecasting, Accuracy of Forecast, Capacity Planning. **Production Planning:** Aggregate production Planning, Alternatives for Managing Demand and Supply, Master Production Schedule, Capacity Planning - Overview of MRP, CRP, DRP, MRP II. **Production Control:** Scheduling, Loading, Scheduling of Job Shops and Floor Shops, Gantt Charts. **(8+2)**
- 4. Inventory Planning and Control:** Continuous and intermittent demand system, concept of inventory, need for inventory, types of inventory - seasonal, decoupling, and cyclic, pipeline, safety - Implications for Inventory Control Methods. Inventory Costs - Concept and behavior of ordering cost, carrying cost, and shortage cost. **EOQ** – definition, basic EOQ Model, EOQ with discounts. Inventory control - Classification of material - ABC Analysis -VED, HML, FSN, GOLF, SOS. (Numericals expected on Basic EOQ, EOQ with discounts & ABC), Inventory turns ratios, Fixed Order quantity Model - Periodic Review and Re-order Point. **(8+2)**
- 5. Supply Chain Management:** Supply chain concept, Generalized Supply Chain Management Model - Key Issues in SCM – Collaboration, Enterprise Extension, responsiveness, Cash-to-Cash Conversion. **Customer Service:** Supply Chain Management and customer service linkages, Availability service reliability perfect order, customer satisfaction. Enablers of SCM - Facilities, Inventory, Transportation, Information, sourcing, Pricing. **(6+2)**

Suggested Text Books:

1. Operations Management Theory & Practice, B.Mahadevan, Pearson.
2. Operations Now - Supply Chain Profitability & Performance, Byron J. Finch, McGraw Hill.
3. Production and Operations Management, R B Khanna, PHI, New Delhi..
4. Production & Operations Management, S N Chary, McGraw Hill.
5. Supply Chain Management - Strategy, Planning & Operation, Sunil Chopra, Peter Meindl, D. V. Kalra, Pearson Education.

Suggested Reference Books:

1. Supply Chain Logistics Management, Donald Bowersox, David Closs, M Bixby Cooper, Tata McGraw Hill.
2. Operations Management, William J. Stevenson, TMGH.
3. Operations Management, Lee Krajewski, Larry Ritzman, Manoj Malhotra, Pearson Education.
4. Introduction to Materials Management, J.R. Tony Arnold, Stephen Chapman, Ramakrishnan, Pearson.

Generic Courses (Electives) – University Level – Semester I & II

Semester I		107 – Management Fundamentals
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO107.1	REMEMBERING	ENUMERATE various managerial competencies and approaches to management.
CO107.2	UNDERSTANDING	EXPLAIN the role and need of Planning, Organizing, Decision Making and Controlling.
CO107.3	APPLYING	MAKE USE OF the principles of goal setting and planning for simple as well as complex tasks and small projects.
CO107.4	ANALYSING	COMPARE and CONTRAST various organizational structures of variety of business and not-for-profit entities in a real world context.
CO107.5	EVALUATING	BUILD a list of the decision making criteria used by practicing managers, leaders and entrepreneurs in routine and non-routine decision making situations and EVALUATE and EXPLAIN the same.
CO107.6	CREATING	FORMULATE and DISCUSS a basic controlling model in a real life business, start-up and not-for-profit organizational context.

1. **Basic Concepts:** Manager, Managing, Workplace, Organization, Management Functions, Mintzberg's Managerial Roles, The Universality of Management, Approaches to Management - Early Management, Classical Approach, Behavioral Approach, Quantitative Approach, Contemporary Approaches. Managerial Competencies: Communication, team work, planning and administrative, strategic and global competencies; Managerial Skills; How Is the Manager's Job Changing?, Importance of Customers to the Manager's Job, Importance of Innovation to the Manager's Job, Importance of Sustainability to the Manager's Job. **(5)**

2. **Planning:** Concept, need, nature, Management By Objectives (MBO) - Process of MBO - Benefits of MBO, Planning and Performance, Goals and Plans, Types of Goals, Types of Plans, Setting Goals and Developing Plans, Approaches to Setting Goals, Developing Plans, Approaches to Planning, Planning Effectively in Dynamic Environments. **(6)**

3. **Organizing:** Organization, Organizing, Organizational Structures, Principles of Work Specialization, Departmentalization, Chain of Command, Span of Control, Centralization and Decentralization, Formalization. Mechanistic and Organic Structures, Factors Affecting Structural Choice - Strategy, Size, Technology, Environmental Uncertainty. Traditional Organizational Designs - Simple Structure, Functional Structure, Divisional Structure, Matrix Structure, Team Structures, Project Structure, Adaptive Organizations – Boundary less Organization, Virtual Organizations, Learning Organization, Flexi Work, Tele-working, Global Organizations. **(7)**

4. **Decision Making:** The Decision-Making Process - Identifying a Problem - Identifying Decision Criteria - Allocating Weights to the Criteria - Developing Alternatives - Analyzing Alternatives - Selecting an Alternative - Implementing the Alternative - Evaluating Decision Effectiveness. Making Decisions: Rationality, Bounded Rationality, The Role of Intuition, The Role of Evidence-Based Management. Types of Decisions & Decision-Making Conditions. Decision-Making approaches - Quantitative approach, Environmental Approach, System Approach, Ethical Approach, Intuitive Approach, Case Study Approach Decision-Making Styles - Linear–Nonlinear Thinking Style Profile, Decision-Making Biases and Errors. Effective Decision Making in Today's World - Correctness of decision, Decision environment, Timing of decision, Effective communication of Decision, Participation in decision Making-Implementation of decision. **(7)**

5. **Controlling:** Controlling, Definition, need and Importance, The Control Process, Managerial Decisions in Controlling, Feed-forward / Concurrent / Feedback Controls. Financial Controls, Information Controls, Benchmarking of Best Practices. **(5)**

Suggested Text Books:

1. Fundamentals of Management by Robbins, S.P. and Decenzo, D.A., Pearson Education Asia, New Delhi.
2. Management, Koontz and Wehrich, TMGH
3. Management, Stoner, et. al., Prentice Hall of India, New Delhi.

Suggested Reference Books:

1. Management, Hellregel, Thomson Learning, Bombay
2. Management, Robbins & Coulter, Prentice Hall of India, New Delhi.
3. Management - Text & Cases, Satya Raju, PHI, New Delhi.
4. Management, Richard L. Draft, Thomson South-Western

Semester I		108 – Indian Economy
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO108.1	REMEMBERING	DESCRIBE the present state of Indian Economy and LIST major economic policy issues in the current context.
CO108.2	UNDERSTANDING	EXPLAIN the economic development strategy since Independence and DISCUSS the priorities in the current context.
CO108.3	APPLYING	ILLUSTRATE the economic impact of Monetary policy and Fiscal Policy, Economic Reforms, Demographic Transition in India, Changing profile of GDP, Growth and Inequality and Trade Policy in the Indian context.
CO108.4	ANALYSING	EXAMINE the changing profile of human capital, employment, productivity and ILLUSTRATE the linkages with Soft Infrastructure, growth of Start-ups, GDP composition of India.
CO108.5	EVALUATING	DETERMINE the key priority areas, across various dimensions, for the Indian Economy in the context of current economic environment.
CO108.6	CREATING	BUILD a case for co-existence of MNCs, Indian Public Sector, Indian Private Sector, SMEs, MSMEs and Start Ups in the Indian Economy.

1. Perspective of Indian Economy: Indian Economy as a Developing Economy, Basic Characteristics Overview of Economic Planning, Role of Monetary policy and Fiscal Policy, Budget terminology, Economic Growth, GDP and GDP Trends, Money Supply & Inflation, Inflation trends, RBI – overview of role and functions, Capital Markets – overview of role and functions, Concept of Poverty, Estimates of Poverty, Poverty Line, Economic Reforms and Reduction of Poverty, Concept of Inclusion, Need of inclusive growth, Financial inclusion. Concept of Hard & Soft Infrastructure. Hard Infrastructure - Transport Infrastructure, Energy Infrastructure, Water management infrastructure, Communication Infrastructure, Solid waste management, Earth monitoring and measuring networks. Soft Infrastructure - Governance Infrastructure, Economic infrastructure, Social infrastructure, Critical Infrastructure, Urban infrastructure, Green infrastructure, Education Infrastructure, Health Infrastructure. **(6)**

2. Human Resources and Economic Development : The Theory of Demographic Transition, Size and Growth Rate of Population in India, Quantitative Population Growth Differentials in Different Countries, The Sex Composition of Population, Age Composition of Population, Density of Population, Urbanization and Economic Growth in India, The Quality of Population, Population Projections (2001-2026), Demographic Dividend. **Human Development in India** - The Concept and Measures of Human Development, Human development Index for Various States in India, National Human Development Report, Changing profile of GDP and employment in India, GDP, Employment and Productivity per Worker in India, Relative Shift in the Shares of NSDP and Employment in Agriculture, Industry and Services in Different States. **(6)**

3. Sectoral composition of Indian Economy: Primary, Secondary, Tertiary Sectors, Issues in Agriculture sector in India ,land reforms, Green Revolution and agriculture policies of India , Industrial development , small scale and cottage industries, Industrial Policy, Public sector in India, Services sector in India. Areas of Market Failure and Need for State Intervention, Redefining the Role of the State, Liberalization, Privatization and Globalization (LPG) Model of Development, Planning commission v/s NITI Aayog, Public Versus Private Sector Debate, Unorganised Sector and India's Informal Economy. **(6)**

4. Inequality and Economic Power in India: FDI, Angel Investors and Start-ups, Unicorns, M&A, Investment Models, Role of State, PPP (Public-Private Partnership), Savings and Investment Trends. Growth of Large Industrial Houses Since Independence, Growth of Monopolies and Concentration of Economic Power in India, Competition Policy and Competition Law, Growth and Inequality, India as an Economic Superpower, Growth of the Indian Middle Class, Indian MNCs : Mergers and Acquisitions, Outsourcing, Nationalism and Globalization, Small-scale and Cottage Enterprises, The Role of Small-scale Industries in Indian Economy, Poverty, Vulnerability and Unorganized Sector Employment-The High Degree of Correlation, Estimate of Organized and Unorganized Workers. **(6)**

5. The Foreign Trade of India: Importance of Foreign Trade for a Developing Economy, Overview of Foreign Trade Since Independence, Composition of India's Foreign Trade, Direction of India's Foreign Trade, India's Balance of Payments on Current Account, Balance of Payments Crisis, Balance of Payments Since the New Economic Reforms of 1991, India's Trade Policy, India's Foreign Trade Policy, An Analysis of Trends in Exports and Imports, Special Economic Zones (SEZs)-An Overview. **(6)**

Suggested Text Books:

1. Indian Economy , Dutt R and Sundharam K.P.M, S .Chand, Delhi
2. Indian Economy, Agarwal A. N., Vikas Publishing House, Delhi
3. Indian Economy, Misra S.K. and Puri V.K., Himalaya Publishing House, New Delhi

4. Business Environment , Bedi S K, Excel Books
5. Economic Reforms in India - A Critique, Dutt Ruddar, S. Chand, New Delhi .

Suggested Reference Books:

1. Economic Environment of Business , Adhikary, Sultan Chand and Sons
2. Business, Government and Society, George A and Steiner G A, Macmillan
3. Economic Environment of Business , Ghosh, Vikas
4. Business Environment, Francis Cherunilam, Himalaya Publishing House, Bombay
5. Industrial Economy of India, Kuchhal S.C., Chaitanya Publishing House, Allahabad

Semester I		109 – Entrepreneurship Development
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO109.1	REMEMBERING	DEFINE the key terms, LIST the Attributes and Characteristics of Entrepreneurs features and ENUMERATE the Factors influencing Entrepreneurship Growth.
CO109.2	UNDERSTANDING	DISCUSS various theories of entrepreneurship and the entrepreneurship development ecosystem in Indian context.
CO109.3	APPLYING	APPLY the theories of entrepreneurship and entrepreneurship development framework to analyze and identify entrepreneurial opportunities.
CO109.4	ANALYSING	DISCRIMINATE between potential options available for entrepreneur for embarking on establishing a Start Up
CO109.5	EVALUATING	EVALUATE the start up ecosystem and the entrepreneurial opportunities in light of requirements of a business plan.
CO109.6	CREATING	CREATE a business plan that captures entrepreneurs and variety of entrepreneur motivations, entrepreneur culture and sectoral opportunities and financing options.

1. Entrepreneurship: Concept of Entrepreneur. Intrapreneur, Entrepreneurship and Manager. Difference between Entrepreneur and Intrapreneur, Entrepreneur and Entrepreneurship. Attributes and Characteristics of successful entrepreneurs. Functions of an Entrepreneur, Classification of Entrepreneurs. Role of Entrepreneur in Indian Economy, Developing entrepreneurial culture, Factors influencing Entrepreneurship Growth - Economic, Non-Economic Factors, For profit or Not for profit entrepreneurs, Constraints for the Growth of Entrepreneurial Culture, Entrepreneurship as a career, Entrepreneurship as a style of management, Emerging Models of Corporate Entrepreneurship, India's start up revolution–Trends, Imperatives, benefits; the players involved in the ecosystem, Business Incubators-Rural entrepreneurship, social entrepreneurship, women entrepreneurs, Cases of Tata, Birlas, Kirloskar and new generation entrepreneurs in India. **(6)**

2. Theories of entrepreneurship: Innovation Theory by Schumpeter & Imitating, Theory of High Achievement by McClelland, X-Efficiency Theory by Leibenstein, Theory of Profit by Knight, Theory of Social change by Everett Hagen. **(4)**

3. Entrepreneurship development: Entrepreneurial Competencies, Developing Competencies. Concept of entrepreneurship development, Entrepreneur Training and developing, Role of Entrepreneur Development Programs (EDP), Role of DIC, SISI , EDII , NIESBUD, NEDB, EDP - Objectives – contents – methods - execution. Role of Mentors. Innovation and Entrepreneurship, Design Thinking Process. Role of consultancy organizations in promoting Entrepreneurs, Problems and difficulties of Entrepreneurs - Marketing Finance, Human Resource, Production; Research - external problems, Mobility of Entrepreneurs, Entrepreneurial change, occupational mobility - factors in mobility. **(6)**

4. Role of Central Government and State Government in promoting Entrepreneurship: Introduction to various incentives, subsidies and grants, Export Oriented Units, Fiscal and Tax concessions available, Women Entrepreneurs - Role, Problems and Prospects, Reasons for low women Entrepreneurs, Assistance Programme for Small Scale Units – Institutional Framework – Role of SSI Sector in the Economy – SSI Units – Failure, Causes and Preventive Measures – Turnaround Strategies. Future of Entrepreneurship Development and Government, Start Up India, Make in India. **(5)**

5. Enterprise Promotion: Creating Entrepreneurial Venture, Entrepreneurship Development Cycle, Business Planning Process, The business plan as an entrepreneurial tool, Elements of Business Plan, Objectives, Market Analysis, Development of product / idea - Resources, Capabilities, and strategies, identifying attributes of strategic resources, Opportunity Analysis, innovator or imitator, SWOT analysis, Internal and External Environment Analysis, Industry Analysis, Embryonic Companies and Spin off's, Porter's five forces model, Identifying the right Business

Model Canvas, Seven Domains of John Mullins, Opportunities in Emerging/Transition/Decline industries, Opportunities at the bottom of the pyramid, Opportunities in social sector, Opportunities arising out of digitization, Marketing, Finance, Organization & Management, Ownership - Franchising, networking and alliances, Buying an existing business, Critical risk contingencies of the proposal, Scheduling and milestones. **(9)**

Suggested Text Books:

1. Dynamics of Entrepreneurship Development, Vasant Desai
2. Entrepreneurship: New Venture Creation, David H. Holt
3. Entrepreneurship Development New Venture Creation, Satish Taneja, S.L.Gupta
4. Project management, K. Nagarajan.
5. Entrepreneurship: Strategies and Resources, Marc J. Dollinger

Suggested Reference Books:

1. The Culture of Entrepreneurship, Brigitte Berger
2. Innovation and Entrepreneurship, Peter F. Drucker
3. Entrepreneurship, Robert D. Hisrich, Michael P. Peters, Dean A. Shepherd
4. Entrepreneurship As Strategy, G. Dale Meyer, Kurt A. Heppard
5. New Vistas of Entrepreneurship: Challenges & Opportunities, A. Sahay, M.S.Chhikara
6. Entrepreneurship and Small Business Management, Siropolis
7. The Entrepreneurial Connection, Gurmeet Naroola
8. Thought Leaders, Steven Brandt
9. Corporate Entrepreneurship, Vijay Sathe
10. Corporate Entrepreneurship: Entrepreneurial Development Inside Organizations, Michael H.Morris, Donald F.Kuratko
11. Intrapreneurship: Gifford Pinchot
12. Lead like an Entrepreneur, Neal Thornberry
13. You Too Can Become an Entrepreneur, Nalinaksha Mutsuddi
14. Make The Move: Demystifying Entrepreneurship, Ishan Gupta, Rajat Khare

Semester I		110 – Essentials of Psychology for Managers
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO110.1	REMEMBERING	Describe the concepts of psychology in organization settings to understand individual and group behaviour
CO110.2	UNDERSTANDING	INTERPRET the influence of human psychology on individual and group performance
CO110.3	APPLYING	APPLY principles of learning and conditioning to shape the individual and group behaviour
CO110.4	ANALYSING	ILLUSTRATE the linkages between learning, memory and information processing.
CO110.5	EVALUATING	ASSESS the basic intrapersonal processes that influence social perception in organizational settings.

1. Basic Concepts: Introduction to Psychology, Definitions of Psychology, Goals of Psychology, History of Psychology, Modern Psychology, Psychology: Its Grand Issues and Key Perspectives, Psychology - Trends for the New Millennium. Biological Bases of Behavior: Neurons - Building Blocks of the Nervous System, The Nervous System - its Basic Structure and Functions, The Brain and Consciousness – states of consciousness, dreams, hallucinations, The Brain and Human Behavior, Heredity and Behavior - Genetics and Evolutionary Psychology. **(6)**

2. Sensation and Perception : Sensing and perceiving, Sensory Thresholds, Sensory Adaptation, The Senses - Hearing, Vision, Perceptual Processes, Information Processing – Bottom Up Processing, Top Down processing, Bottom Up and Top Down (together) processing, Culture, Experience & Perception, Perceptual Constancy, Perceptual Expectations, Perceptual illusions, Gestalt Theory, Perceptual Development and Learning. **(6)**

3. Learning and Conditioning: A Definition of Learning, Classical Conditioning, Instrumental Conditioning, Classical and Instrumental Conditioning Compared: Biofeedback and Reinforcement, Verbal Learning, Basic Conditioning and Learning Phenomena, Reinforcement, Schedules of reinforcement, role of reinforcement in developing subordinate Social Behavior, Transfer of Training, Learning by Observing Models, Biological Limits. **(6)**

4. Memory: Learning and Memory as Intertwined Processes, Kinds of Information Stored in Memory, Measures of Retention, The Three Components of Memory – Encoding, Storage, Retrieval, Interference Theory, Decay Theory, Information Processing I: Separate-Store Models, Information Processing II: Levels of Processing, Issues in Memory. **(6)**

5. Cognition: Thinking - Mental Imagery, Problem Solving, Decision Making. Concept Formation, Language development. Relationship between language and thinking. **Emotion:** Definition of Emotion, the Physiology of Emotion, Emotional Expression - Verbal & Non Verbal, Labelling Emotions, Theories of Emotion – Common sense theory of emotion, James Lang theory of emotion, Cannon Bard Theory of Emotion, Cognitive Arousal Theory of Emotion, Wellbeing and Resilience- its importance in preventing the onset of mental health **(6)**

Note: Relevant case studies should be discussed.

Suggested Text Books:

1. Psychology Ciccarelli, S. K & Meyer, G.E Pearson Education Ltd.
2. Introduction to Psychology, Clifford T. Morgan, Richard A King, John R Weisz and John Schopler, Indian Edition

Suggested Reference Books:

1. Essentials of understanding psychology, Feldman.S.R, Tata Mc Graw Hill.
2. Psychology, Baron, R.A and Misra, G. Pearson Education Ltd.

Semester I		111 - Legal Aspects of Business
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO111.1	REMEMBERING	DESCRIBE the key terms involved in each Act.
CO111.2	UNDERSTANDING	SUMMARIZE the key legal provisions of each Act.
CO111.3	APPLYING	ILLUSTRATE the use of the Acts in common business situations.
CO111.4	ANALYSING	OUTLINE the various facets of basic case laws of each Act from a legal and managerial perspective.
CO111.5	EVALUATING	DEVELOP critical thinking by making judgments related to use of various provisions of the Acts in business situations

1. **The Contract Act, 1872:** Essential Elements of Valid Contract, Essential elements of Valid Contracts, Contracts of Indemnity & Guarantee, Contingent Contract, Quasi Contract, Discharge of contract, Breach of contract-Meaning & remedies, Agency - Creation of Agency – Agent and Principal (Relationship/rights). **(5+1)**
2. **Sale of Goods Act, 1930:** Contract of sale of goods, Conditions & warranties, Transfer of property or ownership, Performance of the Contract of Sale, Rights of unpaid seller, Sale by Auction. **(5+1)**
3. **The Negotiable Instrument Act, 1881:** Negotiable Instruments – Meaning, Characteristics, Types. Parties, Holder and holder in due course, Negotiation and Types of Endorsements, Dishonor of Negotiable Instrument – Noting and Protest. **(5+1)**
4. **The Companies (Amendment) Act, 2015:** Company – Definition, Meaning, Features and Types, One Person Company, Incorporation of Company – Memorandum of Association (MOA), Articles of Association (AOA), Share capital & Debentures, Acceptance of deposits, Appointment of director including woman Director. **(5+1)**
5. **The Consumer Protection Act, 2019,** Unfair & Restrictive Trade Practices, Dispute Redressal Forums – District, State & National Forum, Composition, Jurisdiction, Powers, Appellate Authority. **(5+1)**

Suggested Text books:

1. Business Legislations for Management, M.C. Kuchhal
2. Elements of Mercantile Law, N.D.Kapoor
3. Business and Corporate Laws, Dr. P.C. Tulsian

Suggested Reference Books:

1. Legal Aspects of Business, Ravinder Kumar
2. Business Laws, S. D. Geet
3. Business Laws, S.S. Gulshan
4. Legal Aspects of Business, Akhileshwar Pathak

Semester I		112 – Demand Analysis and Forecasting
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO112.1	REMEMBERING	DESCRIBE the key terms associated with demand analysis, demand estimation and demand forecasting.
CO112.2	UNDERSTANDING	SUMMARIZE the use of demand forecasting in various functions of management.
CO112.3	APPLYING	APPLY the forecasting Techniques/Models (both Qualitative and Quantitative)
CO112.4	ANALYSING	DECONSTRUCT a forecast into its various components
CO112.5 CO212.6	EVALUATING CREATING	BUILD a forecast for common products and services using time-series data. Demonstrate conceptual understanding of Demand Planning and management

- 1. Demand Analysis:** An Overview, Significance of Demand Analysis and Forecasting, How Predictable Is the Future? Some Causes of Forecast Error, Myths versus Reality of Forecasting, Data Collection, Storage, and Processing Reality, Art- of-Forecasting, Reality of Judgmental Overrides, Reality of Unconstrained Forecasts, Constrained Forecasts, and Plans, Accuracy of Forecast , Short Run Forecast , Long Term Forecast. Applications of Forecasting – Forecasting economic trends, Sales Forecasts, Staffing forecasts, budgeting, revenue and tax planning, cash flows forecasting, raw material planning, inventory planning, etc.(5+1)
- 2. Estimation of Demand** - Marketing Research Techniques - Consumer Surveys, Consumer Clinics and Focus Groups, Market Experiments in Test Stores. Statistical Estimation, Variable Identification, Time Series and Cross Sectional Data Collection, Specification of the Model, Estimation of the Parameters, interpretation of Regression Statistics.(5+1)
- 3. Forecasting Demand** : Overview of Forecasting Methods, Selecting a Forecasting Technique, Purpose of Forecast, Type of Users, Patterns in the Data Series, Lead Time, Minimum Data Requirement, Desired Accuracy, Cost of forecasting, Qualitative Forecasting Techniques - Survey and Opinion Polling Techniques, Delphi Method, Cross Impact Analysis, Historical Analogy.(5+1)
- 4. Quantitative Forecasting Methods** Using Time Series Data: Time Series Analysis - Trend Analysis, Cyclical Variations, Seasonal Effects, Random Fluctuations, Smoothing Techniques, Moving Averages, Exponential Smoothing, Single Exponential Smoothing, Holt's Two-Parameter Method, Holt's-Winters' Method, Winters' Additive Seasonality Standard Statistical Error Terms, Specific Measures of Forecast Error. (5+1)
- 5. New Product Forecasting:** Differences between Evolutionary and Revolutionary New Products, General Feeling about New Product Forecasting, New Product Forecasting Overview, What Is a Candidate Product? New Product Forecasting Process, Structured Judgment Analysis, Structured Process Steps, Statistical Filter Step. (5+1)

Suggested Text Books:

1. Demand-Driven Forecasting: A Structured Approach to Forecasting, Charles W. Chase
2. Demand Forecasting for Managers, Stephan Kolassa
3. Forecasting: Principles and Practice, George Athanasopoulos and Rob J. Hyndman

Suggested Reference Books:

1. Fundamentals of Demand Planning and Forecasting - Forecasting & Planning , Chaman L. Jain and Jack Malheron

Semester II		207 – Contemporary Frameworks in Management
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO207.1	REMEMBERING	Understanding various traits, theories, models of emotional intelligence and its implications to address key questions within the organizations.
CO207.2	UNDERSTANDING	Describe how companies can become good to great through their leaders and right positioning of people and explain why and how most companies fail to make the transition
CO207.3	APPLYING	Explain the importance of team dynamics & a systems perspective for the leadership role and challenges of managing people in organizations.
CO207.4	ANALYSING	Scrutinize the role of individual, groups, managers and leaders in influencing how people behave and in influencing organizational culture at large.
CO207.5	EVALUATING	Application of different ideas and information effectively to rebuild individual, team, managerial and leadership behavior in order to achieve organizational excellence in a positive and collaborative manner to achieve common culture.
Co207.6	CREATING	Design Individual Assessment with the help of EQ, Habits and Team's susceptibility to five dysfunction.

- 1. Emotional Intelligence :** What is Emotional Intelligence, Benefits of EI, Understand the difference between Trait EI and Ability EI, 5 Dimensions of Trait EI Model - Self Awareness (SA), Managing Emotions (ME), Motivation (M), Empathy (E), Social Skills (SS) - Self awareness (SA) - Self Awareness, Seeing the other side, Giving in without giving up, Life Positions – you and only you can choose your mindset, Managing Emotions (ME) - Self-Regulation, Managing Emotions, The 'EQ brain' and how it works, The science of emotions, Understanding Emotions, Find your self-control, Using Coping Thoughts, Using Relaxation Techniques, Self-Motivation (M) – Optimism, Pessimism, The balance between optimism and pessimism, The power of re-framing, Empathy (E) – Empathy, Barriers to empathy, Developing your empathy, Social Skills (SS) - Social skills, Making an impact, Creating a powerful first impression, Assessing a situation, Being zealous without being offensive, Traits of a person with high social skills. Determine your EQ
- 2. The 7 habits of highly effective people:** Paradigms and principles, Inside-out, The seven habits - an overview - Private victory Habit 1. Be proactive: principles of personal vision, Habit 2. Begin with the end in mind: principles of personal leadership, Habit 3. Put first things first: principles of personal management, Public victory. Paradigms of interdependence. Habit 4. Think win/win: principles of interpersonal leadership, Habit 5: Seek first to understand, then to be understood: principles of empathetic communication, Habit 6. Synergize: principles of creative cooperation, Renewal. Habit 7. Sharpen the sword: principles of balanced self-renewal
- 3. Five dysfunctions of a team:** Absence of trust—unwilling to be vulnerable within the group, Fear of conflict—seeking artificial harmony over constructive passionate debate, Lack of commitment—feigning buy-in for group decisions creates ambiguity throughout the organization, Avoidance of accountability—ducking the responsibility to call peers on counterproductive behavior which sets low standards, Inattention to results—focusing on personal success, status and ego before team success
- 4. The 21 irrefutable laws of leadership:** The law of the lid, The law of influence, The law of process, The law of navigation, The law of addition, The law of solid ground, The law of respect, The law of intuition, The law of magnetism, The law of connection, The law of the inner circle, The law of empowerment, The law of the picture, The law of buy-in, The law of victory, The law of the big mo, The law of priorities, The law of sacrifice, The law of timing, The law of explosive growth, The law of legacy.
- 5. Good to Great:** Level 5 Leadership - Leaders who are humble, but driven to do what's best for the company, First Who, Then What: Get the right people on the bus, then figure out where to go. Find the right people and try them out in different seats on the bus (different positions in the company), Confront the Brutal Facts: The Stockdale paradox, Hedgehog Concept: Three overlapping circles: What lights your fire ("passion")? What could you be best in the world at ("best at")? What makes you money ("driving resource")? Culture of Discipline: Rinsing the cottage cheese, Technology Accelerators: Using technology to accelerate growth, within the three circles of the hedgehog concept, The Flywheel: The additive effect of many small initiatives.

Suggested Reference Books:

1. Emotional Intelligence, Daniel Goleman
2. The 7 Habits of Highly Effective People: Powerful Lessons in Personal Change, Stephen R. Covey
3. The Five Dysfunctions of a Team: A Leadership Fable , Patrick M. Lencioni

4. The 21 Irrefutable Law of Leadership-John C. Maxwell
5. Good to Great, Jim Collins

Semester II		208 - Geopolitics & World Economic Systems
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: At the end of this course, the learner shall be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO208.1	REMEMBERING	ENUMERATE the various elements of global economic system.
CO208.2	UNDERSTANDING	EXPLAIN the role of key trade organizations in the global economic system.
CO208.3	APPLYING	IDENTIFY the crucial elements of international trade laws.
CO208.4	ANALYSING	ANALYSE the forces that work for and against globalization.
CO208.5	EVALUATING	ASSESS the impact of the elements of the Global Economic System on the India Economy.
CO208.6	CREATING	CREATE a Country Profile based on various aspects of Geopolitics and World Economic Systems

1. **Introduction to Global Economic & political Systems:** Meaning of Global Economy and its History Structure and Components of Global Economy, Theory of Hegemonic Stability, Differences among National Economies, Market Oriented Capitalism, Developmental Capitalism, Social Market Capitalism, Comparative Analysis, Effects of Globalization on Indian Economy. **(6)**
2. **The Trading System:** Debate over Free Trade – Functions of GATT and WTO, The Uruguay Round and World Trade Organization, Trade Blocs – EU, OECD, OPEC, SAARC, ASEAN, NAFTA, Threats to Open Trading System, Developments in International Trade Theory, Bi-lateral, Multilateral Trade Agreements, Impact of Trade wars in liberalized economy. **(6)**
3. **International Trade Laws:** International Contracts of Sale of Goods Transactions, International Trade Insurance, Patents, Trademarks, Copyright and Neighboring Rights. Intellectual property Rights, Dispute settlement Procedures under GATT & WTO, Payment systems in International Trade, International Labour Organization and International Labour Laws. **(6)**
4. **International Monetary System:** The International Financial System - Reform of International Monetary Affairs - The Bretton Wood System and the International Monetary Fund, Controversy over Regulation of International Finance, Developing Countries' Concerns, Exchange Rate Policy of Developing Economies. **(6)**
5. **Contemporary issues and Challenges in Global Economic Environment - Indian perspective:** Globalization and its Advocacy, Globalization and its Impact on India, Fair Globalization and the Need for Policy Framework, Globalization in Reverse Gear-The Threatened Re-emergence of Protectionism. Euro zone Crisis and its impact on India, Issues in Brexit, World recession, inflationary trends, impact of fluctuating prices of crude oil, gold etc. **(6)**

Suggested Text Books:

1. Global Political Economy, Robert Gilpin, Princeton University Press
2. International Trade Law An Interdisciplinary, Raj Bhala, Non-Western Textbook
3. International Trade Law, Indira Carr and Peter Stone
4. Development and Sustainability: India in a Global Perspective edited by Sarmila Banerjee, Anjan Chakrabarty

Suggested Reference Books:

1. International Economics, Paul Krugman, Maurice Obstfeld and Marc Melitz, Pearson, Global Edition
2. Globalizing Capital, A history of the International Monetary system, Barry Eichengreen, Princeton University Press.

Semester II		209 - Start Up and New Venture Management
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO209.1	REMEMBERING	DESCRIBE the strategic decisions involved in establishing a startup.
CO209.2	UNDERSTANDING	EXPLAIN the decision making matrix of entrepreneur in establishing a startup.
CO209.3	APPLYING	IDENTIFY the issues in developing a team to establish and grow a startup
CO209.4	ANALYSING	FORMULATE a go to market strategy for a startup.
CO209.5	EVALUATING	DESIGN a workable funding model for a proposed startup.
CO209.6	CREATING	DEVELOP a convincing business plan description to communicate value of the new venture to customers, investors and other stakeholders.

- 1. Being an Entrepreneur:** The entrepreneur, Profile analysis, behaviour and motivations, Lean Start –up, The entrepreneurial ecosystem, Entrepreneurs and strategic decisions , Sustainability of Entrepreneurship: Dilemmas of an entrepreneur for success; Handling doubts on survival of business, Struggles-Causes of failure–Product/ market, financing, managerial-Resilience. Legal Fundamentals - When, how and where to incorporate. **(5)**
- 2. Customer Discovery:** Entrepreneurial Opportunity Search and Identification; Market Intelligence, Market analysis, Market research, Customer validation, developing your business model, Crafting your value proposition, Product Development , Managing the product development process, Long Tail markets, Product launch goals, Go-to-Market Strategy, The role of selling in a startup, Sales forecasting for startups, Mapping buyer response modes. Social media Promotion tools. **(7)**
- 3. The Financial Road Map:** Planning/Budgeting, Developing a financial roadmap, financial statements: the four components, How to budget for startup success, Bootstrapping and alternative sources of funding, Informal capital–Friends & Family, Role of Government in ED, various schemes - PMEGP, CGTMSE, MPDA, SFURTI. Role of MSDE; Schemes by MSDE: PMKVY, SANKALP, STAR. Crowd funding, Venture capital, Private Equity, Financing Mix and the Financing continuum shareholding- Cliff -Vesting schedule-Relative importance of Operational Involvement, The Pitch, Preparing for your investor presentation, Elements of the perfect investment pitch. **(6)**
- 4. 7. A Guide to Entrepreneurship by David, Otes , Jaico Books Publishing House, Delhi.
8. Indian Entrepreneurial Culture by A Gupta , New Age International.
9. Make The Move: Demystifying Entrepreneurship by Ishan Gupta, Rajat Khare

Semester II		210 – Qualitative Research Methods
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOME
CO210.1	REMEMBERING	DESCRIBE the stages of scientific researches and qualitative research methods.
CO210.2	UNDERSTANDING	COMPARE characteristics of qualitative research and quantitative research.
CO210.3	APPLYING	CONSTRUCT appropriate research and sampling designs for Qualitative research work in real world business and non-business contexts
CO210.4	ANALYSING	ANALYZE the use of appropriate Qualitative research methods in real world Business and non-business contexts.
CO210.5	EVALUATING	ASSESS the Qualitative Research work with the help of different quality criteria
CO210.6	CREATING	COMBINE Qualitative and Quantitative research approaches in a real world Research project.

1. **Qualitative Research:** Nature, Relevance, Need, Characteristics and Limitations of Qualitative Research, Ethics in Qualitative Research, Interrelationship of Qualitative and Quantitative Research, Linking Qualitative and Quantitative Research in One Design, Combining Qualitative and Quantitative Data, Combining Qualitative and Quantitative Methods, Linking Qualitative and Quantitative Results, Triangulation. Role of Qualitative Research in Various Business Functions. (5)
2. **Qualitative Research Design:** Basic Qualitative Research Designs, Case Studies, Comparative Studies, Retrospective Studies, Longitudinal Qualitative Studies, Appropriateness of the Approach to the Issue, Fitting the Approach into the Research Process. Qualitative Research Sampling - Theoretical Sampling, Gradual Selection as a General Principle in Qualitative Research, Purposive Sampling, Width or Depth as Aims of Sampling, Case Constitution in the Sample, Sample Size decisions in Qualitative Research, Principle of Saturation. (5)
3. **Qualitative Research Methods:** Focused Interview, Semi-Standardized Interview, Problem-Centered Interview, Expert Interview, Group Interviews, Focus Groups, Non-participant Observation, Participant Observation, Ethnography. Grounded Theory Methodology. (5)
4. **Projective Techniques:** Principle of projection, applications, association, construction, expression based techniques, design and interpretation, Zaltman's Metaphor Elicitation Techniques. (5)
5. **Quality Criteria in Qualitative Research:** Reliability, Validity, Objectivity, Alternative Criteria, Criteria for Evaluating the Building of Theories, Quality Assessment as a Challenge for Qualitative Research, Triangulation, Analytic Induction, Generalization in Qualitative Research, The Constant Comparative Method, Process Evaluation and Quality Management. (5)

Suggested Text Books:

1. An Introduction to Qualitative Research, Uwe Flick, 4th Edition, SAGE
2. Research Methods in the Social Sciences, Bridget Somekh & Cathy Lewin, 5th Edition, SAGE India
3. Qualitative Research Methods For The Social Sciences 9th Edition by HOWARD LUNE and BRUCE L BERG , PEARSON INDIA

Suggested Reference Books:

1. Qualitative Research Methods in Public Relations and Marketing Communications, Christine Baymon & Immy Holloway, Routledge
2. Qualitative Journeys, Minichiello & Kottler, SAGE

Semester II		211 – Business, Government & Society
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOME
CO211.1	REMEMBERING	DESCRIBE the economic roles of government in the Indian context.
CO211.2	UNDERSTANDING	EXPLAIN the macroeconomic crises around the world.
CO211.3	APPLYING	ILLUSTRATE the interlinkages between economic growth , poverty and inequality.
CO211.4	ANALYSING	EXAMINE the rationale, success and failures of Public Private Partnerships in the Indian context.
CO211.5	EVALUATING	ASSESS the forces for and against Globalization and the socio-economic impact of Globalization.
CO211.6	CREATING	DISCUSS the interplay between technology, business and society.

1. Roles of Business, Government, and Society: Interdependence and Conflict, Regulation of Business, Functions of State; Economic roles of government; Government and legal environment; Economic roles of Government in India; Indian experience with overall and sectoral growth, Inter-sectoral linkages and role of foreign direct investment, The Constitutional environment , Macroeconomic crises since 1990s- Indian and global experiences.

2. Poverty, Inequality and Economic Growth: Industrial Development, Rural-Urban Dynamics, Population and Development, Finance for Development, Trade and Development, State and the Market, Privatization and Regulation, Institutions and Growth.

3. Public Private Partnerships: The Rationale for Public Private Partnerships, Different Kinds of Public Private Partnerships with a special emphasis on the Build Operate and Transfer Model (BOT), Issues in Regulation that come about with privatization, Pricing mechanisms available to a regulator to ensure universal access and efficiency, Discussion of the privatization experience in different sectors, water, electricity, telecommunication, and railways with a special emphasis on India.

Multinational Corporations: Perspectives on Globalization, Globalization: The MNC and TNC Organizations, Globalization of Brands, Globalization of the Indian Business and Firms, Coping with Global Competition, Conflict with Nation States. Domestic and Global forces - for and against Globalization, Brexit and latest developments.

5. Business in a Global Environment: Business as Blending of People Technology and Ethical Behaviour, Achieving Business Success through Social Responsibilities, Changing Workplace - Influence of demography, influence of technology, gender issues, social justice and affirmative action, Industrial Relations.

Suggested Text Books:

1. Business, Government and Society: A Managerial Perspective by John Steiner, George Steiner, Tata McGraw Hill
2. Business, Government, and Society by Douglas E. Greer, Prentice Hall
3. Business and Its Environment by David P., International Edition

Semester II		212 - Business Process Reengineering
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO212.1	REMEMBERING	DEFINE the key terms associated with Business Process Reengineering.
CO212.2	UNDERSTANDING	EXPLAIN the various supporting and opposing forces to Business Process Reengineering in simple business situations.
CO212.3	APPLYING	APPLY modeling tools for simple business processes.
CO212.4	ANALYSING	FORMULATE a working plan to establish a Business Process Reengineering team.
CO212.5	EVALUATING	EVALUATE the success of a BPR initiative in relation to the impact on organizational KPIs.
CO212.6	CREATING	IMAGINE ways to improve business or non-business processes.

1. Introduction to Business Process Reengineering (BPR): Definition of business processes – Concept of BPR - Definition of business process redesign, BPR - Evolution, Definition, Need for reengineering, Benefits, Role of leader & manager, Breakthrough reengineering model, BPR guiding principles, Business process reengineering &

performance improvement, Key targets of BPR, Myths about BPR , What reengineering isn't , BPR and other management concepts: TQM, Quality function deployment, ISO standards, ERP. BPR and Process Simplification, BPR and Continuous Improvement. (6)

2. **Business vision and process objectives:** The Key Elements of BPR, Develop a Vision, Establish a Responsible Team, Prepare the Organization for Change, Redesign the Business Process, Case Studies. Business Processes, People, Information Technology. Processes to be redesigned, selection criteria, dysfunction, importance feasibility. Measuring existing processes, BPR Goals – Cycle time reduction, Cost reduction, Quality improvement, Customer Satisfaction, BPR team characteristics. (6)

3. **Enablers of BPR:** Enablers of BPR in manufacturing – Agile Manufacturing, Lean Manufacturing, JIT, Collaborative Manufacturing, Intelligent Manufacturing, Production Planning, Product design & development. Relationship between BPR and information technology, Role of information technology in reengineering, Criticality of IT in business process. (6)

4. **BPR implementation methodology:** Different BPR Methodologies, Different Phases of BPR, Relationship between BPR phases, Tools used in Modelling the Business - flow-charting, business activity maps, relational diagrams, benefit/cost analysis, Process Modelling, Notations, Case Studies. BPR KPIs Definition, Measuring KPIs, Methodologies (Common Assessment Framework (CAF), Balanced Scorecard), Case Studies. (6)

5. **Change Management:** The Power of Habit in organizations, Planned changes in business re-engineering projects; Factors relating to change management systems and culture, Committed and strong leadership, Factors relating to organizational structure, Factors related to BPR program management, Factors related to IT infrastructure, Factors Relating to BPR Failure, Problems in communication and organizational resistance, Lack of organizational readiness for change, Problems related to creating a culture for change, Lack of training and education, Factors related to management support, Ineffective BPR teams, A framework for barrier management.

1. Sales Management, Bill Donaldson, Palgrave Publications
2. You can negotiate anything, Herb Cohen
3. Managing Sales Leads, Crocker and Obermayer, American Marketing Association

Semester I		116 - MS Excel
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO116.1	REMEMBERING	SELECT appropriate menus and functions of MS Excel to Create, Format, Import, Merge, Save, Print Spreadsheets & Charts using business data.
CO116.2	UNDERSTANDING	SHOW how to do basic troubleshooting and fix mistakes most people make when working with spreadsheets.
CO116.3	APPLYING	USE various functions of MS Excel, Execute pivot table analysis, common (and powerful functions), and different types of lookups (vlookup, hlookup, and index/match).
CO116.4	ANALYSING	ILLUSTRATE the use of the most commonly used data-manipulation commands in MS Excel.
CO116.5	EVALUATING	DERIVE insights from multiple data sources in MS EXCEL and work with it to answer relevant business questions.
CO116.6	CREATING	CREATE standard Excel Templates for routine business data management and analysis activities.

1. Introduction to Spreadsheets - Understanding Microsoft Excel, Excel Workbook Windows, Basic Spreadsheet Skills, Excel Help System, Opening and Closing Workbooks, Understanding Workbook File Formats, Creating New Workbooks, Selecting Cells, Auto Sum and Auto Fill Function, Cell Referencing and Request, Formatting Cells, Formatting Numbers, Placing Cell Alignment, Cell, Rows and Columns, Understanding Worksheets, Editing, Copying and Moving Cells, Page Layouts in Excel, Proofing Workbooks, Basic Options, Ribbons and Toolbar. **(4)**
2. Defining Names in Excel, Sorting Data, Using Excel Tables, Filtering Data in Excel, Understand Charts, Chart Design Options and Tools, Chart Format Tools, Combo Charts, Functions within Excel, Understanding Date Function, Information Functions, Logical Functions, Find and Replace, Headers and Footers, Adding Comments, Conditional Formatting. **(5)**
3. Using Text to Columns, The Paste Special Function, Data Validation, Subtotals and Grouping, Consolidating Data, Scenario Analysis, Data Tables in Scenario Analysis, What-if Analysis, Mats and Trig Functions, Text Functions in Excel, Using Lookup Functions, Vlookups, HLookups, Match, Using Statistical Functions, Database Functions, Financial Functions, Formula Auditing and Error Tracing, Hyperlinks in Excel, Linking Data, Understanding Pivot Tables, Using Pivot Charts, Workbook Properties, Protecting and Sharing Worksheets, Data Encrypting and Finalising Workbooks, Understanding Macros, Custom Number Formats in Excel, Using Custom Lists, Working with Templates, Tracking Changes in Excel, Merging and Compare Excel Workbooks. **(7)**
4. Using Pivot tables – Slicers -Report Filters for basic analytics, Contact Management and Marketing With Excel, Managing Customers, Vendors And Employees, Gaining Product And Service Insights, Sales reports using Excel, Supervising Sales With Excel, Preparing Invoices, Assessing Account Aging, Analyzing Demographics, Creating Scheduling And Marketing Calendars, Creating Standard Excel Templates for routine business data management and analysis activities. **(7)**
5. Managing Money With Excel, Building & Tracking Budgets, Planning And Tracking Loans, Keeping Account Registers, Creating Formulas for Financial Applications, PV, PMT, NPER, RATE, Creating Balance Sheet, Investment Calculations, Depreciation calculations, Lab based Evaluation, Gauging Business Status with Excel, Configuring Cash Flow Statements, Resolving Business Ratios, Creating Standard Excel Templates for routine business data management and analysis activities. **(7)**

Note:

1. The entire course should be delivered in the computer lab in an application oriented manner.
2. Business Applications should be stressed rather than merely teaching Excel as a software.

Suggested Text Books:

1. Excel 2016 Bible, John Walkenbach, John Wiley & Sons
2. Excel: Formulas & Functions, Robert Dinwiddie
3. Excel 2007 for Dummies by Greg Harvey
4. New Perspectives on Microsoft Office Excel 2007
5. Microsoft Excel 2016 Step by Step, Curtis Frye

Semester I		117 - Business Systems and Procedures
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO117.1	REMEMBERING	TABULATE the key elements of a typical business system and related work flow procedures.
CO117.2	UNDERSTANDING	EXPLAIN a business system and related procedures.
CO117.3	APPLYING	PREDICT the fail points / bottle necks in a typical business process.
CO117.4	ANALYSING	BREAK DOWN a business system into simpler components and explain the inter-relationships.
CO117.5	EVALUATING	DEVELOP a process based thinking approach.
CO117.6	CREATING	CREATE standard operating procedures and flow charts / other visual representations for typical business systems and processes.

- Business Systems and Procedures:** Concept and need - Characteristics of a good procedure. Writing a Standard Operating Procedure (SOP)– Procedure Identification - Information Gathering–Interviewing – Analysis – Writing – Implementation – Review- Identifying Fail Points - Fine-tuning. Process Mapping Tools – Aid Memoir – Flowchart – Swim Lane Diagrams – Flow Charting Software – Using MS Word and Excel for Flowcharting - Case Studies. Re-engineering information flow and paper flow – Process Mapping for Current and Future State Map.
- Systems Study:** Process Mapping, Improvement and Writing SOP's for an entire range of activities for a typical business process in a manufacturing/ service organization. Students should visit appropriate organizations to study the real life processes.
- Detailed study of atleast **FIVE** Systems and underlying Procedures, such as: (list is illustrative only)
 - Attendance Recording System in a manufacturing / service organization.
 - Employee scheduling in a retail mall.
 - Facilities management and scheduling system in automobile workshop.
 - Inventory Management
 - Just in Time Inventory System in a manufacturing / service organization.
 - Kitchen Order Ticket (KOT) System in a Restaurant.
 - KYC verification system in a mutual fund house.
 - Loan approval system in a cooperative bank.
 - Maintenance system in a facility.
 - On-boarding of new employees in a manufacturing / service organization.
 - Payroll Management
 - Performance Appraisal system in a manufacturing / service organization.
 - Point of sale (POS) system in an organized retail store.
 - Purchase Order System in a manufacturing / service organization.
 - Quality Audit system
 - Receivables Management
 - Stock Taking system in a library.
 - Warehouse management system.
- Presentation of individual/group projects

Suggested Text Book:

- Business Process Management – A Rigorous Approach, Martyn A Ould , British Computer Society, First South Asia Edition.

Semester I		118 - Managing Innovation
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO118.1	REMEMBERING	DESCRIBE the key ideas relevant to innovation, intellectual property, business models
CO118.2	UNDERSTANDING	INTERPRET the various theories of innovation and EXPLAIN with examples the types of innovation.
CO118.3	APPLYING	EXPERIMENT WITH innovation as a systematic process and generate innovative ideas for new products and services.
CO118.4	ANALYSING	DISSECT contemporary start-up businesses for their business models, extent of innovation, success and failure.
CO118.5	EVALUATING	CREATE an inventory of product and process innovations for daily use consumer products and routine business processes in a typical organization.
CO118.6	CREATING	CREATE a potential list of innovation needs for India in the local, regional and national context and ASSESS the likelihood of constructing a business model around these needs in the current local, regional and national context.

6. Basics of Innovation: Concept of Innovation. Invention and Creativity - Role and relationship with innovation, Product innovation and process innovation, Radical and incremental innovation, Technological innovation, commercial or organizational Innovation, Characteristics of innovation in different sectors, Innovation in Indian context, Innovation and Creativity, Jugad and innovation, Innovation in Current Environment- local, regional and national context. **(4)**

7. Economics and Management of Innovation: Schumpeter and creative destruction, The evolutionary theory of Nelson and Winter, The model of the dynamic capabilities of David Teece, Porter and competitive advantages, The value chain, Drucker and the systematic innovation, Innovations diffusion, Speed, Adoption. Innovation and Knowledge, Tacit and explicit knowledge, Knowledge as a public good. **(5)**

8. Models of Innovation – Static Models: Incremental versus Radical Innovation, Abernathy –Clark Model, Henderson – Clark Model, Disruptive Technological Change Model, Innovation Value – Added Chain, Strategic Leadership View, Familiarity Matrix, Imitability & Complementary Assets – Teece Model. Dynamic Models: Utterback – Abernathy Model, Tushman – Rosenkopf technology Life Cycle Model, Foster's S Curve. **(7)**

9. Instruments for Innovation: Challenges of Innovation, Innovation as a systematic practice, Steps of Innovation Management, Learning Cycle, The roles of the innovator, Functional Sources of Innovation – Internal Value Chain, Spillovers from Competitors, Suppliers, Customers and Complimentary Innovators, The generation of ideas: brainstorming, Creativity, Divergent V/s Convergent Thinking, Design Thinking, Blue Ocean Strategy. Experimentation in Innovation Management, Technology Innovation Process, Idea Championship, Participation for Innovation, Co-creation for Innovation, Screening the innovative ideas, Proto typing to Incubation. **(7)**

10. Management and Marketing of Innovation: Innovation Management Planning, Technology Forecasting, Innovation Sustainable Conditions, Management of Innovation, Concept of IPR. Creation of IPR, Types of IPR, Patents and Copyrights, Patents in India. **Business Models:** What is a Business Model? The evolution of the business model, The Business Model Canvas, Business Models and value proposition, Business Model Failure: Reasons and Remedies, Incubators: Business Vs Technology, Future markets and Innovation needs for India. **(7)**

1. Innovation Management, Allan Afuah, Oxford Indian Edition.
2. Innovation Management, Shlomo Maital and D V R Seshadri, Response Books, Sage Publications, New Delhi.
3. Innovation: the attacker's advantage, Foster, Richard N., London, Macmillan.
4. Adair on Creativity and Innovation, Edited by Neil Thomas, Viva Books
5. Innovating at the Edge – How organizations Evolve and Embed Innovation Capability, Tim Jones, Butterworth-Hienemann, South Asian Edition.
6. Managing Creativity & innovation, Harvard Business Essentials, Harvard Business School Press

Suggested Reference Books:

1. The Innovator's ToolKit, Harvard Business Press.
2. Fastrack to Success Innovation, Andy Bruce and David Birchall, Prentice Hall - Financial Times.
3. Getting to Innovation, Arthur B VanGundy, PHI – Eastern Economy Edition
4. Blue Ocean Strategy, Kim & Mauborgne

Semester I		119 - Foreign Language I
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO119.1	REMEMBERING	RECALL and SPELL simple words in the foreign language
CO119.2	UNDERSTANDING	TRANSLATE simple sentences from English to the foreign language and vice-versa.
CO119.3	APPLYING	CONSTRUCT a dialogue, in the foreign language, for basic human interactions in a social context.
CO119.4	ANALYSING	TAKE PART IN an interaction in a non-business setting using the foreign language.
CO119.5	EVALUATING	INTERPRET a short write up written in the foreign language.

- 1. Salutations:** (a) To greet the people and say Good afternoon, Good Evening, Goodbye, ask name and say your name, seek clarification and help, numbers from 1 to 10 (b) To say where you live. Describe your house and members of your family. Weights and Measures, length & breadth, use of decimal system, area and volume. Cardinal numbers & Ordinal Numbers. (c) Ask and give personal information, Nationality, profession and language, Numbers from 11 to 50. To ask time by clock and by span, days of the week, months of the year. (6)
- 2. Conversation Skills:** (a) To ask and express interests, Preferences; likes and dislikes; to invite, to accept the invitation or to politely decline the invitation; hobbies and how to spend your leisure. (b) To talk about the weather; to talk about the daily personal routine and related activities. Seasons & holidays in France/Germany/Japan. (c) To talk about clothing - size, colour, material. Purchase at a super market, modes of payment. To name and explain human body to express common bodily ailments (fever, headache etc.) (6)
- 3. Geographical Description:** (a) Country, location on the world map, borders and neighboring countries, ports and industrial towns. (b) Information and clarification of places. Asking for directions to the public places. Modes of Transport. Numbers 51 to 100 and 1000, 10,00,000 etc. (6)
- 4. Social:** (a) Visit to a restaurant, to express agreement/disagreement; to ask for price/quantity. (b) To talk about/express future actions, to plan a business trip with related requirements: hotel, tickets, car, Rent a car, places to visit, traffic signs etc. Documents required like Passport, International Driving license, Insurance cover etc. (6)
- 5. Business:** (a) To ask about personal past events, to narrate personal experience, to comprehend difference between letters like Personal/Business Letters, telegram & e-mail; formats of Letter head and e-mail. (b) Vocabulary relating to the Transactions at the Post office, Bank, Insurance Company – personal, health, accident, marine, equivalent terms of transaction – FOB, C.I.F, F.A.S, payment through Letter of credit. (6)

Note: Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Suggested Text Books:

Relevant Standard Text Books, Videos, Audio CDs.

Semester II		213 - Written Analysis and Communication Lab
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO213.1	REMEMBERING	DESCRIBE stages in a typical communication cycle and the barriers to effective communication.
CO213.2	UNDERSTANDING	SUMMARIZE long essays and reports into précis and executive summaries.
CO213.3	APPLYING	USE Dictionary and Thesaurus to draft and edit a variety of business written communication.
CO213.4	ANALYSING	EXAMINE sample internal communications in a business environment for potential refinements.
CO213.5	EVALUATING	COMPOSE variety of letters, notices, memos and circulars.

- 1. Written Communication:** Different types of communication like letters, memos, reports, fax, email, presentations and multimedia, choosing the means of communication, stages in communication cycle, Barriers to effective communication, communication systems. (5)
- 2. Writing Techniques:** Rules of good writing, adaptation and selection of words, masculine words, writing with style- choosing words with right strength and vigor, using a thesaurus, writing effective sentences, developing logical paragraphs, Précis writing, Developing coherent paragraphs, overall tone, drafting, editing and finalizing the business

letters. Planning the persuasive message, common types of persuasive requests, principles of persuasive communication. Reformulating and summarizing - What is a summary? Using synonyms & antonyms, reducing phrases, guidelines for writing summaries, business summaries Comprehension: using a dictionary, grammatical precision, (phonetics), contextual clues, guidelines for comprehension. (7)

3. **Recruitment and employment correspondence:** Application letter, curriculum vitae, interview, references, offer of employment, job description, letter of acceptance, letter of resignation, writing routine and persuasive letters. (6)

4. **Internal Communications:** Memoranda, meetings - agenda and minutes, Writing memos, circulars, notices and emails. Positive and negative messages such as Letter of Appreciation, Letter of Congratulations, Warning Letter, Show Case Notice. Writing Follow up letters and reminders, Writing Sales letters, collection letters, Poster Making. Report writing - What is a report, Objectives of report, types of report, Report Planning, Types of Reports, Process, Structure and Layout, planning, Nature of Headings, Ordering of Points, Logical Sequencing, Graphs, Charts, Writing an Executive Summary, List of Illustration, Technique of writing a report, characteristics of business reports. (6)

5. **External Communications:** Public notices, invitations to tender bid, auction, notices, etc. Writing business proposals, Preparing Press Release and Press Notes. (6)

Note:

1. The entire course should be delivered in a workshop and application oriented manner. It is expected that not more than 10 to 15% of the time should be devoted to the theoretical aspect.
2. Workbooks should be prepared that comprehensively cover major situations of managerial communication and should be handed over to the students right at the beginning of the course.
3. Students should be asked to submit the completed workbooks at the end of the term.

Suggested Text Books:

1. Business Communication Today, Bovee C L et. al., Pearson Education
2. Business Communication, P.D. Chaturvedi, Pearson Education
3. Business Communication, T N Chhabra, Bhanu Ranjan, Sun India
4. Verbal and Non-Verbal Reasoning, Prakash, P, Macmillan India Ltd., New Delhi
5. Objective English, Thorpe, E, and Thorpe, S, Pearson Education, New Delhi

Suggested Reference Books:

1. Communication Skills for Effective Management, Hargie et. al., Palgrave
2. Communication for Business, Tayler Shinley, Pearson Education
3. Technical Communication, Anderson, P.V, Thomson Wadsworth, New Delhi
4. The Oxford Guide to Writing and Speaking, John Seely, Oxford University Press, New Delhi
5. Dictionary of Common Errors, Turton, N.D and Heaton, J.B, Addison Wesley Longman Ltd.

Semester II		214 - Industry Analysis - Desk Research
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO214.1	REMEMBERING	DESCRIBE the key characteristics of the players in an industry.
CO214.2	UNDERSTANDING	SUMMARIZE the management ethos and philosophy of the players in the industry.
CO214.3	APPLYING	DEMONSTRATE an understanding of the regulatory forces acting on the industry.
CO214.4	ANALYSING	COMPARE and CONTRAST, using tables and charts, the market and financial performance of the players in an industry.
CO214.5	EVALUATING	ASSESS the impact of recent developments on the industry and its key players.
CO214.6	CREATING	PREDICT the future trajectory of the evolution of the industry in the immediate future (1 to 3 years).

1. **Industry Analysis – the Basics:** Nature of the Industry, Players in the industry, Nature of competition, Market shares of top 5 & bottom 5 players, Possible Classification of players into Leaders, Challengers, Followers, Nichers, Positioning & Differentiation strategies of key players. Branding strategies, Pricing Policies, Cartelization if any and comments thereon, Capacity analysis – total capacity of the industry and break up capacity amongst key players, Current Capacity Utilization rates, Planned future capacity additions, Geographical spread of plants/facilities/capacities (Domestics as well as Global), Demand Supply balance in the industry – at global, national and regional level, Key factors affecting demand, Key supply side constraints, Professional Trade bodies of the Industry, Business

Functions carried out Online by the key players. Online presence of the players, Incremental Innovations in the industry, Disruptive Innovations in the industry. (5)

2. **Promoters & Management Ethos:** Background of promoter groups of top 5 and bottom 5 players in the industry, Management ethos and philosophy, Brief profiles of CMDs, CEOs, and key top management personnel with their career highlights, Detailed profile of one distinguished top management personnel each from any two players in the Industry, CSR policy, Corporate Governance Initiatives, Initiatives towards social inclusion, Initiatives towards environment conservation. (5)

3. **External Environment:** Controlling ministry and / or regulator if any for the Industry, Regulatory Policies at the state, national and global level and their impact on the industry as a whole with analysis of impact on top 5 players and bottom 5 players, Key National and Global issues affecting the industry, Key initiatives by the Government to promote the industry, Environmental issues, CSR initiatives, Regulatory actions against the players for e.g. Action by SEBI, Competition Commission of India, MTRP Commission, FDA, etc. against irregularities, legal violations if any. (5)

4. **Financials:** Profitability, Revenues, Margins of top 5 & bottom 5 players over the last 5 years and trends/changes therein, Sick players if any and their turnaround strategies, if any, Key factors contributing to costs, Ratio analysis of financial data for last 5 years for top 5 and bottom 5 companies in the industry. (5)

5. **Recent Developments:** Impact of key relevant provisions of the latest Fiscal policy on the industry and various players therein, Analysis of Key relevant provisions of latest Exim Policy in case of industries that are focused on Global Markets for exports or industries that have significant import components, Key Alliances in the past 5 years and their performance & impact on other players in the industry, Mergers & Acquisitions, if any. Technological developments, Labour unrest if any – reasons thereof and impact on the particular player and the industry as a whole, emerging first generation entrepreneurs, if any, in the industry, Corporate wars & feuds in the industry, if any. (5)

Note:

1. Students should work in groups of 3 to 5 each under the guidance of a faculty.
2. Students shall carry out an indepth study of any TWO industries of their choice.
3. Industries selected should be distinct from each other.
4. Students shall submit a structured detailed report.

Suggested Text Books:

1. No text books are prescribed.
2. The course has to be taught using the company annual reports and other publications, company website, social media feeds, business newspapers and business data bases such as ACE equity, CRISIL database, etc.

Semester II		215 – Entrepreneurship Lab
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO215.1	REMEMBERING	IDENTIFY a basket of potential business opportunities in the local, regional or national context.
CO215.2	UNDERSTANDING	COMPARE and CONTRAST the shortlisted business opportunities to SELECT the most suitable / promising opportunity.
CO215.3	APPLYING	DEVELOP a business model around the shortlisted business opportunity.
CO215.4	ANALYSING	FORMULATE the organization structure for the proposed start up
CO215.5	EVALUATING	EVALUATE the market potential and ESTIMATE the financing requirements for the initial 1 to 3 years after launch.
CO215.6	CREATING	CREATE a proposal for funding the start up.

This course provides a hands-on experience to the students to convert and apply theoretical and conceptual knowledge about entrepreneurship into practical entrepreneurship. During the course, students shall identify and evaluate a new business opportunity (which may be supplied by an entrepreneur or innovator in the nearby region.)

Students shall work in a group, of not more than 5 students, on a real-life business case.

Scope of the work expected:

1. Business Model Designing
2. Business Plan Designing
3. Financial Planning
4. Prototype Making
5. Test Marketing
6. Planning Commercial Launch.

Suggested Text Books:

1. New Venture Management: The Entrepreneur's Roadmap (Entrepreneurship Series), Donald F. Kuratko and Jeffrey S. Hornsby, Pearson
2. The Manual for Indian Start-ups: Tools to Start and Scale-up Your New Venture, Vijaya Kumar Ivaturi, Meena Ganesh, Penguin Random House India.
3. Managing New Ventures, Anjan Raichoudhuri, Prentice-Hall of India Pvt.Ltd
4. Develop Your Idea!: Get Off to a Flying Start With Your Startup. Guided Exercises, Templates & Resources for Exploring New Business Ventures, K. N. Kukoyi
5. Managing Small Business by Longenecker, Moore, Petty and Palich, Cengage Learning, India Edition.
6. Entrepreneurship: New Venture Creation by David H. Holt
7. The Dynamics of Entrepreneurial Development & Management by Desai, Vasant , Himalaya Publishing House, Delhi
8. Entrepreneurship and Small Business Management by Siropolis
9. Lead like an Entrepreneur by Neal Thornberry

Suggested Reference Books:

1. Fundamentals of Entrepreneurship, Nandan H, PHI
2. Cases in Entrepreneurship by Morse and Mitchell, Sage South Asia Edition.
3. Entrepreneurship – Indian Cases on Change Agents by K Ramchandran, TMGH.
4. Entrepreneurship – The engine of growth, edited by Mark Rice and Timothy Habbershon, Published by Praeger Perspectives.
5. Entrepreneurship: Theory, Process and Practice by Kuratko, D.F. & Hodgetts, R.M. Thomson Press.
6. Entrepreneurship Development: Small Business Enterprises by Charantimath, P. , Pearson.
7. A Guide to Entrepreneurship by David, Otes , Jaico Books Publishing House, Delhi.
8. Indian Entrepreneurial Culture by A Gupta , New Age International.
9. Make The Move: Demystifying Entrepreneurship by Ishan Gupta, Rajat Khare

Semester II		216 - SPSS
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO216.1	REMEMBERING	IDENTIFY the key menus of SPSS and DESCRIBE their functionality.
CO216.2	UNDERSTANDING	EXPLAIN the main features of SPSS
CO216.3	APPLYING	MAKE USE OF various tools to manage data, describe data and display graphical output using SPSS.
CO216.4	ANALYSING	ANALYSE data using various statistical tests of SPSS
CO216.5	EVALUATING	INTERPRET and EXPLAIN the outputs from SPSS
CO216.6	CREATE	DESIGN, DEVELOP and TEST advanced multivariate models using SPSS.

1. **Overview:** SPSS Environment, Introduction to various menus, Data file, Output file, Frequently –used dialog boxes, Editing output, Printing results. Creating and editing a data file – Variable and data view, Value Labels.
2. **Managing Data:** Listing cases, replacing missing values, computing new variables, recording variables, exploring data, selecting cases, sorting cases, merging files, splitting files, Visual Binning. **Frequencies:** Frequencies, bar charts, histograms, percentiles. **Descriptive Statistics:** Measures of central tendency, variability, deviation from normality, size and stability. Cross Tabulation and chi-square analyses, The means Procedure. **Graphs:** Creating and editing graphs and charts
3. **Bivariate Correlation:** Bivariate Correlation, Partial Correlations and the correlation matrix. **The T-test Procedure:** Independent –samples, paired samples, and one sample tests. **Non Parametric Tests:** ChiSquareTest, 1 sample test, 2 independent samples test, k independent samples, 2 related samples test, k related samples.
4. **One Way ANOVA Procedure:** One way analysis of variance, General Linear model: Two –way analysis of variance, General Linear model: three –way analysis of variance and the influence of covariates
5. **Advanced Tools:** Simple Linear Regression , Multiple regression analysis. Multidimensional scaling, Reliability Analysis, Factor analysis, Cluster analysis.

Suggested Text Books:

1. Discovering Statistics Using SPSS, by Andy Field A, SAGE
2. How to Use SPSS: A Step-By-Step Guide to Analysis and Interpretation by Brian C. Cronk

Semester II		217 - Foreign Language II
2 Credits	LTP: 0:3:1	Generic Elective – Institute Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217.1	REMEMBERING	LISTEN to simple audio-visual recordings in the foreign language.
CO217.2	UNDERSTANDING	TRANSLATE simple letters from English to the foreign language and vice-versa.
CO217.3	APPLYING	CONSTRUCT a business email, in the foreign language.
CO217.4	ANALYSING	TAKE PART IN an interaction in a business setting using the foreign language.
CO217.5	EVALUATING	COMPOSE a covering letter and resume in the foreign language.

1. Listening: Understand Simple Questions and Instructions. **Reading:** Understand Single Words and Sentences but also Signposts, Signs and Posters. **Speaking:** Provide Short Information about the Job and the Person. **Writing:** Fill in Forms and Provide Information About Name, Address, Nationality etc. **(6)**

2. Listening: Understand Information about the Person and the Work. **Reading:** Understand Simple Letters, Appointments, Invitations and Information in Short Texts. **Speaking:** Answer Simple Questions About One's Working Field. **Writing:** Write Faxes and e-mails. **(6)**

3. Listening: Understand Standard Information Related to the Working Field. **Reading:** Understand Standard Letters and Texts about Working Processes and Product Descriptions. **Speaking:** Provide Information about the Job, the Departments, the Company, the Products and Processes in a Conversation or on the Phone. **Writing:** Answer Standard Inquiries, Make Quotations, Write Short Texts with a Familiar Content, Possibly Give Some Explanation and Answer Simple Questions. **(6)**

4. Listening: Understand Complex Information Related to the Working Field in Meetings, Discussions and at Presentations. **Reading:** Understand Reports and Contracts with a Company-related Content. **Speaking:** Describe and Explain Work Processes and Projects. Report on Meetings and Presentations. Explain Concepts and Clarify Misunderstandings. **Writing:** Write Formal Standard Letters and Texts about One's Field of Expertise. Explain a Graphic and Reflect the Content. **(6)**

5. Grammar: Future tense, imperfect tense, degrees of comparison, imperative mood. Script, Letters of alphabet, accents, sounds of groups of letters, punctuation marks, articles, nouns, sing./Pl, genders; mas. /fem. Structure of sentences & types like affirmative, negative interrogative & negative interrogative, Verbs: classes of verbs and conjugation patterns, Pronominal verbs; Present tense, The idea of auxiliary verb; prepositions; pronouns-subject, interrogative, relative, possessive, emphatic; adjectives, adverbs. **(6)**

Note: Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Suggested Text Books:

Relevant Standard Text Books, Videos, Audio CDs

Foundation Courses (Elective) - Semester I & II

Semester I		FOU – 001: Elementary English
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU001.1	REMEMBERING	LABEL the different parts of a sentence, correctly SPELL and PRONOUNCE the words in common usage and effectively LISTEN to short AV material (English).
CO-FOU 001.2	UNDERSTANDING	PARAPHRASE published written and audio visual content (English) in own words.
CO-FOU 001.3	APPLYING	CONSTRUCT short paragraphs and essays (English) for a specified task, to elicit, to select, to describe, to summarize information.
CO-FOU001.4	ANALYSING	TAKE PART IN conversations using general, social and professional (English) language.
CO-FOU001.5	EVALUATING	CHECK written and audio visual content (English) for grammatical correctness.
CO-FOU001.6	CREATING	SUBSTITUTE right words / terms / phrases in a compiled text.

- Fundamental grammatical structures and functions** - sentence types, tenses, voice, parts of speech, word order, expressing possibility, obligation, necessity, prohibition, criticism; expressing preferences, making assumptions; asking for/ refusing/giving permission; making offers, suggestions, punctuation, etc. **(3)**
- Building fundamental vocabulary** - to fulfill the above mentioned functions in roles, topics and discussions, synonyms, antonyms, homonyms, homophones, using dictionary, using thesaurus. **(3)**
- Listening** – short AVs in English, understanding the gist, the main points, look for detail or specific information, deduce the meaning. **(3)**
- Reading material** - reading various common place publications, using different strategies for different reading purposes, identifying the main points in a text, looking for detail, locating specific information in a text, understanding a text structure, right pronunciation, etc. **(3)**
- Conversation on different topics** - people, jobs, places to visit, festivals/celebrations, eating habits, attire, current affairs – popular personalities, disasters/accidents, politics, technology, sports/hobbies, environment, education, entertainment, transport, crime, etc. **(3)**

Suggested Text Books:

- English Grammar and Composition, Wren & Martin, S. Chand Publishing
- Word Power Made Easy, Norman Lewis

Semester I		FOU – 002: Elementary Mathematics and Statistics
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU002.1	REMEMBERING	MEMORIZE and REPRODUCE all basic formulae covered in the syllabus.
CO-FOU002.2	UNDERSTANDING	EXPRESS numbers in various forms such as fractions, percentages, equivalent simplest fractions.
CO-FOU002.3	APPLYING	CALCULATE Percentages, Profit & Loss, Simple & Compound Interest, frequency, cumulative frequency, basic areas and basic volumes.
CO-FOU002.4	ANALYSING	ILLUSTRATE relationships using direct and inverse proportion, simple graphs, linear and quadratic equations.
CO-FOU002.5	EVALUATING	INTERPRET basic statistical data, graphs, and venn diagrams.
CO-FOU002.6	CREATING	CREATING and SOLVING simple simultaneous equations.

- Numbers:** Integers and fractions, squares, cubes, square roots and cube roots by prime factorization, negative numbers; Examples of very large and very small numbers such as million/billion/trillion, positive, negative, zero and fractional indices, laws of indices. **(1)**
- Preliminary Mathematics:** HCF & LCM, Ratio & Proportion, Problems based on Ages. **(2)**
- Ratio, rate and proportion:** Ratios involving rational numbers, writing a ratio in its simplest form, average rate, direct and inverse proportion, problems involving ratio, rate and proportion **(1)**

4. **Fractions & Percentages** : Expressing one quantity as a percentage of another, comparing two quantities by percentage, percentages greater than 100%, increasing/decreasing a quantity by a given percentage, reverse percentages, problems involving percentages **(1)**
5. **Mathematical Operations for Business**: Percentage, Profit & Loss, Simple & Compound Interest. **(1)**
6. **Time and Number related Mathematical operations**: Time & Work, Time, Speed & Distance, Number System, Permutation, and Series. **(2)**
7. **Basic Statistics**: Classification and tabulation of data, presentation of data, graphical presentation of data by frequency curve, frequency polygon, ogives, histogram. **(2)**
8. **Set Theory**: Basic concepts, Venn diagrams, interpretation. **(2)**
9. **Trigonometry** : Basic Trigonometry, Area and Volume. **(1)**
10. **Equations**: Simultaneous Equations, Quadratic Equations. **(2)**

Semester I		FOU – 003: Elementary Business Economics
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU003.1	REMEMBERING	ENUMERATE the basic terms covered in the syllabus.
CO-FOU003.2	UNDERSTANDING	INTERPRET the historical trends in key economic data from a managerial and business perspective.
CO-FOU003.3	APPLYING	MAKE USE OF key Government and Non-Government economic publications to gather insights from a managerial and business perspective.
CO-FOU003.4	ANALYSING	ILLUSTRATE broad inter-relationships between various economic parameters within the national context and global context.
CO-FOU003.5	EVALUATING	EXPLAIN the role and objectives of Monetary and Fiscal policy.
CO-FOU003.6	CREATING	HYPOTHESIZE the expected short term trends of key economic indices.

1. Concept of Economic Development, Concept of emerging, developed and developing economy, Concept of PPP **(1)**
2. Economic Map of the Globe, Economic map of India. **(1)**
3. Reserve Bank of India – composition, role, functions. **(1)**
4. Economic Survey of India - Role, Scope, Objectives, Sections, Key highlights of last Economic Survey. **(1)**
5. Union Budget - Role, Scope, Objectives, Sections, Key highlights of last Union Budget, Concept of Fiscal Deficit, Combined Fiscal Deficit. **(1)**
6. Monetary Policy – Concept, Frequency, MPC - Role, Scope, Objectives of Monetary Policy, Key highlights of last few Monetary Policy statements, impact – sentimental and material on economy. **(1)**
7. Key Economic Indicators – Inflation, IIP, GDP, CRR, Bank Rate, Exchange Rate, Unemployment rate, Ease of doing business index, etc. **(1)**
8. Inflation – Concept, CPI, WPI, Composition, Changes over time, Trends, Usage in policy making, Implications of high and low CPI, WPI. **(1)**
9. Exchange rates – Concept, USD – INR, Euro – INR, Yuan – INR, Renminbi – INR, Key trends and influencing factors. **(1)**
10. GDP – Composition, Trends. **(1)**
11. Key Stock Markets & Stock Indices – Sensex, Nifty, Sectoral Indices in India, Global Indices - European Indices, American Indices, Asian Indices. **(1)**
12. Commodity Markets – Crude, Precious Metals, Industrial Metals, Agro Commodities, MCX, NCDEX. **(1)**
13. Direct & Indirect Taxes – Concept of Direct Tax, Indirect Tax, Income Tax, Wealth Tax, GST. **(1)**
14. Key Sources of Data – Census, CSO, Niti Aayog, Different Ministries of Government of India, CRISIL, NCAER, Credit Rating Agencies. **(1)**
15. Introduction of G7, G 20, BRICS, ASEAN, SAARC, EuroZone, PIIGS, ADB, WB, etc. **(1)**

Suggested Text Books:

1. Indian Economy , Dutt R and Sundharam K.P.M, S .Chand, Delhi
2. Indian Economy, Agarwal A. N., Vikas Publishing House, Delhi
3. Indian Economy, Misra S.K. and Pury V.K., Himalaya Publishing House, New Delhi

Semester I		FOU – 004: Elementary Accounting
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU004.1	REMEMBERING	DESCRIBE the basic accounting terminologies and concepts covered in the course syllabus.
CO-FOU004.2	UNDERSTANDING	EXPLAIN the concepts covered in the course syllabus.
CO-FOU004.3	APPLYING	APPLY concepts covered in the course syllabus to accurately do the required calculations.
CO-FOU004.4	APPLYING	DETERMINE the key elements of business transactions and complete their accounting.
CO-FOU004.5	EVALUATING	DESIGN and OPERATE the entire accounting process (from entry to Balance - Sheet) for any given transaction.

- Basic Concepts and Terminologies** –Business Transaction, Meaning and Scope of Book Keeping and Accountancy, Importance of Book Keeping and Accountancy, Basic Terminologies related to Book Keeping and Accountancy, Classification of Accounts, Principle of Double Entry and Golden Rules of Accounting. (3+1)
- Journal Entries** – Preparation of Journal and passing journal entries (2+1)
- Ledger Posting & Balancing** – Preparation of Ledger Accounts, Posting the journal entries in the ledger accounts, Ledger Accounts Balancing and Interpretation of Ledger Account Balances. (2+1)
- Trial Balance** – Preparation of Trial Balance and Importance of Trial Balance in Accounting Process. (1+1)
- Final Accounts of Sole Proprietor** –Trading Account, Profit & Loss Account and Balance Sheet without adjustments. (2+1)

Suggested Text Books:

- T.S. Grewal's Double Entry Book Keeping
- Taxmann's Fundamentals of Accounting (CA CPT), CA D.G. Sharma
- Book Keeping and Accountancy, Aina Pure and Aina Pure
- Managerial Accounting, Dr. Mahesh Abale and Dr. Shriprakash Soni

Suggested Reference Books:

- Financial Accounting for Management: Shankar Narayanan, Ramanath- CENGAGE Learning
- Financial Accounting for Managers, Sanjay Dhmiya, Pearson Publications
- Accounting For Management, Jawahar Lal
- Accounting, Shukla Grewal

Semester I		FOU – 005: Elementary Information Technology
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU005.1	REMEMBERING	DESCRIBE various components of a computer, network.
CO-FOU005.2	UNDERSTANDING	EXPLAIN the characteristics and usage of various elements of a computer, a network and operating systems.
CO-FOU005.3	APPLYING	USE various input, output, memory and local network devices.
CO-FOU005.4	ANALYSING	TEST and do basic troubleshooting of a standalone desktop or desktop connected to a network.
CO-FOU005.5	EVALUATING	EXPLAIN basic terminology related to data and information.
CO-FOU005.6	CREATING	DISCUSS emerging trends in IT.

- Computer Basics:** Introduction, Evolution of Computers, Computer Generations, Classification of Computers, Computer Applications. Computer Organization, Memory and Storage - Basic Computer Organization (a) Input devices - keyboard, voice devices, scanner, MICR, OMR, Bar code reader, digital camera, etc. (b) Output devices - Visual Display Unit, printers, plotters, Audio Output, etc. (c) Memory or Storage Devices – Memory or Storage Unit - Physical Devices Used as Storage Cells, Random Access Memory, Read Only Memory, Secondary Storage, Compact Disk Read Only Memory, Flash Memory, Archival Storage, etc. (d) Central Processing Unit. Basic trouble shooting. Connecting a desktop, laptop to LCD, printer, etc. **(4)**
- Computer Software:** Introduction, System Software, Application Software, Software Installing and Uninstalling, Booting, Software Development Steps, Programming Languages - Classification of Programming Languages. Operating System - Introduction, Role and functions of Operating System, Working Knowledge of GUI

Based Operating System, Use of menus, tools and commands of windows operating system, File Handling and Management. **(4)**

3. **Computer Networks:** Overview of Computer Network, Types of computer networks (LAN, WAN and MAN), Network topologies, Components of computer networks (servers, workstations, network interface cards, hub, switches, cables, etc.) Internet and its Tools - Introduction, Internet Evolution, Basic Internet Terminology, Data over Internet, Modes of Data Transmission, Types of Networks, Types of Topologies, Protocols used in the Internet, Getting Connected to Internet Applications, Internet Applications, Computer Ethics. **(3)**

4. **Information Technology Basics:** Introduction, Data and Information, Types of Data, Need for Information Storage and Processing, **(2)**

5. **Emerging Trends in IT:** Introduction, Electronic Commerce, Electronic Data Interchange, Smart Cards, Mobile Communications, Internet Protocol TV. **(2)**

Suggested Text Books:

1. Computers Today, Basandra SK, Galgotia.
2. Fundamentals of Information Technology, Leon, Vikas
3. Information Technology: Inside and outside, Cyganski, Pearson
4. Computer Applications in Management, Kakkar DN, Goyal R, New Age
5. Information Technology for Management, B Muthukumaran, Oxford University Press

Semester I		FOU – 006: Elementary Business Etiquette
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU006.1	REMEMBERING	DEFINE terms and concepts used to describe appropriate business etiquette attitudes and behaviors.
CO-FOU006.2	UNDERSTANDING	EXPLAIN what is meant by business etiquette and how it impacts the workplace.
CO-FOU006.3	APPLYING	DEMONSTRATE appropriate behaviors within specific business situations.
CO-FOU006.4	ANALYSING	TAKE PART IN professional business meetings and real & virtual business conversations.
CO-FOU006.5	EVALUATING	DETERMINE the right attire for business, casual and multicultural events.
CO-FOU006.6	CREATING	PLAN a professional business meeting and a business meal.

1. **Professionalism at Work:** Making a good first impression, understanding the mechanics of human perception, being aware of elements in image building, developing a culture of excellence, basic understanding of acceptable attitudes and mannerisms at work, the role of Good Manners in Business? Disability Etiquette - Basic disability Etiquette practices, Courtesies for wheelchair users, Courtesies for blind or visually impaired, Courtesies for the deaf, People with speech impairments. Multi-cultural challenges, Multi-cultural etiquette, Cultural differences and their effect on business etiquette, Select Cultural Highlights **(5)**

2. **Body Language at Work:** Non verbal communication, the 'smile' factor, building posture, facial expressions and eye contact, gestures for effective communication. **(3)**

3. **Business Etiquette Basics:** Introduction to business etiquette - The ABCs of etiquette Meeting and greeting scenarios, Enduring Words, Making introductions and greeting people, Greeting Components, The protocol of shaking hands, Introductions, Introductory scenarios, Addressing individuals, Networking for business, Business card protocol, Managing your business voice, Speaking Diplomatically, Managing Question and Answer Sessions Effectively - Anticipatory Q & A, Dealing with hostile questions, Reframing principles, Case Studies and Practice, Cell phone Etiquette, Voice Mail Etiquette, Internet & email etiquette, Internet usage in the workplace, Email, Netiquette, Online chat, Online chat etiquette, Online chat etiquette guidelines. **(5)**

4. **Dining Etiquette:** Planning a meal, issuing invitations, How to proceed through a receiving line, seating guidelines, navigating a place setting, appropriate table manners. **(1)**

5. **Business Attire & Professionalism:** Dressing sense, selecting the right clothing for a business wardrobe, Business style and professional image, Dress code, Guidelines for appropriate business attire, Grooming for success, Guidelines for appropriate business attire, Multicultural dressing, Making-up basics. **(1)**

Suggested Text books:

1. The Essentials of Business Etiquette: How to Greet, Eat, and Tweet Your Way to Success, Barbara Pachter
2. Modern Manners: Tools to Take You to the Top, Dorothea Johnson and Liv Tyle
3. Business Etiquette: 101 Ways to Conduct Business with Charm and Savvy, Ann Sabath
4. Indian Business Etiquette, Raghu Palat, Jaico Publishing

5. Business Etiquette: A Guide for the Indian Professional, Shital Kakkar Mehra

Semester II		FOU – 007: Elementary MS Word
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU007.1	REMEMBERING	SHOW basic menus of MS WORD on the screen and RECALL the functionality.
CO-FOU007.2	UNDERSTANDING	DEMONSTRATE the use of formatting, layout and printing tools of MS Word to create professional word documents.
CO-FOU007.3	APPLYING	APPLY the viewing, referencing tools of MS Word.
CO-FOU007.4	ANALYSING	ILLUSTRATE the use of reviewing tools for collaborative MS word documents.
CO-FOU007.5	EVALUATING	DESIGN and execute Mail merged documents.
CO-FOU007.6	CREATING	COMPILE a professional report using templates, Tables, Table of contents, referencing, headers, footers and page numbers.

1. Introduction to MS WORD, The Screen and its Elements, The Office Button, Quick Access, The View Buttons, Print Layout, Full Screen Reading, Web Layout, Outline , Draft, Zoom, The Status Bar, Creating a New Document, Starting on a New Blank Document, Templates, Writing and Simple Formatting - Simple formatting, Formatting with Styles, Customising Styles. **(3)**
2. Pictures and Graphics, Pictures, Insert a Picture from a File, Adjusting Picture Size, Positioning and Text Wrapping, Captions, Cross-References to Characters, Pictures and Headlines, Clip Art, SmartArt, Excel Charts, Create a New Excel Chart in Word, Insert a Chart from an Excel Project File, Tables Tools, Illustrations, Equations, Symbols. **(3)**
3. Tables of contents and other references - Create a table of contents, Edit a citation placeholder, Create a bibliography, Foot note & End Note, Captions & Index, Mail Merge – Preparation, Retrieving Merge Data, Complete the Merge. **(3)**
4. Page Layout, Margins, Adjusting the Margins, Page Setup, Setting Page Size, Orientation, Columns, Sections, Page Header and Footer, Tabs (tabulators), Page Numbers, Links, Page breaks and section breaks, Applying Multiple headers, Checking Spelling, grammar, and thesaurus. **(3)**
5. Collaboration - Protect your document with passwords, permission, and other restrictions, Tracking changes and comments - Turn track changes on or off, Review tracked changes and comments. **(3)**

Suggested Text Books:

1. Microsoft Word 2016 Step by Step, Joan Preppernau
2. Microsoft Word 2016 Introduction Quick Reference Guide - Windows Version (Cheat Sheet of Instructions, Tips and Shortcuts, Lamina

Semester II		FOU – 008: Elementary MS Powerpoint
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU008.1	REMEMBERING	SHOW basic menus of MS Powerpoint on the screen and RECALL the functionality.
CO-FOU008.2	UNDERSTANDING	DEMONSTRATE the use slide management, slide layout and reviewing tools of MS Powerpoint to create professional presentations.
CO-FOU008.3	APPLYING	USE tables, charts, smart art, animation and references in a powerpoint presentation.
CO-FOU008.4	ANALYSING	ILLUSRATE the various modes of delivery of the final powerpoint presentation.
CO-FOU008.5	EVALUATING	DEVELOP custom themes and customize slide masters and layouts.
CO-FOU008.6	CREATING	COMPILE a professional powerpoint presentation using templates, tables, images, hyperlinks, animation, templates, headers, footers and slide numbers, etc.

1. **Get started with PowerPoint:** PowerPoint basics, Start PowerPoint, Work in the PowerPoint user interface, Create and manage presentations, Open and navigate presentations , Display different views of presentations, Change

the display of content, Display and edit presentation properties, Save and close presentations, Compatibility with earlier versions, Create and manage slides , Add and remove slides, Insert new slides , Copy and import slides and content, Hide and delete slides, Divide presentations into sections, Rearrange slides and sections, Apply themes, Change slide backgrounds. **(4)**

2. **Editing and Managing Text:** Insert and manage slide text, Enter and edit text, Insert nonstandard characters, Add supplementary text to slides, Insert equations, Add a slide footer, Move, copy, and delete text, Format text placeholders, Format characters and paragraphs, Apply WordArt text effects, Configure AutoCorrect options, Check spelling and choose the best wording, Find and replace text and fonts. **(5)**

3. **Tables, Shapes and Charts:** Present text in tables, Insert tables, Format tables, Modify table structure, Embed and link to Excel content, Insert and manage visual elements, Insert and manage simple graphics, Insert, move, resize, edit and format pictures, Draw and modify shapes, Draw and add text to shapes, Locate additional formatting commands, Move and modify shapes, Format shapes, Connect shapes, Capture and insert screen clippings, Create a photo album. Create and manage business graphics, Create diagrams, Sidebar: Picture diagrams Modify diagrams, Format diagrams, Create charts, Modify charts, Manage chart data, Modify the display of chart elements, Pie charts, Format charts, and Custom chart templates. **(6)**

4. **Animation:** Add sound and movement to slides Animate text and pictures on slides, Customize animation effects , Bookmark points of interest in media clips, Add audio content to slides, Add video content to slides, Compress media to decrease file size, Hyperlink to additional resources, Add and manage slide transitions. **(5)**

5. **Finalize presentations:** Create custom presentation elements, Create custom themes, Customize slide masters and layouts, Save custom presentation templates, Save and share presentations, Save presentations in other formats, Share presentations from PowerPoint, Restrict access by using passwords, Add and review comments, Coauthor presentations. Review presentations , Add notes, Configure slides for presentation or printing , Inspect and finalize presentations, Print presentations and handouts, Prepare and deliver presentations, Adapt presentations for different audiences, Rehearse a presentation and set slide timings, Prepare presentations for travel, Present slide shows, Start the slide show, Use the slide show tools. **(5)**

Suggested Text Books:

1. Microsoft PowerPoint 2016 Step by Step, Joan Lambert
2. Microsoft PowerPoint 2016 Made Easy: A Step-by-Step Guide for PC Users, Dr. Harold Lloyd Fisher Jr., Kymitra L. Fisher (Editor)
3. Exploring Microsoft PowerPoint 2016 Comprehensive , Mary Anne Poatsy, Rebecca Lawson, Cynthia Krebs, Robert T. Grauer

Semester II		FOU – 009: Data Interpretation and Logical Reasoning
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU009.1	REMEMBERING	RECOGNIZE when additional information is needed to solve problems.
CO-FOU009.2	UNDERSTANDING	EXPRESS quantitative and non-quantitative data, associations and linkages in a logical format.
CO-FOU009.3	APPLYING	USE statistical information when reported in condensed form or as summary statistics to make informed decisions.
CO-FOU009.4	ANALYSING	DISSECT arguments, SEQUENCE relationships, EXAMINE assumptions, DETECT fallacies and INFERENCE from the same.
CO-FOU009.5	EVALUATING	ESTIMATE and CHECK answers to logical and data sufficiency problems in order to determine reasonableness, identify alternatives, and select correct options.
CO-FOU009.6	CREATING	DEVELOP and EVALUATE inferences and predictions based on the data and information provided.

Data Interpretation

1. Tables
2. Pie Charts
3. Caselets
4. Bars
5. Line Graphs
6. Data Sufficiency

Logical Reasoning

1. Blood Relations

2. Direction Sense
3. Puzzles
4. Data Arrangement, Seating Arrangement
5. Data Structures
6. Series
7. Coding-Decoding
8. Clocks and Calendars
9. Family Tree
10. Venn Diagram
11. Syllogism
12. Proposition, Assumptions
13. Statements
14. Binary Logic
15. Sets

Suggested Text Books:

1. How to Prepare for Data Interpretation, Arun Sharma, Tata Mc Graw Hill
2. Puzzles to Puzzle you, Shakuntala Devi
3. Quantitative Aptitude, Abhijeet Guha, Tata Mc Graw Hill
4. Quantitative Aptitude, Agarwal R S, S Chand
5. Data Interpretation & Data Sufficiency, Ananta Ashisha
6. The Great Book of Puzzles & Teasers, George J Summers
7. Magical Book Series: Data Interpretation, K. Kundan
8. A Modern Approach to Verbal Reasoning, R.S. Aggarwal

Semester II		FOU – 010: Verbal Ability & Reading Comprehension
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU010.1	REMEMBERING	IDENTIFY parts of speech
CO-FOU010.2	UNDERSTANDING	SUMMARIZE a given text material in defined word limits.
CO-FOU010.3	APPLYING	MAKE USE OF foreign words in English Language, idioms and phrases.
CO-FOU010.4	ANALYSING	EXAMINE given text sentences and paragraphs for errors and correct them.
CO-FOU010.5	EVALUATING	SELECT the appropriate words in a given context.
CO-FOU010.6	CREATING	CONSTRUCT meaningful sentences and COMPOSE meaningful paragraphs from jumbled ones.

Verbal Ability and Reading Comprehension

1. Grammar, Parts of Speech, Articles. Nouns, Verbs, Adjectives, Pronouns, Conjunctions, Prepositions, Adverbs.
2. Clauses, Tenses, Subject & Verb Agreement, Question Tags
3. Analogies
4. Idioms & Phrases
5. Synonyms, Antonyms,
6. Homonyms, Homophones
7. One word substitution
8. Root words, origins of words, prefixes, suffixes,
9. Foreign language words used in English
10. Contextual usage, Different usage of same word
11. Spotting Errors, Error Correction
12. Fill in the blanks, Sentence correction, Sentence completion
13. Jumbled paragraphs, Para Completion and inference
14. Reading Comprehension
15. Verbal Logic, Verbal Reasoning, Syllogisms

Suggested Text Books:

1. How to Prepare for Verbal Ability and Reading Comprehension for CAT, Arun Sharma and Meenakshi Upadhyay/Arihant
2. 30 Days to a More Powerful Vocabulary, Wilfred Funk & Norman Lewis/ Simon & Schuster

3. How to Prepare for Verbal Ability and Reading Comprehension for the CAT, Sharma and Upadhyay
4. Puzzles to Puzzle you, Shakuntala Devi
5. A Modern Approach to Verbal Reasoning, R.S. Aggarwal
6. Competition Success Review

Semester II		FOU – 011: Quantitative Ability
1 Credit	LTP: 0:2:0	Foundation Course (Elective)

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO-FOU011.1	REMEMBERING	RECALL the formulas.
CO-FOU011.2	UNDERSTANDING	INTERPRET quantitative information and INFER from it.
CO-FOU011.3	APPLYING	DEMONSTRATE number sense, including dimensional analysis and conversions between fractions, decimals, and percentages.
CO-FOU011.4	ANALYSING	EXAMINE the validity and DETECT possible biases in arguments presented in quantitative forms.
CO-FOU011.5	EVALUATING	DETERMINE when approximations are appropriate and when exact calculations are necessary.
CO-FOU011.6	CREATING	FORMULATE the problem quantitatively and USE appropriate arithmetical, and/or statistical methods to SOLVE the problems.

Quantitative Aptitude

1. Geometry
2. Trigonometry
3. Mensuration
4. Ratios and Proportion
5. Number system
6. Work and time
7. HCF & LCM
8. Algebra
9. Profit & Loss
10. Quadratic and linear equations
11. Geometric Progression
12. Percentages
13. Averages
14. Partnership (Accounts)
15. Time-Speed-Distance
16. Surds and Indices
17. Inequalities
18. Logarithms

Suggested Text Books:

1. Shakuntala Devi, Puzzles to Puzzle you
2. Quantitative Aptitude, Abhijeet Guha, Tata Mc Graw Hill
3. Quantitative Aptitude, Agarwal R S, S Chand
4. Data Interpretation & Logical Reasoning, Gautam Puri
5. Logical Reasoning and Data Interpretation, Nishit K. Sinha
6. Data Interpretation & Data Sufficiency, Ananta Ashisha

Subject Core (SC) Courses - Semester II
Specialization: Marketing Management

Semester II		205MKT: Marketing Research
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Marketing Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205MKT.1	REMEMBERING	DESCRIBE the key concepts involved in the Marketing Research.
CO205MKT.2	UNDERSTANDING	EXPLAIN various research designs, data sources, data collection methods, instruments, sampling methods and analytical tools used in Marketing Research.
CO205MKT.3	APPLYING	APPLY the concepts of marketing research in solving real-life marketing problems.
CO205MKT.4	ANALYSING	ANALYSE data and draw appropriate Inferences to address real-life marketing issues.
CO205MKT.5	EVALUATING	DESIGN a market research proposal for a real life marketing research problem and EVALUATE a market research proposal.
CO205MKT.6	CREATING	PLAN and UNDERTAKE qualitative or quantitative marketing research and demonstrate the ability to analyse data to resolve real-life marketing issues.

- 1. Introduction to Marketing Research:** Definitions - Marketing Research, Market Research, Scope and Limitations of Marketing Research, Role of Information in Marketing Decisions, Value and Cost of Information, Marketing Information System and Marketing Research, Marketing Decision Support System, Threats to Marketing Research, Relationship between Marketing Research & Marketing, Organizing Marketing Research function, Evaluating utility of Marketing Research, Online Marketing Research, Recent Trends in Marketing Research, Marketing Research Industry in India. (5+2+2)
- 2. Marketing Research Proposal:** The marketing research brief, The Marketing decision problem and marketing research problem, Defining the marketing research problem, developing the research approach, The decision maker & the environment, alternative courses of action, objectives of decision maker, consequences of alternative courses of action, Translating decision problem to research problem, The marketing research proposal (Background - basic problem/opportunity, Objectives, Research Design – Qualitative & Quantitative approaches, Data Requirements, Data collection methods, Data collection instruments, Population definition, Sample Plan, Sample size, Sampling Methodology, Statistical analysis, Cost Estimates, Time line, Appendices), Report Writing, Ethical Issues in Marketing Research – participant issues, sponsor issues, corporate espionage, code of ethics. (5+2+2)
- 3. Advanced Analytical Tools:**
 - (a) Conjoint Analysis:** Conceptual basis, procedure, type of data required, key decision, how to interpret output, applications to study trade off patterns of consumers as related to different levels of marketing mix elements (Question on interpretation of output is expected)
 - (b) Factor Analysis:** Conceptual basis, type of data required, procedure, PCA, Interpreting factor matrix (factor loadings, communalities, Eigen value), determining number of factors using latent root criteria & scree test, interpreting & naming factors, applications in consumer behavior studies (interpretation of output is expected)
 - (c) Cluster Analysis:** Conceptual basis, type of data required, procedure, clustering methods – single linkage rule, how to interpret output, applications related to psychographic & lifestyle market segmentation (interpretation of output is expected)
 - (d) Multi- dimensional Scaling & Perceptual Mapping:** Conceptual basis, type of data required, key decision-attribute based versus non-attribute based approaches, procedure, how to interpret output, applications related to target market selection & positioning (interpretation of output is expected)
 - (e) Discriminant Analysis (Two Group Case):** Conceptual basis, type of data required, determining the coefficients, interpreting discriminant function & classifying subjects using discriminant function, applications in marketing (interpretation of output is expected) (9+2+2)
- 4. Marketing Research Applications - I:**
 - (a) Sales Analysis and Forecasting:** Mining internal customer and sales data, In-store shopper marketing research and Retail shop audits, margin trend data, targeting best customers, identifying most efficient and effective advertising and promotion methods to reach existing consumers, Consumer panels, Customer satisfaction research, Concept of Market demand and Market potential, Forecasting, Forecasting methods, Choosing a forecast model, forecast errors. Moving Average and Exponential Methods, Decomposition Methods, Regression Models.

- (b) **New Product Development and Test Marketing:** marketing information for new markets, new product categories, new product concepts, new product design and market validation research, test marketing – uses, types, methods, limitations. Conjoint analysis for understanding consumer preferences and application to product design.
- (c) **Market Segmentation and Positioning:** researching traditional market segments, defining meaningful segments, assessing existing product strength and line extension potential, creative positioning strategy, repositioning strategy research, defining go-to-market strategy, current and potential markets. Use of Factor analysis and perceptual maps.
- (d) **Pricing research:** Pricing research and pricing strategy decisions, optimum price-product-feature configurations and market positioning opportunities. (8+2+2)
- 5. Marketing Research Applications - II:**
 - (a) **Brand Research:** brand concepts, brand names, brand power research, brand equity survey measurements, Brand tracking studies.
 - (b) **Advertising Research:** Concept testing research – evaluating advertising concepts, ad theme concepts and appeals, ad recall surveys, message and theme salience, impact measures, buying motivation and association measures, media research like readership surveys, Media audience tracking studies, TRP, Limitations of advertising research.
 - (c) **International Marketing Research:** Marketing research in international context - importance, complexities and issues, International secondary data sources, Primary data collection methods and complexities of data collection in international marketing research, Online data sources and research, Issues in multi-country data analysis - Data comparability and validity problems, major sources of errors, Report preparation and presentation.(8+2+2)

Note: A mini marketing research project can be given in groups to students for concurrent evaluation.

Suggested Text Books:

1. Marketing Research, G C Beri, TMGH
2. Marketing Research - An Applied Orientation, Malhotra and Dash, Pearson Education.
3. Marketing Research, Churchill, Jr, G.A. and D. Iacobucci, South Western: Thomson.
4. Marketing Research, Zikmund, Babin, Cengage Learning
5. Marketing Research, Boyd, H.P., R. Westfall and S. F. Stasch, Delhi: A.I.T.B.S.
6. Marketing Research, Burns, G.A. and D. Bush, South Western: Thomson.

Suggested Reference Books:

1. Marketing Research, Green, P.E., Tull, D.S. and G. Albaum, New Delhi: Prentice Hall of India.
2. Marketing Research, Suja Nair
3. Marketing Research, Luck, D.J. and R.S. Rubin, New Delhi: Prentice Hall of India.
4. Marketing Research, Tull, D.S. and D.I. Hawkins, New Delhi: Prentice Hall of India.

Semester II		206MKT: Consumer Behavior
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Marketing Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO206MKT.1	REMEMBERING	RECALL the factors influencing Consumer's purchase decision making process.
CO206MKT.2	UNDERSTANDING	OUTLINE consumer and organizational buyer behavior process.
CO206MKT.3	APPLYING	APPLY concepts of consumer behavior to real world marketing decision making.
CO206MKT.4	ANALYSING	ANALYZE the consumer decision making process and the role of different determinants that affect the buying decision process.
CO206MKT.5	EVALUATING	EXPLAIN the new trends influencing buyer behavior and its effect on new age Indian Consumer.
CO206MKT.6	CREATING	DISCUSS the consumer and organizational buying behavior process for a variety of products (goods/services).

- 1. Introduction to Consumer Behavior:** Definition, Consumer and Customers, Buyers and Users, Organizations as Buyers, Use of Market Segmentation in Consumer Behavior, The Changing Patterns of Consumer Behavior in the context of the evolving Indian Economy, The Internet, e-commerce, and information technology and the changing consumer marketplace, New Trends in Consumer Behavior and its Applications in Marketing. (4+1)
- 2. Individual Determinants of Consumer Behavior:**

(a) Consumer Personality – Personality, Self-concept, Overview of Personality Theories, Brand Personality, Emotions.

(b) Consumer Perception - Sensation (Exposure to Stimuli), Factors that Distort Individual Perception, Overview of Price Perceptions, Perceived Product & Service Quality and Consumer Risk Perceptions.

(c) Consumer Learning, Memory and Involvement - Components of Learning, Behavioral Theory, Cognitive Learning Theory, Concept of Involvement, Dimensions of Involvement, Involvement and Types of Consumer Behavior, Overview and Application of Cognitive Response Model.

(d) Consumer Attitudes - Functions of Attitude, Attitude Models, Relationship between Attitude, Beliefs, Feelings and Behavior, Learning Attitudes, Changing Attitudes, Attitude Change Strategies for marketers.

(e) Consumer Motivation - Needs and Goals, Motivational Conflict, Defense Mechanisms, Motive Arousal, Overview of Motivational Theories, Overview of Maslow's hierarchy of needs. (11+1)

3. Environmental Influences on Consumer Behavior:

(a) Cultural Influences on Consumer Behavior – Concept of Culture, Values, Sub-cultures, Influence of Indian Culture on Consumers, Multiplicity of Indian Cultures and their influence on consumer behavior, Cross-cultural Influences.

(b) Social Class and Group Influences on Consumer Behavior - Concept of Social Class, Social Sub-Class, Money and Other Status Symbols, AIO classification of Lifestyle, VALS Typology, Source of Group Influences, Types & Nature of Reference Groups, Reference Group Influences and Applications, Group Norms and Behavior, Family Life Cycle Stages, Family Purchases, Family Decision-making, Purchasing Roles within family, Word-of-Mouth Communications within Groups, Opinion Leadership.

(c) Indian Consumer: Social classes in India – Overview of old and new Socio-Economic Classes (SEC) in Urban & Rural Markets, Characteristics of BoP Consumers, Gen Z Consumers, HNI Consumers in India.

(d) Diffusion of Innovation - Types of Innovation, Diffusion Process, Factors Affecting the Diffusion of Innovation, The Adoption Process. (11+1)

4. Consumer Decision Making Process:

(a) Problem Recognition - Types of consumer decisions, types of Problem Recognition, Utilizing problem recognition information

(b) Search & Evaluation - Types of information, Sources of Information Search, Search, Experience and Credence Aspects -Marketing Implications, Situational Influences on Purchase Decisions, Nature of Situational Influence, Situational Variables

(c) Purchasing Process - Why do people shop? Store & Non-store Purchasing Processes, Purchasing Patterns

(d) Post-purchase Evaluation & Behavior - Consumer Satisfaction, Dissatisfaction, Customer Delight, Consumer Complaint Behavior, Post- Purchase Dissonance.

(e) Consumer Decision Models - Types of Consumer Decisions, Nicosia Model of Consumer Decision-making, Howard-Sheth Model, Engel, Blackwell, Miniard Model (11+1)

5. Organizational Buying Behavior: Introduction, Organizational Buyer Characteristics, Purchase and Demand Patterns, Involvement and Types of Organizational Buying Decisions, Factors Influencing Organizational Buyer Behavior, organizational Buyer Decision Process, Organizational Buying Roles.(3+1)

Note: Live examples and cases to be discussed.

Suggested Text Books:

1. Consumer Behavior, David L. Loudon & Albert J. Della Bitta, Tata McGraw Hill, 4th Edition
2. Consumer Behavior, Hawkins, Mothersbaugh, Tata McGraw Hill
3. Consumer Behavior, Batra, Kazmi, Excel Books
4. Consumer Behavior, Leon Schiffman, Leslie Kanuk, S.Ramesh Kumar, Pearson, 10th Edition
5. Consumer Behavior, Engel, Blackwell & Miniard
6. Consumer Behavior - An Indian perspective, Dr. S.L Gupta, Sumitra Pal, Sultan Chand and Sons
7. Consumer Behavior - In Indian Perspective, Suja R. Nair, Himalaya Publishing House.
8. Why we Buy: The Science of Shopping, Paco Underhill, Simon and Schuster Paperbacks.

Suggested Reference Books:

1. We are like that only by Rama Bijapurkar, Penguin
2. The Marketing White Book, Business World
3. Economic Times, Business Standard, Mint, Business world. (Brand equity & Brand wagon)

Additional Reference Material:

1. Labour Problem and Social Welfare in India, Memoria, C. B., Kitab Mahal Allahabad
2. Labour Welfare, Trade Unionism and Industrial Relation, Puneekar, S. D. , Himalaya Publishing House, Bombay.
3. Labour Welfare and Social security, Kohli, A. S. and Sarma S. R., Anmol Publications Pvt. Ltd., New Delhi.
4. Child Labour in India, Misra, L., Oxford University Press, New Delhi.
5. Personnel Problems and Labour Welfare, Mathur D. C., Mittal Publication. New Delhi.

Suggested Reference Books:

1. Female Labour in India, Sharma Usha, Mittal Publication New Delhi
2. Aspects of Labour Welfare and Social Security, A.M.Sharma
3. Labour Problems and Social Welfare, R.C. Saxena
4. Labour economics and social welfare, Dr. B.P. Tyag

Semester II		218HRM: Lab in Recruitment and Selection
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO218HRM.1	REMEMBERING	DESCRIBE the key concepts such as Job Specification, Job description, Recruitment and Selection.
CO218HRM.2	UNDERSTANDING	COMPARE and CONTRAST various methods of Recruitment and Selection.
CO218HRM.3	APPLYING	DEVELOP Job Specifications and Job descriptions in a variety of context.
CO218HRM.4	ANALYSING	ANALYZE various Personality types.

CO218HRM.5	EVALUATING	EXPLAIN the profiling techniques used to test Personality, Aptitude, Competency.
CO218HRM.6	CREATING	COMPILE a list of questions for Recruitment and Selection interviews.

1. **Comparative study of 10 recruitment advertisements** (5 from Newspaper & 5 from job portals) & analysis of the same in the light of : Job Specification/ description, Mode of selection, Other details - Documentation for Recruitment
2. **Profiling Techniques** : Personality, Aptitude, Competency
3. **Interviewing**: Study of Interview modes, List of questions for interviewers, Personal, Telephonic.

Suggested Text Books:

1. Human Resource and Personnel Management, K Aswathappa, Tata McGraw Hill
2. Effective Recruitment and Selection Practices, Alan Nankervis, Robert Compton, Bill Morrissey.
3. Recruitment and Selection (Developing Practice), Chartered Institute of Personnel and Development
4. Successful Interviewing and Recruitment, Rob Yeung, Kogan ,Page Publishers

Semester II		219HRM: Learning & Development
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO219HRM.1	REMEMBERING	DESCRIBE the key concepts associated with Learning & Development
CO219HRM.2	UNDERSTANDING	EXPLAIN the training process and the various methods of training for various categories of employees in a variety of organizational contexts.
CO219HRM.3	APPLYING	IDENTIFY training needs of various categories of employees in a variety of organizational contexts.
CO219HRM.4	ANALYSING	EXAMINE the impact of training on various organizational and HR aspects.
CO219HRM.5	EVALUATING	EVALUATE the training process of various categories of employees in a variety of organizational contexts.
CO219HRM.6	CREATING	DESIGN a training programme for various categories of employees in a variety of organizational contexts.

1. **Learning**: Nature of learning, Learning-its influence on employee behavior, Learning Process, Learning and HRD, Learning styles, elements and Profile, Types of Learning, Adult Learning, Androgogy, Implementing Learning/HRD needs. Introduction to Training: Definition, Concept, Meaning, Nature, Need for Training and Development, Types of Training, Effective Learning and Training. **(4+2)**
2. **Process of Training**: Identification of job competencies, Training Need Analysis and Assessment, Training for Performance, Steps in Training, Role and Responsibilities of HRD and Training Specialist. **(4+2)**
3. **Designing and Implementation of Training Plan**: Objectives of Designing Training Plan, Budgeting of Training, Trainer and Trainee Identification, Designing Module, Designing and Conducting Specific Training and Development Programme. Methods of Training: Methods & Technique of Training, On Job Training, and Competency based training, Online Training, E-Learning, Multimedia Training, Management Development Program, New Employee Training. **(4+2)**
4. **Evaluation of Training Program**: Introduction, concept & principles, Evaluating Training and Results-Kirkpatrick Model of Evaluation, CIO of Training, ROT of Training, Cost-Benefit analysis. **(4+2)**
5. **Management Development**: Training and Coaching, Mentoring, Training Practices, Train the trainer, Training for Diversity, Impact of Training on HRD. **(4+2)**

Suggested Text Books:

1. Employee Training & Development, Raymond Noe
2. Training and Development, S K Bhatia
3. The ASTD Training and Development Handbook: A Guide to Human Resource Development, Robert Craig, McGraw-Hill.
4. Creative Training Techniques Handbook, Robert W. Pike, CSP

Semester II		220HRM: Public Relations & Corporate Communications
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
-----	---------------------	-----------------

CO220HRM.1	REMEMBERING	DESCRIBE the various forms of Corporate Communications from a HR perspective.
CO220HRM.2	UNDERSTANDING	EXPLAIN the role of Public Relations & Corporate Communications in HRM.
CO220HRM.3	APPLYING	PLAN and EXECUTE a PR activity.
CO220HRM.4	ANALYSING	EXAMINE the PR campaign & strategies of real world organizations.
CO220HRM.5	EVALUATING	DEVELOP a strategic communication plan for a real life Corporate communication issue.
CO220HRM.6	CREATING	COMPLIE an analytical report on the PR activities and communication strategies designed & practiced by the organizations and IMPROVE on it.

1. **Public Relations & Corporate Communication** : Introduction to corporate communication, Public relations writing-writing to inform, writing to persuade, Design & lay out, Online public relations (4+1)
2. **Media Relations**: Building maintaining relationship with credibility with media, Developing methodologies for successful practice of media relations (5+1)
3. **Public Relations**: Concept, theory, history & practice of public relations, Importance of PR for HR professionals, PR campaign & strategies for PR, Evaluating PR activities (5+1)
4. **Communication Management** : Presentation skills, Developing strategic communication plan, Synthesizing internal & external initiatives, Event Management (4+1)
5. **Field Study/ Desk Research**: Student along with faculty are expected to study PR activities and communication strategies designed & practiced by the organizations in the area & prepare a report. (7+1)

Suggested Text Books:

1. Public Relations, Phillip Henslowe, Chartered Institute of PR

Suggested Reference Books:

1. Public Affairs in Practice, Stuart Thomson & Stevie John, Chartered Institute of PR
2. Develop your PR Skills, Neil Richardson & Lucy Laville, The Sunday Times,
3. Creativity in PR, Andy Green, Chartered Institute of PR
4. Running a PR Department, Mike Beard, Chartered Institute of PR

Semester II		221HRM: HR Analytics
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221HRM.1	REMEMBERING	ENUMERATE the key concepts related to the subject matter.
CO221HRM.2	UNDERSTANDING	DEMONSTRATE experimentation and innovation.
CO221HRM.3	APPLYING	USE thinking & decision making ability beyond the existing capabilities and present environment.
CO221HRM.4	ANALYSING	ANALYSE the behavioral Patterns of an individual & Map the competency- the audit Perspective.
CO221HRM.5	EVALUATING	EXPLAIN the innovative and formulate strategies which enhance innovative skills and Promote Innovation.
CO221HRM.6	CREATING	FORMULATE the linkage between HR Analytics and Business Analytics.

1. **Introduction & Concept**: Disruptive Technological Era: Evolution of Industry Revolution 4.0 and aspect of HR, Big data in HR, understanding of Machine Learning, sensors and cloud computing, Business Intelligence in HR. **(4+2)**
2. **Importance of HR Analytics**: Role and Responsibilities of HR Analytics, Framework of contemporary HR Analytics,- Predictive tools and Applications in solving problems using HR analytics. Gartners Analytics Maturity Model.**(4+2)**
3. **Innovation**: Concept of innovation, Kinds of Innovation, Developing Innovative culture in an organization. HR analytics linkage to business outcomes, Measuring use of HR analytics impact on business outcome **(4+2)**
4. **Strategy Formulation**: Redefining HR Policies and Practices, Robust competency mapping, understanding future of work and workplace, Decision framework. Use of HR analytics in workforce planning: talent acquisition, talent development, talent compensation, talent engagement and retention **(4+2)**
5. **Learning from Analysis**: Case studies and best practices in use of HR Analytics in industry (5 cases) **(4+2)**

Suggested Text Books:

1. Winning on HR analytics: Leveraging data for competitive advantage, Ramesh Soundararajan and Kuldeep Singh, Sage Publication

2. The Practical Guide to HR Analytics: Using Data to Inform, Transform, and Empower HR Decisions Paperback, Shonna D. Waters , Valerie N. Streets , Lindsay Mcfarlane , Rachael Johnson-murray
3. Human Capital Analytics: How to Harness the Potential of Your Organization's Greatest Asset, Boyce Byerly, Gene Pease, and Jac Fitz-enz
4. Doing HR Analytics: A Practitioner's Handbook with R Examples, Lyndon, Mr. Sundmar, Createspace Independent Pub
5. The Power of People: Learn How Successful Organizations Use Workforce Analytics to Improve Business Performance, Guenole Nigel, Ferrar Jonathan, Feinzig Sheri, Pearson Publication

Semester II		222HRM: Conflict & Negotiation Management
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO222HRM.1	REMEMBERING	DEFINE the key concepts of the subject matter.
CO222HRM.2	UNDERSTANDING	EXPLAIN the negotiation process, Zone of possible agreement (ZOPA) and Best alternative to a negotiated agreement (BATNA)
CO222HRM.3	APPLYING	APPLY the negotiation process, Zone of possible agreement (ZOPA) and Best alternative to a negotiated agreement (BATNA) for successful negotiations.
CO222HRM.4	ANALYSING	APPRAISE the importance of in business negotiations and managing conflicts.
CO222HRM.5	EVALUATING	DEVELOP the logical thinking, communication skills and other prerequisite for successful business negotiations and handling organizational conflict.
CO222HRM.6	CREATING	COMBINE the theoretical concepts practical methods of managing and resolving organizational conflict and negotiation styles in the organizational context.

1. **Fundamentals of Negotiation:** definition: Introduction to the importance of negotiation, its importance and Nature of negotiation, negotiation Vs other interactions, Dimensions of Negotiation, Structure and the prerequisites of successful negotiation, types of negotiation , Strategy & planning of negotiation, four stage model of negotiation. **(4+2)**
2. **Negotiation Process:** Perception & Preparation for the negotiations, goal setting for the negotiation , options and criteria for negotiation, role of Communication & Influence in the negotiation process , Identifying BATNA (Best alternative to a negotiated agreement) and ZOPA (zone of possible agreement) in the negotiation process , Ethics in negotiation, Agreement **(4+2)**
3. **Negotiation styles:** Leigh Thompson's 5 negotiation mental models, importance of establishing trust and building a Relationship in negotiation , Win-Win Negotiation, use of creativity and problem Solving in Negotiations, application of Transactional analysis for negotiations. **(4+2)**
4. **Conflict Management:** Introducing the concept of conflict management, Definition, importance and Models of conflict (Process & Structural), Sources of conflict, analyze the relationship between conflict & performance in team, Advantages & Disadvantages of Conflict. Creating conducive climate to resolve the conflict, apply the fundamentals of conflict management to build teams in the organizations, design the process for conflict management and create the situations to minimize the conflicts in an organizations. **(4+2)**
5. **Types of Conflicts:** understanding the importance of developing mechanism to manage conflicts in the organizations, managing interpersonal and intra personal conflict, and conflict resolution, dealing with difficult subordinates, boss & colleagues, evaluate the organization conflict, analyze the techniques to resolve team conflict, creating the strategies to manage organizational conflict, understand the concept of third party conflict resolution (ADR), demonstrate the use of third party conflict resolution (ADR). Simulation: Case study on best business negotiations and conflict management, Role Play. **(4+2)**

Suggested Text Books:

1. Negotiation: Communication For Diverse Settings, Spangle, Michael L. ; Isenhardt, Myra Warren : Sage Publications
2. The Negotiation Field book Simple Strategies to Help you negotiating everything, Grande, Lum. New Delhi : TATA MCGRAW HILL Publishing Company Limited
3. Negotiation / Harvard Business Essentials. U S A, Harvard Business Publishing Corporation
4. How to Conduct Effective Negotiations, Forsyth, Patrick Jaico Publishing House
5. Managing Workplace Conflicts, Subbulakshmi, V., Hyderabad : ICAI University Press
6. The Power of Positive Confrontation : The Skills You Need To Know To Handle Conflicts At Work, At Home And In Life, Pachter, Barbara . Magna Publishing Co. Ltd.

Suggested Reference Books:

1. Getting to Yes: Negotiating Agreement without Giving In, Roger Fisher, William Ury, Bruce Patton
2. Bargaining for Advantage: Negotiation Strategies for Reasonable People, G. Richard Shell
3. Secrets of Power Negotiating: Inside Secrets from a Master Negotiator, Roger Dawson

Subject Core (SC) Courses - Semester II
Specialization: Operations & Supply Chain Management

Semester II		205OSCM: Service Operations Management – I
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205OSCM.1	REMEMBERING	DESCRIBE the nature and CHARACTERISTICS of services and the services economy.
CO205OSCM .2	UNDERSTANDING	DESCRIBE the service design elements of variety of services.
CO205OSCM .3	APPLYING	USE service blueprinting for mapping variety of real life service processes.
CO205OSCM .4	ANALYSING	ANALYSE alternative locations and sites for variety of service facilities.
CO205OSCM .5	EVALUATING	JUDGE and EXPLAIN the service orientation at variety of service facilities / organizations.
CO205OSCM .6	CREATING	CREATE flow process layouts for variety of services.

1. Understanding Services: The Service Economy, Service Definitions, Facilitating Role of Services in an Economy, Economic Evolution, Stages of Economic Development, Nature of the Service Sector, The Experience Economy, Consumer Service Experience, Business Service Experience, Service-Dominant Logic, Distinctive Characteristics of Service Operations - Customer Participation, Simultaneity, Perishability, Intangibility, Heterogeneity, Non-transferrable Ownership. The Service Package, Grouping Services by Delivery Process, Open-Systems View of Service Operations Management. **(7+2)**

2. Designing the Service Enterprise: New Service Development, Sources of Service Sector Growth, Information Technology, The Internet as a Service Enabler, Innovation, Changing Demographics, Innovation in Services, New Service Development, Technology in Service Innovation, Challenges of Adopting New Technology in Services, Readiness to Embrace New Technology, Service Design Elements, Customer Value Equation, Strategic Positioning through Process Structure, Service Blueprinting, Taxonomy for Service Process Design, Degree of Divergence, Object of the Service Process, Type of Customer Contact, Generic Approaches to Service System Design, Production-Line Approach, Customer as Co-producer, Customer Contact Approach, Information Empowerment, Intellectual Property. **(7+2)**

3. The Service Encounter: Concept of the Service Encounter, Role of Technology, The Emergence of Self-Service, The Service Encounter Triad, Encounter Dominated by the Service Organization, Contact Personnel-Dominated Encounter, Customer-Dominated Encounter, The Service Organization, Culture, Empowerment, Control Systems, Customer Relationship Management, Contact Personnel - Selection & Training, Creating an Ethical Climate. The Customer Expectations and Attitudes, The Role of Scripts in Coproduction, Creating a Customer Service Orientation, Service Profit Chain. **(7+2)**

4. Service Facility Location: Strategic Location Considerations, Competitive Clustering, Saturation Marketing, Marketing Intermediaries, Substitution of Communication for Travel, Separation of Front from Back Office, Impact of the Internet on Service Location, Site Considerations, Geographic Information Systems, Facility Location Modeling Considerations, Geographic Representation, Number of Facilities, Optimization Criteria, Facility Location Techniques, Cross-Median Approach for a Single Facility, Huff Model for a Retail Outlet, Location Set Covering for Multiple Facilities, Regression Analysis in Location Decisions. **(7+2)**

5. Service Facility and Process Flows: Environmental Psychology and Orientation, Servicescapes, Behaviors in Servicescapes, Environmental Dimensions of Servicescapes, Facility Design, Nature and Objectives of Service Organizations, Land Availability and Space Requirements, Flexibility, Security, Aesthetic Factors, The Community and Environment. Process Analysis, Types of Processes, Flowcharting, Gantt Chart, Process Terminology, Facility Layout, Flow Process Layout and the Work Allocation Problem, Job Shop Process Layout and the Relative Location Problem. **(7+2)**

Suggested Text Books:

1. Successful Service Operations Management, Metter, King–Mettters, Pulliman& Walton, Thomson India
2. Service Management, Fitzsimmons and Fitzsimmons, Irwin/McGraw-Hill
3. Services Marketing Operations and Management, Vinnie J Juhari, Kirti Dutta, Oxford University Press
4. Services Sector Management An Indian Perspective, C. Bhattacharjee
5. Services Business Management, Dr. Abhay Kulkarni, Himalaya Publication.

Suggested Reference Books:

1. Service operations management - Improving service delivery, Robert Johnston, Graham Clark, Pearson Publication
2. Baldrige – Just What the Doctor Ordered, Quality Progress, Nelson

Semester II		206OSCM: Supply Chain Management
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO206OSCM.1	REMEMBERING	DESCRIBE the key concepts of Supply Chain Management and the – driving forces in contemporary Supply Chain Management.
CO206OSCM.2	UNDERSTANDING	EXPLAIN the structure of modern day supply chains.
CO206OSCM.3	APPLYING	IDENTIFY the various flows in real world supply chains.
CO206OSCM.4	ANALYSING	COMPARE and CONTRAST push and pull strategies in Supply Chain Management.
CO206OSCM.5	EVALUATING	EXPLAIN the key Operational Aspects in Supply Chain Management.
CO206OSCM.6	CREATING	DISCUSS the relationship between Customer Value and Supply Chain Management.

1. **Supply Chain Structure:** Shift from enterprise to network, Structure of a SC, Push based SC, Pull based SC, Tradeoff between Push & Pull, Identifying appropriate Push & Pull Strategy for SC, Commodity & cost centric SC, Agile SC **(7+2)**
2. **Flows in SC:** Forward & Reverse SC, Product, Services, Information, Funds, Demand, Forecast flows in Upstream & Downstream direction **(7+2)**
3. **Total SCM:** Changing business landscape – driving forces: Shift from Operations to Services, Impact of globalization & technological revolution, Shift from linear SC to collaborative networks, power shifts in the SC-demands for flexibility of partnerships, core competencies, growth in outsourcing, Increased complexity of processes **(7+2)**
4. **SCM Building Blocks:** Overview of customer focus & demand, resources & capacity management, procurement & supplier focus, inventory management, operations management, distribution management in SCM. Key Operational Aspects in SC: Creating the Lean SC – JIT Purchasing, JIT Transportation and JIT Production. Kanban, VMI. **(7+2)**
5. **Customer Value:** Empowered consumer, Customer focused Marketing & SC service outputs, customer service – availability, operational performance, reliability. Customer satisfaction – customer expectations, enhancing customer satisfactions, limitations of customer satisfaction. Customer success – achieving customer success, value added services, customer value requirement mapping, CRM. **(7+2)**

Suggested Text Books:

1. Supply Chain & Logistics Management, Bowersox, Closs & Cooper, Tata McGraw Hill
2. Designing & Managing the SC – Concepts, Strategies & Case studies, Levi, Kaminsky et. al., Tata McGraw Hill
3. Supply Chain Management: Strategy Planning & Operations, Sunil Chopra, Peter Meindl, Pearson

Suggested Reference Books:

1. Supply Chain Management Process, System & Practice, N.Chadrasedkaran, Oxford
2. Total Supply Chain Management, Basu & Wright, Elsevier
3. Logistics Management & Strategy, Harrison and van Hoek, Prentice Hall
4. Supply Chain Management, Mentzer, Response Books.
5. Logistics Management: The Supply Chain Imperative, Vindo Sople, Pearson Education.

Subject Elective (SE) Courses - Semester II
Specialization: Operations & Supply Chain Management

Semester II		217OSCM: Planning & Control of Operations
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217OSCM.1	REMEMBERING	DESCRIBE the building blocks of Planning & Control of Operations.
CO217OSCM.2	UNDERSTANDING	EXPLAIN the need for aggregate planning and the steps in aggregate planning.
CO217OSCM.3	APPLYING	MAKE USE OF the various forecasting approaches in the context of operations planning process.
CO217OSCM.4	ANALYSING	ILLUSTRATE how capacity planning is done in organizations and its relationship with MRP.
CO217OSCM.5	EVALUATING	EXPLAIN the importance of scheduling in operations management.
CO217OSCM.6	CREATING	CREATE a Bill of Materials.

- 1. Planning & Control of Operations:** Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation. **(5+1)**
- 2. Demand Forecasting:** Forecasting as a planning tool, Why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system. **(5+1)**
- 3. Aggregate Production Planning:** Planning Hierarchies in operations, Aggregate Production planning, Need for Aggregate Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling. **(5+1)**
- 4. Resources Planning:** Dependent Demand Attributes, Planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services. **(5+1)**
- 5. Scheduling of Operations:** Need for Scheduling, Scheduling – Alternative terms, Loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in Mass production systems. **(5+1)**

Suggested Text Books:

1. Operations Management: Theory and Practice, B Mahadevan, Pearson.
2. Operations Management, Terry Hill, Palgrave
3. The Fundamentals of Production Planning and Control, Stephen Chapman, Pearson
4. Operations Now, Byron Fitch, TMGH.

Semester II		218OSCM: Productivity Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO218OSCM.1	REMEMBERING	DEFINE various types of productivity and measures of productivity.
CO218OSCM.2	UNDERSTANDING	DEMONSTRATE the linkages between various measures of productivity.
CO218OSCM.3	APPLYING	APPLY Value Analysis and Value Engineering principles to simple situations related to operations management.
CO218OSCM.4	ANALYSING	APPLY various types of charts and diagrams to carry out work study and method study.
CO218OSCM.5	EVALUATING	DETERMINE the Standard Time using Techniques of Work Measurement.
CO218OSCM.6	CREATING	ELABORATE upon the concepts of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing.

1. **Introduction:** Importance and significance of productivity, Productivity concepts – Macro and Micro factors of productivity, productivity from product and service perspective, different inputs and productivity measures, Various ratios related to finance, material and service. **(3+1)**
2. **Value Analysis and Value Engineering:** Concept of Cost, Price and Value, Role in Productivity, Procedure – Application and productivity benefit model. **(3+1)**
3. **Work Study:** Importance of work study – Method Study and Work Measurement – Pioneers of Performance Measurement. **Method Study:** Need for Method Study – Procedure of Method Study –Process Flow charts, Man machine diagrams ,Principles of Motion Economy. **(6+1)**
4. **Work Measurement:** Techniques of Work Measurement including Estimating, Stopwatch Time Study, Predetermined Time Standards, Synthetic Estimates of Work, Times, Activity Sampling. Computation of Standard Time – Elements – Types of Elements – Performance Rating – Allowances – Need for Allowances – Types of Allowances. **(8+1)**
5. **Advanced Methods of Productivity and service level enhancements:** Overview of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing, Use of Technology in productivity and service enhancements: ITes, CAD, CAM, CIM, CMMI. **(5+1)**

Suggested Text Books:

1. Productivity Measurement for Business Excellence, Prem Vrat, G.D. Sardana, B.S. Sahay, Narosa Publishing House.
2. Operations Management for Competitive Advantage, Richard B Chase, Jacobs, Aquilano, Agarwal,
3. Introduction to Work Study, Editor - Geirge Kanawaty, Universal Publishing
4. Production and Operations Management, S.N.Chary, TMGH

Semester II		219OSCM: Inventory Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO219OSCM.1	REMEMBERING	DEFINE the key terms associated with Inventory Management.
CO219OSCM.2	UNDERSTANDING	CLASSIFY various types of inventory, and inventory costs.
CO219OSCM.3	APPLYING	CALCULATE Economic Order Quantity and stock levels under various conditions.
CO219OSCM.4	ANALYSING	COMPARE and CONTRAST various methods of inventory control.
CO219OSCM.5	EVALUATING	ASSESS various factors influencing Make or Buy decisions.
CO219OSCM.6	CREATING	SOLVE problems based on ABC classification of inventory.

1. **Elements of Inventory Management:** Inventory concepts, Pressures for Low Inventory, Pressures for High Inventory, Role of inventory in Operations, Types of inventory – seasonal, decoupling, cyclic, pipeline, Safety stock. Inventory costs – carrying costs, ordering costs, shortage costs. **(5+1)**
2. **Inventory Control systems:** Continuous Review (Q) systems, Periodic Review (P) systems, ABC Classification system, Issues in the P and Q systems of inventory control. **(5+1)**
3. **Economic Order Quantity Models:** The Basic EOQ Model, Production Quantity Model, Computer Solution of EOQ model with MS Excel, Quantity Discounts, Computer Solution of Quantity Discounts model with MS Excel, Reorder Point, Safety Stocks, Service Level, Reorder point with variable demand, Computer Solution of Reorder point with MS Excel, Order quantity for periodic inventory system, Order quantity with variable demand, Computer Solution of fixed period model with MS Excel. **(5+1)**
4. **Just-In-Time:** Principles of just-in-time, Core logic of JIT, Main features for stocks, Achieving just-in-time operations, Other effects of JIT, Benefits and disadvantages of JIT, Comparison with other methods of inventory management. KANBAN as a control tool. Vendor managed inventory. **(5+1)**
5. **Make Or Buy Decisions:** Factors influencing Make Or Buy Decisions-cost, quality, capacity core v/s noncore, management strategy. Evaluation of performance of Materials function: cost, delivery, quality, methodology of evaluation, Use of ratios - inventory ratios, inventory analysis like ABC, FSN: Fast slow, Nonmoving, HML-High Medium, Low, XYZ. Materials Management In JIT Environment. **(5+1)**

Suggested Text Books:

1. Operations Management: Theory and Practice, B Mahadevan, Pearson.
2. Operations Management-Process and Value Chains, Krajewski, Ritzman, Malhotra, Pearson.
3. Operations Management: Quality and Competitiveness in a Global Environment, Russell and Taylor, Wiley India.

Suggested Reference Books:

1. Introduction to Materials Management, J.R.Tony and Arnold.
2. Inventory Control and Management, Donald Waters, Wiley Student Edition.

3. Just-in-Time Manufacturing, Korgaonker, Macmillan
4. Essentials of Inventory Management, Max Muller, JAICO Publishing

Semester II		220OSCM: Theory of Constraints
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO220OSCM.1	REMEMBERING	DEFINE the key concepts of TOC.
CO220OSCM.2	UNDERSTANDING	DEMONSTRATE knowledge & understanding of the fundamentals of TOC.
CO220OSCM.3	APPLYING	IDENTIFY and mitigate both real constraints and managerial constraints.
CO220OSCM.4	ANALYSING	ILLUSTRATE the tools and techniques that help in managing constraints to improve organizational performance.
CO220OSCM.5	EVALUATING	EXPLAIN the benefits an organization may reap through the successful implementation of the TOC.
CO220OSCM.6	CREATING	DEVELOP solutions to common problems in Project Management, Operations Management and Supply Chain Management using TOC principles and methods.

1. **Thinking Process:** Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method. **(5+1)**
2. **Finance and Measures:** Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. **(5+1)**
3. **Project Management:** Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach. **(5+1)**
4. **Drum-Buffer-Rope Solution:** Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method. **(5+1)**
5. **Theory of Constraints in Supply Chain Management:** Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution. **(5+1)**

Suggested Text Books:

1. Theory of Constraints by S K Mukhopadhyay, Jaico Books.
2. The Goal by E M Goldratt and Cox J, Great Barrington, North River

Suggested Reference Books:

1. What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River
2. It's Not Luck by E M Goldratt, Great Barrington, North River
3. Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River
4. Critical Chain by E M Goldratt, Great Barrington, North River

Semester II		221OSCM: Quality Management Standards
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221OSCM.1	REMEMBERING	DESCRIBE the concepts of Quality and importance of the Quality Management Principles.
CO221OSCM.2	UNDERSTANDING	INTERPRET the requirements of ISO 9001:2015 standard.
CO221OSCM.3	APPLYING	APPLY process based thinking and risk based thinking for managing and improving the functioning of an organization.
CO221OSCM.4	ANALYSING	TAKE PART IN planning, conducting and follow-up of QMS audits directed towards maintenance and continual improvements of the QMS.
CO221OSCM.5	EVALUATING	DEVELOP skills for Corrective Action Management and Continual Improvement Project management.

CO221OSCM.6	CREATING	BUILD stakeholder confidence by managing processes in line with the latest requirements.
-------------	----------	--

1. **Quality Management Systems:** Quality, Quality Concepts, Concepts and Characteristics of Quality as a Business Imperative, Quality Management Systems Map, Advantages of the Quality Management Systems, Process approach, Seven Quality Management Principles, Organization and its Context, Needs and Expectations of Interested Parties. Need for Quality Management System, Management System Standards (MSS), High Level Structure (HLS), Integrated Management Systems, Risk Management, How processes affect each other, The Plan – Do – Check (Study) – Act Cycle (PDCA) and terminology; PDCA and its relation in business processes, Quality Policy and Objectives at all functions and levels. **(5+1)**
2. **ISO Standards:** QMS: ISO 9001 Useful Terms, ISO Supporting Standards, Understanding the terms and definitions of the ISO 9001: 2015 standard, Broad overview of the requirements of ISO 9001: 2015, The principles, structure and language of ISO 9000 and ISO 9001, Applying the ISO 9001: 2015 standard when developing and implementing a QMS. **(5+1)**
3. **Documentation and Implementation Planning:** Phased Approach Method and Tools, Executive and Management Overview, Planning, Gap Assessment and Planning, Documentation, Implementation and Training, Internal Assessment and Management Review, 3rd Party Registration Assessment, Sustain and Continual Improvement. **(5+1)**
4. **Risk Assessment:** Concept and principles of Risk Assessment, Risk Based Thinking and Management Responsibility within an effective QMS, Applying the Framework of Risk Assessment, Understand the differences between the different techniques - Root Causal Analysis, Failure Modes and Effects Analysis (FMEA), Hazard Analysis and Critical Control Points (HACCP), Capability Index. **(5+1)**
5. **Internal Audit :** Understanding and application of Internal Audit Process requirements, Planning the Audit, Scheduling the Audit, Preparing the Audit, Conducting the Audit, Documenting Audit Findings, Reporting Audit Findings, Corrective Action Follow-up, Auditing practices and techniques, Role plays and/or scenarios to relevant field, The personal and interpersonal skills and competencies required for auditing. **(5+1)**

Suggested Text Books:

1. Mastering ISO 9001:2015: A Step-By-Step Guide To The World's Most Popular Management Standard, Gregory Peckford
2. Understanding ISO 9001: 2015 Quality Management System, Virendra Kumar Gupta
3. ISO 9001: 2015 - A Complete Guide to Quality Management Systems, Itay Abuhav
4. Operations Management: An Integrated Approach, Danny Samson and Prakash Singh, Cambridge University Press.
5. Managing Quality, Barrie G Dale, Ton van der Wiele and Jos van Iwaarden (Editors), Blackwell Publishing
6. ISO 9001:2015 Standard

Semester II		222OSCM: Service Value Management
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO222OSCM.1	REMEMBERING	DEFINE the core concepts related to Service Value Chain, Service Profit Chain, Innovation, CRM, networks.
CO222OSCM.2	UNDERSTANDING	ILLUSTRATE managing the service process through service value chain.
CO222OSCM.3	APPLYING	IDENTIFY factors influencing Innovation and service organizational design.
CO222OSCM.4	ANALYSING	EXAMINE the inter-relationships between the Focal firm, Supplier Networks, Distribution Networks, etc.
CO222OSCM.5	EVALUATING	EVALUATE the role of Business Networks as partners in value creation.
CO222OSCM.6	CREATING	DEVELOP strategies built on Principles of Service Value Chain & Service Profit Chain for various types of organizations.

1. **Basic Concepts, Value, Value Processes,** Creating service value, Defining the benefit part of service value- the service product, Value creation by services marketing, Evaluating internal customer value leading to external customer satisfaction, Costing of Services- Defining the cost part of service value: service pricing, Delivering service value - Managing service delivery. **(5+1)**
2. **Service Value Chain & Service Profit Chain:** Introduction, Definitions, Significance, Managing the service process through service value chain, service value chain and service profit chain, Key elements of service profit chain – customer loyalty and satisfaction, understanding value from customer perspective, dream team cycle. **(5+1)**

3. **Value Chain Service Innovations:** Introduction, Components, Types, Models, Processes of Innovation, Evolution and Characteristics of Innovation Management, Key drivers, Factors influencing Innovation, Organizing for Innovation, Factors influencing service organizational design, Developing Innovation Strategy. **(5+1)**
4. **Managing Networks:** What is a Network? Business Networks, Network Position, Concept of Focal firm, Business Networks and CRM, Supplier Networks, Distribution Networks, Management of Networks, Supplier Relationships, Product Development, Supplier Accreditation Programmes, Process Alignment, E Procurement, Partners in Value Creation, Alliance between non-competing firms, Alliance between competing firms, Benchmarking Partners, Customer Advocacy groups, Sponsors, Partners in Value Delivery. IT Enabled Customer Services - Call Centre Operations and Management, Web-enabled Services, ERP enabled Field and Technical Support Services, Tele marketing and servicing. **(5+1)**
5. Case Studies related to Service Value Chain in Banking & Insurance, Hospital and Health Care, Travel & Tourism, Hotel & Catering, Retail and Contractual Services. **(5+1)**

Suggested Text Books:

1. Service Profit Chain: How Leading Companies Link Profit and Growth to Loyalty, Satisfaction and Value, W. Earl Sasser , Leonard A. Schlesinger, James L. Heskett
2. Competitive Advantage, Porter, Michael E, The Free Press. New York.
3. Strategic Management: a Methodological Approach, Rowe, Mason, Dickel, Mann, Mockler; Addison-Wesley

Subject Core (SC) Courses - Semester II
Specialization: Business Analytics

Semester II		205BA: Basic Business Analytics using R
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO205BA.1	REMEMBERING	IDENTIFY opportunities for creating value using business analytics and DESCRIBE the basic concepts in Business Analytics, DATA Science and Business Intelligence.
CO205BA.2	UNDERSTANDING	EXPLAIN the applications of Business Analytics in multiple business domains and scenarios.
CO205BA.3	APPLYING	DEVELOP a thought process to think like a data scientist/business analyst.
CO205BA.4	ANALYSING	ANALYZE data graphically by creating a variety of plots using the appropriate visualization tools of R.
CO205BA.5	EVALUATING	INTERPRET various data types and structures for given analytics task
CO205BA.6	CREATING	COMBINE various tools and functions of R programming language and use them in live analytical projects in multiple business domains and scenarios.

- Business Analytics Basics:** Definition of analytics, Evolution of analytics, Need of Analytics, Business analytics vs business analysis, Business intelligence vs Data Science, Data Analyst Vs Business Analyst, Types of Analytics, Tools for Analytics. Concept of insights. Importance of data in business analytics, Differences between data, information and knowledge, various stages of an organization in terms of data maturity, Options for organizations in the absence of good quality data. **(5+1)**
- Analytical decision-making:** Analytical decision-making process, characteristics of the analytical decision-making process. Breaking down a business problem into key questions that can be answered through analytics, Characteristics of good questions, Skills of a good business analyst, Overview of Business analytics applications in - Marketing Analytics, HR Analytics, Supply Chain Analytics, Retail Industry, Sales Analytics, Web & Social Media Analytics, Healthcare Industry, Energy Analytics, Transportation Analytics, Lending Analytics, Sports Analytics and Technical/Stock Analytics. Future of Business Analytics. **(5+1)**
- Fundamentals of R:** R environment, Downloading and Installing R, Using command line in R, Help, File operations in R -Reading from and Writing to a file, Writing your first code in R, Importing data from spreadsheets, text files, SAS, SPSS, Connect to RDBMS from R using ODBC, basic SQL queries in R, Exploration and transformation activities, basics of Web Scraping. **(6+1)**
- Data types & Data Structures in R:** Data types in R and its appropriate uses, Program Structure in R, Flow Control: For loop, If condition, While conditions and repeat loop, Debugging tools, Concatenation of Data, Combining Vars , cbind, rbind, Sapply, apply, tapply functions, Built-in functions in R like: seq(), cbind (), rbind(), merge(), knowledge on the various subsetting methods, summarize data by using functions like: str(), class(), length(), nrow(), ncol(), use of functions like head(), tail(), for inspecting data, summarize data, SQL join in R. Introduction to Data Structure in R, Vectors, Lists, Scalars, Data Frames, Matrices, Arrays, Factors, Use of data structures in different conditions, Advantage of using a particular approach. **(10+3)**
- Data Visualization:** Concept of Data Visualization, Popular Data Visualization tools, Exploratory Data Analysis(EDA), Data Cleaning, Data Inspection, uses of the functions like grepl(), grep(), sub(), summarize(), llist(), Using graphical functions in R for data visualization, Line Plots, Bar Plots, Bar Plots for Population, Pie chart, tableplot, histogram, Plotting with base graphics, Plotting with Lattice graphics, Plotting and coloring in R. Customizing Graphical Parameters to improvise plots, understanding GUIs like Deducer and R Commander, introduction to Spatial Analysis. **(10+3)**

Suggested Self Learning Courses : Basic and advanced Business Analytics, data mining and python courses on swayam platform - <https://swayam.gov.in/>, Courses on Business Forecasting

Suggested Text Books:

- R for Business Analytics, A Ohri
- Data Analytics using R, Seema Acharya, TMGH
- Data mining and business analytics with R, Johannes Ledolter. New Jersey: John Wiley & Sons.
- Data Mining for Business Intelligence, Concepts, Techniques and Applications, Shmueli, Patel, and Bruce: Wiley
- Business Analytics Using R - A Practical Approach, Dr. Umesh R. Hodeghatta, Umesha Nayak

Suggested Reference Books:

1. Statistical data analysis explained: applied environmental statistics with R, Clemens Reimann. Chichester: John Wiley and Sons
2. Data science in R: a case studies approach to computational reasoning and problem solving, Deborah Nolan. Boca Raton: CRC Press
3. The analytics revolution: how to improve your business by making analytics operational in the big data era, Bill Franks. Hoboken: Wiley
4. Taming the big data tidal wave: finding opportunities in huge data streams with advanced analytics, Bill Franks. Hoboken: John Wiley & Sons.
5. Big data, big analytics: emerging business intelligence and analytic trends for today's business, Michael Minelli. Hoboken: John Wiley & Sons

Semester II		206BA: Data Mining
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO206BA.1	REMEMBERING	DEFINE the key terms associated with Data Mining
CO206BA.2	UNDERSTANDING	EXPLAIN the various aspects of Data
CO206BA.3	APPLYING	APPLY classification models
CO206BA.4	ANALYSING	Analyse data using various clustering models
CO206BA.5	EVALUATING	SELECT appropriate association analysis and anomaly detection tools.
CO206BA.6	CREATING	COMBINE various data mining tools and use them in live analytical projects in business scenarios.

1. **Basic Concepts:** Concept, Definitions and Need of Big Data, Data Mining, Business Intelligence. Data Mining Process, relation to Business Intelligence techniques. Introduction to Data Mining Tasks (Classification, Clustering, Association Analysis, Anomaly Detection). Concept, Definitions of model, descriptive models, predictive modeling, basic terminology. Real-world data mining applications - Big Data Analytics in Mobile Environments, Fraud Detection and Prevention with Data Mining Techniques, Big Data Analytics in Business Environments. **(6+1)**
2. **Data and Preprocessing:** Understanding of Data, what is data? Types of attributes, properties of attribute values, types of data, data quality, Sampling, Data Normalization, Data Cleaning, Similarity Measures, Feature Selection/Instance Selection, the importance of feature selection/instance selection in various big data scenarios. **(7+1)**
3. **Classification:** Decision-Tree Based Approach, Rule-based Approach, Instance-based classifiers, Support Vector Machines, Ensemble Learning, Classification Model Selection and Evaluation, Applications: B2B customer buying stage prediction, Recommender Systems. **(9+1)**
4. **Clustering:** Partitional and Hierarchical Clustering Methods, Graph-based Methods, Density-based Methods, Cluster Validation, Applications: Customer Profiling, Market Segmentation. **(9+1)**
5. **Association Analysis:** Apriori Algorithm and its Extensions, Association Pattern Evaluation, Sequential Patterns and Frequent Subgraph Mining, Applications: B2B Customer Buying Path Analysis, Medical Informatics, Telecommunication alarm diagnosis. **Anomaly Detection:** Statistical-based and Density-based Methods, Ethics of data mining, privacy, what can/do firms know? **(9+1)**

Suggested Self Learning Courses : Basic and advanced data mining and python courses on swayam platform - <https://swayam.gov.in/>

Suggested Text Books:

1. Data Mining: The Textbook by Charu C. Aggarwal
2. Data Science for Business by Foster Provost and Tom Fawcett, O'Reilly
3. Introduction to Data Mining by Pang-Ning Tan, Michael Steinbach, Vipin Kumar, Addison Wesley
4. Data Mining and Analysis: Fundamental Concepts and Algorithms by Mohammed J. Zaki and Wagner Meira

Subject Elective (SE) Courses - Semester II
Specialization: Business Analytics

Semester II		217BA: Marketing Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO217BA.1	REMEMBERING	DESCRIBE the use of Voice of the Customer data in making data driven marketing decisions.
CO217BA.2	UNDERSTANDING	DEMONSTRATE an understanding of utility theory to measure customer preferences and choices.
CO217BA.3	APPLYING	IDENTIFY what customers' value in a product, and assess what they are willing to pay for it.
CO217BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks to solve strategic marketing problems using marketing data.
CO217BA.5	EVALUATING	DETERMINE the most effective target markets.
CO217BA.6	CREATING	DESIGN a study that incorporates the key tools of Marketing Analytics.

- Segmentation Analytics:** Market Segmentation Variables, Market Segmentation Types, Marketing Data Landscape, Data for Segmentation, Analytics for Need Based Segmentation - Voice of the Customer, Managing "Voice of the Customer" Data, Customer Co-Creation, RFM Analysis, Life Cycle Segmentation, Cross Tabulation Segmentation, Regression based segmentation, Clustering, Conjoint Analysis Segmentation, The Cluster Analysis + Discriminant Analysis Approach, **(5+1)**
- Approaches to Choosing Target Segment/s:** Rationale for Segment Targeting, Analytics for Perceptual Mapping and Product Positioning, Product Positioning, Multi Dimensional Scaling (MDS) and Factor Analysis, Relevance of Mapping for Product Positioning, Preference Mapping, Incorporating Preferences in Perceptual Mapping. **(5+1)**
- Analytics for Product/Service Design:** The Relevance of Trade-off Approaches, Conjoint Analysis, Approaches to Conjoint Analysis, Interpreting Conjoint Results, Optimizing Design using Conjoint Results. **(5+1)**
- Analytics for Tracking Customer Growth:** Rationale for Customer Analytics, Customer acquisition cost, Customer Churn, Customer Attrition models, Customer lifetime value, Net promoter score, Calculating the number of new customers, Calculating average customer age & Days to convert, Calculating customer acquisition cost & Average purchases, Calculating touch points & Lead conversion, Analyzing age demographics, First contact with customer, Customer satisfaction, Understanding customer engagement, Diffusion Models - The Bass Model. **(5+1)**
- Modeling New Marketing Initiatives:** Introduction to modeling, Evaluating new ad channels, Modeling tips and best practices, Projecting ad revenue, Projecting organic follower revenue, Projecting expenses, Calculating net profit and breakeven, Understanding ROI, Calculating returns, Creating a single-variable sensitivity table, Creating a multi-variable sensitivity table. **(5+1)**

Suggested Text Books:

- Marketing Analytics: Data-Driven Techniques with Microsoft Excel, Wayne L. Winston
- Marketing Analytics: Strategic Models and Metrics, Stephan Sorger
- Marketing Analytics: A Practical Guide to Improving Consumer Insights Using Data Techniques, Mike Grigsby
- Cutting-edge Marketing Analytics: Real World Cases and Data Sets for Hands on Learning, Paul Farris, Rajkumar Venkatesan, and Ronald T. Wilcox

Semester II		218BA: Retailing Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO2018BA.1	REMEMBERING	ENUMERATE the characteristics, opportunities and challenges of New Age Retailing and Digital Consumers.
CO2018BA.2	UNDERSTANDING	UNDERSTAND Consumer Buying Behavior and Trends in new age retailing.
CO2018BA.3	APPLYING	USE various kinds of data for performing Retailing Analytics.
CO2018BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks for predictive retail analytics.

CO2018BA.5	EVALUATING	DERIVE a variety of metrics and quantify key outcomes in multiple areas of Retail.
CO2018BA.6	CREATING	BUILD value for Retail and Marketing by deriving Marketing ROI metrics..

1. **Retailing in the Digital Era:** New Age Retailing, Digital Consumers Characteristics – interconnected , involved, interconnected, co-creation, collaboration, Customer Data – Big Data, Business Analytics, Customer Insights, Data Characteristics - Variety, Volume, Velocity, Veracity. Critical issues in Modern day Retail, The Digital organization, Retail analytics for decision making, Informed and Risk-Aware Decisions , Benefits of Retail Analytics – Informed Decisions, Risk mitigation, Gaining visibility , Retail Analytics for Strategic – Tactical and Operational decisions. **(3)**
2. **Marketing in a Consumer-Driven Era:** Understanding Consumer Buying Behavior and Trends , Leveraging customer data, Putting information in context, Clicking with consumer communities, Keeping content in mind, From personalization to commerce. **(3)**
3. **Key Questions:** What they are buying, Who they are, How they are buying, Where else they are buying? **(3)**
4. **Data sources:** Customer, Retailer, Supplier, Market, Web, Mobile, Social, Call Centres,. **(3)**
5. **Looking at Unstructured Data:** The unstructured data challenge, Recognizing the untapped analytics opportunity, Customer-Driven Decision Making, Content Analytics in Action, Understanding Affinities between Products and Customers, Advanced affinity analysis, Market basket analysis, Understanding customer preferences , Anticipating the customer's next move, Improving Retail Promotions. **(3)**
6. **Merchandising Analytics:** Assortment planning , GeoSpatial Analytics, Product placement, Space Optimisation, Product adjacency, Aligning store-level assortment with demand, Category Intelligence, Developing dynamic retail assortments, Prioritization of Product categories. **(3)**
7. **Marketing Analytics:** Marketing Mix ROI, Promotions – Promotional Maturity Curves, Pricing – Price per segment, Margin, Profitability, Personalisation, Campaigns, Marketing Return Curves, Scenario Analysis, Driving better P&L analyses, Managing Incentive Compensation. **(3)**
8. **Supply Chain Analytics:** Creating a Demand-Driven Supply Chain, Gaining Visibility across the Supply Chain, Resolving Operations Problems Premptively , Logistics, Inventory, Supplier performance, Demand forecasting, Vendor Intelligence, Vendor Rankings, Fulfillment Intelligence, Inventory Diagnostics, Shrinkage, Optimization opportunities. **(3)**
9. **Store operations analytics :** Using Analytics to Optimize Staffing Plans, Drilling into HR analytics, Customer Traffic, Store Performance Dashboards, Local Market Analytics, Online Offline Analytics, Sales Trends, Brand Performance, Account Performance Forecasts. **(3)**
10. **Customer View:** Customer Insights, Omni channel insights, Personalization, merchandise Data sources, including operations and supplier. **(3)**

Suggested Text Books:

1. Retail Analytics – The Secret Weapon, Emmett Cox
2. Behaviour Analytics in Retail, Ronny Max
3. The Little Book on Big Data: Understand Retail Analytics Through Use Cases and Optimize Your Business, Mahogany Beckford
4. The New Science of Retailing: How Analytics are Transforming the Supply Chain and Improving Performance, Fisher and Raman
5. The Strategy and Tactics of Pricing: A Guide to Growing More Profitably, Nagle, Hogan and Zale, Prentice-Hall
6. Competing on Analytics, Davenport, Harris
7. The New Rules of Retail: Competing in the World's Toughest Marketplace, Lewis and Dart
8. Sales Promotions, Neslin, Marketing Science Institute

Semester II		219BA: Workforce Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO2019BA.1	REMEMBERING	ENUMERATE the use of Workforce Analytics.
CO2019BA.2	UNDERSTANDING	UNDERSTAND the process of creating and using HR analytics
CO2019BA.3	APPLYING	USE dashboards, pivot tables for data driven decision making in HR.
CO2019BA.4	ANALYSING	ILLUSTRATE the use of various tools and frameworks for predictive analytics.
CO2019BA.5	EVALUATING	DERIVE a variety of metrics and quantify key outcomes in multiple areas of HR.
CO2019BA.6	CREATING	BUILD value for HR departments by showing clear links between HR and Business outcomes.

1. **Workforce Analytics – Overview:** Workforce Analytics: definition, evolution, function of Workforce analytics, Use of Workforce / People / HR metrics to measure results in HR - Process vs Outcome , Efficiency vs Effectiveness, Lead vs Lag, challenges in measuring human capital, HR Business Framework, Concept of Balanced Score Card, Identifying key workforce questions, Strategic Case for Workforce Analytics, Data Sources, Power of combining data sources, Good, Important & Key Metrics. **(3)**
2. **Recruitment Metrics:** Fill-up ratio, Time to hire, Cost per hire, Early turnover, Termination during probation, Channel efficiency mix in terms of Direct hires, Employee referral hires, Agency hires & Lateral hires, Offer reject and renege, Fulfilment ratio, Quality of hire, Recruitment to HR cost. **(3)**
3. **Diversity Metrics:** Workforce diversity index, Gender mix, Differently abled index, Implementation challenges. **(3)**
4. **Talent Metrics:** Retention index, Voluntary and involuntary turnover, Turnover by department, grades, performance, and service tenure, Internal hired index. **(3)**
5. **Learning & Development Metrics:** Training need identification, Make or Buy Model, Training effectiveness evaluation, Percentage of employee trained, Internally and externally trained, Training hours and cost per employee, ROI calculation. **(3)**
6. **Internal Mobility Metrics:** Career Progression Indices - Promotion index, Rotation index, Career path index, Level wise succession readiness index. **(3)**
7. **People Deployment Metrics:** Employees per manager, Employee service profiling, Workforce age profiling, Workforce service profiling, Churn index, Separation clearance time. **(3)**
8. **HR Cost Metrics:** Revenue per employee, Operating cost per employee, PBT per employee, HR cost per employee, HR to operating cost, Compensation to HR cost, HR budget variance, HR ROI. **(3)**
9. **HR KPI Dashboard:** Calculating HR KPI, Scorecard based on recruitment, training and development, Calculating HR KPI, Scorecard based on employee retention, and turnover. **(3)**
10. **HR Predictive Analytics:** Regional and country level differences in turnover data, Predicting individual and team turnovers, Turnover costs for business implications, Selection decisions from previous performance data, Predictive modelling of individual and team performance, Identifying flight-risk candidates, Report generation. **(3)**

Suggested Text Books:

1. The Practical Guide to HR Analytics: Using Data to Inform, Transform, and Empower HR Decisions, Shonna D. Waters, Valerie N. Streets, Lindsay Mcfarlane, Rachael Johnson-Murray
2. HR Analytics: Understanding Theories and Applications , Dipak Kumar Bhattacharyya
3. Doing HR Analytics - A Practitioner's Handbook With R Examples Lyndon Sundmark

Semester II		220BA: Tableau
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221BA.1	REMEMBERING	DEFINE Tableau terminology and SHOW how to Connect to your data, Edit and save a data source.
CO221BA.2	UNDERSTANDING	ILLUSTRATE the use of the Tableau interface to effectively create powerful visualizations and charts.
CO221BA.3	APPLYING	MAKE USE OF statistical techniques to analyze your data, parameters and input controls to give users control over certain values.
CO221BA.4	ANALYSING	INTEGRATE data sources using data blending and Combine data from multiple tables in the same data source using joins.
CO221BA.5	EVALUATING	CREATE basic calculations including basic arithmetic calculations, custom aggregations and ratios, date math, and quick table calculations.
CO221BA.6	CREATING	BUILD spatial visualizations of non-geographic data by using advanced geographic mapping techniques and custom images and geocoding.

1. **Data Connections:** Tableau terminology, Tableau interface/paradigm, Create and save data connections, Create a live connection to a data source, Explain the differences between using live connections versus extracts, Create an extract, Save metadata properties in a .TDS, Modify data connections, Add a join, Add a blend, Add a union, Manage data properties, Rename a data field, Assign an alias to a data value, Assign a geographic role to a data field, Change data type for a data field (number, date, string, boolean, etc.), Change default properties for a data field (number format, aggregation, color, date format, etc.) **(5+1)**

2. **Organizing & Simplifying Data:** Organize data and apply filters, Filter data, Sort data, Build groups, Build hierarchies, Build sets, Add a filter to the view, Add a context filter, Add a date filter, Apply analytics to a worksheet, Add a manual or a computed sort, Add a reference line or trend line, Use a table calculation. **(5+1)**
3. **Field & Chart Types :** discrete v. continuous, Measure Names and Measure Values, Generated Fields, Use bins and histograms, Heat maps, Tree maps, Bullet graphs, bar chart, line chart, stacked bar, Combined Axis Charts, Dual Axis Charts, Scatter Plots, Data Highlighter, Cross tabs, Motion charts, Bar in bar charts, Box plots, Gantt Bar Charts, Paretos, Sparklines, geocoding , spatial visualizations of non-geographic data, Using titles, captions and tooltips, Editing axes, Mark labels and annotations. **(5+1)**
4. **Calculations:** Manipulating string and date calculations, Create quick table calculations, Use LOD calculations; types of LOD calculations, Use Ad-hoc calculations, Work with aggregation options, Build logic statements, Build arithmetic calculations, Build grand totals and sub-totals, Use calculations in join clauses, Create a calculated field (e.g. string, date, simple arithmetic), Add a parameter. **(5+1)**
5. **Sharing Insights:** Format view for presentation, Use color, Use bolding, Use shapes, Change size of marks, Select fonts, Create and modify a dashboard, Create a dashboard layout, Add interactive or explanatory elements, Add dashboard actions, Modify existing dashboard layout for mobile devices, Create a story using dashboards or views, Share a twbx as a PDF, Share a twbx as an image. **(5+1)**

Suggested Text Books:

1. Mastering Tableau, David Baldwin
2. Communicating Data with Tableau: Designing, Developing, and Delivering Data Visualizations, Ben Jones
3. Learning Tableau, Joshua N. Milligan
4. Practical Tableau: 100 Tips, Tutorials, and Strategies from a Tableau Zen Master, Ryan Sleeper

Semester II		221BA: Data Warehousing Project Life Cycle Management
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO221BA.1	REMEMBERING	DESCRIBE various stages in Data Warehouse development process.
CO221BA.2	UNDERSTANDING	EXPLAIN the significance of and Project Management issues to be considered in the Data warehouse and Business Intelligence projects and the practicality of each phase.
CO221BA.3	APPLYING	MAKE USE OF the Data warehouse Lifecycle.
CO221BA.4	ANALYSING	FORMULATE Requirements Definition using requirements gathering methods.
CO221BA.5	EVALUATING	DETERMINE users of information and SELECT appropriate Information Delivery Tools, OLAP models and Data Mining Techniques.
CO221BA.6	CREATING	CREATE an Implementation Plan for a Data warehouse Project.

1. **Data Warehousing Project Life Cycle Management - Planning And Requirements:** Data to Information Lifecycle, Brief History of Accessing, Reporting And Analyzing Data, Business Intelligence (BI) defined, Data Warehousing (DW) defined, Data Mining defined, Data Stores and Data Marts defined, Uses of BI & DW, Business Drivers For BI, Business and IT Drivers For DW, Applications that use BI And DW, Data Shadow Systems, Industry terminology, Planning the Data Warehouse Project, The Project Team, Project Management Considerations, Defining the Business Requirements, Dimensional Analysis, Information Packages, Requirements Gathering Methods, Requirements Definition: Scope and Content, Requirements as the Driving Force for Data Warehousing, Data Design, The Architectural Plan, Data Storage Specifications, Information Delivery Strategy. **(5+1)**
2. **Data Warehousing Project Life Cycle Management - Architecture And Infrastructure:** The Architectural Components, Understanding Data Warehouse Architecture, Distinguishing Characteristics, Architectural Framework, Technical Architecture, Infrastructure as the Foundation for Data Warehousing, Infrastructure Supporting Architecture, Infrastructure Supporting Architecture, Database Software, Collection of Tools, The Significant Role of Metadata, Why Metadata is Important, Metadata Types by Functional Areas, Business Metadata, Technical Metadata, How to Provide Metadata. **(5+1)**
3. **Data Warehousing Project Life Cycle Management - Data Design And Data Preparation:** Principles of Dimensional Modeling, From Requirements to Data Design, The STAR Schema, STAR Schema Keys, Advantages of the STAR Schema, Updates to the Dimension Tables, Miscellaneous Dimensions, The Snowflake, Schema, Aggregate Fact Tables, Families of STARS, Data Extraction, Transformation, and Loading, Data Extraction, Data Transformation, Data Loading, ETL Summary, Why is Data Quality Critical?, Data Quality Challenges, Data Quality Tools, Data Quality Initiative. **(5+1)**
4. **Data Warehousing Project Life Cycle Management - Information Access And Delivery:** Matching Information to the Classes of Users. Information from the Data Warehouse, Users of the Information, Information Delivery, Information Delivery Tools, Demand for Online Analytical Processing, Major Features and Functions, OLAP

Models, OLAP Implementation Considerations, Data Warehousing and the Web, Web-Enabled Data Warehouse, Web-Based Information Delivery, OLAP and the Web, Building a Web-Enabled Data Warehouse, Data Mining, Major Data Mining Techniques, Data Mining Applications. **(5+1)**

5. **Data Warehousing Project Life Cycle Management - Testing , Implementation And Maintenance:** Unit, IT, ST, Data volume, ETL and other test techniques, The Physical Design Process, Physical Design Steps, Physical Design, Considerations, Physical Storage, Indexing the Data Warehouse, Performance Enhancement Techniques, Data Warehouse Deployment, Major Deployment Activities, Considerations for a Pilot, Security, Backup and Recovery, Growth and Maintenance, Monitoring the Data Warehouse, User Training and Support, Managing the Data Warehouse, Scoping, Estimation, proposal writing and Risk planning. **(5+1)**

Suggested Text Books:

1. The Data Warehouse Lifecycle Toolkit, Ralph Kimball
2. Data Warehouse Project Management , Sid Adelman, Larissa T. Moss
3. The Data Warehouse Lab: A step-by-step guide using SSIS and SSAS, Amin Jalali
4. Data Warehouse for Project Managers, Laura Reeves
5. The Profit Impact of Business Intelligence, Steve Williams , Nancy Williams

Semester III and IV Syllabus

Generic Core (GC) Courses - Semester III

Semester III		301– Strategic Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO301.1	REMEMBERING	DESCRIBE the basic terms and concepts in Strategic Management.
CO301.2	UNDERSTANDING	EXPLAIN the various facets of Strategic Management in a real world context.
CO301.3	UNDERSTANDING	DESCRIBE the trade-offs within and across strategy formulation, implementation, appraisal.
CO301.4	APPLYING	INTEGRATE the aspects of various functional areas of management to develop a strategic perspective.
CO301.5	ANALYSING	EXPLAIN the nature of the problems and challenges confronted by the top management team and the approaches required to function effectively as strategists.
CO301.6	CREATING	DEVELOP the capability to view the firm in its totality in the context of its environment.

- 1. Understanding Strategy:** Concept of strategy, Levels of Strategy - Corporate, Business and Functional. Strategic Management - Meaning and Characteristics. Distinction between strategy and tactics, Strategic Management Process, Stakeholders in business, Roles of stakeholder in strategic management. Strategic Intent – Meaning, Hierarchy, Attributes, Concept of Vision & Mission - Process of envisioning, Difference between vision & mission. Characteristics of good mission statements. Business definition using Abell's three dimensions. Objectives and goals, Linking objectives to mission & vision. Critical success factors (CSF), Key Performance Indicators (KPI), Key Result Areas (KRA). Components of a strategic plan, Analyzing Company's External Environment: Environmental appraisal, Scenario planning – Preparing an Environmental Threat and Opportunity Profile (ETOP). Analyzing Industry Environment: Industry Analysis - Porter's Five Forces Model of competition, Entry & Exit Barriers. (7+2)
- 2. Analyzing Company's Internal Environment:** Resource based view of a firm. Analyzing Company's Resources and Competitive Position - meaning, types & sources of competitive advantage, competitive parity & competitive disadvantage. VRIO Framework, Core Competence, characteristics of core competencies, Distinctive competitiveness. Benchmarking as a method of comparative analysis. Value Chain Analysis Using Porter's Model: primary & secondary activities. Organizational Capability Profile: Strategic Advantage Profile, Concepts of stretch, leverage & fit, ways of resource leveraging – concentrating, accumulating, complementing, conserving, recovering. Portfolio Analysis: Business Portfolio Analysis – BCG Matrix – GE 9 Cell Model. (7+2)
- 3. Generic Competitive Strategies:** Meaning of generic competitive strategies, Low cost, Differentiation, Focus – when to use which strategy. Grand Strategies: Stability, Growth (Diversification Strategies, Vertical Integration Strategies, Mergers, Acquisition & Takeover Strategies, Strategic Alliances & Collaborative Partnerships), Retrenchment – Turnaround, Divestment, Liquidation, Outsourcing Strategies. (7+2)
- 4. Strategy Implementation:** Barriers to implementation of strategy, Mintzberg's 5 Ps – Deliberate & Emergent Strategies. Mc Kinsey's 7s Framework. Organization Structures for Strategy Implementation: entrepreneurial, functional, divisional, SBU, Matrix, Network structures, Cellular/ Modular organization, matching structure to strategy, organizational design for stable Vs. turbulent environment, Business Continuity Planning. Changing Structures & Processes: Reengineering & strategy implementation – Principles of Reengineering. Strategy Evaluation: Operations Control and Strategic Control - Symptoms of malfunctioning of strategy –Concept of Balanced scorecard for strategy evaluation. (7+2)
- 5. Blue Ocean Strategy:** Difference between blue & red ocean strategies, principles of blue ocean strategy, Strategy Canvass & Value Curves, Four Action framework. Business Models: Meaning & components of business models, new business models for Internet Economy– E-Commerce Business Models and Strategies – Internet Strategies for Traditional Business –Virtual Value Chain. Sustainability & Strategic Management. Threats to sustainability, Integrating Social & environmental sustainability issues in strategic management, meaning of triple bottom line, people-planet-profits. (7+2)

Suggested Text Books:

1. Strategic Management and Business Policy by Azhar Kazmi, Tata McGraw-Hill
2. Strategic Management by Ireland, Hoskisson & Hitt, Indian Edition, Cengage Learning
3. Crafting and Executing Strategy- The Quest for Competitive Advantage by Thompson, Strickland, Gamble & Jain, Tata McGraw-Hill
4. Concepts in Strategic Management & Business Policy by Thomas L. Wheelen & J. David Hunger, Pearson

Suggested Reference Books:

1. Strategic Management by Dr. Yogeshwari L. Giri
2. Competitive Strategy: Techniques for Analyzing Industries and Competitors by Michael E. Porter, First Free Press Edition
3. Competing for the Future by Gary Hamel & C.K. Prahalad, .
4. Blue Ocean Strategy by Kim & Mauborgne

Semester III		302– Decision Science
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO302.1	REMEMBERING	DESCRIBE the concepts and models associated with Decision Science.
CO302.2	UNDERSTANDING	UNDERSTAND the different decision-making tools required to achieve optimisation in business processes.
CO302.3	UNDERSTANDING	APPLY appropriate decision-making approach and tools to be used in business environment.
CO302.4	APPLYING	ANALYSE real life situation with constraints and examine the problems using different decision-making tools
CO302.5	ANALYSING	EVALUATE the various facets of a business problem and develop problem solving ability
CO302.6	CREATING	DISCUSS & propose the various applications of decision tools in the present business scenario.

1. **Introduction:** Importance of Decision Sciences & role of quantitative techniques in decision making. **Assignment Models:** Concept, Flood's Technique/ Hungarian method, applications including restricted, multiple assignments and maximization objective. **Transportation Models:** Concept, formulation, problem types: balanced, unbalanced, restriction and maximization, Basic initial solution using North West Corner, Least Cost & VAM, Optimal solution using MODI, multiple solution case to be considered. (8+2)
2. **Linear Programming:** Concept, Formulation & Graphical Solution. Markov Chains: Applications related to management functional areas, estimation of transition probabilities. Simulation Techniques: Monte Carlo Simulation, scope, and limitations. (7+2)
3. **Probability:** Concept, Conditional Probability theorem-based decision making. Probability Distributions: Normal, Binomial, Poisson (Simple numerical for decision making expected). **Queuing Theory:** Concept, Single Server (M/M/I, Infinite, FIFO), Introduction of Multi Server (M/M/C, Infinite, FIFO) (Numerical on single server model expected) (8+2)
4. **CPM & PERT:** Concept, Drawing network, identifying critical path, Network calculations- calculating EST, LST, EFT, LFT, Slack, floats & probability of project completion in case of PERT. Network crashing: Concept of project cost and its components, time and cost relationship, crashing of CPM network. (8+2)
5. **Decision Theory:** Concept, Decision making under uncertainty Maximax, Maximin, Minimax regret, Hurwicz's & Laplace criterion, Decision making under risk (EMV, EVPI) for items with and without salvage value. Game Theory: Concept, 2 × 2 zero sum game, Pure & Mixed Strategy, solution of games with dominance, average dominance method. Sequencing problem: Introduction, Problems involving n jobs-2 machines, n jobs- 3 machines & n jobs-m machines, Comparison of priority sequencing rules.(6+2)

Important Note:

1. In each unit caselet related to management situation in various functional domains shall be discussed by the subject teacher.
2. Numerical based on functional areas of business are expected on each unit

Suggested Text Books:

1. Quantitative Techniques in Management by N.D. Vohra Tata, McGraw Hill Publications (latest Edition)
2. Operations Research by Hamdy A. Taha, Pearson Publication (latest edition)
3. Operations research by Hira Gupta, S. Chand Publication (latest Edition)

4. Operations Research Theory & Applications by J K Sharma- MacMillan Publishers India Ltd. (latest Edition)
5. Statistical Methods by S.C. Gupta S. Chand Publication (latest edition)
6. Comprehensive Statistical Methods by P.N. Arora, Sumeet Arora, S. Arora S. Chand Publication

Suggested Reference Books:

1. Quantitative techniques & statistics By K L Sehgal Himalaya Publications (latest edition)
2. An introduction to management science: Quantitative approach for decision making- Cengage Learning- Anderson (latest edition)
3. Introduction to Operations Research by Billey E. Gillett, TMGH (latest edition)
4. Operations Research by Nita Shah, Ravi Gor, Hardik Soni, PHI (latest Edition).
5. Operations Research by R. Pannarselvam, Prentice Hall India

Generic Core (GC) Courses - Semester IV

Semester IV		401 – Enterprise Performance Management
3 Credits	LTP: 2:1:1	Compulsory Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO401.1	REMEMBERING	Enumerate the different parameters & facets of management control of an enterprise.
CO401.2	UNDERSTANDING	Illustrate the various techniques of enterprise performance management for varied sectors.
CO401.3	UNDERSTANDING	Determine the applicability of various tools and metrics as a performance evaluation & management tools.
CO401.4	APPLYING	Analyse the key financial & non-financial attributes to evaluate enterprise performance.
CO401.5	ANALYSING	Formulate the various parameters to evaluate enterprise performance effectively through implementation of strategy.

- Performance Management:** Concept, Need, Linkages with Strategic Planning, Management Control and Operational Control. **Performance Evaluation Parameters:** Financial – Responsibility Accounting –Concept of Responsibility Centers, Revenue Centre, Expense Centre - Engineered and Discretionary costs – Committed costs, Profit Centre, Investment Centers. ROI, ROA, MVA, EVA – DuPont analysis. **(Numericals expected)** Limitations of Financial Measures. **(8+1)**
- Performance Evaluation Parameters:** Non-Financial Performance measures – Balanced Scorecard, Malcolm Baldrige Framework. **Measuring SBU Level Performance:** Concept, Need, and Linkages with Enterprise Performance Management – Goal Congruence. Transfer Pricing – Objective, Concept, and Methods – Cost based, Market price based & Negotiated, Applicability of Transfer Pricing. (Numerical / Case is expected) **(7+1)**
- Capital Expenditure Control:** Concept, Need, Process of Capital Budgeting, Types of capital expenditure decisions – pre-sanction, operational and post-sanction control of capital expenditure. Tools & Techniques of Capital Expenditure Control: Performance Index, Technical Performance Measurement, Post completion audit. **Performance Evaluation Parameters for Projects:** Project Control Process: Setting base line plan, Measuring progress and performance, comparing plan against action, Taking action, Schedule variance (time overruns), Project Cost Variance (cost overruns). **(8+2)**
- Performance Evaluation Parameters for Banks:** Customer Base, NPAs, Deposits, ROI, Financial Inclusion, Spread, Credit Appraisal, Investments. **Performance Evaluation Parameters for Retail:** ABC analysis, Sell Through Analysis, Multiple Attribute Method, Gross Margin Return on Investment (GMROI), GMROI as Gross Margin/Average Inventory at Cost, **Performance Evaluation Parameters for Non-Profit:** Features of Non-profit organizations, fund accounting, governance, product pricing, strategic planning & budget preparations, social audit. **(8+2)**
- Performance Evaluation Parameters for E-Commerce:** Features of E commerce, Need of evaluation, Metrics for performance evaluation: Business metrics, Traffic metrics, Conversion matrix & Audience involvement metrics. Various KPI used by E Commerce industry : Website traffic , referral traffic, conversion rate optimization, bounce rate of website, repeat visit, cart abandon rate, cost per conversion, average order value, revenue on advertising spend, customer life time value, net promoter score, churn rate. **Audit Function as a Performance Measurement Tool:** Financial Audit, Internal Audit, Cost Audit, Management Audit – Principles and Objectives (Audit Reports / Formats are expected to be discussed in the class from a performance measurement perspective). **(9+1)**

Suggested Text Books:

- Management Control System by Robert Anthony & Vijay Govindrajana, Tata McGraw Hill Publishing Co. Ltd.
- Management Control in Non Profit Organizations by Robert Anthony & David Young, McGraw Hill International Publication
- Retailing Management by Swapna Pradhan, TMGH

Suggested Reference Books:

- Project Management by K.Nagarajan, New Age International Publications
- Principles and Practices of Auditing by Ravindar Kumar & Virendar Sharma, PHI.
- Principles and Practices of Banking by Indian Institute of Banking & Finance, MacMillan India Ltd.
- Financial Management by Prasanna Chandra, TMGH
- E business: A Canadian perspective for a Networked World , Gerald Trites, J. Efrim Boritz Pearson

Semester IV		402 – Indian Ethos & Business Ethics
--------------------	--	---

3 Credits	LTP: 2:1:1	Compulsory Generic Core Course
------------------	-------------------	---------------------------------------

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO402.1	REMEMBERING	Recall and spell the human universal values of Indian Ethos and its applications in Business ethics
CO402.2	UNDERSTANDING	Recognize and Demonstrate the relevance of Indian Ethos by taking the rationale and ethical business decision derived from Indian Heritage Scriptures.
CO402.3	APPLYING	Apply the concepts of Indian Ethos, Values, and Ethics with moral reasoning to develop sustainable solutions to solve complex business issues..
CO402.4	ANALYSING	Analyze and make inferences to contemporary business practices in relation to Indian Ethos & Business Ethics
CO402.5	EVALUATING	Appraising the importance of business decisions on the basis of ethics and thus create a value driven management.
CO402.6	CREATING	ELABORATE Ethical dilemmas in different business areas of marketing, HRM and Finance and ADAPT dilemma resolution interventions by referring to Ethical decision making.

- 1. Indian Ethos and Values : Its relevance at Workplace: Indian Ethos-** Meaning, Features, Need, Evolution, Relevance, Universal Human values for continuity of happiness and prosperity, Development of Human Consciousness Principles Practiced by Indian Companies, Requisites, Elements, Role of Indian Ethos in Managerial Practices, Triguna Theory-OSHA Model. Work Ethos meaning, dimensions of Work Ethos. **Values** - Concepts, Values in business, Value system in work culture, and Values of Indian Managers, Relevance of Value Based Management in Global Change; Impact of values on Stakeholders; Trans-Cultural Human Values, need of ethos in business organisations with reference to Indian firms, Ethics v/s Ethos, Eastern Management v/s Western Management. (8+2)
- 2. Indian Model of Management:** Concept of Indian Model of Management in the Indian socio-political environment, Laws of Karma and its relevance in business settings, Indian Heritage in Business-Management. Production and Consumption: Management lessons from Indian heritage scriptures (like Mahabharata & Ramayana), Leadership Pointers from Kautilya's Arthashastra, VEDA Model of Leadership, Corporate Rishi Model, Theory K, WE theory (West-East Theory) (11+2)
- 3. Business Ethics as Applied ethics:** Meaning, Characteristics of Business Ethics, Importance of Business Ethics (Long Term growth, Cost reduction, Risk mitigation, Limited resources, etc.), The Ethics of the Business, Types of Business Ethics (Transactional Ethics, Participatory Ethics, Recognition Ethics), Factors influencing business ethics, Svensson and Wood, A Model of Business Ethics. Categories of Ethics and Responsibilities (Personal, Professional, Managerial) Business Code of Conduct), Approaches to Business Ethics: Consequentialist & Non-Consequentialist The Ethical Audit, Theories of Ethics - Deontological Theory & Teleological Theory, Kohlberg's Six stage moral development, Chris Moon's Ethical fitness: a Four-Step Workout (Moral Awareness, Values Definition, Ethical Analysis, Dilemma Resolution). (11+2)
- 4. Ethical decision making in business matrix:** Framework of Ethical decision making, Ethical dilemmas in different functional areas of Business (Finance, Marketing HRM and International Business), Difficulties for practice ethics in organization, Intellectual Property Rights and Business Ethics, Ethical challenges for Managers, Ethical Decision Making process, it's Model -STEP Model, PLUS Filter Model. (8+2)
- 5. Applications of Ethical Principles to Contemporary, Moral and Ethical problems / issues related to Business:** Contemporary cases on Corporate Strategy, Moral Reasoning, personal responsibility and UN-17 SDG: Climate Change, Corporate Strategy and Natural resource depletion, Corporate Social Responsibility, transparency and accountability, Social Media and E-Platforms. Current ethical issues like Bank scams, Airlines etc. (7+2)

Suggested Text Books:

1. Business Ethics (Concept, Application, Framework and Cultural Impact) k. Aswathappa, J. Ushar Rani, Sunanda Gundavajhala, Himalaya Publishing House
2. Ethics in Management and Indian Ethos, Biswanath Ghosh , Vikas Publishing House
3. Indian Ethos of Management, Tushar Agarawal and Nidhi Chandorkar, Himalaya Publication House.
4. Indian Ethos and Values for Managers, Khandelwal , Himalaya Publishing House

Suggested Reference Books:

1. Indian Ethos & Values In Management, Nandagopal R, Ajith Sankar, Tata McGraw Hill Publishing Co. Ltd.
2. New Mantras in Corporate corridors From Ancient Routes to Global Roots, Subhas Sharma, New Age International Publishers
3. Business Ethics: Concepts and Cases, Velasquez, Pearson Education India.

4. Corporate Chanakya , Radhakrishnan Pillai , Jaico Publishing House
5. Business Ethics at work, Elizabeth Vallance, Cambridge University Press

Generic Courses (Electives) – University Level – Semester III & IV

Semester III		306 – International Business Economics
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO 306 .1	Remembering	RECALL and DEFINE the economic aspects of international business.
CO 306 .2	Understanding	DEMONSTRATE the outcomes of globalising and liberalising trade environment, trade policy frameworks and macroeconomic linkages of the open economy.
CO 306 .3	Applying	IDENTIFY the mechanisms and working of the foreign exchange markets.
CO 306 .4	Analysing	EXAMINE how a trade policy improves or diminishes the prospects of survival / growth of business.
CO 306 .5	Evaluating	MEASURE the implications of International Financial Crisis and its repercussions on International Trade
CO306.6	CREATING	COMPOSE a matrix of various economic aspects of international business and their linkages with Indian Economy

- International Trade:** Trade Theories, Ricardo and Comparative advantage, Heckscher Ohlin model of factor abundance , Krugman's model of Intra-Industry Trade (5+1)
- Trade policies:** Unilateral and multilateral trade policies, Tariffs in competitive markets, WTO tariff policy, Quota, Tariff and quota in monopolistic markets, Dumping and Antidumping Duty under the WTO, Subsidies and Countervailing duties under the WTO, Export taxes, Export subsidies, Economic Integration (5+1)
- Currency and International Finance:** Currency market and exchange rate, Spot and forward markets, Types of Foreign Exchange Transactions – Reading Foreign Exchange Quotations – Forward and Futures Market – Foreign-Currency Options – Arbitrage – Speculation and Exchange-Market Stability, Currency market and basic Central Bank operation, Product market approach to determination of exchange rate, Asset market approach to determination of exchange rate. (5+1)
- Exchange rate policies and macroeconomic management:** Fixed and flexible rates – Central Banks actions, Impact of changing exchange rates on exports and imports, Volatility managements by the government and Exchange rate regimes, Open economy macroeconomics, 3 International Financial Crises models - Understanding the recent few crises, The Euro Crisis, Economic risk indicators for FDI and FII (5+1)
- International Banking:** Reserves, Debt and Risk : Nature of International Reserves – Demand for International Reserves – Supply of International Reserves – Gold Exchange Standard – Special Drawing Rights – International Lending Risk – The Problem of International Debt – Financial Crisis and the International Monetary Fund – Eurocurrency Market. (5+1)

Suggested Text Books:

- International Economics Theory and Policy by Paul Krugman, Maurice Obstfeld, Pearson Education
- International Economics by Robert Carbaugh, Thomson – South Western
- International Business by John Daniels, Lee Radebaugh, Daniel Sullivan and Prashant Salwan, Pearson

Suggested Reference Books:

- International Economics by Thomas Pugel, McGraw-Hill-Irwin
- The World is Flat by Friedman Thomas
- International Economics by Edward Leamer, editor,
- Jagdish N. Bhagwati, Arvind Panagariya, and T. N. Srinivasan, Lectures on International Trade
- Rethinking International Trade by Paul R. Krugman

Semester III		307– International Business Environment
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO 307 .1	REMEMBERING	Recall and Describe the key concepts of international Business Environment

CO 307 .2	UNDERSTANDING	Understand the relevance of Multinational Corporations (MNCs) in global trade
CO 307 .3	APPLYING	Demonstrate the significance of FDI and FPI in respect of developing economy
CO 307 .4	ANALYSING	Analyze the issues related to Labor, Environmental and Global Value chain
CO 307 .5	EVALUATING	Formulate and discuss the case related to various Agreements under WTO and contemporary global business environment.

1. **Introduction to International Business:** Importance, nature and scope of International business; modes of entry into International Business, internationalization process. Globalization: Meaning, Implications, Globalization as a driver of International Business. The Multinational Corporations (MNCs) – evolution, features and dynamics of the Global Enterprises. Consequences of Economic Globalization, Brexit, Reverse globalization. (5+1)
2. **International Business Environment:** Political Economy of International Business, Economic and Political Systems, Legal Environment, Cultural Environment, Ethics and CSR in International Business. (5+1)
3. **International Financial Environment:** Foreign Investments - Pattern, Structure and effects. Theories of Foreign Direct Investment, Traditional and Modern theories of FDI, Modes of FDI - Greenfield, Brownfield Investments, Mergers and Acquisitions, Motives of FDI, FDI contrasted with FPI. Basics of Forex Market. (5+1)
4. **International Economic Institutions and Agreements:** WTO, IMF, World Bank, UNCTAD Tariff and Non-tariff Barriers. Balance of Payment Account: Concept and significance of balance of payments, Current and capital account components. Introduction to Basic Concept of IFRS. (5+1)
5. **Emerging Issues in International Business Environment:** Growing concern for ecology, Digitalisation; Outsourcing and Global Value chains. Labor and other Environmental Issues, Impact of Pandemic COVID-19 on international trade. (5+1)

Suggested Text Books:

1. Global Business Management by Adhikary, Manab, Macmillan Publishers, New Delhi.
2. International Business Environment by Black and Sundaram, Prentice Hall of India, New Delhi
3. Economic Environment Of Business by Gosh, Biswanath, South Asia Book, New Delhi.
4. International Business by Aswathappa Tata Mc Graw Hill publications, New Delhi.
5. International Business by P. Subha Rao

Suggested Reference Books:

1. Going International Response Strategies For Indian Sector by Bhattacharya.B, Wheeler Publishing Co, New Delhi.
2. International Economies by D.N. Krithani.
3. International Business by Roger Bennett
4. Business Environment by C.B. Gupta
5. International Business by Francis Cherunillam

Semester III		308 – Project Management
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO 308 .1	Remembering	DEFINE the key terms and concepts in project management.
CO 308 .2	Understanding	EXPLAIN the Importance of project management methodologies and tools at the distinct stages in the Project's life cycle
CO 308 .3	Applying	ILLUSTRATE the importance of PM in most industries and businesses
CO 308 .4	Analysing	EXAMINE the importance of Leadership specifically in heterogenous and virtual teams as well as governance and approaches to conflict resolutions
CO 308 .5	Evaluating	DESIGN dashboard, status report and index for Key Performance Indicators of project for the Management

1. **Overview of Project Management:** Concept of Project, Attributes of a Project, Importance of Project Management, Project Management Process, Project Lifecycle, Project Stakeholders, Project Management Structures, Choosing Appropriate Project Management Structure, Implications of Organizational Culture, Main Causes of Project Failure. Project Definition: Defining Scope, Establishing Priorities, Creating the Work Breakdown Structure (WBS),

integrating the WBS with the organization, Coding the WBS for information system, Project Roll Up, Process Breakdown Structure, Responsibility Matrices. (5+1)

2. **Project Planning:** Estimating Project Times and Costs: Factors Influencing Quality of Estimates, Estimation Guidelines for Time, Costs and resources, Macro versus Micro Estimating, Methods for Estimating Project Times and Costs, Level of detail, Developing Budgets, Types of Costs, Refining estimates and contingency funds. Developing a Project Plan: Developing the Project Network, From Work Package to Network, Constructing a Project Network, Activity-on-Arrow Fundamentals, Network Computation process, Using the Forward and Backward pass information, Level of Detail for activities, Extended Network techniques. (5+1)

3. **Project Scheduling & Risk Management:** Scheduling Resources and Reducing Project Duration: Types of Project Constraints, Classification of Scheduling Problem, Resource Allocation Methods, Splitting, Multitasking, Benefits of scheduling resources, Assigning Project work, Multi Project resource Schedules, Rationale for reducing project duration, Options for accelerating Project Completion, Concept and construction of a Project Cost – Duration Graph, Practical considerations. Managing Risk: Risk Management process – Risk Identification, Risk Assessment, Risk Response Development, Contingency Planning, Risk Response Control, Change Control Management. (5+1)

4. **Project Organization:** The Project Manager: Role and Responsibilities of the project Manager, Planning, Organizing, Controlling, Skills of the Project Manager – Leadership Abilities, Coaching & mentoring Abilities, Communication Skills, Interpersonal Skills, Ability to Handle Stress, Problem Solving Skills, Time Management Skills, Delegation, Management of Change. Managing Project Teams: The five stage team development model, Situational factors affecting team development, Team effectiveness, Conflict in projects, Sources of Conflict, Handling Conflict. Managing Virtual Project teams, Project team pitfalls. (5+1)

5. **Project Evaluation:** Progress and Performance Management and Evaluation: Structure of a Project Monitoring Information System, Project Control Process, Monitoring Time Performance, Need for an Integrated Information System, Developing a dashboard, status report and index to monitor progress, Forecasting final project cost, Other control issues. Project Audit and Closure: Project Audit, Project Audit Process, Project Closure, Team, Team member and Project Manager Evaluations. (5+1)

Suggested Text Books:

1. Clifford Gray, Erik Larson and Gautam Desai, Project Management, The Managerial Process, Tata McGraw Hill
2. Effective Project Management, Clements and Gido, Thomson – India Edition.
3. Samuel Mantel, Jack Meredith, Scott Shafer, Margret Sutton and M.R.Gopalan, Project Management, Wiley India
4. Prasanna Chandra, Projects, Planning, Analysis, Selection, Financing, Implementation and Review, Tata McGraw Hill

Suggested Reference Books:

1. Project management Institute, The Guide to the Project Management Body of Knowledge (PMBOK Guide), PMI Publication

Semester III		309 – Knowledge Management
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO 309 .1	Remembering	DEFINE the key terms and concepts in Knowledge Management.
CO 309 .2	Understanding	DESCRIBE the Knowledge Management cycle
CO 309 .3	Applying	DISCUSS the types of Knowledge and its implications.
CO 309 .4	Analysing	OUTLINE the importance of capturing knowledge elements and its structures application as a competitive advantage to business
CO 309 .5	Evaluating	EXPLAIN the human and business aspects of knowledge management.

1. **Introduction to Knowledge:** Meaning of data, information, knowledge and expertise, Meaning of epistemology, Types of Knowledge - Subjective & Objective views of knowledge, procedural Vs. declarative, tacit Vs. explicit, general Vs. specific, Types of expertise – associational, motor skill, theoretical, Characteristics of knowledge – explicitness, codifiability, teachability, Specificity, Reservoirs of knowledge. (5+1)

2. **KM and KM Cycle:** Why KM, KM system life cycle, and aligning KM and business strategy, KM Cycle: Knowledge creation, capturing tacit knowledge, Types of knowledge and its implications for KM Knowledge codification and system development: codification, system testing and deployment, Knowledge transfer and knowledge sharing- the role of culture and structure (5+1)

3. **KM system :** Analysis design and development: Knowledge infrastructure, Knowledge audit, and knowledge team, Analysis, design and development of KM system, KM tools and Portals: inferences from data, data mining and knowledge portals (5+1)

4. **KM Infrastructure:** Organizational Structure, Organizational Culture, Communities of Practice, Information Technology Infrastructure, Common Knowledge (5+1)
5. **Evaluation of KM effectiveness:** KM Impact: Dimensions of KM Impact – People, Processes, Products & Organizational Performance, Factors influencing impact – universalistic & contingency views, Assessment of KM Impact – Qualitative & quantitative measures, Identification of appropriate KM solutions, Ethical, legal and managerial issues, KM experiences from Indian companies, KM innovation and Learning organization, The future of KM. (5+1)

Suggested Text Books:

Semester III		310– Corporate Governance
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO310.1	REMEMBERING	ENUMERATE the global contemporary developments in Corporate Governance.
CO310.2	UNDERSTANDING	EXPLAIN the importance of regulation, markets and information in corporate governance and CATEGORIZE the role of Board of Directors and Committees for good Corporate Governance.
CO310.3	APPLYING	EXAMINE the provision of Corporate Governance for listed and unlisted firms.
CO310.4	ANALYSING	ANALYSE the enterprise risk for formulating the Internal control policies.
CO310.5	EVALUATING	Evaluate the legal framework and global perspective of Corporate Governance.
CO310.6	CREATING	DISCUSS Cases related to Corporate Governance.

1. **Conceptual Framework of Corporate Governance:** Introduction, Need and Scope Evolution of Corporate Governance, Developments in India. Corporate Governance Code and Agency Theory. Corporate Governance Code & Principles (OECD). Theory in Corporate Governance: Agency Theory, Stakeholder theory, Stewardship theory. Models of Corporate Governance Anglo American Model. Japanese Model, German Model and Indian Model. Elements of Good Corporate Governance, Recent Corporate Governance Committee reports like N.R. Narayan Murthy Committee, J.J. Irani Committee, etc (5+1)
2. **Legal Framework for Corporate Governance:** Key Provisions of Companies Act 2013 on Corporate Governance for Listed and Unlisted Companies, SEBI LODR Regulations, Clause 49 - Listing agreement, Board Composition, Board Meetings, Role of Independent Director, Separation of roles of Chair- Person and MD / CEO, Audit Committee, Audit Reports and Audit Qualifications. (5+1)
3. **Corporate Governance and Other Stakeholders:** Prevention of Oppression and Mismanagement, Corporate Governance issues with regard to Related Party Transactions, Role of Investor Associations in Securing Shareholders Rights, Role of Institutional Investors in Corporate Governance. Corporate Governance and Other Stakeholders: Employees, Customers, Lenders, Vendors, Government, Society. (5+1)
4. **Risk Management and problems of poor governance:** Risk Management and Oversight, Enterprise Risk Management, Roles and Functions of Internal Control, Disclosure about Risk, Risk Management and Internal Control. Risk Management and Oversight, Enterprise Risk Management, Roles and Functions of Internal Control, Disclosure about Risk, Risk Management and Internal Control. Poor Corporate Governance and Corporate Frauds: Meaning and

Consequences of poor corporate Governance, ways to improve corporate governance, corporate frauds and importance of whistle blowing (5+1)

5. **Emerging trends & Global Perspective of Corporate Governance:** Meaning, need & features of ESG, Importance of ESG, ESG Reporting, ESG Rating, Green Finance, Green lending and green bonds, Blue Finance, Corporate Governance in PSUs, Banks. An overview of International Perspective of Corporate Governance and Contemporary Developments in the Global Arena with focus on countries like UK, USA, South Africa & Australia (5+1)

Note: Relevant cases pertaining to the topic & course content need to be covered.

1. Corporate Governance, Principles, policies and Practices – A.C. Fernando, Pearson Education.
2. Corporate Governance – IICA, Taxmann.
3. The Art of Corporate Governance – Dr. Joffy George.
4. The Essential Book of Corporate Governance by G. N. Bajpai.
5. Companies Act 2013 and Rules.
6. SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015
7. Case Studies on Ethics and Corporate Governance Vol I and II, ICFAI Books.

Semester III		311–Management of Non-profit organizations
2 Credits	LTP: 2:0:0	Generic Elective – University Level

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO311.1	REMEMBERING	DESCRIBE the basic concepts and frameworks in the field of Non-Profit Sector & Non-Profit Organization.
CO311.2	UNDERSTANDING	EXPLAIN the characteristics of Non-Profit organizations, summarizing the factors affecting development of Non-Profit organization.
CO311.3	APPLYING	MAKE use of theoretical concepts, frameworks while registration process of Non-Profit Organization.
CO311.4	ANALYSING	EXAMINE the role of any public policies which helps NPO in decision making.
CO311.5	EVALUATING	EVALUATE the performance of Non-Profit organizations, the critical financial considerations of the Non-Profit organization.

1. **Fundamentals of Non-profit organization:** Introduction of Non-Profit Sector & Non-Profit Organizations, Define the Non-Profit Organization and describe its dimensions. Key concepts in Non-Profit management including board of governance, staffing, regulation, and volunteer management. Concept of Non-Profit leadership and governance and the functions of boards in organizational governance, the Board's Role and Responsibilities. Roles of board members in Non-Profit organizations, responsibilities of Non-Profit Organizations. Elements of board behaviour for effectiveness of organization. Subject Core (SC) Courses - Semester III
Specialization: Financial Management

Semester III		304 FIN– Advanced Financial Management
3 Credits	LTP: 2:1:1	Subject Core - SC - FIN - 03

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO 304.1	REMEMBERING	DESCRIBE the basic concepts in financing, investing and profit distribution in a firm
CO 304.2	UNDERSTANDING	EXPLAIN theoretical concepts related to raising and use of funds and value of firm
CO 304 .3	APPLYING	CALCULATE values for making capital structure, investment, liquidity and dividend decisions in the financial management of a firm
CO 304.4	ANALYSING	ANALYZE the Leverage and PBIT EPS Analysis associate with Financial Data in the corporate
CO 304.5	EVALUATING	Evaluate the key strategic financial issues that must be considered in an acquisition or merger
CO304.6	CREATING	DESIGN an appropriate financial strategy using any one or multiple concepts/ techniques learned in this course.

1. **Corporate Restructuring & Corporate valuation:** Background of restructuring and reorganization; Concept of Financial Distress; Financial Statements including Funds Flow and Cash Flow Statements; Importance of Cash Flows; Economic Value Added (EVA): Meaning, Components, Advantages & Drawbacks, Calculating EVA (6+2)

2. **Capital Structure and Firm Value:** Assumptions and Definitions; Net Income Approach; Net Operating Income Approach; Traditional Position; Modigliani and Miller Position Taxation and Capital Structure; Tradeoff; Signaling Theory; PBIT - EPS Analysis; ROI - ROE Analysis; Leverage Ratios; Guidelines for Capital Structure Planning (7+2)

3. **Mergers and Acquisition:** Types and Reasons for Mergers and Acquisitions. Legal Procedures for Mergers and Acquisitions Forms of compensation. Anti-takeover strategies, Leveraged Buyouts, Portfolio restructuring. (5+2)

4. **Working Capital Management:** Determination of level of current assets, working capital financing by banks; Cash and liquidity Management- aspects of cash management, motives for holding cash and marketable securities, Cash Management Models, Strategies for managing surplus funds; Credit Management: Objectives of trade credit, credit policies. Control and collection of accounts receivables, role of factoring in receivables management (No problems on estimation of working capital). (9+2)

5. **Dividend Policy and Firm Value:** Why Firms Pay Dividends; Factors Influencing Dividend Policy; Legal and Procedural Aspects; Bonus Shares and Stock Splits; Share Buybacks and Valuation; Dividend Policies in Practice; Dividend Models: Walter's model, Gordon's model, Modigliani and Miller's Hypothesis; Models in Which Investment and Dividend Decisions are Related (8+2)

Note:

1. The weightage in the question paper shall be as follows: **Numerical problems: 60% & Theory: 40%**

2. Numerical problems on the following should be taught:

- Funds Flow Statement and Cash Flow Statement
- Calculating EVA
- Firm value (Theories of Capital Structure), PBIT - EPS Analysis
- Sensitivity analysis and Scenario analysis in risk analysis in Capital budgeting, Capital Rationing
- Calculation of Optimum Cash Balance using Operating Cycle Model and Inventory Model
- Receivables Management- calculation of collection period, Determining the number of uncollectible Receivables and Bad Debt Expense: Percent of Sales Method, Percent of Receivables Method
- Dividend Models: Walter's model, Gordon's model, Modigliani and Miller's Hypothesis;

2. Financial Management Theory & Practice by Prasanna Chandra, Publisher: TMH, New Delhi.
3. Financial Management by I M Pandey, Publisher: Vikas Publishing House, New Delhi.
4. Advanced Financial Management by Dr. Mahesh Abale & Dr. Shriprakash Soni, Himalaya Publication House
5. Financial Management by Ravi Kishore, Publisher: Taxman's Publishing House, New Delhi.

6. Financial Management by C. Paramasivan, T. Subramanian, New Age
7. Financial Management by Dr. Anil Kumar Dhagat- Wiley India

Suggested Reading:

1. Financial Management: Theory & Practice by Eugene F. Brigham, Michael C. Ehrhardt
2. Fundamentals of Financial Management by Van Horne, Publisher: Prentice Hall of India.

Semester III		305 FIN – International Finance
3 Credit	LTP : 2:1:1	Subject Core (SC) Course – International Finance

Course Outcomes: On successful completion of the course the learner will be able to

CO#	Cognitive Ability	Course Outcomes
CO305FIN.1	Remembering	RECALL the basic concepts associated with international finance.
CO305FIN.2	Understanding	EXPLAIN the various the concepts related to Foreign Exchange Markets, transactions on the international foreign exchange market, Taxation Systems, International Receivables and cash management.
CO305FIN.3	Applying	USE International Monetary Fund, World Bank, credit rating agencies, foreign exchange, foreign exchange transactions, taxation system, International Receivables and cash management in International financial market.
CO305FIN.4	Analyzing	ANALYZE the role of exchange rate and credit rating agencies, foreign exchange transactions, taxation system, Receivables and cash management in International financial market.
CO305FIN.5	Evaluating	EVALUATE the International Monetary Fund, World Bank, credit rating agencies, foreign exchange, foreign exchange transactions, taxation system, Receivables and cash management in International finance.
CO305FIN.6	Creating	CREATE the investment/ business plan by adopting various international finance concepts

Unit Number	Contents	Number of Sessions
01	Introduction to International Finance: Meaning/Importance, Scope, Globalization of the World Economy, Goals of International Finance, Structure and participants of the global financial system, Functioning of the global financial system in the globalization process, Emerging Challenges in International Finance, Evolution of International Monetary System, International Financial Institutions: International Monetary Fund, World Bank. International credit rating agencies,.	8+1
02	Introduction to Foreign Exchange Markets: Structure of Foreign Exchange Markets, Types of Transactions and Settlement Date, Exchange Rate Quotations and Arbitrage, Interest Rate Parity, Purchasing Power Parity and Fisher's Parity, Forecasting Exchange Rates: Efficient Market Approach, Fundamental Approach, Technical Approach, Global Financial Markets and Interest Rates , Concept and types of currency, Convertibility of currency, Exchange rate: the nature, types and regimes, Demand and supply of foreign currency.	6+1
03	The transactions on the international foreign exchange market: Spot transactions, forward contracts, Future transactions, Swap transactions, option transactions, Transaction Exposure and Types, Foreign bonds market, Eurobonds market, Types of Bonds, floating Rate Notes (FRNs), Deep Discount Bonds, Zero Coupon Bonds, Dual Currency Bonds, and Equity related Bonds, Procedure for Bonds Issues	8+1
04	Taxation Systems and Legal Aspects: International double taxation and the ways of its regulation, Tax evasion, Definition of Money Laundering, organization of money laundering procedure: stages and methods, Monitoring, International	6+1

	cooperation in dealing with money laundering: the establishment of legal framework, The functions and activity of the FATF.	
05	International Receivables and cash management, Foreign exchange risk, The essence and types of currency risks, Risks of making decisions about foreign direct investment, Political risk, International Financial Reporting Standards (I.F.R.S) and Indian Accounting Standards (I.A.S) on foreign transactions, Foreign Exchange Trade Settlement in India, SWIFT, CHIPS, CHAPS	7+1

3. International Financial Management by Eun and Resnick, 4th edition Tata McGraw Hill
4. International Economics by Carbaugh 11th Edition, Cengage Learning.
5. Paul R Krugman and Maurice Obstfeld, 'International Economics', 8th edition
6. Multinational Financial Management by Alan Shapiro, 9th Ed, Wiley

Subject Electives (SE) Courses - Semester III
Specialization: Financial Management

Semester III		312 FIN – Behavioural Finance
2 Credit	LTP : 0:3:1	Subject Elective (SE) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	Cognitive Ability	Course Outcomes
CO312FIN.1	Remembering	Enumerate the concepts and assumptions associated with traditional and behavioral finance.
CO312FIN.2	Understanding	Illustrate the various important theories, heuristics & biases associated with financial decision making.
CO312FIN.3	Applying	Identify behavioural factors that influence financial decision making at individual & corporate level.
CO312FIN.4	Analyzing	Analyze the implications of human psychology on financial decision makers and financial markets.
CO312FIN.5	Evaluating	Interpret various investment strategies based on theories of personal & corporate behavioural finance.
CO312FIN.6	Creating	Plan the systematic approach for efficient financial decisions taking into account behavioural factors.

- 1. Introduction to Behavioral Finance:** Traditional / Conventional / Standard View of Financial Markets - basic concepts, assumptions & limitations; Financial Market inefficiencies - Anomalies & crisis; Evolution, objectives & scope of Behavioral finance; Difference between Standard Finance & Behavioral Finance. (4+1)
- 2. Sources of Irrationality:** External factors defining investors behavior - Demographic, Social, Economic, phases & effect of Geomagnetic Storm on financial market; Types of investors; Investment Cycle - Boom & Bust Cycles, Fear & Greed in Financial Market and systematic investors sentiments. (4+1)
- 3. Theories of Behavioral Finance:** Bounded Rationality & Cognitive Dissonance; Self-perception; Prospect Theory & Loss aversion; Risk aversion; Limit to Arbitrage & cost involved in arbitrage process; Model of limited Attention, Framing, Mental Accounting. (4+1)
- 4. Biases theories:** Heuristics & its types; Sources & classification of biases - heuristic drive & frame driven, cognitive & emotional biases; Impact of different biases on investors; Nudge Theory; Characteristics of extremely successful investors. (4+1)
- 5. Corporate Behavioral Finance:** Introduction, Corporate financial decision making: heuristics & biases affecting behavior during investment, financing & dividend decisions; Presence and absence of Dividend, Ex-Dividend Day behavior, timing of corporate news/ announcement, insider trading, corporate scandals. (4+1)

Suggested Textbooks:

1. Behavioral Finance: Psychology, Decision-Making, and Markets", by Ackert and Deaves.
2. Understanding Behavioral Finance by Ackert
3. The Psychology of Investing by John R. Nofsinger, Pearson Prentice Hall, (4th Edition)
4. What Investors Really Want - Learn the lessons of behavioral Finance, Meir Statman, McGraw-Hill
5. Behavioral Finance by Shuchita singh, Shilpa Bahl

Suggested Reference Book:

1. Handbook of Behavioral Finance – Brian R. Bruce

2. Behavioral finance - Wiley Finance - Joachim Goldberg, Rüdiger von Nitzsch
3. Behavioral finance – Peter Dybdahl Hede
4. Behavioral Finance – Ackert, L.F. & Deaves, R

Semester III		313 FIN: Technical Analysis of Financial Markets
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO313FIN.1	Remembering	Remember the concepts, terminologies, frameworks, tools, techniques and theories of technical analysis taught in the syllabus.
CO313FIN.2	Understanding	UNDERSTAND the applications of technical analysis and the various types of charts and the psychology behind a pattern and its formation
CO313FIN.3	Applying	MAKE PRACTICAL USE of the Theories, Models, Principles and Frameworks of technical analysis for estimating market prices of different securities
CO313FIN.4	Analyzing	ANALYSE AND FORECAST the market prices of securities in order to take and execute investment decisions
CO313FIN.5	Evaluating	EVALUATE opportunities for Buy & Sale on the basis of technical analysis
CO313FIN.6	Creating	FORMULATE an ideal portfolio of investments with a combination of wide number of securities

1. **Introduction to Technical Analysis:** Definition and Concept, Price discounts everything, Price movements are not totally random, Technical Analysis: Basic Assumptions, Strengths and Weakness of Technical Analysis, Importance of Technical Analysis, Dow Theory – Introduction, Principles of Dow Theory, Significance of Dow Theory, Problems with Dow Theory, Constructing and Interpreting Charts and the formation, Evolving a Trading strategy based on patterns. **(4+1)**
2. **Company Analysis Using Technical Analysis:** Understanding various Charts: Bullish Trend, Bearish Trend, Price Chart, Line Chart, Bar Chart, Japanese Candle Stick Chart, Point and Figure Chart, Candlestick Patterns – Doji, Harami, Piercing, Engulfing, Morning Star, Evening Star, Hammer, Inverse Hammer and Hanging Man, Chart Patterns – Support and Resistance, Reversal Patterns - Head and Shoulder Formation, Inverse Head and Shoulder Formation, Double Formations, Rounding Patterns, Rectangle Formation, Wedge Formations, Continuation Patterns – Triangles, Flags and Pennants, Overall Decision Making for Purchase / Sale of Share of a Company. **(6+1)**
3. **Company Analysis Using Market Information:** Volume and Open Interest, Concept and Calculation of Oscillators from the data of five years prices, High, Low, Average Price, Simple Moving Averages, Exponential Moving Averages, Rate of Change Indicators (ROC), Relative Strength Index, (RSI), Moving Average Convergence and Divergence (MACD), STOCHASTIC, VWAP **(5+1)**
4. **Trading Strategies:** Day Trading, Advantages of Day Trading, Risks Associated with Risk Day Trading, Strategies for Day Trading, Momentum Trading Strategies. Elliot Wave Theory, Elliot Wave – Introduction, Fundamental Concept, After Elliott. **(5+1)**
5. **Trading Psychology and Risk Management:** Introduction and Components of Risk Management, Stop Loss, Analyze Reward Risk Ratio, Trail Stop Loss, Booking Profit, Uses of Stop Loss, Qualities of Successful Trader, Golden Rules of Traders, Do's and Don'ts in Trading, Rules to Stop Losing Money Choosing the Right Market to Trade, Importance of Discipline in Trading, Efficient Market Theory. **(5+1)**

Suggested Books:

1. Technical Analysis of financial markets: A comprehensive guide to trading methods & applications – John J. Murphy
2. Technical Analysis Explained: The Successful Investor's Guide to Spotting.
3. Investment Trends and Turning Points - Martin J. Pring.
4. Technical Analysis of Stock Trends, 8th Edition - Robert D. Edwards, John Magee, W. H. C. Bassetti.
5. Technical Analysis for Indian Financial Markets – Shriram Nerlekar, Ashish Kelkar

Semester II		314FIN: Commodities Markets
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO314FIN.1	REMEMBERING	DESCRIBE the key concepts of Commodities Markets
CO314FIN.2	UNDERSTANDING	Understanding the pricing mechanism of commodity, regulatory framework and the difference between commodity and financial derivatives
CO314FIN.3	APPLYING	APPLY all the required strategies and calculations of commodities trading.
CO314FIN.4	ANALYSING	ANALYZE both the fundamental and technical factors that drive the commodity price movements
CO314FIN.5	EVALUATING	EVALUATE the various methods and tools to detect the pulse of the markets and determine the trend in which the prices are moving.
CO314FIN.6	CREATING	ADAPT the skills of commodity analysis and build their own trading strategies

1. **Understanding Commodities and Derivatives:** - Definition of commodity, Kinds of commodity, importance of commodity, Commodities as a New Asset Class, Evolution of Commodity Exchange, FCR Act 1952 and Regulatory structure of Commodities Derivatives Markets in India, Definition of derivative, Types of Derivatives, Over the Counter Derivative, Exchange Traded Derivatives, Difference between commodity and financial derivatives, Physical settlement, Warehousing, Historical changes and growth of global and domestic Commodities derivatives markets, Global commodities derivatives exchanges : - Africa, Asia, Latin America, Commodities as an investment tool for investors, The Kabra committee report and Latest developments. Evolution of Commodity Exchange, NCDEX Platform - Structure of NCDEX, commodities traded on NCDEX platform (4+1)

2. **Product design and Instruments for trading and pricing of commodity derivatives:** Issues Related to Product Design and contract specifications, Issues related to Spot price and present practices of commodities exchanges, Agricultural Commodities Markets & Non- Agricultural Commodities Markets: Issues in Agricultural & Non- Agricultural Commodities Markets, Agricultural & Non Agricultural Commodity Futures trading pattern in Exchange Commodities Derivative Exchanges and design of the markets. Basis Risk and its importance in pricing, Commodity Options on Futures and its mechanism. Instruments available for trading Forward contracts, Futures, Distinction between futures and forwards contracts, Options, Basic payoffs, Payoff for futures, Payoff for options, Pricing commodity futures, Investment assets versus consumption assets, The cost of carry model, Pricing futures contracts on investment commodities, Pricing futures contracts on consumption commodities. (7+1)

3. **Basic principles of hedging, speculation and arbitrage:** Using commodity futures, Hedging: - Basic principles of hedging, Short hedge, Long hedge, Hedge ratio, Advantages of hedging, Limitation of hedging, Speculation: - Speculation: Bullish commodity, buy futures, Speculation: Bearish commodity, sell futures, Arbitrage: - Overpriced commodity futures: buy spot, sell futures, Underpriced commodity futures: buy futures, sell spot. (5+1)

4. **Market Mechanism:** Trading- Futures trading system, Entities in the trading system, Guidelines for allotment of client code, Contract specifications for commodity futures, Commodity futures trading cycle, Order types and trading parameters, Margins for trading in futures, Charges. Clearing and settlement, Clearing: - Clearing mechanism, Clearing banks, Depository participants, Settlement: - Settlement mechanism, Settlement methods, Entities involved in physical settlement, Risk management. (4+1)

5. **Analysis of commodities:** - Introduction to Technical Analysis, Philosophy of Technical Analysis, Relationship between Price and Time, Volume and Open Interest, Basics of Dow Theory, Basic concepts of Trend, Lines Support & Resistances, Reversal and Continuation Patterns, Basics of Gap Theory, Introduction to Indicators and Oscillators. Fundamental Analysis in Commodity Market, Basic Significance of Fundamental Analysis, Classification of Commodities, Factors Affecting Commodities, Analytical Techniques, Commodity Baskets, Correlation Between Commodities, Interrelation between Other Asset Classes and Commodities (5+1)

Suggested Text Books:

1. Commodity Derivatives – IIBF
2. Futures & Options (equities & commodities) – A.N. Sridhar

3. Commodity Derivatives: Markets and Applications - Neil C. Schofield
4. Commodity Derivatives: Markets and Applications (The Wiley Finance Series) - Neil C. Schofield

Suggested Reference Books

1. Commodities and Commodity Derivatives: Modeling and Pricing for Agricultural, Metals and Energy – Helyette Geman
2. Risk Management in Commodity Markets: From Shipping to Agricultural and Energy (The Wiley Finance Series) – Helyette Geman
3. Guide to Indian Commodity Market : Ankit Gala & Jitendra Gala
4. Commodities Markets and Derivatives : B. Kulkarni

Supplementary Reading Material

NCFM Module on Commodity Derivatives

SEMESTER III		315 FIN – Indirect Taxation
2 Credit	LTP : 1:1:1	Subject Elective (SE-IL) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to:

CO#	Cognitive Ability	Course Outcomes
CO315FIN.1	Remembering	Remembering the key concepts of Indirect Taxes in India Identifying and enumerating the various terms associated with GST and other indirect taxes.
CO315FIN.2	Understanding	Explain how GST works as an Uniform Tax Structure, Illustrate the GST framework of India, & describe the important concepts such as supply, dual taxation method, registration process, etc.
CO315FIN.3	Applying	Apply the theories and Principles and perform all calculation through numerical problems on valuation and calculation of taxes. Identify the time value of supply; determine the taxable person and tax levied on goods and services.
CO315FIN.4	Analysing	Illustrate the e filling process of GST Categorize the Goods and Services under GST and amount of tax to be paid using Dual tax concept.
CO315FIN.5	Evaluating	Evaluate Input Tax Credit Process, reversal, late filing and New Amendments; appraise various indirect taxes; Interpret the GST framework in India & verify the tax levied on Goods and Services.
CO315FIN.6	Creating	Elaborate all Provisions of GST and can correlate with filing of returns; virtual e filling can be done Estimate the GST, TDS, anticipate goods, services, tax payable person for the business.

1. **Introduction:** Indirect Taxes - Concept, GST, Need and Genesis of GST. **Dual GST Model:** CGST, SGST, UTGS, IGST. GST Network, GST council, Role and Phases of GST Council, Constitutional provisions to enforce indirect Taxes & GST, CESS (5 + 1)
2. **Registration under GST:** Registration Procedure, Persons not liable for registration, Compulsory registration, Deemed registration, Cancellation vs. Revocation of registration, Unique Identification Number, Registration Number Format. (5 + 1)
Types and periodicity of GST return for different categories of Taxpayers (Regular Tax Payer, Composition Tax Payer, Casual Taxable Person, Non-Resident Taxable Person, etc).5 + 1)
3. **Supply under GST and Valuation of Supply: Key Concepts-** Levy and Collection of Tax, Supply, Place of Supply, Interstate and Intrastate Supply, Export of Service, Export of Goods, Imports of Goods, Import of Service, Valuation of Supply, Types of Supply under GST Regime, Composition Levy, Exemption from tax, Person liable to pay tax, Tax Deduction at source (TDS) under GST. (5 + 1)

4. **Input Tax Credit under GST & Returns:** Input Tax Credit Process, Negative List for Input Tax Credit, Input Tax Credit Utilization and Input Tax Credit Reversal, Types of GST returns and their due dates, late filing, late fee and interest. Reverse Charge Mechanism
New GST Returns - Overview, Forms, Invoices, ITC, Amendments, Offline Tools; New GST Return System, Forms to be filled and Process of New Return Filing System; New Amendments introduced in New GST Return System.

(5 + 1)

5. Definitions of certain terms relating to the custom act, custom tariff act, Levy and types of custom duties, Basic customs duty, IGST, Protective duties, Safeguard duty, Countervailing Duty on subsidized articles, Anti-dumping duty, Import Procedure, Export Procedures, Valuation of Imported Goods, Valuation of Export Goods, Penalties under Customs, Refund. (5 + 1)

*Note: 1. Numericals will be asked on valuation and calculation of Taxes (Unit 3).

(80: 20 :: Theory : Numerical)

Suggested Books:

1. Indirect Tax Reform in India: 1947 To GST and Beyond Book by Vinay K. Srivastava and Yashwant Sinha
2. GST Acts, Rules & Forms with Reference By Ashok Batra
3. Taxmann's Basics of GST
4. Taxmann's GST: A practical Approach Theory & Practice of GST, Srivathsala, HPH
5. Theory & Practice of GST: Dr. Ravi M.N, PBP.

Semester III		316 FIN – Corporate Financial Restructuring
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO316FIN.1	REMEMBERING	DESCRIBE the basic concepts related corporate restructuring, Mergers & Acquisitions, Valuation Aspects of Corporate Restructuring and Corporate Governance Aspects of Restructuring.
CO316FIN.2	UNDERSTANDING	EXPLAIN the motivations, decision processes, transaction execution, and valuation consequences of financial, business, and organizational restructuring by corporate units.
CO316FIN.3	APPLYING	PERFORM all the required calculations through relevant numerical problems.
CO316FIN.4	ANALYSING	ANALYZE the situation by calculations of exchange ratio, financial returns, valuations and others.
CO316FIN.5	EVALUATING	EVALUATE impact of corporate financial restructuring on all stakeholders
CO316FIN.6	CREATING	CREATE an interface and model on various dimensions of corporate finance and restructuring process.

1. **Basic concepts:** Basic concepts: Meaning of Corporate Restructuring, Need, Scope, Concept of Internal & External Restructuring, **different forms** and motives, applications of corporate restructuring, financial perspective in restructuring, Reorganization strategies in corporate organizations. (4+1)
2. **Overview of Corporate Finance and Corporate restructuring** Financial Restructuring & Divestiture, Funding Options for M&A. Strategic Alliances & Joint Ventures, Employee Stock Ownership, Going Private & Leveraged Buyouts. Creating Value through Corporate Restructuring-Corporate Reorganization Strategies-Spin-Offs, Equity Carve-Outs, Target Stock and Divestitures, Financial Distress & Bankruptcy, Liquidation, Net Operating Losses, Sources of Funding & Problem of changing Capital Structure, Strategic and Financial Sponsors, Pros and Cons of different Sponsors, Capital Cash Flows Vs. Equity Cash Flows (6+1)
3. **Dimensions of Mergers & Acquisitions:** Mergers & acquisitions concept, types and process, Accounting for Mergers & Demergers, Regulatory framework of mergers and acquisitions. Due diligence for M&A, Cross-Border Mergers & Acquisitions. Take-over and Defense Tactics Structural Defenses Vs. Non Structural Defenses, Contribution Analysis, Duties of Board of Directors, Market for Corporate Control. (4+1)
4. **Valuation Aspects of Corporate Restructuring:** Methods of payment for M & A and Calculations of exchange ratio, Fundamental and methods of business valuation, Calculations of financial synergy and return, Different

approaches of valuation – Comparable company & transaction analysis method, DCF, Real Option method, Equity/Residual Cash Flows, Adjusted Present Value, Capital / Leveraged Cash Flows, Relative Valuation Analysis, Sensitivity Analysis, Tables, Developing Break Up Analysis. **(6+1)**

5. **Corporate Governance Aspects of Restructuring:** Domestic & International trends relating to governance practices pertaining to Corporate Restructuring, Reference of Corporate Governance in Indian Companies Act (Amended) 2013, SEBI Regulations, Listing Agreement etc. Shareholder democracy in restructuring process, role of investors creditors, role of non-executive directors in restructuring process, Disclosures and Clarifications on the part of Board of Directors and Inclusion in the Auditors' Report. **(5+1)**

Note:

1. To facilitate understanding of corporate merger and acquisition activity, restructurings and corporate governance relevant Cases should be incorporated in teaching pedagogy.
2. **Numerical Problem will be asked on the following:**
 1. Calculations of exchange ratio,
 2. Calculations of financial synergy and return,
 3. Different approaches of valuation – Comparable
 4. Company & transaction analysis method, Discounted Cash Flow (DCF),
 5. Real Option method,
 6. Formula approach for valuation and other important methods of valuation.

Suggested Text Books:

1. Corporate Restructuring, Bhagaban Das and Debdas Raskhit, Himalaya Publishing House
2. Financial Management, R. P. Rustagi, Galgotia Publishing
3. Strategic Financial Management, Ravi M. Kishor, Taxmann,
4. Mergers, Acquisitions and Corporate Restructurings, Gaughan, P.A., John Wiley and Sons
5. Financial Management, Prasanna Chandra, TATA McGraw Hill

Suggested Reference Books

1. Mergers & Acquisitions, B Rajesh Kumar, TATA McGraw Hill, Latest Edition
2. Mergers and Acquisitions, Aurora, Shetty and Kale, Oxford,
3. Takeovers, Restructuring, and Corporate Governance, James J. Fred Weston, Mark L. Mitchell, J. Harold, Pearson
4. Corporate Finance, Ashwath Damodaran, Wiley India,

Supplementary Reading Material

1. Case Studies in Mergers & Acquisitions – ICAI University – ICAI University Press,
2. Case Studies on Mergers & Acquisitions – R. Muthukumar – ICAI University Press

List of Journals / Periodicals / Magazines / Newspapers / Web resources, etc.

1. Business Standard
2. The Economic Times
3. Financial Express
4. Journal of Applied Finance
5. CFA Reader
6. Business Today
7. Finance India

Semester III		317 FIN: Financial Modeling
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Financial Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO317.1	REMEMBERING	Remember the concepts, terminologies, frameworks, tools and techniques of Financial modeling

CO317.2	UNDERSTANDING	UNDERSTAND the applications and use of MS Excel in financial modeling and its different techniques
CO317.3	APPLYING	DEVELOP, APPLY and actually use core functionality of MS Excel in decision framework to solve managerial problems
CO317.4	ANALYSING	ANALYSE different financial models in order to eliminate substantial risk of poor spreadsheet coding
CO317.5	EVALUATING	FORMULATE an idea and acceptable solutions to solve different problems in the area of financial management
CO317.6	Creating	BUILD financial models by making appropriate assumptions on financial factors relevant to the situation.

- 1. Introduction:** Meaning, Benefits and Uses of Financial Modeling. **1.2) Basic Excel for Financial Modeling:** Formatting of Excel Sheets, Use of Excel Formula Function, Advanced Modeling Techniques, Data Filter and Sort, Charts and Graphs, Table formula and Scenario building, Lookups: Vlookup Match & offset, pivot tables. **(5+1)**
- 2. Financial Statement Analysis:** Introduction to Financial Statement Analysis, Financial Reporting Mechanics, Understanding Income Statement, Balance Sheet, Cash Flow Statement, Common-size and Comparative Statements. **(5+1)**
- 3. Financial Ratios:** Ratio analysis of industries, Du point Analysis, Peer to peer analysis, Preparation of Financial Analysis report on an industry. **(4+1)**
- 4. Financial Management:** Time value of money, Long term financing, Cost of capital, Measure of Leverage, Budgets, Types of Budgets. **(4+1)**
- 5. Equity Research Modeling:** Prepare an Income Statement, Balance sheet, Cash Flow Statement, Geographic Revenue Sheet, Segment, Revenue Sheet, Cost Statement, Debt Sheet, Analyze Revenue Drivers, Forecast Geographic & Segment Revenues, Cost Statement, Debt, Income Statement, Balance Sheet, and Cash Flow Statement, Performa Adjustments, Income Statement - Compute Margins, Balance Sheet -Compute Ratios, Cash Flow Statement Projection, Valuation- Discounted Cash Flow Method (DCF), Valuation – Relative Valuation (Football Field Chart), Valuation – Assumptions for Valuation Model, Prepare Valuation Model, Prepare Presentation Sheet, Prepare Company Overview , Sector Overview. **(7+1)**

Suggested Books:

- 1) Business Data Analysis using Excel – David Whigham – Oxford University Press

Semester IV	411: Labour Economics and Costing	
2 Credits	LTP: 0:3:1	Subject Elective – - Human Resource Management

Course Outcome: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO411.1	REMEMBERING	IDENTIFY the basic concepts of Labour Economics, Wage Determination, Labour Productivity and Costing.
CO411.2	UNDERSTANDING	UNDERSTANDING the Labour Markets in India with reference to demand and supply of Labour and Social Security Problems associated to it.
CO411.3	APPLICATION	DETERMINATION of various Wage and Non-Wage Factors applicable in various sectors of businesses.
CO411.4	ANALYSIS	IMPLEMENTATION of various theories of wage determination in various business sectors.
CO411.5	EVALUATION	EVALUATION of Labour Cost Benefit Analysis of important HR functions.
CO411.6	CREATION	APPLICATION of social security of labours in various sectors.

1. **Introduction Labour Economics:** Concept and Definition, Nature, Scope and Importance - Labour as a Unique Factor of Production - Labour Economics as a Branch of Economics - Interdisciplinary Character of Labour Economics, Rise of economic problems in Labour Management, Labour Market -Definitions, facts and trends. **(3)**
2. **Labour Demand and Supply** -Determinants of the Supply and Demand for Labour, Organized and Unorganized Labour, Demand and Supply for labour in Indian Markets, Labour Demand Elasticity- Own-wage elasticity of demand, Cross-wage elasticity of demand, Major issues of Indian labour market -Labour Absenteeism, Labour turnover, Labour Productivity, Labour Migration and mobility, Impact of technological change on Labour Markets, Globalisation and international labour demand outsourcing. **(5)**

3. **Wage Determination:** Classical, neo-classical and bargaining theories of wage determination, Modern theory of wage determination, Concepts of minimum wage, living wage and fair wage in theory and practice, Wage determination in various sectors - rural, urban, organized, unorganized and in informal sectors National wage policy, Wages and Wage Boards in India, Non-wage component of labour remuneration, Non-wage labour costs – factors and its relation with wage determination. (6)
4. **Concept of Labour Productivity & Costing** - Measurement and Importance of Labour Productivity & its Determinants ,Causes for Low Labour Productivity and Measures to Increased Labour Productivity, Productivity and the basis of yearly pay, Productivity and the level of pay, Productivity and the sequencing of pay, Costs -Various concepts, Elements of Labour cost – Fixed Pay and Variable pay. Various Statutory Requirements related to Cost of Labour, Cost Benefit Analysis of important HR functions, Labour turnover & productivity, Productivity and wage relationship, Cases related to labour cost calculation in Indian context. (6)
5. **Social Security of Labour:** Concept of Social Security and its evolution; Special problems of labour- Child Labour, Female Labour, Child labour policy, Problems and policy of female workers, Structure and achievement of labour union in India. Cases related to Issues of Social Security of labours in various sectors. (5)

Semester IV		412HRM : Best Practices In HRM
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course - Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to:

CO#	COGNITIVE ABILITIES	COURSE OBJECTIVES (CO'S)
CO.412HRM.1	REMEMBERING	DEFINE dynamic approach towards Human Resource activities and practices.
CO.412HRM.2	UNDERSTANDING	EXPLAIN theoretical framework for best practices.
CO.412HRM.3	APPLYING	IDENTIFY & CLASSIFY the practices according to the industry and sub sectors of the industry.
CO.412HRM.4	ANALYSING & EVALUATING	COMPARE and DETERMINE various skill sets required at Human Resource Section.

CO.412HRM.5	CREATING	PLAN a survey of various industry and DEVELOP a trend analysis of Human Resource Best Practices.
-------------	----------	--

- 1. Introduction, Definition and Meaning of various concepts in Best Practices:** Defining various terminologies related to best practices. Define Generic, Idealistic, Realistic, and Green Practices in Human Resource Management. Define and evaluate the environment for the Best Practices. **(5)**
- 2. Introduction to Eightfold Path:** Eugene Bardach Theoretical Framework (policy analysis) for Best Practices. **Eightfold Path:** Define the problem-Assemble the evidence-Construct the alternatives-Select the criteria-Project the outcomes-Confront the trade-offs-Decide-Tell your story.
Describe Generic Vulnerabilities: poor general management capacity and weaknesses inherent to the practice itself. **(6)**
- 3. Identification and Classification of Best Practices:** Developing required knowledge and skills across the Human Resource Section. Classify the practices according to the industry and sub sectors of the industry. To Categorize and identify the inconsistent approach with reference to best practices in the Human Resource Sub Sections. **Cases on recent practices in HRM (6)**
- 4. Skill Development:** Introduction, Concept and Definition of Knowledge, Skill, Competency. Difference between knowledge-skill-competency. Highlight and enumerate various skill sets required for Developing Best Practices in Human Resource Sections across various industry. Importance of Skills in implementation of any practices. **(5)**
- 5. Construct** one mini projects in a group of 2-4 students on Emerging Trends and Best HR Practices in areas such as HR Procurement, Training and Skill Development, Reward & Recognition, All statutory provisions under the Factories Act 1948, Employee Engagement for any organizations. **(8)**

Semester IV	413: Employee Engagement and Ownership	
2 Credits	LTP: 1:1:1	Subject Elective – Human Resource Management

Course Outcome: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO413.1	REMEMBERING	IDENTIFY the basic concepts of Employee Engagement and Employee Ownership.
CO413.2	UNDERSTANDING	UNDERSTANDING the various factors, models and metrics involved in Employee engagement.
CO413.3	APPLICATION	DETERMINATION of various Employee Engagement Activities and types of Employee Ownership practiced in all scales of companies at various sectors.
CO413.4	ANALYSIS	IMPLEMENTATION of Engagement strategies and BUILDING Engagement Culture in companies.
CO413.5	EVALUATION	EVALUATION of Employee engagement and Employee Ownership and its impact on the performance of businesses
CO413.6	CREATION	APPLICATION of Employee engagement practices and Employee Ownership at various sectors of industry.

1. Employee Engagement: Concept and Evolution, Definition, Need, Importance, factors of employee engagement, Creating Collective Vision Mission and Goal, Advantages from Employee Engagement, Engagement Models – Fixed Price, Time Material, Dedicated Team, Building your own workspace model. (5+1)

2. Developing Employee Engagement- Understanding Self Determination Theory, Identifying employee engagement outcomes, Elements in designing Employee Engagement Activities -Creating Well-Defined Job Roles, Educating Employees for Engagement, Fostering Personal Connections, Communicating Objectives and Activities for Employee Engagement, Levels of Engagement, Building Engagement-Engagement culture, Barriers to Employee Engagement - Ineffective Communication, Ineffective Leadership, Workplace frustration.(6+1)

3. Measuring Employee Engagement - Stages of Employee Engagement, Ways to measure Employee Engagement, Steps to measure Employee Engagement effectively, Critical Issues in measurement of Employee engagement, Myths about Employee Engagement, Metrics to measure Employee Engagement- Feedback from employees, Relationship with colleagues, Satisfaction & Happiness, Relationship with Leaders, Career Advancement, Rewards & Recognition, Goal Coalition, Welfare and Wellness, Employee as a Branding Agent.(5+1)

4. Employee Ownership – Significance of Employee Ownership, Traits of Employee Ownership, Impact of Employee Ownership, Relationship of Employee Ownership with Productivity, Organizational Commitment and Retention. (4+1)

5. Application of Employee Engagement – Through Job Design, Role Autonomy, Organizational Citizenship and Discretionary behavior, Desk Research of various Engagement initiatives and Tools to measure Employee engagement in various sectors, Develop and Design Employee Engagement Plan.(5+1)

Semester IV		414HRM : Leadership and Succession Planning
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course - Human Resource Management

Course Outcomes: On successful completion of the course the learner will be able to:

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES (CO'S)
CO.414HRM.1	REMEMBERING	IDENTIFY the basic concepts of leadership and succession planning.
CO.414HRM.2	UNDERSTANDING	UNDERSTANDING the modern theories and styles of leadership.
CO.414HRM.3	APPLYING	IMPLEMENTING the appropriate succession plan through leadership development
CO.414HRM.4	ANALYSING & EVALUATING	ANALYSING and EVALUATING the existing human capital.
CO.414HRM.5	CREATING	BUILDING appropriate Succession Plan required in an organization.

1. Leadership: Concept of Leadership, Styles of Leadership, Trait Approach, Contingency Leadership Approach, Contemporary Leadership, Meaning and significance of contemporary leadership, Concept of transformational leadership, Success stories of today's Global and Indian leaders **(5)**

2. Managing Succession: Need, Significance and Objectives of succession planning, The Succession Paradox, Resistance to succession planning - Employee and environmental factors, Establish a training process, Next-generation Attributes, Interests, and Abilities: Ingredients for responsible leadership, crafting the next-generation career plan, Incumbent generation leadership. **(5)**

3. Developing Leadership: Creating a vision, Analyse the strengths and weaknesses of an organisation, Organizational Design – Hierarchy and organigram, Developing the characteristics of leader - Trust, Integrity and Ethics, Power and Influence **(5)**

4. Developing Succession Plan: Prerequisites of Succession Planning, Process of Succession Planning -Identify Key Roles, Identify Competencies for Key roles, Conduct Organizational and Human Capital review, Develop Identified Human capital, Implementation of Succession and Knowledge Transfer Plans and Evaluate Effectiveness of Succession Planning, Challenges and Issues of Succession Planning. **(5)**

5. Application of Succession Planning: Case Study of Leadership related to Succession Planning, Students are expected to study minimum two leaders who set an example of succession planning. **(5)**

Suggested Text Books:

Sem- III		HRM: e-HRM
2 Credits	LTP: 0:3:1	Subject Elective (SE) Course-Human Resource Management

Course Outcomes: At the end of this course the learner shall be able to –

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO316HRM.1	Remembering	ENUMERATE fundamental concept of HRIS
CO316HRM.2	Understanding	UNDERSTAND various technology driven features that can be adapted for HRM functions
CO316HRM.3	Applying	DETERMINE impact of technology on HRM functions.
CO316HRM.4	Analyzing	ANALYSE issues regarding technology in HRM functions.
CO316HRM.5	Evaluating & Creating	DEVELOP competencies needed to adapt technology in HRM functions

1 Foundation of Human Resource information system (HRIS): HRIS- Evolution, The Role of Information Technology, Database Concepts and Applications in Human Resource Information Systems, Systems Considerations in the Design of an HRIS: Planning for Implementation, security and privacy in HRIS, emerging trend/shift of HRIS to HRMS (4+2)

2 e-Talent Management: Introduction recruitment and technology, online recruitment objectives, recruitment strategies and social networking, selection test and assessment, technology issues in selection. (3+2)

3 e-Training: Introduction, Computer Based Training, Developing effective online learning, Blended learning, Simulations, Mobile technology and training methods, technology for training administration, technologies for training support, Learning management system, choosing new technology for training methods. (5+2)

4 e-Performance Management: Performance management and payroll- typical data inputs, reports, decision support. Compensation and benefit - typical data inputs, reports, and decision support. (4+2)

5: Practical applications: Cases - Videos related to HRMS, Case studies related to use of technology in various HRM functions; problems and prospects of HRMS (5 cases) (4+2)

Suggested Text Books

1. Human Resource Information Systems-Basics, Application, Future and Direction by Michael Kavanagh and Mohan Thite, Richard D Johnson, Sage.
2. Training and Development, Raymond Noe Amitabh Kodwani Tata Mcgraw Hill
3. Human Resource Information System by P.K.Gupta and Sushil Chaabra

Reference Books:

Subject Core (SC) Courses - Semester III
Specialization: Operations & Supply Chain Management

Semester III		304 OSCM- Services Operations Management – II
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO304OSCM .1	REMEMBERING	DEFINE the key concepts in Services Operations Management.
CO304OSCM .2	UNDERSTANDING	DIFFERENTIATE between various service strategies, service quality dimensions, and customer relationships based on life time value.
CO304OSCM .3	APPLYING	IDENTIFY the sources of value in a service supply relationship & three factors that drive profitability for a professional service firm
CO304OSCM .4	ANALYSING	CATEGORIZE a service firm according to its stage of competitiveness.
CO304OSCM .5	EVALUATING	MODIFY the Service strategies of an organization for achieving the strategic service vision.
CO304OSCM .6	CREATING	SOLVE the relevant numerical in the scope of the subject.

- Service Strategy:** Strategic Service Vision, Competitive Environment of Services, Competitive Service Strategies. Overall Cost Leadership, Differentiation & Focus approaches. Winning Customers in the Marketplace - Qualifiers, Service Winners & Service Losers. The Competitive Role of Information in Services. Creation of Barriers to Entry, Revenue Generation, Database Asset, Productivity Enhancement, The Virtual Value Chain, First Stage (New Processes), Second Stage (New Knowledge), Third Stage (New Products), Fourth Stage (New Relationships) . (7+2)
- Service Quality:** Defining Service Quality, Dimensions of Service Quality, Gaps in Service Quality, Measuring Service Quality, SERVQUAL. Quality Service by Design, Incorporation of Quality in the Service Package, Poka-Yoke (Fail-safe), Quality Function Deployment, Walk-Through Audit, Designing a Walk-Through Audit, The Walk-Through Audit as a Diagnostic Instrument. Cost of Quality, Unconditional Service Guarantee. Service Recovery, Approaches to Service Recovery, Complaint Handling Policy. Overview of Numerical on Control Chart for Variables (X-chart and R-chart), Control Chart for Attributes (p-chart). (7+2)
- Service Supply Relationships:** Supply Chain Management, Network Model, Managing Uncertainty, Service Supply Relationships, Customer-Supplier Duality, Service Supply Relationships Are Hubs, Not Chains, Service Capacity Is Analogous to Inventory, Customer Supplied Inputs, Managing Service Relationships, Bidirectional Optimization, Productive Capacity, Perishability. Professional Service Firms, Attributes of Professional Services, Operational Characteristics, Outsourcing Services, Benefits and Risks of Outsourcing Services, Classification of Business Services, Managerial Considerations with Service Outsourcing. (7+2)
- Service Design Principles:** Basics of Service Design , Holistic service design, service design and overall business change, Scope and flow of service design, Value to the business, Comprehensive and integrated service design, The four Ps, Service composition, Setting direction, policy and strategy for IT services, Optimizing design performance, Service design goals, Balanced design , Identifying service requirement , Designing measurement methods and metrics. (7+2)
- Customer in service industry:** Buyer characteristics, buyer decision-making process (EKB model), customer involvement in service process, customer behaviour in service settings. Relationship marketing, evolution of relationship marketing, degree of relationship building, the importance of customer retention, enhancement of internal and external relationship change. 7-S Framework, determining the value of customer, lifetime value of customer, customer relationship management strategies, customer delight and customer loyalty. Case study on Axis Bank. (7+2)

Suggested Text Books:

- Successful Service Operations Management, Metter, King–Mettters, Pulliman& Walton, Thomson India
- Services Business Management, Dr Abhay Kulkarni and Dr Sudhir Hasamnis, Himalaya Publication
- Services Marketing Operations and Management, Vinnie J Juhari, Kirti Dutta, Oxford University Press
- Service Management, Fitzsimmons and Fitzsimmons, Irwin/McGraw-Hill

Suggested Reference Books:

1. Service operations management - Improving service delivery, Robert Johnston, Graham Clark, Pearson Publication
2. Services Sector Management An Indian Perspective, C. Bhattacharjee
3. Baldrige – Just What the Doctor Ordered, Quality Progress, Nelson

Semester III		305 OSCM - Logistics Management
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO305OSCM.1	REMEMBERING	DEFINE basic terms and concepts related to Logistics management.
CO305OSCM.2	UNDERSTANDING	EXPLAIN the infrastructure of logistics, its linkage with various types of communication modes.
CO305OSCM.3	APPLYING	DESCRIBE the various dimensions of logistics management and transport, their inter-linkages with different types of freights.
CO305OSCM.4	ANALYSING	CALCULATE logistic costs and various classification methods of reducing the cost. Involving the information technology and its impacts.
CO305OSCM.5	EVALUATING	OUTLINE a typical logistic framework and services. ILLUSTRATE the linkages with its dynamic storage system / Customer Issues, Logistic and Business Issues in a real world context.
CO305OSCM.6	CREATING	DISCUSS modern real world logistical systems using the various concepts in the syllabus.

1. **The Principles of Logistics:** Definitions and Significance of Logistics. Logistical System of Services Elements of Logistics, Distinction between Procurement Logistics, Production Logistics and Distribution Logistics, Service Level, Logistics and Corporate Strategy, Supply Chains and Networks. (7+2)
2. **Logistics Systems:** Logistical Infrastructure, Basic Terminology, Types and Functions, Transport Infrastructure and Superstructure, Transport Routes and Transport Networks, Logistics Real Estate, Logistics Parks, and Freight Villages, Information Infrastructure and Communication Infrastructure, Telecommunication Infrastructure, Satellite Systems and Satellite Navigation. (8+2)
3. **Transport Systems and Logistics Services:** Transport Basics, Significance and Development, Modes of Transport and Transport Technologies, Transport Value and Transport Affinity, Road Freight Transport, Rail Freight Transport, Sea Freight Transport, Inland Waterway Transport, Air Freight Transports, Pipeline Transport. (8+2)
4. **Logistics Service Providers:** Carriers and Forwarders, Courier, Express Parcel and Mail Service Providers, Systems Service Providers and Contract Logistics Providers. IT in Logistics, Communication Standards, Identification Standards, Classification of IT in the Fields of Inventory and Warehousing. (7+2)
5. **Warehousing, Handling, and Picking Systems:** Warehousing, Handling, and Picking Systems, Warehousing Basics, Storage Facilities, Static Storage Systems, Dynamic Storage Systems, Conveyors, Discontinuous Conveyors, Continuous Conveyors, Sorters, Packages, Loading Units, and Load Carriers, Picking and Handling, Warehouse Organization, Inventory, Stock and Provisioning Management. (5+2)

Suggested Text Books:

1. Logistics, by Harald Gleissner and J Christian Femerling
2. Lean Supply Chain and Logistics Management, by Paul Myerson
3. Supply chain logistics management, By Bowersox

Suggested Reference Books:

1. Supply Chain Logistics Management, Donald Bowersox, David Closs, M Bixby Cooper, Tata McGraw Hill.
2. Introduction to Materials Management, J.R. Tony Arnold, Stephen Chapman, Ramakrishnan, Pearson.
3. Supply Chain and Logistics Management: Concepts, Methodologies, Tools, and Applications, by Information Resources Management Association, US.

Subject Elective (SE) Courses - Semester III
Specialization: Operations & Supply Chain Management

Semester III		312 OSCM- Manufacturing Resource Planning
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO312OSCM.1	REMEMBERING	DEFINE basic terms and concepts related to MRP II.
CO312OSCM.2	UNDERSTANDING	DESCRIBE the integrated planning structure and functions incorporated within MRP.
CO312OSCM.3	APPLYING	ILLUSTRATE the importance of MRP as a top-management planning tool
CO312OSCM.4	ANALYSING	IDENTIFY the vertical and horizontal cross-functional integration within the MRP II planning hierarchy.
CO312OSCM.5	EVALUATING	EXPLAIN how what-if simulation, modeling, and analysis are used to produce feasible plans.
CO312OSCM.6	CREATING	DISCUSS how MRP supports the company's cost, quality, and delivery operating objectives.

- Master Production Scheduling (MPS):** Introduction to MPS, Need, objectives & functions of MPS, Role of MPS in management- as a “Link between strategic and tactical planning”. Logical flow of materials in different manufacturing scenarios (VAT Analysis), Planning horizons and Time periods (Buckets) of MPS, Order management in MPS, Safety and hedges, Projected Available Balance (PAB) and Available To Promise (ATP), Time Fences & effect of changing MPS decisions on time fences, Final Assembly Schedule (FAS). (5+1)
- Material Requirements Planning (MRP-I):** Introduction to MRP-I, Roles & functions of MRP-I, Independent & Dependent Demand, Bill of Materials (BOM), Types of BOM, Numerical Problems on BOM, Lot-sizing, MRP-I as Input & Output Process, MRP-I Spreadsheet problem, Pegging reports & where-used files. (5+1)
- Capacity Management:** Introduction to ‘Capacity’ and ‘Capacity management’, Capacity Expansion Strategies, Capacity Planning levels vis-à-vis Manufacturing planning levels, Capacity measurement, Rough Cut Capacity Planning (RCCP), Capacity Requirement Planning (CRP), Shop Calendar, Scheduling strategies- Backward & Forward scheduling, Infinite & Finite loading, Production smoothing policies. (5+1)
- Manufacturing Resource Planning (MRP-II)- (Module-I):** Introduction to MRPII, Roles & functions of MRP-II, MRP-II framework, Information flow in MRP-II, Relation of MRP-II with Demand management and Capacity management, Manufacturing calendar. (5+1)
- Manufacturing Resource Planning (MRP-II)- (Module-II):** Transition from MRP-I to MRP-II, Closed loop MRP, Comparison between MRP-I and MRP-II, Plant & supplier scheduling, Problems associated with MRP-II, Benefits and prospects of MRP-II, Compatibility between MRP-II & Just-in-Time (JIT). (5+1)

Suggested Text Books:

- Manufacturing Resource Planning System, Mr. Oliver W. Wight
- Manufacturing Resource Planning, Mr. Khalid Shaikh,
- Manufacturing Resource Planning System, S. M. Emberville

Suggested Reference Books:

- Operations Management by Terry Hill, Palgrave
- The fundamentals of Production Planning and Control by Stephen Chapman, Pearson

Semester III		313 OSCM- Sustainable Supply Chains
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO313OSCM.1	REMEMBERING	ENUMERATE the key concepts of Sustainable Supply Chains and Sustainable Supply Chain Management.
CO313OSCM.2	UNDERSTANDING	DESCRIBE and DISCUSS the role and importance of sustainability and sustainable development in different types of supply chains.
CO313OSCM.3	APPLYING	IDENTIFY and USE relevant established and emerging principles, frameworks and theories in sustainable logistics and supply chain management.
CO313OSCM.4	ANALYSING	INTEGRATE fundamental strategies, tools and techniques to analyze and design environmentally sustainable supply chain systems.
CO313OSCM.5	EVALUATING	DETERMINE the unsustainable impact of logistics activities, both individual, and in the wider context of the supply chain.
CO313OSCM.6	CREATING	COMPILE the managerial challenges, and FORMULATE a structured solution to these, with clear implications for relevant stakeholders.

- 1. Introduction:** Sustainable Supply Chain Concept, Supply Chain Sustainability Management, Need, Business imperatives. Leveraging Connections of the Consumer, Brand, and Environmental Sustainability, Overview of Green Supply Chain, Concept of Green Logistics, Green Logistics – Rhetoric & reality, Key drivers for greening of Logistics & Supply Chains, Benefits of Green Supply Chains. (5+1)
- 2. Closed Loop Supply chains:** Natural resource Management, Global warming, environment legislation, Managing reverse logistics, recycling through lease and service agreements, Supply Chain Integration in View of Secondary Raw Materials, Sustainable supply chain products - from cradle to cradle. (5+1)
- 3. Environmental Costs of Logistics:** Arguments for and against internalizing environmental costs of logistics, Monetary calculation of environmental costs, Concept of Carbon Credits, Guidelines for carbon foot printing, Carbon foot printing process, success factors in carbon foot printing, Carbon Auditing of Supply Chains, Sustainable transportation, Greening transportation in the supply chain, Reverse channel design: Profitability VS Environmental benefits. New strategies to improve sustainability through supplier assessment. (6+1)
- 4. Monitoring Performance:** Measuring and Monitoring of Sustainable Supply Chain, Evaluating the impact of SC activities on Sustainability: Economic, Environmental and Social, Visible Supply Chain - Process, Product and Performance, Product oriented monitoring, Benefits and use of performance measurement, Problems with measuring performance, Stages of Supply Chain Performance Measurement. (5+1)
- 5. Sustainable purchasing and procurement:** The role of procurement in the supply chain, Drivers and barriers for sustainable procurement, Procurement frameworks, Ecolabels, Lifecycle assessment, Comparing purchasing options. Managing future supply chain, International Supply Chain Management and Collaboration Practices. (4+1)

Suggested Textbooks:

2. Earth, Inc.: Using Nature's Rules to Build Sustainable Profits, G. Unruh
3. The Ecology of Commerce: A Declaration of Sustainability by P. Hawken, Harper Paperbacks
4. Greening of Industry Networks Studies, Behnam Fahimnia Michael G.H. BellDavid A. Hensher Joseph Sarkis Editors
Green Logistics and Transportation A Sustainable Supply Chain Perspective
5. Environmental Issues in Logistics and Manufacturing Series editor Eco Production. Paulina Golinska, Poznan, Poland.

Suggested Reference Books:

1. Sustainable Logistics and Supply Chain Management: David B Grant, Alexander Trautrim and Chee Yew Wong
2. Logistics Operations, Supply Chain Management and Sustainability: Paulina Golinska
3. Sustainable Fashion Supply Chain Management: From Sourcing to Retailing, edited by Tsan-Ming Choi, T. C. Edwin Cheng

Semester III		314 OSCM- Business Excellence
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO314OSCM.1	REMEMBERING	REPRODUCE the essential tenets of Business Excellence in organizations with special emphasis on Operations Excellence
CO314OSCM.2	UNDERSTANDING	EXPLAIN the basic principles of various models of Business Excellence.
CO314OSCM.3	APPLYING	MAKE USE OF the concepts, tools and techniques of Business Excellence in the various areas of Operations, Supply Chain and Services
CO314OSCM.4	ANALYSING	ILLUSTRATE the various facets of development, implementation and assessment of business excellence
CO314OSCM.5	EVALUATING	FORMULATE a managerial perspective and DEVELOP an informed decision-making ability for driving Business Excellence in the various areas of Operations, Supply Chain and Services
CO314OSCM.6	CREATING	DISCUSS what makes some organizations best-in-class organizations.

1. **Business Excellence:** Business Excellence – Concept & Need. Fundamental concepts, European Foundation for Quality Management (EFQM), Malcolm Baldrige National Quality (MBNQA) framework, Deming Award, Indian BE Models such as Tata Business Excellence Model, Golden Peacock Award by the Institute of Directors (IOD), CII-EXIM Bank Award for Business Excellence, Rajiv Gandhi National Quality Award (RGNQA), etc, Core Values and Concepts, TQM Vs Business Excellence, Paradigm Shift. (5+1)
2. **Leadership triad:** Leadership, Strategy and Customers, Role of Senior Leadership and communication, Vision, Mission and Values, Organizational Governance, Strategy - Strategy development and deployment process, Tools and Techniques for strategy development and deployment - Hoshin Kanri, BSC, etc. Customers – Voice of Customer, current and potential customers, Customer Satisfaction and Engagement, Product and Service Offerings. (5+1)
3. **Results triad:** People, Operations and Results, Results flowing from all areas of organization, Measurement, Analysis, and Knowledge Management, Overall Performance Management. (5+1)
4. **Assessment:** Assessment of organizations based on BE Models and guidelines, developing assessors, Factors in assessment, scoring bands, global scale for comparison. (5+1)
5. **Comparisons and Benchmarking:** Benchmarking within organization, across the BUs and sister organizations, benchmark grid, benchmarking with competitors and global benchmarks. (5+1)

Suggested Textbooks:

1. The Business of Excellence: Building High-performance Teams and Organizations by Justin Hughes, Bloomsbury Publishing.
2. Achieving Class A Business Excellence: An Executive's Perspective by Dennis Groves, Kevin Herbert and Jim Correll, Wiley Publications
3. Design for Operational Excellence: A Breakthrough Strategy for Business Growth by Kevin J. Duggan, McGraw-Hill Education
4. From Quality to Business Excellence: A Systems Approach to Management by Charles G. Cobb, ASQ PR
5. Business Excellence through Process Management by Manik Kher, VIVA BOOKS

Suggested Reference Books:

1. Achieving Business Excellence by Pravin Rajpal, Om Books International
2. Creating a Lean Culture: Tools to Sustain Lean Conversions by David Mann, CRC Press
3. Measuring Business Excellence, Routledge Advances in Management and Business Studies Book
4. EFQM, MBNQA, RGNQA Guidelines
5. 54 Tools and Techniques for Business Excellence by Michael Wash, Management Books

Semester III		315 OSCM- Toyota Production System
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO315OSCM.1	REMEMBERING	DESCRIBE 14 principles of the Toyota Way.
CO315OSCM.2	UNDERSTANDING	RELATE the TPS with other business situations.
CO315OSCM.3	APPLYING	IMPLEMENT TPS principles to a real-life situation.
CO315OSCM.4	ANALYSING	EXAMINE the application of TPS principles in a service or manufacturing unit/ organization.
CO315OSCM.5	EVALUATING	DESIGN a process for executing Improvement Initiatives at workplace.
CO315OSCM.6	CREATING	BUILD an organization culture to foster continuous improvement.

- The Toyota Way:** Using Operational Excellence as a Strategic Weapon. Toyota Production System Vs Lean Production, what does it actually mean by getting Lean, The Heart of the Toyota Production System - Eliminating Waste, The TPS House Diagram (5+1)
- The 14 Principles of the Toyota Way:** An executive summary of the culture behind TPS, Toyota Way in action, Long Term Philosophy, creating continuous process flow, Pull system to avoid over production. (5+1)
- Leveling Workload (Heijunka), Getting quality right the first time, Standardization of the task, Use of Visual Control, Use of reliable technology. (5+1)
- Leadership:** Role of Leaders in Manufacturing Philosophy, Development of Exceptional Teams, Challenging and respecting extended networks, see yourself to understand the situation, Developing decisions with consensus. (5+1)
- Organizational Aspects:** Become a learning organization, Continuous Improvement, Using the Toyota Way to transform organizations, Lean Manufacturing, Lean, Agile and Sustainable Manufacturing. (5+1)

Suggested Text Books:

- The Toyota Way: 14 Management Principles from the World's Greatest Manufacturer by Jeffrey K. Liker McGraw-Hill

Suggested Reference Books:

- The Toyota Kaizen Continuum: A Practical Guide to Implementing Lean by John Stewart , Taylor and Francis Group
- The Toyota Way Field book A Practical Guide for Implementing Toyota's 4 Ps by Jeffrey K. Liker and David Meier, Tata McGraw-Hill Edition

Semester III		316OSCM- Operations & Service Strategy
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO316OSCM.1	REMEMBERING	ENUMERATE the key components of operations strategy.
CO316OSCM.2	UNDERSTANDING	EXPLAIN the linkages between operations strategy and competitive advantage as the basis of competitive position through superior product development, cost, quality, features.
CO316OSCM.3	APPLYING	ILLUSTRATE the broader context of business strategy & fit between manufacturing and operations capabilities and the business strategy
CO316OSCM.4	ANALYSING	EXAMINE the concepts of competitive leverage using manufacturing and operations, the fit of the various elements of manufacturing and operations, the impact of the competitive environment, and the structure of the value chain.
CO316OSCM.5	EVALUATING	DESIGN the operations and service strategy.
CO316OSCM.6	CREATING	FORMULATE an operations strategy (long-term plan) and link with operational decisions.

1. **Operations Strategy:** Introduction, Relationship Between business grand strategies & the operations strategy, Strategic issues in manufacturing / operations, Elements of Operations Strategy, Competing through operations. Operation strategy in global economy, Changing nature of business, Quality, Customer service and cost challenges and social responsibility, Current perspective-Strategic fit (5+1)
2. **Methodology for Developing Operations Strategy:** Value as business concept, Strategy- Formulation Process.– Value Chain concept , Focus, core competence and distinctive capabilities, stake holders & strategy, Checking markets, Outcome of Market debate – Linking manufacturing to Markets – strategic integration – why products sell in the markets – Order Winners, Order Qualifiers. Lean systems-Eliminating waste.
3. **Operation Strategy Implementation:** Technology strategy Issues in New Product development Time to market – strategic nature of process– Business implication of Process choice – Hybrid Process. Change management and Sustainability Procedure – company or plant-based profiles – decisions for product reallocation – downsizing – Capacity decisions Progression & Regression (5+1)
4. **Strategic Resource Management:** Importance, issues involved – organizational issues operational approaches to improving, delivery system, controlling operations – key performance Indicators, PQCDMS (Productivity, Quality, Cost, Delivery Time, Safety, Morale)
5. **Service Strategy:** Introduction, The service opportunity, Service growth- How to grow in service, Service Focus Strategy, Design an Effective service organization, Service Supply Chain, Service Pricing, Service Innovation. (5+1)

Suggested Text Books:

1. Operations Management Theory & Practice – B. Mahadevan - Pearson
2. Operations Now by Byron Finch, TMGH
3. Operations Research – by Nita Shah, Ravi Gor, Hardik Soni- Prentice Hall India

Suggested Reference Books:

1. Operations Management by Norman Gaither, Greig Fraizer, Cengage Learning, India Ed.
2. Operations Management by Terry Hill, Palgrave

Semester III		317 OSCM- Six Sigma for Operations
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO317OSCM.1	REMEMBERING	DESCRIBE the Key Concepts and Definitions associated with Quality Management, Six Sigma and Process of Six Sigma
CO317OSCM.2	UNDERSTANDING	SUMMARIZE the six-sigma philosophy along with understanding of 7 QC Tools.
CO317OSCM.3	APPLYING	PREDICT the change due to Six Sigma Implementation and Application of Six Sigma tools in new settings
CO317OSCM.4	ANALYSING	APPRECIATE use of Six Sigma for services performance improvement and strengthening the Organizational Structures
CO317OSCM.5	EVALUATING	DECIDE control chart to use for given set of data and ROSS (Return on Six Sigma)
CO317OSCM.6	CREATING	CREATING a Case for Business Models in Different Industries/Proposing a Strategy by Studying the cases of Successful Six Sigma Implementation

1. **Introduction to Lean Six Sigma:** History of Quality (Key Concepts by Quality Guru- Deming, Juran, Crosby, Ishikawa, Taguchi etc.), History of Continuous Improvement, Evolution of Six Sigma, Defining Six Sigma – philosophy and objectives, Six Sigma Principles and Focus Area, Value of Six Sigma. DMAIC Process
2. **DEFINE and MEASURE PHASE: DEFINE** - Six Sigma Project Identification, Selection and Definition, Project Charter and Monitoring, Process characteristics and analysis, Process Mapping: SIPOC- Suppliers – Inputs – Process – Outputs – Customers. **MEASURE** - Data Collection and Summarization, Measurement systems: Fundamentals, Accuracy, Precision, Discrimination, R&R Studies, Linearity, Process Stability, Fundamentals of statistics: Probability theory. Process capability analysis: Key Concepts, Measures and Indices, Non-normal process capability analysis, (5+1)

3. **ANALYZE and IMPROVE PHASE: ANALYZE** - Hypothesis testing: Fundamentals, Single Population Test, Two Population Test. Correlation and Regression Analysis, Regression Analysis: Model Validation. Introduction to One-Way ANOVA, Two-Way ANOVA, Multi-vari Analysis, Failure Mode Effect Analysis (FMEA) **IMPROVE** - Introduction to Design of Experiment, Randomized Block Design, Factorial Design, Fractional Factorial Design, Taguchi Method: Key Concepts and Illustrative Application. (5+1)
4. **CONTROL PHASE:** Seven QC Tools, Statistical Process Control: Key Concepts, Control Charts for Variables, Operating Characteristic (OC) Curve for Variable Control charts. Statistical Process Control: Control Charts for Attributes, Operating Characteristic (OC) Curve for Attribute Control charts. Acceptance Sampling: Key Concepts, Design of Acceptance Sampling Plans for Attributes, Design of Acceptance Sampling Plans for Variables, Return on Six Sigma – ROSS. (5+1)
5. **Six Sigma Implementation Challenges:** Design for Six Sigma (DFSS): DMADV, DMADOV, DFX Six Sigma Team Management: Composition and Layers, Six Sigma: Case study and Applications, Overview of Lean Six Sigma, Critical Success Factors in Implementation of Six Sigma. (5+1)

Suggested Text Books:

1. Daniel J. Zrymiak Govindarajan Ramu Roderick A. Munro, The Certified Six Sigma Green Belt Handbook
2. Hemant Urdhwareshe, Six Sigma for Business Excellence: Approach, Tools and Applications, Pearson Education
3. Mitra, Amitava, Fundamentals of Quality Control and Improvement, Wiley India Pvt Ltd

Suggested Reference Books:

1. T. M. Kubiak and Donald W. Benbow, The Certified Six Sigma Black Belt Handbook, Pearson Publication.
2. Montgomery, D C. Statistical Quality Control: A modern introduction, Wiley.
3. Forrest W. Breyfogle III, Implementing Six Sigma, John Wiley & Sons.
4. Evans, J R and W M Lindsay, An Introduction to Six Sigma and Process Improvement, CENGAGE Learning.
5. Howard S. Gitlow and David M. Levine, Six Sigma for Green Belts and Champions, Pearson Education, Inc.
6. Montgomery, D C. Design and Analysis of Experiments, Wiley.
7. Larson, Alan, Demystifying Six Sigma: A Company–Wide Approach to Continuous Improvement, American Management Association

Subject Core (SC) Courses - Semester IV
Specialization: Operations & Supply Chain Management

Semester IV		403 OSCM- E Supply Chains and Logistics
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO403OSCM .1	REMEMBERING	DESCRIBE the structure of modern days Logistics.
CO403OSCM .2	UNDERSTANDING	EXPLAIN the key concepts of Supply Chain Management and the – driving forces in contemporary Supply Chain Management.
CO403OSCM .3	APPLYING	IDENTIFY the various flows in real world supply chains and Logistics. IDSCRIBE the importance of documentations.
CO403OSCM .4	ANALYSING	COMPARE and CONTRAST push and pull strategies in Supply Chain Management. ANALYSE the impact of tracking system linkage in Logistics.
CO403OSCM .5	EVALUATING	EXPLAIN the key Operational Aspects of E Procurement.
CO403OSCM .6	CREATING	DEVELOP a framework for e-logistics

- 1. Introduction to E-logistics:** Nature and Scope of E Logistics, Forward E-logistics, Reverse E-logistics, Challenges of E-logistics, environmental issues, e-business strategy, Application for E-logistics in Business to business and Business to consumers, Logistics renovation towards E-logistics, New trends and technology in logistics. (7+2)
- 2. e-Supply Chain Management:** Competitive advantages through e-Supply chain management, Process orientation as a basic understanding in the value creation process, Holistic approach to supply chain management, e-Supply Chain Management as a concept for success, Collaborative Commerce: The future in e-SCM , e-Supply chain system, Elements of e-supply chains, Characteristics of e-SCM, Structuring the e-SCM business architecture strategy. (7+2)
- 3. E-logistics documentation:** Electronic data interchange, ERP Enterprise resource planning systems, Intranets and extranets – The world wide web, Web-enabled relational databases, data warehouses and data marts, Decision support systems. (6+2)
- 4. E-Tracking Systems:** ASNs, tracking systems, Satellite global positioning systems (GPS) and geographic information systems (GIS), Bar-coding and scanning, Electronic signature technology, Wireless technology, Radio frequency identification (RFID). (8+2)
- 5. E-Supply Chains & Logistics:** Electronic procurement (e-Procurement): Transport and delivery management, Packing and order management, Inventory and warehousing, E-business logistics and its benefits. E-Sales: e-Sales in the e-Commerce environment, CRM as a philosophy, e-Distribution: distribution strategies in the e-age, e-Payment: transactions along the e-Supply chain, e-SCM scorecard: controlling in e-Supply chain management. (8+2)

Suggested Text Books:

1. E-Supply-Chain-Management, Prof. Dr. Helmut H. Wannenwetsch, Sascha Nicolai
2. Applications of Supply Chain Management and E-Commerce Research, Joseph Geunes, Elif Akçali... in Applied Optimization
3. Supply chain management, Engaging technology to build market – winning business partnerships, David F Ross
4. Supply Chain Management, Oliver Lawrenz... in Business Computing
5. Logistics, Harald Gleissner J. Christian Femerling
6. Lean Supply Chain and Logistics Management Paul Myerson

Suggested Reference Books:

1. Supply Chain Logistics Management, Donald Bowersox, David Closs, M Bixby Cooper, Tata McGraw Hill.
2. Introduction to Materials Management, J.R. Tony Arnold, Stephen Chapman, Ramakrishnan, Pearson.

Semester IV		404 OSCM- Industry 4.0
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO404OSCM .1	REMEMBERING	DEFINE industrial revolutions and its different aspects.
CO404OSCM .2	UNDERSTANDING	EXPLAIN the role of technology pillars of Industry 4.0.
CO404OSCM .3	APPLYING	DEMONSTRATE the use of data in effective decision making.
CO404OSCM .4	ANALYSING	ILLUSTRATE the need of cyber physical system for sustainable competitive advantage.
CO404OSCM .5	EVALUATING	EXPLAIN the challenges faced by various industries in full fledge implementation of Industry 4.0
CO404OSCM .6	CREATING	DEVELOP a framework for any organization using base of Smart Industry Readiness Index Proposed by Singapore EDB

- Decoding Various Aspects of Industrial Revolutions :** The 4th Industrial Revolution: The Various Industrial Revolutions, Japanese vs. Western approach for manufacturing excellence, Introduction to Industry 4.0, Overview on Mechatronics, Sensing and Actuation, Communication and Networking, Digitalization and the Networked Economy, Drivers, Enablers, Compelling Forces and Challenges for Industry 4.0, The Journey so far: Developments of Industry 4.0 in developed countries. Comparison of Industry 4.0 Factory and Today's Factory, Developments in Industrial revolution, its impact on governments, businesses, civil society and individuals, and offers bold ideas. (7+1)
- Way to Fourth Industrial Revolution:** Features and uniqueness of the Cyber-physical Systems, Introduction to Pillars of Industry 4.0, Collaborative Platform and Product Lifecycle Management, Manufacturing as a Administration, Horizontal and Vertical Integration. Smart Factory, Smart Manufacturing, Smart Devices and Products, Smart Logistics, Smart Cities. Internet of Things (IoT) & Industrial Internet of Things (IIoT) and Introduction to IIoT layers, Overview of Reference Architectural Model Industrie 4.0 (RAMI 4.0), Internet of Services. (8+2)
- Data and Analytics:** Resource-based view of a firm and importance of data as a new resource for organizations, Big data analytics (BDA) and significance of V's of big data. Overview of Software Defined Network (SDN), Harnessing and sharing knowledge in organizations, Four types of Analytics: Descriptive, Diagnostics, Predictive, and Prescriptive Analytics, Artificial Intelligence, Cloud Computing Basics. (7+2)
- Ecosystems for Industry 4.0:** Robots and Cobots, Mobile Computing, Supporting Systems and related disciplines for I4.0 such as Augmented Reality, Virtual Reality and Mixed Reality, Additive Manufacturing, Automated Guided Vehicle (AGV), Cyber Security. (7+2)
- Challenges, Preparedness and Use Cases:** Opportunities and Challenges, Future of Work system and skill requirements, Leadership for Industry 4.0, Strategies for competing in an Industry 4.0 era, Introduction to Smart Industry Readiness Index (SIRI), Overview of Society 5.0. Other Applications and Case Studies Industry 4.0 laboratories (CII 4.0), IIoT case studies across world: Sector-wise and/or Function-wise e.g. Healthcare, Automobile, Banking, Power etc. or Inventory Management, Quality Control, Plant Safety and Security, Facility Management etc. (Minimum 1) (7+2)

Suggested Text Books:

- The Fourth Industrial Revolution, by Klaus Schwab, Portfolio Penguin
- Industry 4.0: The Industrial Internet of Things, by Alasdair Gilchrist
- Industry 4.0: Entrepreneurship and Structural Change in the New Digital Landscape (Studies on Entrepreneurship, Structural Change and Industrial Dynamics), by Tesselano Devezas, Joao Leitao, Askar Sarygulov, Springer International Publishing
- "Industrial Internet of Things: Cyber manufacturing Systems" by Sabina Jeschke, Christian Brecher, Houbing Song, Danda B. Rawat (Springer)

Suggested Reference Books:

- Analysing the Impacts of Industry 4.0 in Modern Business Environments, by Richard Brunet-Thornton and Felipe Martinez, IGI Global

2. The 4th Industrial Revolution: Responding to the Impact of Artificial Intelligence on Business, Book by Felix Hovsepian and Mark Skilton
3. Industry X.0: Realizing Digital Value in Industrial Sectors, by Eric Schaeffer, Kogan Page
4. Analysing the Impacts of Industry 4.0 in Modern Business Environments, Felipe Martinez; Richard Brunet-Thornton; IGI Global

Subject Elective (SE) Courses - Semester III
Specialization: Operations & Supply Chain Management

Semester IV		409 OSCM- Enterprise Resource Planning
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO409OSCM.1	REMEMBERING	DESCRIBE the key concepts of ERP systems for manufacturing or service organizations.
CO409 OSCM.2	UNDERSTANDING	EXPLAIN the scope of common ERP Systems modules.
CO409 OSCM.3	APPLYING	DEVELOP basic understanding of how ERP enriches the business organizations in achieving a multidimensional growth.
CO409 OSCM.4	ANALYSING	EXAMINE the challenges associated with implementing enterprise systems and their impacts on organizations.
CO409 OSCM.5	EVALUATING	JUSTIFY selection of an appropriate ERP transition strategy.
CO409 OSCM.6	CREATING	FORMULATE best selection and implementation strategy in a real setting.

- 1. Introduction to ERP:** Evolution of ERP, Reasons for the Growth of ERP, Scope of ERP systems, General model of business and ERP, Three Tier Architecture of ERP, Various Modules of ERP, Benefits and Risks of ERP, ERP and related technologies – Data mining, data warehousing, On-Line Analytical Processing (OLAP), Supply Chain Management (SCM), Customer Relationship Management (CRM), Geographical Information Systems (GIS).(5+1)
- 2. ERP Modules:** Introduction; Finance, HRM, Production Planning, Plant Maintenance, Quality Management, Materials Management and Manufacturing Management. (5+1)
- 3. Business Process Reengineering (BPR):** Introduction, need of BPR, Pros and Cons of BPR, reasons for failure and success of BPR, Reengineering phases, Role of IT in BPR, **Selection of ERP vendors:** Role of vendors, consultants and users, Vendor selection process, In-House Implementation - Pros and Cons. (5+1)
- 4. ERP Implementation Lifecycle:** Issues in Implementing ERP Packages; Pre-evaluation Screening; Package Evaluation; Project Planning Phase; Gap Analysis; Reengineering; Configuration; Implementation; Team Training; Testing; Going Live; End-User Training; Post Implementation (Maintenance Mode), Success and failure factors of ERP implementation. (5+1)
- 5. ERP Transition Strategies -** Big Bang Strategy, Phased Implementation, Parallel Implementation, Process Line Transition Strategy, Hybrid Transition Strategy, Strategy Choice; Success and failure factors of an ERP implementation; ERP implementation costs; Organization and working of ERP implementation team. (5+1)

Suggested Text Books:

1. Enterprise Resource Planning-Text and Cases, Rajesh Ray, Tata McGraw Hill
2. Enterprise Resource Planning, Alexis Leon, Tata McGraw Hill
3. Enterprise Resource Planning – A Managerial Perspective, Veena Bansal, Pearson
4. Vinod Kumar Garg, N. K. Venkitakrishnan, Enterprise Resource Planning: Concepts and Practice, PHI

Suggested Reference Books:

1. Enterprise Resource Planning, Mary Sumner, Pearson Education
2. Enterprise Resource Planning- A Managerial Perspective, D P Goyal, Tata McGraw Hill
3. Textbook of Enterprise Resource Planning, Mahadeo Jaiswal and Ganesh Vanapalli, Macmillan
4. Manufacturing Resource Planning (MRP II) with Introduction to ERP; SCM; an CRM by Khalid Sheikh, Publisher: McGraw-Hill
5. The Impact of Enterprise Systems on Corporate Performance: A study of ERP, SCM, and CRM System Implementations [An article from: Journal of Operations Management] by K.B. Hendricks; V.R. Singhal; and J.K. Stratman, Publisher: Elsevier
6. ERP and Supply Chain Management by Christian N. Madu, Publisher: CHI 4. Implementing SAP ERP Sales & Distribution by Glynn C. Williams, Publisher McGraw-Hill

Semester IV		410 OSCM- World Class Manufacturing
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO410OSCM.1	REMEMBERING	DEFINE the basic terms associated with Manufacturing Excellence and World Class Manufacturing
CO410OSCM.2	UNDERSTANDING	SUMMARIZE the features of various frameworks used for World Class Manufacturing
CO410OSCM.3	APPLYING	IDENTIFY the challenges to manufacturing industry in the information age
CO410OSCM.4	ANALYSING	ANALYZE the usage of Information management tools, Material processing and handling tools.
CO410OSCM.5	EVALUATING	EVALUATE the country's preparedness for World Class Manufacturing
CO410OSCM.6	CREATING	ESTIMATE the performance of manufacturing firms with the measurement system to determine the readiness for World Class Manufacturing

- World Class Manufacturing and the Information Age:** Information Age, Competing in the Information Age. Business challenges of the Information Age, Operating Environment of the Information Age. India's global Competitiveness and Manufacturing Excellence. World Class Manufacturing and the Information Age Competition, Manufacturing Challenges of the Information Age – Time based competition. Managing knowledge, Problems in the Manufacturing Industry – Coordination, Need for Control, Fragmented Information Infrastructure, Insufficient process ability of available information. (5+1)
- World Class Manufacturing and Competitive Advantage:** Manufacturing Excellence and Competitiveness. Concept of World Class Manufacturing. Hall's Framework of Value-added Engineering, Schonberger's framework of World Class Manufacturing, Gunn's model of World Class Manufacturing, Maskell's model of World Class Manufacturing. The Philosophy of World Class Manufacturing, The Evolution of World Class Manufacturing, The first principles of World Class Manufacturing, The Practices of World Class Manufacturing, Quality in World Class Manufacturing. (5+1)
- World Class Manufacturing - Systems and Tools:** The integration imperative, Overview of systems and tools, Making sense of the manufacturing alphabet soup, Information management tools, Material processing and handling tools. Information management tools – Product and Process Design Tools, Bar Code Systems, Kanban, SQC, Business Integration and Decision Support Tools. Material processing and handling tools – Flexible Manufacturing Systems, Rapid Prototyping, Lean production tools, Poka Yoke, SMED. An assessment of Manufacturing systems and tools. (5+1)
- World Class Manufacturing –Indian Scenario:** Competitiveness of Indian Manufacturing, Manufacturing Performance and planned strategies of Indian Manufacturing firms. Manufacturing readiness of Indian Firms, Manufacturing Objectives and strategy. Usage of management tools and technologies, Manufacturing Management Practices, The Manufacturing Strategic Intent Framework, Strategic use of IT in Indian Manufacturing, Classification by breadth of IT infrastructure and depth of manufacturing applications, Classification by breadth and integration of IT infrastructure, Manufacturing Strategy – World class Status and IT Use: Is India Ready for World Class Manufacturing? (5+1)
- Leading India towards World Class Manufacturing:** Business Strategy and Global Competitiveness. Generic Manufacturing Strategies for the Information Age. Developing strategic thinking in manufacturing, Issues in Strategic planning for World Class Manufacturing, Barriers to using IT strategically. Strategic Planning Methodology for World Class Manufacturing, Implementing the World Class Manufacturing Plan, Need for performance measurement –The PO-P System, The TOPP System, The AMBITE System, Quality Performance, Cycle Time, Delivery Performance and Customer Service, Financial Performance Measures, The Balanced Score Card, Human Resource Dimensions in World Class Manufacturing – Morale and Teamwork. (5+1)

Suggested Text Books:

- World Class Manufacturing – A Strategic Perspective by B S Sahay, K B C Saxena, Ashish Kumar, Macmillan Publishers India Ltd.
- World Class Manufacturing by K. Sridhara Bhat, Himalaya Publishing.

Suggested Reference Books:

1. Making Common Sense Common Practice – Models for Manufacturing Excellence by Ron Moore, Elsevier Pub., 3rd Ed.
2. Competitive Manufacturing Management by John Nicholas, TMGH.
3. The Japanese Manufacturing Techniques by Richard Schonberger, The Free Press
4. Just in Time Manufacturing by M. G. Korgaonker, Macmillan Publishers India Ltd.

Semester IV		411 OSCM- Supply Chain Strategy
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO411OSCM.1	REMEMBERING	DEFINE basic terms and concepts related to Strategy, Supply Chain
CO411OSCM.2	UNDERSTANDING	EXPLAIN the SC Components and Processes
CO411OSCM.3	APPLYING	ILLUSTRATE the importance of SC strategies on competitive advantage.
CO411OSCM.4	ANALYSING	OUTLINE a typical Supply Chain Model for a product / service and ILLUSTRATE the linkages of strategies with real time issues using Information Technology.
CO411OSCM.5	EVALUATING	EVALUATE and EXPLAIN impact of strategic decisions on SC
CO411 OSCM.6	CREATING	FORMULATE and DISCUSS a model for SCM strategies

1. **SC and Business Strategy:** Understanding Strategy and SC, Objectives of SC, decision phases, process strategies. Generic strategies in SC – Competitive & SC strategies, Strategies for SC--fit-demand based, commodity based, cost centric. Strategies to deal with uncertainty, Competitive advantage through SC Strategies. (5+1)
2. **Supply Chain Strategies -- Planning and scheduling:** Demand forecasting – Role of forecasting in SC, Components of forecasting, Forecasting models, Aggregate planning- Inventory, Transportation, Pricing, Information, Internal logistics, Transportation using LP (numerical). Sales and Operation planning – responsiveness of predictive variables, sales planning at real time. Scheduling in SC – impact, obstacles, tactics, importance. (5+1)
3. **SC Strategy and Distribution Network:** SC Strategy--Supplier Strategy, Operations Strategy, Logistics Strategy. Designing distribution networks – Factor affecting distribution, Framework, online sales, Omni-channel retailing, different network models for designing, identifying and allocating. Global SC networks – impact, importance, risk management in SC. (5+1)
4. **Performance measures in SC Strategy:** Financial measures - Cost of raw materials, Revenue from goods sold., Activity-based costs like the material handling, manufacturing, assembling rates etc. Inventory holding costs, Transportation costs, Cost of expired perishable goods, Penalties for incorrectly filled or late orders delivered to customers, Credits for incorrectly filled or late deliveries from suppliers, Cost of goods returned by customers, Credits for goods returned to suppliers. Non – Financial measures - Cycle Time, Customer Service Level, Inventory Levels. Resource Utilization. (5+1)
5. **SC Strategy and Information Technology:** SC Strategies and Information Technology, Role of IT in SC, Application of strategies in retail and healthcare, Building SC models using Excel, Agile vs Lean strategies, LeAgile supply chain management strategy, Green SCM, Future trends in SC. (5+1)

Suggested Text Books:

1. Supply Chain Management: Strategy Planning & Operations, Sunil Chopra, Peter Meindl, Pearson
2. Supply Chain & Logistics Management, Bowersox, Closs & Cooper, Tata McGraw Hill
3. Designing & Managing the SC – Concepts, Strategies & Case studies, Levi, Kaminsky et. al., Tata McGraw Hill

Suggested Reference Books:

1. Logistics Management & Strategy, Harrison and van Hoek, Prentice Hall
2. Total Supply Chain Management, Basu & Wright, Elsevier
3. Logistics Management: The Supply Chain Imperative, Vindo Sople, Pearson Education
4. Supply Chain Management, Mentzer, Response Books.

Semester IV		412 OSCM- Financial Perspectives in Operations Management
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO412OSCM.1	REMEMBERING	REMEMBER basic concepts used in cost management, Budgeting and activity-based costing
CO412OSCM.2	UNDERSTANDING	UNDERSTAND the importance of cost management as key to profitability.
CO412OSCM.3	APPLYING	CALCULATE NPV, PI, IRR, BCR, NBCR, Project cost overruns and cost control with Microsoft Excel.
CO412OSCM.4	ANALYSING	Outline capital budgeting techniques used in Operations.
CO412OSCM.5	EVALUATING	Explain the role of Financial Institutions in project financing
CO412OSCM.6	CREATING	Solve the real time issues involved in Operations and Project Management using appropriate method in order to reduce the costs.

- Cost Management:** Cost management tools-life cycle costing, target costing, kaizen costing, JIT & theory of constraints, BPR and bench marking. Working Capital Management –Concept, Components, Scope, Practical applicability. Make or buy, hire vs purchase (Numerical & Analysis) (5+1)
- Activity Based Costing:** Concept and basic knowledge, applicability, Limitations, Simple Numerical. Cost Concepts, behaviour, type, allocation, apportionment and absorption along with nature, applicability and limitations of Job & Process Costing. (5+1)
- Budgeting:** Budgeting – nature, administration and effectiveness; budgeting cycle; activity-based budgeting; kaizen approach; ZBB; performance budgeting; human aspects of budgeting. (5+1)
- Capital Budgeting:** The Capital Budgeting Concept & Process - An Overview, Generating Investment Project Proposals, Estimating Project, After Tax Incremental Operating Cash Flows, Capital Budgeting Techniques, Project Evaluation and Selection - Alternative Methods, Potential Difficulties , Project Monitoring – Progress Reviews and Post - Completion Audits, Problem of Project Risk, Total Project Risk, Capital Rationing , Decision Tree. (5+1)
- Project Cost Estimate and Risk Analysis:** Cost of project, Components of capital cost of a project, Project Risk Analysis, Project Organization. Project Evaluation and Audit: Sources of financing, Role of Financial Institutions in project financing, Data required for calculation of NPV, PI, IRR, BCR, NBCR, Project cost overruns and cost control, Phases of post audit, Type of post audit, Project closure (Use of Microsoft Excel/MS Project is Recommended.) (5+1)

Suggested Text Books:

- Financial Management by I.M. Pandey, Vikas Publications
- Financial Management by M.Y.Khan & P.K.Jain, TMGH
- Project Management by K. Nagarajan, New Age Publications

Suggested Reference Books:

- Financial Management by Rajiv Shrivastava & Anil Mishra, Oxford Publication
- Corporate Financial Management by Arnold Glen, Pearson Publication

Semester IV		413 OSCM- Facilities Planning
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO413OSCM.1	REMEMBERING	DESCRIBE the concepts and principles of Facilities Planning.
CO413OSCM.2	UNDERSTANDING	EXPLAIN the key considerations in Facilities Planning.
CO413OSCM.3	APPLYING	ILLUSTRATE the use of the concepts and principles of Facilities Planning.
CO413OSCM.4	ANALYSING	EXAMINE the practical layouts in real world in light of the theoretical concepts and principles of Facilities Planning.
CO413OSCM.5	EVALUATING	EVALUATE various approaches to Facilities Planning.
CO413 OSCM.6	CREATING	REARRANGE existing layouts for enhanced outcomes.

- 1. Introduction to Facilities Planning:** Facilities planning defined, Significance of Facilities Planning, Objectives of Facilities Planning, Long Range Capacity Planning, Facilities Planning process, Strategic Facilities Planning, Developing Facilities Planning Strategies, Examples of Inadequate Planning. Impact of Environmental Issues on Facilities Planning Product, Process and Schedule Design: Introduction, Product Design, Process Design, Schedule Design, Facilities Design. (5+1)
- 2. Logistics and Facilities Location:** Logistics, Decisions related to Logistics, Issues in Facilities location – Market related factors, Cost-related factors, Regulatory and Policy Issues, Location Planning Methods – Location Factor rating, Centre-of-gravity method, Load-distance method, Transportation Model. Locating Service Facilities, Relocation aspects,
- 3. Layout Planning:** Concept of Layout, Basic Layout Types, Layout Procedures, Algorithmic approach, Department Shapes and Aisles, Multi-floor facility layout, Commercial Facility Layout, Impact of change, Developing alternative layouts. Introduction to ALDEP and CORELAP. Facilities design for various Facilities Functions: Warehouse operations – Functions of Warehouse, Receiving and Shipping Operations, Dock Locations, Storage Operations, Order Picking Operations.
- 4. Service Facilities Layout:** Nature of Services, Operational Classification of services, Structuring the service encounter, Service blueprinting and fail-safing, Role of floor manager in service sectors such as – Hospital, Hotel, Airlines and airports.
- 5. Flow Space and Activity Relationships:** Departmental Planning, Activity Relationships, Flow Patterns, Flow Planning, Measuring Flow, Space Requirements. Personnel Requirements: Employee-Facility Interface, Restrooms, Food Services, Health Services, Barrier-Free Compliance, Office Facility Planning. Material Handling: Scope and Definition of Material Handling, Material Handling Principles, Designing Material Handling Systems, Unit Load design, Material Handling Equipment, Estimating Material Handling costs, Safety Considerations.

Suggested Text Books:

1. Facilities Planning by Tompkins, White, Bozer and Tanchoco, Wiley India
2. Operations Management – Theory and Practice by B Mahadevan, Pearson
3. The Goal by E M Goldratt and Cox J, Great Barrington, North River

Suggested Reference Books:

1. Operations and Supply Management by Chase, Shankar, Jacobs and Aquilano
2. Operations Management by Terry Hill, Palgrave.
3. Operations Management – Quality and Competitiveness in a Global Environment by Russell and Taylor, Wiley India

Semester IV		414 OSCM- Purchasing and Supplier Relationship Management
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO414OSCM.1	REMEMBERING	DESCRIBE the Purchasing Process and its importance in organizations.
CO414OSCM.2	UNDERSTANDING	Students will understand the impact of purchasing on competitive success and profitability of modern-day organizations.
CO414OSCM.3	APPLYING	MAKE USE OF the various Negotiation technique in the context of Purchasing process.
CO414OSCM.4	ANALYSING	ILLUSTRATE how Supplier evaluation and selection is done in organizations and its relationship with corporate Strategy.
CO414OSCM.5	EVALUATING	EXPLAIN the importance of Performance Measurement & Evaluation in operations management.
CO414 OSCM.6	CREATING	BUILD A purchasing strategy for a real world situation.

- 1. Purchasing Process, Policy & Procedures:** Overview of Purchasing & Supply Chain Management, Purchasing Objectives, Responsibilities of Purchasing, Types of Purchases, Improving Purchase Process, Purchasing Procedures, Policy Overview – What makes an effective Policy, Advantages & Disadvantages of Policies, Policies defining - Role & conduct of Purchasing, Buyer-Supplier Relationship, Operational Issues, Ethical considerations in Purchasing. (5+1)
- 2. Purchasing of Services:** Hidden Opportunities, Planning the statement of work, Writing the statement of work, selecting service contractors, Compensating Service suppliers, Professional services, Technical services, Operating services, Contract administration, Develop a sound Procedure for Evaluation. (5+1)
- 3. Strategic Sourcing – Supplier Evaluation & Selection:** Linking Purchasing and Corporate Strategy. Translating Corporate Objectives into Purchasing Goals, Translating Purchasing Objectives into Purchasing Goals, Purchasing Strategy Development Process, Types of Purchasing Strategies, Supply Base Optimization, Critical Role of In-sourcing / Outsourcing, The In-sourcing / Outsourcing Decision Process, Make or Buy, Supplier Evaluation and Selection Process, Need for Supplier Selection, Identifying key sourcing requirements, Evaluation and Selection, Key Supplier Evaluation Criteria. (5+1)
- 4. Negotiation & Contracts Management:** Objectives of negotiation, when to negotiate, The negotiation Process, Preparation, Establishing the Objectives, Dynamics of Negotiation, Phases in face-to-face negotiation, Negotiation Techniques – traditional, collaborative, price analysis, cost analysis. Types of Contracts – Fixed Price, Cost based / Indexation, Long term, Short term. Consideration when selecting contract types, How to write a Contract. Essential elements of Contract, Purchase Order (P.O), Difference between P.O & Contract. (5+1)
- 5. Performance Measurement & Evaluation:** Why Measure Performance, Problems with Purchasing Measurement and Evaluation. Purchasing Measurement Categories – Price Performance Measures, Cost-Effectiveness Measures, Quality, Time related Measures, Technology Innovation Measures, Physical Environment and Safety, Asset Management and Integrated SC Measures. Administration and Efficiency Measures, Developing a Performance Measurement and Evaluation System - Determining which Performance Categories to Measure, Developing Specific Performance Measures, Establish Performance Objectives for each Measure, Finalize system Details, Implement and Review. (5+1)

Suggested Text Books:

1. Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Cengage South Western.
2. Purchasing & Supply Chain Management by Lysons and Farrington, Pearson Education.

Suggested Reference Books:

1. Purchasing & Supply Chain Management by Dobler, Burt, TMGH
2. New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing.
3. Extending the Supply Chain by Boyer, Forhlich and Hult, PHI.

Semester IV		415 OSCM- Strategic Supply Chain Management
2 Credits	LTP: 2.0.0	Subject Elective (SE) Course – Operations & Supply Chain Management

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO415OSCM.1	REMEMBERING	DEFINE Key configuration components of Strategic Supply Chain Management.
CO415OSCM.2	UNDERSTANDING	EXPLORE Process Architecture and Toolkits of in Strategic Supply Chain Management
CO415OSCM.3	APPLYING	ILLUSTRATE the Design Organization for Performance and Organizational Change
CO415OSCM.4	ANALYSING	EXAMINE the Right Collaborative Model and Drivers of collaboration of Strategic Supply Chain Management
CO415OSCM.5	EVALUATING	ILLUSTRATE Use of Metrics to Drive Business Success and Roadmap to change
CO415 OSCM.6	CREATING	DEVELOP the architecture of a supply chain.

- Supply chain as Strategic Asset** - Key configuration components - Operations strategy, Outsourcing strategy, Channel strategy, Customer service strategy, Asset network, Criteria of robust SC strategy - Aligned with business strategy, Aligned with customers' needs, Aligned with power position, Adaptive, Next Generation Strategy - support continuing improvements in productivity and drive the achievement of business-level outcomes. (5+1)
- Process Architecture** – SC architecture details the process, applications, and information to improve and evolve, Components of SC architecture, Tests of Supply Chain Architecture – Strategic fit, End-to-end focus, Simplicity and Integrity, Architectural Toolkits , Levels of the Supply-Chain Operations Reference-model (SCOR) Model - processes, subprocesses, and activities, Processes for End-to-End Supply Chain Management – Plan, Source, Make, Deliver and Return, Next-Generation Processes. (5+1)
- Design Organization for Performance** – Primary challenges - structure of SC organization, roles and responsibilities, right people with the right skills. Organisational Change Is an Ongoing Process – modify & redefine, Evolution of the SC Organisation, Guiding Principles for Organizational Design - organization should mirror process, every process has an accountable function or individual, Know, grow, and keep your core capabilities, Organize around the skills you need, Gaining Respect for the Supply Chain Discipline, Next-Generation Organizational Design – new roles and new skills. (5+1)
- Build the Right Collaborative Model** - Drivers of collaboration, desire to access - technology, capital-intensive technology, cost of competency to acquire, develop, or maintain, and new market effectively closed off by high entry costs or preconditions. Collaboration Spectrum model, transactional, cooperative, coordinated, and synchronized, Finding the right place on the Spectrum, The Path to Successful Collaboration - Master internal collaboration first, Define the degree of collaboration for each partner segment, Next-Generation Collaboration. (5+1)
- Use Metrics to Drive Business Success** - Why Measure, Managing Performance with Metrics, Which Metrics, Next-Generation Performance Management, Roadmap to change - advanced systems Aren't Enough, Stages of supply chain process maturity model, Characteristics of the Next Generation - transparency, flexibility, and simultaneity, Developing a Roadmap – creating the roadmap to change. (5+1)

Suggested Text Books:

- Strategic SCM – The Five discipline for top performers - Shoshanah Cohen, Joseph Roussel
- Strategic Supply Chain Management: Creating Competitive Advantage and Value Through Effective Leadership, by Samir Dani
- Supply Chain Strategies – Customer Driven & Customer Focused by Tony Hines, Elsevier
- Supply chain management – strategy, planning & operation –Sunil Chopra , Peter Meindl.

Suggested Reference Books:

- Managing the SC- A Strategic Perspective by Gattorna Walters, Palgrave Macmillan
- Extending the Supply Chain by Boyer, Forhlich and Hult, PHI, 3rd Indian Reprint
- Strategic Supply Chain Management by S. Kale, Everest Publication

4. New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing
5. Designing & Managing the SC – Concepts, Strategies & Case studies – by Levi, Kaminskyet. al., TMGH.

Subject Core (SC) Courses - Semester III
Specialization: Business Analytics

Semester III		304 BA- Advanced Statistical Methods using R
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO304BA .1	REMEMBERING	RECALL all basic statistical concepts and associated values, formulae.
CO304BA .2	UNDERSTANDING	EXPLAIN the statistical tools and DESCRIBE their applications in multiple business domains and scenarios
CO304BA .3	APPLYING	APPLY time series analysis in prediction of various trends.
CO304BA .4	ANALYSING	DISCRIMINATE between various types of probability and probability distributions.
CO304BA .5	EVALUATING	FORMULATE and TEST hypothesis using tools of R.
CO304BA .6	CREATING	COMPILE various tools and functions of R programming language and use them in live analytical projects in multiple business domains and scenarios.

- 1. Statistics with R:** Computing basic statistics, Business Hypothesis Testing concepts, Basics of statistical modeling, Logistic Regression, Comparing means of two samples, Testing a correlation for significance, Testing a proportion, t test, z Test, F test, Basics of Analysis of variance (ANOVA), One way ANOVA, ANOVA with interaction effects, Two way ANOVA, Summarizing Data, Data Mining Basics, Cross tabulation. Case studies in different domains- using R. **(7+2)**
- 2. Linear Regression:** Concept of Linear regression, Dependency of variables, Ordinary Least Sum of Squares Model, Multiple Linear Regression, Obtaining the Best fit line, Assumptions and Evaluation, Outliers and Influential Observations, Multi-collinearity, Case studies in different domains- using R. Dimension Reduction Techniques – Concept of latent dimensions, need for dimension reduction, Principal Components Analysis, Factor Analysis. Case studies in different domains- using R. **(7+2)**
- 3. Probability:** Definition, Types of Probability, Mutually Exclusive events, Independent Events, Marginal Probability, Conditional Probability, Bayes Theorem. Probability Distributions – Continuous, Normal, Central Limit theorem, Discrete distribution, Poisson distribution, Binomial distribution. **(7+2)**
- 4. Predictive Modeling:**
 - (a) Multiple Linear Regression:** Concept of Multiple Linear regression, Step wise Regression, Dummy Regression, Case studies in different domains- using R
 - (b) Logistic regression:** Concept of Logistic Regression, odds and probabilities, Log likelihood ratio test, Pseudo R square, ROC plot, Classification table, Logistic regression & classification problems, Case studies in different domains- using R
 - (c) Linear Discriminant Analysis:** Discriminant Function, Linear Discriminant Analysis, Case studies in different domains- using R **(7+2)**
- 5. Time Series:** Time Series objects in R, Trends and Seasonality Variation, Decomposition of Time Series, autocorrelation function (ACF) and partial autocorrelation (PACF) plots, Exponential Smoothing, Holt's Winter Method, Autoregressive Moving Average Models (ARMA), Autoregressive Integrated Moving Average Models (ARIMA), Case studies in different domains- using R. **(7+2)**

Suggested Self Learning Courses : Basic and advanced Business Analytics, data mining and python courses on swayam platform - <https://swayam.gov.in/>.

Suggested Text Books:

1. R for Business Analytics, A Ohri
2. Data Analytics using R, Seema Acharya, TMGH

3. Data mining and business analytics with R, Johannes Ledolter. New Jersey: John Wiley & Sons.
4. Business Analytics Using R - A Practical Approach, Dr. Umesh R. Hodeghatta, Umesha Nayak
5. Statistical Methods, S.P.Gupta
6. Quantitative Techniques, L.C.Jhamb
7. Quantitative Techniques, N.D.Vohra

Suggested Reference Books:

1. Statistics for Management, Levin and Rubin
2. Statistical data analysis explained: applied environmental statistics with R, Clemens Reimann. Chichester: John Wiley and Sons
3. Data science in R: a case studies approach to computational reasoning and problem solving, Deborah Nolan. Boca Raton: CRC Press

Semester III		305 BA - Machine Learning & Cognitive intelligence using Python
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO305BA.1	REMEMBERING	DEFINE the key terms in Python, Machine Learning and Cognitive Intelligence
CO305BA.2	UNDERSTANDING	EXPLAIN the applications of Machine Learning in multiple business domains and scenarios
CO305BA.3	APPLYING	DEVELOP a thought process to think like data scientist/business Analyst
CO305BA.4	ANALYSING	ANALYSE data using supervised and unsupervised Learning Techniques
CO305BA.5	EVALUATING	SELECT the right functions, arrays of Python for Machine Learning algorithms.
CO305BA.6	CREATING	COMBINE various tools and functions of Python language in developing Machine Learning algorithms and use them in live analytical projects in multiple business domain and scenarios.

1. **Python Basics:** Overview, Python Features, Basic Syntax, Variable Types, Basic Operators, decision making, Loops, Python Data Structures - Lists and Tuples, Sets, Dictionaries, Date & time, Functions, Scope of Variables, Function overloading, Operator overloading, Objects and Classes. (9+1)
2. **Working with Data in Python:** Reading files with Open, writing files with Open, loading data with Pandas, working with and saving with Pandas, Array oriented Programming with Numpy, Data cleaning and preparation, Plotting and Visualization, data Aggregation and Group Operations.(9+1)
3. **Machine Learning and Cognitive Intelligence:** Introduction to Machine Learning- History and Evolution, Machine Learning categories: Supervised, Unsupervised and Reinforcement learning. Framework for building ML Systems-KDD process model, CRISP-DM & SEMMA, Machine learning Python packages, Machine Learning Core Libraries. Introduction to Cognitive Intelligence, Features of Cognitive Intelligence. (8+2)
4. **Supervised Learning:** Introduction to classification, Linear Regression, Metrics for evaluating linear model, Multivariate regression, Non-Linear Regression, K-Nearest Neighbour, Decision Trees, Logistic Regression, Support Vector Machines, Model Evaluation, Applications of supervised learning in multiple domains. (9+1)
5. **Unsupervised Learning:** Clustering, Hierarchical clustering, Partitioning Clustering- K-mean clustering, Applications of unsupervised learning in multiple domains. (4+1)

Suggested Self Learning Courses : Basic and advanced Business Analytics, data mining and python courses on swayam platform - <https://swayam.gov.in/>,

Suggested Text Books:

1. Machine Learning using Python - Manaranjan Pradhan, U Dinesh Kumar
2. Ultimate Step by Step Guide to Machine Language using Python: Predictive modeling concepts explained in simple terms for beginners by Daneyal Anis
3. Machine Learning by Anuradha Srinivasaraghavan and Vincy Joseph

4. Machine Learning in Python – Michael Bowles
5. Machine Learning for Absolute Beginners: A Plain English Introduction (First Edition by Oliver Theobald)

Suggested Reference Books:

1. Mastering Machine Learning with Python in Six Steps: A Practical Implementation Guide to Predictive Data Analytics Using Python by Manohar Swamynathan
2. Machine Learning by Tom Mitchell
3. Python for Data Analysis by Wes McKinney
4. Machine Learning by Rajiv Chopra
5. Machine Learning by Peter Flach
6. Introduction to Machine Learning by Alpaydin Ethem
7. Machine Learning: A step by Step Guide to Learning and Understanding from Beginner to Expert (Beginner, Intermediate and Advanced) – Ronald Anthony

Subject Elective (SE) Courses - Semester III
Specialization: Business Analytics

Semester III		312 BA- Social Media, Web & Text Analytics
2 Credits	LTP: 1:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO312BA.1	REMEMBERING	DEFINE the key terms in Social Media Analytics, Web Analytics and Text Analytics
CO312BA.2	UNDERSTANDING	EXPLAIN the applications of Social Media Analytics, Web Analytics and Text Analytics in multiple business domains and scenarios
CO312BA.3	APPLYING	DEVELOP a thought process to harness the power of social media analytics to improve website or business
CO312BA.4	ANALYSING	ANALYSE Social Media Analytics and Web Analytics Tools
CO312BA.5	EVALUATING	SELECT the right metrics for Social Media Analytics and Web Analytics
CO312BA.6	CREATING	COMBINE various tools and metrics in building high impact dashboard in multiple business domains and scenarios

1. **Social Media Overview:** Social Media Introduction, definition, evolution, need of social media, Importance of Social Media, Social Media Data Sources, Use of Social Media in Business, Objective and KPIs, Measure, Content flow on Social Network, Challenges, Tools to analyse and measure social data (Facebook, Twitter, Instagram, LinkedIn, YouTube), Social Analytics and competitors, Strategy planning in Social Media Analytics. (5+1)
2. **Social Analytics - Measuring Success:** Metric categories: Divide and Conquer, Selecting the best metrics for the job, Default and Custom Metrics, Elements of effective metrics, Metrics and Strategy. Estimated Metrics: Use and Common applications, Dashboards : Definition, Purpose, Objectives, default and custom dashboards, Reports: elements of reporting, good quality of reporting, 360 overview report, Data gathering in social Media Analytics, Types of Analytics in Social Media, Charts, Machine learning in Social Media. (6+1)
3. **Web Analytics Overview:** Introduction to Web Analytics, Web Analytics 2.0, Elements of Web Analytics 2.0: Clickstream, Multiple Outcomes, Experimentation and Testing, Voice of Customer, Competitive Intelligence, Choosing the right web analytic tool, Critical Web Metrics-Visits and Visitors, Time on Page and Time on Site, Bounce Rates, Exit Rates, Conversion Rates, and Engagement, Attributes of Great Metrics, Web Metrics Lifecycle Process. (5+1)
4. **Web Analytics - Measuring Success:** Actionable Outcome KPIs-Task completion Rate, Share of Search, Visitor Loyalty and Recency, RSS/Feed Subscribers, % of Valuable Exits, Cart and Checkout Abandonment ,Days and Visits to Purchase, Average Order Value, Identify the Convertible, Measuring Macro and Micro Conversions, Building the action Dashboard, Consolidated Dashboard, Rules for High-Impact Dashboards. (6+1)
5. **Text Analytics:** Introduction to text Analytics, Processing and Understanding Text -Tokenization, Tagging Chunking, Stemming, Lemmatization, Applications of Text Analytics. (4)

Suggested Text Books:

1. Web Analytics 2.0: The Art of Online Accountability and Science of Customer Centricity by Avinash Kuashik
2. Web Analytics: An Hour a Day by Avinash Kuashik
3. Web Analytics Action Hero: Using Analysis to Gain Insight and Optimize Your Business by Brent Dykes
4. Practical Web Analytics for User Experience by Michael Beasley
5. Text Analytics with Python: A Practical Real-World Approach to Gaining Actionable Insights from your Data by Dipanjan Sarkar

Suggested Reference Books:

1. Social Media Marketing Step by Step: The Guides to Instagram and Facebook Marketing- Bryan Bren
2. Social Media Analytics Strategy: Using data to optimize Business Performance – Alex Goncalves
3. Effective Advertising and Social Media: Strategy and Analytics – Gerard Tellis
4. Measuring the User Experience: Collecting, Analyzing, and Presenting Usability Metrics by Tom Tullis, Bill Albert, Morgan Kaufmann
5. Social Media Metrics: How to Measure and Optimize Your Marketing Investment by Jim Sterne, John Wiley & Sons
6. Advanced Web Metrics with Google Analytics by Brian Clifton, John Wiley & Sons

Semester III		313 BA- Industrial Internet of Things
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO313BA.1	REMEMBERING	ENUMERATE the key concepts of industry 4.0, data science in manufacturing, operations analytics and IIOT
CO313BA.2	UNDERSTANDING	DISCUSS the value added by analytics in the operations function.
CO313BA.3	APPLYING	DEMONSTRATE the practical applications of data analytics and data science in manufacturing operations.
CO313BA.4	ANALYSING	EXAMINE the Industrial Internet of Things (IIoT) and the role of Big Data Analytics.
CO313BA.5	EVALUATING	EXPLAIN the applications of analytics in operations.
CO313BA.6	CREATING	COMPILE the issues pertaining to the adoption of technologies that will shape industry

1. **Data Science for Modern Manufacturing:** Business Analytics and Big Data Driving Organizational Change, Industry 4.0, Industrial Internet, (Industrial) Internet of Things - A Platform Built for Manufacturing, Big Data and Analytics – Hardware, Platforms. Technology & Global Trends, The data-driven manufacturer, Issues and Challenges Data Science for Modern Manufacturing – Blending analytic skills and domain expertise, Rethinking business processes, Factoring in change management, Security, Data Integration. (5+1)
2. **Machine Learning:** Basics of Machine Learning, Natural-Language Processing, Autonomous Robots, Augmented Reality, and More: Simulation, Additive Manufacturing. (5+1)
3. **Industry 4.0:** LEAN Production Systems, The Fourth Revolution, Industry 4.0: Cyber Physical Systems, Industrial Processes - Sensing & Actuation, Processing, Communication. Next Generation Sensors, Collaborative Platform and Product Lifecycle Management. (5+1)
4. **Industrial IoT- Application Domains:** Healthcare, Power Plants, Inventory Management & Quality Control, Plant Safety and Security (Including AR and VR safety applications), Facility Management.
5. **Industrial IoT- Application Domains:** Oil, chemical and pharmaceutical industry, Applications of UAVs in Industries, Real case studies : Case study - I : Milk Processing and Packaging Industries, Case study - II: Manufacturing Industries - Part I, Case study - III : Manufacturing Industries - Part II, Case study – IV, Virtual Reality Lab, Case study - V : Steel Technology Lab

Suggested Textbooks:

1. Data Science for Modern Manufacturing by Li Ping Chu, O'Reilly Media
2. Industry 4.0 Data Analytics Paperback by Rajesh Agnihotri, Samuel New
3. Industry 4.0: The Industrial Internet of Things by Alasdair Gilchrist

4. Industrial Internet of Things: Cyber manufacturing Systems by Sabina Jeschke, Christian Brecher, Houbing Song, Danda B. Rawat

Suggested Reference Books:

1. Advances in Business, Operations, and Product Analytics: Cutting Edge Cases from Finance to Manufacturing to Healthcare (FT Press Analytics) by Matthew J. Drake

Semester III		314BA: Supply Chain Analytics
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO314BA.1	REMEMBERING	DESCRIBE the importance of the basics of Supply Chain Analytics and Optimization
CO314BA.2	UNDERSTANDING	EXPLAIN the role and applications of Descriptive, Predictive & Prescriptive Analytics in a Supply Chain
CO314BA.3	APPLYING	ILLUSTRATE the basics of Modeling through R Language.
CO314BA.4	ANALYSING	EXAMINE the level of uncertainty associated with the supply of products and services to targeted customer segments and justify the choice of a supply chain strategy and its fit with competitive strategy.
CO314BA.5	EVALUATING	DETERMINE the right tools for addressing various issues in Supply Chain Analytics.
CO314BA.6	CREATING	COMBINE the various approaches to Supply Chain Analytics for improvements in the supply chain system

1. **Context of Supply Chain Analytics:** Context of today's supply chains (SC) analytics. Understanding and defining supply chain analytics (SCA). Review of Basics of Supply Chain Management, Significance of Analytics in a supply chain, Relating Operations Management with Supply Chain concepts and SC Analytics. The importance of supply chain analytics in the flows involving material, money, information and ownership. Key issues in Supply chain analytics, Case studies of Supply Chains Analytics in India.
2. **Supplier Selection Analytics:** Linear Programming, Rating method, Ranking method, Borda Count, Clustering, Goal Programming and related multi-criterion decision making (MCDM) techniques
3. **Transportation Modeling and Analytics:** Transportation models, Route planning, Transshipment, Shipment schedule, Flow path optimization.
4. **Warehousing Modeling and Analytics:** Warehouse location problem, MILP formulation, Location with foreign exchange risks, space calculation for warehouse, Non-linear optimization for warehouse space allocation.
5. **Strategic Performance Improvement:** Data Envelopment Analysis for competitive comparisons among multiple warehouses and service units and formulation of strategic action plans for improving the efficiencies of non-performing DMUs, Stochastic Frontier Analysis.

Suggested Textbooks:

1. Unleashing the Potential of Supply Chain Analytics by Melissa R. Bowers, Adam Petrie and Mary C. Holcomb, Oreilly
2. Modeling the Supply Chain, Jeremy F. Shapiro, Duxbury Thomson Learning
3. Supply Chain Management, Sunil Chopra, and Peter Meindl, Pearson
4. Business Analytics, Rahul Saxena and Anand Srinivasan

Suggested Reference Books:

1. Designing and Managing the Supply Chain concepts, Strategies and Case studies, D. Simchi-Levi, P. Kaminsky, E. Simchi-Levi, and Ravi Shankar, Tata McGraw Hill, New
2. Global Business Analytics Models: Concepts and Applications in Predictive, Healthcare, Supply Chain, and Finance Analytics by Hokey Min
3. Supply Chain Planning and Analytics by Gerald Feigin

Semester III		315 BA- Cognos
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO315BA.1	REMEMBERING	TELL how and when to use visualization
CO315BA.2	UNDERSTANDING	ILLUSTRATE uses of crosstabs and SQL queries
CO315BA.3	APPLYING	BUILD stunning Dashboards with Cognos Analytics
CO315BA.4	ANALYSING	ILLUSTRATE the full-fledged Report Authoring tool
CO315BA.5	EVALUATING	EXPLAIN how a dashboard is different from a report, and when to use both
CO315BA.6	CREATING	DEVELOP the advanced reporting solutions which allow users to perform complex analysis tasks and interact with information

- Getting started with IBM Cognos Analytics:** The user interface, Work in design, structure, or preview vie, Report layout and queries, Layout, Queries Report, objects, Find objects in a report, Relational and dimensional reporting styles, Options, Web browser settings. (5+1)
- Dashboards:** Designing for mobile use, create simple Dashboards, create complex interactive Dashboards, modify Dashboards, control Dashboard data. (5+1)
- Reports:** Create list reports, apply filters, use prompts, conditional formatting, calculations and macros, markers, presenting data graphically, using HTML and XML, using Crosstabs, using reusable objects, using layout control, combining multiple related objects, using interactivity. (5+1)
- Active Reports:** Create report connections, using Charts, Visualizations and Decks, managing controls and variables. (5+1)
- Data:** Connecting to the Data source, using Data sources, differences between using Data modules and Framework Manager packages on a report, using data shaping, creating reports using an SQL statement, using bursting. (5+1)

Suggested Text Books:

- IBM Cognos User Guide – IBM
- First Guide to Dashboards using IBM Cognos Analytics by Abhishek Sanghani

Suggested Reference Books:

- Going beyond Dashboards with IBM Cognos Analytics by Abhishek Sanghani
- IBM Cognos Business Intelligence by Dustin Adkison
- IBM Cognos 10 Report Studio Cookbook , by Ahmed Lashin , Abhishek Sanghani (Author)
- Cognos 8 BI for Consumers: A Step-by-step Introductory Guide to Cognos By Juan A. Padilla

Semester III		316BA- Predictive Modelling using SPSS Modeler
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO316BA.1	REMEMBERING	DESCRIBE what Predictive Modeling is all about and know why you would want to use it
CO316BA.2	UNDERSTANDING	EXPLAIN the CRISP-DM methodology and the IBM SPSS Modeler Workbench
CO316BA.3	APPLYING	Explore, Prepare, Model and Evaluate your data using IBM SPSS Modeler
CO316BA.4	ANALYSING	ILLUSTRATE how to use modeling skills to make decisions.
CO316BA.5	EVALUATING	FORMULATE models based on trained data, test the model with historical data, and use qualifying models on live data or other historical untested data.
CO316BA.6	CREATING	SOLVE real world problems using predictive modeling techniques on a real-world data set

1. **SPSS Modeler Professional Functionality:** SPSS Overview, SPSS Modeler Overview, Palette, purpose and use, use of SuperNodes, advantages of SPSS Modeler scripting, Business Understanding and Planning, CRISP-DM process, mapping business objectives to data mining goals. (4+1)
2. **Data Understanding:** Appropriate nodes for summary statistics, distributions, and visualizations, graph nodes, output nodes, data quality issues, outliers and missing data. (3+1)
3. **Data Preparation:** Methods for data transformation, Derive node, Auto Data Prep node, Data Audit node and Filler node, how to integrate data - Merge node and Append node, sampling, partitioning, and balancing data - Sample node, Balance node and Partition node, methods for refining data - Select node, Filter node and Aggregate node. (6+1)
4. **Modeling:** Classification models - GLM and regression, segmentation models, association models, auto modeling nodes, how to combine models using the Ensemble node. (8+1)
5. **Evaluation and Analysis:** How to interpret SPSS Modeler results - using Evaluation node, Analysis node, and data visualizations, how to use model nugget interfaces, Deployment- how to use Export nodes - tools for exporting data, how to score new data using models, SPSS Modeler reporting methods. (4+1)

Suggested Text Books:

1. IBM SPSS Modeler Essentials: Effective techniques for building powerful data mining and predictive analytics solutions by. Jesus Salcedo,. Keith McCormick

Semester III		317 BA- E Commerce Analytics - I
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO317BA.1	REMEMBERING	DESCRIBE the key concepts in e-commerce analytics.
CO317BA.2	UNDERSTANDING	DEMONSTRATE the use of analytics to drive profitability throughout the organization, and across the entire customer experience and lifecycle.
CO317BA.3	APPLYING	SOLVE the unique problems in e-commerce, and transform data into better decisions and customer experiences.
CO317BA.4	ANALYSING	DISCOVER high-value insights via dashboards and visualization.
CO317BA.5	EVALUATING	DEVELOP analytical approaches to improve ecommerce marketing and advertising, understand customer behavior, increase conversion rates, strengthen loyalty, optimize merchandising and product mix, streamline transactions, optimize product mix, and accurately attribute sales.
CO317BA.6	CREATING	FORMULATE the right analytics driven strategy for ecommerce businesses.

1. **Ecommerce Analytics:** Role of Ecommerce Analytics in Creating Business Value and Driving Business Growth, The Ecommerce Analytics Value Chain, Identifying and Prioritizing Demand, Developing an Analytical Plan. Activating the Ecommerce Analytics Environment, Elements of an Ecommerce Analytics Environment, Collecting and Governing Data and Metadata. Preparing and Wrangling Data, Analyzing, Predicting, Optimizing, and Automating with Data, Socializing Analytics, Communicating the Economic Impact of Analytics. (5+1)
2. **Methods and Techniques for Ecommerce Analysis:** Understanding the Calendar for Ecommerce Analysis, Storytelling, Tukey's Exploratory Data Analysis. Analyzing Ecommerce Data Using Statistics and Machine Learning. Key Performance Indicators for Ecommerce: KPI Metrics - Page or Screen Views, Visits or Sessions, Returns, Total Revenue and Revenue by N, Gross Margin, Lifetime Value, Repeat Visitors / Users / Customers. KPI Rate Metrics - Conversion Rate, Step Completion Rate, Abandoned Cart Rate; KPI Average Metrics - Average Order Value. KPI Derivative Metrics - Bounce Rate, Percentage of Orders with Promotions or Discounts, Inventory Turnover, Return on Investment, Loyalty—Time Since Last Visit (Recency), Retention—Time between Visits (Frequency). KPI Percentage Metrics - Percentage of X from Source N, Percentage of New Customers (or N Metric), KPI "Per" Metrics - Cost and/or Revenue per Visitor, Revenue per Customer, Cost per Customer Acquisition. (5+1)
3. **Visualizing, Dashboarding, and Reporting Ecommerce Data and Analysis:** Understanding Reporting, Explaining the RASTA Approach to Reporting, Understanding Dashboarding, Explaining the LIVEN Approach to Dashboarding, What Data Should I Start With in an Ecommerce Dashboard?, Understanding Data Visualization, The Process for Data

Visualization, Maximizing Impact with Data Visualization: The SCREEN Approach and More, Why Use Data Visualizations?, Types of Data Visualization. (5+1)

4. Ecommerce Analytics Data Model and Technology: Understanding the Ecommerce Analytics Data Model- Facts and Dimensions, Sample Ecommerce Data Model, Understanding the Inventory Fact, Understanding the Product Fact, Understanding the Order Fact, Understanding the Order Item Fact, Understanding the Customers Fact, Understanding the Customer Order Fact, Reviewing Common Dimensions and Measures in Ecommerce. (5+1)

5. Marketing and Advertising Analytics in Ecommerce: Understanding the Shared Goals of Marketing and Advertising Analysis, Reviewing the Marketing Lifecycle, Understanding Types of Ecommerce Marketing, Analyzing Marketing and Advertising for Ecommerce, What Marketing Data Could You Begin to Analyze? **Analyzing Behavioral Data:** Answering Business Questions with Behavioral Analytics, Understanding Metrics and Key Performance Indicators for Behavioral Analysis, Reviewing Types of Ecommerce Behavioral Analysis, Behavioral Flow Analysis, Shopping Behavior Analysis, Content Analysis, In-Page or On-Screen Behavior Analysis. (5+1)

Suggested Text Books:

1. Ecommerce Analytics: Analyze and Improve the Impact of Your Digital Strategy by Judah Phillips
2. Building a Digital Analytics Organization: Create Value by Integrating Analytical Processes, Technology, and People into Business Operations by Judah Phillips

Subject Core (SC) Courses - Semester IV
Specialization: Business Analytics

Semester IV		403 BA- Economics of Network Industries
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO403BA .1	REMEMBERING	APPRECIATE the differences in the nature of information goods as opposed to traditional goods and services.
CO403BA .2	UNDERSTANDING	DESCRIBE the characteristics of the markets for network products.
CO403BA .3	APPLYING	ILLUSTRATE the characteristics of the cost structure of information goods and its implications for pricing of information goods w.r.t. price discrimination, versioning of information goods, and bundling
CO403BA .4	ANALYSING	COMPARE and CONTRAST the pros and cons of keeping products compatible, and strategic aspects of the decision regarding compatibility.
CO403BA .5	EVALUATING	EVALUATE the role of complementary products, compatibility and standards, switching costs and lock-in in network industries.
CO403BA .6	CREATING	DISCUSS the economics of Internet advertising, and the business model of zero pricing.

- Network Economics:** Introduction, information goods and services, traditional goods and services, Overview of Network Industries, Demand side economies of scale - Network externality, Supply side economies of scale - Increasing returns. Systems effect in information industry, Network effects in physical (telecommunication) and virtual (systems) networks; Internalizing the network externality – gateways, adapters and standards. (7+2)
- Analyzing the hardware & software industry:** Analyzing the hardware industry - Hardware Compatibility, Network externalities approach, The Components approach. Analyzing the software industry - Principles of Software Production, Determinants of Software variety, Software variety under hardware competition, Software Variety and Partial Compatibility, Software Piracy, Software Pricing and Market Segmentation. (7+2)
- Technology advance and standardization:** New Technology Adoption – Static Approach, Technology Revolutions – Dynamic Approach, patents, licensing and standardization in network industries.
- Industry Reviews- I:** Economics of the Telecommunication Industry, Interconnections, Broadcasting and Cable Television, Spectrum Allocation, Digital Convergence, Markets for Information – Information reproduction, Economics of Libraries, Pricing Information Goods. (7+2)
- Industry Reviews – II:** Banks and Money – Switching costs and Competition, ATMs, Media of Exchange as Networks. Airline Industry – Network Structure and Network Economies, Deregulation and Entry, Code Sharing Agreements. Social Interaction – Status Seeking versus Conformism, Conformity, Vanity and Price Competition, Economics of Entertainment Places, Gifts. Languages as Networks, Religious Affiliations as Networks. (7+2)

Suggested Text Books:

- The Economics of Network Industries by Oz Shy
- Information Rules: A Strategic Guide to the Network Economy by Carl Shapiro and Hal R. Varian

Semester IV		404 BA- Artificial Intelligence in Business Applications
3 Credits	LTP: 2:1:1	Subject Core (SC) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO404BA .1	REMEMBERING	IDENTIFY KNOWLEDGE associated and represent it by logical sequence and plan a strategy to solve given problem
CO404BA .2	UNDERSTANDING	UNDERSTAND AI's fundamental concepts and methods.

CO404BA .3	APPLYING	APPLY various machine learning algorithms on structured data to develop machine learning models.
CO404BA .4	ANALYSING	ACQUIRE advanced Data ANALYSIS SKILLS through algorithm and search processes.
CO404BA .5	EVALUATING	SELECT logical and functional process to develop the model
CO404BA .6	CREATING	CREATE SOLUTIONS for various business problems using AI techniques.

1. **Introduction to AI and Programming Tools:** Analytics Landscape, Complexity of Analytics, What Is Artificial Intelligence? Embedding AI into Business Processes, Basic Concepts of Artificial Intelligence Brain Science and Problem Solving, The History of AI, Benefits of AI Data Pyramid Property of Autonomy, The AI Revolution, Business Innovation with Big Data and Artificial Intelligence. AI and Predictive Analytics, Overlapping of Artificial Intelligence with Other Fields Ethics and Privacy Issues, Application Areas, AI and Society. Knowledge-Based Systems Knowledge Based Reasoning: Agents, Facets of Knowledge. (7)

2. **Logic and Inferences:** Formal Logic, Propositional and First Order Logic, Resolution in Propositional and First Order Logic, Deductive Retrieval, Backward Chaining, Second order Logic. Knowledge Representation: Conceptual Dependency, Frames, Semantic nets. Reasoning Systems for Categories, Reasoning with Default Information. Propositional Logic & Predicate logic - Syntax., Semantics , Computability and Complexity Applications and Limitations, Logic for Problem solving, Logic Programming with PROLOG , PROLOG Systems and Implementations, Execution Control and Procedural Elements, Constraint Logic Programming, Simple Examples (8)

3. **Problem Solving, Search and Game Techniques:** Problem solving with AI, Study and analysis of various searching algorithms, Local Search in Continuous Spaces, Searching with Non-deterministic Actions General Problem Solver, Gelernter's Geometry Theorem, STRIPS, ABSTRIPS, Search - Overview, Problem representation State-space representation, Problem-reduction representation, Uninformed Search - Blind state-space search, Breadth-First Search, Uniform-cost search, Depth-First Search, Iterative Deepening, Heuristic Search, Greedy Search , A★-Search, IDA★-Search. Games with Opponents- Minimax Search, Alpha-Beta-Pruning Non-deterministic Games. Heuristic Evaluation Functions Game trees, optimal search for an optimal solution. Conditions for optimality: Admissibility and consistency, Optimality of A*, Optimization Problems: Hill-climbing search Simulated annealing, Local beam search, Recursive Best First Search, Pruning the CLOSED and OPEN Lists (10)

4. **Machine Learning and Data Mining:** Introduction - What is machine learning?, Supervised vs. unsupervised learning , Reinforcement Learning. Machine Learning Workflow, Learning Algorithms, Linear Regression k -Nearest Neighbor , Decision Trees, Feature Construction and Data Reduction ,Random Forest, k -Means Algorithm, Gradient Boosting, Analyzing Big Data Different Deep Learning Models, Auto encoders, Data Analysis, The Perceptron, a Linear Classifier, The Learning Rule, Optimization and Outlook , The Nearest Neighbor Method, Two Classes, Many Classes, Approximation, Case-Based Reasoning, Decision Tree Learning, Entropy as a Metric for Information Content, Learning of Appendicitis Diagnosis, Cross-Validation and Over fitting, Learning of Bayesian Networks, Learning the Network Structure, The Naive Bayes Classifier, Clustering ,Hierarchical Clustering, Data Mining in Practice (10)

5. **Natural language processing & Neural Networks:** Introduction to Natural Language Processing, Stages in NLP, NLP Models, Morphological Processing - Syntax and Semantics, Text Analytics, Sentiment Analysis, Syntactic Analysis (Parsing), Semantic interpretation, Discourse and pragmatic Processing, Text Classification, Implementation aspects of Syntactic Analysis (Parsing), Application of NLP in Machine Translation, Information Retrieval and Big Data Information Retrieval. Learning: Supervised, Unsupervised and Reinforcement learning. Use Cases of NLP, Applications of NLP in Business Customer Service, Reputation Monitoring. Market Intelligence, Sentiment Technology in Business. Artificial Neural Networks - Concept, Feed forward and Feedback ANNs, Error Back Propagation, Boltzmann Machine, Deep Neural Network and Tools, Hopfield Networks , Application to a Pattern Recognition Example, Neural Associative Memory , Linear Networks with Minimal Errors, Applications of Neural Network (10)

Suggested Text Books:

1. Introduction to Artificial Intelligence by Wolfgang Ertel, Springer, Translated by Nathanael Black
2. Artificial Intelligence by Elaine Rich, Kevin Knight and Nair, TMH
3. A First Course in Artificial Intelligence by Deepak Khemani, McGraw Hill Education(India)

Suggested Reference Books:

1. Artificial Intelligence: A Modern Approach by Stuart Russell and Peter Norvig, Pearson
2. Artificial Intelligence by Saroj Kausik, Cengage Learning
3. Artificial Intelligence by Dan W Patterson, Prentice Hall of India

Subject Elective (SE) Courses - Semester III
Specialization: Business Analytics

Semester IV		409 BA- E Commerce Analytics - II
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO409BA.1	REMEMBERING	DESCRIBE the key concepts in e-commerce analytics.
CO409 BA.2	UNDERSTANDING	DEMONSTRATE the use of analytics to drive profitability throughout the organization, and across the entire customer experience and lifecycle.
CO409 BA.3	APPLYING	SOLVE the unique problems in e-commerce, and transform data into better decisions and customer experiences.
CO409 BA.4	ANALYSING	DISCOVER high-value insights via dashboards and visualization.
CO409 BA.5	EVALUATING	DEVELOP analytical approaches to improve ecommerce marketing and advertising, understand customer behavior, increase conversion rates, strengthen loyalty, optimize merchandising and product mix, streamline transactions, optimize product mix, and accurately attribute sales.
CO409 BA.6	CREATING	FORMULATE the right analytics driven strategy for ecommerce businesses.

- Optimizing for Ecommerce Conversion and User Experience:** The Importance of the Value Proposition in Conversion Optimization, Basics of Conversion Optimization: Persuasion, Psychology, Information Architecture, and Copywriting, Conversion Optimization Process: Ideation to Hypothesis to Post-Optimization Analysis, Data for Conversion Optimization: Analytics, Visualization, Research, Usability, Customer, and Technical Data, Science Behind Conversion Optimization, Succeeding with Conversion Optimization. (5+1)
- Analyzing Ecommerce Customers:** Customer Record in Ecommerce, Types of Customer Data to Analyze. Questioning Customer Data with Analytical Thought, Ecommerce Customer Analytics Lifecycle. Defining the Types of Customers, Reviewing Types of Customer Analytics. Segmenting Customers, Performing Cohort Analysis. Calculating Customer Lifetime Value, Determining the Cost of Customer Acquisition, Analyzing Customer Churn. Understanding Voice-of-the-Customer Analytics - Doing Recency, Frequency, and Monetary Analysis. Determining Share of Wallet, Scoring Customers, Predicting Customer Behavior, Clustering Customers, Predicting Customer Propensities, Personalizing Customer Experiences. (5+1)
- Analyzing Products and Orders in Ecommerce:** Ecommerce Orders, Order Data to Analyze, Metrics and Key Performance Indicators Relevant for Ecommerce Orders. Approaches to Analyzing Orders and Products. - Financial Analysis, Product and Item Analysis, Promotional Analysis, Category and Brand Analysis, Event and Goal Analysis, Path-to-Purchase Analysis, Funnel Analysis, Cluster Analysis, Up-Sell and Cross-Sell Analysis, Next-Best-Action Analysis. Analyzing Products in Ecommerce, Useful Types of Product Analysis for Ecommerce - Product Brand Analysis, Product Category Analysis, Customer Service Analysis, Product Returns Analysis, Social Media Product Analysis. Analyzing Merchandising in Ecommerce - Testing Merchandising Creative, Performing Inventory Analysis, Analyzing Product Offers, Determining the Optimal Price via Pricing Analysis, Understanding the Sales Impact of Merchandising, Analyzing Suppliers and the Supply Chain, Determining Effective and Profitable Markdowns, Promotions, and Discounts. (8+1)
- Attribution in Ecommerce Analytics:** Attributing Sources of Buyers, Conversion, Revenue, and Profit, Understanding Engagement Mapping and the Types of Attribution, The Difference between Top-Down and Bottom-Up Approaches to Attribution, A Framework for Assessing Attribution Software. (2+1)
- Integrating Data and Analysis to Drive Ecommerce Strategy:** Defining the Types of Data. Single-Channel to Omnichannel, Integrating Data from a Technical Perspective. Agile Versus Waterfall Delivery, Integration with Operational Data Stores, Integration with On-Premises Enterprise Data Warehouses. Integration with Cloud Data Sources, Integration with Data Lakes, Integration with Data Federation, Integration with Data Virtualization, Integrating Analytics Applications, Integrating Data from a Business Perspective. (5+1)

Suggested Text Books:

1. Ecommerce Analytics: Analyze and Improve the Impact of Your Digital Strategy by Judah Phillips
2. Building a Digital Analytics Organization: Create Value by Integrating Analytical Processes, Technology, and People into Business Operations by Judah Phillips

Semester IV		410BA: Healthcare Analytics
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO410BA.1	REMEMBERING	DESCRIBE the key terms in healthcare data analytics
CO410BA.2	UNDERSTANDING	EXPLAIN the fundamental concepts in Health Care Analytics
CO410BA.3	APPLYING	ILLUSTRATE the use of specific tools and techniques to design effective ways of handling, retrieving, analyzing, and making use of healthcare data
CO410BA.4	ANALYSING	EXAMINE the issues associated with the applications of intelligent data acquisition, processing, and analysis of healthcare data
CO410BA.5	EVALUATING	EXPLAIN the perspectives of healthcare related opportunities for developing new analytical approaches.
CO410BA.6	CREATING	ADAPT healthcare data analytics for improving the health and well-being of people.

1. **Introduction to Healthcare Data Analytics:** Introduction, Healthcare Data Sources and Basic Analytics, Electronic Health Records, Biomedical Image Analysis, Sensor Data Analysis, Biomedical Signal Analysis, Genomic Data Analysis, Clinical Text Mining. Mining Biomedical Literature, Social Media Analysis, Advanced Data Analytics for Healthcare, Clinical Prediction Models, Temporal Data Mining, Visual Analytics, Clinico–Genomic Data Integration, Information Retrieval, Privacy-Preserving Data Publishing. Applications and Practical Systems for Healthcare, Data Analytics for Pervasive Health, Healthcare Fraud Detection, Data Analytics for Pharmaceutical Discoveries, Clinical Decision Support Systems, Computer-Aided Diagnosis, Mobile Imaging for Biomedical, Resources for Healthcare Data Analytics.
2. **Electronic Health Records:** History of EHR, Components of EHR, Administrative System Components, Laboratory System Components & Vital Signs, Radiology System Components, Pharmacy System Components, Computerized Physician Order Entry (CPOE). Clinical Documentation, Coding Systems, International Classification of Diseases (ICD), Current Procedural Terminology (CPT), Systematized Nomenclature of Medicine Clinical Terms (SNOMED-CT), Logical Observation Identifiers Names and Codes (LOINC), RxNorm, International Classification of Functioning, Disability, and Health (ICF), Diagnosis-Related Groups (DRG), Unified Medical Language System (UMLS). Digital Imaging and Communications in Medicine (DICOM), Benefits of EHR - Enhanced Revenue, Averted Costs, Additional Benefits, Barriers to Adopting HER, Challenges of Using EHR Data.
3. **Social Media Analytics for Healthcare:** Social Media Analysis for Detection and Tracking of Infectious Disease Outbreaks, Outbreak Detection, Using Search Query and Website Access Logs, Using Twitter and Blogs, Analyzing and Tracking Outbreaks, Syndromic Surveillance Systems Based on Social Media, Social Media Analysis for Public Health Research. Topic Models for Analyzing Health-Related Content, Detecting Reports of Adverse Medical Events and Drug Reactions, Characterizing Life Style and Well-Being, Analysis of Social Media Use in Healthcare, Social Media as a Source of Public Health Information, Analysis of Data from Online Doctor and Patient Communities.
4. **Visual Analytics for Healthcare:** Introduction to Visual Analytics and Medical Data Visualization, Clinical Data Types, Standard Techniques to Visualize Medical Data, High-Dimensional Data Visualization, Visualization of Imaging Data, Visual Analytics in Healthcare, Visual Analytics in Public Health and Population Research, Geospatial Analysis, Temporal Analysis, Beyond Spatio-Temporal Visualization, Visual Analytics for Clinical Workflow, Visual Analytics for Clinicians, Temporal Analysis, Patient Progress and Guidelines, Other Clinical Methods, Visual Analytics for Patients, Assisting Comprehension, Condition Management, Integration into Healthcare Contexts.
5. **Fraud Detection in Healthcare:** Understanding Fraud in the Healthcare System, Definition and Types of Healthcare Fraud, Identifying Healthcare Fraud from Data. Types of Data, Challenges, Knowledge Discovery-Based Solutions for Identifying Fraud, Identifying Fraudulent Episodes, Identifying Fraudulent Claims - Bayesian Approach & Non-Bayesian Approaches to Identifying Fraudulent Claims. Identifying Fraudulent Providers, Analyzing Networks for Identifying Coordinated Frauds, Constructing a Provider Social Network, Relevance for Identifying Fraud, Temporal Modeling for Identifying Fraudulent Behavior, Change-Point Detection with Statistical Process Control Techniques, Anomaly Detection Using the CUSUM Statistic, Supervised Learning for Classifying Provider Profiles.

Suggested Text Books:

1. Healthcare Data Analytics Edited by Chandan K. Reddy & Charu C. Aggarwal, CRC press.
2. Healthcare Analytics Made Simple by Vikas Kumar, Packt Publishing
3. Healthcare Analytics: From Data to Knowledge to Healthcare Improvement by Hui Yang & Eva K. Lee
4. Healthcare Management and Administration, S.L. Goel, Deep & Deep Publications Pvt. Ltd. New Delhi.
5. Introduction To Health Care Management , Sharon B. Buchbinder , Nancy H. Shanks, Malloy Incorporation.

Semester IV		411 BA- Watson
2 Credits	LTP: 2:1:1	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO411BA.1	REMEMBERING	RECALL the key aspects of cognitive computing and Watson.
CO411BA.2	UNDERSTANDING	DESCRIBE & DISCUSS the conceptual components and practical aspects of a cognitive system.
CO411BA.3	APPLYING	MAKE USE OF Watson platform and its underlying technologies for natural language processing and question answering in particular.
CO411BA.4	ANALYSING	ILLUSTRATE the various use cases of Watson.
CO411BA.5	EVALUATING	EXPLAIN fundamentals of IBM Cloud and creating service instances.
CO411 BA.6	CREATING	BUILD a Customer Complaints Analyzer using Watson Natural Language Understanding.

1. **Introduction to cognitive computing:** Cognition, Cognitive system and its main features, why build cognitive systems? The eras of computing, differences between cognitive systems and traditional development, different computing paradigms for solving problems, changing focus from rules definition and development to data analysis and training, conceptual components of a cognitive system, overview of Watson as a cognitive system, brief history of Watson , current status of Watson and the way of using it. Impact of cognitive computing to our lives, Solving real life problems with cognitive systems, Cognitive computing and the future of jobs. (5+1)
2. **Cognitive business and IBM Watson:** Landscape of cognitive computing in the industry, Consumer market: Cognitive computing offerings, Enterprise market: Cognitive computing offerings, Delivering cognitive services: Cloud and open source projects/IBM Watson, Watson APIs: APIs available in IBM Cloud. High level categorization of API functionality, summary of natural language and empathy APIs, signal processing APIs, data analysis services, demos of the APIs, IBM Watson applied to industries, businesses, and science. (5+1)
3. **Introduction to question-answering systems:** The Jeopardy! Challenge, DeepQA system architecture, Exploring the DeepQA pipeline, Question analysis, Primary search, Hypothesis generation, Hypothesis and evidence scoring, Final merging and ranking. (5+1)
4. **Evolution from DeepQA to Watson Developer Cloud :** Why commercialize Watson, Refresher of DeepQA architecture, Evolution to Watson Developer Cloud, Evolution of question analysis, Micro-services and robust tooling evolved from DeepQA, Watson Conversation service, Watson Discovery service, Evolution summary. (5+1)
5. **Domain adaptation:** Introduction to domain adaptation, IBM Watson Developer Cloud and domain adaptation, Watson Conversation, Watson Language Translator, Watson Natural Language Classifier, Watson Retrieve and Rank, Watson Visual Recognition, Watson Speech to Text, Watson Text to Speech, Watson Natural Language Understanding, Watson Discovery, Watson Knowledge Studio domain adaptation overview. Creating a machine learning model, Deploying a machine-learning annotator to Watson Natural Language Understanding, Deploying a machine-learning annotator to Watson Discovery. (5+1)

Suggested Text Books:

1. IBM's Watson and the Era of Cognitive Computing by Kelly, John E., and Steve Hamm, Columbia Business School Publishing.

Suggested Reference Books:

1. Cognitive Computing: A Brief Guide for Game Changers by Finger, Peter. , Meghan-Kiffer Press.
2. Life 3.0: Being Human in the Age of Artificial Intelligence by Max Tegmark., Knopf
3. Artificial Intelligence for Humans: Deep Learning and Neural Networks, Heaton, Jeff.

Semester IV		412 BA- Scala and Spark
2 Credits	LTP: 2:0:0	Subject Elective (SE) Course – Business Analytics

Course Outcomes: On successful completion of the course, the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
CO412BA.1	REMEMBERING	DESCRIBE the ecosystem associated with SCALA and SPARK.
CO412BA.2	UNDERSTANDING	ILLUSTRATE the use of SPARK and SCALA.
CO412BA.3	APPLYING	USE the core RDD and DataFrame APIs to perform analytics on datasets with Scala.
CO412BA.4	ANALYSING	EXAMINE how and when it differs from familiar programming models
CO412BA.5	EVALUATING	READ data from persistent storage and load it into Apache Spark.
CO412BA.6	CREATING	MANIPULATE data with Spark and Scala

- 1. Scala:** What is Scala? Why Scala for Spark? Scala in other frameworks Introduction to Scala REPL, Basic Scala operations, Variable Types in Scala, Control Structures in Scala, Foreach loop Functions, Procedures, Collections in Scala- Array, Array Buffer, Map, Tuples, Lists. **Spark Core:** Introduction, Introduction to big data, Challenges with big data, Batch Vs. Real Time big data analytics, Batch Analytics - Hadoop Ecosystem Overview, Real-time Analytics. (7+1)
- 2. What is Spark?** : Spark Ecosystem, Modes of Spark, Spark installation demo, Overview of Spark on a cluster, Spark Standalone cluster, Spark Web UI, Components of Spark Unified stack, Spark Streaming, MLlib, Core, Spark SQL, RDD - The core concept of Spark RDDs, Transformations in RDD, Actions in RDD. Loading data in RDD, Saving data through RDD, Key-Value Pair RDD, MapReduce and Pair RDD, Operations Scala and Python shell Word count, example Shared Variables with examples, Submitting jobs in cluster, Hands on examples. (5+1)
- 3. Spark SQL:** Overview, Hive and Spark SQL architecture, sqlContext in spark sql, Dataframes API, Understanding concept of data frame, Loading data in dataframe, Operations on dataframes. Interaction with Hive, Reading various data formats Hands on Examples.(4+1)
- 4. Spark Streaming:** Overview of streaming, Spark Streaming Architecture, First Spark Streaming Program, Transformations in Spark Streaming, checkpointing, Parallelism level, Introduction to queuing systems. Eg. Kafka, Hands on examples. (4+1)
- 5. Spark MLlib:** Supervised Learning, Classification - logistic regression, decision trees, random forests, naive Bayes, Regression - linear least squares, Lasso, ridge regression, decision trees, Unsupervised learning : Clustering - K-means, Gaussian Mixture, Dimensionality reduction – PCA, Hands on examples. (5+1)

Suggested Text Books:

1. Scala and Spark for Big Data Analytics: Explore the Concepts of Functional Programming, Data Streaming, and Machine Learning by Md. Rezaul Karim and Sridhar Alla
2. Programming in Scala by Bill Venners and Martin Odersky

Suggested Reference Books:

1. Scala Cookbook: Recipes for Object-Oriented and Functional Programming by Alvin Alexander
2. Scala in Depth by Josh Suereth

Syllabus for Rural & Agri Business Management (MINOR ONLY SPECIALIZATION)
--

Semester III		SC – RABM – 01 Agriculture and Indian Economy
3 Credits	LTP: 2:1:1	Rural & Agri Business Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
RABM01.1	REMEMBERING	DEFINE the key terms in Indian Agriculture/Land Reforms/ economic holding.
RABM01.2	UNDERSTANDING	EXPLAIN the key terms in The place of agriculture in the national economy/ The present position of Indian Agriculture with an advanced management perspective.
RABM01.3	APPLYING	IDENTIFY the various issues in the Agriculture Industry in India. DEMONSTRATE their significance from the perspective of Indian farmer & Indian Economy & business decision making.
RABM01.4	ANALYSING	EXAMINE the inter-relationships between various facets of Agriculture & economy from the perspective of a farmer, Labour, firm, industry, market, competition and business cycles.
RABM01.5	EVALUATING	DEVELOP critical thinking based on changing pattern of ownership and operational holdings in India, Farms size, Productivity/ Profitability and farm efficiency
RABM01.6	CREATING	ANTICIPATE how other firms in an industry and consumers will respond to economic decisions made by a business, and how to incorporate these responses into their own decisions.

- Indian Agriculture under the Five Year Plans :** The Green Revolution, The place of agriculture in the national economy, progress of agriculture under the Five Year Plans, Present position of Indian Agriculture : Looming Crisis, New Thrust Areas in Agriculture, National Commissions of Farmers and Green Revolution, Crop Pattern in India since 1951.
- Food Security in India:** Green Revolution, Second Green Revolution – the future prospects, Concept of Food Security, Food self-sufficiency and food security, Poverty and need for Public Distribution Systems, Policy Options for reforms of PDS, Food Insecurity at Global level, Food Security Act – Salient features and implications.
- Irrigation and other agricultural inputs:** Irrigation, multipurpose river valley project - a controversy, irrigation in the 12th plan, private sector participation in irrigation, fertilizers and manures, improved seeds, soil conservation and reclamation, livestock and dairy development, mechanization of agriculture
- Land Reforms:** The need and scope for land reforms in a developing economy, the abolition of intermediaries, tenancy reforms, ceiling on land holdings, an appraisal of land reforms. Size of Farms and Productive Efficiency: Meaning of economic holding, changing pattern of ownership and operational holdings in India, Farms size, Productivity/ Profitability and farm efficiency, the problem of sub division and fragmentation of holdings, cooperative farming.
- Agriculture Labour:** Present position of agricultural Labour in India, Agricultural Labour and Minimum Wages, Abolition of Bonded Labour, Recommendations of National Commissions on Rural Labour (NCRL)

Suggested Text Books:

- Indian Economy, Datt and Sundharam, S Chand
- Indian Economy Since Independence, edited by Uma Kapila, Academic Foundation
- Indian Agriculture - issues and perspectives, Edited by N Janardhana Rao, ICFAI University Press

Suggested Reference Books:

- Adhikary M. 1986. *Economic Environment of Business*. S. Chand & Sons.
- Aswathappa K. 1997. *Essentials of Business Environment*. Himalaya Publications
- Francis Cherunilam 2003. *Business Environment*. Himalaya Publications

Semester IV		SE – RABM – 02 ICT for Agriculture Management
3 Credits	LTP: 2:1:1	Rural & Agri Business Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
RABM02.1	REMEMBERING	RECALL the basic terminologies related to ICT
RABM02.2	UNDERSTANDING	UNDERSTAND the use of ICT with different aspects & various issues & challenges for ICT information services
RABM02.3	APPLYING	Apply the GIS Applications in micro resource mapping
RABM02.4	ANALYSING	ANALYZE the different tools and techniques used under ICT in Agriculture Management
RABM02.5	EVALUATING	EVALUATE the common ICT platforms for information services
RABM02.6	CREATING	CHOOSE the right ICT as per the requirement of agriculture activity

1. Introduction : Basic terminology, Leapfrogging technology – the mobile phone, ICT and its ramifications for rural economies, Scope of ICT in Indian Agriculture, Introduction to various ICT-enabled rural services related to land, education, health, insurance, micro-credit, marketing, etc. Village Resource Centre (VRC), Common resource Centre (CRC), Tele- education, community radio, etc. Potential impact

2. ICT for production systems management : Scope of ICT in agriculture production, Applicability and challenges of ICT in logistic and supply chain systems, ICT application in risk management, ICT tools for an agricultural extension activity, new technology application in operation management e.g. barcode, RFID, QR code, etc.,

3. ICT for market access: Types of market access ICT service, Pricing services, Scope of e-auction in agriculture marketing, E-commerce in Agriculture and advantages of E-commerce in Agriculture over the traditional market, Issues and challenges for market access ICT services, Advantages of and opportunities for market access ICT services

4. ICT for financial inclusion: Types of financial inclusion, ICT services, Transfers and payments, Agricultural credit, Savings for agricultural needs, Agriculture Insurance, Various government schemes e.g., PMJDY, PMJJY, etc., Bank Business Correspondence scheme and its impact on Rural areas, Issues and challenges for ICT financial inclusion services, and Advantages of and opportunities for ICT financial inclusion services.

5. Overview of Geographical Information Systems (GIS): Remote Sensing and Image Processing, GPS, GIS Data Modeling, Geographical Information Systems, Issues and Concerns in Land and Water Management, The GIS Approach. Planning and implementing a GIS; Case studies on GIS; GIS and Precision farming; GIS Applications in micro resource mapping, principles in micro-planning, modeling in resource mapping GIS Technology trend and next generation Systems.

Suggested Text Books:

1. Sustainable Agriculture, edited by A. Bandyopadhyay, Bhoovigyan Vikas Foundation
2. Concepts and Techniques of Geographic Information Systems , Lo, C.P. and Yeung, A.K.W. (2002)., Prentice Hall.
3. E- Governance Concepts and case Studies- C.S.R Prabhu , Prentice Hall of India

Suggested Reference Book:

1. Cases on Developing Countries and ICT Integration: Rural Community Development ,edited by Rebecca Nthogo Lekoko, Ladislaus M. Semali, IGI
2. Fundamentals of Geographic Information Systems. DeMers, M.N. (1999) 2nd Ed., Wiley Press.
3. Principles of Geographical Information Systems Burrough, P.A. and R.A. McDonald (1998), Oxford University Press

Semester III		SE – RABM – 03 Rural Credit and Finance
2 Credits	LTP: 1:1:1	Rural & Agri Business Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
RABM03.1	REMEMBERING	RECALL the Role of Credit in Agriculture & Role of Agriculture in Economic Development
RABM03.2	UNDERSTANDING	UNDERSTAND the concept and special features of co-operative banking, Structure of the co-operative credit system in India
RABM03.3	APPLYING	Apply the theories of Agricultural finance with concept of credit
RABM03.4	ANALYSING	ANALYZE Players and Approaches in Microfinance & Rural Finance.
RABM03.5	EVALUATING	EXPLAIN the triangle of microfinance and the role of BDS in rural finance.
RABM03.6	CREATING	Develop a plan to create awareness about different rural finance schemes

1. Role and Characteristics of Indian Agriculture: Introduction, Role of Agriculture in Economic Development, Characteristics of Indian Agriculture.

2. Critical Review of Agricultural Finance: Role of Credit in Agriculture, Agricultural Finance in India, Classification of Agricultural Finance, Significance of Co-op. Credit, Some Issues of the Present System. **Financial Intermediaries In Agriculture:** Functions, Structure and Performance.

3. Cooperative Banks: Concept and special features of co-operative banking, Structure of co-operative credit system in India, Primary Level Credit Institutions (PACs, LAMPs. MPCs, FSS) their functioning and problems, District Central Cooperative Banks Structure and functions, Apex Co-operative Banks Structure and functions, Impact of liberalization on Co-operative Banks with particular reference to de regulation of interest rates and prudential norms

4. Theories of Agricultural Finance: Risk and Uncertainty Theory, Demand and Supply Theory, Business Vs. Social and Moral Theory, Cost Theory, Productive Vs. Consumption, – The concept of 3 C's, 7 P's and 3 R's of credit, Credit Analysis, Kind Loans Vs. Cash Loans, Principle of Micro- and Macro-Finance, Principle of Supervised Credit, Principle of Crop Loan, Principle of Co-op. Credit, Principle of Better Credit.

5 Rural Finance and Microfinance: Players and Approaches; Microfinance & Rural Finance – Lessons from microfinance and historical interventions, Rural finance: approach, delivery channels and actors involved, and linkages, Triangle of microfinance and the role of BDS in rural finance.

Suggested Text Books:

1. Agricultural Development Rural Credit And Problems Of Its Recovery, By A. Ranga Reddy, Mittal Publications

Suggested Reference Book:

1. Theories of Agricultural Finance, Jugale, Atlantic Publishers
2. Barry, P.J., and P.N. Ellinger. Financial Management in Agriculture. 7th ed. Pearson Education, Inc., 2012.
3. Ross, S.A., R.W. Westerfield, B.D. Jordan. "Essentials of Corporate Finance. The McGraw-Hill/Irwin, 2011.
4. Keown, A.J., J.D. Martin, J.W. Petty, and D.F. Scott. Foundations of Finance. 7th ed. Prentice Hall, 2010.

Semester IV		SC – RABM – 04 Rural Marketing – I
2 Credits	LTP:1:1:1	Rural & Agri Business Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
RABM04.1	REMEMBERING	RECALL and REPRODUCE the various concepts, principles, frameworks, and terms related to the function and role of marketing in Rural areas.

1. Kim, W Chan, Mauborgne, Renée, Blue Ocean Strategy,
2. Strategic Management by Jeyarathnam Himalays Publication

Suggested Reference Books

Strategic Management and Business Policy by Dr. Azahar Kazmi.

Semester III		SE-PHCM- 04 Information Technology in Pharma and Healthcare
2 Credits	LTP: 1:1:1	Pharma and Healthcare Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
PHCM04.1	REMEMBERING	IDENTIFY the different types of information required in Pharma and Healthcare system
PHCM04.2	UNDERSTANDING	DESCRIBE the different types of Networks and structure require to establish computerize system in daily operations
PHCM04.3	APPLYING	Identify the different Integrated Health information Systems used by different Pharma and Healthcare companies
PHCM04.4	ANALYSING	SIMPLIFY the process to maintain an electronic record, its analysis, and Presentation for decision making
PHCM04.5	EVALUATING	DETERMINE the various components require to develop Hospital Information Systems (HIS)
PHCM04.6	CREATING	DEVELOP architecture for routine business activities in pharma and healthcare sector

1. Introduction to information: Scope, Components of hardware and software. Health Care Informatics: Introduction, Standardized languages in practice. Health IT Architecture: Information Technology architecture models in healthcare organizations, Service-oriented structures. Concept of biosignal processing and Medical Imaging.

2.IT Structure: Computer Networks- LAN, WAN, ISDN, VSAT. The Internet- structure, role in Medicine. Mobile IT devices in healthcare. Telemedicine and applications- Architecture of major telemedicine systems in India. Information compression, storage and transmission standards, wireless telemetry,

3. Regulations & Standards: Necessity of standards for electronic health, security issues, cyber laws, ethical and medico legal issues in patient information exchange. Healthcare Information Regulations & Standards: Legal Aspects of Managing Health information, Health records and Privacy, Health Level standards- HL7. Integrated Health information Systems.

4. Introduction to medical databases: Electronic Medical Record, Electronic Health Record. National and International regulations. Data collection, Data analysis, Data Presentation in Medical systems. Systems Implementation and Integration, Interface Engine. Patient registries/patient portals/Health information exchange.

5. Hospital Information Systems : Definition, Structure and Application, system Advantages. Nursing Informatics, Automated clinical laboratory systems. Pharmacy information system. Electronic Health- overview, implementation of various systems.

Suggested Books:

1. Management Information Systems by Kenneth C. Laudon
2. Information Systems for Modern Management by Robert G. Murdick
3. Fundamentals of Information Systems, Second Edition by Ralph M. Stair and George Walter Reynolds
4. Management Information system "Jayadevan".

Semester IV		SE-PHCM- 05 Pharmaceutical Import and Export
2 Credits	LTP: 1:1:1	Pharma and Healthcare Management

Course Outcomes: On successful completion of the course the learner will be able to

CO#	COGNITIVE ABILITIES	COURSE OUTCOMES
PHCM05.1	REMEMBERING	DEFINE the various concepts related to import and export procedure
PHCM05.2	UNDERSTANDING	DISCUSS various steps involved in export procedures of pharmaceutical product
PHCM05.3	APPLYING	IDENTIFY the international market for pharmaceutical product
PHCM05.4	ANALYSING	ANALYZE different payments methods used in international trade
PHCM05.5	EVALUATING	DETERMINE various rules and regulations related to export procedures of pharmaceutical product
PHCM05.6	CREATING	CHOOSE right product for the right International market.

1. Significance of procedures and documentation in international trade; procedures and documentation as trade barriers; WTO provisions; Aligned Documentation System (ADS); official machinery for trade procedures and documentation; ITC(HS) classification System ;Role of ICC; INCOTERMS; nature of export/trading houses.

2. Export order processing; export contract; export price quotations; shipping and custom clearance of export and import cargo; central excise clearance; main export and import documents; Role of forwarding agents; cargo insurance and claim procedure.

3. Methods of payment in international trade; documentary collection of export bills; UCPDC guidelines; realization of export proceeds – provisions of RBI's Exchange Control Manual; pre-shipment and post-shipment finance; role of EXIM bank and ECGC in India.

4. Major export promotion schemes in India – EPCGS, duty exemption scheme; DEPB scheme; SIL; facility for deemed exports; Export promoting institution's – role of export promotion councils, commodity boards and ITPO.

5. Regulations for International Trade: Major laws governing India's export import trade- Foreign Trade (Development & Regulation) Act, Pre-shipment Inspection & Quality Control Act, 1963 & Customs Act, 1962; Foreign Exchange Management Act, 2000

Syllabus for International Business Management (MINOR ONLY SPECIALIZATION)

Semester: III	Course Code: SC-IB-01	304 IB: Import Export Documentation and Procedures
3 Credits	LTP: 2:1:1	Generic Core Course

Course Outcomes: On successful completion of the course the learner will be able to

CO	COGNITIVE ABILITIES	COURSE OUTCOMES
CO304IB.1	REMEMBERING	DESCRIBE THE PROCESS OF IMPORT AND EXPORT IN THE CONTEXT OF BUSINESS
CO304IB.2	UNDERSTANDING	EXPLAIN THE IMPORT AND EXPORT TRANSACTIONS, CLASSIFICATION AND VARIOUS PAYMENT TERMS
CO304IB.3	APPLYING	IDENTIFY VARIOUS TYPES OF DOCUMENTS REQUIRED FOR THE PROCEDURES INVOLVED IN IMPORT AND EXPORT
CO304IB.4	ANALYSING	EXAMINE VARIOUS DOCUMENTATION FORMATS FOR THE IMPORT AND EXPORT PROCESSES
CO304IB.5	EVALUATING	EXPLAIN PRE AND POST ACTIVITIES OF IMPORT AND EXPORT PROCESS
CO304IB.6	CREATING	DISCUSS ON VARIOUS ASPECTS OF TRADES, DOCUMENTATION AND PROCEDURES FOR IMPORT AND EXPORT

- 1. Introduction to Imports and Exports:** Meaning and Definition of Imports and Export – Classification – Strategy and Preparation for Export Marketing – Export Marketing Organizations – Registration Formalities – IEC – RCMC – Export Licensing – Selection of Export Product – Identification of Markets – Methods of Exporting – Pricing Quotations – Payment Terms – Letter of Credit - Liberalization of Imports – Negative List for Imports – Categories of Importers – Special Schemes for Importers. **(7+2)**
- 2. Management of Import and Exports:** Basic Concept of Import and Exports - Understanding an Export Transaction - Direct Quotation Method - Spot & Forward rates and booking of Forward contract for exports – Understanding NOSTRO, VOSTRO and LORO - Payment terms - contents and types of Letter of credit - Uniform Customs Procedures for Documentary Credits (UCPDC) - Excise clearance - Customs house agents - Marine insurance. **(7+2)**
- 3. Import Export Documentation:** Aligned Documentation System – Commercial Invoice – Shipping Bill – Certificate of Origin – Consular Invoice – Mate’s Receipt – Bill of Lading – GR Form – ISO 9000 – Procedure for obtaining ISO 9000 – BIS 14000 Certification – Types of Marine Insurance Policies - Import Documents – Transport Documents – Bill to Entry – Certificate of Inspection – Certificate of Measurements – Freight Declaration - Principal, Auxiliary & Regulatory set of documents. **(7+2)**
- 4. Import Export Procedures:** Steps in Export Procedure – Export Contract – Forward Cover – Export Finance – Institutional framework for Export Finance – Excise Clearance – Pre-shipment Inspection – Methods of Pre-shipment Inspection – Marine Insurance – Role of Clearing and Forwarding Agents – Shipping and Customs Formalities – Customs EDI System – Negotiation of Documents – Realisation of Exports Proceeds - Pre-Import Procedure – Steps in Import Procedure – Legal Dimensions of Import Procedure – Customs Formalities for Imports – Warehousing of Imported goods – Exchange Control Provisions for Imports – Retirement of Export Documents. **(7+2)**
- 5. Policy Framework for Imports and Exports:** Foreign Trade Policy – Highlights – Special Focus Initiatives – Duty Drawback – Deemed Exports – ASIDE – MAI & MDA – Star Export Houses – Town of Export Excellence – EPCG Scheme – Incentives for Exporters. Export Promotion Councils-Commodity Boards – FIEO – IIFT – EOUs – SEZs – ITPO – ECGC – EXIM Bank. **(7+2)**

Note:

- Real world examples and cases are expected to be discussed and analysed in the class as well as included in the examination.

Savitribai Phule Pune University

Revised Syllabus

Master of Business Administration
(MBA)

Choice Based Credit System and Grading System

Two Year Full Time Four Semester

POST GRADUATE PROGRAMME

MBA I Year Curriculum Applicable w.e.f. AY 2016-17

MBA II Year Curriculum Applicable w.e.f. AY 2017-18

1. Title

Name of the Programme: Master of Business Administration (MBA).

Nature of the Programme: MBA is two year full time post-graduate degree programme.

2. Preamble: The revised curriculum for MBA is developed keeping in mind the *national priorities* and *international practices*. It also attempts to align the programme structure and course contents with student aspirations & recruiter expectations. This syllabus also attempts to align with National Goal of “Make in India”, “Start – Up and Stand – Up India” and “Digital India”.

2.1 Need for Revision of the Curriculum: The MBA programme curriculum of the Savitribai Phule Pune University was last revised in the AY 2013 and there was a need for revision of the curriculum in view of the dynamism in the industry practices, evolution in technology and the evolving expectations of key stakeholders viz. students, the industry and faculty members at large. It also has relevance due to changed technological, social, cultural and economic environment of the nation.

Specifically, the triggers for the comprehensive revamp of the curriculum are -

- a) **New Skills & Competencies desired due to dynamic business environment:** Jobs of today were perhaps not created about 5 years ago. This aspect has a direct linkage with contents and structure of syllabus across the *Knowledge, Skills and Attitude (KSA) dimensions*, which calls for frequent and meaningful updating of the curriculum.
- b) **Concerns expressed by the Industry:** The industry has expressed concerns about the need for improvement in the *communication skills, inter-personal skills, domain knowledge basics, business environment awareness, technology proficiency, and attitude* of the MBA graduates. *Newer and innovative evaluation methods* are necessary to address these concerns of the industry.
- c) **Application Orientation:** There is a pressing need to *imbibe application oriented thinking*, based on sound knowledge of management theories, principles and concepts. Management education needs to move out of the classrooms and instead focus on *group activity, field work, experiential learning, etc.* This can be achieved only through a radical change in the evaluation pattern and course delivery methodology.
- d) **Changing mindset of the Learner:** The profile of the students for the management programme, their learning styles and the outlook towards higher education has undergone a gradual transformation. The expectations of the students from the MBA programme have changed over the last decade.
- e) **Integrate a basket of skill sets:** B-Schools are expected to imbibe varied aspects of ‘learning beyond the syllabus through innovative curriculum design, contemporary syllabus, effective delivery and comprehensive evaluation.
- f) **Entrepreneurial aspirations and preparedness for the same:** The youth now aspires to become masters of their own and wish to start up their new ventures. These will create further growth opportunities.

Specifically the following skill sets are in focus:

- i. Reading & Listening Skills
- ii. Problem Definition & Problem Solving Skills
- iii. Application of Technology Tools
- iv. Mastery of Analytics (Quantitative Aspects)
- v. Sensitization to Cross-Functional skills
- vi. Sensitization to Cross-Cultural skills
- vii. Sensitization to Global perspectives
- viii. Peer-based Learning - Working in groups
- ix. Learning by application and doing – Experiential learning
- x. Team building basics and its orientation

2.2 MBA Programme Objectives: The MBA programme prepares a student for a career in diverse sectors of the industry domestically and globally. The MBA programme facilitates learning in theory and practice of different functional areas of management and equips the students with an integrated approach to various functions of management. However, the demand for managerial skills is not limited to the industry. Managerial talent is much sought by the Government Sector, NGOs, non-corporate sector as well.

Students also expect to become entrepreneurs. Their aspirations also require a broad based learning encompassing the end to end processes involved in developing entrepreneurial skills. Institutes, Faculty and Students need to move away from the excessive focus on industry and look at needs and demands of broader sections of the society also.

Specifically the objectives of the MBA Programme are:

1. To equip the students with requisite knowledge, skills & right attitude necessary to provide effective leadership in a global environment.
2. To develop competent management professionals with strong ethical values, capable of assuming a pivotal role in various sectors of the Indian Economy & Society, aligned with the national priorities.
3. To develop proactive thinking so as to perform effectively in the dynamic socio-economic and business ecosystem.
4. To harness entrepreneurial approach and skillsets.

2.3 Highlights of the New Curriculum: The New Curriculum intends to add immense value to all stakeholders by effectively addressing their requirements in more than one way by:

1. Enhancing *the brand value of the MBA programme of the Savitribai Phule Pune University*.
2. Providing the much needed flexibility to individual Institutes to carve a niche for themselves.
3. Emphasizing the *centrality of the student and teacher-student relationship* in the learning process.
4. Focusing on '*Concurrent Evaluation*' i.e. continuous evaluation throughout the programme.
5. Empowering the Institutes through *cafeteria approach – by providing Generic Core, Subject Core, Generic Elective, and Subject Elective Courses*. This shall provide in-built flexibility in the curriculum to help the institutes to offer tailor made courses preferred by students, from a wider basket of courses.
6. Evaluating *all Half Credit Courses completely on Concurrent Evaluation* pattern.
7. Emphasizing *Experiential Learning* aspect through Half Credit Courses.
8. Supplementing traditional classroom teaching/learning with focus on *group activity, field work, experiential learning, self-study, projects, Industry Exposure Programmes* etc.
9. Incorporating new specializations viz. Retail Management, Services Management, International Finance, Travel & Tourism, Media & Communication and Entrepreneurship Development thereby providing wider choice to the students.
10. A thorough revamp of Systems and Operations Specializations to make them more meaningful and attractive to BCA, BCS, BE students.
11. Providing opportunity to students to choose courses from other electives to explore *cross-functional issues*.
12. Emphasizing on *Research, Inter-personal, Analytical, Cross-Cultural, Entrepreneurial Skills, and Global aspects* of managerial careers throughout the curriculum.

3. Pattern: The Programme comprises of 4 Semesters and adopts the Choice Based Credit System (CBCS) and Grading System.

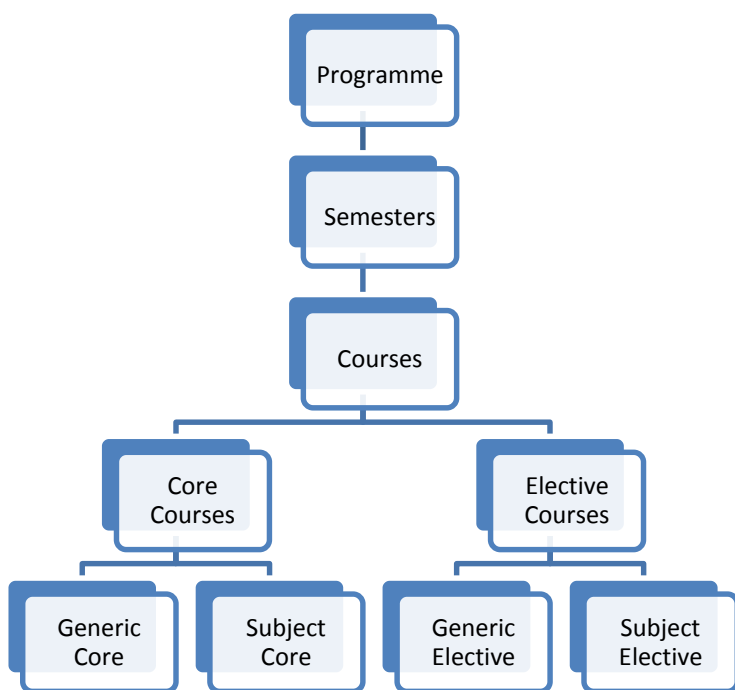

3.1 Choice Based Credit System: Choice Based Credit System (CBCS) offers wide ranging choice for students to opt for courses based on their aptitude and their career goals. CBCS works on the fundamental premise that students are mature individuals, capable of making their own decisions.

CBCS enables a student to obtain a degree by accumulating required number of credits prescribed for that degree. The number of credits earned by the student reflects the knowledge or skill acquired him / her. Each course is assigned a fixed number of credits based on the contents to be learnt & the expected effort of the student. The grade points earned for each course reflects the student's proficiency in that course. CBCS is a process of evolution of educational reforms that would yield the result in subsequent years and after a few cycles of its implementation.

3.1.1 Key features of CBCS:

1. **Enriching Learning Environment:** A student is provided with an academically rich, highly flexible learning system blended with abundant provision for skill practice and activity orientation that he/she could learn in depth without sacrificing his/her creativity. There is a definite movement away from the traditional lectures and written examination.
2. **Learn at your own pace:** A student can exercise the option to decide his/her own pace of learning-*slow, normal or accelerated plan*. Students can select courses according to their aptitude, tastes and preferences.
3. **Continuous Learning & Student Centric Concurrent Evaluation:** CBCS makes the learning process continuous and the evaluation process is not only made continuous but also made learner-centric. The evaluation is designed to recognize the capability and talent of a student.
4. **Active Student-Teacher Participation:** CBCS leads to quality education with active teacher-student participation. This provides avenues to meet student's scholastic needs and aspirations.
5. **Industry Institute Collaboration:** CBCS provides opportunities for meaningful collaboration with industry and foreign partners to foster innovation, by introduction of electives and half credit courses through the cafeteria approach. This will go a long way in capacity building of students and faculty.
6. **Interdisciplinary Curriculum:** Cutting edge developments generally occur at the interface of two or more discipline. Interdisciplinary approach enables integration of concepts, theories, techniques, and perspectives from two or more disciplines to advance fundamental understanding or to solve problems whose solutions are beyond the scope of a single discipline.
7. **Employability Enhancement:** CBCS shall ensure that students enhance their skill/employability by taking up project work, entrepreneurship and vocational training.
8. **Faculty Expertise:** CBCS shall give the Institutes the much needed flexibility to make best use of the expertise of available faculty.

3.1.2 Programme Structure in Choice Based Credit System:

3.2 Time Schedule: An academic year is divided into two terms – I and II. Each term has one semester. Term I shall have SEM I and III, whereas Term II shall have SEM II and IV. In each semester, courses are offered in 15 teaching weeks and the remaining 5 weeks are to be utilized for conduct of examinations and evaluation purposes.

For students, each week has 40 working hours spread over 5/6 days a week consisting of lectures, tutorials, assignments, class participation, library work, special counseling, Sports, project work, field visit, youth welfare and social activities.

3.3 Course: A “Course” is a component of programme, i.e. in the new system; papers will be referred to as courses. Each course is identified by a unique course code. While designing curriculum, course can have defined weightage. These weightages are called credits.

Each course, in addition to having a syllabus, has learning objectives and learning outcomes. A course may be designed to comprise lectures/ tutorials/ laboratory work/ field work/ project work/vocational training /viva voce etc. or a combination of some of these.

3.3.1 Core Courses: The Curriculum comprises of Core Courses and Elective Courses.

Core courses are the foundation courses of management education. They are compulsory for all the students. Core courses are of two types: Generic Core & Subject Core.

Generic Core: This is the course which should compulsorily be studied by a candidate as a core requirement to complete the requirement of a degree in a said discipline of study. Therefore, Generic Core courses are mandatory and fundamental in nature. These courses cannot be substituted by any other courses. Such courses are also known as **Hard Core Courses**.

A Hard core course may be a Theory, Practical, Field based or Project Work based subject which is a compulsory component in the Programme Structure.

Subject Core: A Core course may be a Subject Core if there is a choice or an option for the candidate to choose from a broad category (grouping) of subjects (specializations). These are also known as **Soft Core Courses**.

Following Specializations shall be offered:

1. Marketing Management (MKT)
2. Financial Management (FIN)
3. Information Technology Management (IT)
4. Operations Management (OPE)
5. Human Resources Management (HR)
6. International Business Management (IB)
7. Supply Chain Management (SCM)
8. Rural & Agribusiness Management (RABM)
9. Family Business Management (FBM)
10. Technology Management (TM)
11. Banking and Insurance Management (BIM)
12. Healthcare Management (HM)
13. Entrepreneurship Development (ED)
14. Services Management (SM)
15. Retail Management (RM)
16. Digital Media & Communication Marketing(MC)
17. Tourism and Hospitality Management (THM)
18. Defence Management (DM)

Students shall study 2 Full Credit Courses & 4 Half Credit Courses in Semester III and IV each for specialization courses i.e. a total of 16 specialization courses of which 4 are full credits and 8 are half credits.

- Generic Core courses in Semester I provide *foundations of management*.
- Generic Core courses in Semester II focus on *functional areas*.

- Generic Core courses in the Semester III and IV are *integrative* in nature along with the Subject Core subjects.

3.3.2 Elective Course: Elective course is a course which can be chosen from a pool of courses. It may be:

- a) Very Specialized or advanced course focusing on a specific aspect
- b) Supportive to the discipline of study
- c) Providing an extended scope
- d) Enabling an exposure to some other discipline/domain
- e) Nurturing candidate's proficiency/skill.

Generic Elective: An elective course which is common across disciplines / subjects is called a generic elective. 'Generic Elective' courses develop generic proficiencies amongst the students.

Subject Elective: A 'Discipline centric' elective is called 'Subject Elective.'

- Generic Elective courses, in Semester I and II facilitate self-development and skill building.
- Subject Elective courses, in the Semester III and IV are focused on a specialization.

Open Elective: A subject elective course chosen generally from an unrelated discipline/ subject, with an intention to seek cross-functional exposure is called an Open Elective. A Subject Elective offered in a discipline / subject may be treated as an Open Elective by other discipline / subject and vice versa.

Choice of Cross Functional Half Credit Courses (Subject Elective chosen as Open Elective): Out of the 8 half credit subject elective courses (to be taken collectively in Semester III and IV); *a student may choose 2 half credit subject courses from another elective* (i.e. other than his chosen elective). The student may exercise this choice either in Semester III and/or in Sem IV. The final say in this matter shall rest with the Director of the Institute.

Generic and Subject Electives will provide flexibility to each Institute to offer courses based on: -

- a) Intended positioning of the Institute
- b) Targeted Industry Linkages – sectoral requirements and networking at the Institute Level
- c) Student Composition – rural/urban, commerce/engineering/others, fresh/experienced, etc.
- d) Present & Future Faculty Competencies – generic and specialization areas
- e) Locational Aspects - rural/urban/ semi-urban

An Institute may offer varied combinations of Half Credit courses to various groups of students enrolled in a particular academic year / enrolled for a particular specialization based on student interests and competencies, faculty availability.

3.4 Pre-requisites for successful implementation of CBCS: The success of the CBCS also requires certain commitments from both the students and the teachers.

1. The student should be regular and punctual to his classes, studious in carrying out the assignments and should maintain consistency in his tempo of learning. He should make maximum use of the available library, internet and other facilities.
2. The teachers are expected to be alert and punctual and strictly adhere to the schedules of teaching, tests, seminars, evaluation and notification of results.
3. All teachers should notify the tentative schedule of teaching and tests of the entire semester, including the dates of tests, dates of score notification and all other schedules, which can be planned in advance.
4. The teachers are expected to adhere to unbiased and objective evaluation and marking of concurrent evaluation scores (internal examinations) which will not only maintain the confidence of the students, but, at the same time, ensure that merit is given due credit.
5. Transparency, objectivity and quality are the key factors that will sustain a good CBCS system.
6. **At the post-graduate level, and in a professional programme, the syllabus is to be looked upon as the bare minimum requirement to be fulfilled and sufficient emphasis shall be laid on contemporary aspects, going beyond the syllabus.**

3.5 Credits

Credit: The definition of 'credits' can be based on various parameters—such as the learning hours put in, learning outcomes and contact hours, the quantum of content/syllabus prescribed for the course.

The credit system requires that a student progresses in the academic programmes not in terms of time (years or semesters), but in terms of courses.

Each course is assigned a certain credit, depending on the estimated effort put in by a student. When the student passes that course, he/she earns the credits associated with that course.

In the Credit system the emphasis is on the **hours put in by the learner and not on the workload of the teacher**. Each credit can be visualized as a combination of **3 components viz. Lecture (L) + Tutorials (T) + Practical / Project Work (P) i.e. LTP Pattern**.

The effort of the learner for each Credit Point may be considered under two parts –

- One part consisting of the hours actually spent in class room / practical / field work instructions and
- The other part consisting of notional hours spent by the Learner in self-study, in the library, peer interactions, case study, writing of journals and assignments, projects etc. for the completion of that course.

Every course offered shall have three components associated with the teaching-learning process of the course, viz.

- Lecture – L : Classroom sessions delivered by faculty in an interactive mode
- Tutorial- T : Session consisting of participatory discussion/ self-study/ desk work/ brief seminar presentations by students and such other novel methods that make a student to absorb and assimilate more effectively the contents delivered in the Lecture sessions
- Practice - P: Practice session /Project Work consisting of Hands-on experience / Field Studies / Case studies that equip students to acquire the much required skill component.

In terms of credits, for a period of one semester of 15 weeks:

- every ONE hour session per week of L amounts to 1 credit per semester*
- a minimum of TWO hours per week of T amounts to 1 credit per semester,*
- a minimum of TWO hours per week of P amounts to 1 credit per semester,*

The teaching / learning as well as evaluation are to be interpreted in a broader perspective as follows:

- Teaching – Learning Processes: Classroom sessions, Group Exercises, Seminars, Small Group Projects, Self-study, etc.
- Evaluation: Tutorials, Class Tests, Presentations, Field work, Assignments, Research papers, Term papers, etc.

A course shall have either or all the three components, i.e. a course may have only lecture component, or only practice component or a combination of any two or all the three components.

The total credits earned by a student at the end of the semester upon successfully completing a course are 'L + T + P'. The credit pattern of the course is indicated as L: T: P.

If a course is of 3 credits then the different credit distribution patterns in L: T: P format could be 3:0: 0, 1:2: 2, 2: 0: 2, 2: 2: 0, etc. In no instance the credits of a course can be greater than the number of hours (per week for 15 weeks) allotted to it.

Full Credit Course: A course with weightage of 3 credits is considered as a full course. (Except for Summer Internship Project and Dissertation which are full credit courses with 4 Credits each.)

Half Credit Course: A course with weightage of 2 credits is considered as a half course.

The MBA programme is a combination of:

- a) Full Credit Courses (100 Marks each) : 3 Credits each
- b) Half Credit Courses (50 Marks each) : 2 Credits each

3.6 Adoption of Credit and Grading System

As per national policy and international practices, we have adopted the Credit and Grading System for the MBA programme w.e.f. AY 2013-14.

3.6.1 Rationale for adoption of the Credit and Grading System:

a) **Learner's Perspective:** The current practice of evaluation of student's performance at the end of a semester is flawed. The students are expected to express their understanding or mastery over the content included in their curriculum for a complete semester within a span of three hours and their efforts over the semester are often completely ignored. It also promotes to an unhealthy practice of cramming before the examinations and focusing on marks rather than on learning.

b) **Evaluation Perspective:** The present system of evaluation does not permit the flexibility to deploy multiple techniques of assessment in a valid and reliable way. Moreover, the current practice of awarding numerical marks for reporting the performance of learners suffers from several drawbacks and is a source of a variety of errors. Further, the problem gets compounded due to the variations in the marks awarded in different subjects. The 'raw score' obtained by the learner, is, therefore, not a reflection of his true ability.

In view of the above lacunae, it is desirable that the marking system used for the declaration of results is replaced by the grading system. The system of awarding grades provides a more realistic picture of learner's ability than the prevailing marking system. *Excellence in quality education can be achieved by evaluating the true ability of the learners with the help of continuous evaluation.*

3.6.2 Salient features of the grading system:

1. In this system, students (learners) are placed in ability bands that represent a range of scores. This ability range may be designated with alphabetical letters called as 'GRADE'.
2. Grading reflects an individual learner's performance in the form of a certain level of achievement.
3. The Grading system ensures natural classification in qualitative terms rather than quantitative terms since it expresses a range /band of scores to which a learner belongs such as O,A,B,C,D,E & F
4. Grades can be interpreted easily and directly and can be used to prepare an accurate 'profile' of a learner.
5. A properly introduced grading system not only provides for a comparison of the learners' performance but it also indicates the quality of performance with respect to the amount of efforts put in and the amount of knowledge acquired at the end of the course by the learners.

3.6.3 Basics of Credit and Grading System: Grading is a method of reporting the result of a learner's performance subsequent to his evaluation. It involves a set of alphabets which are clearly defined and designated and uniformly understood by all the stake holders.

Grading is carried out in a variety of ways. The classification of grades depends upon the reference point.

With 'Approach towards Grading' as the reference point, Grading may be classified as:

- a) **Direct grading:** When the performance exhibited by the examinees is assessed in qualitative terms and the impressions so obtained by the examiners are directly expressed in terms of letter grades, it is called, '*Direct Grading*'.

- b) **Indirect grading:** When the performance displayed by the examinees is first assessed in terms of marks and subsequently transformed into letter grades by using different modes, it is called, '*Indirect Grading.*'

With 'Standard of Judgment', as the reference point Grading may be classified as:

- a) **Absolute grading:** The method that is based on a predetermined standard which becomes a reference point for the learner's performance is called 'Absolute Grading'. This involves direct conversion of marks into grades irrespective of the distribution of marks in a subject.
- b) **Relative grading:** Relative Grading is popularly known as grading on the curve. The curve refers to the normal distribution curve or some symmetric variant of it. This method amounts to determining in advance approximately what percentage of learners can be expected to receive different grades, such as O,A,B,C,D,E,F. In this grading system the grade is not determined by the learner's performance but on the basis of group performance.

Absolute grading has several advantages such as –

- a) the procedure is simple and straightforward to use,
- b) each grade is distinctly understandable,
- c) the learner has the freedom to strive for the attainment of the highest possible grade and
- d) It enables the learners to know their strengths and weaknesses.

The few limitations in Absolute Grading method are that –

- a) The distribution of scores is taken at its face value regardless of the errors of measurement creeping in due to various types of subjectivity.
- b) Besides, the cut-offs of different categories are also arbitrarily decided.

It is proposed to use the **Indirect and Absolute Grading System for the MBA programme**, i.e. the assessment of individual Courses in the concerned examinations will be on the basis of marks, but the marks shall later be converted into Grades by a defined mechanism wherein the overall performance of the Learners can be reflected after considering the Credit Points for any given course. However, the **overall evaluation shall be designated in terms of Grade.**

3.7 Session Duration: Each teaching-learning, evaluation session shall be of 60 minutes. However, institutes shall have the flexibility to define their time slots in a manner as to use their faculty and infrastructure resources in the best possible way. Batch size for tutorials shall be 50% of the normal class size, subject to a minimum of 30 students.

3.8 Courses Offered: Institutes are free to offer only a *select number of specializations* from amongst the list provided by the University. Likewise, institutes may provide only a *sub-set of the generic electives, subject electives* as prescribed semester-wise in the Programme structure.

However, it shall be mandatory for the Institutes to provide all information relating to the specializations offered, generic electives, subject electives, their respective credits, evaluation pattern, etc. to all the students so as to enable them to make an informed choice. Such information should be hosted on the website/prospectus of the Institute in sufficient advance, prior to commencement of the classes. Other information such as the credits, the prerequisites, and syllabus shall also be hosted on the website of the institute.

3.9 Registration: *It is mandatory for every student, to register every semester, for the courses opted under CBCS system, for that semester.*

Such registration forms the basis for a student to undergo concurrent evaluation, online evaluation and end-semester examination. Application forms for University examinations are to be filled up based on the choices finalized during the registration process and submitted to the University along with the prescribed examination fee.

3.9.1 Registration Process:

- i. Each student, on admission shall be assigned to a **Faculty Advisor** who shall advise her/him about the academic programs and counsel on the choice of courses considering the student's profile and career objectives.
- ii. With the advice and consent of the Faculty Advisor the student shall register for a set of courses he/she plans to take up for the Semester.
- iii. The student should meet the criteria for prerequisites, if defined for a course, to become eligible to register for that course.
- iv. The Institute shall follow a selection procedure on a first come first served basis, determining the maximum number of students, giving counseling to the students, etc., to avoid overcrowding to particular course(s) at the expense of some other courses.
- v. It is expected that a student registers for 26 credits in SEM I and II each, 27 Credits in SEM III each and balance 21 credits in Sem IV.
- vi. However fast learners (under accelerated plan), may be permitted to register for 2 full credit / 3 half credit courses in excess of the normal credits defined for a semester. However, registration for Repeat courses (backlogs) is allowed in excess of this limit.
- vii. Likewise, slow learners, may be permitted to register for 2 full credit / 3 half credit courses less than the normal credits defined for a semester.
- viii. A candidate may register for a minimum of say, 20 credits per semester, but it is possible that he/she may earn less than 20 credits in a semester. It may be theoretically possible that he/she may just earn ZERO credits in a semester. However, he/she should register for credits less than or equal to permissible maximum and more than or equal to permissible minimum per semester, excluding the courses of earlier semester(s), for which he/she has not earned the credits (uncleared courses) if any.
- ix. Students shall have to register for the courses for the semester within first week of Semester I and immediately after conclusion of the earlier term for Semester II, III and IV. i.e. The fresh inducted batch shall register for various courses at the end of the first week of their Sem I after their induction. They will register for Semester II courses immediately at the end of Semester I and likewise for subsequent semesters. In Semester I the registration window shall be open for sufficiently long duration to take care of late admissions.
- x. The maximum number of students to be registered in each elective course shall depend upon the physical facilities available. Every effort shall be made by the Institute to accommodate as many students as possible.
- xi. Students who do not earn credits for an elective course (generic / subject / open) are permitted to opt for another elective course (generic / subject / open) in case they feel to do so. In such a case they shall be said to have **dropped the original course and opted for a new one**. Alternatively, they are permitted to continue with the same elective course (generic / subject / open) i.e. If a student secures a F Grade in say course no 111 for which he has opted in Sem I, during the successive attempt he may drop course 111 and take up another course from 107 to 115, or continue with 111.
- xii. Normally, every Lecture-based course shall, be delivered by one teacher.
- xiii. The Institute may not offer a course if a minimum of 20% of students is not registered for that course.

4. Eligibility: The eligibility for admissions shall be defined by the Competent Authority viz. AICTE / DTE Maharashtra State for the relevant academic year.

5. Examination:

Pattern of Examination: The evaluation scheme comprises of:

- a) University Evaluation
- b) Concurrent Evaluation

For each full credit course –

- a) 70 marks shall be evaluated by the University and
- b) 30 marks shall be evaluated by the respective Institute.

For each half credit course –

- a) 50 marks shall be evaluated by the respective Institute.
There shall not be any University evaluation for half credit courses.

(Evaluation Scheme for Summer Internship Project is detailed separately.)

5.1 University Evaluation

There shall be University evaluation for each full credit course as per the time table announced by the University. The evaluation by the University for Full Credit Courses shall comprise of two parts:

- a) Online Examination for 20 marks.
- b) Written Examination (subjective – concept plus case study / application oriented type) for 50 marks.

5.1.1 Online Examination

The Savitribai Phule Pune University shall conduct an online examination for each full credit course. This examination will be *objective* in nature and shall carry a *weightage of 20 marks per full credit course*. Students will appear for the online examinations in their respective institutes. Online examination shall constitute a *separate head of passing* for the full credit courses for which such online examination is scheduled passing shall be at 30%. The student does NOT have a facility of Grade Improvement, in online examination, if he/she has secured any grade other than F.

The Online Examination will be conducted prior to one week before the start of theory examination of each semester. The Controller of Examinations of the Savitribai Phule Pune University shall announce the *online examination window of 6 days per semester* i.e. a window of 6 days for Semester I and another window of 6 days for Semester III (in term I and likewise for term II. The number of days will vary as per number of courses) for the examination, *in consultation with the Dean – Faculty of Management*. The online test shall be conducted for all 4 semesters during each term.

There shall NOT be any retest for those students who are absent for the online exam during the declared examination window period. Any student, who *is absent* for the online test during the regular term, can take the online test for the specific course in the next term and his grades evaluation shall be updated accordingly in the revised **Grade Card**.

The date declared by DTE for commencement of classes as per CAP process shall be the reference date for Semester I. Only for Semester I, in case of unforeseen circumstances the Controller of Examinations (CoE), Savitribai Phule Pune University, in consultation with the Dean of the Faculty of Management may postpone the examinations for Semester I.

For Semester II, III and IV the reference date shall be the term commencement date declared by the SPPU.

The *syllabus for the online examination shall be all 5 units in each full credit course*. The duration of online examination for each course shall be of 25 minutes.

There shall be **one mark for each correct response**. There shall be no negative marking for wrong response. **There shall be 20 questions – each carrying one mark. All the questions shall be compulsory.** The questions shall be of different variety within the objective format. In the extreme event of a student answering all the questions incorrectly, the final score of such a student for that course for the online examination shall be 0 (ZERO).

The Faculty of Management shall devise objective question bank comprising questions of varying degree of difficulty, and of different types, in sufficiently large number for each course for the exclusive purpose of the online examination. *The objective question paper shall be developed in real time, randomly using an ERP / Learning Management System.*

The Institutes shall ensure the provision of necessary IT infrastructure and internet bandwidth, backup power supply, for the smooth conduct of such online examination.

The score of each candidate for each course shall be known immediately after the conclusion of the online test and the Institute shall display the scores of all students for the online test within 3 days of the completion of the test.

5.1.2 Instructions to External Paper Setters / Chairman/ Examiners: The syllabus for each course is organized in 5 units. The end-semester University evaluation shall cover the entire syllabus prescribed for the course. For University evaluation (Written Examination – subjective type of 50 marks) of each full credit course, the question pattern shall be as follows:

Pattern of Question Paper:

- 1) There shall be five questions each of 10 marks.
- 2) All questions shall be compulsory with internal choice within the questions. i.e. There shall be 2 questions from each unit of the curriculum with an internal option.
- 3) A Question may be subdivided into sub-questions a, b, c... and the allocation of marks depend on the weightage of the topic.

ILLUSTRATIVE PATTERN OF QUESTION PAPER	
Q. 1 (A).....	based on Unit 1
OR	
Q.1 (B)	based on Unit 1
Q.2. (A)	based on Unit 2
OR	
Q.2 (B)	based on Unit 2
Q.3 (A)	based on Unit 3
OR	
Q.3 (B)	based on Unit 3
Q.4 (A)	based on Unit 4
OR	
Q.4 (B)	based on Unit 4
Q.5 (A)	based on Unit 5
OR	
Q.5 (B)	based on Unit 5

Questions shall assess knowledge, application of knowledge, and the ability to synthesize knowledge. The paper setter shall ensure that questions covering all skills and all units are set. She/he shall also *mandatorily submit* a detailed scheme of evaluation along with the question paper. Questions shall be of three categories of difficulty level – low difficulty, average difficulty and high difficulty.

The duration of written examination shall be 2½hours. Students shall be provided a single answer sheet of 16 pages.

5.2 Concurrent Evaluation: A continuous assessment system in semester system (also known as internalassessment/comprehensive assessment) is spread through the duration of course and is done by the teacher teaching the course.

The continuous assessment provides a feedback on teaching learning process. The feedback after being analyzed is passed on to the concerned student for implementation and subsequent improvement. As a part of concurrent evaluation, the learners shall be *evaluated on a continuous basis* by the Institute to ensure that student learning takes place in a graded manner.

Concurrent evaluation components should be designed in such a way that the faculty can *monitor the student learning & development and intervene wherever required*. The faculty must share the outcome of each

concurrent evaluation component with the students, soon after the evaluation, and guide the students for betterment.

Individual faculty member shall have the flexibility to design the concurrent evaluation components in a manner so as to give a balanced assessment of student capabilities across Knowledge, Skills & Attitude (KSA) dimensions based on variety of assessment tools.

Suggested components for Concurrent Evaluation (CE) are:

1. Case Study / Caselet / Situation Analysis – (Group Activity or Individual Activity)
2. Class Test
3. Open Book Test
4. Field Visit / Study tour and report of the same
5. Small Group Project & Internal Viva-Voce
6. Learning Diary
7. Scrap Book
8. Group Discussion
9. Role Play / Story Telling
10. Individual Term Paper / Thematic Presentation
11. Written Home Assignment
12. Industry Analysis – (Group Activity or Individual Activity)
13. Literature Review / Book Review
14. Model Development / Simulation Exercises – (Group Activity or Individual Activity)
15. In-depth Viva
16. Quiz
17. Student Driven Activities
18. News paper reading

There shall be a *minimum of three concurrent evaluation components per full credit course and five concurrent evaluation components for each half credit course*. The faculty shall announce in advance the units based on which each concurrent evaluation shall be conducted. Each component shall ordinarily be of 10 marks. The Institute shall however have the liberty to conduct additional components (beyond three/five). However the total outcome shall be scaled down to 30/50 marks for full credit and half credit courses respectively. Marks for the concurrent evaluation must be communicated by the Institute to the University as per the schedule declared by the University. Detailed record of the Concurrent Evaluation shall be maintained by the Institute. The same shall be made available to the University, on demand.

At the end of Concurrent Evaluation (out of 30/50 marks) the student does NOT have a facility of Grade Improvement, if he/she has secured any grade other than F.

5.2.1 Safeguards for Credibility of Concurrent Evaluation: The following practices are encouraged to enhance transparency and authenticity of concurrent evaluation:

- a) Involving faculty members from other management institutes.
- b) Setting multiple question paper sets and choosing the final question paper in a random manner.
- c) One of the internal faculty members (other than the course teacher) acting as jury during activity based evaluations.
- d) Involvement of Industry personnel in evaluating projects / field based assignments.
- e) Involvement of alumni in evaluating presentations, role plays, etc.
- f) 100% moderation of answer sheets, in exceptional cases.

5.3 Summer Internship Project: At the end of Second Semester each student shall undertake a Summer Internship Project (SIP) for 8 weeks. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP. The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. Ideally the SIP should exhibit a cross-functional

orientation. The student shall submit a written structured report based on work done during this period on the basis of suggested guidelines and research methodology.

SIP may be a research project – based on primary/ secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace. The learning outcomes and utility to the organization must be specifically highlighted.

The report should be well documented and supported by:

1. Introduction/ Executive Summary.
2. Objectives of the Study.
3. Company/ Organization profile (including Organization Chart).
4. Research Methodology (Statement of Problem, Hypothesis (if any), Research Design.
5. Data analysis, Data Interpretation & Hypothesis Testing.
6. Relevant activity charts, tables, graphs, diagrams, etc.
7. Suggestions & Recommendations.
8. Conclusions.
9. References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)
10. Appendix (Questionnaire, Data Sheets etc.)

It should reflect the nature and quantum of work undertaken by the student. The report must reflect 8 weeks of work and justify the same.

The student shall submit TWO hard copies & one soft copy (CD) of the project report before 30th September in Semester III. One hard copy is to be returned to the student by the Institute after the External Viva-Voce.

The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks. The Panel shall comprise of the Internal Faculty Guide & One additional faculty nominated by the Director.

There shall be an external viva-voce for the SIP for 50 marks. The examiner's panel for the same shall include one external faculty member nominated by the University and one internal faculty member nominated by the Director. The external viva-voce shall be conducted for 15 minutes at least per student.

The Internal & the External viva-voce shall evaluate the project based on:

1. Actual work undertaken by the student
2. Student's understanding of the organization and business environment
3. Outcome of the project
4. Utility of the project to the organization
5. Basic analytical capabilities

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

5.4 Dissertation: In Semester IV the student shall work under the supervision of the Faculty and carry out a dissertation and submit a structured report in TWO hard copies & one soft copy (CD). In the interest of environmental considerations, students are encouraged to print their dissertation reports on both faces of the paper.

The student is required to conduct advanced research on a topic related to one (or more) of contemporary issues in management. The topic is chosen in consultation with the student's supervisor.

The student will prepare and present a detailed research proposal prior to starting the work. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic before commencing the dissertation work. A dissertation outlining the entire problem, including a survey of literature and the various results obtained along with their solutions is expected to be produced. The student must submit the completed dissertation and make an oral presentation of the same. Through the dissertation, the student is expected to furnish evidence of competence in understanding varied aspects of the theme/topic selected and a deep understanding of the specialty area. The completion of the dissertation / project shall be certified by the Faculty Guide & approved by the Director of the Institute.

The student can undergo desk research or field research and can follow the guidelines mentioned in the SIP for preparation of their final hard copy.

5.5: Standard of Passing:

Degree Requirements:

- Earned Credits:** A candidate who has successfully completed all the Core courses and accumulated, through elective courses, not less than minimum number of Credits prescribed shall be eligible to receive the Degree. The degree requirements for the MBA programme are completion of 100 earned credits.
- Final Grade Point Requirement:** A student must obtain the Final Grade Point of a minimum of 00.50 to be eligible for award of the MBA degree.
- Aggregate:** If a student fails to secure **aggregate 40% marks** out of 100 [concurrent evaluation (30) + online evaluation (20) + university evaluation (50)], such students will have to appear for University theory examination (50) only.

The performance of a student will be evaluated in terms of two indices, viz.

- Semester Grade Point Average (SGPA)* which is the Grade Point Average for a semester
- Cumulative Grade Point Average (CGPA)* which is the Grade Point Average for all the completed semesters at any point in time.

Semester Grade Point Average (SGPA): At the end of each semester, SGPA is calculated as the weighted average of GPI of all courses in the current semester in which the student has passed, the weights being the credit values of respective courses.

SGPA = Grade Points divided by the summation of Credits of all Courses.

$$SGPA = \frac{\sum \{C * GPI\}}{\sum C} \text{-----for a semester.}$$

Where GPI is the Grade and C is credit for the respective Course.

Cumulative Grade Point Average (CGPA): Cumulative Grade Point Average (CGPA) is the grade point average for all completed semesters. CGPA is calculated as the weighted average of all GPI of all courses in which the student has passed up to the current semester.

Cumulative Grade Point Average (CGPA) for the Entire Course

$$CGPA = \frac{\sum \{C * GPI\}}{\sum C} \text{-----for all semesters taken together.}$$

Where GPI is the Grade and C is credit for the respective Course.

5.5.1 Assessment and Grade Point Average

- a. The system of evaluation will be as follows: Each CA and ESE (ETE) will be evaluated in terms of marks. The marks for CA and ESE (ETE) will be added to convert into a grade and later a grade point average. There is no grade independently for CA or ESE (ETE).
- b. Result of a student will be declared for each semester after the ESE (ETE) only.
- c. The student will get a Grade Sheet with total grades earned and a Grade Point Average, after earning the minimum number of credits towards the completion of a PG program (subject to 3.9).
- d. Marks/Grade/Grade Point w.e.f. AY 2015-16 (10 Point Scale):

Marks	Grade	Grade Point
80-100	O: Outstanding	10
70-79	A+: Excellent	9
60-69	A: Very Good	8
55-59	B+: Good	7
50-54	B: Above Average	6
45-49	C: Average	5
40-44	P: Pass	4
0-39	F: Fail	0
-	Ab: Absent	0

Following will be applicable for all those who are admitted before the AY 2015-16 till they complete the PG program (subject to 3.9).

Marks	Grade	Grade Point
100-75	O: Outstanding	06
74-65	A: Very Good	05
64-55	B: Good	04
54-50	C: Average	03

49-45	D: Satisfactory	02
44-40	E: Pass	01
39-0	F: Fail	00

e. Final Grade w.e.f. the AY 2015-16 (10 Point Scale):

Grade Point Average	Grade
09.00-10.00	O
08.50-09.00	A+
07.50-08.49	A
06.50-07.49	B+
05.50-06.49	B
04.25-05.49	C
04.00-04.24	P
00.00-03.99	F

Remark: B+ is equivalent to 55% marks and B is equivalent to 50% marks.

Following will be applicable for all those who are admitted before the AY 2015-16 till they complete the PG program (subject to 3.9).

Grade Point Average	Grade
05.00-6.00	O
04.50-04.99	A
03.50-04.49	B
02.50-03.49	C
01.50-02.49	D
00.50-01.49	E

00.00-00.49	F
-------------	---

f. 'B' Grade is equivalent to atleast 55% of the marks as per circular No.UGC- 298/[4619]UNI- 4 dated December 11, 1999. (Not applicable for 10 point scale)

g. A seven point grade system [guided by the Government of Maharashtra Resolution No. NGV-1298/[4619]/UNI.4 dt. December 11, 1999 and the University regulations] will be followed uniformly for Science, Arts, Mental, Moral and Social Sciences. The corresponding grade table is detailed in II.14 above. (Not applicable for 10 point scale)

h. If the GPA is higher than the indicated upper limit in the three decimal digit, then higher final grade will be awarded (e.g. a student getting GPA of 4.492 may be awarded 'A' grade). (Not applicable for 10 point scale)

i. There will be only final compilation and moderation at GPA (Final) level done at the Department. While declaring the result, the existing relevant ordinances are applicable. There is also a provision for verification and revaluation, subject to the applicable rules at that point of time.

j. For grade improvement, 2 year program student will have to reappear for ESE (ETE) only in the courses comprising a minimum of 30 credits in case of Science, Engineering, Technology, Management and Pharmacy; 20 credits for other faculties and 12 credits in case of one year degree program. These courses will be from the parent Department only in which the student has earned the credits. A student can opt for the Grade Improvement Program only after the declaration of earning minimum number of credits and completion of the PG Program (subject to 3.9) within the period of two years from the completion of program.

k. The formula for GPA will be based on Weighted Average. The final GPA will not be printed unless a student passes courses for the minimum 100 credits, 80 credits or 64 credits as the case may be.

l. The description for the grades is as follows:

O: Outstanding: Excellent analysis of the topic, (80% and above)

Accurate knowledge of the primary material, wide range of reading, logical development of ideas, originality in approaching the subject, Neat and systematic organization of content, elegant and lucid style;

A+ : Excellent : Excellent analysis of the topic (70 to 79%) Accurate knowledge of the primary material, acquaintance with seminal publications, logical development of ideas, Neat and systematic organization of content, effective and clear expression;

A: Very Good: Good analysis and treatment of the topic (60 to 69%) Almost accurate knowledge of the primary material, acquaintance with seminal publications, logical development of ideas, Fair and systematic organization of content, effective and clear expression;

B+: Good: Good analysis and treatment of the topic (55 to 59%)

Basic knowledge of the primary material, logical development of ideas, Neat and systematic organization of content, effective and clear expression;

B: Above Average: Some important points covered (50 to 54%)

Basic knowledge of the primary material, logical development of ideas, Neat and systematic organization of content, good language or expression;

C: Average: Some points discussed (45 to 49%)

Basic knowledge of the primary material, some organization, acceptable language or expression;

P: Pass: Any two of the above (40 to 44%)

F: Fail: None of the above (0 to 39%)

- One credit is equivalent to 20-25 marks for evaluation purpose.
- There will be an evaluation of each course by students at the end of every semester.

5.5.2 Scaling Down of Concurrent Evaluation Scores: The marks obtained by the student for the Concurrent Evaluation components conducted by the Institute (i.e. out of 30 marks), in the Full Credit Courses, in Sem I to Sem IV, shall be scaled down, to the required extent, if percentage of the marks of Concurrent Evaluation exceeds the percentage of marks scored in the end semester University Examination by 25% for the respective course. i.e. (percentage of marks scored out of 50 in university evaluation) – (percentage of marks scored out of 30 in concurrent evaluation) should not exceed 25%. Scores of Online Examination are not part of the scaling down formula.

The marks obtained by the student in Half Credit Courses are **not subject to** scaling down. Likewise, the marks obtained by the student in Concurrent Evaluation for the Summer Internship Project (Course 304) shall **not be** subjected to Scaling down.

5.5.3 Attendance: The student must meet the requirement of 75% attendance per semester per course for granting the term. The Director shall have the right to withhold the student from appearing for examination of a specific course if the above requirement is not fulfilled.

Since the emphasis is on continuous learning and concurrent evaluation, it is expected that the students study all-round the semester. *Therefore, there shall not be any preparatory leave before the University examinations.*

5.6 ATKT Rules: A student shall earn the credits for a given course in **maximum four attempts**. If a student drops a course (generic elective / subject elective) and opts for another course in lieu of the dropped course the attempts utilized for the dropped course shall be included in the maximum 4 attempts available to earn the credits for a course. The facility of dropping a course and opting for a new course in lieu of the dropped course shall be availed by the student only once during these four attempts available to him. A student may drop at the most 2 courses out of the 16 elective courses and select other courses in lieu of dropped courses. i.e. Dropping a course can be done only twice.

Maximum Duration for completion of the Programme: The candidates shall complete the MBA Programme within 4 years from the date of admission, by earning the requisite credits. The student will be finally declared as failed if she/he does not pass in all credits within a total period of four years. After that, such students will have to seek fresh admission as per the admission rules prevailing at that time.

5.7 Award of Grade Cards: The Savitribai Phule Pune University under its seal shall issue to the student a grade card on completion of each semester. The final Grade Card issued at the end of the final semester shall contain the details of all courses taken during the entire programme for obtaining the degree.

NOTE:

The Grade Card for the final semester shall indicate the following, amongst other details:

- a) Grades for concurrent evaluation (out of 30 for Full Credit Courses & out of 50 for Half Credit Courses), Online evaluation (out of 20 for Full Credit Courses only) and University evaluation (out of 50 for Full Credit Courses only), separately, for all courses offered by the student during the entire programme along with the grade for the total score.
- b) SGPA for each semester.
- c) CGPA for final semester.
- d) Total Marks Scored out of Maximum Marks for the entire programme, with break-up of Marks Scored in Concurrent Evaluation and University Evaluation (Semester Wise).
- e) Marks scored shall not be recorded on the Grade Card for intermediate semesters.
- f) The grade card shall also show the 7 point scale and the formula to convert GPI, SGPA, and/or CGPA to percent marks.
- g) The final GPA shall not be printed unless the student earns the minimum 100 credits required for earning the MBA Degree.
- h) B Grade is equivalent to atleast 55% marks.
- i) If the GPA is higher than the indicated upper limit in the three decimal digit, then the student may be awarded higher final grade e.g. a student getting a GPA of 4.492 may be awarded grade A. The grade card shall also provide, on the reverse, the 10-point scale and the formula to convert GPI, SGPA, and/or CGPA to percent marks.

5.8 Grade Improvement: A Candidate who has secured any grade other than F (i.e. passed the MBA programme) and desires to avail the Grade Improvement facility, may apply under Grade Improvement Scheme within five years from passing that Examination. He/she can avail not more than three attempts, according to the syllabus in existence, for grade improvement. He /she shall appear for University Evaluation of at least 1/3rd Generic / Subject Core Courses (except SIP) for the purpose of Grade Improvement.

5.9 External Students: MBA being a full time programme, there is no provision of external students.

5.10 Verification / Revaluation: Students can avail the verification / revaluation facility as per the prevailing policy, guidelines and norms of the Savitribai Phule Pune University. There shall be Revaluation of the answer scripts of Semester-End examination but not of internal assessment papers as per Ordinance no.134 A & B.

5.11 Additional Specialization: A student may enroll for additional specialization *after passing out the regular MBA programme*. Such students will get exemption from all the generic core and generic elective courses in First Year (Semester I and II) and generic core courses in Second Year (Semester III and IV). Such students shall have to appear for the subject core and subject elective courses i.e. 2 Full Credit Courses & 4 Half Credit Courses in Semester III and IV each. i.e. a total of 12 subject electives (specialization) courses of which 4 are full credits and 8 are half credits.

1. **Structure of the Programme:** The programme is a combination of:

- a) Full Credit Courses (100 Marks each) : 3 Credits each
- b) Half Credit Courses (50 Marks each) : 2 Credits each

Total Credits: 100 Credits (3000 Marks), Total Courses = 38

- a) 20 Full Credit Courses * 3 credits per course = 60 Credits (2000 Marks)
- b) 1 Full Credit Course SIP (Full Credit) = 4 Credits (100 Marks)
- c) 16 Half Credit Courses * 2 credits per course = 32 Credits (800 Marks)
- d) 1 Dissertation (Full Credit) = 4 Credits (100 Marks)

The spread of courses across the 4 semesters for a normal learner is given below.

Table III: Break Up & Spread of Courses

Spread of Full & Half Credit Courses:

Semester	Full Credit Courses (100 Marks) (A)	Half Credit Courses (50 Marks) (B)
I	6	4
II	6	4
III	5	4
III	1 (SIP for 4 Credits)	-
IV	3	4
IV	1 (Dissertation for 4 Credits)	-
Total	22	16

Break Up of Full Credit Courses:

Semester	Number of Generic Core Courses (A)	Number of Subject (Specialization) Core Courses (B)	Total Number of Full Credit Courses (100 Marks) (C = A + B)
I	6	0	6
II	6	0	6
III	4**	2	6**
IV	2	2	4
Total	18	4	22

** includes SIP & Dissertation for 4 Credits & 100 Marks each.

Break Up of Half Credit Courses:

Semester	Number of Generic Elective Courses (A)	Number of Subject (Specialization) Elective Courses (B)	Total Number of Half Credit Courses (50 Marks) (C = A + B)
I	4	0	4
II	4	0	4
III	0	4	4

IV	0	4	4
Total	8	8	16

Detailed Programme Structure is provided in Annexure I.

6.1 Pedagogy: It is expected that the faculty members adopt a variety of teaching methodologies, such as case studies, role-play, problem-solving exercises, group discussion, computer simulation games, etc. during the programme delivery. Use of technology and innovative techniques beyond the lecture method is desirable.

MBA being a post-graduate professional Programme, students are also expected to assimilate certain topics through self-study.

6.2 Medium of Instruction: The medium of Instruction & Evaluation shall be English.

6.3. Equivalence of previous syllabus with the proposed syllabus: The equivalence of the previous syllabus with the proposed syllabus shall be announced separately.

6.4. University Terms: The dates for the commencement and conclusion of the first and the second terms shall be as determined by the University Authorities. The terms can be kept only by duly admitted students. The present relevant ordinances pertaining to grant of terms will be applicable.

6.5. Course wise detailed syllabus: Course wise detailed syllabus along with recommended text books, reference books, websites, journals, etc. is provided in Annexure II.

6.6. Qualifications of Teacher: The qualifications of the full time teacher for the MBA Programme shall be as per the norms prescribed by AICTE and SPPU from time to time.

6.7. Teacher Capacity Building: The faculty of management shall organize suitable programmes for capacity building of teachers.

7. Modus Operandi of Evaluation under Credit System- 2 years programs

7.1 Each regular student will normally appear for all the 25% credits in a semester out of the minimum number of credits required to obtain a degree.

7.2 A student who wishes to register to the third /fourth semester should have gained at least 50% credits out of the total number of credits offered at the first and second semester of the first year.

7.3 Evaluation of each credit will be in two parts, namely CA and ESE (ETE).

7.4 A course may be of 1 or 2 or 3 or 4 or 5 credits.

7.5 The evaluation of a course means the evaluation of total number of credits of that course. As such, all the credits taken together of a particular course will be evaluated in two parts CA and ESE (ETE).

7.6 Weightage for CA would be 50% and for ESE (ETE) would be 50%.

7.7 A course will be evaluated in the form of 50 marks for CA and 50 marks for ESE (ETE).

7.8 A student will gain all the credits of a course after having obtained minimum 40 marks from CA(minimum 15 out of 50) and ESE (ETE) (minimum 15 out of 50) taken together and will get the respective grade and

grade points in the respective course. Otherwise, a student will get grade F (Fail) in that respective course and will not gain any credits or grade points towards that course.

7.9 CA: The teacher would evaluate a student towards a course through interaction throughout the semester which would include one or more (but not less than 4 including compulsory written test/s) of the following mechanisms with their maximum weightage out of 50 marks and this essentially enables the teacher to get positive feedback about a student's overall understanding/ability and in nutshell enhances the teaching-learning process.

a. Written test – Max 2 with not more than 15 marks for each

b. Assignment – Max 2 with not more than 5 marks for each

c. Seminar presentation – 5 marks (not for all the students)

d. Group discussion – 5 marks (not for all the students)

e. Extension work – 5 marks (not for all the students)

f. An open book test – 10 marks (to be conducted in a classroom for not more than 3 questions)

g. Report/Note on research paper/s or study tours – 5 marks (not for all the students and to be presented in the respective class)

- A teacher may propose any other mean towards CA (other than written test) that may suit for a particular course and implement only after the approval of the Departmental Committee constituted and approved by the HoD/Principal/Director.

7.10 If a student could not attend the CA written test due to some unavoidable reasons then the teacher may consider a request for retest in writing with furnishing the reason of absence.

7.11 If a student failed to gain the credits of any course (declared F grade in that course) then the student can reattempt the course with CA (if the course is conducted in that semester) and ESE (ETE) both or with ESE (ETE) only (if one has scored 15 in CA) in the subsequent ESEs(ETEs) (max. two such attempts) within a period of 4 years (5 for 3 years programs) from the date of admission for the first semester.(subject to 3.9)

7.12 In case a student failed to earn the minimum number of credits required for obtaining a degree within the stipulated period of 4 years (5 years for 3 years programs) then such a student will be declared INCOMPLETE EXIT and in such a case the student can seek a fresh admission as per the admission rules prevailing at that time.

7.13 The policies and procedures determined by the SPPU from time to time will be followed for the conduct of examinations and declaration of the result of a candidate.

7.14 ESE (ETE): Each credit will be evaluated for a maximum period of 45 minutes. The following would be an outline for setting the question paper for ESE (ETE).

Credits	Duration	Questions to be attempted	Number of subquestions	Marks for subquestions
1	45 min	1 out of 2	3 (for 2 subquestions)	4+3+3 or 5+3+2 or

				4+4+2
2	90 min	3 out of 5	3 (for 3 subquestions)	4+3+3 or 5+3+2 or 4+4+2
			2 (for 2 subquestions)	5+5
3	150 min	4 out of 6	2 (for 4 subquestions)	4+3+3 or 5+3+2 or 4+4+2
			2 (for 2 subquestions)	5+5
4/5	180 min	5 out of 8	3 (for 6 subquestions)	4+3+3 or 5+3+2 or 4+4+2
			2 (for 2 subquestions)	5+5

Note: A question paper for PG program course of 3/4/5 credits under any Faculty other than Science, Engineering, Technology, Management and Pharmacy may contain a question of 10 marks(1 out of 2) without a subquestion.

8. Examination Rules

8.1 Assessment shall consist of CA-Continuous assessment and ESE (ETE)-End of Semester(Term) Examination with an equal weightage of 50%.

8.2 The concerned teacher is responsible for conduct and evaluation towards CA and shall announce at the beginning of the course about the mechanisms under which CA would take place. However, the ESE (ETE) shall cover the entire syllabus prescribed for that course.

8.3 The CA towards 50% marks will be a continuous activity and at least two written tests (for 60-80% marks out of CA marks) must be conducted in addition to at least two following mechanisms (for 20-40% marks out of CA marks) for a full course of 4/5 credits.

Journal/Lecture/Library notes, Short Quizzes, Seminar presentation, Assignments, Extension Work, An Open Book Test (book to be decided by the concerned teacher), Mini Research Project by an individual student or a group of students

A teacher may devise a mechanism other than written test in addition to above in order to flourish the course contents.

a) It is mandatory for a teacher to hand over the assessed answer sheets to the respective students well before the commencement of the ESE (ETE).

b) It is also mandatory to declare the score gained by all the students in a course towards CA on the notice board duly signed by the concerned teacher of the course and the HoD/Principal/Director.

8.4 ESE (ETE) for the remaining 50% marks will be conducted by SPPU.

8.5 A student has to obtain 40 % marks taken together of CA and ESE (ETE) with a minimum of 30% in each of these separately.

8.6 A student will have to obtain a minimum aggregate of 40% marks in each course to be counted for the minimum number of credits required for the completion of the program.

8.7 If a student misses an internal assessment examination he/she will have a second chance with the endorsement of the HoD/Principal/Director in consultation with the concerned teacher. Such a second chance shall not be the right of the student.

8.8

a) If a student is declared as "PASS" in a course (Grade other than F), then the student cannot choose/reappear that course unless appearing under "CLASS/GRADE IMPROVEMENT" for ESE (ETE) only.

CA is not available for a course in which the student has been declared as "PASS".

b) If a student is declared as "FAIL" (Grade F) in a course, then the student is allowed to choose such a course, with CA and ESE (ETE) both, only in a semester in which the course is conducted, irrespective of the previous score in CA. Otherwise, the student may appear only for ESE (ETE) in that course in any of the following/forthcoming semester, provided that the student has scored at least 15% of the total 100% (or 30% of the 50% of the total marks) in CA.

Explanation:

X=100%

CA Score	ESE/ ETE Score	CA+ ESE/ ETE	Result
>= 15% of X	>= 15% of X	>=40% of X	Pass / Earned Credits with Grade
>= 15% of X	>= 15% of X	<40% of X	Fail/ No Credits Earned

c) In case of 3.8(b), the maximum duration available to register/reappear for a course will be as follows.

2 years PG Program – Up to 4 (four) years (i.e. *if a student is registered/admitted for first semester in 2013-14, then the student is allowed to register/reappear up to second semester in 2016-17*)

3 years PG Program – Up to 5 (five) years (i.e. *if a student is registered/admitted for first semester in 2013-14, then the student is allowed to register/reappear up to second semester in 2017-18*)

d) In the case of 3.8(b), the number of attempts (excluding registered for first time) available to Register/reappear for the course would be 3(three) only, subject to 3.8(c).

e) In an exceptional case, if there are sufficient number of students who wish to register for a course for CA and ESE (ETE) both in which they are failed, then such a course can be conducted in the immediate following semester only, in addition to the courses conducted in that semester. However, there cannot be more than two such courses at a time in that semester.

8.9 The student will be finally declared as failed if the minimum numbers of credits are not earned within a total period of Four and Five years respectively for 2 years PG Program and 3 years PG Program. After that, such a student will have to seek fresh admission as per the admission rules prevailing at that time.

8.10 A student cannot register for the third/fourth semester, if she/he fails to complete 50% credits of the total credits expected to be ordinarily completed within two semesters.

8.11 There shall be a revaluation of the answer scripts of ESE (ETE) as per Ordinance No.134 A & B, but not of CA.

8.12 While marks will be given for all examinations, they will be converted into grades. The Semester End Grade sheets will be generated by using marks and grades and the final grade sheets and transcripts shall have grade points average and total percentage of marks (up to two decimal points). The final grade sheet will also indicate the PG Department/Center to which the candidate is registered.

Annexure I - Detailed Programme Structure

Table IV – A: Generic Core Courses

	Generic Core Courses	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
101	Accounting for Business Decisions	3	I	30	20	50	100
102	Economic Analysis for Business Decisions	3	I	30	20	50	100
103	Legal Aspects of Business	3	I	30	20	50	100
104	Business Research Methods	3	I	30	20	50	100
105	Organizational Behaviour	3	I	30	20	50	100
106	Basics of Marketing	3	I	30	20	50	100
201	Marketing Management	3	II	30	20	50	100
202	Financial Management	3	II	30	20	50	100
203	Human Resource Management	3	II	30	20	50	100
204	Decision Science	3	II	30	20	50	100
205	Operations & Supply Chain Management	3	II	30	20	50	100
206	Management Information Systems	3	II	30	20	50	100
301	Strategic Management	3	III	30	20	50	100
302	Enterprise Performance Management	3	III	30	20	50	100
303	Startup and New Venture Management	3	III	30	20	50	100
304	Summer Internship Project	4	III	50	00	50	100
401	Managing for Sustainability	3	IV	30	20	50	100
402	Dissertation	4	IV	50	00	50	100

Note: Each Generic Core Course is a Full Credit course of 45 hours. Out of 45 hours 35 hours shall be devoted to teaching – learning sessions and 10 hours for evaluation/projects.

30 marks shall be reserved for concurrent evaluation to be carried out by the Institute, 20 marks for online mid-term evaluation to be conducted by the University and 50 marks shall be term end written examination to be conducted by the University.

Course 304 - SIP shall have 4 Credits and 100 marks. (50 Marks for Concurrent Evaluation & 50 Marks for University Evaluation)

Course 402 – Dissertation shall have 4 Credits and 100 marks. (50 Marks for Concurrent Evaluation & 50 Marks for University Evaluation)

Table IV – B: Generic Elective Courses

	Generic Elective Courses	Credits	Semester	Concurrent Evaluation	Total Marks
107	Management Fundamentals	2	I	50	50
108	Business Communication Lab	2	I	50	50
109	MS Excel & Advanced Excel Lab	2	I	50	50
110	Selling & Negotiation Skills Lab	2	I	50	50
111	Business, Government & Society	2	I	50	50
112	Leadership Lab	2	I	50	50
113	Personality Development Lab	2	I	50	50
114	Foreign Language - I Lab	2	I	50	50
115	Enterprise Analysis - Desk Research	2	I	50	50
207	Emotional Intelligence and Managerial Effectiveness Lab	2	II	50	50
208	Statistical Software Lab	2	II	50	50
209	MS Project Lab	2	II	50	50
210	Life Skills Lab	2	II	50	50
211	Geopolitics & the World Economic System	2	II	50	50
212	Business Systems & Procedures	2	II	50	50
213	Computer Aided Personal Productivity Tools Lab	2	II	50	50
214	Foreign Language - II Lab	2	II	50	50
215	Industry Analysis - Desk Research	2	II	50	50

Note: Each Generic Elective Course is a Half Credit course of 30 hours. Out of 30 hours 25 hours shall be devoted to teaching – learning sessions and 5 hours for evaluation/projects.

50 marks shall be devoted for concurrent evaluation to be carried out by the Institute.

There shall not be any evaluation by the University (online / subjective) for all Half Credit Courses.

Table IV – C: Subject Core Courses

	Subject Core Courses (Marketing)	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
305MKT	Contemporary Marketing Research	3	III	30	20	50	100
306MKT	Consumer Behaviour	3	III	30	20	50	100
403MKT	Services Marketing	3	IV	30	20	50	100
404MKT	Sales and Distribution Management	3	IV	30	20	50	100
	Subject Core Courses (Finance)	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
305 FIN	Direct Taxation	3	III	30	20	50	100
306 FIN	Financial System of India , Markets and Services	3	III	30	20	50	100
403 FIN	Indirect Taxation	3	IV	30	20	50	100
404 FIN	International Finance	3	IV	30	20	50	100
	Subject Core Courses (Information Technology)	Credits	Semester	Concurrent Evaluation	Online Evaluation	University Evaluation (Subjective)	Total Marks
305 IT	I T Management and Cyber Laws	3	III	30	20	50	100

Note: Each Subject Elective Course is a Half Credit course of 30 hours. Out of 30 hours 25 hours shall be devoted to teaching – learning sessions and 5 hours for evaluation/projects. 50 marks shall be devoted for concurrent evaluation to be carried out by the Institute.

Note: Number of Sessions provided in the detailed syllabus in Annexure II for each course are indicative and not prescriptive in nature. They indicate the clock hours allocated for teaching and evaluation/project. However under the CBCS LTP pattern faculty has the liberty to modify the same in the best interest of the learners.

Note:

- a) In the detailed syllabus, Number of Sessions indicated are as follows: 7 + 2 indicates 7 teaching sessions and 2 evaluation /project sessions. Kindly note that the numbers indicated are indicative and not prescriptive.*
- b) Faculty members and students should refer to the latest edition of the relevant books, wherever such latest editions are available.*

ANNEXURE II - Detailed Syllabus

MBA SYLLABUS: SEMESTER I

Semester	I	Specialization	NA
Course code	101	Type	Generic core
Course Title	Course Code 101: Accounting For Business Decisions		

Course Objectives:

1. To understand the basic concepts of financial accounting, cost accounting and management accounting.
2. To know various tools from accounting and cost accounting this would facilitate the decision making.
3. To develop analytical abilities to face the business situations.

Syllabus:

Unit Number	Contents	No. of Sessions
Unit – 1	Basic Concepts: Meaning of Business decisions and importance of business decisions. Forms of business organizations, meaning of accounting, basic concepts, terms used in business accounting. Types of accounts, journal, ledger and trial balance. Accounting equations and users of accounting information. Accounting concepts and conventions. Difference between financial, cost accounting and management accounting, Use and applicability of Tally in accounting.	(Hours: 6+2)
Unit – 2	Understanding of Financial Statements: Meaning of Financial statements. Importance and objectives of financial statements. Preparation of final accounts of sole proprietary firm. Making financial decisions on the basis of financial statements.	(Hours: 8+2)
Unit – 3	Cost Accounting: Basic concepts of cost accounting. Objectives of Cost Accounting, Classification and analysis of costs, Relevant and irrelevant costs, differential costs, sunk costs, Preparation of Simple Cost sheet.	(Hours: 6+2)
Unit – 4	Cost Control: Material cost control, Procurement, Pricing of issues, Inventory control techniques, Fixation of various levels, Economic order quantity, material losses, Labour cost control, time keeping and time booking, Overheads, Collection, Classifications, allocation and apportionment of overheads.	(Hours: 7+2)
Unit – 5	Decision making tools: Marginal costing, Break-even point, Cost Volume Profit analysis, Optimizing product mix, Pricing decisions. Budgeting - Cash and Flexible budgets only, Standard costing – Material and Labour Variances only.	(Hours: 8+2)
	<p>Note:</p> <ol style="list-style-type: none"> 1. Weightage of Theory Questions will be 30% and numerical problems will carry 70% marks in the final question paper. 2. Numerical Problems will be asked on the following topics: Preparation of financial statements of proprietary concerns. Pricing of issues: - FIFO, LIFO, Simple Average & Weighted average methods. 	

	Allocation and apportionment of Overheads. Computation BEP and related areas. Optimizing product mix. Make or buy decisions. Cash and Flexible budgets Computation of Material and Labour variances.

Semester	I	Specialization	NA
Course Code	102	Type	Generic - Core
Course Title	Economic Analysis for Business Decisions		

Course Objectives:

1	To equip the students of management with time tested tools and techniques of managerial economics to enable them to appreciate its relevance in decision making.
2	To explore the economics of information and network industries and to equip students with an understanding of how economics affect the business strategy of companies in these industries.
3	To develop economic way of thinking in dealing with practical business problems and challenges.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Basic Concepts of Economics: Introduction to Economics , Basic Economic Problem, Circular Flow of Economic Activity , Nature of the firm - rationale, objective of maximizing firm value as present value of all future profits, maximizing, satisficing, optimizing, principal agent problem, Accounting Profit and Economic Profit , Role of profit in Market System , Adam Smith and Invisible Hand.	7 + 2
2	Demand Analysis and Forecasting: Determinants of Market Demand at Firm and Industry level – Elasticity of Demand - Market Demand Equation – Use of Multiple Regression for estimating demand – Case study on estimating industry demand (formulating equation and solving with the aid of software expected) Demand and Supply: Market Equilibrium – Pricing under perfect competition, monopolistic competition, Case study on pricing under monopolistic competition , Oligopoly - product differentiation and price discrimination; price- output decision in multi-plant and multi-product firms.	7 + 2
3	Cost Concepts: Cost Concept, Opportunity Cost, Marginal, Incremental and Sunk Costs, Cost Volume Profit Analysis, Breakeven Point, Case Study on marginal costs. Risk Analysis and Decision Making: Concept of risk, Expected value	7 + 2

	computation, Risk management through Insurance, diversification, Hedging, Decision Tree Analysis, Case Study on Decision tree Technique.	
4	<p>Money and Capital Markets in India: Role and Functions of Money Markets, Composition of Money Market, Money Market Instruments , Reserve Bank of India – Functions , Regulatory Role of RBI w.r.t. Currency, Credit and Balance of Payment, Open Market Operations.</p> <p>Role and Functions of Capital Markets, Composition of Capital market, Stock Exchanges in India, Role of SEBI, understanding of stock market quotations in financial press expected.</p>	7 + 2
5	<p>Public Finance Infrastructure: Familiarity with important terms/agencies/approaches/practices related to National Income (such as GDP, PPP, Growth Rate), Foreign Trade (such as GATT, WTO) and union budget (such as Revenue Account, Capital Account, Revenue Deficit, Fiscal Deficit, Plan and Non-plan expenditure) is expected. Understanding of Summarized budget for the current financial year is required (knowledge of detailed budget provisions not required).</p>	7 + 2

4	Websites	www.vakilno1.com www.indiankanoon.org www.sebi.gov.in/ www.companylawonline.com www.claonline.in
5	Journals	Management & Labour studies International Labour Review.

Semester	I	Specialization	NA
Course Code	104	Type	Generic - Core
Course Title	Business Research Methods		

Course Objectives:

1	To understand the concept and process of business research in business environment.
2	To know the use of tools and techniques for exploratory, conclusive and causal research.
3	To understand the concept of measurement in empirical systems.
4	To use statistical techniques for analysis of research data.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1. Foundations of Research:</p> <p>1.1 Research: – Definition, Why study Business Research? What is good research? Decision Support, Business Intelligence, Research applications in functional areas of Business, Emerging trends in Business research.</p> <p>1.2 Research & the Scientific Method: Characteristics of scientific method.</p> <p>1.3 Steps in Research Process</p> <p>1.4 Concept of Scientific Enquiry: - Formulation of Research Problem – Management Question – Research Question – Investigation Question</p> <p>1.5 Research Proposal: – Elements of a Research Proposal, Drafting a Research Proposal, Evaluating a research proposal (Students are expected to draft and evaluate a real life research proposal)</p>	5 + 1
2	<p>2. Research Design:</p> <p>2.1 Concept, Features of a good research design, Use of a good research design</p> <p>2.2 Qualitative research and Quantitative research approaches, Comparison - Pros and Cons of both approaches.</p> <p>2.3 Exploratory Research Design: Concept, Types: Qualitative techniques - Projective Techniques, Depth Interview, Experience Survey, Focus Groups, Observation.</p> <p>2.4 Descriptive Research Designs: Concept, types and uses. Concept of Cross-sectional and Longitudinal Research</p>	7 + 2

	<p>2.5 Experimental Design: Concept of Cause, Causal relationships, Concept of Independent & Dependent variables, concomitant variable, extraneous variable, Treatment, Control group. (Elementary conceptual treatment expected)</p> <p>2.6 Hypothesis: Qualities of a good Hypothesis –Framing Null Hypothesis & Alternative Hypothesis. Concept of Hypothesis Testing - Logic & Importance</p>	
3	<p>3. Measurement & Data:</p> <p>3.1 Concept of Measurement: what is measured? Problems in measurement in management research - Validity and Reliability. Levels of measurement - Nominal, Ordinal, Interval, Ratio.</p> <p>3.2 Attitude Scaling Techniques: Concept of Scale – Rating Scales viz. Likert Scales, Semantic Differential Scales, Constant Sum Scales, Graphic Rating Scales – Ranking Scales – Paired Comparison & Forced Ranking - Concept and Application.</p> <p>3.3 Types of Data - Secondary Data: Definition, Sources, Characteristics, Searching world wide web for data, Issues to be considered for secondary data, sufficiency, adequacy, reliability, consistency.</p> <p>3.4 Types of Data - Primary Data: Definition, Advantages and disadvantages over secondary data,</p> <p>3.5 Questionnaire Method: Questionnaire Construction - Personal Interviews, Telephonic survey Interviewing, Email/Internet survey, online survey sites, their utility, constraints</p>	7 + 3
4	<p>4. Sampling:</p> <p>4.1 Basic Concepts: Defining the Universe, Concepts of Statistical Population, Sample, Characteristics of a good sample. Sampling Frame (practical approach for determining the sample frame expected), Sampling errors, Non Sampling errors, Methods to reduce the errors, Sample Size constraints, Non Response.</p> <p>4.2 Probability Sample: Simple Random Sample, Systematic Sample, Stratified Random Sample, Area Sampling & Cluster Sampling.</p> <p>4.3 Non Probability Sample: Judgment Sampling, Convenience Sampling, Purposive Sampling, Quota Sampling & Snowballing Sampling methods.</p> <p>Determining size of the sample - Practical considerations in sampling and sample size, (sample size determination formulae and numerical not expected)</p>	6 + 2
5	<p>5. Data Analysis & Report Writing:</p> <p>5.1 Data Analysis : Editing, Coding, Univariate analysis - Tabular representation of data, frequency tables, Construction of frequency distributions and their analysis in the form of measures of central tendency – Mean, Median</p>	10 + 2

	<p>and Mode; their relative merits and demerits,</p> <p>5.2 Graphical Representation of Data: Appropriate Usage of Bar charts, Pie charts, Histogram, Leaf and stem, Candle stick, Box plots. (Use of MS Excel)</p> <p>5.3 Bivariate Analysis: Cross tabulations, Use of percentages, Bivariate Correlation Analysis - meaning & types of correlation, Karl Person's coefficient of correlation and spearman's rank correlation; Scatter plots, Chi-square test including testing hypothesis of association, association of attributes. (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.4 Linear Regression Analysis: Meaning and two lines of regression; relationship between correlation and regression co-efficient (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.5 Test of Significance: Small sample tests: t (Mean, proportion) and F tests, Z test, Non-parametric tests: Binomial test of proportion, Randomness test; Analysis of Variance: One way and two-way Classifications (Formulae and calculation are not expected. Interpretation of the given data and scenario analysis is expected for appropriate managerial decision inferences to be drawn.)</p> <p>5.6 Research Reports: Structure of Research report, Report writing and Presentation.</p> <p><i>Note: Extensive use of MS Excel is expected in learning unit no. 5</i></p>

Course Title	MS Excel and Advanced Excel Lab		

Course Objectives:

1	To familiarize Students with basic to intermediate skills for using Excel in the classroom vis-à-vis Business Applications
2	To provide students hands on experience on MS Excel Utilities
3	To gain proficiency in creating solutions for Data Management and Reporting

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Understanding Excel's Files, Ribbon and Shortcut: Create a workbook , Enter data in a worksheet , Format a worksheet , Format numbers in a worksheet , Create an Excel table , Filter data by using an AutoFilter , Sort data by using an AutoFilter	1
	1.2 Essential Worksheet Operations: Using Help (F1), Key Board Shortcuts	1
	1.3 Working with Cells and Ranges: Formatting Cells, Name Manager	1
	1.4 Visualizing Data Using Conditional Formatting: Apply conditional formatting	1
	1.5 Printing Your Work: Print a worksheet , Using Print Preview & Other Utilities	1
	Lab based Evaluation	1
2	2.1 Working with Dates and Times & Text: Working with Dates & Time, Creating Formulas that Manipulate Text – Upper, Proper, Lower, Concatenate, Text to column	1
	2.2 Creating Formulas That Count, Sum, Subtotal: Create a formula, Use a function in a formula	2
	2.3 Creating Formulas That Look Up Values: VLookup, HLookup, Match & Index	2
	Lab based Evaluation	1
3	3.1 Creating Formulas for Financial Applications: Introduction to formulas e.g. PV, PMT, NPER, RATE, Creating Balance Sheet, Investment Calculations,	3

	Depreciation calculations	
	3.2 Creating Charts and Graphics: Chart your data, Creating Sparkline Graphics, Using Insert Tab Utilities	2
	Lab based Evaluation	1
4	4.1 Using Custom Number Formats: Right click, Format Cells window	1
	4.2 Using Data Tab and Data Validation: Getting external Data, Remove Duplicates, Apply data validation & using utilities from Data Tab	1
	4.3 Protecting Your Work: Using Review Tab Utilities	1
	4.4 Performing Spreadsheet What-If Analysis: Create a macro, Activate and use an add-in	2
	Lab based Evaluation	1
5	5.1 Analyzing Data with the Analysis Tool Pak: Anova,Correlation, Covariance, Descriptive Statistics, Histogram, Random Number Generation, Rank and Percentile, Regression, t-Test, Z Test	2
	5.2 Using Pivot Tables for Data Analysis: Create Data Base for Pivot, Analysing Data with Pivot Tables, Producing Report with a Pivot Table	3
	Lab based Evaluation	1

Semester	I	Specialization	NA
Course Code	114	Type	Generic - Elective
Course Title	Foreign Language – I Lab		

Course Objectives:

1	To provide the student with a Foreign Language Skill to manage basic oral and written communication.
2	To build a basic vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Salutations: <ol style="list-style-type: none"> To greet the people and say Good afternoon, Good Evening, Goodbye, ask name and say your name, seek clarification and help, numbers from 1 to 10 To say where you live. Describe your house and members of your family. Weights and Measures, length & breadth, use of decimal system, area and volume. Cardinal numbers & Ordinal Numbers. Ask and give personal information, Nationality, profession and language, Numbers from 11 to 50. To ask time by clock and by span, days of the week, months of the year. 	2 + 4
2	Conversation Skills: <ol style="list-style-type: none"> To ask and express interests, Preferences; likes and dislikes; to invite, to accept the invitation or to politely decline the invitation; hobbies and how to spend your leisure. To talk about the weather; to talk about the daily personal routine and related activities. Seasons & holidays in France/Germany/Japan. Introduction to letter writing and email writing. To talk about clothing - size, colour, material. Purchase at a super market, modes of payment. To name and explain human body to express common bodily ailments (fever, headache etc.) 	2 + 4
3	Geographical Description: <ol style="list-style-type: none"> Country, location on the world map, borders and neighboring countries, ports and industrial towns. Information and clarification of places. Asking for directions to the public places. Modes of Transport. Numbers 51 to 100 and 1000, 10,00,000 etc. 	2 + 4

4	Business: 1. Visit to a restaurant, to express agreement/disagreement; to ask for price/quantity 2. To ask about personal past events, to narrate personal experience, to comprehend difference between letters like Personal/Business Letters, telegram & e- mail; formats of Letter head and e mail. 3. To talk about/express future actions, to plan a business trip with related requirements: hotel, tickets, car, Rent a car, places to visit, traffic signs etc. Documents required like Passport, International Driving license, Insurance cover etc. 4. Vocabulary relating to the Transactions at the Post office, Bank, Insurance Company – personal, health, accident, marine... equivalent terms of transaction – FOB, C.I.F, F.A.S, payment through Letter of credit.	2 + 4
5	Practical Assignments on Unit I to IV.	6

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

The emphasis of the course shall be on practical aspects.

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

Semester	I	Specialization	NA
Course Code	115	Type	Generic - Elective
Course Title	Enterprise Analysis - Desk Research		

Course Objectives:

1	To acquaint students with basic aspects of an Enterprise.
2	To guide the students in analyzing an Enterprise w.r.t a set of basic parameters.
3	To help the students assimilate basic jargon and its meaning w.r.t. Enterprise Analysis.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Enterprise History & Background: Establishment, Original & Current Promoters, Business Group or Business Family to which it belongs, Vision-Mission-Philosophy -Values, Name of the Chairman, CEO, MD, Members of Board of Directors, CSR Initiatives, Technical and other collaborations if any, Recent Mergers and Acquisitions, if any.	2 + 4
2	Organization : Organization Structure, Geographical (domestic and global) foot print – at the time of inception and spread over the years, company's current head quarter worldwide as well as head quarter / corporate office in India, Manufacturing /Service locations Indian and major worldwide, Certifications if any - ISO / EMS / FDA / CMMI , etc.	2 + 4
3	Markets: Major Customers, customer segments,Products, Product lines, Major Brands, Market Share – nationally, region wise, product wise, Advertising Agency, Advertising Punch Line/Slogan, Logo,	2 + 4
4	Financials: Data to be studied, tabulated, graphically depicted, analyzed and presented for last 5 years for the Revenues, Profitability, Market Capitalization, Segmented Revenues, Auditors. Listing status & Scrip Codes – BSE and NSE, Global Listings on International Stock Markets, Share Price Face Value, Current Market Value, Annual High Low Figures, P/E Ratio, Shareholding Pattern.	2 + 4
5	Governance: Philosophy, Action taken by SEBI if any, Involvement in Scams, Insider Trading Issues, Standard & Poor's Corporate Governance Scores, CRISIL Rating. Awards won if any.	6

Note:

Students should work in groups of 3 to 5 each under the guidance of a faculty.Students shall study various aspects of any TWO corporate entities (companies) of their choice.Focus shall be on analyzing

the information collected and gaining insights. Students shall submit a structured detailed report.

The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty. The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks , Presentation – 15 Marks, Question & Answer – 15 Marks

Learning Resources:

1	Text Books	Students shall use secondary data sources such as – Annual Reports, Corporate Websites, Stock Market Websites, Business Newspapers, etc. to collect maximum information – facts and figures about the enterprise and its functioning
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

MBA SYLLABUS: SEMESTER II

Semester	II	Specialization	NA
Course Code	201	Type	Generic - Core
Course Title	Marketing Management		

Course Objectives:

1	To introduce the concept of Marketing Mix as a framework for Marketing Decision making.
2	To emphasize the need, importance and process of Marketing Planning and Control.
3	To sensitize the students to the dynamic nature of Marketing Function.

Syllabus:

Unit Number	Contents	Number of Sessions
1	New Product Development & Product Life Cycle: 1.1 New Product Development : Need for new product development, Booz Allen &Hamilton Classification Scheme for New Products 1.2 New Product Development Process: Idea Generation to commercialization. 1.3 Branding: Introduction to Branding, Product Vs. Brand, Meaning of a brand, brand equity & brand elements. 1.4 Packaging & Labeling: Meaning & role of Packaging & Labeling, Primary, Secondary & Shipment packages 1.5 Product Life Cycle: Concept & characteristics of Product Life Cycle, Relevance of PLC, Types of PLC and Strategies across stages of the PLC.	7 + 2
2	Price: 2.1Pricing Basics: Meaning, Importance and Factors influencing pricing decisions 2.2Setting the Price: Setting pricing objectives, Determining demand, Estimating costs, Analyzing competitors' pricing, Selecting pricing method, Selecting final price. 2.3Adapting the Price: Geographical pricing, Price discounts & allowances, Promotional pricing, Differentiated pricing, 2.4Price Change: Initiating & responding to price changes.	6 + 2
3	Place: 3.1 The Role of Marketing Channels: Channel functions & flows, channel	6 + 2

	<p>levels.</p> <p>3.2 Channel Design Decisions: Analyzing customers' desired service output levels, establishing objectives & constraints, Identifying & evaluating major channel alternatives</p> <p>3.3 Channel Options: Introduction to Wholesaling, Retailing, Franchising, Direct marketing , E- Commerce Marketing Practices</p> <p>3.4 Market Logistics Decisions: Order processing, Warehousing, Inventory, and Transportation.</p>	
4	<p>Promotion:</p> <p>4.1 Introduction: The role of marketing communications in marketing effort.</p> <p>4.2 Communication Mix Elements: Introduction to Advertising, Sales Promotion, Personal Selling, Public Relations, Direct Marketing. Concept of Integrated Marketing Communications (IMC)</p> <p>4.3 Developing Effective Communication: Identifying target audience, determining communication objectives, designing the communications, selecting communication channels</p> <p>4.4 Deciding Marketing Communications Mix: Factors in setting marketing communication mix, measuring communication results</p>	10 + 2
5	<p>Marketing Planning & Control:</p> <p>5.1 Product Level Planning: Preparation & evaluation of a product level marketing plan, Nature & contents of Marketing Plans- Executive Summary, Situation Analysis, Marketing Strategy, Financials, Control.</p> <p>5.2 Marketing Evaluation & Control: Concept, Process & types of control - Annual Plan Control, Profitability Control, Efficiency Control, Strategic Control, Marketing audit.</p>	6 + 2

Learning Resources:

1	Text Books	<p>Marketing Management by Philip Kotler, Kevin Lane Keller, Abraham Koshy, Mithileshwar Jha, Pearson , 13th Edition</p> <p>Marketing Management by Rajan Saxena, TMGH, 4th Edition</p> <p>Marketing Management by Dr D B Bharati & Rohan Dahivale</p>
2	Reference Books	<p>MKTG- CENGAGE Learning- Lamb/Hair/Sharma</p> <p>Principles of Marketing by Philip Kotler, Gary Armstrong, Prafulla Agnihotri, Ehasan Haque, Pearson, 13th Edition</p>

		Marketing Management- Text and Cases, Tapan K Panda, 2 nd Edition, Excel Books Marketing Management by Ramaswamy & Namakumari, Macmillan, 4 th Edition.
3	Supplementary Reading Material	Marketing Whitebook (Latest Edition) Brand Equity Supplement of The Economic Times Brand Wagon Supplement of The Financial Express Strategist Supplement of Business Standard Legends in Marketing by Jagdish N. Sheth

Semester	II	Specialization	NA
Course code	202	Type	Generic core
Course Title	Financial Management		

Course Objectives:

1. To understand various concepts related to financial management.
2. To study in detail, various tools and techniques in the area of finance.
3. To develop the analytical skills this would facilitate the decision making in Business situations.

Syllabus

Unit Number	Contents	No. of Sessions
Unit – 1	<p><u>Business Finance:</u></p> <p>Introduction of Business Finance: Meaning, Definition of Financial Management, Goals of Financial Management (Profit Maximization and Wealth Maximization), Modern approaches to Financial Management – (Investment Decision, Financing Decision and Dividend Policy Decisions) Finance and other related disciplines, Functions of finance manager, Key strategies of financial management, Financial Planning – Principles and Steps in Financial Planning.</p>	(Hours: 3+2)
Unit – 2	<p><u>Capital structure:</u></p> <p>Meaning, Factors affecting the capital structure, Different Sources of Finance and its Types, Concept and measurement of cost of capital, measurement of specific costs WACC, Trading on equity and its types.</p>	(Hours: 8+2)
Unit – 3	<p><u>Techniques of Financial Analysis:</u></p> <p>Meaning , Nature, Objectives, Understanding of financial statements, Schedule VI of Companies Act, Tools of analysis, interpretation and limitations of financial analysis, Fund flow statement (Working capital basis), Understanding Cash flow statement – Difference between Cash flow and Fund flow statement, Ratio analysis (computation and interpretations of ratios)</p>	(Hours: 8+2)

Unit – 4	<u>Capital Budgeting:</u> Meaning, Definition and types of evaluating the project on the basis of Traditional Techniques and Modern Techniques (viz. Payback period, Discounted Payback period, NPV, ARR, IRR, PI) Time Value of Money.	(Hours: 8+2)
Unit – 5	<u>Working Capital Management:</u> Nature and Scope, Components of working capital, operating cycle, types of working capital, Sources of Working Capital Financing, Factors affecting working capital, estimation of working capital requirement.	(Hours: 8+2)
Very Important Instructions for Problems	<u>Note:</u> <ol style="list-style-type: none"> 1. Theory 30% and Numerical Problems 70%. 2. Numerical Problems will be asked on following topics only – Calculation of Cost of Capital: Specific Costs – Cost of Equity / Preference / retained earnings and Debt, Weighted Average Cost of Capital, Leverages. Problems on Ratio analysis (computation and Interpretations of ratios) Simple problems on Fund flow statement Capital budgeting: Payback period, Discounted Payback Period, NPV, ARR, IRR, PI. Problems on Estimation of Working Capital.

5	Journals	Indian Journal of Finance

Semester	II	Specialization	NA
Course Code	203	Type	Generic - Core
Course Title	Human Resource Management		

Course Objectives:

1	To understand the role of HRM in an organization
2	To learn to gain competitive advantage through people
3	To learn to study and design HRM system

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to HRM & Framework - Nature of HRM, Scope of HRM, HRM: Functions and Objectives, HRM: Policies and practices, SHRM, Nature of SHRM, Global competitiveness and Strategic HR, Linkage of organizational and HR strategies, SHRM Model - The Integrated system model, Devanna et. al - strategic human resource management "matching model".	2+2

2	<p>HR Procurement:</p> <p>2.1 Human Resource Planning - Job Analysis, Job Design: Writing job description, introduction, and factors affecting job design. Job characteristics model (Hackman and Oldham, 1976) of effective job and job satisfaction. The need of man power planning , What is Human Resource Planning, Definition, objectives, importance, benefits, the process of Human resource planning, Preparing manpower inventory.(Supply Forecasting)</p> <p>2.2 Recruitment & Selection - Strategic approach to recruitment, Labour markets and recruitment, Recruiting and diversity considerations, Employment advertising, Recruiting Diverse workers, Recruiting Source choices: internal vs. external, Introduction to selection process, Selection procedure.</p> <p>2.3 Career Planning: Succession Planning.</p>	7+2
3	<p>Training and Development - Employee Training and Development</p> <p>Nature of training, Training process, Training needs assessment,</p> <p>Training evaluation, Training design, Implementing Training programs(Training methods), Implementing management development programs.</p>	7+2
4	<p>Employee Appraisal & Compensation - Performance- Definition, Why to measure performance, Use of performance data, measurement process, Performance feedback, Performance Appraisal Methods, Compensation- concept, Traditional approach, current trends in compensation, Linking compensation with performance- Advantages & Problems, Team based Incentives.</p>	11+2
5	<p>Managing Employee Relations - Concept, Importance, Organizational Entry, employee Status, Flexible Work arrangement, Employee Surveys, Handbooks, Violations of Policy/ Discipline, Industrial Relations & Disputes, Grievance Procedure, Termination, Resignation, downsizing, Lay off Retirement, Organizational Exit.</p>	8+2

Semester	II	Specialization	NA
Course Code	204	Type	Generic - Core
Course Title	Decision Science		

Course Objectives:

1	To understand role of quantitative techniques in managerial decision making.
2	To understand process of decision problem formulation.
3	To understand applications of various quantitative techniques in managerial settings.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Introduction: Importance of Decision Sciences & Role of quantitative techniques in decision making.</p> <p>1.2 Assignment Models: Concept, Flood's Technique/ Hungarian Method, applications including restricted & multiple assignments.</p> <p>1.3 Transportation Models: Concept, Formulation, Problem types: Balanced, unbalanced, Minimization, Maximization Basic initial solution using North West Corner, Least Cost & VAM, Optimal Solution using MODI.</p>	9+2
2	<p>2.1 Linear Programming: Concept, Formulation & Graphical Solution</p> <p>2.2 Markov Chains & Simulation Techniques: Markov chains: Applications related to management functional areas, Implications of Steady state Probabilities, Decision making based on the inferences Monte Carlo Simulation, scope and limitations.</p>	8+2
3	<p>3.1 Decision Theory: Concept, Decision under risk (EMV)& uncertainty</p> <p>3.2 Game Theory: Concept, 2 by 2 zero sum game with dominance, Pure & Mixed Strategy</p> <p>3.3 Queuing Theory: Concept, Single Server (M/M/I , Infinite, FIFO) and Multi Server (M/M/C , Infinite, FIFO)</p>	6+2
4	<p>4.1 CPM & PERT: Concept, Drawing network, identifying critical path</p> <p>Network Calculations: Calculating EST, LST, EFT, LFT, Slack & probability of project completion</p> <p>4.2 Sequencing problems: Introduction, Problems involving n jobs- 2 machines, n jobs- 3 machines & n jobs-m machines; Comparison of priority sequencing rules.</p>	6+2

5	<p>5.1 Probability: Concept, Addition, Conditional Probability theorem based decision making, (Numerical based on functional areas of business expected).</p> <p>5.2 Probability Distributions: Normal, Binomial. Interval estimation, standard errors of estimation.</p>	6+2
---	---	-----

Learning Resources:

1	Text Books	<p>Quantitative Techniques in Management by N.D. Vohra Tata, McGraw Hill Publications, 4th Edition</p> <p>Quantitative Approaches to Management by Levin, Rubin, Stinson & Gardner</p> <p>Operations Research Theory & Applications by J K Sharma- MacMillan Publishers India Ltd., 4th Edition</p> <p>Quantitative techniques & statistics By K L Sehgal Himalaya Publications</p>
2	Reference Books	<p>An introduction to management science: Quantitative approach for decision making- Cengage Learning-Anderson</p> <p>Introduction to Operations Research by Billey E. Gillett, TMGH</p> <p>Operations Research by Nita Shah, Ravi Gor, Hardik Soni, PHI</p> <p>Managerial Decisions Modeling with Spreadsheets by Bal Krishnan, Render, Stair, Jr., Pearson Education.</p> <p>Operations Research by R. Pannervselvam, Prentice Hall India, 2nd Edition.</p>
3	Supplementary Reading Material	Operations Research by Hamdy A. Taha, Pearson Publication
4	Websites	www.orsi.in
5	Journals	<p>International Journal of Operations and Quantitative Management</p> <p>International Journals of Operations Research and Management Science</p> <p>Journal of Operation Management Research</p> <p>Indian Journal of Advanced Operations Management</p>

Semester	II	Specialization	NA
Course Code	205	Type	Generic – Core
Course Title	Operations and Supply Chain Management		

Course Objectives:

1	To develop an understanding of the strategic importance of Operations & SCM and how it can provide a competitive advantage in the marketplace
2	To understand the relationship between Operations & SCM and other business functions, such as Marketing, Finance, Accounting, and Human Resources.
3	To develop knowledge of the issues related to designing and managing Operations & SCM and the techniques to do so.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Introduction to Operations Management (OM): Definition, Evolution from production to operations management. Manufacturing trends in India, Services as a part of OM, Operations as a key functional area, OM a system perspective, functions of OM, challenges and current priorities of OM.</p> <p>1.2 Quality: Definitions, Dimensions of Quality, Customers view and Manufacturer's view, Concept of Internal Customer, Overview of TQM and LEAN Management, Cause effect diagram (Ishikawa Fish Bone Diagram), Basic Concepts of Kaizen, 5S, Quality Circle.</p>	5 + 2
2	<p>Operations Processes</p> <p>2.1 Process Characteristics in Operations: Volume Variety and Flow. Types of Processes and Operations Systems - Continuous Flow system and intermittent flow systems</p> <p>2.2 Process Product Matrix: Job Production, Batch Production, Assembly line and Continuous Flow, Process and Product Layout</p> <p>2.3 Service System Design Matrix : Design of Service Systems, Service Blueprinting</p>	7 + 2
3	<p>3.1 Production Planning & Control (PPC): Role and Functions</p> <p>3.2 Demand Forecasting: Forecasting as a Planning Tool, Forecasting Time Horizon, Sources of Data for forecasting, Accuracy of Forecast, Capacity Planning</p> <p>3.3 Production Planning: Aggregate production Planning, Alternatives for Managing Demand and Supply, Master Production Schedule, Capacity</p>	8 + 2

	<p>Planning - Overview of MRP, CRP, DRP , MRP II</p> <p>3.4 Production Control: Scheduling, Loading, Scheduling of Job Shops and Floor Shops, Gantt Charts</p>	
4	<p>4.1 Inventory Planning and Control: Continuous and Intermittent demand System, concept of inventory, need for inventory, types of inventory - seasonal, decoupling, cyclic, pipeline, safety. Implications for Inventory Control Methods.</p> <p>4.2 Inventory Costs: Concept and behaviour of ordering cost, carrying cost, shortage cost.</p> <p>4.3 EOQ: Basic EOQ Model - EOQ with discounts</p> <p>4.4 Inventory control: Classification of material - ABC Analysis -VED, HML, FSN, GOLF, SOS.</p> <p>(Numerical expected on Basic EOQ, EOQ with discounts & ABC), Inventory turns ratios, Fixed Order quantity Model - Periodic Review and Re-order Point</p>	8 + 2
5	<p>5.1 Supply Chain Management: Definition, Functions of SCM, Evolution from Physical distribution to Logistics to SCM, Physical Goods and Services Perspectives. Generalized Supply Chain Management Model - Key Issues in SCM – Collaboration, Enterprise Extension, responsiveness, Cash to Cash Conversion,</p> <p>5.2 Supply chain integrated framework: Resource base to end customers- Product/service value flow, market accommodation flow, information flow, cash flow.</p>	7 + 2

Learning Resources:

1	Text Books	<p>Operations Management Theory & Practice by B.Mahadevan , Pearson, 2nd Edition.</p> <p>Operations Now - Supply Chain Profitability & Performance by Byron J. Finch, McGraw Hill, 3rd Edition.</p> <p>Operations & Supply Chain Management by Dr. D. B. Bharati & Rohan Dahivale Himalaya Publications</p> <p>Production and Operations Management Scitech Publications- Sushanta Tripathy</p> <p>Operations Management- K Shridhara Bhat Himalaya Publications</p>

Semester	II	Specialization	NA
Course Code	208	Type	Generic - Elective
Course Title	Statistical Software Lab		

Course Objectives:

1	To give an overview of the capabilities of popular statistical software packages.
2	To train students in handling data files and carry out basics statistical analysis.
3	To give hands on experience about basic hypothesis testing using t tests, Chi Square tests and ANOVA.
4	To train students in using advanced tools such as regressions, MDS, Factor Analysis etc.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 An Overview of Statistical Software: Introduction to SPSS / SAS/ Systat. Introduction to various menus, Data file, Output file, Frequently –used dialog boxes, Editing output, Printing results. Creating and editing a data file – Variable and data view, Value Labels.</p> <p>1.2 Managing Data: Listing cases, replacing missing values, computing new variables, recording variables, exploring data, selecting cases, sorting cases, merging files, splitting files, Visual Binning.</p>	4 + 1
2	<p>2.1 Frequencies: Frequencies, bar charts, histograms, percentiles</p> <p>2.2 Descriptive Statistics: Measures of central tendency, variability, deviation from normality, size and stability. Cross Tabulation and chi-square analyses, The means Procedure</p> <p>2.3 Graphs: Creating and editing graphs and charts</p>	4 + 1
3	<p>3.1 Bivariate Correlation: Bivariate Correlation, Partial Correlations and the correlation matrix</p> <p>3.2 The T-test Procedure: Independent –samples, paired samples, and one sample tests</p> <p>3.3 Non Parametric Tests: ChiSquareTest, 1 sample test, 2 independent samples test, k independent samples, 2 related samples test, k related samples,</p>	4 + 1
4	<p>4.1 One Way ANOVA Procedure: One way analysis of variance, General Linear model: Two –way analysis of variance, General Linear model: three –way analysis of variance and the influence of covariates</p>	5 + 1

5	5.1 Advanced Tools: Simple Linear Regression , Multiple regression analysis Multidimensional scaling, Reliability Analysis, Factor analysis, Cluster analysis.	8 + 1
---	--	-------

Note:

The entire course has to be taught using a hands-on approach.

Students should be encouraged to use the 30 day trial version of relevant software package.

Semester	II	Specialization	NA
Course Code	209	Type	Generic - Elective
Course Title	MS Project Lab		

Course Objectives:	
1	To understand basics of project management and learn how to use MS Project 2007 to:
A	Create a New Project
B	Build Tasks
C	Create Resources & Assign Costs
2	To understand use of MS Project 2007 to track Project Progress

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Introduction to MS Project 2007 : Understanding Projects, Managing Projects & Project Management Software, Taking a first look at Project – Starting Project, Entering Information, Changing Views, What's new in Project 2007	2
2	2.1 Creating a New Project: Gathering Information, Opening a Project file, Establishing Basic Project Information, Looking at Project Calendars, Entering tasks, Adding subtasks, Saving Project files, Working with Project Outline – Adjusting tasks in an outline, Copying tasks	3 + 2
3	3.1 Building Tasks: Establishing Timing for Tasks, Assigning Task Timing, Using Recurring Tasks, Establishing Constraints and Deadline Dates, Manipulating Gantt Chart to View Timing, Entering Task Notes, Establishing Dependencies Among Tasks, Viewing Dependencies	4 + 2
4	4.1 Creating Resources & Assigning Costs: Understanding Resources, Creating Resource List, Modifying Resource Information, Using Resources and Tasks, Handling Unusual Cost Situations 4.2 Understanding Basics of Views: What is a View?, Examining Indicators, Admiring Views – Calendars, Detail Gantt, Gantt Chart, Leveling Gantt, Tracking Gantt, Multiple baselines Gantt. Resource Allocation , Resource Form, Resource Graph, Resource Name Form, Resource Sheet, Resource Usage, Roll up Views, Task Details Form, Task Entry, Task Form, Task Name Form, Task Sheet, Task Usage, Printing Project.	5 + 3
5	5.1 Tracking Project Progress I: Understanding the Principles of Tracking, Using Baseline, Changing the Baseline, Viewing Progress with the Tracking Gantt Chart View – Interpretation, Task Variance Table, Task Cost Table, Task	6 + 3

	<p>Work Table, Understanding Tracking Strategies</p> <p>5.2 Tracking Project Progress II: Recording Actuals – Organizing the Updating Process, Understanding Calculation Options, Updating Tasks to Reflect Actual Information, Using Actuals and Costs, Techniques and Tips for Updating, Reviewing Progress.</p>

Course Title	Life Skills		

Course Objectives:

1	To encourage students to develop and use balanced self-determined Behavior.
2	To help students in enhancing self, increasing life satisfaction and Improving relationships with others.
3	To develop new ability to practice new problem solving skills in group and use these skills in personal life.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Definition of Life Skills , Assumptions about Life Skills, Concept of skill in Life Skills, Concept of Skill in Life Skills, Primary goal of Life Skills programme, Life Skills Process model, Group development and group behaviors.	5 + 1
2	Cognition, Meaning , Piaget's theory of Cognitive Development, role of Goal Orientation, Meaning, Big Five personality characteristics, extraversion, Openness to experience, emotional stability, consciousness and agreeableness, Personal knowledge management, meaning, Wright's model, Four domains, Analytical, information, social and learning.	5 + 1
3	Coping, Meaning, Types of coping strategies, 1) appraisal focused (adaptive Cognitive) 2) problem focused (adaptive behavior) 3) emotion focused Empathy, meaning and definitions, Difference between empathy and sympathy, Anger and distress, Meaning, overcoming.	5 + 1
4	Moral development, Meaning, Interpersonal influences on Moral development, Moral development and social exclusion, Morality and culture, Morality and Intergroup attitudes, moral emotions.	5 + 1
5	Study Skills, Meaning, Types of study skills, Methods based on : Memorization such as rehearsal and role learning Communication Skills e.g. reading, listening, Cues e.g. flashcard training Condensing information, summarizing and use of key words..	5 + 1

	Visual imagery Exam strategies Time management, organization and life style changes.

Semester	II	Specialization	NA
Course Code	212	Type	Generic - Elective
Course Title	Business Systems and Procedures		

Course Objectives:

1	To understand Business as an integrated system
2	To develop process thinking for developing procedures.
3	To make students aware of various business functions & responsibilities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Systems and Procedures – Concept and need - Characteristics of a good procedure. Writing a Standard Operating Procedure (SOP)– Procedure Identification - Information Gathering–Interviewing – Analysis – Writing – Implementation – Review- Fine-tuning. Process Mapping Tools – Aid Memoir – Flowchart – Swim Lane Diagrams – Flow Charting Software – Using MS Word and Excel for Flowcharting - Case Studies.	+ 1
2	Understanding accounting procedures for Cash Sales - Credit Sales - Cash Receipts – Donations – Travelling Expenses – Writing off Bad Debts – Sale of Scrap. Principles of Internal Control – Study of Internal Control in Select Procedures such as Recruitment, Payment of Salaries and Wages, Verification of Inventories and Work in Progress, Verification of Fixed Assets and Investments	5 + 1
3	Lean Office – Re-engineering information flow and paper flow – Process Mapping for Current and Future State Map. Digital Office –Overview of Office Automation Systems – Use of technologies such as Bar Coding, RFID, Biometry and Mobile Computing for redesigning office procedures.	5 + 1
4	Study of the following Systems and underlying Procedures. Point of sale (POS) system in an organized retail store, Purchase Order System in a manufacturing organization, Attendance Recording System in a factory, Kitchen Order Ticket (KOT) System in a Restaurant, Just in Time Inventory System in a manufacturing organization.	5 + 1
5	Presentation of individual/group projects in Process Mapping, Improvement and Writing SOP's for an entire range of activities for a segment in a manufacturing/ service organization.	5 + 1

Learning Resources:

1	Text Books	Business Process Management – A Rigorous Approach by Martyn A Ould ,

Semester	II	Specialization	NA
Course Code	213	Type	Generic - Elective
Course Title	Computer Aided Personal Productivity Tools Lab		

Course Objectives:

1	To give students mastery of MS Office.
2	To enhance personal productivity through advanced features of MS Word, MS Excel & MS PowerPoint
3	To impart skills of using MS Outlook and basic social networking tools.

Syllabus:

1	1.1 Collaboration - Protect your document with passwords, permission, and other restrictions, Save a document to SharePoint from Office 2010, The purpose of IRM and its limitations, Mail Merge	1
	1.2 Tracking changes and comments - Turn track changes on or off, Review tracked changes and comments	1
	1.3 Formatting - Add, change, or delete WordArt, Add or remove text effects, Adjust the spaces between letters, lines or paragraphs, Set the default font, Language, Apply, customize, and save a document theme in Word	1
	1.4 Tables of contents and other references - Create a table of contents, Edit a citation placeholder, Create a bibliography, Foot note & End Note, Captions & Index	1
	1.5 Checking Spelling, grammar, and thesaurus	1
	1.6 Managing Headers, footers, and page numbers, Links	
	1.7 Inserting Page breaks and section breaks, Applying Multiple headers, page layouts	1
	1.8 Tables Tools, Illustrations, Equations, Symbols	
2	POWERPOINT	6 + 1
	2.1 Working with text & SmartArt graphics - Add alternative text to a shape, picture, chart, table, SmartArt graphic, or other object, Wrap text around an object in PowerPoint 2010, Adjust the indent in a bulleted or numbered list on the ruler, Change the look, position, or function of bulleted or numbered lists in your presentation	1
	2.2 Organizing and formatting slides, Using masters - Understanding a slide master, Create or customize a slide master, Apply one or more slide masters to a presentation	1
	2.3 Working with animation, sounds & Movies - Turn your presentation into a video, Embed or link to a video from your presentation, Set the 'Play' options for a video in your presentation, Trim a video, Compress your media files, Tips for improving audio and video playback and compatibility	1
	2.4 Working with hyperlinks and action buttons	1
	2.5 Reviewing and adding comments - Show markup and add Comments	
	2.6 Creating support materials - Notes and Notes Master, Printing Notes	1
	2.7 Delivering your presentation - Using Presenter's Mode, Optimising Handouts	1

	2.8 Embedding Presentation - Multiple presentations & Slides and files on the slide	
3	MSEXCEL	6 + 1
	3.1 Excel Basics Review - Using Keyboard, Importing and Exporting Data (Access, SPSS)	1
	3.2 Excel For Marketing & Statistics - Creating Business Solutions	1
	Excel & HRIS - Database Creation, Analysis & reporting	1
	3.4 Excel for Finance - Analysing Financial Statements e.g. Balance sheet, Ratio Analysis, Using Applications e.g. PROWESS, AceEquity, Creating Excel Dashboard	3
4	MS Outlook	2 + 1
	4.1 MS Outlook - Start using the Outlook Social Connector, Stay up-to-date in the People Pane, Assign a colour category to an e-mail message, Customize the appearance of task lists, Turn the Reading Pane on or off, Introduction to Conversations, Create and add a message signature, Manage messages by using rules, Automate common or repetitive tasks	2
5	Media for Social Connectivity	5 + 1
	5.1 Using Google + & Google Docs	2
	5.2 Using Twitter for networking and Business	1
	5.3 Creating Blogs, Using LinkedIn, and other academics and Business websites. Networking, Surveys, Discussions, Business Information	2

Note:

Emphasis should be on hands on experience.

All sessions should be conducted in the IT laboratory.

Semester	II	Specialization	NA
Course Code	214	Type	Generic - Elective
Course Title	Foreign Language – II Lab		

Course Objectives:

1	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
2	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Listening: Understand Simple Questions and Instructions.</p> <p>Reading: Understand Single Words and Sentences but also Signposts, Signs and Posters.</p> <p>Speaking: Provide Short Information about the Job and the Person.</p> <p>Writing: Fill in Forms and Provide Information About Name, Address, Nationality etc.</p>	5 + 1
2	<p>Listening: Understand Information about the Person and the Work.</p> <p>Reading: Understand Simple Letters, Appointments, Invitations and Information in Short Texts.</p> <p>Speaking: Answer Simple Questions About One's Working Field.</p> <p>Writing: Write Faxes and e-mails</p>	5 + 1
3	<p>Listening: Understand Standard Information Related to the Working Field.</p> <p>Reading: Understand Standard Letters and Texts about Working Processes and Product Descriptions.</p> <p>Speaking: Provide Information about the Job, the Departments, the Company, the Products and Processes in a Conversation or on the Phone.</p> <p>Writing: Answer Standard Inquiries, Make Quotations, Write Short Texts with a Familiar Content, Possibly Give Some Explanation and Answer Simple Questions.</p>	5 + 1
4	<p>Listening: Understand Complex Information Related to the Working Field in Meetings, Discussions and at Presentations.</p>	5 + 1

	<p>Reading: Understand Reports and Contracts with a Company-related Content.</p> <p>Speaking: Describe and Explain Work Processes and Projects. Report on Meetings and Presentations. Explain Concepts and Clarify Misunderstandings.</p> <p>Writing: Write Formal Standard Letters and Texts about One's Field of Expertise. Explain a Graphic and Reflect the Content.</p>	
5	<p>Grammar: Future tense, imperfect tense, degrees of comparison, imperative mood. Script, Letters of alphabet, accents, sounds of groups of letters, punctuation marks, articles, nouns, sing./Pl , genders; mas. /fem. Structure of sentences & types like affirmative, negative interrogative & negative interrogative, Verbs: classes of verbs and conjugation patterns, Pronominal verbs; Present tense, The idea of auxiliary verb; prepositions; pronouns-subject, interrogative, relative, possessive, emphatic ; adjectives, adverbs</p>	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

Semester	II	Specialization	NA
Course Code	215	Type	Generic - Elective
Course Title	Industry Analysis - Desk Research		

Course Objectives:	
1	To help the students understand the dynamics of a specific industry.
2	To acquaint students with various issues particular to an industry.
3	To provide a cross-functional perspective of the functioning of a business enterprise and an industry.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Industry Analysis – the Basics: Nature of the Industry, Players in the industry. Nature of competition from an economist's perspective. Market shares of top 3 & bottom 3 players. Possible Classification of players into Leaders, Challengers, Followers, Nichers. Positioning & Differentiation strategies of key players. Branding strategies. Pricing Policies, Cartelization if any and comments thereon. Capacity analysis – total capacity of the industry and break up capacity amongst key players, Planned future capacity additions. Geographical spread of plants/facilities/ capacities (Domestics as well as Global). Demand Supply balance in the industry, Key factors affecting demand. Key supply side constraints. Professional Trade bodies of the Industry. Business Functions carried out Online by the key players. Online presence.	25 + 5
2	Promoters & Management Ethos: Background of promoter groups of top 3 and bottom 3 players in the industry.	

	<p>Management ethos and philosophy.</p> <p>Brief profiles of CMDs, CEOs, and key top management personnel with their career highlights.</p> <p>Detailed profile of one distinguished top management personnel each from any two players in the Industry.</p> <p>CSR policy.</p> <p>Corporate Governance Initiatives.</p> <p>Initiatives towards social inclusion.</p> <p>Initiatives towards environment conservation.</p>	
3	<p>External Environment:</p> <p>Controlling ministry and / or regulator if any for the Industry</p> <p>Regulatory actions against the players for e.g. Action by SEBI, Competition Commission of India, MTRP Commission, etc. against irregularities , legal violations if any.</p> <p>Regulatory Policies at the state, national and global level and their impact on the industry as a whole with analysis of impact on top 3 players.</p> <p>Key National and Global issues affecting the industry.</p> <p>Key initiatives by the Government to promote the industry.</p> <p>Environmental issues.</p>	
4	<p>Financials:</p> <p>Profitability, Revenues, Margins of top 3 & bottom 3 players over the last 3 years and trends/changes therein.</p> <p>Sick players if any and their turnaround strategies, if any.</p> <p>Key factors contributing to costs.</p> <p>Ratio analysis of financial data for last 3 years for top 5 and bottom 5 companies in the industry.</p>	
5	<p>Recent Developments:</p> <p>Impact of key relevant provisions of the latest Fiscal policy on the industry and various players therein.</p> <p>Analysis of Key relevant provisions of latest Exim Policy in case of industries that are focused on Global Markets for exports or industries that have</p>	

	<p>significant import components.</p> <p>Key Alliances in the past 5 years and their performance & impact on other players in the industry.</p> <p>Mergers & Acquisitions, if any.</p> <p>Technological developments.</p> <p>Labour unrest if any –reasons thereof and impact on the particular player and the industry as a whole.</p> <p>Emerging first generation entrepreneurs, if any, in the industry.</p> <p>Corporate wars & feuds in the industry, if any.</p>	
--	---	--

Note:

Students should work in groups of 3 to 5 each under the guidance of a faculty.

Students shall study various aspects of any TWO industries (group of similar business entities) of their choice.

Focus shall be the comparative and historical analysis across the players in the industry.

Students shall submit a structured detailed report.

The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty. The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

Semester	III	Specialization	NA
Course Code	302	Type	Generic - Core
Course Title	Enterprise Performance Management		

Course Objectives:

1	To acquaint the students with a perspective of different facets of management of an enterprise
2	To provide inputs with reference to the Investment Decisions along with the techniques for those decisions
3	To inculcate the evaluation parameters of enterprise in terms of expenses, control systems and pricing
4	To develop the knowledge of the concept of auditing and its applicability as performance management tool

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Performance Management: Concept, Need, Linkages with Strategic Planning, Management Control and Operational Control.</p> <p>1.2 Performance Evaluation Parameters: Financial – Responsibility Accounting – Concept of Responsibility Centers, Revenue Centre, Expense Centre - Engineered and Discretionary costs – Committed costs, Profit Centre, Investment Centers. ROI, ROA, MVA, EVA – DuPont analysis. (Numericals Not expected – Interpretation only) Limitations of Financial Measures.</p> <p>1.3 Performance Evaluation Parameters: Non-Financial Performance measures – Balanced Scorecard, Malcolm Baldrige Framework.</p> <p>1.4 Measuring SBU Level Performance: Concept, Need, Linkages with Enterprise Performance Management – Goal Congruence. Transfer Pricing – Objective, Concept, Methods – Cost based, Market price based & Negotiated, Applicability of Transfer Pricing.</p>	7 + 2
2	<p>2.1 Capital Expenditure Control: Concept, Need, Process of Capital Budgeting, Types of capital expenditure decisions – pre-sanction, operational and post-sanction control of capital expenditure.</p> <p>2.2 Tools & Techniques of Capital Expenditure Control: Performance Index, Technical Performance Measurement, Post completion audit.</p>	7 + 2
3	<p>3.1 Performance Evaluation Parameters for Banks: Customer Base, NPAs, Deposits, RoI, Financial Inclusion, Spread, Credit Appraisal, Investments.</p> <p>3.2 Performance Evaluation Parameters for Retail: ABC analysis, Sell</p>	7 + 2

	Through Analysis, Multiple Attribute Method, Gross Margin Return on Investment (GMROI), GMROI as Gross Margin/Average Inventory at Cost.	
4	<p>4.1 Performance Evaluation Parameters for Projects: Project Control Process: Setting base line plan, Measuring progress and performance, comparing plan against action, Taking action, Schedule variance (time overruns), Project Cost Variance (cost overruns).</p> <p>4.2 Performance Evaluation Parameters for Non-Profit: Features of Non-profit organizations, fund accounting, governance, product pricing, strategic planning & budget preparations, social audit..</p>	7 + 2
5	Audit Function as a Performance Measurement Tool: Financial Audit, Internal Audit, Cost Audit, Management Audit – Principles and Objectives (Audit Reports / Formats are expected to be discussed in the class from a performance measurement perspective).	7 + 2

Learning Resources:

1	Text Books	<p>Management Control System by Robert Anthony & Vijay Govindrajana, Tata McGraw Hill Publishing Co. Ltd., 12th Edition</p> <p>Management Control in Non Profit Organizations by Robert Anthony & David Young, McGraw Hill International Publication, 7th Edition</p> <p>Retailing Management by Swapna Pradhan, TMGH, 3rd Edition</p>
2	Reference Books	<p>Project Management by K.Nagarajan, New Age International Publications, 2nd Edition</p> <p>Principles and Practices of Auditing by Ravindar Kumar & Virendar Sharma, PHI.</p> <p>Principles and Practices of Banking by Indian Institute of Banking & Finance, MacMillan India Ltd.</p> <p>Financial Management by Prasanna Chandra, TMGH, 7th edition</p>
3	Supplementary Reading Material	Management Control Systems by R.C. Sekhar, TMGH
4	Websites	-
5	Journals	<p>IUP journal of Business strategy- by ICWFI</p> <p>Enterprise and Society- International journal of business history by Oxford University.</p>

Semester	III	Specialization	NA
Course Code	303	Type	Generic - Core
Course Title	Startup and New Venture Management		

Course Objectives:

1	To instill a spirit of entrepreneurship among the student participants.
2	To provide an overview of the competences needed to become an entrepreneur
3	To give insights into the Management of Small Family Business

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>1.1 Concept and Definitions: Entrepreneur & Entrepreneurship, Entrepreneurship and Economic Development; A Typology of Entrepreneurs;</p> <p>1.2 Entrepreneurial Competencies: The Entrepreneur's Role, Task and Personality - Entrepreneurial Skills: creativity, problem solving, decision making, communication, leadership quality; McClelland's N-Ach theory, self – analysis, personal efficacy, culture & values, risk-taking behaviour, technology backup.</p> <p>1.3 Factor Affecting Entrepreneurial Growth: Economic, Non-Economic Factors; EDP Programmes; Entrepreneurial Training;</p> <p>1.4 Traits/Qualities of an Entrepreneurs: Entrepreneur; Manager Vs. Entrepreneur, The Early Career Dilemmas of an Entrepreneur, Defining Survival and Success , Entrepreneurship as a Style of Management , The Entrepreneurial Venture and the Entrepreneurial Organization. Entrepreneurial Process.</p> <p>1.5 Steps of entrepreneurial process: Deciding – Developing – Moving – Managing – Recognizing.</p>	7 + 2
2	<p>2.1 Opportunity / Identification and Product Selection: Entrepreneurial Opportunity Search and Identification;</p> <p>2.2 Product Selection: Criteria to Select a Product</p> <p>2.3 Conducting Feasibility Studies: Project Finalization; Sources of Information.</p> <p>2.4 Entry strategies: New product, Franchising, Partial Momentum, Sponsorship and Acquisition.</p> <p>2.5 Intellectual Property: Creation and Protection.</p>	+ 2

3	<p>3.1 Small Enterprises and Enterprise Launching Formalities: Definition of Small Scale; Rationale; Objective; Scope; Role of SME in Economic Development of India; SME; Registration; NOC from Pollution Board; Machinery and Equipment Selection.</p> <p>3.2 Project Report Preparation: Specimen of Project Report; Project Planning and Scheduling using Networking Techniques of PERT / CPM; Methods of Project Appraisal - economic viability and market feasibility, requirements of financial institutions, projected financial statement preparation.</p>	7 + 2
4	<p>4.1 Role of Support Institutions and Management of Small Business: Director of Industries; DIC; SIDO; SIDBI; Small Industries Development Corporation (SIDC); SISI; NSIC; NISBUED; State Financial Corporation SFC;</p> <p>Information : assistance from different organizations in setting up a new venture, technology parks, industrial corporations, directorate of industries / cottage and small scale industries, SISI, Khadi & Village Industries Corporation / Board.</p> <p>DGS & DNSIC, export & import, how to apply for assistance – procedure, forms, procedures for obtaining contract from Railways, Defence, P & T etc., SIDBI.</p> <p>4.2 Laws : Liabilities under the Factories Act, Shops & Establishment Act, Industrial Employment (Standing Orders) Act, Environment Protection Act, Sale of Goods Act, maintenance & submission of statutory records & returns, understanding labour - management relationship.</p>	7 + 2
5	<p>Case Studies: Diagnostic case studies of successful / unsuccessful entrepreneurs, key variables explaining success / failures, industrial sickness, industrial reconstruction, technology obsolescence, technology, transfer.</p>	7 + 2

Learning Resources:

Semester	III	Specialization	NA
Course Code	304	Type	Generic –Core[6 Credits]
Course Title	Summer Internship Project		

Course Objectives:	
1	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, and perceptions along with the experience needed to constitute a professional identity.
2	To provide means to immerse students in actual supervised professional experiences.
3	To give an insight into the working of the real organizations.
4	To gain deeper understanding in specific functional areas.
5	To appreciate the linkages among different functions and departments.
6	To develop perspective about business organizations in their totality.
7	To help the students in exploring career opportunities in their areas of interest.

Summer Internship Project: At the end of Second Semester each student shall undertake a Summer Internship Project (SIP) for 8 weeks. It is mandatory for the student to seek advance written approval from the faculty guide and the Director of the Institute about the topic and organization before commencing the SIP. The SIP may or may not have a Functional Focus, i.e. the student may take up a SIP in his/her intended area of specialization or in any other functional area of management. Ideally the SIP should exhibit a cross-functional orientation. The student shall submit a written structured report based on work done during this period on the basis of suggested guidelines and research methodology.

SIP may be a research project – based on primary/ secondary data or may be an operational assignment involving working by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace. The learning outcomes and utility to the organization must be specifically highlighted.

The report should be well documented and supported by:

1. Introduction/ Executive Summary.
2. Objectives of the Study.
3. Company/ Organization profile (including Organization Chart).
4. Research Methodology (Statement of Problem, Hypothesis (if any), Research Design.
5. Data analysis, Data Interpretation & Hypothesis Testing.
6. Relevant activity charts, tables, graphs, diagrams, etc.
7. Suggestions & Recommendations.
8. Conclusions.
9. References in appropriate referencing styles. (APA, MLA, Harvard, Chicago Style etc.)
10. Appendix (Questionnaire, Data Sheets etc.)

It should reflect the nature and quantum of work undertaken by the student. The report must reflect 8 weeks of work and justify the same.

The student shall submit TWO hard copies & one soft copy (CD) of the project report before 30th September in Semester III. One hard copy is to be returned to the student by the Institute after the External Viva-Voce.

The Institute shall conduct an internal viva-voce for evaluation of the SIP for 50 marks. The Panel shall comprise of the Internal Faculty Guide & One additional faculty nominated by the Director.

There shall be an external viva-voce for the SIP for 50 marks. The examiner's panel for the same shall include one external faculty member nominated by the University and one internal faculty member nominated by the Director. The external viva-voce shall be conducted for 15 minutes at least per student.

The Internal & the External viva-voce shall evaluate the project based on:

- Actual work undertaken by the student
- Student's understanding of the organization and business environment
- Outcome of the project
- Utility of the project to the organization
- Basic analytical capabilities

Copies of SIP report and records of evaluation shall be maintained by the Institute for a period of 3 academic years.

MBA SYLLABUS: SEMESTER III
MARKETING MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Marketing
Course Code	305MKT	Type	Subject – Core
Course Title	Contemporary Marketing Research		

Course Objectives:

1	To give the students an understanding of marketing research from both user's (management) and doer's (the researchers) perspective.
2	To design and produce, evaluate a research proposal & understand the quality of research studies.
3	To learn the basic skills to conduct professional marketing research.
4	To understand the applications of business research tools in Marketing decision making.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Marketing Research & Applications of Research Designs:</p> <p>Meaning & role of Marketing Research, Role of Information in Marketing Decisions, Marketing Research – Sequence of Steps, Meaning & Types of Research Designs – Exploratory, Descriptive & Causal, concept of validity & reliability of a research study.</p> <p>Problem Formulation, The decision maker & the environment, alternative courses of action, objectives of decision maker, consequences of alternative courses of action, Translating decision problem to research problem, Preparing & Evaluating Marketing Research proposal.</p> <p>Formulating hypotheses using exploratory research techniques like literature survey, experience survey & analysis of cases. Meaning of Qualitative research & applications of Depth Interviews & Focus Groups in marketing</p> <p>Applications of longitudinal studies in consumer panels, retail shop audit, media audience tracking studies like TRP, brand tracking studies.</p>	6+2
2	<p>Data Collection – Questionnaires & Scaling:</p> <p>Designing questionnaires & observation forms for different marketing research situations – study of consumer behavior, advertising copy research, media research like readership surveys, opinion polls, retail surveys to understand market potential, channel behavior, mystery shopping etc.</p> <p>Scale Construction, Specifying domain, generating scale items, Basic Scaling Issues like number of scale points, odd number Vs. even number of options, balanced Vs. unbalanced scale, forced Vs. unforced scale, verbal & pictorial</p>	8+2

	<p>description of response categories.</p> <p>Scale Purification Process, Deleting scale items using correlations with total score, Reliability Testing using Chronbach Alpha, Validity Testing – Face Validity, Content Validity, Construct Validity, Convergent Validity & Discriminant Validity.</p> <p>Applications of Likert, Semantic Differential & Staple Scales for positioning research, brand research, attitudinal studies, customer satisfaction research.</p>	
3	<p>Experimental Designs & Sampling:</p> <p>Experimentation in Marketing Research, Basic/ classical designs: before – after, before – after with control group, after only with control group, four groups – six study design. (Applications expected with interpretation of data)</p> <p>Statistical Designs, Randomized Block Design, Latin Square Design, Factorial Design, Applications related to Test Marketing, study of effectiveness of advertising & sales promotional campaigns.</p> <p>Case studies on sampling decisions like defining universe, sampling unit, sampling element, choice of sampling frame, determining sample size for probability & non-probability sampling methods & choice of final sample by using appropriate sampling methods in a step by step manner.</p>	6+2
4	<p>Data Analysis – I:</p> <p>Testing hypothesis for one mean, two means, two proportions. (Numerical expected with practical examples)</p> <p>Chi Square Test, Observed & Expected Frequencies, ANOVA – One & Two way (numerical expected with practical examples)</p> <p>Conjoint Analysis, Conceptual basis, procedure, type of data required, key decision, how to interpret output, applications to study trade off patterns of consumers as related to different levels of marketing mix elements (Question on interpretation of output is expected)</p> <p>Factor Analysis, Conceptual basis, type of data required, procedure, PCA, Interpreting factor matrix (factor loadings, communalities, Eigen value), determining number of factors using latent root criteria & scree test, interpreting & naming factors, applications in consumer behavior studies (Question on interpretation of output is expected)</p>	7+2
5	<p>Data Analysis – II:</p> <p>Cluster Analysis, Conceptual basis, type of data required, procedure, clustering methods – single linkage rule, how to interpret output, applications related to psychographic & lifestyle market segmentation (Question on interpretation of output is expected)</p>	8+2

	<p>Multi- dimensional Scaling & Perceptual Mapping, Conceptual basis, type of data required, key decision- attribute based versus non-attribute based approaches, procedure, how to interpret output, applications related to target market selection & positioning (Question on interpretation of output is expected)</p> <p>Discriminant Analysis (Two Group Case), Conceptual basis, type of data required, determining the coefficients, interpreting discriminant function & classifying subjects using discriminant function, applications in marketing (Question on interpretation of output is expected)</p>

MBA SYLLABUS: SEMESTER III
INFORMATION TECHNOLOGY MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Information Technology
Course Code	305IT	Type	Specialization - Core
Course Title	IT Management & Cyber Laws		

Course Objectives:	
1	To understand legal provisions of Information Technology Act, 2000.
2	To know Case Law and practical ramifications of the Act
3	To develop understanding of managerial aspects so as to use Information technology effectively and efficiently.
4	To appreciate IT Management as an independent and important field of work, different from IT for Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Hardware & Network Management – Computer Peripherals - Input – Output Technologies and Devices - Storage Technologies and Devices - Future Scenario – Managerial considerations in acquisition, maintenance, controlling, replacement of Hardware – Networking Trends – Overview of Networking Alternatives, Networking types, Networking media, Networking processors, Networking software, Networking architecture and Networking protocols	7+2
2	Application Software Management - Overview of General Purpose Application Software such as Software Suites, Messaging, Groupware, Conferencing Commercial and Corporate Tools and Overview of Application Specific Software such as Programming languages, ERP, e-Commerce, CRM, Scientific and Engineering Programs. System Software Management –Overview of Operating Systems, Network Management Programs, Database Management Programs, Servers, System Utilities, Performance and Security Monitors, System Development Programs. Managerial considerations in selection, maintenance, controlling, replacement of Software	7+2
3	(a) Security Management –Need, Case Studies – Types of Computer Crime – Cyber Law - Tools of security Management - Security Defences – System Controls and Audit (b) People Management -- I.T. Organization of a large corporation – Selection and Recruitment – Training – Retention – Performance Measurement	7+2
4	Cyber Laws: Object and Scope: Genesis, Object, Scope of the Act	7+2

	<p>Encryption - Symmetric Cryptography- Asymmetric Cryptography- RSA Algorithm - Public Key Encryption</p> <p>Digital Signature (DS): Technology behind Digital Signature - Creating & Verifying a DS - DS and PKI – Digital Signature and the Law.</p> <p>E-Governance and IT Act 2000: Legal recognition of electronic records- Legal recognition of digital signature - Use of electronic records and digital signatures in Government and its agencies.</p>	
5	<p>Certifying Authorities: Need for Certifying Authority and Powers -</p> <p>Appointment, function of Controller - Who can be a Certifying Authority? - Digital Signature Certifications - Generation, Suspension and Revocation of Digital Signature Certificate.</p> <p>Domain Name Disputes and Trademark Law : Concept of Domain Names - New Concepts in Trademark – Reverse Hijacking, Meta tags, Framing, Spamming - Jurisdiction in Trademark Dispute</p> <p>Cyber Crimes: Tampering with Computer Source Documents - Hacking with Computer System - Publishing of Information which is obscene, in Electronic Form - Offences related to Breach of Confidentiality& Privacy – Offences related to Digital Signature Certificate.</p>	7+2

Learning Resources:		
1	Text Books	<p>Cyber Law in India by Farooq Ahmad – Pioneer Books</p> <p>Management Information System Laudon, Laudon and Dass 11th Edition Pearson</p> <p>Management Information Systems Obrien, Marakas, Behl 9h EditionTata McGraw Hill</p> <p>Management Information Systems W S Jawadekar, 4th Edition Tata McGraw Hill</p>
2	Reference Books	<p>Information Technology Law and Practice by Vakul Sharma – Universal Law Publishing Co. Pvt. Ltd.</p> <p>The Indian Cyber Law by Suresh T Vishwanathan –Bharat Law house New Delhi.</p> <p>Guide to Cyber Laws by Rodney D. Ryder –Wadhwa and Company Nagpur.</p> <p>The Information Technology Act,2000 – Bare Act –Professional Book Publishers – New Delhi</p>

		IT system Management by Rich Schiesser Enterprise Computing by Alan R. Simpson
3	Supplementary Reading Material	Hand book of Cyber & E-commerce Laws by P.M. Bakshi & R.K.Suri – Bharat Law house New Delhi. The Influence of IT Management Practice on IT Use in Large Organizations Journal MIS Quarterly Author: Boynton Andrew, Zmud Robert & Jacobs Gerry
4	Websites	www.cyberlawindia.net www.asianlaws.org www.csus.edu , whatis.techtarget.com
5	Journals	Cyber Times, MIS Quarterly, University of Minnesota CSI Communications, Computer Society of India

Semester	III	Specialization	Information Technology
Course Code	306IT	Type	Specialization - Core
Course Title	E Business and Business Intelligence		

Course Objectives:	
1	To appreciate e-Business as a significant business segment of the future
2	To develop capacity to initiate/lead an e-business venture/ business segment
3	To understand principles of BI and Analytics at conceptual level
4	To develop skills to design BI and Analytics projects

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction , Background and Current Status, Case studies, e-Business Architecture - Enabling Technologies- Information distribution and messaging Technologies- Information Publishing Technology.	6+2
2	e-Business Infrastructure - e-Business Design, Capacity Planning, Performance Modeling- Mobile commerce- framework and models e-Business Models - e-Marketing, e-CRM, Internet advertising - e-Business. Security/Payment Services - e-SCM, e-Procurement - Portals- Search Engines – Online Community building.	7+2
3	e-Business Strategy into Action, Challenges, Legal Issues - Business Plan Presentation and Demonstration “Launching e-Business: From Idea to Realization”.	7+2
4	Business Intelligence: definition , concept and need for Business Intelligence, Case studies BI Basics : Data, information and knowledge, Role of Mathematical models.	8+2
5	BI Applications in different domains- CRM, HR, Production.	7+2

Learning Resources:		
1	Text Books	Decision Support and Business Intelligence Systems, Turban, Sharda, Delen, Pearson E-business by Rayudu, Himalaya Publication

2	Reference Books	<p>Business Intelligence Success Factors Tools for aligning your business in the global economy by Olivia Parr Rud, John Wiley and sons , 2009</p> <p>The Profit impact of Business Intelligence by Steve Williams and Nancy Williams , Morgan Kauffman Publishers/ Elsevier, 2007</p> <p>Business Intelligence: Practices, Technologies, and Management- Rajiv Sabherwal, Irma Becerra-Fernandez</p> <p>Knowledge Management by Jawadekar, McGraw-Hill</p> <p>e-Commerce A Manager's Guide to e-Business by Parag Diwan & Sunil Sharma</p>
3	Supplementary Reading Material	<p>The Great Mind Challenge for Business, Vol. 1 and 2, IBM (I) Pvt. Ltd, Bangalore</p> <p>E-Government, E-Business, and National Economic Performance Journal: Communications of AIS , Shirish Shrivastava</p>
4	Websites	<p>www.sas.com</p> <p>www.smartdatacollection.com</p> <p>e-business.com</p> <p>www.ecommercetimes.com</p>

Semester	III	Specialization	Information Technology
Course Code	3071T	Type	Subject - Elective
Course Title	Software Engineering with System Analysis & Design		

Course Objectives:

1	To develop theoretically sound understanding of Software Engineering Methods
2	To develop understanding of object oriented software Engineering
3	To develop ability to represent diagrammatically and in descriptive form, software engineering schemas

Syllabus:

Unit Number	Contents	Number of Sessions
1	Nature of Software, Software Engineering, Software Process, Unique Nature of WebApps, Basic System Development Life Cycle	6+1
2	Different approaches and models for System– Generic Process Model, Waterfall, Spiral, Prototyping, RAD, JAD	6+1
3	Requirements Anticipation, Requirements Investigation, Requirements Specifications	6+1
4	Use-case Driven Object oriented Analysis - Use case Diagram, Activity Diagram, Sequence diagram, Collaboration Diagram and Class Diagram	8+2
5	User Interface design	4

Learning Resources:

1	Text Books	Software Engineering Pressman, TMH, 7th Edition
2	Reference Books	System Analysis and Design Jalote, Narosa Publication, 3rd Edition Software Engineering W S Jawadekar, TMH. System Analysis & Design Elias Awad, Galgotia Publication Object Oriented Analysis and Design with Applications by Grady Booch., Benjamin / Cummings , 1994., Pearson, 3rd Edition
3	Supplementary Reading Material	Management Information System for Enterprise Applications, Adamantions Koumpis
4	Websites	www.unesco-ihe.org

5	Journals	International Journal of Software Engineering & Knowledge Management TSE - IEEE Transactions on Software Engineering SPE - Software - Practice and Experience
---	----------	---

Semester	III	Specialization	Information Technology
Course Code	308IT	Type	Subject - Elective
Course Title	Mobile Computing with Android		

Course Objectives:

1	To understand technical aspects of M-computing
2	To appreciate impact of M-computing on Information Technology scenario
3	To understand M-computing applications; initiate new applications

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Generations of mobile computing, Spectrum allocation, Standard Bodies, Players in the Wireless Space, three tier architecture of mobile computing, Mobile Computing through Internet, Basic cellular system, concept of frequency reuse channels, hand-off mechanism, cell splitting	5+1
2	GSM & GPRS : GSM features and Architecture , Network Aspects in GSM, GSM Frequency Allocation, Mobility management, hand-off mechanisms, cell splitting, Security issues used in GSM, GPRS features and architecture, network operations, data services in GPRS, applications and limitations, SMS and MMS services architecture and operation details	5+1
3	Emerging Telecommunication Technologies : Introduction, Bluetooth, EDGE, UMTS, Wireless Broadband (WiMAX), Mobile IP, Java Card, WLAN, Ad-hoc Networks, Sensor Networks, Spread Spectrum technology, CDMA, Third generation networks and applications, WAP: Model, architecture & protocol stack.	5+1
4	Security Issues in Mobile Computing: Introduction, Information security, Security techniques and Algorithms, security Protocols, Public Key Infrastructure, Trust, Security Models, Security Frameworks for Mobile Environment.	4+1
5	M-Commerce : Introduction to m-commerce :Emerging applications, different players in m-commerce, m-commerce life cycle Mobile financial services, mobile entertainment services, and proactive service Management Management of mobile commerce services: Content development and distribution to hand-held devices, content caching, pricing of mobile commerce services The emerging issues in mobile commerce: The role of emerging wireless LANs and 3G/4G wireless networks, personalized content	6+1

	management, implementation challenges in m-commerce, futuristic m-commerce services.	
--	--	--

Learning Resources:

1	Text Books	Mobile Computing (Technology, Applications and Service Creation) , Asoke. K Talukder and Roopa R. Yavagal. Tata McGraw Hill
2	Reference Books	Mobile Communication : Jachan Schiller, Adison-Wesley. Wireless and Mobile Network Architecture : Yi-Bing Lin, Wiley Mobile Commerce: Technology, Theory and Applications by Brian Mennecke and Troy J. Strader, Idea Group Publishing
3	Supplementary Reading Material	
4	Websites	techbits.co.in www.zslinc.com
5	Journals	Wireless communication & mobile computing IEEE Transactions on Mobile Computing

Semester	III	Specialization	Information Technology
Course Code	309IT	Type	Subject - Elective
Course Title	RDBMS with Oracle /MS-SQL Server		

Course Objectives:

1	To understand theoretical concepts in Relational Data Base Management
2	To develop working level proficiency for writing SQL commands
3	To develop capability to design applications for a real life DBMS problem

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of DBMS : Architecture, Data models, constraints	3
2	Relational model concept: Relational model constraints ,relational Algebra, Relational database language, Data definition in SQL, Views and Queries in SQL, Specifying constraints and Indexes in SQL, Specifying constraints management systems,	6+1
3	SQL Functions: Date - Sys_date , next_day, Add_months, last_day, months_between. Numeric - round, trunc, abs, ceil, cos, exp, floor. Character - initcap, lower, upper, ltrim, rtrim, translate, length, lpad, rpad, replace. Conversion - to_char, to_date, to_number. Miscellaneous - Uid, User, nvl, vsize, decode, rownum. Group function - avg, max, min, sum, count, with Group by and Having Clause. Nested functions.	6+1
4	Joins: Simple join Equi join Non equi join Self join Outer join Set operators (Union, union all, intersect, minus) Sub queries and Correlated query DML statements (Insert, Update, Delete with whereclause) TCL (Commit, Rollback, Saveint)	5+1

5	Tables Create, Alter, Drop, Truncate, Rename Constraints (Primary key, Foreign Key, Unique Key, Check, Default, Not Null, On delete, Cascade) Column level and Table level constraints Oracle Objects Views, Sequences, Synonyms, Index (Define, Alter and Drop)	6+1
---	---	-----

Learning Resources:		
1	Text Books	Data Base System Concept by Korth, TMH, 5 th Edition Oracle by Ivan Bayros
2	Reference Books	Introduction To Database Systems By C.J.Date, Pearson. Data Management Systems by Alexis Leon, Mathew Leon Principles of Database Management by James Martin, PHI. SQL - The complete Reference by Groff James & Weinberg Paul., TMH, 2 nd Edition.
3	Supplementary Reading Material	Oracle 7 by Ivan Bayross, BPB Pub.
4	Websites	www.thinkoracle.in
5	Journals	Development of a Relational Database Management System

Semester	III	Specialization	Information Technology
Course Code	310IT	Type	Subject - Elective
Course Title	Software Quality Assurance & CMM Levels		

Course Objectives:

1	To understand concepts and methodology related to Software Quality Assurance
2	To Know software Quality standards specifies by regulatory authorities
3	To develop capability to design Quality Testing processes in software development environment

Syllabus:

Unit Number	Contents	Number of Sessions
1	Software quality - Definition Software errors, software faults and software failures Software quality assurance – definition and objectives Software quality assurance vs. software quality control The objectives of SQA activities	5+1
2	Pre-project SQA Components Contract Review Development and Quality Plan	5+1
3	SQA components in Project life cycleactivities assessment. Verification and Validation Various types of Reviews Inspections Walkthrough Software testing Impact of CASE Tools	5+1
4	Software Quality Factors Mccall's Quality Model Product, Process quality metrics	5+1

5	Standardization ISO 9001 and ISO 9000-3 SEI-CMM IEEE 1012 standard ISO/IEC 12207 standard.	5+1
---	---	-----

Learning Resources:		
1	Text Books	Handbook of Software Quality Assurance Software Quality Assurance: Principles and Practices by Nina Godbole
2	Reference Books	Software Quality Assurance from theory to implementation – Danial Galin Software Project management - Edwin Bennatan Project Management Body of Knowledge – PMI
3	Supplementary Reading Material	Software Engineering Roger S. Pressman, TMH, 7 th Edition.
4	Websites	www.softwarecertifications.org www.softwareqatest.com
5	Journals	Software Quality Journal

Semester	III	Specialization	Information Technology
Course Code	311IT	Type	Subject - Elective
Course Title	E-Learning Tools & Methods		

Course Objectives:

1	To understand e-learning as an emerging educational technology
2	To learn use of tools/ technologies used for e-learning based pedagogy
3	To develop capability to initiate e-learning project(s)

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: e-learning- definition. Why e-learning? Elements of e- learning, e-learning content- dimensions, Risks in e-learning, ROI , e- learning cycles, Implementation.	5+1
2	Types of e-learning and technologies required: Learner- led e-learning Facilitated e-learning, Instructor- led e-learning, Embedded e-learning Tele-mentoring and e-coaching, Categories of software tools	5+1
3	Hardware and Networks for e-learning: Selection of e-learning Hardware, network for e-learning, types of networks, private network, private networks, internet, TCP/IP , wireless internet connection.	5+1
4	Tools for accessing e-learning: Web browsers, media players and viewers Tools for offering e-learning: Web servers, LMS- Learning Management Systems , Learning Content Management Systems, Collaboration tools, Virtual- School systems, media servers Tools for creating e-learning content: Course authoring tools, web site authoring tools, how they work?, an overview of popular web site authoring tools, alternatives to web authoring tools, blogging tools, testing and assessment tools Other Tools: Media Editors, Content Converters	5+1
5	Standards For e-learning: Standards for packaging, communication, Metadata, Quality standards , other standards and regulation	5+1

	Trends in e-Learning: Always Online, All information online, All Media digital, Emergence of HDTV video standard, Force or haptic feedback, Telepresence, immersive simulations, embedded system.

Learning Resources:		
1	Text Books	<p>E- learning strategies – How to get implementation and delivery right first time by Don Morrison, John Wiley and sons Ltd.</p> <p>Methodologies, Tools and New Developments for E-Learning</p>
2	Reference Books	<p>Delivering E- learning : A complete strategy for design, application and assessment – by Kenneth Fee , Kogan Page London and Philadelphia, 2009</p> <p>E- Learning Tools and Technologies a consumer's guide for trainers, teachers, educators and instructional designers – William Horton, Katherine Horton, Wiley.</p>
3	Supplementary Reading Materia	
4	Websites	<p>www.e-learningconsulting.com</p> <p>www.elearningnc.gov</p>
5	Journals	Journal of e-Learning and Knowledge Society

Semester	III	Specialization	Information Technology
Course Code	312IT	Type	Subject - Elective
Course Title	Software Marketing		

Course Objectives:

1	To understand facets of software marketing as a field of study
2	To develop in depth of understanding of Software Marketing Practices
3	To assist in developing capability to market the software

Syllabus:

Unit Number	Contents	Number of Sessions
1	Global and Indian Software Industry Environment: Historical Growth of the Industry, Market Size, Nature of Products, Projects and Services, Major Players, Industry Associations and their role in market development, Overview of India's Software Export Industry	5+1
2	Services Marketing Mix: 7 Ps of Services Marketing – Service Life Cycle Strategic Aspects of Software Marketing - Identification of potential markets, Industry/ Business analysis and creating/ sustaining competitive advantage - Segmenting, Targeting and Positioning.	5+1
3	Promotion: Role of Promotion in Software Marketing; Personnel Selling, Advertising and Sales Promotion; Trade Shows, Role of Relationship Marketing in promoting software	5+1
4	Distribution: Place – Distribution Strategies for Software Products / Services; Challenges in distribution of Software Products and Services; Role of Internet in distribution of Software Products and Services. Pricing: Factors involved in pricing software Products, Price estimating for Software Projects	5+1
5	Customer Satisfaction & Service Quality: Monitoring and Measuring customer satisfaction. Applying technology to service settings, e-services. Role of People, Process and Physical Evidence in Software Products and Services	5+1

Learning Resources:

1	Text Books	Services Marketing - Zeithaml, Bitner, Gremler&Pandit, TMGH, 4 th Edition.
---	------------	---

2	Reference Books	Services Marketing – Rampal& Gupta Software That Sells : A Practical Guide to Developing and Marketing your Software Project, Edward Hasted
3	Supplementary Reading Material	Services Marketing - Christopher Lovelock
4	Websites	www.softwaremarketingresource.com www.softwareceo.com
5	Journals	Journal of Services Marketing

Semester	III	Specialization	Information Technology
Course Code	313 IT	Type	Subject - Elective
Course Title	IT for Retailing & Online Shopping		

Course Objectives:

1	To understand IT in Retail as an important field of practice
2	To know concepts and technologies related to IT in retail

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Role of IT in Retail Trade, Advantages of IT in Retail Trade like Cost productivity benefits and Marketing benefits, Competitive advantages of Information technology, limitations of using IT, Essential Requirements of an Information System for retail.	5+1
2	Applications of IT in Retail Management: Inventory control, POS - Point of sale, Sales Analysis, Planning and Forecasting, CPFR- Collaborative Planning, Forecasting and Replenishment. Capturing and transmitting data at POS , advantages, elements of data capture – coding system code symbology Means of data capture Database marketing, Data Mining, Data Mart	5+1
3	Technology for retail Management: POS - Point of Scale Technologies available Barcode scanning, electronic shelf tags, self-checkouts, RFID tags, fingerprint authentication. Evolution of Retail Management Systems: Introduction to self-service, supermarkets, atomistic retail to regional networks/ chain stores, POS to point of purchase, push action to push strategy, Point of Differentiation, Point of Customer.	5+1
4	Web based retailing/ E- Retailing/ E Commerce (B2C): Kinds of retailers engaged in electronic commerce: virtual retailers, two channel retailers, Multichannel retailers Role of Internet, Benefits of Internet, Monitoring the progress of an internet e- retail business, limitations of the web.	5+1

	Emergence of eBay, Amazon and others, comparison of web based retailing and other forms of retailing.	
5	<p>Future trends : Smart cards, E-cash, Multimedia kiosks, Customer specific offers, Electronic body scanners, Electronic shelf front</p> <p>Retail management Systems in the market:ERP systems like SAP and PeopleSoft, Specialized retail software providers like JDA, Retek, Essentus, SANDMAR RM 6000 and others, Open source software.</p>	5+1

Learning Resources:

1	Text Books	Information Technology for retailing by Khurana Pub McGraw Hill
2	Reference Books	Retail Business Management by R. Perumalsamy, Anmol Publications, 2010 Retail Management by Arif Sheikh and Kaneez Fatima, Himalaya Publishing House, 2008.
3	Supplementary Reading Material	Advanced Technologies Management for Retailing - Framework and Cases by Eleonora Pantano and Harry Timmermans, Business Science Reference, 2011
4	Websites	www.retailsystems.com
5	Journals	Journal of Retailing and Consumer Services

Semester	III	Specialization	Information Technology
Course Code	314IT	Type	Subject - Elective
Course Title	Technical Writing		

Course Objectives:

1	To understand Technical Writing at conceptual level
2	To learn tools and techniques as well as approaches to technical writing
3	To develop expertise with a view to taking up technical writing as a career

Syllabus:

Unit Number	Contents	Number of Sessions
1	What is technical writing? – Case studies Role of technical writer- creating user guides, reference, readme, release notes, documentation procedure technical presentations, training slides, online help (preparation and integration.)marketing brochures, web pages, concept note, specs, project proposals company newsletter, CVs, effective emailing guidelines	5+1
2	Quality Characteristics for technical writing Ease of use: Task orientation, Accuracy, Completeness Easy to understand: Clarity, correctness, strike Easy to find: Organization, Retrievability, Visual effectiveness	5+1
3	Audience analysis: tailoring documents for a specific audience. Creating a thesis statement, developing an outline, pre-writing, refinement. Overcoming writer's block/writer's anxiety. Adding emphasis in writing. Annotated bibliographies. Avoiding plagiarism. Conciseness, clarity. Establishing arguments. Paragraphs and paragraphing. Quoting, paraphrasing, and summarizing. Sentence variety. Using appropriate language. Proofreading your writing; parallels in proofreading and debugging.	5+1
4	Writing white paper/ technical report, research paper, report abstracts, manuals and documentation. Effective workplace writing: accentuating the positives, prioritizing your concerns for effective business writing; memo writing, email etiquette, revision in business writing, tone in business writing, model letters for various purposes.	5+1
5	(a)Document types to be covered Business Writing – RFI (Request for	5+1

	<p>information) and RFP (Request For proposal) structure, Writing RFI ,RFP</p> <p>Contents of an Installation manual , Writing an Installation manual</p> <p>Contents of a s/w user manual , Writing a s/w user manual</p> <p>What is a white paper? Contents of a white paper , writing white papers</p> <p>CBT(Computer based training) , Structure of CBT, Preparing CBT</p> <p>Preparing a tutorial</p> <p>(b)Tools of technical writing MS Word, Ms Excel, Ms- PowerPoint, TechSmith SnagIT, Adobe PDF, Adobe Robohelp</p>	
--	---	--

Learning Resources:		
1	Text Books	Technical Writing, Process and Product, Sharon Gerson, Steven Gerson, Pearson
2	Reference Books	<p>Engineers Guide to technical writing by Kenneth G. Budinski, ASM International , 2001</p> <p>Science and Technical Writing A Manual of style edited by Philip Reubens, Routledge</p> <p>The Best Software Writing I selected and introduced by Joel Spolsky, Apress, 2005</p> <p>Technical Communication' by Mike Markel</p>
3	Supplementary Reading Material	Developing Quality Technical Information A Handbook of Writers and Editors, IBM Press, 2004
4	Websites	<p>The Online Writing Labs (OWL) family of websites http://owl.english.purdue.edu/;</p> <p>specially, http://owl.english.purdue.edu/workshops/hypertext/</p> <p>http://www.twin-india.org/ - Twinbook 1.chm and Twinbook2.chm</p> <p>http://techwhirl.com</p> <p>www.tc.eserver.org-The most comprehensive virtual library for technical communicators on the Web.</p> <p>http://mysite.verizon.net/resnx4g7/</p> <p>http://www.greatuserdocs.com</p> <p>http://www.io.com/~hcexres/textbook/ - Basic online textbook on technical</p>

MBA
SYLLABUS: SEMESTER III
OPERATIONS MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Operations Management
Course Code	305OPE	Type	Specialization –Core
Course Title	Planning & Control of Operations		

Course Objectives:

1	To give an overview of Planning & Control of Operations
2	To explain the role of forecasting in the operations planning process.
3	To explain the need for aggregate planning and the steps in aggregate planning.
4	To explain how is capacity planning done in organizations and what is its relationship with MRP.
5	To highlight the importance of scheduling in operations management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Planning & Control of Operations: Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation.	7 + 2
2	Demand Forecasting: Forecasting as a planning tool, Why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system.	7 + 2
3	Aggregate Production Planning: Planning Hierarchies in operations, Aggregate Production planning, Need for Aggregate Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling.	7 + 2
4	Resources Planning: Dependent Demand Attributes, Planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services.	7 + 2
5	Scheduling of Operations: Need for Scheduling, Scheduling – Alternative terms, Loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in	7 + 2

	Mass production systems.	
--	--------------------------	--

Learning Resources:		
1	Text Books	Operations Management: Theory and Practice by B Mahadevan, Pearson, 2 nd Edition.
2	Reference Books	Operations Management by Terry Hill, Palgrave, 2 nd Edition The fundamentals of Production Planning and Control by Stephen Chapman, Pearson, 1 st Ed.
3	Supplementary Reading Material	Operations Now by Byron Fitch, TMGH, 3 rd Edition.
4	Websites	www.apics.org
5	Journals	<p>Demand Forecasting and Smoothing Capacity Planning for products with high random demand volatility by Huang, M.-G.; Chang, P.-L.; Chou, Y.-C., International Journal of Production Research, Jun2008, Vol. 46 Issue 12</p> <p>Adaptive Exponential Smoothing versus Conventional Approaches for lumpy Demand Forecasting: case of production planning for a manufacturing line by Quintana, R.; Leung, M. T., International Journal of Production Research, Nov2007, Vol. 45 Issue 21, p4937-4957, 21p</p> <p>Forecasting Inventory: Using Demand to Determine Supply by Wilson, Eric., Journal of Business Forecasting, Fall2008, Vol. 27 Issue 3</p> <p>Forecasting Demand for Single-period products: A case study in the Apparel Industry by Mostard, Julien; Teunter, Ruud; de Koster, René., European Journal of Operational Research, May2011, Vol. 211 Issue 1</p> <p>Modeling of Multi-period Multi-product Production Planning considering Production Routes by Mahdavi, Iraj; Taghizadeh, Kaveh; Bagherpour, Morteza; Solimanpur, Maghsud., International Journal of Production Research, Mar2012, Vol. 50 Issue 6</p> <p>Forecasting Aggregate Demand: An Analytical Evaluation of Top-down versus Bottom-up Forecasting in a Production Planning framework by Widiarta, Handik; Viswanathan, S.; Piplani, Rajesh. International Journal of Production Economics, Mar2009, Vol. 118 Issue 1</p> <p>Making MRP Work by Diehl, Gregory W.; Armstrong, Aaron J.. Industrial Engineer: IE, Nov2011, Vol. 43 Issue 11</p>

Semester	III	Specialization	Operations Management
Course Code	306OPE	Type	Specialization –Core
Course Title	Inventory Management		

Course Objectives:

1	To give an overview of various aspects of inventory.
2	To explain the impact of types of inventory costs on inventory management decisions.
3	To explain the principles of JIT

Syllabus:

Unit Number	Contents	Number of Sessions
1	Elements of Inventory Management: Inventory concepts, Pressures for Low Inventory, Pressures for High Inventory, Role of inventory in Operations, Types of inventory – seasonal, decoupling, cyclic, pipeline, Safety stock. Inventory costs – carrying costs, ordering costs, shortage costs.	7 + 2
2	Inventory Control systems: Continuous Review (Q) systems, Periodic Review (P) systems, ABC Classification system, Issues in the P and Q systems of inventory control.	7 + 2
3	Economic Order Quantity Models: The Basic EOQ Model, Production Quantity Model, Computer Solution of EOQ model with MS Excel, Quantity Discounts, Computer Solution of Quantity Discounts model with MS Excel, Reorder Point, Safety Stocks, Service Level, Reorder point with variable demand, Computer Solution of Reorder point with MS Excel, Order quantity for periodic inventory system, Order quantity with variable demand, Computer Solution of fixed period model with MS Excel	7 + 2
4	Just-In-Time: Principles of just-in-time, Core logic of JIT, Main features for stocks, Achieving just-in-time operations, Other effects of JIT, Benefits and disadvantages of JIT, Comparison with other methods of inventory management. KANBAN as a control tool. Vendor managed inventory.	7 + 2
5	Make Or Buy Decisions: Factors influencing Make Or Buy Decisions-cost, quality, capacity core v/s noncore, management strategy. Evaluation of performance of Materials function: cost, delivery, quality, inventory turnover ratio methodology of evaluation, Use of ratios and analysis like FSN: Fast slow, Nonmoving, HML-High Medium, Low, XYZ. Materials Management In JIT Environment:	7 + 2

Learning Resources:		
1	Text Books	<p>Operations Management: Theory and Practice by B Mahadevan, Pearson, 2nd Edition.</p> <p>Operations Management-Process and Value Chains by Krajewski, Ritzman, Malhotra, Pearson, 8th Edition.</p>
2	Reference Books	<p>Operations Management: Quality and Competitiveness in a Global Environment by Russell and Taylor, Wiley India.</p> <p>Introduction to Materials Management by J.R.Tony and Arnold.</p>
3	Supplementary Reading Material	<p>Inventory Control and Management by Donald Waters, Wiley Student Edition, 2nd Ed.</p> <p>Just-in-Time Manufacturing by Korgaonker, Macmillan</p> <p>Essentials of Inventory Management by Max Muller, JAICO Publishing, 1st Edition.</p>
4	Websites	<p>www.inventorymanagementreview.org</p> <p>www.effectiveinventory.com</p>
5	Journals	<p>Material Management Review- Institute of Material Management</p> <p>Production & Inventory Management - APICS</p>

Semester	III	Specialization	Operations Management
Course Code	307OPE	Type	Subject - Elective
Course Title	Productivity Management		

Course Objectives:

1	To understand and appreciate significance of productivity management
2	To study various productivity management methods
3	To learn applicability of popular productivity management tools

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Importance and significance of productivity, Productivity concepts – Macro and Micro factors of productivity, productivity from product and service perspective, different inputs and productivity measures, Various ratios related to finance, material and service.	3+1
2	Value Analysis and Value Engineering: Concept of Cost, Price and Value, Role in Productivity, Procedure – Application and productivity benefit model.	3+1
3	Work Study: Importance of work study – Method Study and Work Measurement – Pioneers of Performance Measurement Method Study: Need for Method Study – Procedure of Method Study –Process Flow charts, Man machine diagrams ,Principles of Motion Economy	6+1
4	Work Measurement: Techniques of Work Measurement including Estimating, Stopwatch Time Study, Predetermined Time Standards, Synthetic Estimates of Work, Times, Activity Sampling. Computation of Standard Time – Elements – Types of Elements – Performance Rating – Allowances – Need for Allowances – Types of Allowances	8+1
5	Advanced Methods of Productivity and service level enhancements: Overview of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing, Use of Technology in productivity and service enhancements: ITeS, CAD, CAM, CIM, CMMI.	5+1

Learning Resources:

1	Text Books	Productivity Measurement for Business Excellence by Prem Vrat, G.D. Sardana, B.S. Sahay, Narosa Publishing House. Operations Management for Competitive Advantage by Richard B Chase,
---	------------	--

		Jacobs, Aquilano, Agarwal, TMGH, 11 th Edition.
2	Reference Books	Introduction to Work Study Edited by Geirge Kanawaty, Universal Publishing, 4th Edition.
3	Supplementary Reading Material	Production and Operations Management by S.N.Chary, TMGH, 4th Edition
4	Websites	www.npcindia.org
5	Journals	International Journal of Operations & Production Management International Journal of Business Performance Management Journal of Applied Economics International Journal of Management Journal of Management Information Systems

Semester	III	Specialization	Operations Management
Course Code	308OPE	Type	Subject - Elective
Course Title	Maintenance Management		

Course Objectives:

1	To understand importance and role of Maintenance Management
2	To acquaint with various alternatives of Maintenance Management
3	To understand use of decision tools for Maintenance Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Need and Importance of Maintenance Management: Maintenance versus Aggregate production planning, Maintenance versus Scheduling, Maintenance versus Quality Control, Equipment Life Cycle, Measures of Maintenance Performance – Mean Time Between Failure (MTBF) and Mean Time to Repair (MTTR) , Availability.	5 + 1
2	Requirements for Effective Maintenance Management: Catalogues of Equipment, Maintenance Policy, Maintenance Manual, Troubleshooting Mechanisms, Fault – tree Analysis, Maintenance Information Systems.	5 + 1
3	Maintenance Alternatives: Routine Inspection, Preventive Maintenance, Predictive Maintenance, Breakdown Maintenance, Planned Shutdowns / Major Overhaul, Equipment Replacement.	5 + 1
4	Decision tools for Maintenance Management: Optimum Preventive maintenance policy, group replacement policy, equipment replacement decision, Spare parts management: Types of spares, Vital Essential and Desirable, Inventory planning for spares.	5 + 1
5	Total Productive Maintenance: TPM Overall equipment effectiveness , TPM Methodology , TPM implementation, Technology in maintenance	5 + 1

Learning Resources:		
1	Text Books	<p>Operations Management : Theory and Practice by Mahadevan, 2nd Edition, TMGH</p> <p>Operations Management by Norman Gaither & Greg Frazier, Cengage Learning, India Ed.</p>
2	Reference Books	Production & Operations Management by Alan Muhlemann, John Oakland, Keith Lockyer, Macmillan India Ltd.

Semester	III	Specialization	Operations Management
Course Code	309OPE	Type	Subject - Elective
Course Title	Facilities Planning		

Course Objectives:

1	To emphasize the importance of facilities planning in view of the size of investment.
2	To make the student understand the linkages of facilities planning with other activities
3	To underline the importance of facilities location

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Facilities Planning: Facilities planning defined, Significance of Facilities Planning, Objectives of Facilities Planning, Long Range Capacity Planning, Facilities Planning process, Strategic Facilities Planning, Developing Facilities Planning Strategies, Examples of Inadequate Planning. Impact of Environmental Issues on Facilities Planning.</p> <p>Product, Process and Schedule Design: Introduction, Product Design, Process Design, Schedule Design, Facilities Design.</p>	5 + 1
2	<p>Logistics and Facilities Location: Logistics, Decisions related to Logistics, Issues in Facilities location – Market related factors, Cost-related factors, Regulatory and Policy Issues, Location Planning Methods – Location Factor rating, Centre-of-gravity method, Load-distance method, Transportation Model. Locating Service Facilities, Relocation aspects,</p>	5 + 1
3	<p>Layout Planning: Concept of Layout, Basic Layout Types, Layout Procedures, Algorithmic approach, Department Shapes and Aisles, Multi-floor facility layout, Commercial Facility Layout, Impact of change, Developing alternative layouts. Introduction to ALDEP and CORELAP.</p> <p>Facilities design for various Facilities Functions: Warehouse operations – Functions of Warehouse, Receiving and Shipping Operations, Dock Locations, Storage Operations, Order Picking Operations.</p>	6 + 1
4	<p>Service Facilities Layout: Nature of Services, Operational Classification of services, Structuring the service encounter, Service blueprinting and fail-safing, Role of floor manager in service sectors such as – Hospital, Hotel, Airlines and airports.</p>	4 + 1
5	<p>Flow Space and Activity Relationships: Departmental Planning, Activity Relationships, Flow Patterns, Flow Planning, Measuring Flow, Space Requirements.</p>	5 + 1

	<p>Personnel Requirements: Employee-Facility Interface, Restrooms, Food Services, Health Services, Barrier-Free Compliance, Office Facility Planning.</p> <p>Material Handling: Scope and Definition of Material Handling, Material Handling Principles, Designing Material Handling Systems, Unit Load design, Material Handling Equipment, Estimating Material Handling costs, Safety Considerations.</p>

Junell. Industrial Engineer: IE, Mar2012, Vol. 44 Issue 3</p> <p>A Conceptual model for barrier free facilities planning, Soares, Marcelo M.; Jacobs, Karen; Bittencourt, R.S.; de M.Guimarães, L.B. Work, 2012, Vol. 41</p>

Semester	III	Specialization	Supply Chain Management
Course Code	310OPE	Type	Subject - Elective
Course Title	Manufacturing Resource Planning		

Course Objectives:

1	To understand role and importance of Manufacturing Resource Planning (MRP II)
2	To know the inputs, processing and outputs of MRP II

Syllabus:

Unit Number	Contents	Number of Sessions
1	Master Production Scheduling (MPS): Introduction to MPS, Need, objectives & functions of MPS, Role of MPS in management- as a “Link between strategic and tactical planning”, Logical flow of materials in different manufacturing scenarios (VAT Analysis), Planning horizons and Time periods (Buckets) of MPS, Order management in MPS, Safety and hedges, Projected Available Balance (PAB) and Available To Promise (ATP), Time Fences & effect of changing MPS decisions on time fences, Final Assembly Schedule (FAS).	5 + 1
2	Material Requirements Planning (MRP-I): Introduction to MRP-I, Roles & functions of MRP-I, Independent & Dependent Demand, Bill of Materials (BOM), Types of BOM, Numerical Problems on BOM, Lot-sizing, MRP-I as Input & Output Process, MRP-I Spreadsheet problem, Pegging reports & where-used files.	5 + 1
3	Capacity Management: Introduction to ‘Capacity’ and ‘Capacity management’, Capacity Expansion Strategies, Capacity Planning levels vis-à-vis Manufacturing planning levels, Capacity measurement, Rough Cut Capacity Planning (RCCP), Capacity Requirement Planning (CRP), Shop Calendar, Scheduling strategies- Backward & Forward scheduling, Infinite & Finite loading, Production smoothing policies.	5 + 1
4	Manufacturing Resource Planning (MRP-II)- (Module-I): Introduction to MRP-II, Roles & functions of MRP-II, MRP-II framework, Information flow in MRP-II, Relation of MRP-II with Demand management and Capacity management, Manufacturing calendar.	5 + 1
5	Manufacturing Resource Planning (MRP-II)- (Module-II): Transition from MRP-I to MRP-II, Closed loop MRP, Comparison between MRP-I and MRP-II, Plant & supplier scheduling, Problems associated with MRP-II, Benefits and prospects of MRP-II, Compatibility between MRP-II & Just-in-Time (JIT).	5 + 1

Learning Resources:		
1	Text Books	<p>Manufacturing Resource Planning (MRP II) with introduction to ERP, SCM and CRM by Khalid Sheikh, TMGH, 1st Edition</p> <p>Operations Management – Theory & Practice by B. Mahadevan , Pearson Pub., 2nd Edition</p>
2	Reference Books	Plossl, George, Orlicky's Material Requirement Planning, McGraw-Hill, Inc, 2 nd Edition, 1994
3	Supplementary Reading Material	Operations management by William J, Stevenson, Tata McGraw Hill Companies – 9 th Edition
4	Websites	www.apics.org/
5	Journals	<p>Materials and Capacity Requirements Planning: (APICS) CPIM Certification Review Course, Student Guide by John, Ralph E St., APICS, Revision 3, 1993</p> <p>Managing in an Age of Modularity by Baldwin, Carliss Y and Kim B Clark, Harvard Business Review, Vol. 75, No. 5, September-October 1997</p> <p>Assemble to Order Manufacturing: Implications for Materials Management by Wemmerlov, U, Journal of Operations Management, Vol. 4,(4), 1984</p> <p>Shop floor Control edited by Wassweiler, William R in James H Greene (Editor), Production and Inventory Control Handbook, 3rd Edition, McGraw-Hill, 1997</p>

Semester	III	Specialization	Operations Management
Course Code	311OPE	Type	Subject - Elective
Course Title	Technology Management		

Course Objectives:

1	To highlight the role of technology and innovation as drivers of value and competitive advantage.
2	To provide conceptual foundations in managing innovation and technology.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction & Importance of Technology Management: Technology - Definition and Characteristics , Technology trends, Market Based and Resource Based view, Impact of technology on business, Forms of technological change, Concept and significance of management of technology, Technological environment-meaning, importance : recent developments in Technological environment - Globalization, Time Compression, Technology integration, Induced & Autonomous changes in the Technological environment, Competitive advantages through new technologies.	5 + 1
2	Innovation Management: Concept of Innovation; invention and creativity: role and relationship with innovation, Drivers and process of innovation– firm & technology level, Classification of innovation management of innovation. Technology Evolution – S curve of technology evolution, Technology progression, Technology change agents, Evolutionary characteristics of technological change, uncertainty and technological insularity.	5 + 1
3	Technology Sources and Research & Development Management: Sources of technology, Process of new product development; Reasons of failures of hi-tech products: Strategy to avoid product failure in market. Process of bringing hi-tech product from development to market: Managing R& D Organization –issues and recent trends. Linkage between technology, development and competition, Significance of managing Intellectual Property Rights in context of technology management, strategic issues in managing IPR.	5 + 1
4	Technological Forecasting: Meaning of Technology forecasting, uses of Technology forecasting, Technology forecasting techniques : Exploratory and Normative: technique; Process and application of techniques like Delphi, Growth Curves, S- curve, Pearl Curve, Gompertz curve : Relevance Tree, Morphological Analysis, Mission Flow Diagram Technology strategy: concept, key principles, framework for formulating technology strategy, Linkage of technology strategy with business strategy, Issues	5 + 1

	in technology strategy,	
5	Technology and Organizational Issues: Technological change and Industrial Relations, Technology Assessment and Environmental Impact Analysis Integration of People and Technology, Organizational and Psychological Factors, Organizational Structure.	5 + 1

Learning Resources:

1	Text Books	<p>Strategic Technology Management by Betz. F. , McGraw-Hill</p> <p>Managing Technology and Innovation for Competitive Advantage by V K Narayanan, Pearson Education Asia</p> <p>Management of Technology by Tarek Khalli , McGraw-Hill</p> <p>Strategic Management of Technological Innovation by Schilling , McGraw-Hill, 2nd Edition</p>
2	Reference Books	<p>Strategic Management of Technology & Innovation by Burgelman, R.A., M.A. Madique and S.C. Wheelwright , Irwin</p> <p>Handbook Of Technology Management by Gaynor, McGraw Hill</p> <p>Managing New Technology Development by Souder, W.C. and C.M. Crawford, McGraw-Hill</p>
3	Supplementary Reading Material	<p>Managing Technological Innovation by Twiss, B., Pitman</p> <p>Bringing New Technology to Market by Kathleen R Allen, Prentice Hall India</p> <p>Management of New Technologies for Global Competitiveness by Christian N Madu, Jaico Publishing House</p>
4	Websites	<p>http://www.tifac.org.in/</p> <p>http://ec.europa.eu/enterprise/policies/innovation/index_en.htm</p>
5	Journals	<p>The use of Manufacturing Technologies - An External Influence Perspective by Das, Ajay; Nair, Anand., International Journal of Production Research, Sep 2010, Vol. 48 Issue 17</p> <p>Research on Technical Strategy for New Product Development based on TRIZ Evolution Theory by Fu-ying Zhang; Yan-shen Xu., International Journal of Product Development, 2007, Vol. 4 Issue ½</p> <p>A Framework for the Assessment of an Organization's Innovation Excellence by Dervitsiotis, Kostas N., Total Quality Management & Business Excellence, Sep 2010, Vol. 21 Issue 9</p>

Semester	III	Specialization	Operations Management
Course Code	312OPE	Type	Subject - Elective
Course Title	Six Sigma		

Course Objectives:	
1	To provide a comprehensive understanding of six sigma
2	To introduce the six sigma methodology and philosophy
3	To learn how to manage change and sustain benefits
4	To learn how to listen and map customer requirements
5	To start executing and delivering project

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Enterprise-wide Deployment</p> <p>1.1 Six Sigma and Lean : Brief history of performance initiatives- Quality Control, TQM, Cost of Quality, Customer quality Management, SPC, Reengineering, Six Sigma, Theory of Constraint, Lean manufacturing.</p> <p>1.2 Business Process Management : Introduction to Six Sigma-As a metric, As a methodology, As a management System. Six sigma Evolution and approach Lean as a Business Management Strategy, Key elements of lean. Types of lean initiatives, Implementing lean initiatives</p>	5 + 1
2	<p>DMAIC model for implementing Six Sigma.</p> <p>2.1 Define: Project Selection, Developing the team, DMAIC & DMADV, Deliverables, Tollgate Questions</p> <p>2.2 Measure: Determining X variables, Cause and Effect Diagram & Matrix, Overview of MSA, Data Collection Plan – Forms, Baselineing the y data, DPMO, Capability Indices, COPQ, Yield, Tollgate Questions</p> <p>2.3 Analyze: Tools for identifying Root Causes: Histogram, Boxplot, Scatter Plot, Matrix Plot, DotPlot, Run Chart, Multi-Vari Chart, 5 Why's</p> <p>2.4 Improve: Generating Solutions, Random Simulation, Six Thinking Hats, Mind Mapping, Challenge Assumptions, Decision Making Tools for Selecting Solutions – Pairwise Ranking, Solution Matrix, Force Field Analysis, Costs and Benefits, Pilot Plan, Potential Problem Analysis – Mistake Proofing, Risk Assessment Matrix and Control Assessment Matrix, FMEA, Contingency Plan, Verification Plan, Tollgate Questions</p>	7 + 1

	2.5 Control: Solution Planning, Process Control Plan, Review Meetings, Updated flowcharts & procedures, Control Charts, Out Of Control Action Plan, Project Conclusion Activities	
3	Six Sigma Impact measurement Financial and Performance measurement: Lack of Clear Goals and Metrics linked to Measurable Business Goals, Mismatches between Traditional Accounting and Improvement Campaigns. Metrics That Impact – Revenue Growth, Cost Savings, Productivity Improvement, Reduced Cost of Poor Quality, Cash Flow Improvement, Faster product / service cycle times, Freed up engineering and /or sales / service time, Freed up other indirect time, Cost avoidance savings. Seven Elements of Six Sigma Scorecard	5 + 1
4	Six Sigma in non-manufacturing environments: MSA in the DMAIC Cycle. MSA Psychology. Why Non-Manufacturing Processes are Different, MSA Repeatability & Reproducibility (R&R) Studies. Gauge R & R. Comparison of MSA Acceptance Criteria	5 + 1
5	Projects in Six Sigma-Use of DMAIC Cycle	3 + 1

Learning Resources:

1	Text Books	The Six Sigma Black Belt Handbook by MacCarty, Daniels, Bremer and Gupta, TMGH, 2010 Edition Juran Institute's Six Sigma Breakthrough and Beyond by De Feo and Barnard, TMGH. What is Six Sigma? by Peter Pande, TMGH Six Sigma Management by Blashka, TMGH All about Six Sigma by Warren Brussee, TMGH.
2	Reference Books	TPS-Lean Six Sigma by Hubert Ramprasad, Sara Books Pvt.Ltd.
3	Supplementary Reading Material	The Certified Six Sigma Black Belt Hand Book, Donald Benbow, Pearson Publication Achieving Business Excellence by Pravin Rajpal, Om Books International, India.
4	Websites	http://asq.org
5	Journals	What , Why and How: The importance of statistical thinking for SixSigma , Krishnamoorth, K. S., Industrial Engineer: IE, Oct 2011, Vol. 43, Issue 10 In pursuit of implementation patterns: the context of Lean and SixSigma, Shah, R.; Chandrasekaran, A.; Linderman, K.. International Journal of Production

		Research, Dec2008, Vol. 46 Issue 23 Critical analysis of SixSigma implementation , Moosa, Kamran; Sajid, Ali. Total Quality Management & Business Excellence, Jul2010, Vol. 21 Issue 7
--	--	---

Semester	III	Specialization	Operations Management
Course Code	313OPE	Type	Subject - Elective
Course Title	Designing Operations Systems		

Course Objectives:	
1	To give an overview of the various process options in Manufacturing and Services.
2	To give insights into factors that influence process choice.
3	To impart fundamental concepts in Job Design and Work Measurement.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Process Analysis: Process Analysis, Process Flowcharting, Types of Processes, Measuring Process Performance, Examples of Process Analysis, Process Throughput Time Reduction	5 + 1
2	Job Design & Work Measurement: Job Design Decisions, Behavioural Considerations in Job Design – Degree of Labour Specialization, Job Enrichment, Sociotechnical Systems, Work Measurement and Standards – Time Study, Work Sampling, Comparison	5 + 1
3	Designing Manufacturing Processes: Factors involved in making products, Types of Manufacturing processes – Project, Jobbing, Batch, Line& Continuous Processing. Product Categories & Manufacturing Processes- Relationship & Choices. Implications reflected in manufacturing process alternatives. Hybrid Processes – Batch Layout, Cellular Layout	5 + 1
4	Designing Service Processes I: Characteristics of Service Operations, Factors involved in delivering services – Nature of technology / people mix, Nature of service, Complexity of service, Volumes. Overall Design of Service Delivery System. Service Blueprinting and fail-safing. Service Delivery System – detailed design – Phase I:back office or front office, Phase II: The delivery system (Non repeat services, Repeat services, single step or multi step processes).	5 + 1
5	Designing Service Processes II: Three contrasting Service Designs – Production line approach, Self-service approach, Personal attention approach. Managing customer introduced variability, Applying behavioral Science to	5 + 1

	Service Encounters.	
--	---------------------	--

Learning Resources:		
1	Text Books	<p>Operations & Supply Management by Chase, Shankar, Jacobs, TMGH, 12th Edition.</p> <p>Operations Management – Terry Hill, Palgrave Macmillan, 2nd Edition.</p>
2	Reference Books	Operations Management by Krajewski, Ritzman, Malhotra, Pearson, 8 th Edition.
3	Supplementary Reading Material	Achieving Business Excellence by Pravin Rajpal, Om Books International, India.
4	Websites	http://www.servicedesigntools.org/tools/35
5	Journals	<p>How important is the batch splitting activity in scheduling of virtual manufacturing cells (VMCs)? by Kesen, Saadettin Erhan; Gungor, Zulal., International Journal of Production Research, Mar2011, Vol. 49 Issue 6</p> <p>The method in work design. Some recommendations based on experience obtained in job design byde Jong, J. R. International Journal of Production Research, Jan1978, Vol. 16 Issue 1</p> <p>Service delivery system design: characteristics and contingencies by Ponsignon, F.; Smart, P. A.; Maull, R. S. International Journal of Operations & Production Management, 2011, Vol. 31 Issue 3</p> <p>Structuring front office and back office work in service delivery systemsby Zomerdijk, Leonieke G.; Vries, Jan de. International Journal of Operations & Production Management, 2007, Vol. 27 Issue 1</p> <p>Impact of sequence of operations and layout of cells in cellular manufacturing by Logendran, Rasaratnam., International Journal of Production Research, Feb1991, Vol. 29 Issue 2</p> <p>Customer-Introduced Variability in Service Operations by Frei, Frances X. Harvard Business School Cases, Mar 01, 2006</p>

Semester	III	Specialization	Operations Management
Course Code	314OPE	Type	Subject - Elective
Course Title	Toyota Production System		

Course Objectives:

1	To explain the management principles and business philosophy behind Toyota's worldwide reputation for quality and reliability.
2	To demonstrate how managers in every industry can improve business processes by: Eliminating wasted time and resources Building quality into workplace systems Finding low-cost but reliable alternatives to expensive new technology Turning every employee into a quality control inspector

Syllabus:

Unit Number	Contents	Number of Sessions
1	Operational Excellence as a Strategic Weapon: 4 P model of the Toyota Way. Toyota Production System (TPS) and Lean Production. Development of TPS & One Piece Flow. Waste Elimination. Traditional Process Improvement v/s Lean Improvement. TPS House	5 + 1
2	14 Toyota Way Principles: 1. Base Your Management Decisions on Long Term Philosophy 2. Create Continuous Process Flow 3. Use 'Pull' Systems to avoid Overproduction 4. Level out the Workload (Heijunka)	5 + 1
3	14 Toyota Way Principles: 5. Build a Culture of Stopping the Process to Build in Quality Right the First Time 6. Standardized Tasks for Continuous Improvement and Employee Empowerment 7. Use Visual Control so No Problems are hidden 8. Use only Reliable, Thoroughly Tested Technology	5 + 1

4	14 Toyota Way Principles: 9. Grow Leaders who thoroughly understand the Work 10. Develop Exceptional People and Teams 11. Respect Your Extended Network of Partners and Suppliers	5 + 1
5	14 Toyota Way Principles: 12. Go and See for yourself to thoroughly understand the Situation (Genchi Genbutsu) 13. Consensus based slow decision making but rapid implementation 14. Become a learning organization through relentless reflection (Hansei) and Continuous Improvement (Kaizen)	5 + 1

Learning Resources:

1	Text Books	The Toyota Way by Jeffrey Liker, Tata McGraw Hill, 2004 Edition.
2	Reference Books	The Machine that Changed the World by Womack, Jones & Roos, Simon and Schuster UK
3	Supplementary Reading Material	The Toyota Way Fieldbook by Jeffrey Liker, David Meier, TMH, 2008 Reprint
4	Websites	http://www.toyotawayacademy.com/index.php
5	Journals	<p>Empowering Kanban through TPS-principles - An empirical analysis of the Toyota Production System by Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre. International Journal of Production Research, Dec2010, Vol. 48 Issue 23</p> <p>The Toyota Production System and Art: Making highly customized and creative products the Toyota way by Lander, E.; Liker, J. K., International Journal of Production Research, Aug2007, Vol. 45 Issue 16</p> <p>The Toyota Way in Services: The Case of Lean Product Development by Liker, Jeffrey K.; Morgan, James M.. Academy of Management Perspectives, May2006, Vol. 20 Issue 2</p> <p>Exploiting the DNA of the Toyota Production System by Towill, D. R., International Journal of Production Research, Aug2007, Vol. 45 Issue 16</p> <p>Handshakes around the world [Toyota production system by Towill, Denis R., Manufacturing Engineer, Feb/Mar2006, Vol. 85 Issue 1</p>

Semester	III	Specialization	Operations
Course Code	315OPE	Type	Subject - Elective
Course Title	Project Management		

Course Objectives:

1	To provide the students with a holistic, integrative view of Project Management.
2	To highlight the role of projects in modern day business organizations.
3	To sensitize the students to complexities of project management.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Overview of Project Management</p> <p>Basics of Project Management: Concept of Project, Attributes of a Project, Importance of Project Management, Project Management Process, Project Lifecycle, Project Stakeholders, Project Management Structures, Choosing Appropriate Project Management Structure, Implications of Organizational Culture, Main Causes of Project Failure.</p> <p>Project Definition: Defining Scope, Establishing Priorities, Creating the Work Breakdown Structure (WBS), integrating the WBS with the organization, Coding the WBS for information system, Project Roll Up, Process Breakdown Structure, Responsibility Matrices.</p>	5 + 1
2	<p>Project Planning</p> <p>Estimating Project Times and Costs: Factors Influencing Quality of Estimates, Estimation Guidelines for Time, Costs and resources, Macro versus Micro Estimating, Methods for Estimating Project Times and Costs, Level of detail, Developing Budgets, Types of Costs, Refining estimates and contingency funds.</p> <p>Developing a Project Plan: Developing the Project Network, From Work Package to Network, Constructing a Project Network, Activity-on-Node Fundamentals, Network Computation process, Using the Forward and Backward pass information, Level of Detail for activities, Extended Network techniques.</p>	5 + 1
3	<p>Project Scheduling & Risk Management</p> <p>Scheduling Resources and Reducing Project Duration: Types of Project Constraints, Classification of Scheduling Problem, Resource Allocation Methods, Splitting, Multitasking, Benefits of scheduling resources, Assigning Project work, Multi Project resource Schedules, Rationale for reducing project</p>	5 + 1

	<p>duration, Options for accelerating Project Completion, Concept and construction of a Project Cost – Duration Graph, Practical considerations.</p> <p>Managing Risk: Risk Management process – Risk Identification, Risk Assessment, Risk Response Development, Contingency Planning, Risk Response Control, Change Control Management.</p>	
4	<p>Project Organization:</p> <p>The Project Manager: Role and Responsibilities of the project Manager, Planning, Organizing, Controlling, Skills of the Project Manager – Leadership Abilities, Coaching & mentoring Abilities, Communication Skills, Interpersonal Skills, Ability to Handle Stress, Problem Solving Skills, Time Management Skills, Delegation, Management of Change.</p> <p>Managing Project Teams: The five stage team development model, Situational factors affecting team development, Team effectiveness, Conflict in projects, Sources of Conflict, Handling Conflict. Managing Virtual Project teams, Project team pitfalls.</p>	5 + 1
5	<p>Project Evaluation</p> <p>Progress and Performance Management and Evaluation: Structure of a Project Monitoring Information System, Project Control Process, Monitoring Time Performance, Need for an Integrated Information System, Developing a status report and index to monitor progress, Forecasting final project cost, Other control issues.</p> <p>Project Audit and Closure: Project Audit, Project Audit Process, Project Closure, Team, Team member and Project Manager Evaluations.</p>	5 + 1

Learning Resources:

1	Text Books	<p>Project Management – The Managerial Process, Clifford Gray and Erik Larson, TMGH, 3rd Edition.</p> <p>Effective Project Management, Clements and Gido, Cengage – India Edition, 1st Indian Reprint.</p>
2	Reference Books	The Practice of Project Management – A guide to business focused approach, Frigenti and Comminos, Kogan Page, 1 st South Asian Edition
3	Supplementary Reading Material	Project Management by Mantel, Meredith, Shafer, Sutton and Gopalan, Wiley India, 1 st Edition.
4	Websites	<p>http://www.pmi.org.in/</p> <p>http://www.infogoal.com/pmc/pmchome.htm</p>

5	Journals	Journal of Project Management-Global Research Publication International Journal of Project Management-Elsevier Science
---	----------	---

Semester	III	Specialization	Operations Management
Course Code	316OPE	Type	Subject - Elective
Course Title	Theory of Constraints		

Course Objectives:

1	To imbibe in the students the TOC thinking process.
2	To provide insights into managing a business when there are constraints and resolving those by logical thinking.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Thinking Process: Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method.	5 + 1
2	2.1 Finance and Measures: Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. 2.2 Project Management: Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach.	5 + 1
3	Drum-Buffer-Rope Solution: Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method.	5 + 1
4	Theory of Constraints in Supply Chain Management: Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution	5 + 1
5	Cases: Cases in application of TOC thinking process, TOC in Manufacturing,	5 + 1

Learning Resources:

1	Text Books	Theory of Constraints by S K Mukhopadhyay, Jaico Books. The Goal by E M Goldratt and Cox J, Great Barrington, North River
---	------------	--

2	Reference Books	<p>What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River</p> <p>It's Not Luck by E M Goldratt, Great Barrington, North River</p>
3	Supplementary Reading Material	<p>Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River</p> <p>Critical Chain by E M Goldratt, Great Barrington, North River</p>
4	Websites	<p>http://www.goldratt.com/</p> <p>http://www.scienceofbusiness.com/home/what-is-theory-of-constraints-toc/</p> <p>http://www.tocico.org/</p>
5	Journals	<p>A Tutorial on Project Management from a Theory of Constraints Perspective by Blackstone, John H.; Cox, James F.; Schleier, John G., International Journal of Production Research, Dec2009, Vol. 47 Issue 24</p> <p>Theory of Constraints at Uni Co: Analyzing The Goal as a fictional case study by Tibben-Lembke, Ronald S., International Journal of Production Research, Apr2009, Vol. 47 Issue 7</p> <p>Implementing Theory of Constraints in a traditional Japanese Manufacturing Environment: The case of Hitachi Tool Engineering by Umble, M.; Murakami, S., International Journal of Production Research, 5/15/2006, Vol. 44 Issue 10</p> <p>Determination of buffer sizes for drum-buffer-rope (DBR)-controlled production systems by Ye, T.; Han, W., International Journal of Production Research, May2008, Vol. 46 Issue 10</p> <p>Modified drum-buffer-rope scheduling mechanism for a non-identical parallel machine flow shop with processing-time variation by Sirikrai, V.; Yenradee, P., International Journal of Production Research, 9/1/2006, Vol. 44 Issue 17</p> <p>Comparisons between drum-buffer-rope and Material Requirements Planning: a case study by Steele, Daniel C.; Philipoom, Patrick R.; Malhotra, Manoj K.; Fry, Timothy D., International Journal of Production Research, 8/1/2005, Vol. 43 Issue 15</p> <p>Order review/release and lot splitting in drum-buffer-rope by Russell, G. R.; Fry, T. D., International Journal of Production Research, Mar 1997, Vol. 35 Issue 3</p> <p>Scheduling using drum-buffer-rope in a remanufacturing environment by Guide, V.D.R., International Journal of Production Research, Apr96, Vol. 34 Issue 4</p> <p>Using Drum-Buffer-Rope Scheduling Rather Than Just-In-Time Production by Huff, Patricia. Management Accounting Quarterly, Winter2001, Vol. 2 Issue 2</p>

MBA SYLLABUS: SEMESTER III
HUMAN RESOURCE MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	HRM
Course Code	305HR	Type	Specialization - Core
Course Title	Labour & Social Security Laws		

Course Objectives:

1	To make the students understand rationale behind labour laws
2	To equip students with important provisions of various labour laws
3	To give students insight into the implementation of labour laws.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Labour Legislation : Philosophy of Labour Laws, Labour Laws – Concept, evaluation, origin, objective, classification, Need, changing scenario, challenges & problems. International Labour Organization, Indian Constitution & Labour Legislations, Changing perspective of changing scenario of labour laws.	3 + 1
2	Laws on Working Conditions : 2.1 The Factories Act 1948 : #1,3,5,6,7,10,15to20,23,31,40,40A,40B,41,42,44,45,46,47,48,49. All provisions under Chapter VI, VII, VIII.	8 + 2
3	Wages & Labour Laws : 3.1: The Payment of Wages Act 1936: Sections # 1 to 26, 12A,13A,14A,15A,17A,17B,22A,25A, The Minimum Wages Act 1948, Sections # 1,2,11 to 18,20, 3.2: The Payment of Bonus Act 1965: Sections # 2,4 to17,19,20,21,22,26,28,29,30,32	11 + 3
4	Laws for Labour Welfare : 4.1 The Payment of Gratuity Act 1972: Sections# 2,4,6,7,8,10,11,12,14,15,16,17,18,20 4.2 The Workmen's Compensation Act 1923: Sections# 2 to 14, 16,22	8 + 2
5	Social Security Laws : 5.1 The Employee Provident Fund and Miscellaneous Provisions Act 1952 : Sections# 2,5,6,7,8,11,12,14,15,16,17,18,20 (Latest Amendment) 5.2 The Employee State Insurance Act 1948: Sections # 2 and All	5 + 2

	provisions in Chapter IV,V,VIII (Latest Amendment)	
	5.3 The Maternity Benefit Act 1961 (Latest Amendment)	

Learning Resources:		
1	Text Books	Labour Law by S.P.Jain Labour Law by Malik
2	Reference Books	Introduction to Labour & Industrial Laws, Avatar Singh, LexisNexis Labour &Industrial Laws by S.N.Mishra, Central law publication Elements of Mercantile Law by N.D.Kapoor, Sultan Chand Bare Acts
3	Supplementary Reading Material	APS Labor Digest
4	Websites	www.india-laws.com www.lawinfo.com www.lawsinindia.com
5	Journals	Management & Labour Studies International Labour Review

Semester	III	Specialization	HRM
Course Code	306HR	Type	Specialization - Core
Course Title	Human Resource Accounting & Compensation Management		

Course Objectives:

1	To orient the students with the concepts related to human resource accounting & compensation management.
2	To facilitate learning related to human resource accounting & compensation management for employees.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Human Resource Accounting Introduction : Meaning, Definition, Importance, objectives, Development , Balance score card – HRA, Investment in Human Resources, Human Capital, Calculating the Market value of HR Assets	3 + 1
2	Investment Approach : Investment in HR, HR Value – concepts, Methods & Mechanics, Recruiting & Training Costs, Depreciation, Rates of Return, Human Capital Investment, Expenditure Vs Productivity – Training,	8 + 2

5	Journals	<p>Indian Journal of International Business and Finances</p> <p>Asian Journal of Management Cases</p> <p>Global Journal of International Business Research</p> <p>Harvard Business Review</p> <p>International Business and Management</p> <p>Journal of International Business</p> <p>Journal of International Business and Economy</p>

Semester	III	Specialization	International Business Management
Course Code	317IB	Type	Subject - Elective
Course Title	Foreign Language for International Business – I		

Course Objectives:

1	To equip the students with a foreign language skill at least to that extent that is required for conducting international business.
2	To provide the student with listening, reading, speaking and writing skills in chosen foreign language.
3	To enhance the vocabulary in the selected Foreign Language.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Socializing: Wishing, thanking and congratulating somebody and to take leave, Talking about his work, his experiences and his professional plans, Introducing his colleagues and the people with whom he is collaborating.	5 + 1
2	Telephonic conversation: Receiving or send simple telephonic message, Identifying the person on phone and his/her request, Spelling, repeating, reformulating, concluding, taking leave.	5 + 1
3	Writing - I: Reading simple and commonly used documents in professional and day-to-day life. Filling up forms in professional or day to day life situation. Taking down notes.	5 + 1
4	Writing - II: Writing (from indications given) about messages, telegram, notes, as well as informal and formal specifically formatted letters, such as business letters.	5 + 1
5	Career related Communication: Organizing the time table. Reading writing and understanding classified ads, a curriculum vitae, and application for a post so that the student can look for a job or a training programme. Interviewing another person and handle a job interview.	5 + 1

Note:

Institute may offer any one of the following foreign languages to the students: SPANISH / FRENCH/ GERMAN/ JAPANESE / CHINESE

Learning Resources:

1	Text Books	Relevant Standard Text Books, Videos, Audio CDs for the language offered to the students.
2	Reference Books	
3	Supplementary Reading Material	
4	Websites	
5	Journals	

MBA SYLLABUS: SEMESTER III
SUPPLY CHAIN MANAGEMENT - SPECIALIZATION

Semester	III	Specialization	Supply Chain Management
Course Code	305SCM	Type	Subject Core
Course Title	Essentials of Supply Chain Management		

Course Objectives:

1	To make students understand how supply chain impacts all areas of the firm
2	To introduce the basic concepts of supply chain management
3	To provide insights into supply chain's linkages with customer value

Syllabus:

Unit Number	Contents	Number of Sessions
1	21st Century Supply Chains: Concept & definitions of Supply Chain (SC), Physical distribution, Logistics & Supply Chains, Generalized SC Model, Concept of SCM, Role of SC as a value driver: Integrative Management, Responsiveness, Financial Sophistication	6 + 1
2	Supply Chain Structure: Shift from enterprise to network, Structure of a SC, Push based SC, Pull based SC, Tradeoff between Push & Pull, Identifying appropriate Push & Pull Strategy for SC, Commodity & cost centric SC, Agile SC	7 + 2
3	Total SCM: Changing business landscape – driving forces: Shift from Operations to Services, Impact of globalization & technological revolution, Shift from linear SC to collaborative networks, power shifts in the SC- demands for flexibility of partnerships, core competencies, growth in outsourcing, Increased complexity of processes	7 + 2
4	SCM Building Blocks: Overview of customer focus & demand, resources & capacity management, procurement & supplier focus, inventory management, operations management, distribution management in SCM	7 + 2
5	Customer Value: Empowered consumer, Customer focused Marketing & SC service outputs, customer service – availability, operational performance, reliability. Customer satisfaction – customer expectations, enhancing customer satisfactions, limitations of customer satisfaction. Customer success – achieving customer success, value added services, customer value requirement mapping, CRM	8 + 3

Learning Resources:		
1	Text Books	<p>Supply Chain & Logistics Management by Bowersox, Closs & Cooper, TMGH, 2nd Edition.</p> <p>Designing & Managing the SC – Concepts, Strategies & Case studies by Levi, Kaminsky et. al., TMGH, 3rd Edition.</p> <p>Supply Chain Management: Strategy Planning & Operations by Sunil Chopra, Peter Meindl, Pearson, 1st Edition.</p> <p>Supply Chain Management Process, System & Practice by N.Chadraseskaran, Oxford, 1st Edition</p> <p>Total Supply Chain Management by Basu & Wright, Elsevier, 1st Edition.</p>
2	Reference Books	<p>Logistics Management & Strategy by Harrison and van Hoek, Prentice Hall, 2005.</p> <p>Supply Chain Management by Mentzer, Response Books, 2007</p> <p>Logistics Management : The Supply Chain Imperative by Vindo Sople, Pearson Education, 2007</p>
3	Supplementary Reading Material	<p>Competitive Advantage, Michael Porter, Free Press, 1985</p> <p>Latest Economic Survey of India – Chapter on Infrastructure and Communications.</p> <p>New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007</p>
4	Websites	<p>http://csmp.org/</p> <p>www.supplychain.org</p>
5	Journals	<p>Logistics And Supply Chain Practices In India by Srivastava, Samir K., Vision , Jul-Sep2006, Vol. 10 Issue 3</p> <p>What Is the Right Supply Chain for Your Product? by Fisher, Marshall L., Harvard Business Review, Mar/Apr97, Vol. 75 Issue 2</p> <p>Supply Chain Management: More Than a New Name for Logistics, by Cooper, Martha C.; Lambert, Douglas M.; Pagh, Janus D., International Journal of Logistics Management, 1997, Vol. 8 Issue 1</p> <p>Customer Service, Customer Satisfaction, and Corporate Performance In The Service Sector, by Dresner, Martin; Kefeng Xu., Journal of Business Logistics, 1995, Vol. 16 Issue 1</p> <p>Supply Chain Management: Relationships, Chains and Networks, by Harland,</p>

		C. M., British Journal of Management, Mar96 , Special Issue, Vol. 7

Semester	III	Specialization	Supply Chain Management
Course Code	306SCM	Type	Subject Core
Course Title	Logistics Management		

Course Objectives:	
1	To make students understand the role and importance of logistics in modern day economy.
2	To discuss the relationship between logistics and other functional areas.
3	To analyze logistics systems from different perspectives to meet desired corporate objectives.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Context of Logistics: Introduction, definitions, logistics in the economy a macro perspective, aim of logistics, activities of logistics, value added role of logistics	5 + 1
2	Logistics in the firm: Micro dimensions of logistics, interface with operations, manufacturing, marketing, supply chain, Problems with fragmented logistics, Integrating logistics within an organization, integrating logistics along the SC,	7 + 2
3	Approaches to analyzing logistics systems: Materials Management v/s physical distribution, Cost centers, nodes v/s links, logistics channel, cost perspective & level of optimality, short run or static analysis, long run or dynamic analysis	8 + 2
4	Logistics Relationships: Types of relationships, Competitive relationship, product relationship, spatial relationship, intensity of involvement, logistics outsourcing activities – concept & types of 3PL, 4PL, need for collaborative relationships	7 + 2
5	Service Response Logistics: Overview of service Operations – service productivity, global service issues, service strategy development, service delivery systems, service location & layout, primary concerns of service response logistics – service capacity, waiting times, distribution channels, service quality	8 + 3

Learning Resources:		
1	Text Books	The Management of Business Logistics by Coyle, Bardi, Langley, Cengage

		<p>Learning India Ed, 7th Edition.</p> <p>Logistics – An introduction to SCM by Donald Waters, Palgrave Macmillan, 1st Edition</p> <p>Principles of SCM – A Balanced Approach by Wisner, Leong, Tan , Cengage Learning India Ed., 1st Edition</p>
2	Reference Books	Logistics and Supply Chain Management: Cases and Concepts by Raghuraman and Rangaraj, Macmillan Business Books
3	Supplementary Reading Material	Business Logistics: Management of Physical Supply and Distribution, Heskett, Ivie and Glaskowsky, Ronald Press, New York.
4	Websites	<p>http://www.logisticsmgmt.com/</p> <p>www.asianclm.com/</p>
5	Journals	<p>Principles Of Logistics Management by Payne, Stanley L.; Kramer, Walter H., Journal of Marketing, Apr1967, Vol. 31 Issue 2,</p> <p>The Principles of Logistics Revisited by Voorhees, Roy Dale; Sharp, Merrill Kim., Transportation Journal (American Society of Transportation & Logistics Inc), Fall78, Vol. 18 Issue 1,</p> <p>A Survey of Third-party Logistics (3PL) Service Providers in India by Mitra, Subrata., IIMB Management Review , Jun2006, Vol. 18 Issue 2</p> <p>The Emerging Role of the Third-Party Logistics Provider (3PL) as an Orchestrator by Zacharia, Zach G.; Sanders, Nada R.; Nix, Nancy W., Journal of Business Logistics, 2011, Vol. 32 Issue 1</p> <p>Selection process in logistics outsourcing - a view from third party logistics provider by Yee Ming Chen; Meng-Jong Goan; Pei-Ni Huang., Production Planning & Control, Apr 2011, Vol. 22 Issue 3</p>

Semester	III	Specialization	Supply Chain Management
Course Code	307SCM	Type	Subject - Elective
Course Title	Managing Material Flow in Supply Chains		

Course Objectives:

1	To understand flow of materials in a Supply Chain
2	To appreciate the role of Transportation and Warehouse Management
3	To understand the essentials of Packaging and Materials Handling from Logistics point of view
4	To understand Government statutory requirements related to Logistics Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Flows in SC: Forward & Reverse SC, Product, Services, Information, Funds, Demand, Forecast flows in Upstream & Downstream direction	4 + 1
2	Transportation Infrastructure & Operations: Transport functionality, Principles, Mode Selection criteria, Transportation Service Levels, Transportation Economics and Pricing – economic drivers, costing, carrier pricing strategy. Transport Administration – operational management, consolidation, negotiation, control, Documentation – L/R, B/L, AWB, IGM	5 + 2
3	Warehouse Management: Warehousing – economic benefits, service benefits. Warehousing Operations – handling, storage. Warehouse Ownership Arrangements, Warehouse Decisions – site selection, design, product mix analysis, expansion, material handling, layout, Warehouse Management System	5 + 1
4	Packaging & Materials Handling: Packaging Perspectives, Packaging for Materials Handling Efficiency – package design, unitization, communication. Material Handling – basic considerations, mechanized systems, semi-automated, automated Systems, information directed Systems, special handling considerations	5 + 1
5	Role of Government in Logistics: Overview of CST, LST, Implications of proposed GST, Excise Duties, Octroi, Entry Tax, CENVAT, Motor Vehicles Act, Customs Act	5 + 1

Learning Resources:		
1	Text Books	<p>Supply Chain & Logistics Management by Bowersox, Closs& Cooper, TMGH, 2nd Edition.</p> <p>Logistics and Supply Chain Management- Cases and Concepts by G. Raghuram, N Rangaraj, Macmillan India, 1st Edition.</p> <p>Fundamentals of SCM Twelve drivers of competitive advantage by John Mentzer, Sage Publication, 1st Edition</p>
2	Reference Books	<p>Business Logistics/Supply Chain Management by Ronald Ballou, Pearson Education, 5th Edition.</p> <p>A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009.</p>
3	Supplementary Reading Material	Advanced Supply Chain Management by Poirier C C, Berrett, Koehler Publishers, 1999.
4	Websites	<p>http://www.inboundlogistics.com/cms/</p> <p>http://www.ciilogistics.com/</p> <p>http://www.tcil.com/tcil/</p> <p>http://cscmp.org/</p>
5	Journals	<p>Commodity Futures Markets, Warehouse Receipts and the Dynamics of Warehousing Infrastructure: The Indian Scenario by Pillai, Manoj., IUP Journal of Infrastructure, Dec2010, Vol. 8 Issue 4</p> <p>What Can You Do About Logistics in India?, Frentzel, David, World Trade: WT100, Mar2011, Vol. 24 Issue 3</p> <p>Technological Innovations in the Indian Logistics Industry: The Case of Freight Handling, Srinivas, Kolluru; Krishna, Kolluru., IUP Journal of Infrastructure, Sep2009, Vol. 7 Issue 3/4,</p>

Semester	III	Specialization	Supply Chain Management
Course Code	308SCM	Type	Subject - Elective
Course Title	Inventory Management		

Course Objectives:

1	To understand the Process of Aggregate Planning and its link with Inventory Management
2	To understand concept of Supply Chain Inventory and study a few basic variants of EOQ models
3	To recognize role and importance of Supply Chain Inventory Management in delivering perfect customer order
4	To acquaint with safety and environmental aspects of Inventory Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Aggregate Planning & Inventory Management: Introduction, Operations Planning, Aggregate Production Plan – Chase Production Strategy, Level Production Strategy, Mixed Production Strategy. MPS, Dependent & Independent Demand. Bill Of Materials, Overview of MRP & MRP II	4 + 1
2	Managing SC Inventory & Delivering Perfect Customer Orders-I: Understanding SC Inventory – types of inventory, inventory related costs, Inventory Investment – Asset or Liability? The Right reasons for Investing in Inventory – (support production, operational & customer service requirements, hedge against marketplace uncertainty, opportunity buying). The Wrong reasons for Investing in Inventory – (poor quality & material yield, unreliable supplier delivery, extended order-cycle times, inaccurate demand forecasts, specifying custom items for standard applications, extended material pipelines, inefficient manufacturing processes). Special Applications of EOQ Approaches – adjusting simple EOQ model for modal choice decision, adjusting simple EOQ model for volume transportation rates, adjusting simple EOQ for private carriage	6 + 1
3	Managing SC Inventory & Delivering Perfect Customer Orders-II: Managing Inventory Investment – Three V model of inventory management, achieve perfect record integrity, improve product forecasting, Standardize and Simplify product design, leverage companywide purchase volume, use suppliers for on-site inventory management, develop SC planning systems and support structure, Reduce Supplier-buyer cycle times, Delivering the Perfect Customer Order – MRP, DRP, SC inventory planning, automated inventory tracking system, Inventory at Multiple Locations – The Square Root law, inventory for outbound systems, Demand Pull Approach to manage Inventory	5 + 1

4	Safety & Environmental Aspects of Inventory Management: Environmental Aspects of Storage – identification of land contamination , water and air contamination & monitoring for fugitive emission, spillages, leakages, dumps, & disposables. Explosive Storage - Petroleum act - storage of explosive – precautions during loading, unloading, storage, transportation & usage, Gas Cylinder rules, Fire and other Hazards & precautions for mitigation, Cross contamination & Hygiene precaution in case of chemicals & pharmacy food storage material, Hazardous Waste Storage and Management – Storage and disposal methods and legal compliance	5 + 1
5	Key Operational Aspects in SC: Creating the Lean SC – JIT Purchasing, JIT Transportation and JIT Production. Kanban, VMI	4 + 1

Learning Resources:

1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Cengage South Western, 3 rd Edition Supply Chain Management Process, System & Practice by N.Chadrsekaran, Oxford, 1 st Edition
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition.
3	Supplementary Reading Material	The Management of Business Logistics by Coyle, Bardi, Langley, CengageLearning, 5th Indian Reprint
4	Websites	www.apics.org/
5	Journals	Sharpening Inventory Management by <i>Armstrong, David J. , Harvard Business Review, Nov/Dec85, Vol. 63 Issue 6</i> Empowering Kanban through TPS - Principles - An Empirical Analysis of the Toyota Production System, <i>Thun, Jorn-Henrik; Druke, Martin; Grubner, Andre, International Journal of Production Research, Dec2010, Vol. 48 Issue 23</i> Kanban, MRP, and Shaping The Manufacturing Environment by <i>Krajewski, Lee J.; King, Barry E.; Ritzman, Larry P; Wong, Danny S., Management Science, Jan1987, Vol. 33 Issue 1</i> Prerequisites to Vendor-managed Inventory by <i>Niranjan, Tarikere T.; Wagner, Stephan M.; Nguyen, Stephanie M., International Journal of Production Research, Feb2012, Vol. 50 Issue 4</i> A Logistics Network Design Model With Vendor Managed Inventory by <i>Shu, Jia; Li, Zhengyi; Shen, Houcai; Wu, Ting; Zhong, Weijun., International Journal of Production Economics, Feb2012, Vol. 135 Issue 2</i>

		<p>Adaptive Fuzzy Vendor Managed Inventory Control For Mitigating The Bullwhip Effect In Supply Chains by Kristianto, Yohanes; Helo, Petri; Jiao, Jianxin (Roger); Sandhu, Maqsood., <i>European Journal of Operational Research</i>, Jan2012, Vol. 216 Issue 2</p> <p>Study of Vendor-Managed Inventory practices in Indian industries by Atul B. Borade; Satish V. Bansod., <i>Journal of Manufacturing Technology Management</i>, Oct2010, Vol. 21 Issue 8</p>
--	--	---

Semester	III	Specialization	Supply Chain Management
Course Code	309SCM	Type	Subject - Elective
Course Title	Purchasing & Supplier Relationship Management - I		

Course Objectives:	
1	To emphasize the managerial perspective of core tasks and challenges in effectively managing the purchasing function within the context of integrated supply chain.
2	To make the students aware of the different demands placed on the purchasing and supply chain managers by business stakeholders.
3	To help the students understand the impact of purchasing on competitive success and profitability of modern day organizations.
4	To provide an in-depth understanding of the fundamentals surrounding the operational aspects of purchasing.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Purchasing Process, Policy & Procedures: Purchasing Objectives, Responsibilities of Purchasing, Types of Purchases, Improving Purchase Process, Purchasing Procedures, Policy Overview – What makes an effective Policy? Advantages & Disadvantages of Policies, Policies defining - Role & conduct of Purchasing, Buyer-Supplier Relationship, Operational Issues, Ethical considerations in Purchasing	5 + 1
2	Organizing the Purchasing Function: Purchase Function Position Within the Organization Structure, Factors affecting Purchasing's Position, Reporting of Purchasing function, Organizing of Purchasing, Separating Operational & Strategic Purchasing, Advantages & disadvantages of centralized, decentralized Purchasing, Hybrid Purchasing Structure	5 + 1
3	Strategic Sourcing – Supplier Evaluation & Selection: Linking Purchasing and Corporate Strategy, Translating Corporate Objectives into Purchasing Goals, Translating Purchasing Objectives into Purchasing Goals, Purchasing Strategy Development Process, Types of Purchasing Strategies, Supply Base Optimization, Critical Role of In-sourcing / Outsourcing, The In-sourcing / Outsourcing Decision Process, Make or Buy, Supplier Evaluation and Selection Process, Need for Supplier Selection, Identifying key sourcing requirements, Evaluation and Selection, Key Supplier Evaluation Criteria	5 + 1
4	Supplier Quality Management: Overview of Supplier Quality Management – What is Supplier Quality? Why be Concerned with Supply Quality? Factors Affecting Purchasing's Role in Managing Supplier Quality, Supplier Quality Management using Total Quality Perspective, Defining Quality in Terms of	5 + 1

	Customers and their Requirements, Pursuing Quality at the Source,	
5	Negotiation & Contracts Management: Objectives of negotiation, when to negotiate, The negotiation Process, Preparation, Establishing the Objectives, Dynamics of Negotiation, Phases in face-to-face negotiation, Negotiation Techniques – traditional, collaborative, price analysis, cost analysis. Types of Contracts – Fixed Price, Cost based / Indexation, Long term, Short term. Consideration when selecting contract types, How to write a Contract. Essential elements of Contract, Purchase Order (P.O), Difference between P.O & Contract	5 + 1

Learning Resources:

1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Cengage South Western, 3 rd Edition. Purchasing & Supply Chain Management by Lysons and Farrington, Pearson Education, 2010.
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition. New Directions in Supply Chain Management: Technology & Strategy Implementation by Tonya Boone and Ram Ganeshan, Jaico Publishing, 2007 Extending the Supply Chain by Boyer, Forhlich and Hult, PHI, 3 rd Indian Reprint, 2009
3	Supplementary Reading Material	Organizational Buying Behaviour by Webster and Wind, Prentice Hall, 1972 Category Management in Purchasing: A Strategic Approach to maximize business profitability by Jonathan O Brien Kogan Page.
4	Websites	www.cips.org www.eipm.org
5	Journals	Purchasing Competence: A Stakeholder-Based Framework for Chief Purchasing Officers by Kern, Daniel; Moser, Roger; Sundaresan, Naveen; Hartmann, Evi., Journal of Business Logistics, 2011, Vol. 32 Issue 2 Understanding how Formal and Informal Communication Affect Purchasing, Manufacturing and Logistics Integration by Andrea, Furlan; Arnaldo, Camuffo; Romano, Pietro., Advances in Management, Jul2011, Vol. 4 Issue 7 An Empirical Study of the Relationships among Purchasing Skills and Strategic Purchasing, Financial Performance, and Supplier Responsiveness by Carr, Amelia S.; Smeltzer, Larry R., Journal of Supply Chain Management,

		<p>Summer2000, Vol. 36 Issue 3</p> <p>World-Class Purchasing Skills: An Empirical Investigation by Giunipero, Larry C.; Percy, Dawn H., Journal of Supply Chain Management, Fall2000, Vol. 36 Issue 4</p> <p>The Seven Cs of Effective Supplier Evaluation by Carter R, Purchasing and Supply Chain Management, April, 1995.</p>
--	--	--

Semester	III	Specialization	Supply Chain Management
Course Code	310SCM	Type	Subject - Elective
Course Title	Six Sigma		

Course Objectives:

1	To provide a comprehensive understanding of six sigma
2	To introduce the six sigma methodology and philosophy
3	To learn how to manage change and sustain benefits
4	To learn how to listen and map customer requirements

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Enterprise-wide Deployment:</p> <p>1.1 Six Sigma and Lean: Brief history of performance initiatives- Quality Control, TQM, Cost of Quality, Customer quality Management, SPC, Reengineering, Six Sigma, Theory of Constraint, Lean manufacturing.</p> <p>1.2 Business Process Management: Introduction to Six Sigma-As a metric, As a methodology, As a management System. Six sigma Evolution and approach Lean as a Business Management Strategy, Key elements of lean. Types of lean initiatives, Implementing lean initiatives</p>	5 + 1
2	<p>DMAIC model for implementing Six Sigma:</p> <p>2.1 Define: Project Selection, Developing the team, DMAIC & DMADV, Deliverables, Tollgate Questions</p> <p>2.2 Measure: Determining X variables, Cause and Effect Diagram & Matrix, Overview of MSA, Data Collection Plan – Forms, Baselining the y data, DPMO, Capability Indices, COPQ, Yield, Tollgate Questions</p> <p>2.3 Analyze: Tools for identifying Root Causes: Histogram, Boxplot, Scatter Plot, Matrix Plot, DotPlot, Run Chart, Multi-Vari Chart, 5 Why's</p> <p>2.4 Improve: Generating Solutions, Random Stimulation, Six Thinking Hats, Mind Mapping, Challenge Assumptions, Decision Making Tools for Selecting Solutions – Pairwise Ranking, Solution Matrix, Force Field Analysis, Costs and Benefits, Pilot Plan, Potential Problem Analysis – Mistake Proofing, Risk Assessment Matrix and Control Assessment Matrix, FMEA, Contingency Plan, Verification Plan, Tollgate Questions</p>	7 + 1

	2.5 Control: Solution Planning, Process Control Plan, Review Meetings, Updated flowcharts & procedures, Control Charts, Out Of Control Action Plan, Project Conclusion Activities	
3	Six Sigma Impact measurement: Financial and Performance measurement: Lack of Clear Goals and Metrics linked to Measurable Business Goals, Mismatches between Traditional Accounting and Improvement Campaigns. Metrics That Impact – Revenue Growth, Cost Savings, Productivity Improvement, Reduced Cost of Poor Quality, Cash Flow Improvement, Faster product / service cycle times, Freed up engineering and /or sales / service time, Freed up other indirect time, Cost avoidance savings. Seven Elements of Six Sigma Scorecard	5 + 1
4	Six Sigma in non-manufacturing environments: MSA in the DMAIC Cycle. MSA Psychology. Why Non-Manufacturing Processes are Different, MSA Repeatability & Reproducibility (R&R) Studies. Gauge R & R. Comparison of MSA Acceptance Criteria	5 + 1
5	Projects in Six Sigma-Use of DMAIC Cycle	3 + 1

Learning Resources:

1	Text Books	<p>The Six Sigma Black Belt Handbook by MacCarty, Daniels, Bremer and Gupta, TMGH, 2010 Edition</p> <p>Juran Institute's Six Sigma Breakthrough and Beyond by De Feo and Barnard, TMGH.</p> <p>What is Six Sigma? by Peter Pande, TMGH</p> <p>Six Sigma Management by Blashka, TMGH</p> <p>All about Six Sigma by Warren Brussee, TMGH.</p>
2	Reference Books	TPS-Lean Six Sigma by Hubert Ramprasad, Sara Books Pvt.Ltd.
3	Supplementary Reading Material	<p>The Certified Six Sigma Black Belt Hand Book, Donald Benbow, Pearson Publication</p> <p>Achieving Business Excellence by Pravin Rajpal, Om Books International, India.</p>
4	Websites	http://asq.org
5	Journals	<p>What , Why and How: The importance of statistical thinking for Six Sigma by Krishnamoorth, K. S., Industrial Engineer: IE, Oct 2011, Vol. 43, Issue 10</p> <p>In pursuit of implementation patterns: the context of Lean and Six Sigma by Shah, R.; Chandrasekaran, A.; Linderman, K., International Journal of</p>

		Production Research, Dec2008, Vol. 46 Issue 23 Critical analysis of Six Sigma Implementation by Moosa, Kamran; Sajid, Ali. Total Quality Management & Business Excellence, Jul2010, Vol. 21 Issue 7

Semester	III	Specialization	Supply Chain Management
Course Code	311SCM	Type	Subject - Elective
Course Title	Supply Chain Planning		

Course Objectives:	
1	To understand essentials of Demand Management
2	To get acquainted to Supply Chain Aggregate Planning
3	To understand how to manage predictable variability in Supply Chain
4	To recognize the role of Network Planning and understand basic Network Planning Design Models

Syllabus:

Unit Number	Contents	Number of Sessions
1	Forecasting: Concept and definition of Forecasting & Demand, Role of Forecasting in SC, Traditional Forecasting Methods – Judgment Methods, Market Research Methods, Time Series Methods, Causal Methods. Selection of Appropriate Forecasting technique, Risks in Forecasting – forecasting error	5 + 1
2	Demand Management: Collaborative Planning, Forecasting & Replenishment (CPFR). Order fulfillment & Order Management. Customer Service Level & Expected cost of stock outs (Numericals Expected)	5 + 1
3	Aggregate Planning in SC: Concept of Aggregate Planning & its role in SC. Aggregate Planning Strategies, Aggregate Planning for Services, Aggregate Planning using MS-Excel, Role of IT in Aggregate Planning, Aggregate Planning in Practice	5 + 1
4	Managing Predictable Variability in SC: Decision Environment of SC – external factors responsible for decisions, Concept of Variability, Responding to predictable variability, Managing Supply, Managing Demand, Impact of seasonality	5 + 1
5	Network Decisions: Choices of Network Configurations – direct shipping, distribution through intermediary, customer pick up, Challenges in Network Configuration. Models – Strategic Facility Location Model with Single Capacity Choice, Strategic Facility Location Model with Two Capacity Choices, Demand Allocation Across different Facilities with Fixed Capacities, Gravity Location	5 + 1

	Model, Uncertainty and Application of Probability	
--	---	--

Learning Resources:		
1	Text Books	<p>Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3rd Edition</p> <p>Supply Chain Management Process, System & Practice by N.Chadrasedkaran, Oxford, 1st Edition</p>
2	Reference Books	The Management of Business Logistics: A Supply Chain Perspective by Coyle, Bardi and Langley, Cengage Learning – India 7 th Edition.
3	Supplementary Reading Material	<p>Managing the Supply Chain: A Strategic Perspective by Gattorna and Walters, Palgrave.</p> <p>A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009.</p>
4	Websites	http://www.ibf.org/
5	Journals	<p>Mapping the Future of Supply Chain Management: a Delphi study by Melny K, Steven A.; Lummus, Rhonda R.; Vokurka, Robert J.; Burns, Laird J.; Sandor, Joe., International Journal of Production Research, Aug2009, Vol. 47 Issue 16</p> <p>Aligning Demand Management with Business Strategy by Jim R and Langabeer II, Supply Chain Management Review, May/June 2000.</p> <p>ABC of Collaborative Planning Forecasting and Replenishment by Ireland, Ron., Journal of Business Forecasting, Summer2005, Vol. 24 Issue 2</p> <p>Collaborative Planning, Forecasting & Replenishment (CPFR): Realizing the Promise of Efficient by Sherman, Richard J., Journal of Marketing Theory & Practice, Fall 98, Vol. 6 Issue 4</p>

Semester	III	Specialization	Supply Chain Management
Course Code	312SCM	Type	Subject - Elective
Course Title	Supply Chain Coordination		

Course Objectives:

1	To understand role and importance of business functional coordination across the Supply Chain
2	To know the impact of ineffective Supply Chain coordination and its business implications
3	To understand how managerial levers and partnerships aid in achieving Supply Chain coordination

Syllabus:

Unit Number	Contents	Number of Sessions
1	Coordinate the Traditional Business Functions Across the Company and Across the SC: Functional Coordination, Supply Chain Relationships, Failing to coordinate Sales Function with SC Capacity, Failing to coordinate Industrial Service SC, Coordinate Retail Functions for Market Expansion, Coordinating Traditional Retail Functions for SC Economics, Coordinating R&D, Order Processing and Inventory Management	5 + 1
2	SC Coordination & Bull Whip Effect: Challenges in SC Coordination, Concept of Bull Whip Effect – impact on manufacturing cost, inventory cost, replenishment lead time, transportation cost, labour cost for logistics, product availability & relationships across the SC, Obstacles to Coordination in SC – incentive obstacles, Information Processing Obstacles, Operational Obstacles, Pricing Obstacles, Behavioural Obstacles, Role of IT in SC Coordination	5 + 1
3	Managerial Levers to achieve SC Coordination: Aligning of Goals & Incentives, Improving Information Accuracy, Improving Operational Performance, Designing Pricing Strategies to stabilize orders, Building Partnerships & Trust.	5 + 1
4	Building Strategic Partnerships within a SC: Deterrence Based View, Process Based View, Accessing Value of Relationship, Identifying Operational Roles & Decision Rights for each party, Creating Effective Contracts, Designing Effective Conflict Resolution Mechanisms.	5 + 1
5	Collaborative Planning, Forecasting & Replenishment: Retail Event Collaboration, DC Replenishment Collaboration, Store Replenishment Collaboration, Collaborative Assortment Planning, Organizational & Technology Requirements for successful CPFR, Risks & Hurdles for CPFR Implementation	5 + 1

Learning Resources:		
1	Text Books	<p>Fundamentals of Supply Chain Management by John Mentzer, Response Books, 1st Edition</p> <p>Supply Chain Management – Strategy, Planning and Execution by Sunil Chopra, Peter Meindl, D V Kalra, Pearson Education, 3rd Edition</p> <p>Supply Chain Management Process, System & Practice by N. Chadrasedkaran, Oxford, 1st Edition</p>
2	Reference Books	The Management of Business Logistics: A Supply Chain Perspective by Coyle, Bardi and Langley, Cengage Learning – India 7 th Edition
3	Supplementary Reading Material	<p>A Logistics Approach to Supply Chain Management by Coyle, Langley, Gibson, Novack, Bardi, Cengage Learning, India Edition, 2009.</p> <p>Industrial Dynamics by Jay Wright, Forrester, 1961</p>
4	Websites	www.apics.org
5	Journals	<p>The Bullwhip Effect in Supply Chains by Lee, Hau L; Padmanabhan, V. and Whang, Seungjin, Sloan Management Review, 1997 Volume 38 Issue 3</p> <p>Taming the bullwhip by Lee, H.L., Journal of Supply Chain Management 2010, Volume 46, Issue 1</p> <p>Capacity Choice and Allocation: Strategic Behavior and Supply Chain Performance by Cachon, Gérard P.; Lariviere, Martin A., Management Science, Aug1999, Vol. 45 Issue 8</p> <p>Quantifying the Bullwhip Effect in a Simple Supply Chain: The Impact of Forecasting, Lead Times and Information by Chen, Y. F., Z. Drezner, J. K. Ryan and D. Simchi-Levi, Management Science, 2000, Volume 46.</p> <p>Information Sharing and Coordination Mechanisms for Managing Uncertainty in Supply Chains: A Simulation Study by Datta, Partha Priya; Christopher, Martin G., International Journal of Production Research, Feb2011, Vol. 49 Issue 3</p> <p>Coordinating for Flexibility in e-Business Supply Chains by Gosain, Sanjay; Malhotra, Arvind; El Sawy, Omar A., Journal of Management Information Systems, Winter2004/2005, Vol. 21 Issue 3</p>

Semester	III	Specialization	Supply Chain Management
Course Code	313SCM	Type	Subject - Elective
Course Title	Decision Modeling for Supply Chains		

Course Objectives:

1	To know how to model typical Supply Chain Domain Problems
2	To understand use of MS- Excel in solving typical Supply Chain Domain Problems

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of MS – Excel Advance Capabilities and Functions	3 + 1
2	Linear Programming Models: Make Buy Decision Problem, Transportation Applications – Vehicle loading Problem, Sensitivity Analysis for Profit Maximization, Cost Minimization	6 + 1
3	Transportation Models: LP Formulation for transportation problem, Transportation involving transshipment, Maximal flow model, Shortest Path Model	5 + 1
4	Integer Programming Model, Goal Programming Model & Nonlinear Programming Model: New factory Decision Problem (IP), Product Mix Problem (Goal), Profit Maximization Problem (NLP)	6 + 1
5	Decision Making Models (based on Decision Trees): Using TreePlan to solve decision tree problems with Excel	5 + 1

Learning Resources:

1	Text Books	Managerial Decision Modeling with Spreadsheets by Balakishnan, Render, Stair, Pearson, 2 nd Edition
2	Reference Books	Excel Models for Business and Operations Management by Barlow, Wiley-India, 2 nd Edition.
3	Supplementary Reading Material	Modeling the Supply Chain by Jeremy Shapiro, Cengage Learning, 2 nd Edition Supply Chain Modeling & Solutions by B.S. Sahay & A.K. Gupta, Macmillan India Ltd., 1 st Edition
4	Websites	http://logistics.about.com/od/supplychainmodels/Modelling_the_Supply_Chain.htm
5	Journals	Overcoming Spreadsheet Risk in Supply Chain Modeling by Galbreth, Michael R.; LeBlanc, Larry J., Journal of Business Logistics. 2010, Vol. 31 Issue 2, p21-33

(Sep-Oct) 1998, Vol. 28, 5, p29-55.</p> <p>Network Modeling Tools: Enhancing Supply Chain Decision Making by Jiminez, S., T.Brown and J.Jordan, Strategic Supply Chain Alignment, 1998, ed. J. Gattorna. Andershot, Eng.: Gower</p>
--	--	--

Semester	III	Specialization	Supply Chain Management
Course Code	314SCM	Type	Subject - Elective
Course Title	Theory of Constraints		

Course Objectives:

1	To imbibe in the students the TOC thinking process.
2	To provide insights into managing a business when there are constraints and resolving those by logical thinking.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Thinking Process: Introduction to Theory of Constraints (TOC), Tools of TOC, Where is TOC applicable? What is a constraint, TOC's thinking process and Human Being, Terminology used in the thinking process, Steps to implement in the thinking process, Current Reality Tree, Conflict Resolution Diagram, Future Reality Tree, Prerequisite Tree, Transition Tree, Three Cloud Method.	5 + 1
2	2.1 Finance and Measures: Economic Decisions, TOC and Product Costing, Economic Decisions using TOC Costing. 2.2 Project Management: Phases of Project Management, Common problems in Project Environment, Critical Chain project Management – A TOC approach.	5 + 1
3	Drum-Buffer-Rope Solution: Introduction, The Drum – The MPS of the Capacity Constraint Resource, Implementing Drum-Buffer-Rope, Implementing Drum-Buffer-Rope on the shop floor, MPS using Drum-Buffer-Rope Scheduling method.	5 + 1
4	Theory of Constraints in Supply Chain Management: Introduction, TOC in distribution Solution, Drum-Buffer-Rope in distribution	5 + 1
5	Cases: Cases in application of TOC thinking process, TOC in Manufacturing,	5 + 1

Learning Resources:

1	Text Books	Theory of Constraints by S K Mukhopadhyay, Jaico Books. The Goal by E M Goldratt and Cox J, Great Barrington, North River
2	Reference Books	What is the thing called Theory of Constraints? by E M Goldratt, Great Barrington, North River

		<p>The Goal by E M Goldratt and Cox J, Great Barrington, North River</p> <p>It's Not Luck by E M Goldratt, Great Barrington, North River</p>
3	Supplementary Reading Material	<p>Essays on Theory of Constraints by E M Goldratt, Great Barrington, North River</p> <p>Critical Chain by E M Goldratt, Great Barrington, North River</p>
4	Websites	<p>http://www.goldratt.com/</p> <p>http://www.scienceofbusiness.com/home/what-is-theory-of-constraints-toc/</p> <p>http://www.tocico.org/</p>

R.; Fry, T. D., <i>International Journal of Production Research</i>, Mar1997, Vol. 35 Issue 3.</p> <p>Scheduling using drum-buffer-rope in a remanufacturing environment by Guide, V.D.R., <i>International Journal of Production Research</i>, Apr96, Vol. 34, Issue 4.</p> <p>Using Drum-Buffer-Rope Scheduling Rather Than Just-In-Time Production by Huff, Patricia. <i>Management Accounting Quarterly</i>, Winter2001, Vol. 2 Issue 2</p>

Semester	III	Specialization	Supply Chain Management
Course Code	315SCM	Type	Subject - Elective
Course Title	Supply Chain Practices - I		

Course Objectives:

1	To give a practical understanding of the practice of supply chain management in various sectors.
2	To give a practical understanding of the peculiarities of supply chain management practices in various sectors.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Supply Chains for Agro Based Products - Food, Milk Products, Poultry, Edible Oil, Flowers, Seeds & Fertilizers, Public Distribution System	NA
2	Supply Chains for Industrial Products - Auto Components, Steel Products, Lubricants, Industrial Paints, Transformers, Gensets	NA
3	Supply Chains for Consumer Products – Bicycles, Tractors, Cola Cans, Cars, Mobile Phones, Furniture, Sports Goods, Pharmaceutical Products, Fabrics & Garments, Books, Mineral Water, Newspapers & Magazines, Toys, Wrist Watches, Home Décor, Decorative Paints, Wine, White goods	NA
4	Supply Chains for Commodities - Coal, Cotton, Cement, Sugar, Rice, Metals, Oil & Gas	NA
5	Supply Chains for Services - Mobile Telephony, Financial Services, Electricity , Internet Services, Food Chains, Hospitality, Medical services, Airlines, Retail	NA

Students should work in groups of two each on any two Companies from the Sectors listed above. The Sectors should be from different groups. Students shall study various aspects of the SCM principles and practices as followed in these sectors. They should identify the peculiarities of the sector, map the supply chain in detail (identify the parties involved and their role in the supply chain), compare the top two players in each of these sectors and identify best practices, Prepare a summary evaluation of each sector studied. Students shall submit a structured detailed report based on the above parameters. The evaluation shall be made by a panel of two examiners. One of the examiners shall be the Internal Faculty.

The other examiner may be an external faculty or a person from the relevant industry. The evaluation shall be based on the following criteria:

Report – 20 Marks

Presentation – 15 Marks

Question & Answer – 15 Marks

* Field/Self Study under Faculty guidance.

Learning Resources:

MBA SYLLABUS: SEMESTER III
RURAL & AGRIBUSINESS MANAGEMENT SPECIALIZATION

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	305RABM	Type	Subject - Core
Course Title	Agriculture and Indian Economy		

Course Objectives:

1	To expose learners to the environment in which the agri-business is conducted.
2	Focus will be on understanding micro and macro environmental forces and their impact on agri-business.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Indian Agriculture under the Five Year Plans : The Green Revolution, The place of agriculture in the national economy, progress of agriculture under the Five Year Plans, Present position of Indian Agriculture : Looming Crisis, New Thrust Areas in Agriculture, National Commissions of Farmers and Green Revolution, Crop Pattern in India since 1951.	7 + 2
2	Food Security in India: Green Revolution, Second Green Revolution – the future prospects, Concept of Food Security , Food self-sufficiency and food security, Poverty and need for Public Distribution Systems, Policy Options for reforms of PDS, Food Insecurity at Global level, Food Security Act – Salient features and implications.	7 + 2
3	Irrigation and other agricultural inputs: Irrigation, multipurpose river valley project – a controversy, irrigation in the 12 th plan, private sector participation in irrigation, fertilizers and manures, improved seeds, soil conservation and reclamation, livestock and dairy development, mechanization of agriculture	7 + 2
4	Land Reforms: The need and scope for land reforms in a developing economy, the abolition of intermediaries, tenancy reforms, ceiling on land holdings, an appraisal of land reforms Size of Farms and Productive Efficiency: Meaning of economic holding, changing pattern of ownership and operational holdings in India, Farms size, Productivity/ Profitability and farm efficiency, the problem of sub division and fragmentation of holdings, cooperative farming	7 + 2
5	Agriculture Labour: Present position of agricultural Labour in India, Agricultural Labour and Minimum Wages, Abolition of Bonded Labour, Recommendations of National Commissions on Rural Labour (NCRL) Unorganized Sector and Informalisation of the Indian Economy: Unorganized sector and India's Informal economy, size of unorganized sector, poverty, vulnerability and unorganized sector employment – the high degree of correlation, estimate of organized and unorganized workers, self-employed workers in non-agricultural sector, agricultural labourers, bonded labour, working conditions, of	7 + 2

	farmers, action programme for the unorganized sector, assessment of NCEUS recommendations

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	306RABM	Type	Subject – Core
Course Title	Rural Marketing – I		

Course Objectives:

1	To objective of this course is to develop understanding of issues in rural markets
2	To provide an overview of marketing environment, consumer behaviour, distribution channels, marketing strategies, etc. in the context of rural markets in India.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Rural Marketing Opportunities: What is a Rural Market?, Taxonomy of the Rural Market, Go Rural Decision, Rural Inhibiting factors, Approach Decision: Rural Marketing Models, Bottom of the Pyramid Approach, Integrated, Innovation and Inclusive – Growth Model, Evolution and Scope, Rural versus Urban Marketing, Becoming a Rural Marketer, Testing rural marketing potential.</p> <p>Understanding the Rural Economy: Rural marketing Environment, social environment, economic environment, technological environment, innovations, political environment and development initiatives, implications on rural marketers</p>	7 + 2
2	Rural marketing experiences: Case of HUL – Project Shakti, Case of CFCL – Uttam Bandhan, Case of ITC – e-Choupal, Case of Colgate – Education, Case of HLL – Social Marketing, lessons from experience	7 + 2
3	Rural Consumer Behavior: Rural consumer on the growth, models of consumer behavior, buying decision process, Opinion Leaders, Environmental factors influencing the decision making process, buyer characteristics, buying behavior patterns, brand loyalty, innovation adoption	7 + 2
4	Rural Marketing Research: Significance of information, sources of information, marketing research – key decisions, approaches and tools – case for innovation, participatory approaches, innovative tools, rural versus urban marketing research, rural research business, challenges in rural marketing research.	7 + 2
5	Selecting and Attracting Markets: Concepts and process, case for segmentation, bases for segmentation, emerging segments – women and youth, guides to effective segmentation, targeting, positioning, Case Study.	7 + 2

Learning Resources:		
1	Text Books	<p>Rural Marketing – Text and Cases, Krishnamacharyulu and Ramakrishnan, Pearson</p> <p>Rural Marketing – Concept and Practices, Dogra and Ghuman, TMGH</p> <p>Rural Marketing, Velayudhan, Sage</p> <p>Rural Marketing, Gopalaswamy, Vikas Publishing house</p> <p>Rural Marketing in India, Habeeb - ur – Rahman, Himalaya Publishing House</p> <p>Rural Marketing Text and Cases, S L Gupta, Wisdom Publications</p>

		Journal of Sales Management Management Review Prabandhan Vikalpa
--	--	---

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	307RABM	Type	Subject – Elective
Course Title	Rural Development – I		

Course Objectives:

1	To motivate students to understand the realities of rural India its economic strength, weaknesses, opportunities and threats in changing global context.
2	To help students to analyze the rural economic condition from two perspectives viz. actor's (the rural people) and outsider's (economists, development professionals) perspectives
3	To assists students to develop conceptual framework for dealing with rural economy.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Concepts and Connotations of Rural Development, Basic Elements of Rural Development, Growth versus Development, Some Dilemmas in Development Concepts and Connotations of Rural Development, Basic Elements of Rural Development, Growth versus Development, Why Rural Development,	5 + 1
2	Measures of Development: Measures of Level of Rural Development, Income Distribution, Development Simplified, Concepts and Measures of Rural Poverty. Paradigm of Rural Development: The modernization theory, the dependency theory of the Marxist school, The Gandhian Model of Rural Development, Development Theories from other social sciences and their relevance.	5 + 1
3	Determinants of Rural Development: Changes in Output, Natural Resources, Human Resources, Capital, Technology, Organizational and Institutional Framework, Relation between Rural Development and Its Determinants.	5 + 1
4	Strategies for Sustainable Development: The concepts of sustainability and sustainable development, some indicators of non-sustainable development, a critical review of India's strategies of rural development, some elements of a new strategy for sustainable development.	5 + 1
5	Rural Development Project: Students to be divided in groups of 5 each and assign to study and present rural development measures and outcomes of a selected rural area.	5 + 1

Learning Resources:

1	Text Books	Rural Development, Katar Singh, Sage
---	------------	--------------------------------------

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	308RABM	Type	Subject – Elective
Course Title	Special Areas in Rural Marketing		

Course Objectives:	
1	To explore the students to the Special Areas in Rural Marketing Environment
2	To help students to understand opportunities and emerging challenges in the upcoming rural markets .

Syllabus:

Unit Number	Contents	Number of Sessions
1	Rural Marketing in FMCG – FMCG :An Introduction, Characteristics of FMCG for rural markets, Challenges to FMCG Industry from a rural perspective, Adopting marketing strategies to rural markets.	5 + 1
2	Rural Market in Consumer durables – Consumer durables : An Introduction, Marketing of consumer durables vs. FMCGs, Issues related to marketing of consumer durables in rural market.	5 + 1
3	Rural Market in Financial Services – Marketing of banking services in rural market, evolution of rural banking after independence, key reasons for poor performance of banks in nationalization period, challenges in marketing of banking services in rural market, opportunities for banking in rural areas, marketing strategies for banking services. Marketing of Mutual Funds in rural markets, Micro SIPs, etc.	5 + 1

4	Rural Market in Agricultural inputs – Indian tractor industry : A brief overview, fertilizer industry in India: An Introduction, Indian Agrochemical market: An Introduction, Global Agrochemical Market: A brief Overview.	5 + 1
5	Rural Market in Cottage Industries –Characteristics of Indian Handicraft industry, Nature of Indian Handicrafts, selected cottage industries clusters identified for enhanced exports, Challenges for rural cottage industries.	5 + 1

Learning Resources:		
1	Text Books	Rural Marketing – Concept and Practices, Dogra and Ghuman, TMGH Rural Marketing in India, Habeeb - ur – Rahman, Himalaya Publishing House
2	Reference Books	Singh Sukhpal 2004. <i>Rural Marketing- Focus on Agricultural Inputs</i> . Vikas Publishing House.
3	Supplementary Reading Material	Rural Marketing – Text and Cases, Krishnamacharyulu and Ramakrishnan, Pearson Rural Marketing, Velayudhan, Sage Rural Marketing, Gopalaswamy, Vikas Publishing house

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	309RABM	Type	Subject – Elective
Course Title	Commodity Markets – I		

Course Objectives:

1	To help students understand what commodity means and how commodities are traded
2	To make students identify significant areas of risk associated with buying and selling commodities
3	To update students about the regulatory framework for commodity markets in India

Syllabus:

Unit Number	Contents	Number of Sessions
1	Commodity Markets: An Overview – What is a Commodity?, Commodity Markets, Marketing of agricultural commodities, physical market operations.	5 + 1
2	Commodity Risk – Understanding risk, managing risk, evolution of commodity derivatives, evolution of commodity derivatives in India.	5 + 1
3	Commodity Derivatives – What is Derivatives? , types of derivatives, other classification of derivatives, Pricing derivatives, derivatives markets and participants, economic importance.	5 + 1
4	Commodity exchanges – What is commodity exchanges?, commodity exchanges around the world, commodity exchanges in India, electronic spot exchanges regulation of commodity markets.	5 + 1
5	Variety in commodity markets – designing commodity contracts, weather derivatives, freight derivatives, electricity derivatives, catastrophe derivatives, carbon derivatives, currency derivatives, property derivatives.	5 + 1

Learning Resources:

1	Text Books	Purcell WD. 1991. <i>Agricultural Futures and Options: Principles and Strategies</i> . Macmillan Publications
2	Reference Books	Kaufman PJ. 1986. <i>The Concise Handbook of Futures Markets</i> . John Wiley & Sons. Wasendorf RR & McCafferty 1993. <i>All about Commodities from the Inside Out</i> . McGraw-Hill.
3	Supplementary Reading Material	Understanding Agricultural Commodity Markets – EPW - December 29, 2012, Vol xlvil no 52

		<p>Leuthold RM, Junkus JC & Cordier JE. 1989. <i>The Theory and Practice of Futures Markets</i>. Lexington Books.</p> <p>Lofton T. 1993. <i>Getting Started in Futures</i>. 3rd Ed. John Wiley & Sons, 1993.</p>

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	310RABM	Type	Subject – Elective
Course Title	Agricultural Marketing & Price Analysis – I		

Course Objectives:

1	To impart adequate knowledge and analytical skills in the field of agricultural marketing issues
2	To enhance expertise in improving the performance of the marketing institutions and the players in marketing of agricultural commodities.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Concepts in Agricultural Marketing: Characteristic of Agricultural product and Production – Problems in Agricultural Marketing from Demand and Supply and Institutions sides. Market intermediaries and their role - Need for regulation in the present context - Marketable & Marketed surplus estimation. Marketing Efficiency - Structure Conduct and Performance analysis - Vertical and Horizontal integration - Integration over space, time and form-Vertical coordination.	5 + 1
2	Marketing Co-operatives: APMC Regulated Markets - Direct marketing, Contract farming and Retailing - Supply Chain Management - State trading, Warehousing and other Government agencies– Market infrastructure needs, performance and Government role - Value Chain Finance.	5 + 1
3	Role of Information Technology and telecommunication in marketing of agricultural commodities: Market research-Market information service - electronic auctions (e-bay), e-Chaupals, Agrimarket and Domestic and Export market Intelligence Cell (DEMIC) – Market extension.	5 + 1
4	Spatial and temporal price relationship: Price forecasting – time series analysis – time series models – spectral analysis. Price policy and economic development – non-price instruments.	5 + 1
5	Project: Students should collect prices of one commodity per group from APMC for a fixed period and analyze the price trends and forecast future prices.	5 + 1

Learning Resources:		
1	Text Books	Singhal AK. 1986. <i>Agricultural Marketing in India</i> . Annual Publ., New Delhi.
2	Reference Books	Purecell WD & Koontz SR. 1999. <i>Agricultural Futures and Options: Principles and Strategies</i> . 2nd Ed. Prentice-Hall.

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	311RABM	Type	Subject – Elective
Course Title	Microfinance		

Course Objectives:

1	To Appraise the state of microfinance in Indian Economy
2	To make students understand the concept and principles of microfinance
3	To help students to identify issues, linkages and role of technology that hinder the success of microfinance

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of Microfinance: What is Microfinance ? , Economically active poor, Microfinance Institutions, Trends in Poverty in India, Can Poverty be eradicated, Microfinance as a development tool: The India Experience	5 + 1
2	Subsidized credit to Microcredit: Progress of rural banking, growth of microcredit, RRBs and micro credit, sustainable micro credit, Microfinance delivery methodologies.	5 + 1
3	Microfinance Institutions: Why is credit microcredit booming?, credit delivery, four tier apparatus. NGO –SHG-Bank Linkage – Lending through NGOs, scalability – the new mantra of NGOs; State Sponsored Microfinance	5 + 1
4	Outreach and Viability: Impact assessment study of microfinance, innovative and creative microfinance models	5 + 1
5	Role of Technology: Technology as an Enabler – Case study	5 + 1

Learning Resources:

1	Text Books	Microfinance - Redefining the Future, Somanath, Excel books
2	Reference Books	Microfinance: Concepts, Systems, Perceptions, and Impact: A Review of Sgsy Operations in India, Soumitra Sarkar, Samirendra Nath, Readworthy Publications Microfinance: Emerging Trends and Challenges, Suresh Sundaresan, Edward Elgar Publishing Limited The Microfinance Revolution: Sustainable Finance for the Poor, Volume 1, Marguerite S. Robinson, The World Bank, Washington, D. C. Open Society

Semester	III	Specialization	Rural & Agribusiness Management
Course Code	312RABM	Type	Subject – Elective
Course Title	Agricultural Marketing		

Course Objectives:

1	To make students understand the functions performed by the agricultural marketing system.
2	To make students aware of current issues and trends in agricultural markets
3	To help students identify basic market problems and assess the effect of market imperfections on the performance of the marketing

Syllabus:

Unit Number	Contents	Number of Sessions
1	Agricultural market in India: Methods of Sale : Hatha system, private negotiations, quotation on samples, dara and moghum sale methods, open auction method. Marketed and Marketable surplus : Relationship between marketed and marketable surplus, relationship between price and marketable surplus. Limitations of Agricultural marketing: post-harvest immediate sales by farmers or distress sales, need and inadequacy of institutional marketing infrastructure.	5 + 1
2	Grading and Standardization: Meaning of grading and standardization, purpose of grading, advantages of grading, inspection and quality control, analysis of rural produce, inspection and testing of Agmark Grade, Indian standards, India's progress in grade specifications, consumer perception, producer's problems in grading, Population of grading, Motivation for grading, enactments in support of grade, ISO, CAC (International Standards)	5 + 1
3	Transportation of farm products: Functions of transportation, advantages of these functions, transportation methods, details, cost of transportation, transportation problem, suggestions for improvements.	5 + 1
4	Storage and Warehousing: Storage, storage practices in India, Risks in storage, storage structures, essentials of storage structures, cost of storage, returns of storage structures, cost of storage, returns of storage cost, warehousing, types of warehouses, warehousing in India, CWC, SWC, functioning of warehouses, growth of warehouses, FCI, warehouse capacity utilization, improvement suggestions, cold storage, advantages, capacity.	5 + 1
5	New trends in Indian Agriculture: Agro Processing Sector in India, The present state of agro processing and marketing, agencies involved in agro marketing, food processing and value addition are the keys to the future. Global demand for Indian Agriproduce– project on agricommodity and global prices.	5 + 1

Firm as a Value Chain, Industries as Competitive Domain, Value Creation and Competitive Advantage. Market Based views and Resource Based views in Management. General Manager's Perspective on Managing Technology.	7 + 2
2	Technology & Wealth Creation: Role of Technology in wealth creation, Historical perspective, Creation of wealth, Long Wave Cycle, Evolution of Production Technology, Product Technology, Technology & the National Economy.	7 + 2
3	Critical Factors in Managing Technology: Creativity – Invention – Innovation. Link between Science and Technology. Types of Innovation. Creativity & Innovation. Bringing Innovation to Market. Technology – Price Relationship. The Timing Factor. The Vision to Change Strategy. Productivity, Effectiveness and Competitiveness. Leaders versus Followers.	7 + 2
4	Management of Technology - The New Paradigms: Technology Trends, Resources and the Business Environment, The Structure and Management of Organizations, Project Planning & Management, Management of Human Resources, MOT guiding principles for Managing Enterprises, Changes in the Business Environment – Communication, Integration, Collaboration, Strategic Directions of the Industry, Changes in Organizational forms and structures, Financial Sector Structure.	7 + 2

5	Management of Technology & Competitiveness: Definitions and Indicators of Competitiveness, Investment, Productivity, Trade, Standard of Living, Management of Technology & Global Competitiveness, Case of Japan, Singapore, Various Indices on Competitiveness - Standard of Living Indexes, Trade Indexes, Productivity Indexes, Investment Indexes, Patents Index. Emergence of the Tigers, Competitiveness – The Game of Nations, Competitiveness of Firms – The Micro Level. Competitiveness of India and China – a comparative analysis.	7 + 2
---	---	-------

Learning Resources:

Semester	III	Elective	Technology Management
Course Code	306TM	Type	Subject – Core
Course Title	Managing Innovation – I		

Course Objectives:

1	To highlight the importance of innovation in competitive world of business
2	To describe various models of innovation and corresponding assets & knowledge requirements
3	To highlight the threat of disruptive technologies and its managerial implications

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>The Innovation Imperative: Why innovate? The changing world of business, Key Definitions – Creativity, Invention, Innovation, Business Design, Innovation to Energize, Innovate for Growth, Profit, Innovate for Survival, Managing Change, Creativity & innovation. Myths Surrounding Creativity, Difference between innovation and creativity.</p> <p>Sources of Innovation: Functional Sources of Innovation – Internal Value Chain, Spillovers from Competitors, Suppliers, Customers and Complimentary Innovators, University, Government & Private Laboratories, International Sources. Circumstantial Sources of Innovation – Planned Firm Activities, Unexpected Occurrences, Creative Destruction.</p>	7 + 2
2	<p>Models of Innovation: Static Models : Incremental versus Radical Innovation, Abernathy –Clark Model, Henderson – Clark Model, Disruptive Technological Change Model, Innovation Value – Added Chain, Strategic Leadership View, Familiarity Matrix, Imitability & Complementary Assets – Teece Model. Dynamic Models: Utterback – Abernathy Model, Tushman – Rosenkopf technology Life Cycle Model, Foster's S Curve.</p>	7 + 2
3	<p>Competencies, Assets and Knowledge: Profit Chain, Value Configurations – Value Chain, Value Network, Value Shop. Assets and Competencies. Assets – Coreness, Imitability, Profits. Competencies – Coreness, Imitability, Profits. Relationship between Competencies and Assets. Knowledge – Newness, Quantity, Tacitness. Sources of Assets and Competencies. Implications for Competition. Innovation and Competencies.</p>	7 + 2
4	<p>The Innovation Portfolio:What to innovate?Vision – Portfolios and Feelings, What is the right question? Identifying Feelings and Needs, Innovating Experiences, Battling Commoditization, Technology & Psychology, Innovation, Feelings, Needs: Creating Emotional Appeal, Searching for Innovation Opportunities. Process Innovation, Innovation Portfolios for Established</p>	7 + 2

	Organizations. Pioneers, Migrators & Settlers.	
5	Innovator's Dilemma: Sustaining versus disruptive technologies, trajectories of market need versus technology improvement, Value Networks, Implications of the Value Network for Innovation, Managerial Decision Making & Disruptive Technological Change, Value Networks and Characteristic Cost Structures, Resource Allocation & Upward Migration, Case Studies on Management of Disruptive Technological Change	7 + 2

Learning Resources:

Semester	III	Elective	Technology Management
Course Code	307TM	Type	Subject – Elective
Course Title	Technology Forecasting		

Course Objectives:

1	To understand the purpose of technology forecasting and techniques used for technology forecasting.
2	To appreciate the strengths and weaknesses of technology forecasting techniques.
3	To underline the need for different technology forecasting techniques for different purposes.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Technology Forecasting Methods – I: Expert Opinion Methods: Delphi (iterative survey), Focus Groups [panels, workshops], Interviews, Participatory Techniques Trend Analysis: Trend Extrapolation [Growth Curve Fitting], Trend Impact Analysis, Precursor Analysis, Long Wave Analysis Monitoring and Intelligence Methods: Monitoring [environmental scanning, technology watch], Bibliometrics [research profiling; patent analysis, text mining]	5 + 1
2	Technology Forecasting Methods – II: Creativity: Brainstorming [brainwriting; nominal group process (NGP)], Creativity Workshops [future workshops], TRIZ, Vision Generation, Science Fiction Analysis Scenarios: Scenarios [scenarios with consistency checks; scenario management], Scenario-simulation [gaming; interactive scenarios], Field Anomaly Relaxation Method [FAR]	5 + 1
3	Technology Forecasting Methods – III: Statistical Methods: Correlation Analysis, Demographics, Cross Impact Analysis, Risk Analysis. Modeling and Simulation: Agent Modeling, Cross Impact Analysis, Sustainability Analysis [life cycle analysis], Causal Models, Diffusion Modeling, Complex Adaptive System Modeling (CAS) [Chaos], Systems Simulation [System Dynamics, KSIM], Technological Substitution, Scenario-simulation [gaming; interactive scenarios], Economic base modeling [input-output]	5 + 1

	analysis], Technology Assessment.	
4	Technology Forecasting Methods – IV: Valuing/Decision/Economics Methods: Relevance Trees [futures wheel], Action [options] Analysis, Cost-benefit analysis, Decision analysis [utility analyses], Economic base modeling [input-output analysis]	5 + 1
5	Technology Forecasting Methods – V: Descriptive and Matrices Methods: Analogies, Backcasting, Checklist for Impact Identification, Innovation System Modeling, Institutional Analysis, Mitigation Analysis, Morphological Analysis, Road mapping [product-technology roadmapping], Social Impact Assessment, Multiple perspectives assessment, Organizational analysis, Requirements Analysis [needs analysis]	5 + 1

Learning Resources:

Semester	III	Elective	Technology Management
Course Code	308TM	Type	Subject – Elective
Course Title	Strategies for Information Goods and Network Economies – I		

Course Objectives:

1	To learn about the characteristic features of network and information goods (and related products).
2	To understand the distinctive impact of network and information goods on competitive strategies in these industries, and how to manage them.
3	To highlight distinctive role of pricing in case of information goods.
4	To highlight importance of network effects & strategies to exploit network effect.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: Introduction to information and network goods. Cost structures, network effects, product complements, two-sided networks, standards, compatibility, product and price differentiation, Platforms and two-sided networks	5 + 1
2	Methods for Pricing and Price Discrimination: Demand, supply, price elasticity, price optimization, variety of pricing schemes, price discrimination, Pricing information goods, Characteristics of information goods, and how they affect product differentiation, price discrimination, versioning.	5 + 1
3	Game theory and competition: Introduction to the concept of Game theory. Competitive dSPPUoly pricing and product decisions. Price Discrimination through Versioning and Bundling. Product bundling. The design and pricing of product bundles	5 + 1
4	Network Effects: Product Design, Launch, and Pricing Strategies, Multiple Dimensions of Value – Technology's standalone value, Networks Externality value. Markets/products as networks, positive feedback, compatibility. Adoption dynamics for network goods. Managing network goods. Competing for Design Dominance in Markets with Network Externalities. Dynamic pricing, product complements and bundles, versioning, product launch strategy	5 + 1
5	Strategies for Platforms and Two-Sided Markets: Determining which side to charge, how to balance growth across both networks. Determining firm structure in platform market.	5 + 1

Learning Resources:

1	Text Books	<p>Carl Shapiro and Hal R. Varian. Information rules: a strategic guide to the network economy. Boston, MA, USA: Harvard Business School Press, 1998</p> <p>Economics of Information Technology: An Introduction , Hal R. Varian, Joseph Farrell, and Carl Shapiro. Cambridge University Press, 2005.</p>
2	Reference Books	<p>Competition, Regulation and Strategy: The Information Technology Industry, Morris</p> <p>Game Theory and Business Strategy , Oberholzer-Gee and Yao</p>
3	Supplementary Reading Material	The Economics of Network Industries. Oz Shy , Cambridge University Press, 2002.

Semester	III	Elective	Technology Management
Course Code	309TM	Type	Subject – Elective
Course Title	Advanced Manufacturing Technology		

Course Objectives:

1	To provide students with an understanding of the key concepts of advanced manufacturing technology used in modern manufacturing facility
2	To develop an understanding of the principles of operation and characteristics of specific technologies and processes.
3	To appreciate the effect of technologies on global manufacturing and competitiveness.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Advance Manufacturing Technology: Introduction to Advanced Manufacturing Technologies, Production System facilities, Manufacturing Support Systems, Automation in Production System, Manufacturing Operations, Product/Production Relationships, Cost of Manufacturing Operations.	5 + 1
2	Material Handling and Identification Technologies: Introduction to Material Handling, Considerations in Material Handling System Design, Material Transport Systems, Automated Guided Vehicle Systems, Cranes and Hoists, Storage Systems, Automated Storage Systems, Engineering Analysis of Storage Systems, Automatic Data Capture, Bar Code Technology.	5 + 1
3	Manufacturing Systems: Introduction to Manufacturing Systems, Components of a Manufacturing System, Conventional Manufacturing System, and Manufacturing Progress Functions. Single Station Manufacturing Cells: Single Station Manned Workstations, Single Station Automated Cells, Applications, Analysis of Single Station Cells.	5 + 1
4	Group Technology and Cellular Manufacturing: Part Families, Parts Classification and Coding, Production Flow Analysis, Cellular Manufacturing, Application Considerations in Group Technology, Quantitative Analysis in Cellular Manufacturing, Flexible Manufacturing Systems. Why consider FMS? What are FMS advantages over conventional manufacturing? FMS Management & Control Functions & Performance Statistics, FMS applications.	5 + 1
5	Rapid Manufacturing Processes: Classification of Rapid Manufacturing (RM) Processes- Additive/Subtractive/Formative Principles of various rapid manufacturing process, Typical Process Chain; Materials for RM; Operating principles, and characteristics of R M processes; Introduction of alternative	5 + 1

	technologies like Laminated Object Manufacturing , Shaped Deposition, Stereo-lithography , 3D printing, Selection of RM processes based on the product requirements; Process selection, Applications and Case studies.	
--	--	--

Learning Resources:		
1	Text Books	Automation, Production Systems and Computer-Integrated Manufacturing, Mikell P. Groover, Prentice Hall. Flexible Automation and Intelligent Manufacturing, Begell House, 1998

5	Journals	International Journal of Technology Management Journal of Technology, Management and Applied Engineering Journal of Manufacturing Science and Engineering, Transactions of the ASME

Semester	III	Elective	Technology Management
Course Code	310TM	Type	Subject – Elective
Course Title	Product Strategy for High Technology Companies – I		

Course Objectives:

1	To increase student's awareness of the forces driving the competition among technology-based companies & need for strategic approach to product management in high technology companies.
2	To provide an understanding of decision making frameworks for managing products in high technology companies.

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Strategy & Vision: Impaired Vision - Tunnel Vision, Blindness, Shortsightedness, Hallucination. Exceptional Vision – 20/20 Vision, Peripheral Vision, Foresighted Vision. Core Strategic Vision – Focus, Clarity, Completeness, Feasibility. Change in Vision – Need for Clarification, Evolution, Obsolescence. Vision Guides Strategy.</p> <p>Aligning Vision and Strategy: CSV Boundary Framework, Aligning Financial Plans/Economic Model. Aligning Market Trends. Aligning Technology Trends/Strategy. Aligning Product Strategy. Aligning the Business Charter. Aligning Core Competencies / Value Chain.</p>	5 + 1
2	<p>Product Platform Strategy: Ingredients of Product Platform Strategy. Benefits of Platform Strategy. Product Platform of Microsoft, Apple, AT & T, Walt Disney, Amazon, etc. Product Platform Management.</p> <p>Product Line Strategy: Ingredients of Product Line Strategy. Product Line Strategy of Amazon, HP Color, Dell, Walt Disney, etc. , Product Line Management.</p>	5 + 1
3	The MPP framework: Product Structure Strategy. The Market Platform Plan (MPP) Framework – Markets & Market Segments, Economic and Business Case, Product Offerings and Product lines, Product Platforms, Value Chain Strategies and Ongoing MPP Management. Managing the Technology Elements.	5 + 1
4	Successful Expansion Paths: Leveraging Product or Technical Competencies. Leveraged Expansion framework. Leveraged Expansion Paths.	5 + 1
5	Strategic Balance and Portfolio Management: Strategic Balance Tradeoffs - Focus versus Diversification, Short Term versus Long Term, Current Platforms versus New Platforms, One Business Unit versus Another, Research versus Development. High versus Low Risk, Financial Return. Setting priorities.	5 + 1

	Beyond Portfolio Management.	
--	------------------------------	--

Learning Resources:		
1	Text Books	Product Strategy for High Technology Companies, Michael McGrath, MGH, 2nd Edition.
2	Reference Books	Marketing of High-Technology Products and Innovations by Jakki Mohr, SanjitSengupta, Stanley Slater, 2nd Edition
3	Supplementary Reading Material	Marketing High Technology by William H. Davidow Product Marketing for Technology Companies by Mark Butje, Elsevier
4	Websites	http://hbswk.hbs.edu/ http://knowledge.wharton.upenn.edu/ http://www.technologymanagementchicago.org/ http://www.ifm.eng.cam.ac.uk/research/ctm/
5	Journals	International Journal of Technology Management International Journal of Technology Intelligence and Planning

Semester	III	Elective	Technology Management
Course Code	311TM	Course Type	Subject – Elective
Course Title	Foundations of Knowledge Management		

Course Objectives:

1	To familiarize the participants with basic concepts of data, information & knowledge
2	To highlight importance of knowledge management in complex environments.
3	To provide an overview of systems, technologies & infrastructure required for knowledge management

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Knowledge</p> <p>1.1 Meaning of data, information, knowledge and expertise</p> <p>1.2 Meaning of epistemology, Types of Knowledge - Subjective & Objective views of knowledge, procedural Vs. declarative, tacit Vs. explicit, general Vs. specific.</p> <p>1.3 Types of expertise – associational, motor skill, theoretical</p> <p>1.4 Characteristics of knowledge – explicitness, codifiability, teachability, specificity</p> <p>1.5 Reservoirs of knowledge</p>	5 + 1
2	<p>Introduction to Knowledge Management (KM)</p> <p>2.1 Meaning of Knowledge Management, Forces Driving</p> <p>2.2 Organizational issues in KM</p> <p>2.3 KM Systems & their role</p> <p>2.4 Relevance of KM in today's dynamic & complex environment</p> <p>2.5 Future of Knowledge Management</p>	5 + 1
3	<p>KM Solutions for capture, sharing & applications</p> <p>3.1 KM Processes,</p> <p>3.2 KM Systems,</p> <p>3.3 Mechanisms & Technologies</p>	5 + 1
4	KM Infrastructure	5 + 1

	4.1 Organizational Structure 4.2 Organizational Culture 4.3 Communities of Practice 4.4 Information Technology Infrastructure 4.5 Common Knowledge	
5	KM Impact 5.1 Dimensions of KM Impact – People, Processes, Products &Organizational Performance 5.2 Factors influencing impact – universalistic & contingency views 5.3 Assessment of KM Impact – Qualitative & quantitative measures 5.4 Identification of appropriate KM solutions	5 + 1

Learning Resources:

Semester	III	Elective	Technology Management
Course Code	312TM	Type	Subject - Elective
Course Title	Business Intelligence and Analytics		

Course Objectives:

1	To understand principles of BI and Analytics at conceptual level
2	To understand application areas for implementing BI and Analytics
3	To develop skills to design BI and Analytics projects

Syllabus:

Unit Number	Contents	Number of Sessions
1	Business Intelligence: definition , concept and need for Business Intelligence, Case studies BI Basics : Data, information and knowledge, Role of Mathematical models	5+1
2	Business Analytics at the strategic level: Strategy and BA , Link between strategy and Business Analytics, BA supporting strategy at functional level, dialogue between strategy and BA functions, information as strategic resource Business Analytics at Analytical level : Statistical data mining, descriptive Statistical methods, lists, reports, automated reports, hypothesis driven methods, data mining with target variables, cluster analysis, Discriminate analysis, logistic regression, principal component analysis.	5+1
3	Business Analytics at Data Warehouse Level Designing physical database , Deploying and supporting DW/BI system	5+1
4	Business Intelligence Architectures: Cycle of Business Intelligence Analysis, Development of Business Intelligence System, spread sheets, concept of dashboard, OLAP, SOA, decision engineering. BI Tools: Concept of dashboard.	5+1
5	BI Applications in different domains- CRM, HR, Production	5+1

Learning Resources:		
1	Text Books	Decision Support and Business Intelligence Systems, Turban, Sharda, Delen, Pearson
2	Reference Books	<p>Business Intelligence Success Factors Tools for aligning your business in the global economy by Olivia Parr Rud, John Wiley and sons , 2009</p> <p>The Profit impact of Business Intelligence by Steve Williams and Nancy Williams , Morgan Kauffman Publishers/ Elsevier, 2007</p> <p>Business Intelligence: Practices, Technologies, and Management- Rajiv Sabherwal, Irma Becerra-Fernandez</p> <p>Business Analytics for Managers : Taking Business Intelligence beyond reporting by GERT H.N. Laursen, JesperThorlund, Wiley and SAS Business Series, 2010</p>
3	Supplementary Reading Material	The Great Mind Challenge for Business, Vol. 1 and 2, IBM (I) Pvt. Ltd, Bangalore

Team Inputs - size, longevity, task, Knowledge, Skills and Abilities (KSAs), Resourcing of the team, Team composition. Team processes – Action processes. Brainstorming. Electronic Brainstorming. Nominal Group Technique (NGT). Trust – Conflict – Team cohesiveness. Moderators of Team Performance – Task Type, Task Leadership. Team outcomes.	5 + 2
3	The Leader – Promoting New Ideas at Work: Defining Leadership, Difference between Managers and Leaders, Ingredients of Leadership, Trait approaches to Leadership, Behavioural approaches to Leadership, Managerial Grid, Contingency theories – Fiedler model, Hersey Blanchard situational theory, Leader participation model, Push-Goal Theory. Transformational and transactional leadership. Charismatic and Visionary Leadership. Leading change, creativity & Innovation –Leadership and change, Ingredients of leadership for creativity & Innovation. Challenges in leading for creativity & Innovation.	5 + 2
4	The Internal Environment – Orchestrating Structure, Systems and Resources; The Balanced Score Card – Value Creation and Performance management. Organizational Structure – work specifications, departmentalization, chain of command, span of control, centralization and decentralization, Formalization. Situational factors – Corporate Strategy, Organizational Size and Environmental uncertainty. Structural forms – Traditional and contemporary forms. Organizing for change, creativity and innovation - Goal Setting and reward Systems. Evaluation. Resources – Sufficient resourcing. Systems of Communication.	5 + 2

5	<p>Culture – Enabling & Constraining Creative Processes at Work: Organizational culture, Different Perspectives of Organizational culture, Can we manage Organizational culture? Culture as an important ingredient of Organizational Creativity. Norms that promote Creativity and Innovation, Norms that promote Implementation. Principles of creativity and innovation. Do strong, cohesive cultures hinder innovation?</p> <p>The Organization – Managing Process of Change: Change and Organizations, Change Drivers, People and Change, The problem of resistance, Organizational Development approach to change, Situational Approach to Change Management, Political process approach to change management, Processual perspective for understanding change. Studying change over time.</p>	5 + 2

Semester	III	Specialization	Entrepreneurship Development
CourseCode	306ED	Type	Subject –Core
Course Title	Finance for Entrepreneurs		

CourseObjectives:	
1	To develop analytical abilities to face the business situations
2	To develop the analytical skills which would facilitate the decision making in Business situations
3	To Understand the basic concepts of Tax Planning

Syllabus:

UnitNumber	Contents	NumberofSessions
1	Basic Concepts: Basic Concepts of cost accounting, classification and analysis of costs, Relevant and irrelevant costs, differential costs, Understanding of Financial Statements Various concepts and conventions of financial accounting Preparation of financial statements of proprietary concern, Understanding financial statements of partnership firms	8
2	Capital Budgeting: Meaning, Definition and types of evaluating the project on the basis of payback period, NPV, IRR, PI, ARR Decision making under risk and uncertainty using standard deviation, risk adjusted discounted rate, certainty equivalent approach, simulation	8
3	Working Capital Management: Nature and Scope, Components of working capital, operating cycle, types of working capital, determination of working capital, Assessment of working capital requirement, Working Capital Financing.	8
4	Risk management and insurance: Risk in business, Risks associated with specific business operations, Property of the business, Events related to personnel, Events related to customers and others, Managing risks, Managing risk to tangible property, Managing risk to buildings and lands, Managing risk to computers and data, Managing risk to intangible property, Managing risk from violations of tax regulations, Managing risk from employee violation of Government regulations, Insuring against risks, Using insurance to manage risks, Developing comprehensive insurance program, Sharing risk, Joint ventures , Industry groups for insurance coverage, Government funding for risky ventures.	8
5	Tax Planning: Tax planning for setting up of a new unit, Tax planning for financial management decisions, Tax planning for managerial decisions, Tax planning for Professionals, Tax planning for Mergers and Acquisitions.	8

Learning Resources:

Semester	III	Specialization	Entrepreneurship Development
Course Code	307ED	Type	Subject – Elective
Course Title	Women Entrepreneurs		

Course Objectives:	
1	To know the concept, meaning & definition of women entrepreneurship.
2	To understand the challenges, problems & achievements of women entrepreneurs.
3	To identify the ways in which government, public, private institutes promote & support women Entrepreneurs.

Syllabus:

Unit Number	Contents	Number of Sessions
1	1.1 Concept & definition of Women Entrepreneurs. Women Entrepreneurs Law & Legal Definition. Evolution of Women Entrepreneurship in Indian context. 1.2 The need and importance of women entrepreneurs in today's context. The status gained by women in the business world. 1.3 Women entrepreneurship in India.	5 + 1
2	2.1 The characteristics of women in business world. Reasons for becoming Women Entrepreneur. Functions of women entrepreneurs. 2.2 The five functions of women entrepreneurs stated by Federick Harbison. 2.3 How useful it is in Investing Women Entrepreneurship? Women and SSI.	5 + 1
3	3.1 The various challenges and problems faced by women entrepreneurs in past and present. Factors affecting the growth of Women Entrepreneurs. 3.2 How to overcome the problems? The political, economic, social and technological awareness in today's world by women entrepreneurs. 3.3 The gradual change in the outlook of these entrepreneurs, acceptance of their existence and contribution. 3.4 The achievements and rewards for their work, the recognition received by different institutions and groups.	5 + 1

4	<p>The Government, Public, private institutions and groups encouraging and promoting Women Entrepreneurs and their firms.</p> <p>4.1. National Resource Centre for Women (NRCW), Women's India Trust (WIT), Self- Employed Women's Association (SEWA), Women Entrepreneurship of Maharashtra (WIMA), Self- Help Group (SHG), NABARD and Prime Minister's Rozgar Yojana (PMRY), preference is given to women beneficiaries.</p> <p>4.2. Financial Institutions Assisting Women Entrepreneurship in India- giving financial assistance and consultancy services to women Entrepreneurs. i) National Small Industries Corporation (NSIC), ii) All-India Development Banks (AIDBs), viz. IDBI, IFCI, (SFIs), ICICI, IIBI, IDFC and SIDBI, iii) Specialised Financial Institutions viz. Exim Bank and NABARD, iv) Investment Institutions, viz. LIC, GIC, NIC, NIA, OIC, UII and UTI, v) Regional/ State-Level Institutions, viz. NEDFI, SIDCs and SFCs, vi) Commercial Banks, vii) Co-operative Banks, etc.</p>	6 + 1
5	<p>Role models & Success stories and Cases of Women Entrepreneurs :</p> <p>5.1. The contribution of their work, inspiration given to others in past and present like Kiran Majumdar Shaw, the Biocon Queen, Patricia Narayan, Winner of Ficci Woman Entrepreneur-2010, Saloni Malhotra, founder of DesiCrew.</p> <p>5.2. Upcoming Women Entrepreneurs- Suchi Mukherjee, Priya Naik, Aditi Gupta.</p>	4 + 1

Semester	III	Specialization	Entrepreneurship Development
Course Code	308ED	Type	Subject - Elective
Course Title	Managing Inventory		

Course Objectives:	
1	To understand the Process of Aggregate Planning and its link with Inventory Management
2	To understand concept of Supply Chain Inventory and study a few basic variants of EOQ models
3	To recognize role and importance of Supply Chain Inventory Management in delivering perfect customer order
4	To acquaint with safety and environmental aspects of Inventory Management

Syllabus:

Unit Number	Contents	Number of Sessions
1	Aggregate Planning & Inventory Management: Introduction, Operations Planning, Aggregate Production Plan – Chase Production Strategy, Level Production Strategy, Mixed Production Strategy. MPS, Dependent & Independent Demand. Bill Of Materials, Overview of MRP & MRP II	4 + 1
2	Managing SC Inventory & Delivering Perfect Customer Orders-I: Understanding SC Inventory – types of inventory, inventory related costs, Inventory Investment – Asset or Liability? The Right reasons for Investing in Inventory – (support production, operational & customer service requirements, hedge against marketplace uncertainty, opportunity buying). The Wrong reasons for Investing in Inventory – (poor quality & material yield, unreliable supplier delivery, extended order-cycle times, inaccurate demand forecasts, specifying custom items for standard applications, extended material pipelines, inefficient manufacturing processes). Special Applications of EOQ Approaches – adjusting simple EOQ model for modal choice decision, adjusting simple EOQ model for volume transportation rates, adjusting simple EOQ for private carriage	6 + 1

3	Managing SC Inventory & Delivering Perfect Customer Orders-II: Managing Inventory Investment – Three V model of inventory management, achieve perfect record integrity, improve product forecasting, Standardize and Simplify product design, leverage companywide purchase volume, use suppliers for on-site inventory management, develop SC planning systems and support structure, Reduce Supplier-buyer cycle times, Delivering the Perfect Customer Order – MRP, DRP, SC inventory planning, automated inventory tracking system, Inventory at Multiple Locations – The Square Root law, inventory for outbound systems, Demand Pull Approach to manage Inventory	5 + 1
4	Safety & Environmental Aspects of Inventory Management: Environmental Aspects of Storage – identification of land contamination , water and air contamination & monitoring for fugitive emission, spillages, leakages, dumps, & disposables. Explosive Storage - Petroleum act - storage of explosive – precautions during loading, unloading, storage, transportation & usage, Gas Cylinder rules, Fire and other Hazards & precautions for mitigation, Cross contamination & Hygiene precaution in case of chemicals & pharmacy food storage material, Hazardous Waste Storage and Management – Storage and disposal methods and legal compliance	5 + 1
5	Key Operational Aspects in SC: Creating the Lean SC – JIT Purchasing, JIT Transportation and JIT Production. Kanban, VMI	4 + 1

Learning Resources:		
1	Text Books	Purchasing & Supply Chain Management by Monczka, Trent, Handfield, Cengage South Western, 3 rd Edition Supply Chain Management Process, System & Practice by N.Chadrsekaran, Oxford, 1 st Edition
2	Reference Books	Purchasing & Supply Chain Management by Dobler, Burt, TMGH, 6 th Edition.
3	Supplementary Reading Material	The Management of Business Logistics by Coyle, Bardi, Langley, Cengage Learning, 5th Indian Reprint

Borade; Satish V. Bansod., <i>Journal of Manufacturing Technology Management</i> , Oct2010, Vol. 21 Issue 8

Semester	III	Specialization	Entrepreneurship Development
Course Code	309ED	Type	Subject - Elective
Course Title	Planning Operational Efficiency		

Course Objectives:	
1	To emphasize the importance of facilities planning in view of the size of investment.
2	To make the student understand the linkages of facilities planning with other activities
3	To underline the importance of facilities location

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Introduction to Facilities Planning: Facilities planning defined, Significance of Facilities Planning, Objectives of Facilities Planning, Long Range Capacity Planning, Facilities Planning process, Strategic Facilities Planning, Developing Facilities Planning Strategies, Examples of Inadequate Planning. Impact of Environmental Issues on Facilities Planning.</p> <p>Product, Process and Schedule Design: Introduction, Product Design, Process Design, Schedule Design, Facilities Design.</p>	5 + 1
2	<p>Logistics and Facilities Location: Logistics, Decisions related to Logistics, Issues in Facilities location – Market related factors, Cost-related factors, Regulatory and Policy Issues, Location Planning Methods – Location Factor rating, Centre-of-gravity method, Load-distance method, Transportation Model. Locating Service Facilities, Relocation aspects,</p>	5 + 1
3	<p>Layout Planning: Concept of Layout, Basic Layout Types, Layout Procedures, Algorithmic approach, Department Shapes and Aisles, Multi-floor facility layout, Commercial Facility Layout, Impact of change, Developing alternative layouts. Introduction to ALDEP and CORELAP.</p> <p>Facilities design for various Facilities Functions: Warehouse operations – Functions of Warehouse, Receiving and Shipping Operations, Dock Locations, Storage Operations, Order Picking Operations.</p>	6 + 1
4	<p>Service Facilities Layout: Nature of Services, Operational Classification of services, Structuring the service encounter, Service blueprinting and fail-safing, Role of floor manager in service sectors such as – Hospital, Hotel, Airlines and airports.</p>	4 + 1
5	<p>Flow Space and Activity Relationships: Departmental Planning, Activity Relationships, Flow Patterns, Flow Planning, Measuring Flow, Space Requirements.</p> <p>Personnel Requirements: Employee-Facility Interface, Restrooms, Food Services, Health Services, Barrier-Free Compliance, Office Facility Planning.</p> <p>Material Handling: Scope and Definition of Material Handling, Material Handling Principles, Designing Material Handling Systems, Unit Load design, Material Handling Equipment, Estimating Material Handling costs, Safety Considerations.</p>	5 + 1

Learning Resources:		
1	Text Books	Facilities Planning by Tompkins, White, Bozer and Tanchoco, Wiley India 3 rd Edition. Operations Management – Theory and Practice by B Mahadevan, Pearson, 2 nd Edition
2	Reference Books	Operations and Supply Management by Chase, Shankar, Jacobs and Aquilano, TMGH, 12 th Edition
3	Supplementary Reading Material	Operations Management by Terry Hill, Palgrave, 2 nd Edition. Operations Management – Quality and Competitiveness in a Global Environment by Russell and Taylor, Wiley India, 5 th Edition

Junell. Industrial Engineer: IE, Mar2012, Vol. 44 Issue 3 A Conceptual model for barrier free facilities planning, Soares, Marcelo M.; Jacobs, Karen; Bittencourt, R.S.; de M.Guimarães, L.B. Work, 2012, Vol. 41

Semester	III	Specialization	Entrepreneurship Development
Course Code	310ED	Type	Subject - Elective
Course Title	Manufacturing Resource Planning		

Course Objectives:	
1	To understand role and importance of Manufacturing Resource Planning (MRP II)
2	To know the inputs, processing and outputs of MRP II

Syllabus:

Unit Number	Contents	Number of Sessions
1	Master Production Scheduling (MPS): Introduction to MPS, Need, objectives & functions of MPS, Role of MPS in management- as a "Link between strategic and tactical planning", Logical flow of materials in different manufacturing scenarios (VAT Analysis), Planning horizons and Time periods (Buckets) of MPS, Order management in MPS, Safety and hedges, Projected Available Balance (PAB) and Available To Promise (ATP), Time Fences & effect of changing MPS decisions on time fences, Final Assembly Schedule (FAS).	5 + 1
2	Material Requirements Planning (MRP-I): Introduction to MRP-I, Roles & functions of MRP-I, Independent & Dependent Demand, Bill of Materials (BOM), Types of BOM, Numerical Problems on BOM, Lot-sizing, MRP-I as Input & Output Process, MRP-I Spreadsheet problem, Pegging reports & where-used files.	5 + 1
3	Capacity Management: Introduction to 'Capacity' and 'Capacity management', Capacity Expansion Strategies, Capacity Planning levels vis-à-vis Manufacturing planning levels, Capacity measurement, Rough Cut Capacity Planning (RCCP), Capacity Requirement Planning (CRP), Shop Calendar, Scheduling strategies- Backward & Forward scheduling, Infinite & Finite loading, Production smoothing policies.	5 + 1
4	Manufacturing Resource Planning (MRP-II)- (Module-I): Introduction to MRP-II, Roles & functions of MRP-II, MRP-II framework, Information flow in MRP-II, Relation of MRP-II with Demand management and Capacity management, Manufacturing calendar.	5 + 1
5	Manufacturing Resource Planning (MRP-II)- (Module-II): Transition from MRP-I to MRP-II, Closed loop MRP, Comparison between MRP-I and MRP-II, Plant & supplier scheduling, Problems associated with MRP-II, Benefits and prospects of MRP-II, Compatibility between MRP-II & Just-in-Time (JIT).	5 + 1

Learning Resources:		
1	Text Books	Manufacturing Resource Planning (MRP II) with introduction to ERP, SCM and CRM by Khalid Sheikh, TMGH, 1 st Edition Operations Management – Theory & Practice by B. Mahadevan, Pearson Pub., 2 nd Edition
2	Reference Books	Plossl, George, Orlicky's Material Requirement Planning, McGraw-Hill, Inc, 2 nd Edition, 1994
3	Supplementary Reading Material	Operations management by William J, Stevenson, Tata McGraw Hill Companies – 9 th Edition

Semester	III	Specialization	Entrepreneurship Development
Course Code	311ED	Type	Subject -Elective
Course Title	Legal compliances for Entrepreneurs		

Course Objectives:	
1	To equip students with various compliances the Entrepreneur has to give under different Acts
2	To learn drafting skills of these compliances

Syllabus:

Unit Number	Contents	Number of Sessions
1	Inception of a Company/Business – Types of Companies, Registering your Business entity.	3
2	Income Tax Laws Compliance – Understanding Income Tax laws, Account Books Preparation, maintaining accounts, understanding tax deduction at source (TDS) provisions, filing returns, etc.	5
3	Establishment Laws Compliance - Obtaining and renewing Factory License, understanding provisions of Factories Act and filing return. MPCBA compliance and return. Reporting Accidents.	5
4	Employment & Wages Laws Compliance - Complying with Minimum Wages Act provisions and filing return on payment of wages. Provident Fund (PF) payment and return, Payment of bonus, ESIC payment and returns.	4
5	Privacy Laws: Understanding the provisions of Information Technology Act with respect to entrepreneurs. Presentation on the learning by students on all above topics.	13

Learning Resources:		
1	Text Books	Bare Acts Labour Law by S.P. Jain Labour Law by Malik
2	Reference Books	Introduction to Labour & Industrial Laws by Avatar Singh, Lexis Nexis Labour & Industrial Laws by S.N. Mishra, Central Law Publication Labour Laws by S.D. Geet, Nirali Prakashan

Semester	III	Specialization	Entrepreneurship Development
Course Code	313ED	Type	Subject - Elective
Course Title	Quality Management System		

Course Objectives:	
1	To create an awareness of fundamental principles, significance and implementation of quality management
2	To use new concepts of TQM in the process of continuous improvement and learning

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction: History of Total quality management, Principles of TQM, Features of TQM, Tool and techniques of TQM, TQM implementation, Barriers to TQM implementation	5 + 1
2	Components of TQM: Customer supplies relationship, Management leaders and leadership in TQM system, Values vision mission and goals in TQM, Cultural change for TQM, Continuous improvement and learning in TQM, Creativity and innovation, Communication.	7 + 1
3	Quality Certification: Evolution of ISO 9000 standard, Principles and objectives of ISO 9000 standard, Procedure for registration and certification of ISO 9000 Standards, ISO 9000 standard versus QS 9000	5 + 1
4	5S for Quality Ambience: Definition of 5S, Implementation of 5S	3 + 1
5	Tools for Continuous Improvements: PDCA process, Just in Time, Poka Yoke , Kaizen, Six Sigma.	5 + 1

Learning Resources:		
1	Text Books	Total Quality Management Principles and Practices by S.K Mandal
2	Reference Books	Total Quality Management by N. Srinivasa Gupta, B. Valarmathi Total Quality Management by I. Suganthu, Anand Samuel

Semester	III	Specialization	Entrepreneurship Development
Course Code	314ED	Type	Subject – Elective
Course Title	Microfinance		

Course Objectives:	
1	To Appraise the state of microfinance in Indian Economy
2	To make students understand the concept and principles of microfinance
3	To help students to identify issues, linkages and role of technology that hinder the success of microfinance

Syllabus:

Unit Number	Contents	Number of Sessions
1	Overview of Microfinance: What is Microfinance ? , Economically active poor, Microfinance Institutions, Trends in Poverty in India, Can Poverty be eradicated, Microfinance as a development tool: The India Experience	5 + 1
2	Subsidized credit to Microcredit: Progress of rural banking, growth of microcredit, RRBs and micro credit, sustainable micro credit, Microfinance delivery methodologies.	5 + 1
3	Microfinance Institutions: Why is credit microcredit booming?, credit delivery, four tier apparatus. NGO –SHG-Bank Linkage – Lending through NGOs, scalability – the new mantra of NGOs; State Sponsored Microfinance	5 + 1
4	Outreach and Viability: Impact assessment study of microfinance, innovative and creative microfinance models	5 + 1
5	Role of Technology: Technology as an Enabler – Case study	5 + 1

Learning Resources:		
1	Text Books	Microfinance - Redefining the Future, Somanath, Excel books

2	Reference Books	Microfinance: Concepts, Systems, Perceptions, and Impact: A Review of Sgsy Operations in India, Soumitra Sarkar, Samirendra Nath, Readworthy Publications Microfinance: Emerging Trends and Challenges, Suresh Sundaresan, Edward Elgar Publishing Limited The Microfinance Revolution: Sustainable Finance for the Poor, Volume 1, Marguerite S. Robinson, The World Bank, Washington, D. C. Open Society Institute, New York The Economics of Microfinance Armendáriz, Beatriz, Morduch, Jonathan, PHI Microfinance, V S Somanath, Excel Books

Semester	III	Specialization	Entrepreneurship Development
Course Code	315ED	Type	Subject - Elective
Course Title	IT for Entrepreneurs		

Course Objectives:	
1	To learn Information technology and their components types and its applications
2	To learn Emerging Technologies useful for an entrepreneur
3	To have hands on experience on various software tools IN MS OFFICE like Excel used by the

Syllabus:

Unit Number	Contents	Number of Sessions
1	Introduction to Information Technology: Components or IT Infrastructure like –Software-(types of software), Hardware (Data capturing , data processing , storage , computing and network Devices .	5+1
2	Networking in current Business scenarios : Operating system- Single user and Multiuser ,Windows, Unix/Linux, Novel Network .LAN,MAN,WAN and it is applications for an entrepreneur. Data Communication technologies like wired and wireless. (introductory level)	5+1

3	Data collection and Data Processing: Computing using Software Packages. (To be conducted as practical with hands on exposure). 1 Microsoft Word – Mail merge 2 Microsoft Excel – Formulas, Graphs, Basis statistical formulae. 3 Microsoft Power Point – Creating effective presentations 4. Tally – Journal Entry, Ledger posting, Preparation of Balance Sheet, Introduction to Database and Relational Data base Management System(DBMS and RDBMS) with Business Examples.	5+1
4	Introduction to Web based operations: Type of Web sites like Static and Dynamics . HTML – Home page designing for each student using Microsoft FrontPage	5+1
5	Information security Issues and Challenges for an entrepreneur: Data backup , Data security . Protection of IT Infrastructural facilities. Privacy ,System troubles and trouble shooting (Introductory level)	5+1

Learning Resources:		
1	Text Books	Mastering HTML- CYBEX Publication
2	Reference Books	Complete Reference VB Script and Java Script – Tata McGraw Hill Dynamic HTML- O'Reilly Media Internet & Web Technologies- Tata McGraw-Hill Education
3	Supplementary Reading Material	
4	Websites	www.3school.com
5	Journals	International Journal of Web & Semantic Technology Web Technology Journal

Semester	III	Specialization	Entrepreneurship Development
Course Code	316ED	Type	Subject - Elective
Course Title	Supply Chain Management		

Course Objectives:	
1	To emphasize the managerial perspective of core tasks and challenges in effectively managing the purchasing function within the context of integrated supply chain.
2	To make the students aware of the different demands placed on the purchasing and supply chain managers by business stakeholders.
3	To help the students understand the impact of purchasing on competitive success and profitability of modern day organizations.
4	To provide an in-depth understanding of the fundamentals surrounding the operational aspects of purchasing.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Purchasing Process, Policy & Procedures: Purchasing Objectives, Responsibilities of Purchasing, Types of Purchases, Improving Purchase Process, Purchasing Procedures, Policy Overview – What makes an effective Policy? Advantages & Disadvantages of Policies, Policies defining - Role & conduct of Purchasing, Buyer-Supplier Relationship, Operational Issues, Ethical considerations in Purchasing	5 + 1
2	Organizing the Purchasing Function: Purchase Function Position Within the Organization Structure, Factors affecting Purchasing's Position, Reporting of Purchasing function, Organizing of Purchasing, Separating Operational & Strategic Purchasing, Advantages & disadvantages of centralized, decentralized Purchasing, Hybrid Purchasing Structure	5 + 1
3	Strategic Sourcing – Supplier Evaluation & Selection: Linking Purchasing and Corporate Strategy, Translating Corporate Objectives into Purchasing Goals, Translating Purchasing Objectives into Purchasing Goals, Purchasing Strategy Development Process, Types of Purchasing Strategies, Supply Base Optimization, Critical Role of In-sourcing / Outsourcing, The In-sourcing / Outsourcing Decision Process, Make or Buy, Supplier Evaluation and Selection Process, Need for Supplier Selection, Identifying key sourcing requirements, Evaluation and Selection, Key Supplier Evaluation Criteria	5 + 1
4	Supplier Quality Management: Overview of Supplier Quality Management – What is Supplier Quality? Why be Concerned with Supply Quality? Factors Affecting Purchasing's Role in Managing Supplier Quality, Supplier Quality Management using Total Quality Perspective, Defining Quality in Terms of Customers and their Requirements, Pursuing Quality at the Source,	5 + 1
5	Negotiation & Contracts Management: Objectives of negotiation, when to negotiate, The negotiation Process, Preparation, Establishing the Objectives, Dynamics of Negotiation, Phases in face-to-face negotiation, Negotiation Techniques – traditional, collaborative, price analysis, cost analysis. Types of Contracts – Fixed Price, Cost based / Indexation, Long term, Short term. Consideration when selecting contract types, How to write a Contract. Essential elements of Contract, Purchase Order (P.O), Difference between P.O & Contract	5 + 1

Semester	III	Specialization	Entrepreneurship Development
Course Code	317ED	Type	Subject – Elective
Course Title	Using Excel for Business Intelligence		

Course Objectives:	
1	To develop the ability to utilize the core functionality of excel in decision framework to solve managerial problems in the finance functions of the business.
2	To master modeling techniques to eliminate the substantial risk of poor spreadsheet coding.

Syllabus:

Unit Number	Contents	Number of Sessions
-------------	----------	--------------------

1	Modeling Practice And Principles: Making decisions based on numbers, Features of MS Excel to its maximum advantage to calculate and communicate decision information. Understanding The Make-Up Of Analytical Decision Calculus, How problems in business are framed, Construction of integrated financial statement, Developing the decision matrix, Case Studies. Excel 2010 Logic And Tool Sets - How Excel is structured – the Toolsets, The Excel Ribbon Interface, Understanding Excel Objects, The limitations of Excel, Working With Functions - Utilizing the existing Excel formulae functions: Financial, Logical, Date and Time, Lookup and Reference, Statistical, Strategy for developing nested formulae functions, Good Excel coding techniques. Consolidation: Linking principles in excel, Consolidation function, Outlining function, Linking to external data sources.	5 + 1
2	Exploring The Visualization Power Of Excel: Specific functions of Excel, Advanced Chars, Understanding the Excel for Charts, What are the appropriate graphs to assist in analytics? Examining the different types of graphs, Advanced graphing formatting techniques, Creating interactive graphs. Advanced Formatting Techniques - Formatting strategies in Excel – how we develop rich reports, Examining the Conditional Formatting functionality, Inserting Objects into Excel. Developing A Dashboard - What is a dashboard and good design principles, Utilizing Indirect, Lookup and Match functions, Using SLICERS, Case Study – Producing world class Monthly Management Accounts.	5 + 1
3	Data And Statistical Analysis Of Large Tables: Data Management In Excel, Examining the concept of data and how excel deals with them, Creating data input tables , Data cleaning functions, Creating tables, Filtering functions, Special functions using tables, Case study – analyzing a large marketing customer. Analyzing Data with Excel Pivot - Understanding what is OLAP, Importing from external Databases (SQL and Access), Performing calculations in PIVOT TABLE, Creating graphs in PIVOT CHART, Case Study – analyzing a large Sales Database. Data Analysis: Data Summation and Graphing using the Data Analysis Pack, Introduction to Inference Capabilities, Working with advanced statistical functions, Forecasting, Multiple Regression, Other Advanced Functions - Linear Programming, Data mining Toolset from SQL 2008.	5 + 1

4	Developing The Interactive Model: The Modeling Methodology, Designing the Model Structure , Developing the Input Screen and assumption interface, Incorporating exogenous and macroeconomic dimensions, Structuring the Calculation Sheets, Developing The Calculation Modules - Investment size and timing, Capacity Modeling, Revenue Modeling with major emphasis on pricing elasticity and demand drivers, Cost modeling and the impact of inflation. Funding Considerations - Structuring the Funding Model, Determining the Weighted Average Cost of Capital, Developing the Debt Funding Repayment Schedules, Integrating the modules, Developing the Working Capital requirements - Linking the CAPEX, Income Statement and Working Capital to Cash Flow Statement, Integrating the Cash flow Statement to the Balance Sheet, Developing the Free Cash Flow Model for NPV , Summarizing the results. Auditing The Model - Spreadsheet Audit, Stress testing the model to determine logic, Documentation.	5 + 1
5	Modeling Analytics: Developing The Output Screens And Report, Developing an Investment Dashboard, Preparing the report outputs, Report presentation dynamics, Examining The Output, “What If” functionality of Excel to analyze the sensitivity of the numbers, Preparing the DATA TABLES to determine the impact of key variables, Utilizing the SCENARIO MANAGER to determine profitability, Utilizing the GOAL SEEK function, Preparing The Investment Report To Management- Preparation of Investment Report that complies with disclosure requirement, Dealing with risk and the limitations of the assessment, Assessing the Cash Flow of a “no-invest” option, Writing up the investment report utilizing the rich features of Word 2010. Presenting the Report - Using PowerPoint 2010, Web enable your report, Good presentation technique.	5 + 1

Note:

1	Depending upon the data available regarding research projects available with the institute, small assignments can be created to develop the models using Excel. Selecting different sectors and using their cost structure develop models for financial analysis and decision making. Risk measurement and portfolio management tools also can be incorporated in the same.

Semester	III	Specialization	Entrepreneurship Development
Course Code	318ED	Type	Subject - Elective
Course Title	Leadership Skills for Entrepreneurs		

Course Objectives:	
1	To understand leadership skills for entrepreneurs.
2	To develop an understanding of the nature and strategies of negotiation; and conflict and strategies to resolve the conflict.

Syllabus:

Unit Number	Contents	Number of
1	Leadership: concept of leadership, styles of leadership, Charismatic and Visionary Leadership, trait approach, contingency leadership approach, meaning and significance of contemporary leadership, success stories of today's global and Indian leaders;	5 + 1
2	Entrepreneurial Leadership: Innovation and creativity in entrepreneurial organizations. Entrepreneurial leadership in diverse contexts: family business, social and sustainable entrepreneurship and Management skills (plan, organize, measure, control, and provide leadership)	5 + 1
3	Entrepreneurial skills: creativity, problem solving, decision-making, communication, interpersonal skills, time management, team building, leadership quality; McClelland's N-Ach theory, self-analysis, personal efficacy,	5 + 1
4	4.1 Negotiation: Nature, Dimensions, Structure, norms & values, Strategy & planning, processes 4.2 Conflict Management: Definition, Models of conflict (Process & Structural), Sources of conflict, Relationship between conflict & performance in team; Managing Conflict - Individual difference, Personalities & abilities, Interpersonal conflict, Group conflict, Organizational conflict, Dealing with difficult subordinates & boss, Technique to resolve team conflict, Strategies to resolve organizational conflict, Role Play (activity)	7 + 1
5	Desk research: Students to study 4 case studies related to success stories of today's Global and Indian leaders.	3 + 1

Learning Resources:

MBA SYLLABUS: SEMESTER III
SERVICES MANAGEMENT – SPECIALIZATION

Semester	III	Specialization	Services Management
Course Code	305SM	Type	Specialization - Core
Course Title	Services Business Management		

Course Objectives:	
1	To introduce Services as a business function
2	To emphasize the importance of understanding internal & external environment in service decision making.
3	To expose students to a systematic services framework

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Understanding Various Aspects of Services – Introduction of Services Concept, Classification of Services, Identifying and analyzing the unique characteristics of services, ways and means to address associated service challenges.</p> <p>The New Revolution in Services- Process, Professionalism and quality, Service Triangle Marketing Model, Service Encounter and Moment of Truth (MOT).</p> <p>Service Expectation – Expectation - Expected services: Two levels of Experience-The Zone of Tolerance-Sources of desired service expectation- A model of customer service expectation.</p> <p>The Service Product - Recent Trends, Service Culture, Contemporary Services, Service Life Cycle(SLC), New Service Development(NSD), relevance of branding in services.</p> <p>Service Location – Flexibility-Classification by location-Accessibility through co-production- service channel development, locations decision, Basic Location Models.</p>	7+2
2	<p>Services Mix Elements - Introduction, elements of Services mix</p> <p>Product- The Service Product, Service Product life cycle strategies, Service product range, Failure of new Service Products, Achieving success in development of new Service Products, Service Product elimination.</p> <p>Place- Managing distribution channels in service industry, factors affecting choice of distribution channel, strategies for distribution, Effect of internet-global distribution system in services.</p> <p>Pricing for services-Price terminologies, understanding the cost of service incurred by customers, understanding value, pricing objectives, methods of pricing services.</p> <p>Promotion- Promotional objectives, Selection criteria, developing the promotion mix, Sales promotion tools, promotion planning and strategy</p> <p>Physical Evidence- Introduction, Elements, Role of physical evidence, managing physical evidence as a strategy.</p>	7+2
3	<p>Service Environment—External versus Internal marketing, Micro and Macro service environment</p> <p>PESTEL- analysis of service sector, Six Market Model</p> <p>Market Analysis and Segmentation- planning process, rethinking the customer service function, focusing and positioning target customers, relationship of service employees and internal marketing.</p> <p>Service Design: Introduction, design methodology, service design and management model, overview of model stages, building a service blueprint, benefits of service blueprinting.</p>	7+2
4	<p>Consumer in Service Industry- buyer characteristics, buyer decision making process (EKB model), customer involvement in service process, customer</p>	7+2

	<p>behavior in service settings.</p> <p>Relationship Marketing- evolution of relationship marketing, degree of relationship building, the importance of customer retention, enhancement of internal and external relationship change.</p> <p>7S Framework- determining the value of customer, lifetime value of customer, customer relationship management strategies, customer delight, customer loyalty.</p> <p>Framework Linking Employee Satisfaction, Customer Satisfaction and Profitability.</p>	
5	<p>Research In Service Industry : Changing dynamics and challenges of sectors</p> <p>Growth in Service Sector: Importance, Growth and Development of Service Sector in India, environmental changes ushering the services boom</p> <p>New Economic Policy and its Impact on Service Sector</p>	7+2

Learning Resources:

1	Text Books	<p>Services Marketing Operations And Managements by Vinnie J Juhari, Kirti Dutta, Oxford University Press</p> <p>Services Marketing And Management by Dr. B Balaji , S Chand And Company Ltd.</p>
2	Reference Books	Services Sector Management An Indian Perspective by C. Bhattacharjee
3	Supplementary Reading Material	<p>Business Line</p> <p>The Essence Of Services Marketing by Payane, Adrin: Prentice Hall, New Delhi.</p> <p>Services Marketing –The Indian Experience by Shankar, Ravi: South Asia publication New Delhi.</p> <p>Services Marketing by Hoffman: Cengage Learning</p>

5	Journals	<p>Journal of Retailing & Consumer Services (included in Ebsco Business Source Elite)</p> <p>Indian Journal of Marketing</p>

Semester	III	Specialization	Services Management
Course Code	306SM	Type	Specialization Core
Course Title	Services Performance Management		

Course Objectives:	
1	To recognize and understand different types of services delivered by services based organisations
2	To anticipate and evaluate specific challenges of services based organization.
3	To understand factors crucial to service delivery and recovery

Syllabus:

Unit Number	Contents	Number of Sessions
1	<p>Understanding Consumer /Customer Behavior- Customer expectation, Process Model of customer service expectation model, 4c's of customer service mix.</p> <p>Creating the Right Service Philosophy- customer service, pre to post transaction elements, meeting the service challenge, determine the cost of poor service</p> <p>Fundamentals of Customer Satisfaction-Factors influencing customer satisfaction, understanding the customer service, customer loyalty, customer delight.</p> <p>Managing Demand & Supply of Services - managing demand, patterns and determinants of demand, strategies of managing demand, managing capacity, capacity planning, waiting line strategies, inventorying demand through reservation, queuing, impact of crowding</p>	7+2
2	<p>Service Process Management –Introduction, Classification of Services Operating System, Policies & Flow Charting</p> <p>Concepts of Service Processes-Relationship between Profitability and Service Process</p> <p>Essentials of A Service Blueprint-Importance of A Customer's Role In Service Delivery</p> <p>Dimensions of Service Process Matrix, Design and Implementation</p> <p>Process of Service Guarantees</p>	7+2
3	<p>TQM in Services– Introduction to Service Quality, Total Quality Management, Dimensions of TQM, Implementing TQM in Service sector, Roadmap for TQM, Controlling Quality, Effects of TQM, Quality Circles</p> <p>Delivering Quality Services- Service based components of quality, perceived quality, measuring satisfaction, Customer Satisfaction</p> <p>Measurement techniques Market Perceived Quality (MPQ), Return on Quality(ROQ), strategy for improvement, service guarantees, design and implementation process of service guarantees</p> <p>Planning and Managing Service Delivery-Service design elements, considerations in the design of service delivery systems, technology in service productivity, role of technology and physical aids in service process</p>	7+2
4	<p>Service Quality and Measurement-Understanding Quality Management, Gronroos Model, The gap model Parasuram, Zeithaml Berry(PZB)</p> <p>Measurement Instrument –SERVQUAL items & dimensions, developing customer satisfaction surveys, Prescription for closing service gaps</p> <p>Soft & Hard Measures of Service Quality- tools to analyze and address service quality problems, root-cause analysis: fishbone, blueprinting of services.</p> <p>Services Performance Failure- concept of service failure and recovery, customer response to service failure-service recovery following customer complaints, solving problems and preventing their recurrence, A new</p>	7+2

		quality goal: Zero defection-Service deletion, strategies for an effective service recovery	
5		Overview & Understanding Performance of Service Sector - Banking & Insurance, Hospital and Health Care, Travel & Tourism, Hotel & Catering, Retail & Contractual Services Service Sector Case Study – Learning from Diagnostic Cases of successful / unsuccessful service sector, key factors explaining success/failure.	7+2
Learning Resources:

Semester	III	Specialization	Services Management
-----------------	------------	-----------------------	----------------------------

Course Code	309SM	Type	Subject – Elective
Course Title	Information Technology Enabled Services Management		
1	To understand the importance of ITES in service management		
2	To enhance knowledge of global trends in outsourcing		

Syllabus:

Unit Number	Contents	Number of Sessions
1	ITES introduction-Meaning of Outsourcing, Factors driving the need to Outsource, types of outsourcing, skills to manage outsourcing efforts, the outsourcing lifecycle, stages of outsourcing, distinguishing features, Global trends in outsourcing and role of India in outsourcing.	6+2
2	KPO/BPO- introduction, significance, impressive growth potential, third party service providers, increasing specialization, future of BPO/KPO, new avenues for KPO/BPO, challenges facing the industry.	6+2
3	Student should be given an assignment to identify all possible types of IT applications and enlist the market segments for each of IT application.	8+1
4	Submission of the report to the concerned faculty	5

Learning Resources:

1	Text Books	Service Sector Management- An Indian Perspectives by C. Bhattacharjee, Jaico Publishing House, 4 th Ed.
2	Reference Books	Services Management by HR Appannaiah, P.N Reddy, H.V.S. Raghavan, D.S Gopal Krishna, Himalaya Publishing House, 1 st Ed, 2009

Semester	III	Specialization	Services
-----------------	------------	-----------------------	-----------------

			Management
Course Code	310SM	Type	Subject - Elective
Course Title	Service Value Chain Management Lab		

Course Objectives:	
1	To explore how to leverage the value chain to accelerate innovation in services
2	To emphasize the use of value chain for customer satisfaction.
3	To provide insights for creating customer delight.

Syllabus:

Unit Number	Contents	Number of Sessions
1	Value Processes- Creating service value, Defining the benefit part of service value- the service product Service Value Chain- Introduction, Significance, Managing the service process through service value chain Costing of Services- Defining the cost part of service value: service pricing Delivering service value: Managing service delivery	5+1
2	Value creation by services marketing- service value chain and service profit chain Evaluating internal customer value leading to external customer satisfaction Key elements of service profit chain – customer loyalty and satisfaction, understanding value from customer perspective, dream team cycle.	4+1
3	Value Chain Service Innovations: Introduction, Components, Types, Models, Processes of Innovation, Evolution and Characteristics of Innovation Management, Key drivers, Factors influencing Innovation, Organizing for Innovation, Factors influencing service organizational design, Developing Innovation Strategy	4+1
4	Case Studies related to Service Value Chain in Banking & Insurance, Hospital and Health Care, Travel & Tourism, Hotel & Catering, Retail and Contractual Services.	6+1
5	Case Study Presentation by the students to the concern faculty	6+1

Learning Resources:

1	Text Books	"Competitive Advantage" by Porter, Michael E., 1985, The Free Press. New York. "Strategic Management: a Methodological Approach" by Rowe, Mason, Dickel, Mann, Mockler; 4th Edition, 1994. Addison-Wesley. Reading Mass
